1 § 1180-e. Owner liability for failure of operator to comply with
2 certain posted maximum speed limits. (a) 1. Notwithstanding any other
3 provision of law, the commissioner of transportation is hereby author-

5 the owner of a vehicle for failure of an operator thereof to comply with
6 posted maximum speed limits in a highway construction or maintenance
7 work area when highway construction or maintenance work is occurring and
8 located on an interstate or auxiliary interstate highway under the
9 commissioner's jurisdiction (i) when a work area speed limit is in
10 effect as provided in paragraph two of subdivision (d) or subdivision
11 (f) of section eleven hundred eighty of this article or (ii) when other
12 speed limits are in effect as provided in subdivision (b) or (g) or
13 paragraph one of subdivision (d) of section eleven hundred eighty of
14 this article. Such demonstration program shall empower the commissioner
15 to install photo speed violation monitoring systems within no more than
16 fifteen highway construction or maintenance work areas located on inter-
17 state or auxiliary interstate highways under the commissioner's juris-
18 isdiction and to operate such systems when highway construction or mainte-

20 area speed limit is in effect as provided in paragraph two of subdivi-
21 sion (d) or subdivision (f) of section eleven hundred eighty of this
22 article or (iv) when other speed limits are in effect as provided in
23 subdivision (b) or (g) or paragraph one of subdivision (d) of section
24 eleven hundred eighty of this article. The commissioner, in consulta-
25 tion with the superintendent of the division of state police, shall
26 determine the location of the highway construction or maintenance work
27 areas located on an interstate or auxiliary interstate highway under the
28 jurisdiction of the commissioner in which to install and operate photo
29 speed violation monitoring systems. In selecting a highway construction
30 or maintenance work area in which to install and operate a photo speed
31 violation monitoring system, the commissioner shall consider criteria
32 including, but not limited to, the speed data, crash history, and road-
33 way geometry applicable to such highway construction or maintenance work
34 area. A photo speed violation monitoring system shall not be installed
35 or operated on an interstate or auxiliary interstate highway exit ramp.

36 2. Notwithstanding any other provision of law, after holding a public
37 hearing in accordance with the public officers law and subsequent
38 approval by a majority of the members of the entire board the chair of
39 the thruway authority is hereby authorized to establish a demonstration
40 program imposing monetary liability on the owner of a vehicle for fail-
41 ure of an operator thereof to comply with posted maximum speed limits in
42 a highway construction or maintenance work area when highway
43 construction or maintenance work is occurring and located on the thruway
44 (i) when a work area speed limit is in effect as provided in paragraph
45 two of subdivision (d) or subdivision (f) of section eleven hundred
46 eighty of this article or (ii) when other speed limits are in effect as
47 provided in subdivision (b) or (g) or paragraph one of subdivision (d)
48 of section eleven hundred eighty of this article. Such demonstration
49 program shall empower the chair to install photo speed violation moni-
50 toring systems within no more than five highway construction or mainte-
51 nance work areas located on the thruway and to operate such systems when
52 highway construction or maintenance work is occurring and within such
53 work areas (iii) when a work area speed limit is in effect as provided
54 in paragraph two of subdivision (d) or subdivision (f) of section eleven
55 hundred eighty of this article or (iv) when other speed limits are in
56 effect as provided in subdivision (b) or (g) or paragraph one of subdivi-

1 vision (d) of section eleven hundred eighty of this article. The chair,
2 in consultation with the superintendent of the division of state police,
3 shall determine the location of the highway construction or maintenance
4 work areas located on the thruway in which to install and operate photo
5 speed violation monitoring systems. In selecting a highway construction
6 or maintenance work area in which to install and operate a photo speed
7 violation monitoring system, the chair shall consider criteria includ-
8 ing, but not limited to, the speed data, crash history, and roadway
9 geometry applicable to such highway construction or maintenance work
10 area. A photo speed violation monitoring system shall not be installed
11 or operated on a thruway exit ramp.

12 3. No photo speed violation monitoring system shall be used in a high-
13 way construction or maintenance work area unless (i) on the day it is to
14 be used it has successfully passed a self-test of its functions; and
15 (ii) it has undergone an annual calibration check performed pursuant to
16 paragraph five of this subdivision. The commissioner or chair, as appli-
17 cable, shall install signs giving notice that a photo speed violation
18 monitoring system is in use, in conformance with standards established
19 in the MUTCD.

20 4. Operators of photo speed violation monitoring systems shall have
21 completed training in the procedures for setting up, testing, and oper-
22 ating such systems. Each such operator shall complete and sign a daily
23 set-up log for each such system that he or she operates that (i) states
24 the date and time when, and the location where, the system was set up
25 that day, and (ii) states that such operator successfully performed, and
26 the system passed, the self-tests of such system before producing a
27 recorded image that day. The commissioner or the chair, as applicable,
28 shall retain each such daily log until the later of the date on which
29 the photo speed violation monitoring system to which it applies has been
30 permanently removed from use or the final resolution of all cases
31 involving notices of liability issued based on photographs, microphoto-
32 graphs, video or other recorded images produced by such system.

33 5. Each photo speed violation monitoring system shall undergo an annu-
34 al calibration check performed by an independent calibration laboratory
35 which shall issue a signed certificate of calibration. The commissioner
36 or the chair, as applicable, shall keep each such annual certificate of
37 calibration on file until the final resolution of all cases involving a
38 notice of liability issued during such year which were based on photo-
39 graphs, microphotographs, videotape or other recorded images produced by
40 such photo speed violation monitoring system.

41 6. (i) Such demonstration program shall utilize necessary technologies
42 to ensure, to the extent practicable, that photographs, microphoto-
43 graphs, videotape or other recorded images produced by such photo speed
44 violation monitoring systems shall not include images that identify the
45 driver, the passengers, or the contents of the vehicle. Provided, howev-
46 er, that no notice of liability issued pursuant to this section shall be
47 dismissed solely because such a photograph, microphotograph, videotape
48 or other recorded image allows for the identification of the driver, the
49 passengers, or the contents of vehicles where the commissioner or the
50 chair, as applicable, shows that they made reasonable efforts to comply
51 with the provisions of this paragraph in such case.

52 (ii) Photographs, microphotographs, videotape or any other recorded
53 image from a photo speed violation monitoring system shall be for the
54 exclusive use of the commissioner or the chair, as applicable, for the
55 purpose of the adjudication of liability imposed pursuant to this
56 section and of the owner receiving a notice of liability pursuant to

1 this section, and shall be destroyed by the commissioner or chair, as
2 applicable, upon the final resolution of the notice of liability to
3 which such photographs, microphotographs, videotape or other recorded
4 images relate, or one year following the date of issuance of such notice
5 of liability, whichever is later. Notwithstanding the provisions of any
6 other law, rule or regulation to the contrary, photographs, microphoto-
7 graphs, videotape or any other recorded image from a photo speed
8 violation monitoring system shall not be open to the public, nor subject
9 to civil or criminal process or discovery, nor used by any court or
10 administrative or adjudicatory body in any action or proceeding therein
11 except that which is necessary for the adjudication of a notice of
12 liability issued pursuant to this section, and no public entity or
13 employee, officer or agent thereof shall disclose such information,
14 except that such photographs, microphotographs, videotape or any other
15 recorded images from such systems:

16 (A) shall be available for inspection and copying and use by the motor
17 vehicle owner and operator for so long as such photographs, microphoto-
18 graphs, videotape or other recorded images are required to be maintained
19 or are maintained by such public entity, employee, officer or agent; and

20 (B) (1) shall be furnished when described in a search warrant issued
21 by a court authorized to issue such a search warrant pursuant to article
22 six hundred ninety of the criminal procedure law or a federal court
23 authorized to issue such a search warrant under federal law, where such
24 search warrant states that there is reasonable cause to believe such
25 information constitutes evidence of, or tends to demonstrate that, a
26 misdemeanor or felony offense was committed in this state or another
27 state, or that a particular person participated in the commission of a
28 misdemeanor or felony offense in this state or another state, provided,
29 however, that if such offense was against the laws of another state, the
30 court shall only issue a warrant if the conduct comprising such offense
31 would, if occurring in this state, constitute a misdemeanor or felony
32 against the laws of this state; and

33 (2) shall be furnished in response to a subpoena duces tecum signed by
34 a judge of competent jurisdiction and issued pursuant to article six
35 hundred ten of the criminal procedure law or a judge or magistrate of a
36 federal court authorized to issue such a subpoena duces tecum under
37 federal law, where the judge finds and the subpoena states that there is
38 reasonable cause to believe such information is relevant and material to
39 the prosecution, or the defense, or the investigation by an authorized
40 law enforcement official, of the alleged commission of a misdemeanor or
41 felony in this state or another state, provided, however, that if such
42 offense was against the laws of another state, such judge or magistrate
43 shall only issue such subpoena if the conduct comprising such offense
44 would, if occurring in this state, constitute a misdemeanor or felony in
45 this state; and

46 (3) may, if lawfully obtained pursuant to this clause and clause (A)
47 of this subparagraph and otherwise admissible, be used in such criminal
48 action or proceeding.

7 liability was issued pursuant to subdivision (g) of this section shall
8 not be liable for the violation of subdivision (b), (d), (f) or (g) of
9 section eleven hundred eighty of this article pursuant to this section,
10 provided that he or she sends to the traffic violations bureau or court
11 having jurisdiction a copy of the rental, lease or other such contract
12 document covering such vehicle on the date of the violation, with the
13 name and address of the lessee clearly legible, within thirty-seven days
14 after receiving notice from the bureau or court of the date and time of
15 such violation, together with the other information contained in the
16 original notice of liability. Failure to send such information within
17 such thirty-seven day time period shall render the owner liable for the
18 penalty prescribed by this section. Where the lessor complies with the
19 provisions of this paragraph, the lessee of such vehicle on the date of
20 such violation shall be deemed to be the owner of such vehicle for

43 paragraph shall render the owner liable for the penalty prescribed in
44 this section.

45 (iii) Where the lessor complies with the provisions of this paragraph,
46 the lessee of such vehicle on the date of such violation shall be deemed
47 to be the owner of such vehicle for purposes of this section, shall be
48 subject to liability for such violation pursuant to this section and
49 shall be sent a notice of liability pursuant to subdivision (g) of this
50 section.

51 (k) 1. If the owner liable for a violation of subdivision (b), (d),

54 violation, the owner may maintain an action for indemnification against
55 the operator.

