(c) All applications requesting an absentee ballot by mail or through the electronic absentee ballot application transmittal system must be received by the board of elections not later than the [seventh] fifteenth day before the election for which a ballot is first requested. Applications for an absentee ballot that will be delivered in person at the board of election to the voter or to an agent of the voter must be received by such board not later than the day before such election.

(d) The board of elections shall mail an absentee ballot to every qualified voter otherwise eligible for such a ballot, who requests such absentee ballot from such board of elections in writing in a letter, telefax indicating the address, phone number and the telefax number from which the writing is sent or other written instrument, or an electronic application submitted by the voter through the electronic absentee ballot application transmittal system established by the state board of elections, which is signed by the voter and received by the board of elections not earlier than the thirtieth day nor later than the [seventh] fifteenth day before the election for which the ballot is first requested and which states the address where the voter is registered and the address to which the ballot is to be mailed; provided, however, a military voter may request a military ballot or voter registration application or an absentee ballot application in a letter as provided in subdivision three of section 10-106 of this chapter; and provided further, a special federal voter may request a special federal ballot or voter registration application or an absentee ballot application in a letter as provided in paragraph d of subdivision one of section 11-202 of this chapter. The board of elections shall enclose with such ballot a form of application for absentee ballot if the applicant is registered with such board of elections.

§ 2. The election law is amended by adding a new section 8-408 to read as follows:

§ 8-408. Electronic absentee ballot application transmittal system. 1. Establishment. In addition to any other means of applying for an absentee ballot, the state board of elections shall establish and maintain an electronic absentee ballot application transmittal system through which voters may apply for an absentee ballot online. The state board of elections shall electronically transmit such applications to the applicable board of elections of each county or the city of New York for processing consistent with this chapter. In accordance with technical specifications provided by the state board of elections, each board of elections shall maintain an absentee ballot application system capable of receiving and processing electronic absentee ballot applications, including, but not limited to, electronic signatures, from the electronic absentee ballot application transmittal system established by the state board of elections pursuant to this section. Such transmittal
system shall be fully integrated with each county board of elections and
directly either through the website or, or the state board of elections. Notwithstanding any other inconsistent
provision of this chapter, applications filed using such system shall be
considered filed with the applicable board of elections on the calendar
date the application is initially transmitted by the voter through the
electronic absentee ballot application transmittal system.

2. Online absentee ballot application. (a) A voter shall be able to
apply for an absentee ballot using a personal online voter registration
application submitted through the electronic absentee ballot application
transmittal system when the voter:
   (i) completes an electronic absentee ballot application promulgated by
the state board of elections which shall include all of the information
required by section 8-400 of this title; and
   (ii) affirms, subject to penalty of perjury, by means of electronic or
manual signature, that the information contained in the absentee ballot
application is true; and
   (iii) consents to the use of an electronic copy of the individual’s
manual signature that is in the custody of the department of motor vehi-
cles, the state board of elections, or other agency designated by
section 5-211 or 5-212 of this chapter, as the individual’s absentee
ballot exemplar signature, or provides such a signature by direct upload
in a manner that complies with the New York state electronic signature
and records act and the rules and regulations promulgated by the state
board of elections.
(b) The board of elections shall provide the personal online absentee
ballot application in any language required by the federal Voting Rights
(c) The online absentee ballot application process shall provide
reasonable accommodations to improve accessibility for persons with
disabilities and shall be compatible for use with standard online acces-
sibility assistance tools for persons with visual, physical or percep-
tive disabilities.
(d) The state board of elections shall promulgate rules and regu-
lations for the creation and administration of an online absentee ballot
registration system pursuant to this section.

3. Failure to provide exemplar signature not to prevent application.
(a) If an absentee ballot exemplar signature is not provided by an
applicant who submits an absentee ballot application pursuant to this
section, the local board shall seek to obtain such exemplar signature
from the statewide voter registration database, the state board of
elections, or a state or local agency designated by section 5-211 or
5-212 of this chapter.
(b) If such exemplar signature is not available from the statewide
voter registration database, the state board of elections, or a state or
local agency designated by section 5-211 or 5-212 of this chapter, the
local board of elections shall, absent another reason to reject the
application, require the voter to provide an exemplar signature by any
one of the following methods: in person, by electronic mail, or by
electronic upload to the board of elections through the electronic
absentee ballot application transmittal system.
(c) If such voter does not provide the required exemplar signature,
the board of elections shall proceed to issue an absentee ballot to the
voter along with an absentee ballot application form requiring such
voter to submit a signature upon such application form and return it to
the board of elections with the voter's ballot.

§ 3. This act shall take effect January 1, 2022. Effective immediately,
the state board of elections shall be authorized to promulgate any
rules or regulations required to carry out the provisions of this act
prior to such effective date.
