AN ACT to amend the agriculture and markets law, in relation to standards of care for animals held in, or being transported by, animal shelters; to amend the general business law, in relation to pet dealers; to amend the state finance law, in relation to establishing an animal shelter regulation fund; and to repeal certain provisions of the agriculture and markets law relating to pet dealers

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

1 Section 1. Legislative intent. The department of agriculture and
2 markets holds statutory responsibility for the oversight of municipal
3 animal shelters and any duly incorporated humane society, duly incorporated society for the prevention of cruelty to animals or duly incorporated animal protective association providing contractual animal sheltering services for local governments in this state. The department also
4 holds statutory responsibility for registering not-for-profit animal
5 shelters or rescue organizations as entities exempt from licensure and
6 inspection under the agency's pet dealer program. Currently however, no
7 statutory facility or animal care standards exist in law to which these
8 organizations must conform to adequately and uniformly ensure animal
9 health and wellbeing at and in transport to and from such facilities.
10 The legislature finds that the universe of entities harboring homeless

1 dogs and cats in our communities and providing animal transport in-state
2 and across state lines has evolved and grown exponentially over the past
3 several decades, rendering the existing statutory framework for the
4 oversight of such entities deficient and benefiting neither the adoptive
5 families of dogs and cats in need nor the organizations that work so
6 diligently to find safe, loving homes for them.

7 Therefore, it is the stated purpose of this legislation to establish
8 responsible, uniform and effective standards for the care of dogs and
9 cats in animal shelters as defined herein to improve state oversight,
10 ensure public trust and provide for increased protections for such
11 animals while in the care of such facilities.

12 § 2. The agriculture and markets law is amended by adding a new arti-
13 cle 26-C to read as follows:

(c) animals with known or suspected infectious diseases shall be housed in isolation areas as prescribed in subdivision nine of section four hundred twenty-four of this article;

(d) nothing in this subdivision shall be construed to prevent the temporary housing of animals in areas without such segregation for medical care and in pre- and post-operative surgical areas.

6. Well-socialized, healthy animals may be housed with one or more conspecifics. Animals housed together shall be compatible and have similar environmental requirements. Such housing shall not allow exposure to numerous different animals on a frequently changing basis.

7. Prior to being housed with one or more other animals the following conditions shall apply:

(a) all animals are vaccinated and dewormed against the pathogens specified in section four hundred twenty-nine of this article;

(b) physical examinations verifying the absence of clinical signs of infectious diseases have been performed;

(c) surgical sterilization or housing in same-sex groupings, except littermates under twelve weeks of age; and

(d) the animal has a collar or tag to facilitate visual identification, unless the animal's age or condition is such that application of visual identification is not practicable or would be detrimental to the animal's health.

8. Animals that are poorly socialized, fearful, or aggressive towards other animals or that are ill, injured, or within a week of whelping or queening shall be housed individually in a suitably sized, enriched primary enclosure.

1 (a) Littermates under the age of twelve weeks may be co-housed in an
2 isolation area if all individuals are infected with the same infectious,
3 contagious, parasitic or communicable disease.

4 (b) Dogs and cats within a week of giving birth or until separation
5 from the offspring shall be provided with a box with a solid floor large
6 enough to allow the animal to lie fully stretched on its side, permit-
7 ting all offspring to nurse and to accommodate all offspring until
8 weaned; and an area large enough to allow the dam or queen to leave the
9 whelping box.

10 9. Each enclosure shall clearly indicate the identities of all animals
11 contained within, specifying each animal's unique identifier as required
12 under section four hundred twenty-three of this article. Each animal
13 shall also be individually identified.

14 10. All primary enclosures shall provide sufficient space to allow
15 each animal, regardless of species, to:

16 (a) make all normal postural adjustments;

17 (b) fully stretch its body and have sufficient room to circle, lie
18 down, and stand upright without the head or tail touching the sides of
19 the enclosure even with the presence of water and food bowls, beds,
20 litter boxes, and other normal cage objects; and

21 (c) allow animals to sit, sleep and eat away from areas of their
22 enclosure where they defecate and urinate.

