(e) The requirements of air contamination emission system inspection shall not apply to **antique or** historical motor vehicles registered pursuant to schedule G of subdivision seven of section four hundred one of this chapter unless required by federal law.

(g) Notwithstanding any other provision of law to the contrary, antique or historical motor vehicles shall be exempt from the annual safety inspection provided for in subdivision (a) of this section.

§ 2. Schedule G of subdivision 7 of section 401 of the vehicle and traffic law, as amended by section 25 of part G of chapter 59 of the laws of 2009, is amended to read as follows:

vehicle was manufactured, if the registration plate is legible, durable, and serviceable, of this state, and accurate in color, as determined by the department. Nothing in this paragraph shall be construed to prohibit the use of previously issued registration plates that have been restored, without deviation from their original alphanumeric or pictorial content, to such condition as otherwise satisfies all applicable requirements. Such plates shall be used only for the operation of the motor vehicle listed on the registration application and on other motor vehicles which would qualify for registration under this schedule owned by persons other than the registrant for the purpose of test driving by the registrant or his or her agent in anticipation of possible purchase. No such registration will be issued unless evidence of financial security, in a form prescribed by the commissioner, is submitted which provides coverage for the motor vehicle listed on the registration application and for non-owned motor vehicles being operated with such plates.

§ 3. This act shall take effect immediately.
