AID TO LOCALITIES BUDGET

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. a) The several amounts specified in this chapter for aid to localities, or so much thereof as shall be sufficient to accomplish the purposes designated by the appropriations, are hereby appropriated and authorized to be paid as hereinafter provided, to the respective public officers and for the several purposes specified.

b) Where applicable, appropriations made by this chapter for expenditures from federal grants for aid to localities may be allocated for spending from federal grants for any grant period beginning, during, or prior to, the state fiscal year beginning on April 1, 2021 except as otherwise noted.

EXPLANATION--Matter in italics (underscored) is new; matter in brackets [–] is old law to be omitted.

LBD12553-11-1
c) The several amounts named herein, or so much thereof as shall be sufficient to accomplish the purpose designated, being the undisbursed and/or unexpended balances of the prior year's appropriations, are hereby reappropriated from the same funds and made available for the same purposes as the prior year's appropriations, unless herein amended, for the fiscal year beginning April 1, 2021. Certain reappropriations in this chapter are shown using abbreviated text, with three leader dots (an ellipsis) followed by three spaces (...   ) used to indicate where existing law that is being continued is not shown. However, unless a change is clearly indicated by the use of brackets [ ] for deletions and underscores for additions, the purposes, amounts, funding source and all other aspects pertinent to each item of appropriation shall be as last appropriated.

For the purpose of complying with the state finance law, the year, chapter and section of the last act reappropriating a former original appropriation or any part thereof is, unless otherwise indicated, chapter 53, section 1, of the laws of 2020 and, for the department of health, chapter 50, section 3, of the laws of 2020.

d) No moneys appropriated by this chapter shall be available for payment until a certificate of approval has been issued by the director of the budget, who shall file such certificate with the department of audit and control, the chairperson of the senate finance committee and the chairperson of the assembly ways and means committee.

e) Notwithstanding any provision of law to the contrary, prior to the expenditure of any funds received by the Federal government in response to the COVID-19 public health emergency pursuant to the authority granted in any appropriation set forth herein, the director of the budget may require that the agency or public authority making such expenditures submit an allocation plan to the director of the budget for approval. Approved allocation plans shall be provided to the president pro tempore of the senate and the speaker of the assembly within 30 days of approval. Such allocation plan must comport with any minimum Federal requirements for the expenditure of such funds.

f) Notwithstanding any provision of law to the contrary, for purposes of any appropriation made by this chapter which authorizes spending in an amount net of refunds, rebates, reimbursements, credits, repayments, and/or disallowances, "refunds" shall mean funds received to the state resulting from the overpayment of monies, "rebates" shall mean funds received to the state resulting from a return of a full or partial amount previously paid, as for goods or services, serving as a reduction, discount or rebate to the original payment amount, "reimbursements" shall mean funds received to the state as repayment in an equivalent amount for goods or services, including but not limited to personal service costs, incurred by the state in the first instance being provided to a third party for their benefit and partially or in full financed by such third party, "credit" shall mean monies made available to the state that reduce the amount owed to a third party, including but not limited to billing errors, rebates, and prior overpayments, "repayment" shall mean the return of monies as pay back for expenses incurred, and "disallowance" shall mean monies made available to the state that were not allowed or accepted officially by the intended recipient, based on a determination the payment is not acceptable and/or valid. When the office of the state comptroller receives any such refunds, rebates, reimbursements, credits, repayments, and/or disallowances, he or she shall credit the refunded, rebated, reimbursed, credited, repaid, and disallowed amount back to the original appropri-
ation and reduce expenditures in the year which such credit is received regardless of the timing of the initial expenditure.

g) Notwithstanding any other provision of law to the contrary, if the state or any agency thereof incurs any costs associated with administering the rent regulation program in accordance with subdivision (c) of section 8 of chapter 576 of the laws of 1974, as amended, for a city having a population of one million or more, the director of the budget may direct any other state agency or agencies making payments to such city, or any department, agency, or instrumentality thereof, to permanently reduce the amount of any other payment or payments owed to such city or any department, agency, or instrumentality thereof pursuant to any appropriation set forth in this chapter. Provided however, that such reduction shall be in an amount equal to the costs incurred by the state or agency thereof in accordance with subdivision (c) of section 8 of chapter 576 of the laws of 1974 and provided further that such direction shall be made in writing by the director of the budget. If the director of the budget makes such direction pursuant to the authority set forth herein, the impacted city shall not make the payments required by subdivision (c) of section 8 of chapter 576 of the laws of 1974, as amended, and the division of housing and community renewal shall notify such city in writing of what payment or payments will be reduced and the amount of such reduction. To the extent a city of one million or more or any department, agency, or instrumentality thereof is entitled to any cash disbursement authorized by any appropriation contained in this chapter, such entitlement shall be reduced commensurate with reductions in payments made in accordance with this part.

h) Notwithstanding any provision of law to the contrary, upon enactment of this chapter of the laws of 2021 containing the aid to localities budget bill for the state fiscal year 2021-2022, all appropriations and reappropriations contained in chapter 53 of the laws of 2020, which would otherwise lapse by operation of law on March 31, 2022 are hereby repealed.

i) Notwithstanding any provision contained herein or any other law to the contrary, the budget director may withhold up to 50 percent of funds appropriated herein, including amounts that are to be paid on specific dates prescribed in law or regulation, from any local government entity which has a police agency operating with police officers as defined under 1.20 of the criminal procedure law who, by April 1, 2021, fails to submit to the budget director the certification required by Executive Order 203 issued on June 12, 2020 and titled "New York State Police Reform and Reinvention Collaborative". The Director of the Budget shall discontinue and reverse any withholds made pursuant to this provision upon receipt of the certification required by Executive Order 203. To the extent the State is obligated to make payment to any local government entity which has a police agency operating with police officers as defined under 1.20 of the criminal procedure law pursuant to any appropriation contained herein, such obligation shall be reduced commensurate with the amount of payments withheld for the amount of time such payments are withheld by the director of the budget pursuant to this provision.

j) The appropriations contained in this chapter shall be available for the fiscal year beginning on April 1, 2021 except as otherwise noted.

Local Assistance Account - 10000

Notwithstanding any inconsistent provision of law, for general support for public schools for the 2021-22 state fiscal year, including aid payable pursuant to section 3609-d of the education law, as provided herein.

Notwithstanding any provision of law to the contrary, for the 2021-22 school year, foundation aid shall be equal to the foundation aid base computed pursuant to subparagraph (ii) of paragraph j of subdivision 1 of section 3602 of education law plus the greater of the (1) minimum increase, (2) phase-in increase, (3) catch up increase, and (4) the per pupil allocation.

For the purposes of this appropriation:
(1) the "phase-in increase" shall be equal to the product of the foundation aid phase-in factor multiplied by the positive difference, if any, of (a) total foundation aid pursuant to paragraph a of subdivision 4 of section 3602 of education law less (b) the total foundation aid base computed pursuant to paragraph j of subdivision 1 of section 3602 of education law.

Provided further that the "foundation aid phase-in factor" shall be equal to the greater of (a) 0.2625, (b) for districts with a sparsity count computed pursuant to paragraph r of subdivision 1 of section 3602 of education law greater than zero, 0.2728, (c) for small city school districts pursuant to paragraph jj of subdivision 1 of section 3602 of education law, 0.27, (d) for a city school district

than 250,000 as of the 2010 federal decen-

(2) the "minimum increase" shall be equal to
the product of (a) the greater of 0.02 or
for districts with a sparsity count
computed pursuant to paragraph r of subdi-
vision 1 of section 3602 of education law
greater than zero, 0.03, multiplied by (b)
the total foundation aid base computed
pursuant to paragraph j of subdivision 1
of section 3602 of education law.
(3) the "catch up increase" shall be equal
to the positive difference, if any, of (a)
the product of 0.6 and total foundation
aid pursuant to paragraph a of subdivision

(b) the total foundation aid base computed
pursuant to paragraph j of subdivision 1
of section 3602 of education law.
(4) the "per pupil allocation" shall equal

law divided by (ii) 0.473, multiplied by
the (c) public school district enrollment
for the base year as computed pursuant to
paragraph n of subdivision 1 of section

districts. A district shall be eligible
for the per pupil allocation if the
combined wealth ratio for total foundation
aid computed pursuant to subparagraph 2 of
paragraph c of subdivision 3 of section
3602 of education law is less than 2.53.
Notwithstanding any inconsistent provision
of law, for the purposes of this appropri-
ation and of calculating the allocable
growth amount for the 2021-22 school year
pursuant to paragraph gg of subdivision 1
of section 3602 of the education law, the allowable growth amount shall equal the sum of (a) the product of the positive difference of the personal income growth index minus one, multiplied by the state-wide total of the sum of (1) the apportionments due and owing during the base year to school districts and boards of cooperative educational services from the general support for public schools as computed based on an electronic data file used to produce the school aid computer listing produced by the commissioner of education in support of the enacted budget for the base year plus (2) the competitive awards amount for the base year plus (b) $1,852,986,000. Provided that the personal income growth index shall equal the average of the quotients for each year in the period commencing with the state fiscal year nine years prior to the state fiscal year in which the base year began and finishing with the state fiscal year prior to the state fiscal year in which the base year began of the total personal income of the state for each such year divided by the total personal income of the state for the immediately preceding state fiscal year, but not less than one.

Notwithstanding any inconsistent provision of law, for all school districts, the apportionment of general support for public schools for the 2021-22 school year in excess of the amount apportioned to such school district in the 2020-21 school year shall be withheld until (i) such school district has submitted to the commissioner of education and the director of the budget a detailed statement of the total funding allocation for each school in the district for the 2021-22 school year, in a statewide uniform form developed by the director of the budget, in consultation with the commissioner of education, and (ii) the commissioner of education and the director of the budget issue a determination of compliance in writing of such school district's statement of total funding allocation as required by subdivision 1 of section 3614 of the education law, provided that such school districts shall submit such state-
ment to the commissioner of education and the director of the budget on or before September 3, 2021.

Provided further that such school districts shall adhere to and complete the prescribed form accurately and fully, and shall make such statement publicly available and on the district website.

Provided further that the director of the budget shall request in such form only information that is known to, or may be ascertained or estimated by, the district.

Provided further that each such local educational agency shall include in such statement the approach used to allocate funds to each school and that such statement shall include but not be limited to separate entries for each individual school, demographic data for the school, per pupil funding level, source of funds, and uniform decision rules regarding allocation of centralized spending to individual schools from all funding sources.

Provided further that within 45 days of submission of such statement by a school district, the commissioner of education and director of the budget shall review such statement and determine whether the statement is complete and is in the format required. If such statement is determined to be complete and in the format required, a written acknowledgement of such shall be sent to the school district. If no determination is made by the commissioner of education and the director of the budget within 45 days of submission of the statement, such statement shall be deemed approved.

Should the commissioner of education or the director of the budget request additional information from the school district to determine completeness, the district shall submit such requested information to the commissioner of education and the director of the budget within 30 days of such request and the commissioner of education and director of the budget's deadline for review and determination shall be extended by 45 days from the date of submission of the additional requested information. If the commissioner of education or director of the budget determine a school
district's spending statement to be noncompliant, such school district shall be allowed to submit a revised spending statement at any time.

Provided further that if a school district fails to submit a statement that is complete and in the format required on or before September 3, 2021 or if the commissioner of education or director of the budget determine the school district's spending statement to be noncompliant, a written explanation shall be provided and the school district will have 30 days to cure.

If the school district does not cure within 30 days, at the joint direction of the director of the budget and the commissioner of education, the comptroller of the city in which such school district is situated, or if the city does not have an elected comptroller, the chief financial officer of the city, or for school districts not located in a city, the chief financial officer of the town in which the majority of the school district is situated shall be authorized, at his or her discretion, to obtain appropriate information from the school district, and shall be authorized to complete such form and submit such statement to the director of the budget and the commissioner of education for approval.

Provided further that where the comptroller or chief financial officer exercises the authority to submit such form, such submission shall occur within 60 days following notification of the school district's failure to cure.

Provided further that nothing in the preceding paragraph shall preclude a school district from submitting a spending statement for approval by the director of the budget and the commissioner of education at any time.

Provided further that any apportionment withheld pursuant to this appropriation shall not have any effect on the base year calculation for use in the subsequent school year.

Notwithstanding any inconsistent provision of law, for the 2021-22 school year, any school district with an underfunded high-
need school shall prioritize all such underfunded high-need schools among its individual schools, and shall submit to the commissioner on or before September 1, 2021 a report specifying how such district effectuated appropriate funding for the underfunded high-need schools. Provided further, on or before May 1, 2021, the director of the budget shall produce a list of underfunded high need schools, as defined herein. Provided, however, that the director of the budget shall exclude from this list schools within district 75 of the city school district of New York, schools that are of the same school type within a district but do not serve any grade levels that overlap, schools serving only students in prekindergarten, or any other schools with irregular or outlying properties.