23 11. Any primary enclosure housing two or more animals shall provide
24 the following:

25 (a) sufficient space and quality of environment to allow all animals
26 to maintain social distances;

27 (b) adequate areas for hiding, resting, feeding, and elimination with
28 sufficient space to separate areas and the ability for all animals to
29 access those areas.

30 12. Regardless of the size of the primary enclosure, the number of
31 animals cohoused in a primary enclosure at one time shall not exceed the
32 following thresholds:

33 (a) twelve adult cats;

34 (b) two litters of kittens not to exceed ten kittens total;

35 (c) five adult dogs; or

36 (d) one litter of puppies.

37 13. Puppies and kittens less than sixteen weeks of age shall not be
38 housed in the same enclosure with adults other than their dam or queen,
39 or foster or surrogate dam or queen.

40 14. All animals housed with one or more conspecifics shall be sepa-
41 rated for feeding or observed at feeding times for antagonistic inter-
42 actions that pose a safety and welfare concern.

43 15. Animals shall not be housed outdoors for more than twelve hours
44 within a twenty-four-hour period, with the exception of free-roaming
45 cats under the care of the animal shelter.

46 16. Outdoor primary enclosures shall comply with all housing require-
47 ments prescribed in this section and shall provide the following:

48 (a) protection from the elements at all times;

49 (b) adequate drainage to prevent the accumulation of excess water in
50 or around the enclosures;

51 (c) a moisture-proof, insulated shelter structure large enough to
52 simultaneously accommodate all animals in the enclosure, unless immedi-
53 ate entry to an indoor portion of the enclosure is accessible;

54 (d) security from unauthorized entry of other animals into the enclo-
55 sure;

(e) a separate, shaded area sufficient to simultaneously accommodate all animals, except when animals have immediate access to an indoor portion of the enclosure;

(f) clean dry bedding at all times and a heat source when the outdoor temperature falls below fifty degrees fahrenheit; and

(g) enclosures that allow outdoor access for cats shall be fully enclosed to prevent escape from the enclosure.

17. For any animal in the custody or possession of any animal shelter for fourteen days or longer, alternative housing shall be provided in one of the following formats:

(a) enriched cages at least twice the size otherwise required for an animal's size;

(b) foster care in a private home, office, or other suitable off-site location; or

(c) room housing.

§ 426. Sanitation. Any animal shelter licensed pursuant to this article shall establish and maintain sanitation protocols that include the following:

1. use of one or more agents that have cleaning and disinfectant properties that are effective under conditions present in a given environment and with demonstrated effectiveness against the pathogens for which animals are at risk;

2. removal of animals from enclosures and placement in another appropriate enclosure or separation from the area being cleaned or disinfected by a functional compartment door when water, cleaning, or disinfecting agents are sprayed in or near an animal's enclosure;

3. dedicated equipment for cleaning and disinfection for use in each separate area of the shelter designated as cat or dog isolation, holding, adoptions or other functionally separate areas within the facility;

4. cleaning and disinfecting in between each use of items and surfaces that come into contact with animals, including but not limited to food and water bowls, litter boxes and exam tables, or procedures to discard and replace with new items for each animal;

5. cleaning and disinfecting all enclosures for temporary or permanent housing before a new animal enters such enclosure;

6. daily cleaning and at least once weekly disinfecting of enclosures that house the same animal or animals during a long-term stay;

7. cleaning and disinfecting enclosures when the enclosure becomes heavily soiled or otherwise contaminated or a new animal is added to the enclosure;

8. laundering of all animal bedding in a machine with detergent when soiled and thoroughly drying such bedding before reuse, or removing and disposing of such bedding appropriately;

9. cleaning of outdoor premises from clutter that may pose a safety concern and fecal material removed at least once daily;

10. appropriate use and disposal of protective garments worn during cleaning and intensive animal-handling activities within an animal shelter; and

11. proper hygiene of shelter staff, volunteers, and visitors, including signage, supervision, and hand sanitation.

