The municipality has no obligation to obtain other information as to the ownership of land, and its determination of ownership shall be final and conclusive for the purposes of this article. persons having any objections to the proposed infrastructure financing 1 plan, or the regularity of any of the prior proceedings, may appear 2 3 before the municipality and object to the adoption of the proposed plan 4 by the municipality.

- 2. At the hour set in the required notices, the municipality shall proceed to hear and pass upon all written and oral objections. The hearing may be continued from time to time. The municipality shall consider the recommendations, if any, of affected taxing entities, and all evidence and testimony for and against the adoption of the plan. The municipality may modify the plan by eliminating or reducing the size and cost of proposed public works, by reducing the amount of proposed debt, or by reducing the portion, amount, or duration of incremental tax revenues to be committed to the district.
- 3. Nothing in this section shall be construed to prevent the municipality from amending its infrastructure financing plan and adopting a resolution proposing formation of the infrastructure financing district without allocation of the tax revenues of any affected taxing entity which has not approved the infrastructure financing plan by resolution of the governing body of the affected taxing entity.
- 4. At the conclusion of the hearing, the municipality may adopt a resolution proposing adoption of the infrastructure financing plan, as modified, and formation of the infrastructure financing district, or it may abandon the proceedings. If the municipality adopts a resolution proposing formation of the district, it shall then submit the proposal to create the district to the qualified electors of the proposed district in the next general election or in a special election to be held, notwithstanding any other requirement at least ninety days, but not more than one hundred eighty days, following the adoption of the resolution of formation. The municipality shall provide the resolution of formation, a certified map of sufficient scale and clarity to show the boundaries of the district, and a sufficient description to allow the election official to determine the boundaries of the district to the official conducting the election within three business days after the adoption of the resolution of formation. The assessor's parcel numbers for the land within the district shall be included if it is a landowner election or the district does not conform to an existing district's boundaries and if requested by the official conducting the election. If the election is to be held less than one hundred twenty-five days following the adoption of the resolution of formation, the concurrence of the election official conducting the election shall be required. However, any time limit specified by this section or requirement pertaining to the conduct of the election may be waived with the unanimous consent of the qualified electors of the proposed district and the concurrence of the election official conducting the election.
- 5. After the canvass of returns of any election pursuant to this section, the municipality may, by ordinance, adopt the infrastructure financing plan and create the district with full force and effect of law, if fifty-five percent of the votes upon the question of creating the district are in favor of crating the district.
- 6. After the canvass of returns of any election conducted pursuant to this section, the municipality shall take no further action with respect to the proposed infrastructure financing district for one year from the date of the election if the question of creating the district fails to 54 receive approval by fifty-five percent of the votes cast upon the ques-55 tion.

Unless and until the total assessed valuation of the taxable property in a district exceeds the total assessed value of the taxable property in the district as shown by the last equalized assessment roll referred to in subdivision one of this section, all of the taxes levied and collected upon the taxable property in the district shall be paid to the respective affected taxing entities. When the district ceases to exist pursuant to the adopted infrastructure financing plan, all moneys thereafter received from taxes upon the taxable property in the district shall be paid to the respective affected taxing entities as taxes on all other property are paid.
- 33 3. All costs incurred by a county in connection with the division of taxes pursuant to this section for a district shall be paid by that district.