Provided further, for purposes of this appropriation:

(1) "school type" for any school shall mean elementary, middle, high, pre-k only, or K-12, as defined by the commissioner of education, provided that for purposes of this appropriation, a "middle" school shall include any school with the grade organization of either a middle school or a junior high school, and a "high" school shall include any school with the grade organization of either a senior high school or a junior-senior high school;

(4) "average student need index by school type" shall mean the quotient arrived at when dividing the sum of weighted student enrollment as defined herein for all schools within a school district of the same school type by the K-12 enrollment

schools in a school district of the same
school type as reported on the statement
required for such school year pursuant to
section 3614 of the education law;
(5) "weighted student enrollment" for any
school shall mean the sum of (i) K-12

of English language learners multiplied by
0.5, plus (iv) the product of the number
of students with disabilities multiplied
by 1.41, for the 2020-21 school year as
reported on the statement required for
such school year pursuant to section 3614
of the education law;
(6) "significantly high need school" shall
mean a school with a student need index
greater than the product of the average
student need index by school type within
the school district multiplied by 1.05;
(7) "per pupil expenditures" for any school
shall mean the quotient arrived at when
dividing the expenditure amount as
reported for the 2020-21 school year in
the statement required for such school

appropriation shall remain in full force
and effect to the maximum extent allowed
by law ........................................ 4,069,958,000
For support of elementary and secondary
education from the elementary and second-
ary school emergency relief fund, as fund-
ed by the American rescue plan act of 2021
(P.L. 117-2) providing support for elemen-
tary and/or secondary education in
response to the COVID-19 public health
emergency.
Notwithstanding any provision of law to the
contrary, funds not otherwise allocated to
local educational agencies pursuant to
section 2001(d)(1) of the American rescue
plan act of 2021 shall be allocated as
follows, pursuant to a plan developed by
the commissioner of education and approved
by the director of the budget:
(i) $629,214,659 for learning loss grants to
eligible school districts to implement (1)
evidence-based activities to address
learning loss, such as summer learning or
summer enrichment, extended day, compre-
hensive after-school programs, or extended
school year programs; (2) evidence-based
summer enrichment programs; and (3)
evidence-based comprehensive after-school
programs; provided that such activities
shall respond to students' academic,
social, and emotional needs and address
the disproportionate impact of the corona-
virus on the student subgroups described
in section 1111(b)(2)(B)(xi) of the
elementary and secondary education act of
1965, students experiencing homelessness,
and children and youth in foster care.
Provided that, notwithstanding any provision of law to the contrary, for the 2021-22 school year, eligible school districts shall receive learning loss grants in aid equal to the positive difference, if any, of the base ARPA allocation less 90 percent of the funds from the elementary and secondary school emergency relief fund made available to school districts pursuant to the American rescue plan act of 2021, but not less than $700,000, and not more than $10,000,000 or 10 percent of the total expenditures from the district's general fund for the 2020-21 school year, whichever is less. School districts where the base ARPA allocation is less than or equal to 90 percent of the funds from the elementary and secondary school emergency relief fund made available to school districts pursuant to the American rescue plan act of 2021 shall not be eligible for these grants. Such grant funds shall remain available for obligation by such school districts until the deadline therefor prescribed in federal law. Provided further that, for purposes of this appropriation:

(1) The "base ARPA allocation" shall be equal to the product of the adjusted per pupil amount multiplied by public school district enrollment for the base year as computed pursuant to paragraph n of subdivision 1 of section 3602 of education law. The "adjusted per pupil amount" shall be equal to the product of (a) $4,550.26 multiplied by (b) the regional cost index calculated in 2018, reflecting an analysis of labor market costs based on median salaries in professional occupations that require similar credentials to those of positions in the education field, but not including those occupations in the education field, multiplied by (c) the modified EN index, and multiplied by (d) the learning loss wealth factor.

(2) The "learning loss wealth factor" shall be equal to the positive difference, if any, of 0.75 less the product of 0.5 multiplied by the combined wealth ratio computed pursuant to subparagraph 1 of paragraph c of subdivision 3 of section 3602 of education law.
(3) The "modified EN index" shall be equal to the modified EN percent divided by the statewide average modified EN percent, provided that for the 2021-22 school year, the statewide average modified EN percent shall be equal to 0.5565.

(4) The "modified EN percent" shall be equal to the modified EN count divided by public school district enrollment for the base year computed pursuant to paragraph n of subdivision 1 of section 3602 of education law.

(5) The "modified EN count" shall equal the sum of (a) the product of 0.5 multiplied by the English language learner count computed pursuant to paragraph o of subdivision 1 of section 3602 of education law, plus (b) the sparsity count computed pursuant to paragraph r of subdivision 1 of section 3602 of education law, plus (c) the product of 0.65 multiplied by the 3-year average small area income and poverty estimate rate computed pursuant to paragraph mm of subdivision 1 of section 3602 of education law and multiplied further by public school district enrollment for the base year as computed pursuant to paragraph n of subdivision 1 of section 3602 of education law, plus (d) the product of 0.65 multiplied by the 3-year average economically disadvantaged rate defined pursuant to paragraph ll of subdivision 1 of section 3602 of education law and multiplied further by public school district enrollment for the base year as computed pursuant to paragraph n of subdivision 1 of section 3602 of education law.

Provided further that districts receiving learning loss grants shall use (a) 14.286 percent of such grants for implementation of evidence-based summer enrichment programs; (b) 14.286 percent for implementation of evidence-based comprehensive after-school programs; and (c) the remaining funds for activities to address learning loss by supporting the implementation of evidence-based interventions, such as summer learning or summer enrichment, extended day, comprehensive afterschool programs, or extended school year programs. School districts shall ensure
that such interventions respond to students' academic, social, and emotional needs and address the disproportionate impact of the coronavirus on low-income students, children with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.

(ii) $195,000,000 for new full-day 4-year-old universal prekindergarten expansion grants as prescribed in subdivision 19 of section 3602-e of education law. For purposes of this appropriation, districts shall be eligible to receive a grant amount equal to twice the product of expansion slots multiplied by selected aid per prekindergarten pupil calculated pursuant to subparagraph i of paragraph b of subdivision 10 of section 3602-e of education law for the 2021-22 school year, and provided further that funds paid from this appropriation shall not exceed the total actual grant expenditures incurred by the school district in the current school year as approved by the commissioner. Grantees awarded funds from this appropriation shall comply with all of the same rules and requirements as the universal prekindergarten programs pursuant to section 3602-e of education law. Provided further that, for purposes of this appropriation:

(1) For eligible school districts, the preliminary slot count shall be equal to the positive difference of (1) the product of 0.3504 and unserved 4-year-old prekindergarten pupils calculated pursuant to subparagraph iv of paragraph b of subdivision 10 of section 3602-e of education law less (2) the sum of (a) full day 4-year-old prekindergarten pupils served in the 2019-20 school year served pursuant to section 3602-e of education law plus (b) students served in full-day prekindergarten programs funded by grants pursuant to section 3602-ee of education law in the 2019-20 school year. If such preliminary slot count is less than 10, the expansion slots shall be 0; if such preliminary slot count is greater than or equal to 10 but less than 20, the expansion slots shall be 20; for all other eligible districts, the
expansion slots shall equal the preliminary slot count.

(2) For the 2021-22 school year, school districts shall be eligible for a grant amount if (1) the combined wealth ratio computed pursuant to subparagraph 1 of paragraph c of subdivision 3 of section 3602 of education law is less than 2.0 and (2) the quotient arrived at when dividing (i) the sum of (a) full day and half day 4-year-old prekindergarten pupils served in the 2019-20 school year served pursuant to section 3602-e of education law plus (b) students served in full-day prekindergarten programs funded by grants pursuant to section 3602-ee of education law in the 2019-20 school year by (ii) unserved four-year-old prekindergarten pupils calculated pursuant to subparagraph iv of paragraph b of subdivision 10 of section 3602-e of education law is less than 0.5.

(3) Maintenance of Effort. Where a school district serves fewer 4-year-old prekindergarten pupils in full-day programs funded by the Full-day 4-year-old universal prekindergarten expansion pursuant to this appropriation than the number of expansion slots as defined in this appropriation, the school district shall have its current year Full-day 4-year-old universal prekindergarten expansion payment reduced to an amount equal to the product of (i) the Full-day 4-year-old universal prekindergarten expansion multiplied by (ii) the quotient of 4-year-old prekindergarten pupils served in programs funded by the Full-day 4-year-old universal prekindergarten expansion divided by the number of expansion slots. Provided that funds provided pursuant to this appropriation shall only be used to supplement and not supplant current local expenditures of state or local funds on prekindergarten programs.

(4) Notwithstanding any inconsistent provision of law, for the purposes of determining the prekindergarten allocation on the electronic data file prepared by the commissioner pursuant to subdivision 21 of section 305 of education law for the 2021-22 school year, the commissioner is directed to include the grant amounts
awarded pursuant to this appropriation in the amount set forth for such school district as "UNIVERSAL PRE-KINDERGARTEN." (iii) $15,000,000 for universal prekindergarten expansion grants for prekindergarten programs serving four-year-old students in new full-day placements operating in the 2021-22 school year, based on a request for proposals, in which all school districts would be eligible to apply, developed by the commissioner and approved by the director of the budget, provided further that the commissioner of education shall evaluate applications and make awards on a competitive basis based on merit and factors including, but not limited to, the following: (i) measures of the need of students to be served by the school district, (ii) the school district's proposal to target the highest need schools and students, (iii) the extent to which the district's proposal would prioritize funds to maximize the total number of eligible children in the district served in pre-kindergarten programs, (iv) proposal quality, and (v) the level of existing prekindergarten services in the district. Provided that funds appropriated herein shall only be awarded to school districts which meet the requirements of section 3602-ee of the education law. Provided that grants awarded pursuant to this request for proposal process shall be equal to $7,000 per pupil for students served by teachers without a certificate valid for service in early childhood grades and $10,000 per pupil for students served by teachers with valid certificates for service in early childhood grades. Programs shall (i) provide instruction for at least five hours per school day for full-day pre-kindergarten programs; (ii) agree to offer instruction consistent with applicable New York state prekindergarten early learning standards; and (iii) otherwise comply with all of the same rules and requirements as the statewide universal prekindergarten programs pursuant to section 3602-ee of the education law except as modified herein.
Provided further that funds appropriated herein shall only be used to supplement and not supplant current local expenditures of federal, state or local funds on pre-kindergarten programs and the number of placements in such programs from such sources and that current local expenditures shall include any local expenditures of federal, state or local funds used to supplement or extend services provided directly or via contract to eligible children enrolled in a universal pre-kindergarten program in accordance with section 3602-e of the education law.

Notwithstanding any provision of law to the contrary, programs that provide services for fewer than 180 days will be subject to the provisions of subdivision 16 of section 3602-e of the education law.

(iv) $35,000,000 for city school districts in a city having a population of one million or more; and

(v) $24,663,589 for administrative costs of the state education department, provided that, notwithstanding any provision of law to the contrary, upon approval of the director of the budget, the funds hereby made available may be transferred to the credit of the state purposes account of the state education department for purposes of administration of this program.

Funds appropriated herein shall be subject to all applicable federal reporting and accountability requirements.

Provided further that such funds shall be deemed grants in aid and the state comptroller shall prescribe that any monies received by school districts from such funds shall be recorded and reported as special aid funds of the district.

Notwithstanding section 40 of the state finance law or any provision of law to the contrary, this appropriation shall remain in full force and effect to the maximum extent allowed by law .................... 8,988,781,000

For services and assistance to nonpublic schools through the emergency assistance to nonpublic schools program, funded through the coronavirus response and relief supplemental appropriations act, 2021, P.L. 116-260 ("CRRSA act").
Notwithstanding any inconsistent provision of law, funds appropriated herein shall be available subject to a plan developed by the commissioner of education and approved by the director of the budget. Provided that such plan shall comport with any minimum federal requirements for the expenditure of such funds and shall include at a minimum (1) an allocation methodology which shall consider total student enrollment, low-income student enrollment, and the degree to which each school seeking services and assistance through this program has been impacted by the COVID-19 pandemic, and (2) application materials to be completed by schools seeking services and assistance through this program.

Provided that prior to development of such plan, the state education department shall require nonpublic schools to submit a notice of intent to seek services and assistance through this program, based on a form developed by the commissioner of education and approved by the director of the budget. Initial allocations shall be determined based on notices of intent submitted by nonpublic schools, and only those schools that submit such notice shall be eligible for an allocation. In the event that not all schools that submitted a notice of intent submit an application by the deadline established in such plan, allocations may be revised based on the approved allocation methodology after all applications are received.

Notwithstanding any inconsistent provision of law, rule, or regulation, the state education department shall be authorized to reimburse each participating eligible nonpublic school for approved expenses of any eligible services or assistance requested by the school, and to provide eligible services or assistance to a nonpublic school either directly or through one or more non-competitive agreements, subject to the approval of the director of the budget, provided that any services and assistance purchased by the state education department on behalf of a nonpublic school through this program shall be exempt from the requirements of
sections 112 and 163 of the state finance law, and section 142 of the economic development law. Notwithstanding any inconsistent provision of law, rule or regulation, subject to the approval of the director of the budget, a portion of this appropriation may be interchanged with any other appropriation within the education stabilization fund to accomplish the intent of the CRRSA act, or to any other program or fund within the state education department for purposes of administration of this program, provided that within amounts transferred for program administration, a portion may be used to enter into non-competitive contracts with one or more boards of cooperative educational services to assist the state education department in administering this program, provided that such non-competitive contracts shall be exempt from the requirements of sections 163 and 112 of the state finance law and section 142 of the economic development law, and provided further that any eligible services or assistance provided to a nonpublic school by any board of cooperative educational services or through a third-party contractor with a board of cooperative educational services shall, due to the tight time constraints established under federal law to enter into such contracts for services and/or assistance, if deemed necessary by any board of cooperative educational services, be provided pursuant to a non-competitive contract and such non-competitive contract shall be exempt from the requirements of sections 112 and 163 of the state finance law, section 142 of the economic development law, and sections 103, 104, 104-a, and 104-b of the general municipal law. For services and assistance to nonpublic schools through the emergency assistance to nonpublic schools program, funded through the american rescue plan act of 2021, P. L. 117-2 ("ARPA"). Notwithstanding any inconsistent provision of law, funds appropriated herein shall be available subject to a plan developed by the commissioner of education and approved by the director of the budget.
Provided that such plan shall comport with any minimum federal requirements for the expenditure of such funds and shall include at a minimum (1) an allocation methodology which, to the extent permitted by federal law, shall consider total student enrollment, low-income student enrollment, and the degree to which each school seeking services and assistance through this program has been impacted by the COVID-19 pandemic, and (2) application materials to be completed by schools seeking services and assistance through this program.