§ 427. Shelter management protocols. 1. Each animal shelter shall have a clear, written, management structure that defines staff authority, reporting structure and responsibilities, and is readily accessible to all staff and volunteers.

2. Staffing shall be sufficient to allow adequate time, per animal, for cleaning and daily feeding, and to meet the minimum requirements for

1 socialization and exercise of animals as prescribed in section four
2 hundred thirty of this article.

3 3. The total number of animals housed in an animal shelter facility or
4 foster home shall not exceed the number of housing units available at
5 the facility as required by section four hundred twenty-five of this
6 article; provided, however, that exceptions to the provisions of this
7 subdivision shall be permissible for periods not to exceed forty-five
8 contiguous days in the event of an animal seizure pursuant to article
9 twenty-six of this chapter or a natural disaster where an official
10 declaration of the disaster or emergency has been made.

11 4. All animals shall be observed daily by a manager or designee to
12 identify each animal's needs for care, housing and service and to ensure
13 that each animal has a plan to advance efficiently through the shelter.

14 § 428. Animal husbandry. 1. (a) Each animal shelter shall provide each
15 animal under its care with fresh, potable water at all times unless
16 otherwise directed by a duly licensed veterinarian.

17 (b) Each animal shelter shall feed each animal under its care a
18 complete and nutritionally balanced, species-specific and life-stage-ap-
19 propriate diet as indicated by the animal's age, weight, and medical
20 health, or as directed by a duly licensed veterinarian in accordance
21 with the written protocols required by section four hundred twenty-three
22 of this article.

23 (c) Food shall be provided at least once daily for adult animals, at
24 least twice daily for animals less than six months of age, and at least
25 three times daily for animals less than two months of age.

26 (d) Perishable animal food shall be refrigerated.

27 (e) Animal food and water containers shall be present in sufficient
28 number and location to safely enable each animal in the enclosure to
29 access an adequate supply of food and water. Food and water bowls shall
30 be of the type that can be easily sanitized, be kept clean and shall be
31 cleaned and disinfected prior to use by a different animal, unless
32 disposable bowls are used and replaced between animals.

33 (f) Each animal shall be observed during or following each feeding
34 time to ensure daily food intake, or at least once every twenty-four
35 hours for animals continually offered food. Such observations shall be
36 recorded.

37 2. (a) Humane and safe physical restraint to limit some or all normal
38 voluntary movement of any animal in each animal shelter's care shall
39 minimize fear, pain, stress and suffering for the animal, protect both
40 the animal and personnel from harm, and be of the least intensity and
41 duration required to allow the specific procedure or procedures to be
42 performed properly.

43 (b) (i) Frightened or fractious animals may be appropriately tranqui-
44 lized, under the orders and supervision of a duly licensed veterinarian,
45 if they cannot be restrained safely and humanely.

46 (ii) No physical force shall be used as punishment or in anger.

47 (iii) Handling methods shall minimize the chance of escape and ensure
48 the safety of both humans and animals.

49 (c) Restraint devices and handling techniques employed by each animal
50 shelter shall be used in a manner that minimizes animal stress and risk
51 of injury to both animals and personnel, in the event such devices and
52 techniques are necessary for the safe handling of the animal.

53 (i) All equipment shall be maintained in good working order.

54 (ii) Cats shall not be restrained with control poles. Humane traps,
55 cat boxes, nets, towels, or other equipment appropriate for handling
56 fractious animals may be used. Squeeze cages, feral cat boxes, or

1 humane traps with dividers shall be used for restraining cats and admin-
2 istering tranquilizers prior to handling.

3 § 429. Veterinary care. 1. Prescription medications and treatments
4 shall be administered by each animal shelter under the advisement of or
5 in accordance with written protocols provided by a duly licensed veteri-
6 narian.