2. Notwithstanding any other provision of this section, no owner of a vehicle shall be subject to a monetary fine imposed pursuant to this section if the operator of such vehicle was operating such vehicle without the consent of the owner at the time such operator operated such vehicle in violation of subdivision (b), (d), (f) or (g) of section eleven hundred eighty of this article. 34 Section 1. Legislative findings. The legislature hereby finds and
35 determines that the establishment of the utility debt securitization
36 authority under part B of chapter 173 of the laws of 2013, as amended,
37 permitted the issuance of securitized restructuring bonds on favorable
38 terms which resulted in lower aggregate distribution, transmission and
39 transition charges to Long Island ratepayers, compared to other avail-
40 able alternatives, and the purposes of such act will be further advanced
41 by amending such act to permit the issuance of additional such bonds
42 subject to a limit on the outstanding principal amount thereof and to
43 allow such bonds to be issued to refund bonds of the utility debt secu-
44 ritization authority. The legislature hereby further finds and deter-
45 mines that improvements to the transmission and distribution system of

1 the Long Island Power Authority to increase resiliency and better with-
2 stand the effects of climate change are necessary, and that issuance of
3 securitized restructuring bonds by the Utility Debt Securitization
4 Authority may allow the funding of such improvements on more favorable
5 terms than if such bonds were issued by the Long Island Power Authority.
6 The legislature hereby further finds and determines that it is in the
7 interest of Long Island ratepayers for the state comptroller to exercise
8 oversight over the issuance of securitized restructuring bonds and
9 contracts entered into on behalf of the service provider.

10 § 2. Subdivision 2 of section 2 of part B of chapter 173 of the laws
11 of 2013 relating to the issuance of securitized restructuring bonds to

16 ing, redeeming or defeasing a portion of outstanding debt of the author-
17 ity or the restructuring bond issuer, including bonds and notes issued
18 by the authority or the restructuring bond issuer, debt issued by the
19 New York state energy research and development authority for the benefit
20 of the LILCO; (b) costs of terminating interest rate swap contracts and
21 other financial contracts entered into by or for the benefit of the
22 authority and related to debt obligations of the authority; (c) rebate,
23 yield reduction payments and any other amounts payable to the United
24 States Treasury or to the Internal Revenue Service to preserve or
25 protect the federal tax-exempt status of outstanding debt obligations of
26 the authority; ~~[and]~~ (d) upfront financing costs associated with
27 restructuring bonds; and (e) system resiliency costs.

28 § 3. Subdivision 11 of section 2 of part B of chapter 173 of the laws
29 of 2013 relating to the issuance of securitized restructuring bonds to
30 refinance the outstanding debt of the Long Island power authority, as
31 amended by section 2-a of part W of chapter 58 of the laws of 2015, is
32 amended to read as follows:

33 11. "Restructuring bonds" means bonds or other evidences of indebt-
34 edness that are issued pursuant to an indenture or other agreement of
35 the restructuring bond issuer under a restructuring cost financing order
36 (a) the proceeds of which are used, directly or indirectly, to recover,
37 finance, or refinance approved restructuring costs, (b) that are direct-
38 ly or indirectly secured by, or payable from, restructuring property,
39 and (c) that have a term no longer than thirty years ~~[and (d) that have~~
40 ~~a final scheduled maturity date no later than the final scheduled matu-~~
41 ~~rity date of the authority bonds purchased, redeemed or defeased with~~
42 ~~the proceeds of such restructuring bonds]~~.

43 § 4. Section 2 of part B of chapter 173 of the laws of 2013 relating
44 to the issuance of securitized restructuring bonds to refinance the
45 outstanding debt of the Long Island power authority, is amended by
46 adding a new subdivision 17-a to read as follows:

47 17-a. "System resiliency costs" means, to the extent approved as such
48 under a restructuring cost financing order, costs of rebuilding, improv-
49 ing or constructing transmission and distribution system assets to
50 increase resiliency of such assets, better withstand changes in climate,
51 absorb impacts from outage-inducing events, and recover quickly from
52 outages including but not limited to, improvements to and replacement of
53 poles and wires, moving power lines underground, raising substations,
54 constructing flood barriers, and system automation and costs of purchas-
55 ing, redeeming or defeasing debt of the authority incurred to finance

1 such costs or reimbursing the authority for amounts already spent on
2 such costs.

3 § 5. Subdivision 1 of section 3 of part B of chapter 173 of the laws
4 of 2013 relating to the issuance of securitized restructuring bonds to

8 troller, in consultation with the department of public service, prepare
9 a restructuring cost financing order (a) for the purpose of issuing
10 restructuring bonds to refinance outstanding debt of the authority or
11 the restructuring bond issuer based on a finding that such bond issuance
12 is expected to result in savings to consumers of electric transmission
13 and distribution services in the service area on a net present value
14 basis; or (b) for the purpose of issuing restructuring bonds to finance
15 system resiliency costs based on a finding that funding of such system
16 resiliency costs by the issuer would result in lower costs to consumers
17 of electric transmission and distribution services in the service area
18 on a net present value basis than funding of such costs by the
19 authority.

20 § 6. Paragraph (a) of subdivision 1 of section 4 of part B of chapter
21 173 of the laws of 2013 relating to the issuance of securitized restruc-
22 turing bonds to refinance the outstanding debt of the Long Island power

24 of 2015, is amended to read as follows:

30 exercising essential governmental and public powers for the good of the

39 billion five hundred million dollars aggregate principal amount of
40 restructuring bonds issued by restructuring bond issuers created pursu-
41 ant to this act shall be outstanding at any time. For the purposes of
42 this section, restructuring bonds shall not be deemed to be outstanding
43 if they have matured or if they have been paid or redeemed or provision
44 for payment or redemption of such bonds shall have been made.

45 § 7. Subparagraphs (i) and (iv) of paragraph (a) of subdivision 2 of
46 section 4 of part B of chapter 173 of the laws of 2013 relating to the
47 issuance of securitized restructuring bonds to refinance the
48 outstanding debt of the Long Island power authority, subparagraph (i) as
49 amended and subparagraph (iv) as added by section 4 of part W of chapter
50 58 of the laws of 2015, are amended to read as follows:

§ 2. Severability clause. If any clause, sentence, paragraph, subdivision, section, subpart or part of this act shall be adjudged by a court of competent jurisdiction to be invalid, such judgment shall not affect, impair, or invalidate the remainder thereof, but shall be confined in its operation to the clause, sentence, paragraph, subdivision, section, subpart or part thereof directly involved in the controversy in which such judgment shall have been rendered. It is hereby declared to be the intent of the legislature that this act would have been enacted even if such invalid provisions had not been included herein.

§ 3. This act shall take effect immediately, provided, however, that the applicable effective date of Subparts A through C of this act shall be as specifically set forth in the last section of such Subparts.

§ 2. This act shall take effect immediately.

PART AA

Section 1. Subparagraph (i) of paragraph 3 of subdivision (a) of section 21 of the tax law, as amended by section 17 of part BB of chapter 56 of the laws of 2015, is amended to read as follows:

(i) The tangible property credit component shall be equal to the applicable percentage of the cost or other basis for federal income tax purposes of tangible personal property and other tangible property, including buildings and structural components of buildings, which constitute qualified tangible property and may include any related party service fee paid; provided that in determining the cost or other basis of such property, the taxpayer shall exclude the acquisition cost of any item of property with respect to which a credit under this section was allowable to another taxpayer. A related party service fee shall be allowed only in the calculation of the tangible property credit component and shall not be allowed in the calculation of the site preparation credit component or the on-site groundwater remediation credit component. The portion of the tangible property credit component which is attributable to related party service fees shall be allowed only as follows: (A) in the taxable year in which the qualified tangible property described in subparagraph (iii) of this paragraph is placed in service, for that portion of the related party service fees which have

1 been earned and actually paid to the related party on or before the last
2 day of such taxable year; and (B) with respect to any other taxable year
3 for which the tangible property credit component may be claimed under
4 this subparagraph and in which the amount of any additional related
5 party service fees are actually paid by the taxpayer to the related
6 party, the tangible property credit component for such amount shall be
7 allowed in such taxable year. The credit component amount so determined
8 shall be allowed for the taxable year in which such qualified tangible
9 property is first placed in service on a qualified site with respect to
10 which a certificate of completion has been issued to the taxpayer, or
11 for the taxable year in which the certificate of completion is issued if
12 the qualified tangible property is placed in service prior to the issu-
13 ance of the certificate of completion. This credit component shall only
14 be allowed for up to one hundred twenty months after the date of the
15 issuance of such certificate of completion, provided, however, that for
16 qualified sites to which a certificate of completion is issued on or
17 after March twentieth, two thousand ten, but prior to January first, two
18 thousand twelve, the credit component shall be allowed for up to one
19 hundred forty-four months after the date of such issuance.

20 § 2. This act shall take effect immediately.

21 PART BB

22 Section 1. Notwithstanding the contrary provisions of section 9-0501
23 of the environmental conservation law and the contrary provisions of the
24 public lands law, the department of environmental conservation is
25 authorized to grant easements for buried cables on real property within
26 the Farmersville State Forest, Lost Nation State Forest, and Swift Hill
27 State Forest, which meet the following conditions:

28 (a) The easements are for buried electric cables which are part of a
29 wind powered electric generation project located in the towns of Rush-
30 ford, Farmersville, Arcade, Centerville, Freedom, and Machias.

31 (b) The easements are for a portion of the property within Farmers-
32 ville State Forest, Lost Nation State Forest, and Swift Hill State
33 Forest owned by the state and managed by the department of environmental
34 conservation. The buried cables shall be:

35 (1) located underground for approximately 500 feet between turbines
36 101 and 102 (which are sited on private land), and passing below a
37 section of Farmersville State Forest in Cattaraugus County;

38 (2) located underground for approximately 1,600 feet on the south side
39 of Hess Road along the Farmersville State Forest boundary in Cattaraugus
40 County, turning southwest to follow an existing track for approximately
41 420 feet, and continuing west along the northern parcel boundary for
42 approximately 1,300 feet to the property line, to connect turbines 100
43 and 104 (both sited on private land);

44 (3) located underground for approximately 2,950 feet along the west
45 side of North Hill Road in Lost Nation State Forest in Allegany County
46 to connect turbines 73, 75, 76, and 77 (all sited on private land) to
47 the rest of the project; and

48 (4) located underground for approximately 1,150 feet on the east side
49 of Rushford Road, along the western edge of Swift Hill State Forest in
50 Allegany County to connect turbines 124 and 125 (both sited on private
51 land) to the rest of the project.

52 (c) The easements will be conveyed by the department of environmental
53 conservation and take effect only in the event the underground cables
54 proposed to be on such easement lands are certified and approved as part

1 of a wind powered electric generation facility pursuant to article 10 of
2 the public service law.

3 (d) The easements shall terminate when the associated wind powered
4 electric generation project ceases to operate for 18 months as set forth
5 in the easements and the easements shall then revert to the state to be
6 managed by the department of environmental conservation as state forest
7 land.

