8 § 2. Section 1836-a of the public authorities law, as added by chapter  
9 788 of the laws of 1983, is amended to read as follows:

10 § 1836-a. Legislative findings. The legislature hereby finds and  
11 declares that [~~the health, safety and general welfare of the people of~~  
12 ~~this state are directly dependent upon the state economy, and that one~~  
13 ~~of the principal problems of our present economy is the permanent clos-~~  
14 ~~ing of industrial and manufacturing plants, and their relocation out of~~  
15 ~~state, which results in the loss of jobs and increasing unemployment.~~

16 ~~It is the purpose of this subtitle to encourage the employees of~~  
17 ~~plants that are about to be permanently closed, or relocated, to acquire~~  
18 ~~such plants and to continue to operate them as employee-owned enter-~~  
19 ~~prises, thereby retaining the jobs that would otherwise be lost, and~~  
20 ~~strengthening the economic base of this state] employee ownership  
21 program is a mainstream aspect of the United States economy with approx-  
22 imately thirteen and a half million workers participating in some form  
23 of employee ownership program at over seven thousand companies. The vast  
24 majority of such programs are the result of a transfer from the business  
25 owners to the employees and in accordance with federal law that seeks to  
26 facilitate such transfers. Employee ownership transfers are in the  
27 interest of business owners, who seek to liquidate their ownership  
28 interest and retire. Such transfers are also in the interest of the  
29 employees, who gain the opportunity to ensure the future survival of the  
30 firm and their jobs.~~

31 The legislature also finds and declares that employee-owned busi-  
32 nesses are more productive, enjoy increased sales, lower turnover rate  
33 and greater longevity, offer better employment opportunities, and are  
34 more likely to retain jobs in-state and less likely to relocate out-of-  
35 state. Employee-owned businesses also sustain the state tax base  
36 through employee and corporate income tax, while saving costs on unem-  
37 ployment insurance and other state benefit programs. It is the purpose  
38 of this subtitle to amplify federal programs in support of employee  
39 ownership at the state level through loans and loan guarantees that  
40 provide financing for the conversion of existing businesses to employee  
41 ownership.