7 2. All drugs shall be documented and dispensed by each animal shelter
8 in accordance with applicable local, state, and federal laws and regu-
9 lations.

10 3. All incoming animals shall be assessed within two hours after
11 intake by a trained animal shelter staff member to determine if any
12 physical abnormalities exist that require immediate veterinary attention
13 in accordance with the shelter's written protocol for emergency care, as
14 required by section four hundred twenty-three of this article.

15 4. Each animal shelter shall have the ability to provide for veteri-
16 nary assessment and humane care in a timely fashion through in-house
17 facilities or at an off-site location.

18 5. Pursuant to the written protocol for emergency veterinary care
19 required by section four hundred twenty-three of this article, each
20 animal shelter shall provide appropriate and timely veterinary care for
21 any animal that is in distress, experiencing pain, or showing signs of
22 significant illness or injury.

23 6. Each animal shelter shall recognize and treat acute and chronic
24 pain appropriately, as set forth in article twenty-six of this chapter.
25 The legal status regarding the ownership of any animal shall not prevent
26 treatment to relieve suffering.

27 7. Each animal shelter shall provide a complete physical examination
28 of all animals in its custody or possession by trained shelter staff
29 within twenty-four hours of intake to identify medical or behavioral
30 conditions that require further evaluation and care. Animals shall
31 specifically be examined for bite wounds; animals that have potentially
32 been exposed to rabies shall be managed in accordance with applicable
33 local and state laws. Each animal shelter shall comply with the rabies
34 reporting requirements prescribed in 10 NYCRR 2.14.

35 8. Each animal shelter shall vaccinate each animal in its custody or
36 possession with core vaccines as recommended by national standards and
37 guidelines specific to animal shelters as established, endorsed or
38 approved by the American Association of Feline Practitioners (AAFP),
39 American Animal Hospital Association (AAHA), or the Association of Shel-
40 ter Veterinarians (ASV).

41 9. Each animal shelter shall provide all dogs, cats, and ferrets in
42 its custody or possession with a rabies vaccination prior to release in
43 accordance with local public health laws. Each animal shelter shall be
44 in compliance at all times with section one hundred nine of this chapter
45 and title four of article twenty-one of the public health law.

46 10. At a minimum, each animal shelter shall treat all animals in its
47 custody or possession for hookworms and roundworms prior to release
48 and/or placement in foster care.

49 11. When a physical or behavioral abnormality is identified at the
50 time of intake or at any time during any animal's shelter stay, staff
51 members shall follow written medical protocols required by section four
52 hundred twenty-three of this article, to determine if and when any
53 animal in its custody or possession needs to be examined by a duly
54 licensed veterinarian. If the animal is in foster care, the foster care
55 provider shall follow written medical protocols to determine whether the
56 animal needs to be examined by a duly licensed veterinarian.

12. Any animal in the custody or possession of any animal shelter for more than thirty days shall be examined and weighed at least monthly by a trained staff member. Animals in foster care shall be examined and weighed at least once every six months by a trained staff member.

13. Any apparently healthy animal remaining within the custody or possession of any animal shelter shall be examined by a duly licensed veterinarian at least every six months, or more frequently if problems are identified.

14. Each animal shelter shall provide regular grooming to prevent discomfort or injury to each animal in its custody or possession. Matted, soiled, or otherwise unkempt animals shall be provided with timely grooming to alleviate discomfort and prevent injury within forty-eight hours of intake or identification of condition. Severe matting that prevents normal movement, an animal's ability to eat, drink, urinate, or defecate, or that compromises tissue health shall be treated as a medical emergency requiring immediate care.

15. (a) No animal shelter shall release any dog or cat for adoption to any person unless the dog or cat has been spayed or neutered, in accordance with section three hundred seventy-seven-a of this chapter.