8 (e) The use of chemicals/herbicides for clearing said easements is
9 prohibited unless prior approval for the same is granted by the depart-
10 ment of environmental conservation, division of lands and forests.

11 § 2. (a) In entering into the easements described in section one of
12 this act, the department of environmental conservation is authorized to
13 grant such easements for fair market value plus twenty percent of the
14 value of the easements plus one hundred thousand dollars upon applica-
15 tion by Alle-Catt Wind Energy LLC.

16 (b) An amount, not less than fair market value plus twenty percent of
17 the value of the easements plus one hundred thousand dollars shall be
18 used to obtain for the state an interest in real property for open space
19 purposes in region 9 of the department of environmental conservation
20 from the regional priority conservation projects list in region 9 as
21 part of this state's open space conservation plan. The total payment for
22 such acquisition or acquisitions shall not be less than the value of the
23 easements to be conveyed by the state plus twenty percent of the value
24 of such easements plus one hundred thousand dollars.

25 (c) Any monies received by the department of environmental conserva-
26 tion from Alle-Catt Wind Energy LLC in consideration of these easements
27 shall be deposited into the state environmental protection fund, as
28 established in section 92-s of the state finance law, until such time as
29 they can be used towards the purchase of the real property as contem-
30 plated in subdivision (b) of this section.

31 (d) The description of the easements to be conveyed by this act is not
32 intended to be a legal description, but is intended to identify the
33 easements to be conveyed. As a condition of conveyance Alle-Catt Wind
34 Energy LLC shall submit to the commissioner of environmental conserva-
35 tion for his or her approval an accurate survey and description of lands
36 generally described in this section which may be used in the conveyance
37 thereof.

38 (e) The grant of the easements is conditioned on the issuance of
39 certificates of environmental compatibility and public need pursuant to
40 the provisions of article 10 of the public service law.

41 (f) Compensation for the stumpage value of trees to be felled by the
42 entity shall be deposited in the same manner as in subdivision (b) of
43 this section with the felled trees to become the property of Invenergy
44 LLC. Stumpage value is to be determined by the department of environ-
45 mental conservation forester based on the most recent department of
46 environmental conservation stumpage price report at the time the trees
47 are felled.

48 § 3. The commissioner of environmental conservation may prescribe
49 additional terms for such exchange of real property. Such contract shall
50 not become binding upon the state until approved by the state comp-
51 troller. Title to the land to the people of the state of New York pursu-
52 ant to the provisions of such contract shall be approved by the attorney
53 general, and the deed to the state shall be approved by him or her as to
54 form and manner of execution and recordability before such deed shall be
55 accepted on behalf of the state. Notwithstanding the contrary provisions
56 of the public lands law, the conveyance of the state-owned easements

1 pursuant to such contract shall be without reservation or exception,
2 except as provided for in such contract. Upon certification by the
3 commissioner of environmental conservation to the commissioner of gener-
4 al services of a copy of the contract, and certification that Alle-Catt
5 Wind Energy LLC has complied with all terms and conditions of the
6 contract upon their part to be kept and performed, together with a
7 description of any of the easements to be exchanged, conveyed and/or
8 payments to be made, the commissioner of general services shall convey
9 the easements described in section one of this act in accordance with
10 the provisions of the contract.

11 § 4. This act shall take effect immediately, and shall expire and be
12 deemed repealed five years after such date; provided, however, should
13 the easements be granted within the five years, the term of the ease-
14 ments will establish the end date of the easements. At such time the
15 land will revert back to the state of New York for state forest
16 purposes.

17 PART CC

18 Section 1. Section 12 of part F of chapter 58 of the laws of 2013
19 amending the environmental conservation law and the state finance law
20 relating to the "Cleaner, Greener NY Act of 2013", as amended by chapter
21 65 of the laws of 2019, is amended to read as follows:

22 § 12. This act shall take effect immediately and shall be deemed to
23 have been in full force and effect on and after April 1, 2013[
24 ~~provided, however, that the amendments to subdivision 5-a of section~~
25 ~~27-1015 of the environmental conservation law, as added by section nine~~
26 ~~of this act, shall expire and be deemed repealed on April 1, 2021].~~
27

§ 2. This act shall take effect immediately.

28 PART DD

29 Section 1. This act shall be known and may be cited as the "rail
30 advantaged housing act".

31 § 2. Legislative findings and statement of purpose. The legislature
32 hereby finds, determines and declares:

33 (a) Chapter 106 of the laws of 2019 enacted the New York state climate
34 leadership and community protection act (the "CLCPA"). The CLCPA
35 directed the department of environmental conservation to establish a
36 statewide greenhouse gas emissions limit for 2030 equal to 60% of 1990
37 emissions, and a statewide greenhouse gas emissions limit for 2050 equal
38 to 15% of 1990 emissions (the "CLCPA limits").

39 (b) Transportation currently accounts for 36% of the greenhouse gas
40 emissions in New York. New York has an obligation to reduce greenhouse
41 gas emissions in every sector, including transportation.

42 (c) The CLCPA recognizes the need to encourage and facilitate land use
43 and transportation planning strategies to reduce greenhouse gas emis-
44 sions from the transportation sector.

45 (d) In 1946, the legislature declared a housing emergency in New York
46 City. The emergency has continued through the present day. Housing
47 production throughout the New York City metropolitan area has been
48 insufficient to address this emergency for decades.

49 (e) Creating housing in close proximity to commuter rail stations
50 promotes both the goals of the CLCPA and helps to address the housing
51 emergency in New York City.

(f) A public policy purpose would be served and the interests of the people of the state would be advanced by expediting the regulatory review of local zoning changes that will lead to the production of housing in close proximity to commuter rail stations.

§ 3. Definitions.

(a) [~~"Commissioner"~~] "Secretary" shall mean the [~~commissioner of environmental conservation or the commissioner's~~] secretary of state or the secretary's designee.

(b) "Commuter rail station" shall mean a rail station, other than a rail station located in New York City, on any rail line operated by either the Long Island Rail Road or the Metro-North Railroad.

(c) "Commuter rail station area" shall mean the area within one-half mile of any commuter rail station.

(d) "Incremental parking decrease" shall mean, with respect to a rail advantaged housing rezoning proposal, the percentage decrease in publicly accessible vehicle parking proximate to a commuter rail station that such rezoning proposal would cause, if effective.

(e) "Incremental population increase" shall mean, with respect to a rail advantaged housing rezoning proposal, the percentage by which the population of a local jurisdiction including the property subject to such rezoning proposal would increase if: (1) such rezoning proposal were to become effective; (2) all of the housing permitted to be built as a result of such rezoning proposal were to be built; and (3) all of such housing were to be fully occupied.

(f) "Local jurisdiction" shall mean any city, county, town, village or other political subdivision of the state.

(g) "Local agency zoning mitigation account" shall mean an account established by a local agency solely for the purpose of mitigating environmental impacts due to any rezoning.

(h) "Local agency" means any governing body of a local jurisdiction.

(i) "Rail advantaged housing" shall mean any housing or residential building located within one-half mile of a commuter rail station.

(j) "Rail advantaged housing envelope" shall mean the total square feet of residential space permitted to be built in a commuter rail station area under the zoning regulations applicable to such commuter rail station area.

(k) "Rail advantaged housing rezoning proposal" shall mean a proposal for rezoning which, if effective, (1) would increase the rail advantaged housing envelope in the area proposed for rezoning, and (2) would not affect zoning regulations applicable outside a commuter rail station area.

(l) "Rezoning" shall mean an action undertaken by a local agency to modify zoning regulations.

(m) "Rezoning entity" shall mean a local agency authorized to modify zoning regulations.

§ 4. Uniform standards and conditions.

(a) The [~~commissioner~~] secretary shall establish a set of uniform standards and conditions for rail advantaged housing rezoning proposals that are common for all rail advantaged housing rezoning proposals or for particular classes and categories of rail advantaged housing rezoning proposals.

(b) The uniform standards and conditions established under paragraph (a) of this section shall include:

1. A standard establishing a maximum incremental population increase the exceedance of which by a rail advantaged housing rezoning proposal

1 would cause such rezoning proposal to be deemed to have an environmental
2 impact;

3 2. A standard establishing a maximum incremental parking decrease the
4 exceedance of which by a rail advantaged housing rezoning proposal would
5 cause such rezoning proposal to be deemed to have an environmental
6 impact;

7 3. A formula to determine, by reference to any, all, or any combina-
8 tion of the following factors, the amount which, if paid to a local
9 agency zoning mitigation account, would mitigate the impact of housing
10 construction on the quality of a jurisdiction's environment and on a
11 local agency's ability to provide essential public services: such local
12 agency's expenses for public education; such local agency's expenses for
13 maintenance and improvement of roads, bicycle paths, pedestrian walkways
14 and parks; such local agency's expenses to provide drinking water and to
15 manage water quality; and other factors determined by the [~~commissioner~~
16 secretary] to be relevant; and

17 4. Any other standards and conditions determined by the [~~commissioner~~
18 secretary].

19 § 5. Expedited zoning review. Whenever a county legislature has
20 adopted a local law to permit rail advantaged housing as defined in
21 section three of this act, the uniform standards established pursuant to
22 section four of this act shall apply to such project if the project is
23 approved. Approval by a rezoning entity of a rail advantaged housing
24 rezoning proposal is contingent upon the approval of the chief executive
25 officer of any town, village or city and shall be deemed to not have a
26 significant effect on the environment under subparagraph (ii) of para-
27 graph (c) of subdivision 2 of section 8-0113 of the environmental
28 conservation law if prior to such approval:

29 (a) the chief executive officer of any town, village or city which
30 includes property subject to such rezoning has certified that such rail
31 advantaged housing rezoning proposal:

32 1. does not exceed the population increase standard established under
33 paragraph 1 of subdivision (b) of section four of this act;

34 2. does not exceed the parking decrease standard established under
35 paragraph 2 of subdivision (b) of section four of this act;

36 3. requires that any person who builds housing pursuant to such rezon-
37 ing proposal must pay to any applicable local agency's local agency
38 rezoning mitigation account an amount not less than the amount deter-
39 mined in accordance with the formula established under paragraph 3 of
40 subdivision (b) of section four of this act to be sufficient to mitigate
41 any impacts caused by such housing; and

42 (b) such rezoning entity has conducted at least one public hearing on
43 such rail advantaged rezoning proposal.

44 § 6. This act shall take effect immediately.