Provided that prior to development of such plan, the state education department shall require nonpublic schools to submit a notice of intent to seek services and assistance through this program, based on a form developed by the commissioner of education and approved by the director of the budget. Initial allocations shall be determined based on notices of intent submitted by nonpublic schools, and only those schools that submit such notice shall be eligible for an allocation. In the event that not all schools that submitted a notice of intent submit an application by the deadline established in such plan, allocations may be revised based on the approved allocation methodology after all applications are received.

Notwithstanding any inconsistent provision of law, rule, or regulation, the state education department shall be authorized to reimburse each participating eligible nonpublic school for approved expenses of any eligible services or assistance requested by the school to the extent permitted by federal law, and to provide eligible services or assistance to a nonpublic school either directly or through one or more non-competitive agreements, subject to the approval of the director of the budget, provided that any services and assistance purchased by the state education department on behalf of a nonpublic school through this program shall be exempt from the requirements of sections 112 and 163 of the state finance law, and section 142 of the economic development law.
Notwithstanding any inconsistent provision of law, rule or regulation, subject to the approval of the director of the budget, a portion of this appropriation may be interchanged with any other appropriation within the education stabilization fund to accomplish the intent of the ARPA, or to any other program or fund within the state education department for purposes of administration of this program, provided that within amounts transferred for program administration, a portion may be used to enter into non-competitive contracts with one or more boards of cooperative educational services to assist the state education department in administering this program, provided that such noncompetitive contracts shall be exempt from the requirements of sections 163 and 112 of the state finance law and section 142 of the economic development law, and provided further that any eligible services or assistance provided to a nonpublic school by any board of cooperative educational services or through a third-party contractor with a board of cooperative educational services shall, due to the tight time constraints established under federal law to enter into such contracts for services and/or assistance, if deemed necessary by any board of cooperative educational services, be provided pursuant to a non-competitive contract and such non-competitive contract shall be exempt from the requirements of sections 112 and 163 of the state finance law, section 142 of the economic development law, and sections 103, 104, 104-a, and 104-b of the general municipal law .... 250,114,000

In order to receive such funds, the school district in consultation with the monitor or monitors pursuant to chapter 89 of the laws of 2016 shall revise its long term strategic academic and fiscal improvement plan by October 1, 2020. Such revised plan shall be submitted to the commissioner for approval and shall include a set of goals with appropriate benchmarks and measurable objectives and identify strategies to address areas where improvements are needed in the district, including but not limited to its financial stability, academic opportunities and outcomes, education of students with disabilities, and education of English language learners, and shall

The commissioner of education shall have 30 days from the receipt of such evidence to confirm whether the school district has complied with the requirements of chapter 89 of the laws of 2016 and shall determine whether such funds were spent in conformance with the provisions of such chapter. Upon finding compliance and determining that the funds were properly expended, the commissioner shall certify the amount of the approved expenditures to the state comptroller for payment no later than 60 days after such determinations. The East Ramapo central school district shall not receive reimbursement for funds authorized herein that are not spent for the direct benefit of students attending public schools in such district in a manner consistent with its approved comprehensive expenditure plan or prior written approval from the commissioner.

The board of education in consultation with the monitor or monitors shall submit the school district's proposed budget for the next succeeding school year to the commissioner no later than 45 days before the date scheduled for the school district's budget vote. The commissioner shall review the budget to ensure that it, to the greatest extent possible, expands educational programming for students including but not limited to extracurricular activities, course offerings, non-mandated support services, non-mandated art and music classes, programs and services for English language learners and students with disabilities, and maintaining class size. The commissioner shall also review the proposed budget to ensure that it is balanced within the context of revenue and expenditure estimates and mandated programs. The commissioner shall present his

The board of education shall make adjustments to the proposed budget consistent with any recommendations made by the commissioner. section 1 of part C of chapter 57 of the
laws of 2006, as amended by section 1 of
part I of chapter 60 of the laws of 2014,
for the period commencing on April 1, 2021
and ending March 31, 2022 the director
shall not apply any other cost of living
adjustment for the purpose of establishing
rates of payments, contracts or any other form of reimbursement.

Within the amounts appropriated herein, state reimbursement to each social services district for services identified herein that are otherwise reimbursable by the state from April 1, 2021 through March 31, 2022 shall be limited to a district allocation, hereinafter referred to as the district's block grant allocation. Notwithstanding any other provision of law, such block grant allocation shall be based, in part, on each district's claims for such costs, adjusted by the applicable cost allocation methodology and net of any retroactive payments for the 12 month period ending June 30, 2020 that are submitted on or before January 2, 2021 and, in part, on such other factors as determined by the office of children and family services and approved by the director of the budget. Any portion of a social services district's allocation from funds appropriated herein not claimed by such district during the state fiscal year may be used by such district for expenditures on preventive services provided pursuant to section 409-a of the social services law, independent living services and aftercare services provided pursuant to regulations of the department of family assistance, claimed by such district during the next state fiscal year up to the amount remaining from the district's foster care block grant allocation, provided however, that any claims for such services during the next state fiscal year in excess of such amount shall be subject to 62 percent state reimbursement exclusive of any federal funds made available for such purposes, in accordance with directives of the department of family assistance and subject to the approval of the director of the budget. Any claims submitted by a social services district for reimbursement for a particular state fiscal year for which the social services district does not receive state or federal reimbursement during that state fiscal year may not be claimed against that
District's block grant apportionment for
the next state fiscal year. The office of children and family services,
with the approval of the director of the
budget, may reduce a district's block
grant allocation by the state share
decrease related to federal retroactive
reimbursement for such foster care
services identified herein. The office,
with the approval of the director of the
budget, may reduce a district's block
grant allocation by the state share of
disallowances or sanctions taken against
the district pursuant to the social
services law or federal law.
Notwithstanding any other provision of law,
the state shall not be responsible for
reimbursing a social services district and
a district shall not seek state reimburse-
ment for any portion of any state disal-
lowance or sanction taken against the
social services district, or any federal
disallowance attributable to final federal
agency decisions or to settlement made, on
or after July 1, 1995, when such disallow-
ance or sanction results from the failure
of the social services district to comply
with federal or state requirements,
including, but not limited to, failure to
document eligibility for federal or state
funds in the case record; provided, howev-
er, if the office determines that any
federal disallowance for services provided
between January 1, 1999 and May 31, 1999
results solely from the late enactment of
the state legislation implementing the
federal adoption and safe families act,
the state shall be solely responsible for
the full amount of the disallowance or
sanction; provided, further, however, this
provision shall be deemed to apply both
prospectively and retroactively regardless
of whether such sanctions or disallowances
are for services provided or claims made
prior to or after April 1, 2021.
Notwithstanding any other provision of law,
any federal disallowance resulting from a
federal title IV-E eligibility review or
audit that uses extrapolated statistic
techniques shall be passed along by the
state to any and all social services
districts that the office of children and family services has determined have not complied with the title IV-E eligibility requirements or have not taken the necessary actions to ensure compliance with such requirements including, but not limited to, failing to: assess and fully document all the necessary documents to establish and continue title IV-E eligibility for all title IV-E eligible children within the required time frames; claim title IV-E funding only for cases that meet all of the title IV-E eligibility criteria; and fully implement the social services payment system on or before April 1, 2005 for all direct and voluntary agency foster care services.

Notwithstanding any law to the contrary, the office of children and family services shall impose on social services districts any federal disallowance issued against the state as a result of a federal title IV-E secondary eligibility review regardless of the date the children may have entered foster care, the date the eligibility or payment errors occurred, or the filing date of any federal claims for reimbursement; provided, however, that the state shall be responsible for the disallowed costs and expenditures related to the placement of children in a facility operated by the office of children and family services, which shall be determined in the same manner as the disallowed costs and expenditures for social services districts other than the city of New York.

In order to reimburse the federal government for the full amount of any disallowance imposed on the state by the federal administration for children and families within the timeframes necessary to avoid any potential interest payments on such amount, the office of children and family services is authorized to immediately offset funds otherwise due to each district for a pro rata share of the total disallowed costs based on the percentage of applicable federal title IV-E claims made by that district for the relevant time period as compared to the total
applicable statewide title IV-E claims. The amount of the offset against each district will be adjusted, if necessary, upon completion of the disallowance allocation process. The final allocation of the amount of any federal disallowance resulting from a title IV-E secondary eligibility review shall be allocated among the districts so that each district shall be responsible for the amount attributable to each of the district's children or cases that are determined by the federal review to be unallowable. Each district shall also be responsible for a portion of the federal extrapolated disallowance amount based on the relative error rate for the district. The city of New York's error rate will be based on the federal sample and federal statistics. For all social services districts other than the city of New York, the error rate will be based on a review conducted by the district of a sample of children and/or cases determined by the office of children and family services and a re-review of a sub-sample by the office of those children and/or cases determined by the office. The office of children and family services will determine what is reasonable in establishing the size of the sample and sub-sample for each district. The office of children and family services shall notify each social services district of the sample of children and/or cases from the federal audit period that the social services district must review. Any child or case from the social services district that was included in the federal sample will automatically be included in the social services district's review sample and the determination made at the federal review regarding that child or case will govern for the purposes of the social services district's review. The social services district must complete and submit the results of its review to the office of children and family services within 60 days of receipt of the sample. The error rate for the district will be based on the findings of the district's review and the office of children and family services'
re-review. If a social services district does not complete its review within 60 days of receiving the sample from the office of children and family services, the office of children and family services shall assign an error rate to the social services district based on the relative percentage of the district's applicable title IV-E claims for the relevant period compared to applicable statewide title IV-E claims for that period and other circumstances that the office of children and family services may consider in order to allocate 100 percent of the federal disallowance. The office of children and family services shall apply each social services district's error rate to the total amount of the district's applicable title IV-E claims including associated administrative expenses. The resulting dollar amounts for all of the social services districts will be summed to derive the total amount of title IV-E claims deemed to be in error statewide. To establish a disallowance percentage for each social services district, the amount of the district's title IV-E claims deemed to be in error will be divided by the amount of statewide title IV-E claims deemed to be in error. The resulting disallowance percentage for each district will be applied to the entire title IV-E extrapolated disallowance calculated by the federal review to determine the amount of the extrapolated disallowance for which the district is responsible. Each district will be credited for the amount already disallowed for any individual children or cases found to be in error during the federal review. The exclusive appeal rights for the review of the amount of the federal disallowance assigned to each social services district shall be pursuant to article 78 of the civil practice law and rules; provided, however, that in any such action all of the social services districts shall be joined as necessary parties and the venue of any such action shall be in Rensselaer county. Any social services district that fails to complete its sample review in the required time
frames shall have no right to appeal and shall not be a necessary party to any action brought by another social services district.

of law, the amount appropriated herein
shall be made available to reimburse 62
percent of eligible social services

343,000 .................................................. (re. $343,000)
By chapter 53, section 1, of the laws of 2020:
Notwithstanding any inconsistent provision of law, the amount appropriated herein, shall be available under a foster care block grant for state reimbursement of eligible social services district expenditures for the provision and administration of foster care services including care, maintenance, supervision, and tuition; for supervision of foster children placed in federally funded job corps programs; for care, maintenance, supervision, and tuition for adjudicated juvenile delinquents placed in residential programs operated by authorized agencies and in out-of-state residential programs; and for the provision and administration of the kinship guardian assistance program including kinship guardianship assistance payments and payments for non-recurring guardianship expenses; except that, reimbursement from the amount appropriated herein shall not be available for tuition expenditures for foster children, including persons in need of supervision and adjudicated juvenile delinquents, made by a social services district located within a city having a population of one million or more.

Notwithstanding any other provision of law, a portion of the funds are available to reimburse social services districts for the change in the maximum state aid rates established by the office of children and family services for the 2020-21 rate year pursuant to section 398-a of the social services law and sections 4003 and 4405 of the education law to reflect the continuation of the cost of living adjustments that became effective April 1, 2008 for payments made to foster parents and for salary and fringe benefit costs and other critical nonpersonal services costs for foster care programs as determined by the office. Social services districts must adjust the amount of payments made for care provided by congregate care and foster boarding home programs and to foster parents to reflect the cost of living adjustments in the manner specified by the office. Each authorized agency operating a congregate care or foster boarding home program in New York state for which the office sets a maximum state aid rate pursuant to section 398-a of the social services law or section 4003 or 4405 of the education law shall submit, at the time and in a manner to be determined by the office, a written certification, attesting that the funds received for the continuation of the cost of living adjustment to the maximum state aid rate that became effective April 1, 2008 for that program will be or were used solely in accordance with the requirements of the cost of living adjustment established by the office.

Notwithstanding any inconsistent provision of law, for the period commencing on April 1, 2020 and ending March 31, 2021 the commissioner shall not apply any cost of living adjustment for the purpose of establishing rates of payments, contracts or any other form of reimbursement.

Within the amounts appropriated herein, state reimbursement to each social services district for services identified herein that are
otherwise reimbursable by the state from April 1, 2020 through March 31, 2021 shall be limited to a district allocation, hereinafter referred to as the district's block grant allocation. Notwithstanding any other provision of law, such block grant allocation shall be based, in part, on each district's claims for such costs, adjusted by the applicable cost allocation methodology and net of any retroactive payments for the 12 month period ending June 30, 2019 that are submitted on or before January 2, 2020 and, in part, on such other factors as determined by the office of children and family services and approved by the director of the budget. Any portion of a social services district's allocation from funds appropriated herein not claimed by such district during the state fiscal year may be used by such district for expenditures on preventive services provided pursuant to section 409-a of the social services law, independent living services and aftercare services provided pursuant to regulations of the department of family assistance, claimed by such district during the next state fiscal year up to the amount remaining from the district's foster care block grant allocation, provided however, that any claims for such services during the next state fiscal year in excess of such amount shall be subject to 62 percent state reimbursement exclusive of any federal funds made available for such purposes, in accordance with directives of the department of family assistance and subject to the approval of the director of the budget. Any claims submitted by a social services district for reimbursement for a particular state fiscal year for which the social services district does not receive state or federal reimbursement during that state fiscal year may not be claimed against that district's block grant apportionment for the next state fiscal year.