(b) Prior to performing spay/neuter surgery at any animal shelter:

(i) All animals in such shelter's custody or possession shall receive an examination by a duly licensed veterinarian within twenty-four hours of surgery and anesthesia. Such examination may be performed under sedation or anesthesia if, due to the animal's behavior, an examination is not possible while awake.

(ii) Balanced anesthetic protocols that include sedation, the provision of pre- and post-operative analgesia, stress reduction, muscle relaxation and controlled, reversible loss of consciousness shall be utilized for all animals.

(iii) While surgery is being performed, the operating area shall be dedicated to surgery and contain the necessary equipment for anesthesia and patient monitoring.

(iv) Aseptic surgical technique shall be required, and separate sterile instruments shall be used for each patient. All instruments and equipment shall be maintained in proper working condition.

(v) A permanent tattoo shall be placed on the ventral abdomen of shelter-owned cats and dogs at the time of spay or neuter.

(vi) Each animal shelter shall provide adoptive owners instructions in both written and verbal forms for ten-day post-operative care of recently spayed or neutered animals.

(c) Written protocols required by section four hundred twenty-three of this chapter, shall be followed to handle related post-operative emergencies.

§ 430. Behavior. 1. Each animal shelter shall take measures, by way of written questionnaire, personal interview or other means deemed necessary by the commissioner, to collect a behavioral history for each animal in its custody or possession at the time of intake.

2. Routine care and handling of any animal in the custody or possession of each animal shelter, including the timing of feeding and sanitation procedures shall be performed on a regular daily schedule.

3. At least twenty minutes of positive social interactions, in addition to time spent providing feeding, cleaning, basic husbandry or care with people shall be provided by each animal shelter on a daily basis for any animal in such shelter's custody or possession except those so poorly socialized to humans that such contact would be unpleasant, stressful or pose a safety risk to other animals or humans. Daily handl-

ing and positive exposure to people and other animals shall be provided for any dog or cat less than four months of age, while taking appropriate precautions to limit infectious disease. Positive social interactions shall include but not be limited to petting an animal, walking, reward based training or interactive play with toys. Time spent providing basic husbandry and animal care shall not be used to offset the social interaction time requirements of this subdivision.

4. Each animal shelter shall provide each animal in its custody or possession opportunity for exercise and exploration in the following manner:

(a) all cats housed in a cage, kennel, or room that provides less than eighteen square feet of floor space per cat for fourteen days or longer shall be permitted at least fifteen minutes per day at least five days per week outside of their primary enclosure to exercise and explore;

(b) all dogs residing in the shelter for fourteen days or longer shall be permitted time outside of their primary enclosure to exercise and explore for at least twenty minutes per day five days per week; or

(c) in the event such activities are not possible due to any animal's health, behavior, order of the commissioner or legal restriction, the condition and reason shall be documented in such animal's medical record.

5. Each animal shelter shall implement additional measures for enrichment and stress reduction for any animal in its custody or possession showing persistent hiding, hostile interactions with other animals, reduced activity, depression or social withdrawal, barrier frustration or aggression, self-injurious behavior, repetitive non goal-oriented movement, or stereotypic behaviors. Such measures shall be documented in such animal's medical record created pursuant to section four hundred twenty-three of this article.

6. Use of aversive methods in animal training or behavioral modification is prohibited except in reward-based method situations, where skilled application of the least aversive method that is expected to succeed may be appropriate.

7. Animal shelters may perform a systematic behavioral evaluation on animals prior to rehoming or other placement. In the event such evaluations are performed, the following requirements shall apply:

(a) staff performing such evaluations shall receive, in advance, adequate training in the performance and interpretation of the behavioral evaluation or evaluations; and

(b) documentation of the results of every behavior evaluation performed shall be added to the animal's record created pursuant to section four hundred twenty-three of this article.

8. Each licensed animal shelter shall fully disclose all available information regarding the behavior of any animal in its custody or possession prior to such animal's transfer to an individual or another organization as authorized pursuant to section three hundred seventy-four of this chapter. Such information shall include, but not be limited to prior history, observed behaviors in the shelter, and the results of any systematic behavioral evaluations performed.

