FISCAL NOTE.-- Pursuant to Legislative Law, Section 50:

This bill would amend Section 1000 of the Retirement and Social Security Law to give veterans who retired prior to May 31, 2016, a supplemental pension equal to their first \$15,000 of single life allowance together with any cost-of-living adjustment, multiplied by 3% per year for up to three (3) years of such service credit for military service that would have been eligible if the member retired on or after such date. The surviving spouse of such a retired veteran who chose a continued life benefit to the spouse shall receive half of what the deceased member would have received. There would not be any payment required by an affected retiree or surviving spouse for this supplemental pension. Such retiree may make application for the supplemental pension no later than December 31, 2023 and the payment of the benefit will begin with the next monthly pension payment payable at least 30 days after receipt of the application.

The exact number of retirees that could be affected by this legislation cannot be readily determined.

ERS Costs: Pursuant to Section 25 of the Retirement and Social Security Law, the increased cost to the New York State and Local Employees' Retirement System would be borne entirely by the State of New York and would require an itemized appropriation sufficient to pay the cost of the provision. Once a retiree applies for this benefit a cost will be generated, which will be billed to the State.

PFRS Costs: These costs would be shared by the State of New York and all of the participating employers in the New York State and Local Police and Fire Retirement System.

This fiscal note does not constitute a legal opinion on the viability of the proposed change nor is it intended to serve as a substitute for the professional judgment of an attorney.

This estimate, dated March 30, 2022, and intended for use only during the 2022 Legislative Session, is Fiscal Note No. 2022-109, prepared by the Actuary for the New York State and Local Retirement System.

FISCAL NOTE.-- Pursuant to Legislative Law, Section 50:

This bill would amend Section 1000 of the Retirement and Social Security Law by adding a new subdivision 8-a to allow eligible retired members of public retirement systems of New York State to receive a supplemental military retirement allowance based upon the retirement allowance of such member and up to three years of military service credit. This supplemental benefit would be in lieu of any benefit otherwise provided by military service credit. The annual supplemental military retirement allowance shall be equal to the retirement allowance of such person, computed without optional modification and not to exceed fifteen thousand dollars, multiplied by twenty-five one-hundredths of one percent per month of military service claimed. The surviving spouse of a deceased member who retired under an option which provides a continuing lifetime benefit would be entitled to receive fifty percent of the supplemental military retirement allowance that the retired member would have received. A member must have retired prior to May 31, 2016 and make application no later than December 31, 2023. This benefit is prospective only and shall commence on the next retirement allowance payable at least 30 days after the receipt of said application. There is no member cost for this benefit.

It is not possible to determine the total annual cost to the employers of members of the New York State Teachers' Retirement System since the number of retired members who would be eligible for the supplemental military retirement allowance under this bill cannot be effectively estimated. However, the cost is estimated to be, on average, approximately \$12,100 for each retired member eligible for the supplemental military retirement allowance provided under this bill if enacted.

Member data is from the System's most recent actuarial valuation files, consisting of data provided by the employers to the Retirement System. Data distributions and statistics can be found in the System's Annual Report. System assets are as reported in the System's financial statements and can also be found in the System's Annual Report. Actuarial assumptions and methods are provided in the System's Actuarial Valuation Report and the 2021 Actuarial Assumptions Report.

The source of this estimate is Fiscal Note 2022-12 dated March 29, 2022 prepared by the Office of the Actuary of the New York State Teachers' Retirement System and is intended for use only during the 2022 Legislative Session. I am a member of the American Academy of Actuaries and I meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinion contained herein.

FISCAL NOTE.-- Pursuant to Legislative Law, Section 50:

SUMMARY OF BILL: The proposed legislation would, among other things, amend Retirement and Social Security Law (RSSL) Section 1000 by adding a new subdivision 8-a to allow eligible retirees who retired from a public retirement system within the State prior to May 31, 2016, and who would have had qualifying military service had they been active members, to apply for a prospective supplemental military retirement allowance (Supplemental Retirement Allowance).

For purposes of this Fiscal Note, the New York City Employees' Retirement System (NYCERS), the New York City Teachers' Retirement System (TRS), the New York City Board of Education Retirement System (BERS), the New York City Police Pension Fund (POLICE), and the New York City Fire Pension Fund (FIRE) are collectively referenced as the NYCERS.

With respect to the NYCERS, the proposed legislation further amends Administrative Code of the City of New York (ACCNYS) Section 13-696 to include Cost-of-Living Adjustment (COLA) increases in the calculation and payment of such Supplemental Retirement Allowance.

Effective Date: Upon enactment.

BACKGROUND: A NYCERS retiree would be eligible to receive the Supplemental Retirement Allowance (Eligible Recipient) if he or she:

- * Retired prior to May 31, 2016,
- * Was, due to a May 31, 2016 effective date, ineligible for Chapter 41 of the Laws of 2016,
- * Would have otherwise met the current eligibility criteria of RSSL Section 1000, and
- * Files an application for such benefit by December 31, 2023.

