(I) the insurance carrier or network pharmacy failed to respond to the reauthorization request;

(II) medical reports were not yet filed for reauthorization, or a filed medical report contains a defect;

(III) the medication has been authorized in the past; however the carrier denies authorization claiming that the medical treatment guidelines do not support reauthorization;

(ii) Any pharmacist that agrees to dispense medication to a claimant under this paragraph shall:

(iii) Upon approval of any medication dispensed by a pharmacy pursuant to this paragraph, such pharmacy shall be entitled to receive prompt payment for such medication from the insurance carrier directly within forty-five business days of such approval, and shall be permitted to continue to provide such medication to the claimant outside of the network after such claimant's case has been established.

§ 2. This act shall take effect on the thirtieth day after it shall have become a law. Effective immediately, the addition, amendment and/or repeal of any rule or regulation necessary for the implementation of this act on its effective date are authorized to be made and completed on or before such effective date.