9. Any animal in the custody or possession of a licensed animal shelter that is observed to be experiencing mental suffering or behavioral deterioration shall be assessed and appropriately treated.

§ 431. Transportation. 1. Vehicle requirements. (a) Vehicles and operators employed by or otherwise serving as an agent of any animal shelter to transport animals shall adhere to all applicable federal, state, and local laws.

1 (b) Any animal transported by an animal shelter or its agent shall not
2 be placed unconfined or tethered in the back of an open pick-up or
3 flatbed truck.

4 (c) Any animal shelter or its agent transporting any animal shall
5 safely and securely confine such animal in an enclosure such as a crate,
6 carrier, or cage within the vehicle. Foster care providers serving as
7 an agent of any animal shelter for purposes of this section may be
8 authorized to provide secure alternatives to enclosures for transport of
9 large dogs.

10 (d) Any transport vehicle transporting dogs or cats for any animal
11 shelter shall have adequate space, comfortable environmental conditions,
12 and good air quality. The animal compartment of the transport vehicle
13 shall provide fresh air, free of vehicle exhaust fumes.

14 (e) Each transport vehicle, including cargo spaces, shall be heated
15 and cooled as necessary to provide for normal thermoregulation of the
16 animals being transported.

17 (f) Each transport vehicle shall have a thermometer placed in the
18 animal compartment. The ambient temperature in the cargo space shall be
19 maintained between sixty and eighty-five degrees fahrenheit, unless the
20 health of the animal necessitates an ambient temperature that exceeds or
21 is less than such parameters. The operator of such vehicle shall monitor
22 cargo area temperatures at least every four hours to ensure such temper-
23 atures are maintained.

24 2. General responsibilities of animal shelters of origin prior to
25 transport. (a) It is the responsibility of the animal shelter of origin
26 to reasonably ensure that its destination animal shelters have the abil-
27 ity to meet the requirements of subdivision four of this section prior
28 to transporting any animal. A written contract or memorandum of under-
29 standing between the animal shelter of origin, any intermediate animal
30 shelter, the destination animal shelter and any transporting agent not
31 directly employed by such shelters, shall be executed for each animal
32 transfer of one or more animals. Such document shall include the respon-
33 sibilities of each party and shall be revised or updated as necessary to
34 ensure that information is current.

35 (b) A contact person shall be designated for each animal shelter and
36 any intermediate transfer points.

37 (c) Each transporting organization identified in any agreement estab-
38 lished pursuant to subparagraph (i) of paragraph (d) of this subdivision
39 shall adhere to all public health laws and local laws for source
40 location, intermediate transfer points, and final destination.

41 (d) (i) For dogs or cats imported into the state, the animal shelter
42 of origin shall ensure that each dog or cat to be transported aged three
43 months of age or older has been vaccinated against rabies not more than
44 twelve months prior to the date of transport when using a one-year
45 vaccine, or not more than thirty-six months prior to the date of trans-
46 port when using a three-year vaccine, as evidenced by a valid certif-
47 icate of immunization signed by a duly licensed veterinarian. Such
48 vaccine shall be approved by the United States department of agricul-
49 ture. The immunization requirement shall not apply if a veterinarian
50 certifies in writing that because of old age or other reason, the life
51 of the dog would be endangered by the administration of the rabies
52 vaccine.

53 (ii) At a minimum, the animal shelter of origin shall administer the
54 following core vaccinations to each dog or cat to be transported that is
55 four weeks of age or older:

1 (1) For dogs, a modified live product for Distemper virus, Adenovirus,
2 and Parvovirus as well as an intranasal or oral avirulent culture Borde-
3 tella bronchiseptica vaccination prior to departing from the animal
4 shelter of origin.

5 (2) For cats, a modified live product for Feline Viral Rhinotracheit-
6 is, Feline Calici Virus, and Feline Panleukopenia.