45 PART EE

46 Section 1. Subdivisions 4 and 5 of section 1902 of the public authori-
47 ties law, as added by section 6 of part JJJ of chapter 58 of the laws of
48 2020, are amended to read as follows:

49 4. Undertake all work and secure such permits as the authority deems
50 necessary or convenient to facilitate the process of establishing build-
51 ready sites and for the transfer of the build-ready sites to developers
52 selected pursuant to a publicly noticed, competitive bidding process
53 authorized by law, provided that any construction, excavation, demoli-
54 tion, rehabilitation, renovation, alteration, improvement, repair or

Such transactions may include the transfer of rights, interests and obligations existing under agreements providing for host community benefits negotiated by the authority pursuant to programs established pursuant to subdivision six of this section on such terms and conditions as the authority deems appropriate;

43 PART GG

44 Section 1. Intentionally omitted.

45 § 1-a. Legislative findings. The Legislature finds that automated
46 vehicle technology offers widely anticipated and revolutionary potential
47 for the transportation sector. Among the unprecedented opportunities
48 offered by this technology are inclusive mobility options to benefit
49 disadvantaged, disabled and elderly residents; congestion and emissions
50 mitigation; improved livable land use, and better road usage. Further,
51 the legislature has amended section 2 of part FF of chapter 55 of the
52 laws of 2017, relating to motor vehicles equipped with autonomous vehi-
53 cle technology, as amended by section 2 of part H of chapter 58 of the
54 laws of 2018, as amended by section 1 of part M of chapter 58 of the

1 laws of 2019, to allow for a two-year testing program for automobile
2 manufacturers and technology leaders to test and demonstrate automated
3 vehicle technology in New York, which will expire and be deemed repealed
4 April 1, 2021. Consequently, the legislature finds that there is a
5 pressing need for policymakers to study automated vehicle technology and
6 formulate comprehensive laws and regulations to ensure the state is
7 prepared for the safe deployment of automobiles equipped with this tech-
8 nology and to help prepare the state for a future where automated vehi-
9 cle technology plays a role in shaping our roadways, economy, education
10 system, and society.

11 To this end, it is in the public interest to establish an automated
12 vehicle task force to study, evaluate and develop recommendations relat-
13 ing to specific actionable measures that address how automated vehicle
14 technology will transform the state's roadways, economy, education
15 system, and society.

16 § 1-b. Automated vehicle task force. The New York task force on auto-
17 mated vehicle technology is hereby established to study and assess the
18 future of automated vehicle technology. For purposes of this act, "auto-
19 mated vehicle" shall mean a motor vehicle that has the capability to
20 drive the vehicle without the active control or monitoring of a human
21 operator including any automation level at or above SAE J3016 level 3.
22 Such task force shall consist of seventeen members with demonstrated
23 expertise in issues relating to the work of the task force. The members
24 of the task force shall be appointed as follows:

25 (a) five members shall be appointed by the governor, such members'
26 expertise shall encompass, but not be limited to, the areas of transpor-
27 tation, research and development, education, education for or assisting
28 people with disabilities; one of these members shall be the commissioner
29 of the department of motor vehicles and shall serve as chairperson of
30 the task force; and one member shall be the commissioner of the depart-
31 ment of transportation and shall serve as vice chair;

32 (b) four members shall be appointed by the temporary president of the
33 senate, one of whom shall be appointed from an association representing
34 the manufacturers of the majority of new car and light trucks sold in
35 the United States and shall represent a different original equipment
36 manufacturer than the speaker of the assembly's appointment, and one of
37 whom shall be appointed from a state federation of affiliated public
38 sector, private sector, and building trades labor organizations;

39 (c) four members shall be appointed by the speaker of the assembly,
40 one of whom shall be appointed from an association representing the
41 manufacturers of the majority of new car and light trucks sold in the
42 United States and shall represent a different original equipment
43 manufacturer than the temporary president's appointment, and one of whom
44 shall be appointed from a statewide business advocacy organization
45 representing large and small member companies and local chambers of
46 commerce and professional and trade associations;

47 (d) one member shall be appointed by the senate minority leader;

48 (e) one member shall be appointed by the assembly minority leader;

49 (f) one member shall be appointed by the chancellor of the state
50 university of New York; such member shall be a member of a research
51 faculty of an engineering department at a state university of New York
52 campus; and

53 (g) one member shall be appointed by the commission on independent
54 colleges and universities from a New York private university research
55 faculty of an engineering department.

§ 1-c. All appointments shall be made no later than the thirtieth day after the effective date of this section. Vacancies in the membership of the task force shall be filled in the same manner provided for by the original appointments. The task force shall organize as soon as practicable following the appointment of its members. The chairperson shall appoint a secretary who shall not be a member of the task force. The members of the task force shall receive no compensation for their services.

§ 1-d. The task force shall study, evaluate and develop recommendations relating to specific actionable measures that address how automated vehicle technology will transform the state's roadways, economy, education system and society. The automated vehicle task force shall study how to support the safe testing, deployment and operation of automated vehicle technology on public highways. It shall take all of the following into consideration: (a) the measures necessary to successfully implement automated vehicles, including necessary legislative and regulatory or administrative changes; (b) the difficulties and liabilities that could arise by allowing automated vehicles on public highways and proper mechanisms to manage risks and ensure adequate risk coverage; (c) how automated vehicle technology can promote research and development in this state; (d) potential considerations and resource needs for law enforcement; (e) potential infrastructure changes needed and capital planning considerations; and (f) any other issue the committee deems relevant.

§ 1-e. The task force shall be entitled to request and receive, and shall utilize such facilities, resources and data of any court, department, division, board, bureau, commission or agency of the state or any political subdivision thereof as it may reasonably request to properly carry out its powers and duties.

§ 1-f. In carrying out its functions, the task force shall hold five public hearings around the state to foster discussions in accordance with article seven of the public officers law, and formal public hearings to solicit input and recommendations from statewide and regional stakeholder interests.

§ 1-g. The task force shall report its findings and recommendations to the governor, the temporary president of the senate and the speaker of the assembly on or before April first, two thousand twenty-three.

§ 2. Intentionally omitted.

§ 3. Section 3 of part FF of chapter 55 of the laws of 2017, relating to motor vehicles equipped with autonomous vehicle technology, as amended by section 2 of part M of chapter 58 of the laws of 2019, is amended to read as follows:

§ 3. This act shall take effect April 1, 2017; provided, however, that section one of this act shall expire and be deemed repealed [~~April~~ June 1, 2021.

§ 4. Intentionally omitted.

§ 5. This act shall take effect immediately, provided, however, that sections one-a, one-b, one-c, one-d, one-e, one-f and one-g of this act shall expire and be deemed repealed 2 years after such date.

Section 1. Section 1 of subpart H of part C of chapter 20 of the laws of 2015, appropriating money for certain municipal corporations and school districts, as amended by section 1 of part AAA of chapter 59 of the laws of 2018, is amended to read as follows:

Section 1. Contingent upon available funding, and not to exceed ~~[\$69,000,000]~~ \$140,000,000 moneys from the urban development corporation shall be available for a local government entity, which for the purposes of this section shall mean a county, city, town, village, school district or special district, where (i) on or after June 25, 2015, an electric generating facility located within such local government entity has ceased operations, and (ii) the closing of such facility has caused a reduction in the real property tax collections or payments in lieu of taxes of at least twenty percent owed by such electric generating facility. Such moneys attributable to the cessation of operations, shall be paid annually on a first come, first served basis by the urban development corporation to such local government entity within a reasonable time upon confirmation from the state office of real property tax services or the local industrial development authority established pursuant to titles eleven and fifteen of article eight of the public authorities law, or the local industrial development agency established pursuant to article eighteen-A of the general municipal law that such cessation has resulted in a reduction in the real property tax collections or payments in lieu of taxes, provided, however, that the urban development corporation shall not provide assistance to such local government entity for more than seven years, and shall award payments reflecting the loss of revenues due to the cessation of operations as follows:

Award Year	Maximum Potential Award
1	no more than eighty percent of loss of revenues
2	no more than seventy percent of loss of revenues
3	no more than sixty percent of loss of revenues
4	no more than fifty percent of loss of revenues
5	no more than forty percent of loss of revenues
6	no more than thirty percent of loss of revenues
7	no more than twenty percent of loss of revenues

A local government entity shall be eligible for only one payment of funds hereunder per year. A local government entity may seek assistance under the electric generation facility cessation mitigation fund once a generator has submitted its notice to the federally designated electric bulk system operator (BSO) serving the state of New York of its intent to retire the facility or of its intent to voluntarily remove the facility from service subject to any return-to-service provisions of any tariff, and that the facility also is ineligible to participate in the markets operated by the BSO. The date of submission of a local govern-

ment entity's application for assistance shall establish the order in which assistance is paid to program applicants, except that in no event shall assistance be paid to a local government entity until such time that an electric generating facility has retired or become ineligible to participate in the markets operated by the BSO. For purposes of this section, any local government entity seeking assistance under the electric generation facility cessation mitigation fund must submit an attestation to the department of public service that a facility is no longer producing electricity and is no longer participating in markets operated by the BSO. After receipt of such attestation, the department of public service shall confirm such information with the BSO. In the case that the BSO confirms to the department of public service that the facility is no longer producing electricity and participating in markets operated by such BSO, it shall be deemed that the electric generating facility located within the local government entity has ceased operation. The department of public service shall provide such confirmation to the urban development corporation upon receipt. The determination of the amount of such annual payment shall be determined by the president of the urban development corporation based on the amount of the differential between the annual real property taxes and payments in lieu of taxes imposed upon the facility, exclusive of interest and penalties, during the last year of operations and the current real property taxes and payments in lieu of taxes imposed upon the facility, exclusive of interest and penalties. The total amount awarded from this program shall not exceed [~~\$69,000,000~~] \$140,000,000.

§ 2. This act shall take effect immediately; provided, however, that the amendments to section 1 of subpart H of part C of chapter 20 of the laws of 2015 made by section one of this act shall not affect the repeal of such subpart and shall be deemed repealed therewith.

PART PP

Section 1. The general obligations law is amended by adding a new article 18-C to read as follows:

ARTICLE 18-C

LIBOR DISCONTINUANCE

Section 18-400. Definitions.

18-401. Effect of LIBOR discontinuance on agreements.

18-402. Continuity of contract and safe harbor.

18-403. Severability.

§ 18-400. Definitions. As used in this article the following terms shall have the following meanings:

1. "LIBOR" shall mean, for purposes of the application of this article to any particular contract, security or instrument, U.S. dollar LIBOR (formerly known as the London interbank offered rate) as administered by ICE Benchmark Administration Limited (or any predecessor or successor thereof), or any tenor thereof, as applicable, that is used in making any calculation or determination thereunder.