The office of children and family services, with the approval of the director of the budget, may reduce a district's block grant allocation by the state share decrease related to federal retroactive reimbursement for such foster care services identified herein. The office, with the approval of the director of the budget, may reduce a district's block grant allocation by the state share of disallowances or sanctions taken against the district pursuant to the social services law or federal law. Notwithstanding any other provision of law, the state shall not be responsible for reimbursing a social services district and a district shall not seek state reimbursement for any portion of any state disallowance or sanction taken against the social services district, or any federal disallowance attributable to final federal agency decisions or to settlement made, on or after July 1, 1995, when such disallowance or sanction results from the failure of the social services district to comply with federal or state requirements, including, but not limited to, failure to document eligibility for federal or state funds in the case record; provided, however, if the office determines that any federal disallowance for services provided between January 1, 1999 and May 31, 1999 results solely from the late enactment of the state legislation implementing the federal adoption and safe families act, the state shall be sole-
ly responsible for the full amount of the disallowance or sanction; provided, further, however, this provision shall be deemed to apply both prospectively and retroactively regardless of whether such sanctions or disallowances are for services provided or claims made prior to or after April 1, 2020.

Notwithstanding any other provision of law, any federal disallowance resulting from a federal title IV-E eligibility review or audit that uses extrapolated statistic techniques shall be passed along by the state to any and all social services districts that the office of children and family services has determined have not complied with the title IV-E eligibility requirements or have not taken the necessary actions to ensure compliance with such requirements including, but not limited to, failing to: assess and fully document all the criteria and have readily available all the necessary documents to establish and continue title IV-E eligibility for all title IV-E eligible children within the required time frames; claim title IV-E funding only for cases that meet all of the title IV-E eligibility criteria; and fully implement the social services payment system on or before April 1, 2005 for all direct and voluntary agency foster care services.

Notwithstanding any law to the contrary, the office of children and family services shall impose on social services districts any federal disallowance issued against the state as a result of a federal title IV-E secondary eligibility review regardless of the date the children may have entered foster care, the date the eligibility or payment errors occurred, or the filing date of any federal claims for reimbursement; provided, however, that the state shall be responsible for the disallowed costs and expenditures related to the placement of children in a facility operated by the office of children and family services, which shall be determined in the same manner as the disallowed costs and expenditures for social services districts other than the city of New York. In order to reimburse the federal government for the full amount of any disallowance imposed on the state by the federal administration for children and families within the timeframes necessary to avoid any potential interest payments on such amount, the office of children and family services is authorized to immediately offset funds otherwise due to each district for a pro rata share of the total disallowed costs based on the percentage of applicable federal title IV-E claims made by that district for the relevant time period as compared to the total applicable statewide title IV-E claims. The amount of the offset against each district will be adjusted, if necessary, upon completion of the disallowance allocation process. The final allocation of the amount of any federal disallowance resulting from a title IV-E secondary eligibility review shall be allocated among the districts so that each district shall be responsible for the amount attributable to each of the district's children or cases that are determined by the federal review to be unallowable. Each district shall also be responsible for a portion of the federal extrapolated disallowance amount based on the relative error rate for the district. The city of New York's error rate will be based on the
federal sample and federal statistics. For all social services
districts other than the city of New York, the error rate will be
based on a review conducted by the district of a sample of children
and/or cases determined by the office of children and family
services and a re-review of a sub-sample by the office of those
children and/or cases determined by the office. The office of chil-
dren and family services will determine what is reasonable in estab-
lishing the size of the sample and sub-sample for each district. The
office of children and family services shall notify each social
services district of the sample of children and/or cases from the
federal audit period that the social services district must review.
Any child or case from the social services district that was
included in the federal sample will automatically be included in the
social services district's review sample and the determination made
at the federal review regarding that child or case will govern for
the purposes of the social services district's review. The social
services district must complete and submit the results of its review
to the office of children and family services within 60 days of
receipt of the sample. The error rate for the district will be based
on the findings of the district's review and the office of children
and family services' re-review. If a social services district does
not complete its review within 60 days of receiving the sample from
the office of children and family services, the office of children
and family services shall assign an error rate to the social
services district based on the relative percentage of the district's
applicable title IV-E claims for the relevant period as compared to
applicable statewide title IV-E claims for that period and other
circumstances that the office of children and family services may
consider in order to allocate 100 percent of the federal disallow-
ance. The office of children and family services shall apply each
social services district's error rate to the total amount of the
district's applicable title IV-E claims including associated admin-
istrative expenses. The resulting dollar amounts for all of the
social services districts will be summed to derive the total amount
of title IV-E claims deemed to be in error statewide. To establish a
disallowance percentage for each social services district, the
amount of the district's title IV-E claims deemed to be in error
will be divided by the amount of statewide title IV-E claims deemed
to be in error. The resulting disallowance percentage for each
district will be applied to the entire title IV-E extrapolated

8 By chapter 53, section 1, of the laws of 2018, as amended by chapter 53,
section 1, of the laws of 2020:

For eligible services and expenses of youth development programs as
determined by the office of children and family services. Notwith-
standing any other provision of law to the contrary, a youth develop-
ment program shall mean a program designed to provide communit-
ylevel services to promote positive youth development but shall not
include approved runaway programs or transitional independent living
support programs as such terms are defined in section 532-a of the
executive law. Each county or a city with a population of one
million or more, which shall be known as a municipality, operating a
youth development program approved by the office of children and
family services shall be eligible for one hundred percent state
reimbursement of its qualified expenditures, subject to the amount
available under this appropriation and exclusive of any federal
funds made available therefor, not to exceed the municipality's
distribution of state aid for youth development programs. The amount
appropriated herein for youth development programs shall be distrib-
uted by the office of children and family services to eligible munici-
palities that have a comprehensive plan that has been developed in
consultation with the applicable municipal youth bureau and approved
by the office of children and family services. The distribution of
the amount appropriated herein to eligible municipalities by the
office of children and family services shall be based on factors as
determined by the office and subject to the approval of the director
of budget; such factors shall include the number of youth under the
age of twenty-one residing in the municipality as shown by the last
published federal census certified in the same manner as provided by
section 54 of the state finance law and may include, but not be
limited to, the percentage of youth living in poverty within the
municipality or such other factors as provided for in the regu-
lations of the office of children and family services. Up to fifteen
percent of the youth development funds that a municipality would
allocate to an approved local youth bureau pursuant to an approved
comprehensive plan may be used for administrative functions
performed by such local youth bureau. Notwithstanding any provision
of law to the contrary, an approved local youth bureau that is not
providing, operating, administering or monitoring youth development
programs shall not receive funding under this appropriation. The
office shall not reimburse any claims for youth development programs
unless they are submitted within twelve months of the calendar quar-
ter in which the expenditure was made. The office may require that
such claims be submitted to the office electronically in the manner
and format required by the office. A municipality may enter into contracts to effectuate its youth development program as approved by the office of children and family services. No expenditures shall be made from this appropriation for youth development programs until a plan has been approved by the director of the budget and a certificate of approval allocating these funds has been issued by the director of the budget.

Notwithstanding any provision of law to the contrary, provisions relating to youth development programs and runaway and homeless youth services pursuant to part G of chapter 57 of laws of 2013, as amended by part M of chapter 56 of the laws of 2017, shall hereby remain in effect.

By chapter 53, section 1, of the laws of 2017:

Notwithstanding any other provision of law, the amount appropriated herein shall be available to reimburse for 98 percent of 65 percent of eligible social services district expenditures that are claimed by March 31, 2018 for those community preventive services provided from October 1, 2016 through September 30, 2017 at a cost that does not exceed the cost that was in effect on October 1, 2008 and that a social services district can demonstrate had been approved by the office of children and family services on or before October 1, 2008; provided, however, that should insufficient funds be available to provide state reimbursement for 98 percent of 65 percent of such costs, reimbursement shall be made proportionally to each district based on the percentage of their total eligible claims to the amount appropriated; and, provided further, however, that if the amount appropriated exceeds the amount of funds necessary to reimburse 98 percent of 65 percent of the eligible social services district expenditures, the office may, to the extent funds are available, provide reimbursement for 98 percent of 65 percent of eligible social services district expenditures for new community preventive services programs approved by the office and only up to the amounts approved by the office. A local social services district seeking federal and/or state reimbursement for community preventive services provided on or after October 1, 2016 must submit claims that separately identify the costs of such services in a form and manner and at such times as are required by the department of family assistance and that information regarding outcome based measures that demonstrate quality of services provided and program effectiveness be submitted to the office of children and family services in a form and manner and at such times as required by the office. Of the amount appropriated herein, up to $1 million may be used to provide additional funding to an eligible program or programs with evaluation results that show program effectiveness and demonstrate private monetary support as determined by the office of children and family services and approved by the director of the budget.

Notwithstanding any other provision of law, for suballocation to the office of mental health and subsequently for suballocation from the office of mental health to the department of health for 94 percent...
of 65 percent of the nonfederal share of medical assistance payments
for home and community based waiver services provided in accordance
with subdivision 9 of section 366 of the social services law as
authorized by selected social services districts which choose to use
preventive services funds to support such costs and to authorize the
office of temporary and disability assistance to intercept funds
otherwise due to the districts to provide the 38.9 percent local
share of such preventive services expenditures.

Notwithstanding any inconsistent provision of law, including section 1
of part C of chapter 57 of the laws of 2006, as amended by part I of
chapter 60 of the laws of 2014, for the period commencing on April
1, 2017 and ending March 31, 2018 the commissioner shall not apply
any cost of living adjustment for the purpose of establishing rates
of payments, contracts or any other form of reimbursement (14001)
... 6,213,000 ..................................... (re. $1,411,000)

services and local social services districts for activities neces-
sary to comply with certain provisions of the adoption and safe
families act of 1997 (P.L. 105-89) and chapter 7 of the laws of 1999
and chapter 668 of the laws of 2006 requiring criminal record checks
for foster care parents, prospective adoptive parents, and adult
household members. Funds appropriated herein shall be made available
in accordance with a plan to be developed by the commissioner of the
office of children and family services and approved by the director
of the budget. Funds appropriated herein shall be available for 94
percent of 98 percent of one-half of the non-federal share of the
national and state fees for fingerprinting foster care parents,
prospective adoptive parents, and other adult household members.

Notwithstanding any inconsistent provision of law, and pursuant to
chapter 7 of the laws of 1999 and chapter 668 of the laws of 2006,
local social services districts shall reimburse the commissioner of

state and national fingerprint records. Notwithstanding any incon-
sistent provision of law, and pursuant to chapter 7 of the laws of
1999 and chapter 668 of the laws of 2006, the commissioner of the
office of children and family services shall, on behalf of local
social services districts, make payments to the division of criminal
justice services for processing of state and national criminal
record checks and any other related costs. The commissioner shall
ensure expenditures made pursuant to this provision reflect appro-
priate federal and local shares. The commissioner of the office of
children and family services shall request that the commissioner of
the office of temporary and disability assistance reimburse the
commissioner of the office of children and family services in an
amount equal to 53.94 percent of the nonfederal share of such
payments provided that such reimbursement in payments reflects actu-
al expenditures made on behalf of each local social services
district to capture the local share of such costs.

or the state finance law, the commissioner shall, on a quarterly
basis, request that the commissioner of the office of temporary and

ter and shall be charged among districts based on the number of
children currently placed in foster care in each local social
services district provided that this methodology is revised quarter-
ly to reflect most current available data. Amounts appropriated
herein may, subject to the director of the budget, be interchanged
or transferred with any other appropriation of the office of chil-
dren and family services or the office of temporary and disability
assistance as necessary to reimburse the state share of local social
services district costs appropriated herein (14002) ..............

Notwithstanding any inconsistent provision of law, the amount herein
appropriated may be transferred to any other appropriation within
the office of children and family services and/or the office of
temporary and disability assistance and/or suballocated to the
office of temporary and disability assistance for the purpose of
paying local social services districts' costs of the above program
and may be increased or decreased by interchange with any other

general fund - local assistance account with the approval of the
director of the budget who shall file such approval with the depart-
ment of audit and control and copies thereof with the chairman of
the senate finance committee and the chairman of the assembly ways
and means committee.
Notwithstanding any inconsistent provision of law, in lieu of payments
authorized by the social services law, or payments of federal funds
otherwise due to the local social services districts for programs
provided under the federal social security act or the federal food
stamp act, funds herein appropriated, in amounts certified by the
state commissioner or the state commissioner of health as due from
local social services districts each month as their share of
payments made pursuant to section 367-b of the social services law
may be set aside by the state comptroller in an interest-bearing
account with such interest accruing to the credit of the locality in
order to ensure the orderly and prompt payment of providers under
section 367-b of the social services law pursuant to an estimate
provided by the commissioner of health of each local social services
district's share of payments made pursuant to section 367-b of the
social services law.
Notwithstanding section 398-a of the social services law or any other
law to the contrary, the amount appropriated herein, or such other
amount as may be approved by the director of the budget, shall be
available for 94 percent of 98 percent of 50 percent reimbursement
after deducting any federal funds available therefor to social
services districts for amounts attributable to dormitory authority
billings or approved refinancing of such billings which result in
local social services districts' claims in excess of a local
district's foster care block grant allocation. In addition, subject
to the approval of the director of the budget, a portion of funds
appropriated herein, or such other amount as may be approved by the
director of the budget, shall be available for reimbursement related
to payments made by a social services district to foster care
providers subject to the provisions of section 410-i of the social
services law for expenses directly related to projects funded
through the housing finance agency for those foster care providers
which also received revised or supplemental rates from the applica-
ble regulating agency to accommodate the housing finance agency
payments or the refinancing of previously approved dormitory author-
ity payments.
Notwithstanding section 398-a of the social services law or any other
law to the contrary, such reimbursement shall be available for 94
percent of 98 percent of 50 percent of social services district
costs, after deducting federal funds available therefor, for those
social services districts' claims in excess of a social services
district's foster care block grant allocation for those amounts
exclusively attributable to the previously approved revised or
supplemental rates. In addition, subject to the approval of the
director of the budget, a portion of funds appropriated herein may
also be used for payments to the dormitory authority of the state of
New York for advisory services including, but not limited to, site
visits and review of applications, building plans and cost estimates
for voluntary agency programs for which the office of children and
family services establishes maximum state aid rates and for capital

funds appropriated herein shall be provided without state or local
participation except that for social services districts with a popu-

herein shall also include the cost of providing shelter supplements
for family assistance households at local option, including eligible
households containing a household member who has been released from
prison, in order to prevent eviction and address homelessness in
accordance with social services district plans approved by the
office of temporary and disability assistance and the director of
the budget, provided, however, that in social services districts

supplements shall not be part of the standard of need pursuant to
section 131-a of the social services law. Funds appropriated herein
shall also reimburse for family assistance expenditures for emergen-

determines are necessary to establish or maintain independent living arrangements among persons who have been medically diagnosed as having acquired immunodeficiency syndrome (AIDS) or HIV-related illness and who are homeless or facing homelessness and for whom no viable and less costly alternative to housing is available; provided, however, that funds appropriated herein may only be used for such purposes if the cost of such allowances are not eligible for reimbursement under medical assistance or other programs.

