based upon the authorized entity's review of responses to a publicly advertised request for qualifications. The authorized entity's request for qualifications shall include a general description of the public work, the maximum number of responding entities to be included on the 5 list, the selection criteria to be used and the relative weight of each criteria in generating the list. Such selection criteria shall include 7 the qualifications and experience of the design and construction team, organization, demonstrated responsibility, ability of the team or of a 9 member or members of the team to comply with applicable requirements, 10 including the provisions of articles 145, 147, and 148 of the education 11 law, past record of compliance with the labor law, and such other quali-12 fications the authorized entity deems appropriate, which may include but 13 are not limited to project understanding, financial capability and 14 record of past performance. The authorized entity shall evaluate and 15 rate all responding entities to the request for qualifications. Based 16 upon such ratings, the authorized entity shall list the responding enti-17 ties that shall receive a request for proposals in accordance with para-18 graph two of this subdivision.