2. "LIBOR discontinuance event" shall mean the earliest to occur of any of the following:

1 a. a public statement or publication of information by or on behalf of
2 the administrator of LIBOR announcing that such administrator has ceased
3 or will cease to provide LIBOR, permanently or indefinitely, provided
4 that, at the time of the statement or publication, there is no successor
5 administrator that will continue to provide LIBOR;

6 b. a public statement or publication of information by the regulatory
7 supervisor for the administrator of LIBOR, the United States Federal
8 Reserve System, an insolvency official with jurisdiction over the admin-
9 istrator for LIBOR, a resolution authority with jurisdiction over the
10 administrator for LIBOR or a court or an entity with similar insolvency
11 or resolution authority over the administrator for LIBOR, which states
12 that the administrator of LIBOR has ceased or will cease to provide
13 LIBOR permanently or indefinitely, provided that, at the time of the
14 statement or publication, there is no successor administrator that will
15 continue to provide LIBOR; or

16 c. a public statement or publication of information by the regulatory
17 supervisor for the administrator of LIBOR announcing that LIBOR is no
18 longer representative. For purposes of this subdivision two, a public
19 statement or publication of information that affects one or more tenors
20 of LIBOR shall not constitute a LIBOR discontinuance event with respect
21 to any contract, security or instrument that (i) provides for only one
22 tenor of LIBOR, if such contract, security or instrument requires
23 interpolation and such tenor can be interpolated from LIBOR tenors that
24 are not so affected, or (ii) permits a party to choose from more than
25 one tenor of LIBOR and any of such tenors (A) is not so affected or (B)
26 if such contract, security or instrument requires interpolation, can be
27 interpolated from LIBOR tenors that are not so affected.

28 3. "LIBOR replacement date" shall mean:

29 a. in the case of a LIBOR discontinuance event described in paragraph
30 a or b of subdivision two of this section, the later of (i) the date of
31 the public statement or publication of information referenced therein;
32 and (ii) the date on which the administrator of LIBOR permanently or
33 indefinitely ceases to provide LIBOR; and

34 b. in the case of a LIBOR discontinuance event described in paragraph
35 c of subdivision two of this section, the date of the public statement
36 or publication of information referenced therein. For purposes of this
37 subdivision three, a date that affects one or more tenors of LIBOR shall
38 not constitute a LIBOR replacement date with respect to any contract,
39 security or instrument that (i) provides for only one tenor of LIBOR, if
40 such contract, security or instrument requires interpolation and such
41 tenor can be interpolated from LIBOR tenors that are not so affected, or
42 (ii) permits a party to choose from more than one tenor of LIBOR and any
43 of such tenors (A) is not so affected or (B) if such contract, security
44 or instrument requires interpolation, can be interpolated from LIBOR
45 tenors that are not so affected.

46 4. "Fallback provisions" shall mean terms in a contract, security or
47 instrument that set forth a methodology or procedure for determining a
48 benchmark replacement, including any terms relating to the date on which
49 the benchmark replacement becomes effective, without regard to whether a
50 benchmark replacement can be determined in accordance with such method-
51 ology or procedure.

52 5. "Benchmark" shall mean an index of interest rates or dividend rates
53 that is used, in whole or in part, as the basis of or as a reference for
54 calculating or determining any valuation, payment or other measurement
55 under or in respect of a contract, security or instrument.

6. "Benchmark replacement" shall mean a benchmark, or an interest rate or dividend rate (which may or may not be based in whole or in part on a prior setting of LIBOR), to replace LIBOR or any interest rate or dividend rate based on LIBOR, whether on a temporary, permanent or indefinite basis, under or in respect of a contract, security or instrument.

7. "Recommended benchmark replacement" shall mean, with respect to any particular type of contract, security or instrument, a benchmark replacement based on SOFR, which shall include any recommended spread adjustment and any benchmark replacement conforming changes, that shall have been selected or recommended by a relevant recommending body with respect to such type of contract, security or instrument.

8. "Recommended spread adjustment" shall mean a spread adjustment, or method for calculating or determining such spread adjustment, (which may be a positive or negative value or zero) that shall have been selected or recommended by a relevant recommending body for a recommended benchmark replacement for a particular type of contract, security or instrument and for a particular term to account for the effects of the transition or change from LIBOR to a recommended benchmark replacement.

9. "Benchmark replacement conforming changes" shall mean, with respect to any type of contract, security or instrument, any technical, administrative or operational changes, alterations or modifications that are associated with and reasonably necessary to the use, adoption, calculation or implementation of a recommended benchmark replacement and that:

a. have been selected or recommended by a relevant recommending body; and

b. if, in the reasonable judgment of the calculating person, the benchmark replacement conforming changes selected or recommended pursuant to paragraph a of this subdivision do not apply to such contract, security or instrument or are insufficient to permit administration and calculation of the recommended benchmark replacement, then benchmark replacement conforming changes shall include such other changes, alterations or modifications that, in the reasonable judgment of the calculating person:

(i) are necessary to permit administration and calculation of the recommended benchmark replacement under or in respect of such contract, security or instrument in a manner consistent with market practice for substantially similar contracts, securities or instruments and, to the extent practicable, the manner in which such contract, security or instrument was administered immediately prior to the LIBOR replacement date; and

(ii) would not result in a disposition of such contract, security or instrument for U.S. federal income tax purposes.

10. "Determining person" shall mean, with respect to any contract, security or instrument, in the following order of priority:

a. any person specified as a "determining person"; or

b. any person with the authority, right or obligation to:

(i) determine the benchmark replacement that will take effect on the LIBOR replacement date,

(ii) calculate or determine a valuation, payment or other measurement based on a benchmark, or

(iii) notify other persons of the occurrence of a LIBOR discontinuance event, a LIBOR replacement date or a benchmark replacement.

11. "Relevant recommending body" shall mean the Federal Reserve Board, the Federal Reserve Bank of New York, or the Alternative Reference Rates Committee, or any successor to any of them.

12. "SOFR" shall mean, with respect to any day, the secured overnight financing rate published for such day by the Federal Reserve Bank of New York, as the administrator of the benchmark (or a successor administrator), on the Federal Reserve Bank of New York's website.

13. "Calculating person" shall mean, with respect to any contract, security or instrument, any person (which may be the determining person) responsible for calculating or determining any valuation, payment or other measurement based on a benchmark.

14. "Contract, security, or instrument" shall include, without limitation, any contract, agreement, mortgage, deed of trust, lease, security (whether representing debt or equity, and including any interest in a corporation, a partnership or a limited liability company), instrument, or other obligation.

§ 18-401. Effect of LIBOR discontinuance on agreements. 1. On the LIBOR replacement date, the recommended benchmark replacement shall, by operation of law, be the benchmark replacement for any contract, security or instrument that uses LIBOR as a benchmark and:

a. contains no fallback provisions; or

b. contains fallback provisions that result in a benchmark replacement, other than a recommended benchmark replacement, that is based in any way on any LIBOR value.

2. Following the occurrence of a LIBOR discontinuance event, any fallback provisions in a contract, security, or instrument that provide for a benchmark replacement based on or otherwise involving a poll, survey or inquiries for quotes or information concerning interbank lending rates or any interest rate or dividend rate based on LIBOR shall be disregarded as if not included in such contract, security or instrument and shall be deemed null and void and without any force or effect.

3. This subdivision shall apply to any contract, security, or instrument that uses LIBOR as a benchmark and contains fallback provisions that permit or require the selection of a benchmark replacement that is:

a. based in any way on any LIBOR value; or

b. the substantive equivalent of paragraph (a), (b) or (c) of subdivision one of section 18-402 of this article.

A determining person shall have the authority under this article, but shall not be required, to select on or after the occurrence of a LIBOR discontinuance event the recommended benchmark replacement as the benchmark replacement. Such selection of the recommended benchmark replacement shall be:

(i) irrevocable;

(ii) made by the earlier of either the LIBOR replacement date, or the latest date for selecting a benchmark replacement according to such contract, security, or instrument; and

(iii) used in any determinations of the benchmark under or with respect to such contract, security or instrument occurring on and after the LIBOR replacement date.

4. If a recommended benchmark replacement becomes the benchmark replacement for any contract, security, or instrument pursuant to subdivision one or subdivision three of this section, then all benchmark replacement conforming changes that are applicable (in accordance with the definition of benchmark replacement conforming changes) to such recommended benchmark replacement shall become an integral part of such contract, security, or instrument by operation of law.

5. The provisions of this article shall not alter or impair:

a. any written agreement by all requisite parties that, retrospectively or prospectively, a contract, security, or instrument shall not be

1 subject to this article without necessarily referring specifically to
2 this article. For purposes of this subdivision, "requisite parties"
3 means all parties required to amend the terms and provisions of a
4 contract, security, or instrument that would otherwise be altered or
5 affected by this article;

6 b. any contract, security or instrument that contains fallback
7 provisions that would result in a benchmark replacement that is not
8 based on LIBOR, including, but not limited to, the prime rate or the
9 federal funds rate, except that such contract, security or instrument
10 shall be subject to subdivision two of this section;

11 c. any contract, security, or instrument subject to subdivision three
12 of this section as to which a determining person does not elect to use a
13 recommended benchmark replacement pursuant to subdivision three of this
14 section or as to which a determining person elects to use a recommended
15 benchmark replacement prior to the occurrence of a LIBOR discontinuance
16 event, except that such contract, security, or instrument shall be
17 subject to subdivision two of this section; or

18 d. the application to a recommended benchmark replacement of any cap,
19 floor, modifier, or spread adjustment to which LIBOR had been subject
20 pursuant to the terms of a contract, security, or instrument.

21 6. Notwithstanding the uniform commercial code or any other law of
22 this state, this title shall apply to all contracts, securities and
23 instruments, including contracts, with respect to commercial trans-
24 actions, and shall not be deemed to be displaced by any other law of
25 this state.

47 provisions referenced in subdivision (f) of this section. The amount of
48 the credit is equal to the amount determined pursuant to section four
49 hundred sixty-five of the economic development law. No cost or expense
50 paid or incurred by the taxpayer which is included as part of the calcu-
51 lation of this credit shall be the basis of any other tax credit allowed
52 under this chapter.

53 (b) Eligibility. To be eligible for the small business return-to-work

24 small business return-to-work tax credit program. Except as provided in
25 paragraph two of this subdivision, all information exchanged between the
26 department of economic development and the department shall not be
27 subject to disclosure or inspection under the state's freedom of infor-
28 mation law.

29 (e) Credit recapture. If a certificate of tax credit issued by the

43 section forty-five of this chapter, against the taxes imposed by this
44 article.

45 (b) Application of credit. The credit allowed under this subdivision
46 for the taxable year shall not reduce the tax due for such year to less
47 than the amount prescribed in paragraph (d) of subdivision one of
48 section two hundred ten of this article. However, if the amount of
49 credit allowed under this subdivision for the taxable year reduces the
50 tax to such amount or if the taxpayer otherwise pays tax based on the
51 fixed dollar minimum amount, any amount of credit thus not deductible in
52 such taxable year shall be treated as an overpayment of tax to be cred-
53 ited or refunded in accordance with the provisions of section one thou-
54 sand eighty-six of this chapter. Provided, however, the provisions of
55 subsection (c) of section one thousand eighty-eight of this chapter
56 notwithstanding, no interest will be paid thereon.