Amounts appropriated herein may be used to enter into contracts with persons or entities authorized pursuant to section 17(i) of the social services law consistent with federal law and requirements. Such contracts will be made consistent with section 17(i) of the social services law. Notwithstanding section 153 of the social services law or any other inconsistent provision of law, the office may reduce reimbursement otherwise payable to social services districts to recover the federal share of costs incurred by the office for expenditures related to section 17(i) of the social services law.

Such funds are to be available for payment of aid heretofore accrued or hereafter to accrue to municipalities. Subject to the approval of the director of the budget, such funds shall be available to the office of temporary and disability assistance net of disallowances, refunds, reimbursements, and credits including, but not limited to, additional federal funds resulting from any changes in federal cost allocation methodologies.

Notwithstanding any inconsistent provision of law, the amount herein appropriated may be increased or decreased by interchange with any other appropriation within the office of temporary and disability assistance federal fund - local assistance account with the approval of the director of the budget, who shall file such approval with the department of audit and control and copies thereof with the chairman of the senate finance committee and the chairman of the assembly ways and means committee.

Such information shall be submitted electronically to the extent feasible as determined by the office, and shall be used to evaluate expenditures by such social services districts for the provision of temporary housing assistance for homeless individuals and families.

For persons living with clinical/symptomatic HIV illness or AIDS who are receiving public assistance, funds appropriated herein shall not be used to reimburse the additional rental costs determined based on limiting such person's earned and/or unearned income contribution to 30 percent.

Notwithstanding any provision of articles 153, 154 and 163 of the education law, there shall be an exemption from the professional licensure requirements of such articles, and nothing contained in such articles, or in any other provisions of law related to the

48 of the budget.
Notwithstanding section 40 of the state finance law or any other law to the contrary, all medical assistance appropriations made from this account shall remain in full force and effect in accordance, in the aggregate, with the following schedule: not more than 50 percent for the period April 1, 2021 to March 31, 2022 and the remaining amount for the period April 1, 2022 to March 31, 2023.

Notwithstanding section 40 of the state finance law or any provision of law to the contrary, subject to federal approval, department of health state funds medicaid spending, excluding payments for medical services provided at state facilities operated by the office of mental health, the office for people with developmental disabilities and the office of addiction services and supports and further excluding any payments which are not appropriated within the department of health, in the aggregate, for the period April 1, 2021 through March 31, 2022, shall not exceed $23,531,327,000 except as provided below and state share medicaid spending, in the aggregate, for the period April 1, 2022 through March 31, 2023, shall not exceed $25,587,116,000, but in no event shall department of health state funds medicaid spending for the period April 1, 2021 through March 31, 2023 exceed $49,118,443,000 provided, however, such aggregate limits may be adjusted by the director of the budget to account for any changes in the New York state federal medical assistance percentage amount established pursuant to the federal social security act, increases in provider revenues, reductions in local social services district payments for medical assistance administration, minimum wage increases, and beginning April 1, 2012 the operational costs of the New York state medical indemnity fund, pursuant to chapter 59 of the laws of 2011, and state costs or savings from the essential plan program. Such projections may be adjusted by the director of the budget to account for increased or expedited department of health state funds medicaid expenditures as a result of a natural or other type of
disaster, including a governmental declaration of emergency.

The director of the budget, in consultation with the commissioner of health, shall assess on a quarterly basis known and projected medicaid expenditures by category of service and by geographic region, as determined by the commissioner of health, incurred both prior to and subsequent to such assessment for each such period, and if the director of the budget determines that such expenditures are expected to cause medicaid spending for such period to exceed the aggregate limit specified herein for such period, the state medicaid director, in consultation with the director of the budget and the commissioner of health, shall develop a medicaid savings allocation adjustment to limit such spending to the aggregate limit specified herein for such period.

Such medicaid savings allocation adjustment shall be designed, to reduce the expenditures authorized by the appropriations herein in compliance with the following guidelines: (1) reductions shall be made in compliance with applicable federal law, including the provisions of the Patient Protection and Affordable Care Act, Public Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No. 111-152 (collectively "Affordable Care Act") and any subsequent amendments thereto or regulations promulgated thereunder; (2) reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver authority, to implement the provisions of the medicaid savings allocation adjustment that meets the other criteria set forth herein; (3) reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the
Affordable Care Act; (4) reductions shall be made uniformly among categories of services and geographic regions of the state, to the extent practicable, and shall be made uniformly within a category of service, to the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific categories of services contributed to department of health medicaid state funds spending in excess of the limits specified herein; the need to maintain safety net services in underserved communities; or the potential benefits of pursuing innovative payment models contemplated by the Affordable Care Act, in which case such grounds shall be set forth in the medicaid savings allocation adjustment; and (5) reductions shall be made in a manner that does not unnecessarily create administrative burdens to medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation adjustment, to the extent that all or part of such adjustment, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation adjustment on the department of health's website and shall provide written copies of such adjustment to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

(b) The commissioner may revise the medicaid savings allocation adjustment subsequent to the provisions of notice and prior to implementation but needs to provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that
such revisions materially alter the adjustment.

Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this subdivision if, in the discretion of the commissioner, expedited development and implementation of a medicaid savings allocation adjustment is necessary due to a public health emergency.

For purposes of this section, a public health emergency is defined as: (i) a disaster, natural or otherwise, that significantly increases the immediate need for health care personnel in an area of the state; (ii) an event or condition that creates a widespread risk of exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or (iii) any other event or condition determined by the commissioner to constitute an imminent threat to public health.

Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation adjustment from taking effect retroactively to the extent permitted by the federal centers for medicare and medicaid services.

In accordance with the medicaid savings allocation adjustment, the commissioner of the department of health shall reduce department of health state funds medicaid spending by the amount of the projected overspending through, actions including, but not limited to modifying or suspending reimbursement methods, including but not limited to all fees, premium levels and rates of payment, notwithstanding any provision of law that sets a specific amount or methodology for any such payments or rates of payment; modifying medicaid program benefits; seeking all necessary federal approvals, including, but not limited to waivers, waiver amendments; and suspending time frames for notice, approval or certification of rate requirements, notwithstanding any provision of law, rule or regulation to
the contrary, including but not limited to
sections 2807 and 3614 of the public
health law, section 18 of chapter 2 of the
laws of 1988, and 18 NYCRR 505.14(h).
The department of health shall prepare a
quarterly report that sets forth: (a)
known and projected department of health
medicaid expenditures as described in
subdivision (1) of this section, and
factors that could result in medicaid
disbursements for the relevant state
fiscal year to exceed the projected
department of health state funds disburse-
ments in the enacted budget financial plan
pursuant to subdivision 3 of section 23 of
the state finance law, including spending
increases or decreases due to: enrollment
fluctuations, rate changes, utilization
changes, MRT investments, and shift of
beneficiaries to managed care; and vari-
ations in offline medicaid payments; and
(b) the actions taken to implement any
medicaid savings allocation adjustment
implemented pursuant to subdivision (4) of
this section, including information
concerning the impact of such actions on
each category of service and each
geographic region of the state. Each such
quarterly report shall be provided to the
chairs of the senate finance and the
assembly ways and means committees and
shall be posted on the department of
health's website in a timely manner.
The money hereby appropriated is available
for payment of liabilities heretofore and
hereafter accrued and shall be available

refunds, reimbursements, and credits.
Notwithstanding any other provision of law,
the money hereby appropriated may be
increased or decreased by interchange or

and control and copies thereof with the
chairman of the senate finance committee
and the chairman of the assembly ways and
means committee.

al centers for medicare and medicaid
services, provided, however, that the
commissioner of health is authorized to
submit any state plan amendment or seek
other federal approval to implement the
provisions of the medicaid payment
reduction adjustment.

General Fund
Local Assistance Account - 10000

For the medical assistance program, including administrative expenses, for local social services districts, and for medical care rates for authorized child care agencies.
Notwithstanding section 40 of the state finance law or any other law to the contrary, all medical assistance appropriations made from this account shall remain in full force and effect in accordance, in the aggregate, with the following schedule: not more than 48 percent for the period April 1, 2021 to March 31, 2022; and the remaining amount for the period April 1, 2022 to March 31, 2023.

Notwithstanding section 40 of the state finance law or any provision of law to the contrary, subject to federal approval, department of health state funds medicaid spending, excluding payments for medical services provided at state facilities operated by the office of mental health, the office for people with developmental disabilities and the office of addiction services and supports and further excluding any payments which are not appropriated within the department of health, in the aggregate, for the period April 1, 2021 through March 31, 2022, shall not exceed $23,531,327,000 except as provided below and state share medicaid spending, in the aggregate, for the period April 1, 2022 through March 31, 2023, shall not exceed $25,587,116,000, but in no event shall department of health state funds medicaid spending for the period April 1, 2021 through March 31, 2023 exceed $49,118,443,000. Provided, however, such aggregate limits may be adjusted by the director of the budget to account for any changes in the New York state federal medical assistance percentage amount established pursuant to the federal social security act, increases in provider revenues, reductions in local social services district payments for medical assistance administration, minimum wage increases, and beginning April 1, 2012 the operational costs of the New York state medical indemnity fund, pursuant to chapter 59 of the laws of 2011, and state costs or savings from the essential plan program. Such projections may be adjusted by the director of the budget to account for increased or expedited department of health state funds medicaid expenditures as a result of a natural or other type of
disaster, including a governmental declaration of emergency.

The director of the budget, in consultation with the commissioner of health, shall assess on a quarterly basis known and projected medicaid expenditures by category of service and by geographic region, as defined by the commissioner, incurred both prior to and subsequent to such assessment for each such period, and if the director of the budget determines that such expenditures are expected to cause medicaid spending for such period to exceed the aggregate limit specified herein for such period, the state medicaid director, in consultation with the director of the budget and the commissioner of health, shall develop a medicaid savings allocation adjustment to limit such spending to the aggregate limit specified herein for such period.

Such medicaid savings allocation adjustment shall be designed, to reduce the expenditures authorized by the appropriations herein in compliance with the following guidelines: (1) reductions shall be made in compliance with applicable federal law, including the provisions of the Patient Protection and Affordable Care Act, Public Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No. 111-152 (collectively "Affordable Care Act") and any subsequent amendments thereto or regulations promulgated thereunder; (2) reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver authority, to implement the provisions of the medicaid savings allocation adjustment that meets the other criteria set forth herein; (3) reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the
1 Affordable Care Act; (4) reductions shall
2 be made uniformly among categories of
3 services and geographic regions of the
4 state, to the extent practicable, and
5 shall be made uniformly within a category
6 of service, to the extent practicable,
7 except where the commissioner determines
8 that there are sufficient grounds for
9 non-uniformity, including but not limited
10 to: the extent to which specific catego-
11 ries of services contributed to department
12 of health medicaid state funds spending in
13 excess of the limits specified herein; the
14 need to maintain safety net services in
15 underserved communities; or the potential
16 benefits of pursuing innovative payment
17 models contemplated by the Affordable Care
18 Act, in which case such grounds shall be
19 set forth in the medicaid savings allo-
20 cation adjustment; and (5) reductions
21 shall be made in a manner that does not
22 unnecessarily create administrative
23 burdens to medicaid applicants and recipi-
24 ents or providers.

The commissioner shall seek the input of the
26 legislature, as well as organizations
27 representing health care providers,
28 consumers, businesses, workers, health
29 insurers, and others with relevant exper-
30 tise, in developing such medicaid savings
31 allocation adjustment, to the extent that
32 all or part of such adjustment, in the
33 discretion of the commissioner, is likely
34 to have a material impact on the overall
35 medicaid program, particular categories of
36 service or particular geographic regions
37 of the state.

(a) The commissioner shall post the medicaid
39 savings allocation adjustment on the
40 department of health's website and shall
41 provide written copies of such adjustment
42 to the chairs of the senate finance and
43 the assembly ways and means committees at
44 least 30 days before the date on which
45 implementation is expected to begin.