The Supplemental Retirement Allowance would be in lieu of any other retirement benefit provided for military service.

For purposes of this Fiscal Note, it is assumed that the Supplemental Retirement Allowance is provided without cost to Eligible Recipients.

IMPACT ON BENEFITS PAYABLE: With respect to NYCERS Eligible Recipients, the Supplemental Retirement Allowance would be payable as of the next retirement allowance payment following 30 days from filing an application for such benefit.

The Supplemental Retirement Allowance would be payable for the Eligible Recipient's lifetime, and payable, at 50% of the Eligible Recipient's Supplemental Retirement Allowance rate, for the lifetime of an Eligible Recipient's surviving spouse who is eligible to receive a lifetime retirement allowance benefit under an existing option election.

The annual Supplemental Retirement Allowance would be equal to the retirement allowance of the Eligible Recipient (computed without optional modification, without certain annuities derived from voluntary contributions and not to exceed \$15,000) multiplied by 0.25% for each month of qualifying military service (not to exceed 36 months). Therefore, the initial maximum Supplemental Retirement Allowance would not exceed \$1,350 per year (i.e., $\$15,000 \times 0.25\% \times 36 \text{ months} = \$1,350$ per year), and would thereafter be subject to the COLA provisions, to the extent the total retirement allowance including Supplemental Retirement Allowance is less than \$18,000 per year, provided by ACCNYS Section 13-696.

FINANCIAL IMPACT - OVERVIEW: The number of members who could potentially benefit from this proposed legislation cannot be determined. For illustrative purposes only, the table below presents the estimated financial impact assuming that, (1) the percentage of retirees that would benefit is the same percentage for each of the NYCERS as the percentage of active members that have purchased military service under Chapter 41 of the Laws of 2016 as of June 30, 2021, (2) that each member purchased 2.5 years of military service, (3) that each retiree's pension is equal to or greater than \$18,000 per year, and (4) that the percentage of those retirees who are receiving their pension in the form of a Joint and Survivor benefit is the same percentage as current retirees for each of the NYCERS.

ESTIMATED FINANCIAL IMPACT FOR PROVIDING A SUPPLEMENTAL RETIREMENT

ALLOWANCE TO CERTAIN RETIREES

NYCRS	One-Time Increase in Employer Contributions (\$ Millions)
NYCERS	\$ 7.4
TRS	0.8
BERS	0.2
POLICE	23.4
FIRE	3.5
Total	\$35.3 {1}

{1} Any costs may be subject to State appropriation and reimbursement pursuant to RSSL Section 25.

FINANCIAL IMPACT - EMPLOYER CONTRIBUTIONS: In accordance with the ACCNY Section 13-638.2(k-2), new Unfunded Accrued Liability (UAL) attributable to benefit changes are to be amortized as determined by the Actuary but are generally amortized over the remaining working lifetime of those impacted by the benefit changes. For this proposed legislation, since those who would benefit are retired, the entire increase in UAL would be recognized in the first year that the increased pension was paid.

CONTRIBUTION TIMING: Increased pensions for the affected retirees would commence on the next retirement allowance payable at least thirty days after receipt of an application from such person. For purposes of this Fiscal Note, it is assumed that increased pensions would be reflected in the census data used in the June 30, 2022 actuarial valuations of NYCERS. Under the One-Year Lag Methodology, the first fiscal year in which these changes in benefits would impact employer contributions would be Fiscal Year 2024.

However, since Eligible Recipients have until December 31, 2023 to file an application for the additional service credit, the increased contributions would likely be spread out over Fiscal Years 2025 and 2026.

ACTUARIAL ASSUMPTIONS AND METHODS: In addition to the assumptions described in the Financial Impact - Overview section above, the changes in employer contributions presented herein have been calculated based on the same actuarial assumptions and methods in effect for the June 30, 2021 (Lag) actuarial valuation used to determine the Preliminary Fiscal Year 2023 employer contributions of NYCERS.

RISK AND UNCERTAINTY: The costs presented in this Fiscal Note depend highly on the realization of the actuarial assumptions used, as well as certain demographic characteristics of NYCERS and other exogenous factors such as investment, contribution, and other risks. If actual experience deviates from actuarial assumptions, the actual costs could differ from those presented herein. Costs are also dependent on the actuarial methods used, and therefore different actuarial methods could produce different results. Quantifying these risks is beyond the scope of this Fiscal Note.

Not measured in this Fiscal Note are the following:

- * The initial, additional administrative costs to implement the proposed legislation.

- * The impact of this proposed legislation on Other Postemployment Benefit (OPEB) costs.