43 2. A business entity, including a partnership, limited liability
44 company and subchapter S corporation, may not receive in excess of fifty
45 thousand dollars in tax credits under this program.

46 3. The credit shall be allowed as provided in sections forty-six,
47 subdivision fifty-six of section two hundred ten-B and subsection (111)
48 of section six hundred six of the tax law.

49 § 476. Powers and duties of the commissioner. 1. The commissioner may
50 promulgate regulations establishing an application process and eligibil-
51 ity criteria, that will be applied consistent with the purposes of this
52 article, so as not to exceed the annual cap on tax credits set forth in
53 section four hundred seventy-nine of this article which, notwithstanding
54 any provisions to the contrary in the state administrative procedure
55 act, may be adopted on an emergency basis.

2. The commissioner shall, in consultation with the department of taxation and finance, develop a certificate of tax credit that shall be issued by the commissioner to eligible businesses. Such certificate shall contain such information as required by the department of taxation and finance.

3. The commissioner shall solely determine the eligibility of any applicant applying for entry into the program and shall remove any business entity from the program for failing to meet any of the requirements set forth in section four hundred seventy-three of this article, or for failing to meet the requirements set forth in subdivision one of section four hundred seventy-four of this article.

§ 477. Maintenance of records. Each business entity participating in the program shall keep all relevant records for their duration of program participation for at least three years.

§ 478. Reporting. Each business entity participating in this program must submit a performance report to the department at a time prescribed in regulations by the commissioner.

§ 479. Cap on tax credit. The total amount of tax credits listed on certificates of tax credit issued by the commissioner pursuant to this article may not exceed fifty million dollars.

§ 2. The tax law is amended by adding a new section 46 to read as follows:

§ 46. Restaurant return-to-work tax credit. (a) Allowance of credit. A taxpayer subject to tax under article nine-A or twenty-two of this chapter shall be allowed a credit against such tax, pursuant to the provisions referenced in subdivision (f) of this section. The amount of the credit is equal to the amount determined pursuant to section four hundred seventy-five of the economic development law. No cost or expense paid or incurred by the taxpayer which is included as part of the calculation of this credit shall be the basis of any other tax credit allowed under this chapter.

(b) Eligibility. To be eligible for the restaurant return-to-work tax credit, the taxpayer shall have been issued a certificate of tax credit by the department of economic development pursuant to subdivision two of section four hundred seventy-four of the economic development law, which certificate shall set forth the amount of the credit that may be claimed for the taxable year. The taxpayer shall be allowed to claim only the amount listed on the certificate of tax credit for that taxable year. A taxpayer that is a partner in a partnership, member of a limited liability company or shareholder in a subchapter S corporation that has received a certificate of tax credit shall be allowed its pro rata share of the credit earned by the partnership, limited liability company or subchapter S corporation.

(c) Tax return requirement and advance payment option. (1) The taxpayer shall be required to attach to its tax return in the form prescribed by the commissioner, proof of receipt of its certificate of tax credit issued by the commissioner of the department of economic development.

(2) Taxpayers who choose to use August thirty-first, two thousand twenty-one as the last date to calculate their average ending full-time employment and have received their certificate of tax credit by November fifteenth, two thousand twenty-one shall have the option to request an advance payment of the amount of tax credit they are allowed under this section. A taxpayer must submit such request to the department in the manner prescribed by the commissioner after it has been issued a certificate of tax credit by the department of economic development pursuant to subdivision two of section four hundred seventy-four of the economic

1 development law (or such certificate has been issued to a partnership,
2 limited liability company or subchapter S corporation in which it is a
3 partner, member or shareholder, respectively), but such request must be
4 submitted no later than November fifteenth, two thousand twenty-one. For
5 those taxpayers who have requested an advance payment and for whom the
6 commissioner has determined eligible for this credit, the commissioner
7 shall advance a payment of the tax credit allowed to the taxpayer.
8 However, in the case of a taxpayer subject to article nine-A of this
9 chapter, such payment shall be equal to the amount of credit allowed to
10 the taxpayer less twenty-five dollars. Such twenty-five dollars shall
11 represent a partial payment of tax owed by the taxpayer under article
12 nine-A, including any fixed dollar minimum owed under paragraph (d) of
13 subdivision one of section two hundred ten of this chapter. When a
14 taxpayer files its return for the taxable year, such taxpayer shall
15 properly reconcile the advance payment and any partial payment of fixed
16 dollar minimum tax, if applicable, on the taxpayer's return.

17 (d) Information sharing. Notwithstanding any provision of this chap-
18 ter, employees of the department of economic development and the depart-
19 ment shall be allowed and are directed to share and exchange:

20 (1) information derived from tax returns or reports that is relevant
21 to a taxpayer's eligibility to participate in the restaurant return-to-
22 work tax credit program;

23 (2) information regarding the credit applied for, allowed or claimed
24 pursuant to this section and taxpayers that are applying for the credit
25 or that are claiming the credit; and

26 (3) information contained in or derived from credit claim forms
27 submitted to the department and applications for admission into the
28 restaurant return-to-work tax credit program. Except as provided in
29 paragraph two of this subdivision, all information exchanged between the
30 department of economic development and the department shall not be
31 subject to disclosure or inspection under the state's freedom of infor-
32 mation law.

33 (e) Credit recapture. If a certificate of tax credit issued by the
34 department of economic development under article twenty-five of the
35 economic development law is revoked by such department, the amount of
36 credit described in this section and claimed by the taxpayer prior to
37 that revocation shall be added back to tax in the taxable year in which
38 any such revocation becomes final.

39 (f) Cross references. For application of the credit provided for in
40 this section, see the following provisions of this chapter:

41 (1) article 9-A: section 210-B, subdivision 56;

42 (2) article 22: section 606, subsection (111).

43 § 3. Section 210-B of the tax law is amended by adding a new subdivi-
44 sion 56 to read as follows:

45 56. Restaurant return-to-work tax credit. (a) Allowance of credit. A
46 taxpayer shall be allowed a credit, to be computed as provided in
47 section forty-six of this chapter, against the taxes imposed by this
48 article.

49 (b) Application of credit. The credit allowed under this subdivision
50 for the taxable year shall not reduce the tax due for such year to less
51 than the amount prescribed in paragraph (d) of subdivision one of
52 section two hundred ten of this article. However, if the amount of
53 credit allowed under this subdivision for the taxable year reduces the
54 tax to such amount or if the taxpayer otherwise pays tax based on the
55 fixed dollar minimum amount, any amount of credit thus not deductible in
56 such taxable year shall be treated as an overpayment of tax to be cred-

ited or refunded in accordance with the provisions of section one thousand eighty-six of this chapter. Provided, however, the provisions of subsection (c) of section one thousand eighty-eight of this chapter notwithstanding, no interest will be paid thereon.

§ 4. Section 606 of the tax law is amended by adding a new subsection (111) to read as follows:

(111) Restaurant return-to-work tax credit. (1) Allowance of credit. A taxpayer shall be allowed a credit, to be computed as provided in section forty-six of this chapter, against the tax imposed by this article.

(2) Application of credit. If the amount of the credit allowed under this subsection for the taxable year exceeds the taxpayer's tax for such year, the excess shall be treated as an overpayment of tax to be credited or refunded in accordance with the provisions of section six hundred eighty-six of this article, provided, however, that no interest will be paid thereon.

§ 5. Subparagraph (B) of paragraph 1 of subsection (i) of section 606 of the tax law is amended by adding a new clause (xlvii) to read as follows:

41 material generated during or after the completion of a manufacturing or
42 converting process.

43 4. "Post-consumer recycled content" means the content of a product
44 made from post-consumer recycled materials or feedstock.

45 5. "Producer" means, in descending order of priority for assigning
46 responsibility to meet the requirements of this title: (a) the person
47 who manufactures the covered material or product under such person's own
48 name or brand and who sells or offers for sale the covered material or
49 product in the state;

50 (b) if paragraph (a) of this subdivision does not apply, the person
51 or company who imports the covered material or product as the owner or
52 licensee of a trademark or brand under which the covered material or
53 product is sold or distributed in the state;

54 (c) if paragraphs (a) and (b) of this subdivision do not apply, the
55 person or company that offers for sale, sells, or distributes the
56 covered material or product in the state.

1 A producer shall not include a municipality or a local government
2 planning unit, or a registered 501(c)(3) charitable organization or
3 501(c)(4) social welfare organization.

4 6. "Producer responsibility organization" means a not-for-profit
5 organization designated by a group of producers to act as an agent on
6 behalf of each producer to develop and implement a producer responsibil-
7 ity plan, or a registered 501(c)(3) charitable organization. To the
8 extent applicable, a producer responsibility organization shall have a
9 governing board that represents the diversity of producers and the
10 covered materials and product types and such board shall include non-
11 voting members representing a diversity of material trade associations.

12 7. "Readily-recyclable" means covered materials or products included
13 in the minimum recyclables list pursuant to subdivision 5 of section
14 27-3313 of this title. Readily-recyclable does not include materials
15 that contain toxic substances, as defined in this title.

16 8. "Recovery" means the diversion of covered materials or products
17 that might be disposed of or become waste.

18 9. "Recovery rate" means the amount of covered materials or products
19 recovered over a program year divided by the amount of product produced,
20 expressed as a percentage.

21 10. "Recycling" means reprocessing, by means of a manufacturing proc-
22 ess, of a used material into a product, a component incorporated into a
23 product, or a secondary (recycled) raw material. "Recycling", for
24 purposes of this title, does not include energy recovery or energy
25 generation by means of combustion, use as a fuel, or landfill disposal
26 of discarded covered materials or products or discarded product compo-
27 nent materials or chemical conversion processes, as determined by the
28 department.

29 11. "Recycling rate" means the percentage of discarded covered materi-
30 als or products that is managed through recycling or reuse, as defined
31 by this title, and is computed by dividing the amount of discarded
32 covered products recycled or reused by the total amount of discarded
33 covered products collected over a program year.

34 12. "Reuse" means selling a discarded covered product back into the
35 market for its original intended use, when the discarded covered product
36 retains its original performance characteristics and can be used for its
37 original purpose or covered materials or products that are intended to
38 be refilled for the same or similar purpose by the producer.

39 13. "Retailer" means a person who sells or offers for sale a product
40 to a consumer, including sales made through an internet transaction to
41 be delivered to a consumer in the state.

42 14. "Toxic substance" means a chemical or chemical class of concern
43 identified by a state agency, federal agency, international intergovern-
44 mental agency, accredited research university, or other scientific
45 evidence. The department may reference existing toxic or hazardous
46 substances lists it creates or those created by other state agencies,
47 the Interstate Chemicals Clearinghouse, or chemicals classified by the
48 European Union as carcinogens, mutagens, or reproductive toxicants
49 pursuant to Category 1A or 1B in Annex VI to Regulation (EC) 1272/2008
50 in the promulgation of a toxic substance list.