(b) The commissioner may revise the medicaid
47 savings allocation adjustment subsequent
48 to the provisions of notice and prior to
49 implementation but needs to provide a new
50 notice pursuant to subparagraph (i) of
51 this paragraph only if the commissioner
52 determines, in his or her discretion, that
such revisions materially alter the
adjustment.
Notwithstanding the provisions of paragraphs
(a) and (b) of this subdivision, the
commissioner need not seek the input
described in paragraph (a) of this subdi-
vision or provide notice pursuant to para-
graph (b) of this subdivision if, in the
discretion of the commissioner, expedited
development and implementation of a medi-
caid savings allocation adjustment is
necessary due to a public health emergen-
cy.
For purposes of this section, a public
health emergency is defined as: (i) a
disaster, natural or otherwise, that
significantly increases the immediate need
for health care personnel in an area of
the state; (ii) an event or condition that
creates a widespread risk of exposure to a
serious communicable disease, or the
potential for such widespread risk of
exposure; or (iii) any other event or
condition determined by the commissioner
to constitute an imminent threat to public
health.
Nothing in this paragraph shall be deemed to
prevent all or part of such medicaid
savings allocation adjustment from taking
effect retroactively to the extent permit-
ted by the federal centers for medicare
and medicaid services.
In accordance with the medicaid savings
allocation adjustment, the commissioner of
the department of health shall reduce
department of health state funds medicaid
spending by the amount of the projected
overspending through, actions including,
but not limited to modifying or suspending
reimbursement methods, including but not
limited to all fees, premium levels and
rates of payment, notwithstanding any
 provision of law that sets a specific
amount or methodology for any such
payments or rates of payment; modifying or
discontinuing medicaid program benefits;
seeking all necessary federal approvals,
including, but not limited to waivers,
waiver amendments; and suspending time
frames for notice, approval or certif-
ication of rate requirements, notwith-
standing any provision of law, rule or

not limited to sections 2807 and 3614 of
the public health law, section 18 of chap-

The department of health shall prepare a
quarterly report that sets forth: (a)
known and projected department of health
medicaid expenditures as described in
subdivision (1) of this section, and
factors that could result in medicaid
disbursements for the relevant state
fiscal year to exceed the projected
department of health state funds disburse-
ments in the enacted budget financial plan
pursuant to subdivision 3 of section 23 of
the state finance law, including spending
increases or decreases due to: enrollment
fluctuations, rate changes, utilization
changes, MRT investments, and shift of
beneficiaries to managed care; and vari-
atations in offline medicaid payments; and
(b) the actions taken to implement any
medicaid savings allocation adjustment
implemented pursuant to subdivision (4) of
this section, including information
concerning the impact of such actions on
each category of service and each
geographic region of the state. Each such
quarterly report shall be provided to the
chairs of the senate finance and the
assembly ways and means committees and
shall be posted on the department of
health's website in a timely manner.

health, shall develop a medicaid savings allocation adjustment to limit such spend-
ing to the aggregate limit specified herein for such period. Such medicaid savings allocation adjustment shall be designed, to reduce the expendi-
tures authorized by the appropriations herein in compliance with the following guidelines: (1) reductions shall be made in compliance with applicable federal law, including the provisions of the Patient Protection and Affordable Care Act, Public Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No. 111-152 (collectively "Affordable Care Act") and any subsequent amendments thereto or regulations promulgated thereunder; (2) reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver authority, to implement the provisions of the medicaid savings allocation adjustment that meets the other criteria set forth herein; (3) reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial partic-
ipation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the Affordable Care Act; (4) reductions shall be made uniformly among categories of services and geographic regions of the state, to the extent practicable, and shall be made uniformly within a category of service, to the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific catego-
ries of services contributed to department of health medicaid state funds spending in excess of the limits specified herein; the need to maintain safety net services in underserved communities; or the potential benefits of pursuing innovative payment models contemplated by the Affordable Care
Act, in which case such grounds shall be set forth in the medicaid savings allocation adjustment; and (5) reductions shall be made in a manner that does not unnecessarily create administrative burdens to medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation adjustment, to the extent that all or part of such adjustment, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation adjustment on the department of health's website and shall provide written copies of such plan to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

(b) The commissioner may revise the medicaid savings allocation adjustment subsequent to the provisions of notice and prior to implementation but needs to provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that such revisions materially alter the plan.

Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this subdivision if, in the discretion of the commissioner, expedited development and implementation of a medicaid savings allocation adjustment is necessary due to a public health emergency.

For purposes of this section, a public health emergency is defined as: (i) a disaster, natural or otherwise, that significantly increases the immediate need for health care personnel in an area of
the state; (ii) an event or condition that creates a widespread risk of exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or (iii) any other event or condition determined by the commissioner to constitute an imminent threat to public health.

Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation adjustment from taking effect retroactively to the extent permitted by the federal centers for medicare and medicaid services.

In accordance with the medicaid savings allocation adjustment, the commissioner of the department of health shall reduce department of health state funds medicaid spending by the amount of the projected overspending through, actions including, but not limited to modifying or suspending reimbursement methods, including but not limited to all fees, premium levels and rates of payment, notwithstanding any provision of law that sets a specific amount or methodology for any such payments or rates of payment; modifying medicaid program benefits; seeking all necessary federal approvals, including, but not limited to waivers, waiver amendments; and suspending time frames for notice, approval or certification of rate requirements, notwithstanding any provision of law, rule or regulation to the contrary, including but not limited to sections 2807 and 3614 of the public health law, section 18 of chapter 2 of the laws of 1988, and 18 NYCRR 505.14(h).

The department of health shall prepare a quarterly report that sets forth: (a) known and projected department of health medicaid expenditures as described in subdivision (1) of this section, and factors that could result in medicaid disbursements for the relevant state fiscal year to exceed the projected department of health state funds disbursements in the enacted budget financial plan pursuant to subdivision 3 of section 23 of the state finance law, including spending increases or decreases due to: enrollment fluctuations, rate changes, utilization

Each such quarterly report shall be provided to the chairs of the senate finance and the assembly ways and means committees and shall be posted on the department of health's website in a timely manner. Notwithstanding any provision of law to the contrary, the director of the budget, in consultation with the commissioner of health, may use a payment reduction plan to make across-the-board reductions to the department of health state funds medicaid spending by $373,000,000 for state fiscal year 2021-2022 and $373,000,000 in state fiscal year 2022-2023 to limit such spending to the aggregate limit specified herein, or reduce the aggregate limit specified herein to provide a reduction to the state's financial plan. Reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval to implement the provisions of the medicaid payment reduction adjustment. For the purpose of making payments to providers of medical care pursuant to section 367-b of the social services law, and for payment of state aid to municipalities where payment systems through fiscal intermediaries are not operational, to reimburse such providers for costs attributable to the provision of care to patients eligible for medical assistance. Payments from this appropriation to general hospitals related to indigent care pursuant to article 28 of the public health law respectively, when combined with federal funds for services and expenses for the medical assistance
program pursuant to title XIX of the federal social security act or its successor program, shall equal the amount of the funds received related to health care reform act allowances and surcharges pursuant to article 28 of the public health law and deposited to this account less any such amounts withheld pursuant to subdivision 21 of section 2807-c of the public health law. set forth in the medicaid savings allo-

The commissioner shall seek the input of the
legislature, as well as organizations
representing health care providers,
consumers, businesses, workers, health
insurers, and others with relevant exper-

to constitute an imminent threat to public
health.
Nothing in this paragraph shall be deemed to
prevent all or part of such medicaid

fied herein to provide a reduction to the
state's financial plan. Reductions shall
be made in a manner that complies with the

other federal approval to implement the
provisions of the medicaid payment

5 shall department of health state funds
6 medicaid spending for the period April 1, 2021 through March 31, 2023 exceed
7 $49,118,443,000 provided, however, such
8 aggregate limits may be adjusted by the
9 director of the budget to account for any
10 changes in the New York state federal
11 medical assistance percentage amount
12 established pursuant to the federal social
13 security act, increases in provider reven-
14ues, reductions in local social services

17 beginning April 1, 2012 the operational

27ing a governmental declaration of emergen-

31 The director of the budget, in consultation
32 with the commissioner of health, shall
33 assess on a quarterly basis known and
34 projected medicaid expenditures by catego-
35ry of service and by geographic region, as
36 determined by the commissioner of health,
37 incurred both prior to and subsequent to
38 such assessment for each such period, and
39 if the director of the budget determines
40 that such expenditures are expected to
41 cause medicaid spending for such period to
42 exceed the aggregate limit specified here-
43in for such period, the state medicaid
44 director, in consultation with the direc-
45tor of the budget and the commissioner of
46 health, shall develop a medicaid savings
47 allocation adjustment to limit such spend-
48ing to the aggregate limit specified here-
49in for such period.

50 Such medicaid savings allocation adjustment
51 shall be designed, to reduce the expendi-
52tures authorized by the appropriations
DEPARTMENT OF HEALTH
AID TO LOCALITIES   2021-22

herein in compliance with the following guidelines: (1) reductions shall be made in compliance with applicable federal law, including the provisions of the Patient Protection and Affordable Care Act, Public Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No. 111-152 (collectively "Affordable Care Act") and any subsequent amendments thereto or regulations promulgated thereunder; (2) reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver authority, to implement the provisions of the medicaid savings allocation adjustment that meets the other criteria set forth herein; (3) reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the Affordable Care Act; (4) reductions shall be made uniformly among categories of services and geographic regions of the state, to the extent practicable, and shall be made uniformly within a category of service, to the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific categories of services contributed to department of health medicaid state funds spending in excess of the limits specified herein; the need to maintain safety net services in underserved communities; or the potential benefits of pursuing innovative payment models contemplated by the Affordable Care Act, in which case such grounds shall be set forth in the medicaid savings allocation adjustment; and (5) reductions shall be made in a manner that does not unnecessarily create administrative burdens to medicaid applicants and recipients or providers.
The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation adjustment, to the extent that all or part of such adjustment, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation adjustment on the department of health's website and shall provide written copies of such plan to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

(b) The commissioner may revise the medicaid savings allocation adjustment subsequent to the provisions of notice and prior to implementation but needs to provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that such revisions materially alter the plan.

Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this subdivision if, in the discretion of the commissioner, expedited development and implementation of a medicaid savings allocation adjustment is necessary due to a public health emergency.

For purposes of this section, a public health emergency is defined as: (i) a disaster, natural or otherwise, that significantly increases the immediate need for health care personnel in an area of the state; (ii) an event or condition that creates a widespread risk of exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or (iii) any other event or condition determined by the commissioner
to constitute an imminent threat to public health.

Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation adjustment from taking effect retroactively to the extent permitted by the federal centers for medicare and medicaid services.

In accordance with the medicaid savings allocation adjustment, the commissioner of the department of health shall reduce department of health state funds medicaid spending by the amount of the projected overspending through, actions including, but not limited to modifying or suspending reimbursement methods, including but not limited to all fees, premium levels and rates of payment, notwithstanding any provision of law that sets a specific amount or methodology for any such payments or rates of payment; modifying medicaid program benefits; seeking all necessary federal approvals, including, but not limited to waivers, waiver amendments; and suspending time frames for notice, approval or certification of rate requirements, notwithstanding any provision of law, rule or regulation to the contrary, including but not limited to sections 2807 and 3614 of the public health law, section 18 of chapter 2 of the laws of 1988, and 18 NYCRR 505.14(h).

The department of health shall prepare a quarterly report that sets forth: (a) known and projected department of health medicaid expenditures as described in subdivision (1) of this section, and factors that could result in medicaid disbursements for the relevant state fiscal year to exceed the projected department of health state funds disbursements in the enacted budget financial plan pursuant to subdivision 3 of section 23 of the state finance law, including spending increases or decreases due to: enrollment fluctuations, rate changes, utilization changes, MRT investments, and shift of beneficiaries to managed care; and variations in offline medicaid payments; and (b) the actions taken to implement any medicaid savings allocation adjustment implemented pursuant to subdivision (4) of
DEPARTMENT OF HEALTH

this section, including information
concerning the impact of such actions on
each category of service and each
geographic region of the state. Each such
quarterly report shall be provided to the
chairs of the senate finance and the
assembly ways and means committees and
shall be posted on the department of
health's website in a timely manner.

Notwithstanding any provision of law to the
contrary, the director of the budget, in
consultation with the commissioner of
health, may use a payment reduction plan
to make across-the-board reductions to the
department of health state funds medicaid
spending by $373,000,000 for state fiscal
year 2021-2022 and $373,000,000 in state
fiscal year 2022-2023 and to limit such
spending to the aggregate limit specified
herein, or reduce the aggregate limit
specified herein to provide a reduction to
the state's financial plan. Reductions
shall be made in a manner that complies
with the state medicaid plan approved by
the federal centers for medicare and medi-
caid services, provided, however, that the
commissioner of health is authorized to
submit any state plan amendment or seek
other federal approval to implement the
provisions of the medicaid payment
reduction adjustment.

For the purpose of making payments to
providers of medical care pursuant to
section 367-b of the social services law,
and for payment of state aid to munici-
palities and the federal government where
payment systems through fiscal interme-
diaries are not operational, to reimburse
the provision of care to patients eligible
for medical assistance.

For services and expenses of the medical
assistance program including nursing home,
personal care, certified home health agen-
cy, long term home health care program and

contrary, the portion of this appropri-
ation covering fiscal year 2021-22 shall
supersede and replace any duplicative (i)
reappropriation for this item covering

For reimbursement of local administrative expenses for medical assistance programs and for state administration of medical assistance programs, notwithstanding section 153 of the social services law, to include the performance of eligibility and enrollment determinations by the state or third-party entities designated by the state to perform such services.

Notwithstanding any provision of law to the contrary, subject to the approval of the director of budget, up to $23,000,000 of the amount appropriated herein shall be available for the purpose of providing payments to local social services districts for medical assistance administration claims that exceed an administrative ceiling established by the commissioner of health.