7 (iii) The animal shelter of origin shall treat each animal for inter-
8 nal and external parasites as appropriate for the age, species, and
9 medical condition.

10 (iv) (1) The animal shelter of origin shall examine each dog and cat
11 for medical or behavioral concerns at most twenty-four hours prior to
12 initiation of transport. All medical and behavioral observations shall
13 be recorded and communicated to any intermediate animal shelter, the
14 destination animal shelter and any transporting agent not directly
15 employed by such shelters.

16 (2) A health record shall accompany each animal to be transported.

17 (3) A health certificate is required for each animal to be transported
18 into the state in accordance with part sixty-five of the commissioner's
19 rules and regulations. Such certificate shall accompany each animal
20 during transport and be completed and signed by a duly licensed veteri-
21 narian.

22 (v) Each animal shall be individually identified with a collar, tag,
23 tattoo, microchip or combination of such identifiers. All animals shall
24 have, at a minimum, one form of visual identification.

25 3. General responsibilities during transport. (a) Each animal trans-
26 ported shall be provided with absorbent bedding.

27 (b) No animal shall be sedated or tranquilized unless recommended by a
28 duly licensed veterinarian and veterinary guidance is provided for such
29 animal's care during transport.

30 (c) The maximum transport time to an intermediate animal shelter or a
31 destination animal shelter for dogs and cats shall include not more than
32 fourteen hours confined to the transport vehicle, including load time.
33 Transports exceeding fourteen hours must include an overnight stop at an
34 intermediary location, where the dogs and cats being transported shall
35 be allowed the opportunity to exercise and eliminate outside of the
36 transport vehicle.

37 (d) The transporting animal shelter or its agent shall observe each
38 animal being transported as often as circumstances allow, but not less
39 than once every four hours. During such observations, animals should be
40 watered and fed consistent with paragraphs (g) and (h) of this subdivi-
41 sion, and the transport area cleaned as appropriate.

42 (e) Each dog shall be provided with the opportunity to exercise and
43 eliminate at least once every twelve hours while confined to the trans-
44 port vehicle, including load time. Each dog being transported that is
45 less than twelve weeks of age shall be removed from their enclosure and
46 allowed to exercise and eliminate at least every two hours.

47 (f) No dog or cat shall be left unattended in any transport vehicle
48 for more than one hour, regardless of whether heating, ventilation and
49 air conditioning (HVAC) is provided in such vehicle.

50 (g) The transporting animal shelter or its agent shall provide each
51 animal being transported with wholesome and palatable food except when
52 there are instructions from a duly licensed veterinarian to withhold
53 food for medical reasons. Such food shall be free from contamination, of
54 nutritional value sufficient to maintain each animal in good health and
55 be provided at least every twelve hours for adult animals; at least

1 every eight hours for animals less than six months of age; and at least
2 every six hours for animals less than four months of age.

3 (h) If water cannot be provided at all times, the transporting animal
4 shelter or its agent shall provide clean, fresh water to each animal
5 being transported at least every four hours during observation stops
6 required pursuant to paragraph (b) of subdivision four of this section.
7 Such water shall be supplied in a sanitary manner sufficient for its
8 needs, except where there are instructions from a duly licensed veteri-
9 narian to withhold water for medical reasons.

10 (i) Animal enclosure requirements. (i) Animal enclosures in transport
11 vehicles shall be suitable to allow the animal to stand, sit erect, turn
12 around while standing, and to lie in a natural position. If more than
13 one animal occupies any enclosure during transport, such enclosure shall
14 provide adequate space for each to lie down comfortably at the same time
15 without lying on top of each other.

16 (ii) Unfamiliar animals shall not be contained together in the same
17 enclosure.

18 (iii) Crates, carriers or cages shall not be stacked in the transport
19 vehicle in a manner that increases animal stress or discomfort, compro-
20 mises ventilation, allows waste material to pass between cages, inter-
21 feres with care and observation, or hinders emergency removal.