51 § 27-3303. Producer responsibility advisory board.

52 1. There is hereby established within the department a producer
53 responsibility advisory board, hereinafter the advisory board, to
54 receive and review the producer responsibility plans required under this
55 title and to make recommendations to the department regarding the plan's
56 approval.

2. (a) The advisory board shall be composed of an odd number of members and the commissioner shall appoint at least one member from each of the following: a municipality association or municipal recycling program, including an additional municipal representative from cities with a population of one million or more residents; a statewide environmental organization; a representative of environmental justice communities or organizations; a statewide waste disposal association; a materials recovery facility located within the state of New York; a recycling collection provider; a manufacturer of packaging materials utilizing post-consumer recycled content; a manufacturer of paper materials utilizing post-consumer recycled content; a consumer advocate; and a retailer.

(b) The member representing the producer or producer responsibility organization shall be a non-voting member.

(c) Appointments to the advisory board shall be made no later than six months after the effective date of this title.

3. The advisory board shall meet at least once a year by the call of the chair or by request of more than half the voting members.

4. (a) Each producer responsibility plan prepared by a producer or producer responsibility organization pursuant to this title shall be submitted to the advisory board, which shall consider whether the plan meets the criteria and objectives of this title.

(b) The advisory board shall, within ninety days of the submission of the producer responsibility plan, either: (i) forward the plan to the commissioner with its recommendation for approval; or (ii) forward the plan to the commissioner with its disapproval and stated reasons therefor, including any recommended changes to the plan necessary for approval.

(c) A producer responsibility organization may resubmit a producer responsibility plan for approval at any time. Upon such resubmission, the advisory board shall, within ninety days, forward the plan to the commissioner with its recommendation for approval or disapproval.

5. The advisory board shall review the submitted annual reports and make such recommendations to the department and the producer responsibility organization for improving the plan.

6. The decisions of the advisory board shall be by vote of the majority of its membership.

§ 27-3305. Producer responsibilities.

1. Within four years after the effective date of this title, no producer shall sell, offer for sale, or distribute covered materials or products for use in New York unless the producer, or a producer responsibility organization acting as their designated agent, has a producer responsibility plan approved by the department, upon the recommendation of the advisory board. Producers may satisfy participation obligations individually or jointly with other producers or through a producer responsibility organization.

2. Producers or a producer responsibility organization shall meet jointly with the advisory board at least annually.

3. The producer, or a producer responsibility organization shall be responsible for producers' compliance with the requirements of this title, including the preparation and implementation of a producer responsibility plan, the preparation and submission of annual audits, and the annual reports to the department.

4. Within the first four years after the department approves a producer responsibility plan, producers shall be required to report, on an annual basis, progress reports describing in detail progress towards

1 meeting or exceeding the recovery, recycling, and post-consumer recycled
2 content rates by material type. Such progress reports shall also include
3 an evaluation of whether they are on target to meet the approved recov-
4 ery, recycling, and post-consumer recycled content rates by material
5 type. If a producer or producer responsibility organization is not on
6 target to meet the required rates, the department, in consultation with
7 the advisory board, shall either require an approved producer responsi-
8 bility plan to be amended or require the producer to implement addi-
9 tional measures. Within five years after the department approves the
10 producer responsibility plan, producers shall be required to meet the
11 minimum recovery, recycling and post-consumer recycled material content
12 rate for a covered material or product as approved by the department in
13 the producer responsibility plan or face penalties pursuant to section
14 27-3321 of this title.

15 5. A producer shall be exempt from the requirements of this title if
16 the producer:

17 (a) Generates less than one million dollars in annual revenues;

18 (b) Generates less than one ton of covered materials or products
19 supplied to New York state residents per year; or

20 (c) Operates as a single point of retail sale and is not supplied or
21 operated as part of a franchise.

22 6. Retailers that are not producers are exempt from the requirements
23 of this title.

24 7. Producers may comply individually or may form a producer responsi-
25 bility organization and discharge their responsibilities to such organ-
26 ization.

27 8. The department shall establish regulations to allow voluntary
28 agreements to be made between responsible parties to permit a responsi-
29 ble party to convey a different order of responsibility than defined in
30 subdivision 4 of section 27-3301 of this title as long as both parties
31 agree to the change in the hierarchy of responsibility.

32 § 27-3307. Funding mechanism.

33 1. A producer or producer responsibility organization acting as their
34 agent shall establish program participation charges for producers
35 through the producer responsibility plan pursuant to section 27-3309 of
36 this title which shall be sufficient to ensure the obligations of the
37 statewide needs assessment and the producer responsibility plan are met.
38 Provided, however, that covered materials in the newspaper or magazine
39 class may satisfy their obligations hereunder by providing advertisement
40 or publication in their newspapers, magazines, and/or on their websites
41 in lieu of program participation charges so long as the value of the
42 advertisement is equivalent to the financial obligations required under
43 an approved producer responsibility plan.

44 2. A producer responsibility organization shall structure program
45 charges to provide producers with financial incentives, to reward waste
46 and source reduction and recycling compatibility innovations and prac-
47 tices, and to disincentivize designs or practices that increase costs of
48 managing the products or which contain toxic substances. The producer
49 responsibility organization may adjust charges to be paid by participat-
50 ing producers based on factors that affect system costs. At a minimum,
51 charges shall be variable based on:

52 (a) Costs to provide curbside collection or other level of residential
53 service that is, at minimum, as convenient as curbside collection or as
54 convenient as the previous recycling collection plan in the particular
55 jurisdiction or as convenient as the previous refuse collection plan in
56 the particular jurisdiction should recycling collection not be provided;

1 (b) Costs to process a producer's covered materials or products for
2 acceptance by secondary material markets;

3 (c) Whether the covered material or product would typically be readi-
4 ly-recyclable except that as a consequence of the product's design, the
5 product has the effect of disrupting recycling processes or the product
6 includes labels, inks, and adhesives containing heavy metals or other
7 toxic substances as defined by the department in regulations that would
8 contaminate the recycling process;

9 (d) Whether the covered materials or product is specifically designed
10 to be reusable or refillable and has high reuse or refill rate;

11 (e) the commodity value of a covered material or product.

12 3. The charges shall be adjusted, or the producers may be provided a
13 credit, based upon the percentage of post-consumer recycled material
14 content and such percentage of post-consumer recycled content shall be
15 verified by the producer responsibility organization or through an inde-
16 pendent third party approved to perform verification services to ensure
17 that such percentage exceeds the minimum requirements in the covered
18 material, as long as the recycled content does not disrupt the potential
19 for future recycling.

20 4. In addition to the annual schedule of fees approved in the producer
21 responsibility plan, the producer responsibility organization fee sched-
22 ule may include a special assessment on specific categories of covered
23 materials or products at the request of responsible entities represent-
24 ing and approved by the advisory board if the nature of the covered
25 material or product imposes unusual costs in collection or processing or
26 requires special actions to address effective access to recycling or
27 successful processing in municipal recycling facilities. The revenue
28 from the special assessment shall be used to make system improvements
29 for the specific covered materials or products on which the special
30 assessment was applied.

31 5. A producer responsibility organization shall be responsible for
32 calculating and dispersing funding at a reasonable recycling program
33 funding rate, as approved by the department, and such reasonable rate
34 may be varied based on population density rates, for municipal services
35 utilized by a producer responsibility organization if the municipality
36 elects to be compensated by the producer responsibility organization in
37 the recovery, recycling, and processing of covered materials and
38 products, whether such services are provided directly by the munici-
39 pality or through a contracted service provider. If a municipality does
40 not elect to provide service, the producer responsibility organization
41 shall be responsible for contracting with a private entity for services
42 and shall be responsible for calculating and disbursing funding at a
43 reasonable recycling program rate for collection, recycling, recovery,
44 and processing services provided by the private sector entity contracted
45 to provide such services. The program funding mechanism shall be based
46 on the cost of residential curbside collection, including the cost of
47 curbside containers where relevant, as well as processing cost for each
48 readily-recyclable material, cost of handling non-readily recyclable
49 material types collected as part of a recycling operation, transporta-
50 tion cost of recycling for each material type, and any other cost
51 factors as determined by the department. To facilitate the producer
52 responsibility organization's determination of the cost of recycling,
53 participating municipalities and private sector haulers contracting with
54 producer responsibility organizations shall report data related to their
55 costs and the value of materials to the producer responsibility organ-

1 ization. Cost calculations shall take into consideration revenue gener-
2 ated from recyclable materials.

3 6. Any funds directly collected pursuant to this title shall not be
4 used to carry out lobbying activities on behalf of the producer respon-
5 sibility organization.

6 7. No retailer may charge a point-of-sale or other fee to consumers to
7 facilitate a producer to recoup the costs associated with meeting the
8 obligations under this title.

9 8. Nothing in this title shall require a municipality to participate
10 in a producer responsibility program.

11 9. The department shall make such rules and regulations which may be
12 necessary for a producer responsibility organization to develop and
13 manage a funding mechanism.

14 § 27-3309. Producer responsibility plan and needs assessment.

15 1. A statewide needs assessment shall be conducted prior to the
16 approval of a producer responsibility plan. The statewide needs assess-
17 ment shall be funded by the producers or producer responsibility organ-
18 ization, and shall be conducted by an independent third party approved
19 by the department and shall include an evaluation of the capacity,
20 costs, gaps, and needs for the following factors:

21 (a) Current funding needs impacting recycling access and availability;

22 (b) Existing state statutory provisions and funding sources for recy-
23 cling, reuse, reduction, and recovery;

24 (c) The collection and hauling system for recyclable materials in the
25 state;

26 (d) The processing capacity and infrastructure for recyclable materi-
27 als in the state and regionally and identifying necessary capital
28 investments to existing and future reuse and recycling infrastructure;

29 (e) The market conditions and opportunities for recyclable materials
30 in the state and regionally;

31 (f) Consumer education needs for recycling, reuse, and reduction of
32 covered materials and products.