Notwithstanding any inconsistent provision of law and subject to the approval of the director of budget, moneys hereby appropriated may be increased or decreased by transfer or interchange between these appropriated amounts and appropriations of the medical assistance administration program, the medical assistance program, and the office of health insurance programs. Funding authority from this account used for state administration of the medical assistance program may be transferred to state operations appropriations within the aforementioned programs at amounts agreed upon by the commissioner of health, and the New York state division of the budget.

Notwithstanding section 40 of the state finance law or any other law to the contrary, all medical assistance appropriations made from this account shall remain in full force and effect in accordance, in the aggregate, with the following schedule: not more than 50 percent for the period April 1, 2020 to March 31, 2021; and the remaining amount for the period April 1, 2021 to [March 31, 2022] September 15, 2022.

Notwithstanding section 40 of the state finance law or any provision of law to the contrary, subject to federal approval, department of health state funds medicaid spending, excluding payments for medical services provided at state facilities operated by the office of mental health, the office for people with developmental disabilities and the office of addiction services and supports and further excluding any payments which are not appropriated within the department of health, in the aggregate, for the period April 1, 2020 through March 31, 2021, shall not exceed $23,606,772,000 except as provided below and state share medicaid spending, in the aggregate, for the period April 1, 2021 through [March 31, 2022] September 15, 2022, shall not exceed [$24,598,493,000] $23,531,327,000, but in no event shall department of health state funds medicaid spending for the period April 1, 2020 through [March 31, 2022] September 15, 2022 exceed [48,205,265,000] $47,138,099,000 provided, however, such aggregate limits may be adjusted by the director of the budget to account for any changes in the New York state federal medical assistance percentage amount established pursuant to the federal

social security act, increases in provider revenues, reductions in local social services district payments for medical assistance administration, minimum wage increases, and beginning April 1, 2012 the operational costs of the New York state medical indemnity fund, pursuant to chapter 59 of the laws of 2011, and state costs or savings from the essential plan program. Such projections may be adjusted by the director of the budget to account for increased or expedited department of health state funds medicaid expenditures as a result of a natural or other type of disaster, including a govern-
mental declaration of emergency.

The director of the budget, in consultation with the commissioner of health, shall assess on a basis known and projected medicaid expenditures by category of service and by geographic region, as determined by the commissioner of health, incurred both prior to and subsequent to such assessment for each such period, and if the director of the budget determines that such expenditures are expected to cause medicaid spending for such period to exceed the aggregate limit specified herein for such period, the state medicaid director, in consultation with the director of the budget and the commissioner of health, shall develop a medicaid savings allocation adjustment to limit such spending to the aggre-

gate limit specified herein for such period.

Such medicaid savings allocation adjustment shall be designed, to reduce the expenditures authorized by the appropriations herein in compliance with the following guidelines: (1) reductions shall be made in compliance with applicable federal law, including the provisions of the Patient Protection and Affordable Care Act, Public Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No. 111-152 (collectively "Affordable Care Act") and any subsequent amendments thereto or regulations promul-
gated thereunder; (2) reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver authori-
ty, to implement the provisions of the medicaid savings allocation adjustment that meets the other criteria set forth herein; (3) reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the Affordable Care Act; (4) reductions shall be made uniformly among categories of services and geographic regions of the state, to the extent practicable, and shall be made uniformly within a catego-
ry of service, to the extent practicable, except where the commis-
ioner determines that there are sufficient grounds for non-uniform-
ity, including but not limited to: the extent to which specific categories of services contributed to department of health medicaid state funds spending in excess of the limits specified herein; the need to maintain safety net services in underserved communities; or the potential benefits of pursuing innovative payment models contem-
plated by the Affordable Care Act, in which case such grounds shall
be set forth in the medicaid savings allocation adjustment; and (5) reductions shall be made in a manner that does not unnecessarily create administrative burdens to medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation adjustment, to the extent that all or part of such adjustment, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation adjustment on the department of health's website and shall provide written copies of such adjustment to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

(b) The commissioner may revise the medicaid savings allocation adjustment subsequent to the provisions of notice and prior to implementation but needs to provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that such revisions materially alter the adjustment.

Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this subdivision if, in the discretion of the commissioner, expedited development and implementation of a medicaid savings allocation adjustment is necessary due to a public health emergency.

For purposes of this section, a public health emergency is defined as: (i) a disaster, natural or otherwise, that significantly increases the immediate need for health care personnel in an area of the state; (ii) an event or condition that creates a widespread risk of exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or (iii) any other event or condition determined by the commissioner to constitute an imminent threat to public health.

Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation adjustment from taking effect retroactively to the extent permitted by the federal centers for medicare and medicaid services.

In accordance with the medicaid savings allocation adjustment, the commissioner of the department of health shall reduce department of health state funds medicaid spending by the amount of the projected overspending through, actions including, but not limited to modifying or suspending reimbursement methods, including but not limited to all fees, premium levels and rates of payment, notwithstanding any provision of law that sets a specific amount or methodology for any such payments or rates of payment; modifying medicaid program benefits; seeking all necessary federal approvals, including, but not limited to waivers, waiver amendments; and suspending time
frames for notice, approval or certification of rate requirements, notwithstanding any provision of law, rule or regulation to the contrary, including but not limited to sections 2807 and 3614 of the public health law, section 18 of chapter 2 of the laws of 1988, and 18 NYCRR 505.14(h).

The department of health shall prepare a [monthly] quarterly report that sets forth: (a) known and projected department of health medicaid expenditures as described in subdivision (1) of this section, and factors that could result in medicaid disbursements for the relevant state fiscal year to exceed the projected department of health state funds disbursements in the enacted budget financial plan pursuant to subdivision 3 of section 23 of the state finance law, including spending increases or decreases due to: enrollment fluctuations, rate changes, utilization changes, MRT investments, and shift of beneficiaries to managed care; and variations in offline medicaid payments; and (b) the actions taken to implement any medicaid savings allocation adjustment implemented pursuant to subdivision (4) of this section, including information concerning the impact of such actions on each category of service and each geographic region of the state. Each such [monthly] quarterly report shall be provided to the chairs of the senate finance and the assembly ways and means committees and shall be posted on the department of health's website in a timely manner.

The money hereby appropriated is available for payment of aid herefore accrued or hereafter accrued to municipalities, and to providers of medical services pursuant to section 367-b of the social services law.

Notwithstanding any other provision of law, the money hereby appropriated may be increased or decreased by interchange or transfer, with any appropriation of the department of health, and may be increased or decreased by transfer or suballocation between these appropriated amounts and appropriations of the office of mental health, the office for people with developmental disabilities, the office of addiction services and supports, the department of family assistance office of temporary and disability assistance, the department of corrections and community supervision, the office of information technology services, the state university of New York, the state office for the aging, the office of the medicaid inspector general, and office of children and family services with the approval of the director of the budget, who shall file such approval with the department of audit and control and copies thereof with the chairman of the senate finance committee and the chairman of the assembly ways and means committee.

director of the budget to account for increased or expedited depart-
ment of health state funds medicaid expenditures as a result of a
natural or other type of disaster, including a governmental declara-
tion of emergency.

The director of the budget, in consultation with the commissioner of
health, shall assess on a [monthly] quarterly basis known and
projected medicaid expenditures by category of service and by
geographic region, as defined by the commissioner, incurred both
prior to and subsequent to such assessment for each such period, and
if the director of the budget determines that such expenditures are
expected to cause medicaid spending for such period to exceed the
aggregate limit specified herein for such period, the state medicaid
director, in consultation with the director of the budget and the
commissioner of health, shall develop a medicaid savings allocation
adjustment to limit such spending to the aggregate limit specified
herein for such period.

Such medicaid savings allocation adjustment shall be designed, to
reduce the expenditures authorized by the appropriations herein in
compliance with the following guidelines: (1) reductions shall be
made in compliance with applicable federal law, including the
provisions of the Patient Protection and Affordable Care Act, Public
Law No. 111-148, and the Health Care and Education Reconciliation
Act of 2010, Public Law No. 111-152 (collectively "Affordable Care
Act") and any subsequent amendments thereto or regulations promul-

gated thereunder; (2) reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver authority, to implement the provisions of the medicaid savings allocation adjustment that meets the other criteria set forth herein; (3) reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the Affordable Care Act; (4) reductions shall be made uniformly among categories of services and geographic regions of the state, to the extent practicable, and shall be made uniformly within a category of service, to the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific categories of services contributed to department of health medicaid state funds spending in excess of the limits specified herein; the need to maintain safety net services in underserved communities; or the potential benefits of pursuing innovative payment models contemplated by the Affordable Care Act, in which case such grounds shall be set forth in the medicaid savings allocation adjustment; and (5) reductions shall be made in a manner that does not unnecessarily create administrative burdens to medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation adjustment, to the extent that all or part of such adjustment, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation adjustment on the department of health's website and shall provide written copies of such adjustment to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

(b) The commissioner may revise the medicaid savings allocation adjustment subsequent to the provisions of notice and prior to implementation but needs to provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that such revisions materially alter the adjustment.

Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this subdivision if, in the discretion of the commissioner, expedited development and implementation of a medicaid savings allocation adjustment is necessary due to a public health emergency.
DEPARTMENT OF HEALTH

AID TO LOCALITIES - REAPPROPRIATIONS  2021-22

state;  (ii) an event or condition that creates a widespread risk of
exposure to a serious communicable disease, or the potential for
such widespread risk of exposure; or (iii) any other event or condi-
tion determined by the commissioner to constitute an imminent threat
to public health.

Nothing in this paragraph shall be deemed to prevent all or part of
such medicaid savings allocation adjustment from taking effect
retroactively to the extent permitted by the federal centers for
medicare and medicaid services.

In accordance with the medicaid savings allocation adjustment, the
commissioner of the department of health shall reduce department of
health state funds medicaid spending by the amount of the projected
overspending through, actions including, but not limited to modify-

to all fees, premium levels and rates of payment, notwithstanding
any provision of law that sets a specific amount or methodology for
any such payments or rates of payment; modifying or discontinuing
medicaid program benefits; seeking all necessary federal approvals,
including, but not limited to waivers, waiver amendments; and
suspending time frames for notice, approval or certification of rate
requirements, notwithstanding any provision of law, rule or regu-

The department of health shall prepare a report that sets forth: (a) known and projected department of health medicaid expenditures as described in subdivision (1) of this section, and factors that could result in medicaid disbursements for the relevant state fiscal year to exceed the projected department of health state funds disbursements in the enacted budget financial plan pursuant to subdivision 3 of section 23 of the state finance law, including spending increases or decreases due to: enrollment fluctuations, rate changes, utilization changes, MRT investments, and shift of beneficiaries to managed care; and variations in offline medicaid payments; and (b) the actions taken to implement any medicaid savings allocation adjustment implemented pursuant to subdivision (4) of this section, including information concerning the impact of such actions on each category of service and each geographic region of the state. Each such report shall be provided to the chairs of the senate finance and the assem-

Each eligible organization in receipt of funding made available by these appropriations may be required to submit written certification, in such form and at such time the commissioner may prescribe, attesting to the total amount of funds used by the eligible organization, how such funding will be or was used for purposes eligible under these appropriations and any other reporting deemed necessary by the commissioner. The amounts appropriated herein may include advances to organizations authorized to receive such funds to accomplish this purpose.

Notwithstanding any other provision of law, the money hereby appropriated may be increased or decreased by interchange or transfer, with any appropriation of the department of health and the office of medicaid inspector general and may be increased or decreased by transfer or suballocation between these appropriated amounts and appropriations of the department of health state purpose account, the office of mental health, office for people with developmental disabilities, the office of addiction services and supports, the department of family assistance office of temporary and disability assistance, the department of corrections and community supervision, the office of information technology services, the state university of New York, and office of children and family services, the office of medicaid inspector general, and the state office for the aging with the approval of the director of the budget, who shall file such approval with the department of audit and control and copies thereof.

The appropriation made by chapter 53, section 1, of the laws of 2020, as
added by chapter 50, section 3, of the laws of 2020, is hereby
amended and reappropriated to read:

Notwithstanding section 40 of the state finance law or any other law
to the contrary, all medical assistance appropriations made from
this account shall remain in full force and effect in accordance, in
the aggregate, with the following schedule: not more than 50 percent
for the period April 1, 2020 to March 31, 2021; and the remaining
amount for the period April 1, 2021 to [March 31], September 15,
2022.

Notwithstanding section 40 of the state finance law or any provision
of law to the contrary, subject to federal approval, department of
health state funds medicaid spending, excluding payments for medical
services provided at state facilities operated by the office of
mental health, the office for people with developmental disabilities
and the office of addiction services and supports and further
excluding any payments which are not appropriated within the depart-
ment of health, in the aggregate, for the period April 1, 2020
through March 31, 2021, shall not exceed $23,606,772,000 except as
provided below and state share medicaid spending, in the aggregate,
for the period April 1, 2021 through [March 31], September 15,
2022, shall not exceed [24,598,493,000] $23,531,327,000, but in no 47
event shall department of health state funds medicaid spending for the
period April 1, 2020 through [March 31], September 15, 2022 exceed
[$48,205,265,000] $47,138,099,000 provided, however, such aggregate
limits may be adjusted by the director of the budget to account for
any changes in the New York state federal medical assistance

percentage amount established pursuant to the federal social security act, increases in provider revenues, reductions in local social services district payments for medical assistance administration, minimum wage increases and beginning April 1, 2012 the operational costs of the New York state medical indemnity fund, pursuant to chapter 59 of the laws of 2011, and state costs or savings from the essential plan program. Such projections may be adjusted by the director of the budget to account for increased or expedited department of health state funds medicaid expenditures as a result of a natural or other type of disaster, including a governmental declaration of emergency.

