13 the state of New York would increase the cost of the contract by an
14 unreasonable amount; that such personal protective equipment or medical
15 supplies cannot be produced or made in the state of New York in suffi-
16 cient and reasonably available quantities and of satisfactory quality or
17 design to meet the department's or agency's requirements; or that

25 satisfy the requirements of this subdivision.

26 4. Nothing in this section is intended to contravene any existing

38 law, rule or regulation, the provisions of this section shall not apply
39 to contracts involving personal protective equipment and medical
40 supplies during the existence of a state disaster emergency under
41 circumstances described in section twenty-eight hundred seventy-eight-cc
42 of this article requiring the purchase of personal protective equipment

15 would not be in the public interest; that obtaining such personal
16 protective equipment or medical supplies produced or made in the state
17 of New York would increase the cost of the contract by an unreasonable
18 amount; that such personal protective equipment or medical supplies
19 cannot be produced or made in the state of New York in sufficient and
20 reasonably available quantities and of satisfactory quality or design to
21 meet the authority's requirements; or that purchasing personal protec-
22 tive equipment or medical supplies produced or manufactured outside of
