AN ACT to enact the "New York Business Emergency Relief Act of 2021"; to direct the governor to unallocated settlement funds resolved in the economic uncertainties fund (Part A); to amend the urban development corporation act, in relation to enacting the restart New York grant relief program (Part B); and to authorize the governor to reallocate certain monies for the restart New York grant relief (Part C).

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. Short title. This act shall be known and may be cited as the "New York Business Emergency Relief Act of 2021".

§ 2. Legislative intent. The legislature seeks to provide immediate assistance to businesses that have been deemed non-essential or have faced restrictions or closures as a result of the Governor's Executive Orders and have lost income as a result.

The legislature recognizes that New York's private businesses are the backbone of our state economy and the state must act boldly to address the negative impacts resulting from the COVID-19 outbreak and the associated statewide business sector shutdown. According to a recent poll by the National Federation of Independent Businesses, 76% of its members have been negatively impacted by COVID-19. Through Executive Orders, businesses that were deemed non-essential were forced to keep their doors closed with no indication of when they will be able to reopen and face significant revenue. It is imperative that the legislature provides immediate assistance to these businesses as they try to manage the devastating impact of the COVID-19 virus and the interruption of their business operations. The New York Business Emergency Relief Act of 2021 will offer direct fiscal relief and protections for businesses while mitigating the risk of businesses being forced to permanently close their doors and further harm the local and state economies.

EXPLANATION--Matter in italics (underscored) is new; matter in brackets [-] is old law to be omitted.
It is therefore the intent of the legislature to implement measures to assist New York's businesses with the loss of their income as a result of being deemed non-essential by the Governor's Executive Orders by providing direct financial assistance in the way of State grants. The legislature recognizes that extraordinary times call for extraordinary measures and therefore is directing that settlement money received by the state from financial or banking institutions, from current economic development programs and from any federal aid provided to the state for economic recovery be used to help the state fight the economic crisis brought on by the COVID-19 virus by directing this funding be provided to non-essential businesses that were negatively impacted by the Governor's Executive Orders.

§ 3. This act enacts into law major components of legislation which are necessary to implement the New York Business Emergency Relief Act of 2021. Each component is wholly contained within a Part identified as Parts A through C. The effective date for each particular provision contained within such Part is set forth in the last section of such Part. Any provision in any section contained within a Part, including the effective date of the Part, which makes a reference to a section "of this act", when used in connection with that particular component, shall be deemed to mean and refer to the corresponding section of the Part in which it is found. Section five of this act sets forth the general effective date of this act.

It is hereby declared to be the intent of the legislature that this act would have been enacted even if such invalid provisions had not been included herein.

§ 5. This act shall take effect immediately provided, however, that the applicable effective date of Parts A through C of this act shall be as specifically set forth in the last section of such Parts.