The director of the budget, in consultation with the commissioner of health, shall assess on a [monthly] quarterly basis known and projected medicaid expenditures by category of service and by geographic region, as determined by the commissioner of health, incurred both prior to and subsequent to such assessment for each such period, and if the director of the budget determines that such expenditures are expected to cause medicaid spending for such period to exceed the aggregate limit specified herein for such period, the state medicaid director, in consultation with the director of the budget and the commissioner of health, shall develop a medicaid savings allocation adjustment to limit such spending to the aggregate limit specified herein for such period.

Such medicaid savings allocation adjustment shall be designed, to reduce the expenditures authorized by the appropriations herein in compliance with the following guidelines: (1) reductions shall be made in compliance with applicable federal law, including the provisions of the Patient Protection and Affordable Care Act, Public Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No. 111-152 (collectively "Affordable Care Act") and any subsequent amendments thereto or regulations promulgated thereunder; (2) reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver authority, to implement the provisions of the medicaid savings allocation adjustment that meets the other criteria set forth herein; (3) reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the Affordable Care Act; (4) reductions shall be made uniformly among categories of services and geographic regions of the state, to the extent practicable, and shall be made uniformly within a category of service, to the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific categories of services contributed to department of health medicaid state funds spending in excess of the limits specified herein; the need to maintain safety net services in underserved communities; or the potential benefits of pursuing innovative payment models contem-
plated by the Affordable Care Act, in which case such grounds shall
be set forth in the medicaid savings allocation adjustment; and (5)
reductions shall be made in a manner that does not unnecessarily
create administrative burdens to medicaid applicants and recipients
or providers.
The commissioner shall seek the input of the legislature, as well as
organizations representing health care providers, consumers, busi-
nesses, workers, health insurers, and others with relevant exper-
tise, in developing such medicaid savings allocation adjustment, to
the extent that all or part of such adjustment, in the discretion of
the commissioner, is likely to have a material impact on the overall
medicaid program, particular categories of service or particular
geographic regions of the state.
(a) The commissioner shall post the medicaid savings allocation
adjustment on the department of health's website and shall provide
written copies of such plan to the chairs of the senate finance and
the assembly ways and means committees at least 30 days before the
date on which implementation is expected to begin.
(b) The commissioner may revise the medicaid savings allocation
adjustment subsequent to the provisions of notice and prior to
implementation but needs to provide a new notice pursuant to subpar-
agraph (i) of this paragraph only if the commissioner determines, in
his or her discretion, that such revisions materially alter the
plan.
Notwithstanding the provisions of paragraphs (a) and (b) of this
subdivision, the commissioner need not seek the input described in
paragraph (a) of this subdivision or provide notice pursuant to
paragraph (b) of this subdivision if, in the discretion of the
commissioner, expedited development and implementation of a medicaid
savings allocation adjustment is necessary due to a public health
emergency.
For purposes of this section, a public health emergency is defined as:
(i) a disaster, natural or otherwise, that significantly increases
the immediate need for health care personnel in an area of the
state; (ii) an event or condition that creates a widespread risk of
exposure to a serious communicable disease, or the potential for
such widespread risk of exposure; or (iii) any other event or condi-
tion determined by the commissioner to constitute an imminent threat
to public health.
Nothing in this paragraph shall be deemed to prevent all or part of
such medicaid savings allocation adjustment from taking effect
retroactively to the extent permitted by the federal centers for
medicare and medicaid services.
In accordance with the medicaid savings allocation adjustment, the
commissioner of the department of health shall reduce department of
health state funds medicaid spending by the amount of the projected
overspending through, actions including, but not limited to modify-
ing or suspending reimbursement methods, including but not limited
to all fees, premium levels and rates of payment, notwithstanding
any provision of law that sets a specific amount or methodology for
any such payments or rates of payment; modifying medicaid program
benefits; seeking all necessary federal approvals, including, but
not limited to waivers, waiver amendments; and suspending time
frames for notice, approval or certification of rate requirements,
notwithstanding any provision of law, rule or regulation to the
contrary, including but not limited to sections 2807 and 3614 of the
public health law, section 18 of chapter 2 of the laws of 1988, and
18 NYCRR 505.14(h).
    The department of health shall prepare a [monthly] quarterly report
that sets forth: (a) known and projected department of health medi-
caid expenditures as described in subdivision (1) of this section,
and factors that could result in medicaid disbursements for the
relevant state fiscal year to exceed the projected department of
health state funds disbursements in the enacted budget financial
plan pursuant to subdivision 3 of section 23 of the state finance
law, including spending increases or decreases due to: enrollment
fluctuations, rate changes, utilization changes, MRT investments,
and shift of beneficiaries to managed care; and variations in
offline medicaid payments; and (b) the actions taken to implement
any medicaid savings allocation adjustment implemented pursuant to
subdivision (4) of this section, including information concerning
the impact of such actions on each category of service and each
geographic region of the state. Each such [monthly] quarterly report
shall be provided to the chairs of the senate finance and the assem-
bly's ways and means committees and shall be posted on the department
of health's website in a timely manner.
    Notwithstanding any provision of law to the contrary, the director of
the budget, in consultation with the commissioner of health, may use
a payment reduction plan to make across-the-board reductions to the
department of health state funds medicaid spending by $373,000,000
for state fiscal year 2020-2021 and $175,000,000 in state fiscal year 2021-2022 to limit such spending to the aggregate
limit specified herein, or reduce the aggregate limit specified
herein to provide a reduction to the state's financial plan.
    Reductions shall be made in a manner that complies with the state
medicaid plan approved by the federal centers for medicare and medi-
caid services, provided, however, that the commissioner of health is
authorized to submit any state plan amendment or seek other federal
approval to implement the provisions of the medicaid payment
reduction adjustment.
    For the purpose of making payments to providers of medical care pursuant to section 367-b of the social services law, and for payment of
state aid to municipalities where payment systems through fiscal
intermediaries are not operational, to reimburse such providers for
costs attributable to the provision of care to patients eligible for
medical assistance. Payments from this appropriation to general
hospitals related to indigent care pursuant to article 28 of the
public health law respectively, when combined with federal funds for
services and expenses for the medical assistance program pursuant to
title XIX of the federal social security act or its successor
program, shall equal the amount of the funds received related to
health care reform act allowances and surcharges pursuant to article
28 of the public health law and deposited to this account less any
such amounts withheld pursuant to subdivision 21 of section 2807-c
of the public health law. Notwithstanding any inconsistent provision of law, the moneys hereby appropriated may be increased or decreased by interchange or transfer with any appropriation of the department of health with the approval of the Budget Director, who shall file such approval with the Department of Audit and Control and copies thereof with the Chairmen of the Senate Finance Committee and the chairman of the Assembly Ways and Means Committee. Notwithstanding any provision of law to the contrary, the portion of this appropriation covering fiscal year 2020-21 shall supersede and replace any duplicative (i) reappropriation for this item covering fiscal year 2020-21, and (ii) appropriation for this item covering fiscal year 2020-21 set forth in chapter 53 of the laws of 2019 (29797) ... 1,433,000,000 ..................... The director of the budget, in consultation with the commissioner of health, shall assess on a basis known and projected medicaid expenditures by category of service and by geographic region, as determined by the commissioner of health, incurred both prior to and subsequent to such assessment for each such period, and if the director of the budget determines that such expenditures are expected to cause medicaid spending for such period to exceed the aggregate limit specified herein for such period, the state medicaid director, in consultation with the director of the budget and the commissioner of health, shall develop a medicaid savings allocation adjustment to limit such spending to the aggregate limit specified herein for such period.

Such medicaid savings allocation adjustment shall be designed, to reduce the expenditures authorized by the appropriations herein in compliance with the following guidelines: (1) reductions shall be made in compliance with applicable federal law, including the provisions of the Patient Protection and Affordable Care Act, Public Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No. 111-152 (collectively "Affordable Care Act") and any subsequent amendments thereto or regulations promulgated thereunder; (2) reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver authority, to implement the provisions of the medicaid savings allocation adjustment that meets the other criteria set forth herein; (3) reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the Affordable Care Act; (4) reductions shall be made uniformly among categories of services and geographic regions of the state, to the extent practicable, and shall be made uniformly within a category of service, to the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific categories of services contributed to department of health medicaid state funds spending in excess of the limits specified herein; the need to maintain safety net services in underserved communities; or the potential benefits of pursuing innovative payment models contemplated by the Affordable Care Act, in which case such grounds shall be set forth in the medicaid savings allocation adjustment; and (5) reductions shall be made in a manner that does not unnecessarily create administrative burdens to medicaid applicants and recipients or providers.

percentage amount established pursuant to the federal social securi-
ty act, increases in provider revenues, reductions in local social
services district payments for medical assistance administration,
minimum wage increases and beginning April 1, 2012 the operational
costs of the New York state medical indemnity fund, pursuant to
chapter 59 of the laws of 2011, and state costs or savings from the
essential plan. Such projections may be adjusted by the director of
the budget to account for increased or expedited department of
health state funds medicaid expenditures as a result of a natural or
other type of disaster, including a governmental declaration of
emergency.
The director of the budget, in consultation with the commissioner of
health, shall assess on a quarterly basis known and
projected medicaid expenditures by category of service and by
geographic region, as determined by the commissioner of health,
incurred both prior to and subsequent to such assessment for each
such period, and if the director of the budget determines that such
expenditures are expected to cause medicaid spending for such period
to exceed the aggregate limit specified herein for such period, the
state medicaid director, in consultation with the director of the
budget and the commissioner of health, shall develop a medicaid
savings allocation adjustment to limit such spending to the aggre-
gate limit specified herein for such period.
Such medicaid savings allocation adjustment shall be designed, to
reduce the expenditures authorized by the appropriations herein in
compliance with the following guidelines: (1) reductions shall be
made in compliance with applicable federal law, including the
provisions of the Patient Protection and Affordable Care Act, Public
Law No. 111-148, and the Health Care and Education Reconciliation
Act of 2010, Public Law No. 111-152 (collectively "Affordable Care
Act") and any subsequent amendments thereto or regulations promul-
gated thereunder; (2) reductions shall be made in a manner that
complies with the state medicaid plan approved by the federal
centers for medicare and medicaid services, provided, however, that
the commissioner of health is authorized to submit any state plan
amendment or seek other federal approval, including waiver authori-
ty, to implement the provisions of the medicaid savings allocation
adjustment that meets the other criteria set forth herein; (3) reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the Affordable Care Act; (4) reductions shall be made uniformly among categories of services and geographic regions of the state, to the extent practicable, and shall be made uniformly within a category of service, to the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific categories of services contributed to department of health medicaid state funds spending in excess of the limits specified herein; the need to maintain safety net services in underserved communities; or the potential benefits of pursuing innovative payment models contemplated by the Affordable Care Act, in which case such grounds shall be set forth in the medicaid savings allocation adjustment; and (5) reductions shall be made in a manner that does not unnecessarily create administrative burdens to medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation adjustment, to the extent that all or part of such adjustment, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation adjustment on the department of health's website and shall provide written copies of such plan to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

(b) The commissioner may revise the medicaid savings allocation adjustment subsequent to the provisions of notice and prior to implementation but needs to provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that such revisions materially alter the plan.

Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this subdivision if, in the discretion of the commissioner, expedited development and implementation of a medicaid savings allocation adjustment is necessary due to a public health emergency.

For purposes of this section, a public health emergency is defined as: (i) a disaster, natural or otherwise, that significantly increases the immediate need for health care personnel in an area of the state; (ii) an event or condition that creates a widespread risk of exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or (iii) any other event or condi-
tion determined by the commissioner to constitute an imminent threat
to public health.
Nothing in this paragraph shall be deemed to prevent all or part of
such medicaid savings allocation adjustment from taking effect
retroactively to the extent permitted by the federal centers for
medicare and medicaid services.
In accordance with the medicaid savings allocation adjustment, the
commissioner of the department of health shall reduce department of
health state funds medicaid spending by the amount of the projected
overspending through, actions including, but not limited to modify-
ing or suspending reimbursement methods, including but not limited
to all fees, premium levels and rates of payment, notwithstanding
any provision of law that sets a specific amount or methodology for
any such payments or rates of payment; modifying medicaid program
benefits; seeking all necessary federal approvals, including, but
not limited to waivers, waiver amendments; and suspending time
frames for notice, approval or certification of rate requirements,
notwithstanding any provision of law, rule or regulation to the
contrary, including but not limited to sections 2807 and 3614 of the
public health law, section 18 of chapter 2 of the laws of 1988, and
18 NYCRR 505.14(h).
The department of health shall prepare a [monthly] quarterly report
that sets forth: (a) known and projected department of health medi-
caid expenditures as described in subdivision (1) of this section,
and factors that could result in medicaid disbursements for the
relevant state fiscal year to exceed the projected department of
health state funds disbursements in the enacted budget financial
plan pursuant to subdivision 3 of section 23 of the state finance
law, including spending increases or decreases due to: enrollment
fluctuations, rate changes, utilization changes, MRT investments,
and shift of beneficiaries to managed care; and variations in
offline medicaid payments; and (b) the actions taken to implement
any medicaid savings allocation adjustment implemented pursuant to
subdivision (4) of this section, including information concerning
the impact of such actions on each category of service and each
geographic region of the state. Each such [monthly] quarterly report
shall be provided to the chairs of the senate finance and the assem-
bly ways and means committees and shall be posted on the department
of health's website in a timely manner.
Notwithstanding any provision of law to the contrary, the director of
the budget, in consultation with the commissioner of health, may use
a payment reduction plan to make across-the-board reductions to the
department of health state funds medicaid spending by $373,000,000
for state fiscal year 2020-2021 and [175,000,000] $373,000,000 in
state fiscal year 2021-2022 and to limit such spending to the aggre-
gate limit specified herein, or reduce the aggregate limit specified
herein to provide a reduction to the state's financial plan.
Reductions shall be made in a manner that complies with the state
medicaid plan approved by the federal centers for medicare and medi-
caid services, provided, however, that the commissioner of health is
authorized to submit any state plan amendment or seek other federal
