AN ACT to amend the retirement and social security law, in relation to service credit for unpaid maternity leave for a Westchester county correction officer or deputy commissioner

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. Section 89-e of the retirement and social security law is amended by adding a new subdivision k to read as follows:

k. Notwithstanding any other provision of law to the contrary, an active member whose tenure with Westchester county as a correction officer or deputy commissioner who has elected to participate in the plan established pursuant to this section includes one or more unpaid maternity or bonding leaves of absence for which such member did not receive service credit, shall be eligible to purchase service credit for all such leaves of absence up to a maximum of three years, as long as such member has returned to the past employment covered by this section, and provided that (1) at the time of any such leave of absence, such member was subject to the provisions of this section, (2) such member elects to purchase service credit for such leaves of absence, (3) such member has at least five years of creditable service at the time that such member elects to purchase such service credit, and (4) such member agrees to pay the actual present value of the cost of such additional service credit. Any service credited to a member pursuant to this subdivision shall be deemed to be creditable service and shall be included in computing years of total service for retirement pursuant to this section.

FISCAL NOTE.--Pursuant to Legislative Law, Section 50:

EXPLANATION--Matter in italics (underscored) is new; matter in brackets [-] is old law to be omitted.

LBD04259-08-1

This bill would allow any Westchester County Correction Officers covered by the provisions of Section 89-e of the Retirement and Social Security Law (RSSL) to be eligible for service credit with the New York State and Local Employees' Retirement System (ERS) for any period of unpaid maternity or bonding leave of absence, so long as such member has returned to paid employment in a position covered by RSSL Section 89-e. The amount of service credit that may be purchased for such parental leave is capped at three years. In addition, such member must have accrued at least five years of service credit to be eligible to purchase the additional service credit.

This bill would not be consistent with the Retirement System's policy that service credit may only be granted for service for which a salary has been paid.

If this bill is enacted during the 2021 legislative session, it is estimated that the past service cost will average approximately 18% of an affected member's salary for each year of additional service that is credited. This cost will be borne by the member electing to purchase such service credit.

The exact number of current members as well as future members who could be affected by this legislation cannot be readily determined.

Since a member can apply for this service credit at any time prior to retirement, a precise cost cannot be determined until each member, as well as future members, applies for the service credit. When a member applies, an actuarial calculation will be required to determine the present value of the cost of such additional service credit.