22 (iv) All animal enclosures and compartments shall be free of sharp
23 edges or other hazardous materials.

24 (v) The floor of any enclosure shall prevent injury, discomfort, and
25 leakage of fluids into other enclosures.

26 (vi) The animal shelter or its agent shall ensure that each animal
27 transported is safely and securely confined within each enclosure as
28 prescribed by this section and that enclosure doors are secured to
29 prevent accidental opening.

30 (vii) The animal shelter or its agent shall secure each primary enclo-
31 sure to prevent movement within the transport vehicle.

32 (viii) Each dog or cat less than eight weeks of age shall be trans-
33 ported in an enclosure with their mother, with adequate space to allow
34 the mother to lie down on her side with legs extended to facilitate
35 nursing unless such dog or cat is orphaned, a duly licensed veterinarian
36 directs otherwise, the transport period does not exceed one hour, or
37 transport with the mother is deemed to pose a significant safety risk.
38 In the event such dog or cat is not transported with its mother, the
39 animal shelter or its agent shall ensure an adequate environment and
40 temperature for the offspring. The transporting animal shelter or its
41 agent shall transport animals with known or suspected infectious
42 diseases that could be spread during transport in separate compartments
43 from healthy animals.

44 (ix) The transporting animal shelter or its agent shall clean animal
45 enclosures and replace litter as often as necessary to prevent soiling
46 any animal being transported. If any animal must be removed from an
47 enclosure to facilitate cleaning, the transporting animal shelter or its
48 agent shall employ safeguards to ensure animal safety and prevent
49 escape.

50 (j) Transport vehicle operators. (i) Transport vehicle operators and
51 individuals who assist in the transport of animals shall have training
52 in animal health, animal care, and safety issues to recognize and
53 respond to animal needs during transport.

54 (ii) Transport vehicle operators shall avoid unnecessary sudden accel-
55 eration, deceleration, excessive lateral movement, noise and vibration.

1 (iii) Transport vehicle operators and individuals who assist in the
2 transport of animals shall observe dogs and cats for any medical or
3 behavioral concerns during each stop and shall respond appropriately to
4 any concerns identified.

5 (iv) Transport vehicle operators and individuals who assist in the
6 transport of animals shall clean and disinfect each enclosure after use
7 in transporting an animal and before transporting different animals in
8 the same enclosure.

9 4. General requirements of destination animal shelters. Each destina-
10 tion animal shelter shall provide the following:

11 (a) Adequately trained personnel ready to receive and medically evalu-
12 ate each animal received from any transporting animal shelter or its
13 agent upon arrival;

14 (b) A physical examination of each animal received from any transport-
15 ing animal shelter with corresponding documentation performed by trained
16 personnel pursuant to section four hundred twenty-three of this article
17 within four hours of arrival;

40 agreement shall be renewed not less than once every two years, and a
41 copy of such agreement shall be kept by both the animal shelter and

35 notice to the defendant of not less than five days, to enjoin and
36 restrain the continuance of such violations; and if it shall appear to
37 the satisfaction of the court or justice that the defendant has, in
38 fact, violated this article, an injunction may be issued by such court
39 or justice, enjoining and restraining any further violation, without

41 thereby. In any such proceeding, the court may make allowances to the
42 attorney general as provided in paragraph six of subdivision (a) of
43 section eighty-three hundred three of the civil practice law and rules,

55 animal safety or well-being, such violation shall be corrected to the

1 satisfaction of the commissioner within a period not to exceed seventy-

3 4. Nothing in this section shall preclude the commissioner from taking
4 additional actions to address violations related to the immediate threat
5 to animal safety or well-being, including but not limited to, suspension
6 of animal shelter operations until such violations are corrected to the
7 satisfaction of the commissioner.

8 5. Upon identification of one of more violations, the commissioner

34 and held until such attending veterinarian declares them to be free of