33 2. Producers, or a producer responsibility organization acting as
34 their designated agent, shall develop and submit a producer responsibil-
35 ity plan to the advisory board. Such plan shall cover five years and
36 shall be reviewed by the advisory board and updated every five years
37 following the approval of the original plan. The department shall have
38 the discretion to require the plan to be reviewed or revised prior to
39 the five year period if the department has cause to believe the minimum
40 post-consumer recycled material content rates, minimum recovery or recy-
41 cling rates, or other factors of the plan are not being met or followed
42 by the producer, or producer responsibility organization, or if there
43 has been a change in circumstances that warrants revision of the plan.
44 The advisory board shall also have the discretion to recommend revision
45 of the plan to the department. The submitted plan shall include, but not
46 be limited to:

47 (a) contact information of the producer responsibility organization
48 and the producer or producers covered under the plan;

49 (b) a description of how comments of stakeholders were considered and,
50 if applicable, addressed in the development of the plan;

51 (c) a comprehensive list of the covered materials or products for
52 which the producer or producer responsibility organization is responsi-
53 ble for, which shall be included in the minimum recyclable lists pursu-
54 ant to section 27-3313 of this title;

55 (d) a funding mechanism that allocates the costs to the producers to
56 meet the requirements of this title and is sufficient to cover the cost

1 of registering, operating and updating the plan, and maintaining a
2 financial reserve sufficient to operate the program in a fiscally
3 prudent and responsible manner;

4 (e) a strategic capital investment plan and a mechanism to disperse
5 funds for existing and future infrastructure;

6 (f) a description of the process for participating municipalities to
7 recoup reasonable costs, both operational and capital, from the producer
8 or producer responsibility organization, including, as applicable, any
9 administrative, sorting, collection, transportation, public education,
10 or processing costs, if the producer responsibility organization uses
11 existing services through a municipality or obtains such services from a
12 private sector hauler;

13 (g) a detailed description of how the producer or the producer respon-
14 sibility organization, consulted with the advisory board in the develop-
15 ment of the plan prior to its submission to the department, and to what
16 extent the producers or the producer responsibility organization specif-
17 ically incorporated the advisory board's input into the plan. Producers
18 or the producer responsibility organization shall also provide the advi-
19 sory board an opportunity to review and comment upon the draft plan
20 prior to its submission to the department. Producers or the producer
21 responsibility organization shall make an assessment of comments
22 received and shall provide a summary and an analysis of the issues
23 raised by the advisory board and significant changes suggested by any
24 such comments, a statement of the reasons why any significant changes
25 were not incorporated into the plan, and a description of any changes
26 made to the plan as a result of such comments;

27 (h) a proposed minimum post-consumer recycled material content rate
28 requirement, minimum recovery, and minimum recycling rate for covered
29 materials and products. The minimum rates shall be varied for each
30 covered recycled material and shall include paper products, glass,
31 metal, and plastic;

32 (i) a description of a public education program pursuant to section
33 27-3313 of this title;

34 (j) how the producers, or the producer responsibility organization,
35 will work with existing waste haulers, material recovery facilities,
36 recyclers, and municipalities to operate or expand current collection
37 programs to address material collection methods;

38 (k) a description of how producers or the producer responsibility
39 organization will use open, competitive, and fair procurement practices
40 should they directly enter into contractual agreements with service
41 providers, including municipalities and private entities;

42 (l) a description of how a municipality will participate, on a volun-
43 tary basis, with collection and how existing municipal recycling proc-
44 essing and collection infrastructure will be used;

45 (m) a description of how the producer, or producer responsibility
46 organization, plans to meet the convenience requirements set forth in
47 this title;

48 (n) a description of how the producer, or producer responsibility
49 organization, will meet or exceed the minimum rates required under this
50 title for covered materials or product;

51 (o) a description of the process for end-of-life management, including
52 recycling and disposal of residuals collected for recycling, using envi-
53 ronmentally sound management practices;

54 (p) a description of how the producer responsibility organization
55 shall provide the option to purchase recycled materials from processors

1 on behalf of producer members interested in obtaining recycled feedstock
2 in order to achieve post-consumer recycled content objectives;

3 (q) a description of how a producer responsibility organization will
4 work with producers to reduce packaging through product design, systems
5 for reusable packaging, and program innovations;

6 (r) a description of how a producer responsibility organization will
7 invest in existing and future reuse and recycling infrastructure and
8 market development in the state, including, but not limited to, install-
9 ing or upgrading equipment to improve sorting of covered materials and
10 products or mitigating the impacts of covered materials and products to
11 other commodities at existing sorting and processing facilities, and
12 capital expenditures for new technology, equipment, and facilities;

13 (s) a process to address concerns and questions from customers and
14 residents; and

15 (t) any other information as specified by the department through regu-
16 lations.

17 3. The department shall promulgate a registration fee schedule to
18 cover administrative costs, including a schedule for re-evaluating the
19 fee structure on an annual basis and shall consider if fees should be
20 adjusted to incentivize performance. Such fees collected by the depart-
21 ment shall only be used for the implementation, operation, and enforce-
22 ment of this title, including approved costs associated with the advi-
23 sory panel.

24 § 27-3311. Producer responsibility plan approval.

25 1. Before rejection or approval of a producer responsibility plan can
26 be made in accordance with this title, the producer or producer respon-
27 sibility organization shall submit the plan to the producer responsibil-
28 ity advisory board.

29 2. Within sixty days of the advisory board making a recommendation to
30 the department, the department shall make a determination to approve the
31 plan as submitted; approve the plan with conditions; or deny the plan,
32 with reasons for the denial. The advisory board in recommending, and the
33 department in approving a plan, shall consider the following in whether
34 to approve a plan:

35 (a) the plan adequately addresses all elements described in section
36 27-3309 of this title with sufficient detail to demonstrate that the
37 objective of the plan will be met;

38 (b) the producer has undertaken satisfactory consultation with the
39 advisory board, has provided an opportunity for the advisory board's
40 input in the implementation and operation of the plan prior to
41 submission of the plan, and has thoroughly described how the the advi-
42 sory board's input will be addressed by and incorporated into the plan
43 pursuant to paragraph (f) of subdivision 1 of section 27-3309 of this
44 title;

45 (c) the plan adequately provides for: (i) the producer collecting and
46 funding the costs of collecting and processing products covered by the
47 plan or reimbursing a municipality; (ii) the funding mechanism to cover
48 the entire cost of the program; (iii) convenient and free consumer
49 access to collection facilities or collection services; (iv) a formulaic
50 system for equitable distribution of funds; (v) comprehensive public
51 education and outreach; and (vi) an evaluation system for the fee struc-
52 ture, which shall be evaluated on an annual basis by the producer
53 responsibility organization and re-submitted to the department annually;

54 (d) the plan takes into consideration a post-consumer content rate and
55 recovery and recycling rates that will create or enhance markets for
56 recycled materials, there is a plan to adjust the minimum rates on an

1 annual basis, and the plan incentives waste prevention and reduction.
2 Such post-consumer content rates, and such adjustments to the rates,
3 shall take into consideration: (i) changes in market conditions,
4 including supply and demand for post-consumer recycled plastics, recov-
5 ery rates, and bale availability both domestically and globally; (ii)
6 recycling rates; (iii) the availability of recycled materials suitable
7 to meet the minimum recycled content goals, including the availability
8 of high-quality recycled materials, and food-grade recycled materials;
9 (iv) the capacity of recycling or processing infrastructure; (v) utili-
10 zation rates of the material; and (vi) the progress made by producers in
11 meeting the post-consumer recycled targets by material type;

12 (e) the plan creates a convenient system for consumers to recycle that
13 is, at minimum, as convenient as curbside collection or as convenient as
14 the previous waste collection schema in the particular jurisdiction;

15 (f) the plan adequately considers the state's solid waste management
16 policy set forth in section 27-0106 of this article;

17 (g) The department may establish additional plan requirements in addi-
18 tion to those identified herein to fulfill the intent of this title;
19 provided, however, that any additional requirements shall be established
20 one year prior to a required submission of a plan unless such additional
21 requirements are in relation to the power granted to the department in
22 subdivision 4 of section 27-3305 of this title.

23 3. No later than six months after the date the plan is approved, the
24 producer, or producer responsibility organization, shall implement the
25 approved plan. The department may rescind the approval of an approved
26 plan at any time with cause and documented justification.

27 § 27-3313. Collection and convenience.

28 A producer or producer responsibility organization shall provide for
29 widespread, convenient, and equitable access to collection opportunities
30 for the covered materials and products identified under the producer or
31 producer responsibility organization's plan at no additional cost to
32 residents. Such opportunities shall be provided to all residents of New
33 York in a manner that is as convenient as the collection of municipal
34 solid waste. A producer responsibility organization shall ensure
35 services continue for curbside recycling programs that a municipality
36 serves as of the effective date of this article, either directly or
37 through a contract to provide services, and that such services are
38 continued through the plan. A producer responsibility plan may not
39 restrict a jurisdiction's resident's ability to contract directly with
40 third parties to obtain recycling collection services if residents have
41 the option to enter into such contracts as of the effective date of this
42 title, as long as the resident still voluntarily chooses to contract
43 directly with the third party. A producer responsibility organization
44 may rely on a range of means to collect various categories of covered
45 materials or products including, but not limited to, curbside
46 collection, depot drop-off, and retailer take-back so long as covered
47 materials and products collection options include curbside recycling
48 collection services provided by municipal programs, municipal contracted
49 programs, solid waste collection companies, or other approved entities
50 as identified by the department if:

51 1. The category of covered materials and products is suitable for
52 residential curbside recycling collection and can be effectively sorted
53 by the facilities receiving the curbside collected material;

54 2. The recycling facility providing processing and sorting service
55 agrees to include the category of covered materials and products as an
56 accepted material;

1 3. The covered materials and products category is not handled through
2 a deposit and return scheme or buy back system that relies on a
3 collection system other than curbside or multi-family collection; and

4 4. The provider of the residential curbside recycling service agrees
5 to the producer responsibility organization service provider costs
6 arrangement.

7 5. (a) The producer or producer responsibility organization shall
8 adopt a list of minimum types of readily recyclable materials and
9 products based on available collection and processing infrastructure and
10 recycling markets for covered materials and products. The producer or
11 producer responsibility organization shall update and adopt the list on
12 an annual basis, in consultation with the advisory board, in response to
13 collection and processing improvements and changes in recycling end
14 markets. If there are multiple lists, the department shall compile the
15 lists and shall publish a compiled list to the public. Such lists may
16 vary by geographic region depending on regional markets and regional
17 collection and processing infrastructure.

18 (b) All municipalities or private recycling service providers shall
19 provide for the collection and recycling of all identified materials and
20 products contained on the list of minimum recyclables, based on
21 geographic regions, in order to be eligible for reimbursement; provided,
22 however, nothing shall penalize a municipality or private recycling
23 service for recovering and recycling materials that are generated in the
24 municipality or geographic region that are not included on the list of
25 minimum types of recyclable covered materials or products as long as it
26 can be demonstrated that such materials have a market. Reimbursement
27 shall cover recycling of all covered materials and products so long as
28 the program includes at least the minimum recyclable list.

29 (c) The department may grant an exception of the requirements in para-
30 graph (b) of this subdivision upon a written showing by the municipality
31 or private recycling service that compliance with the requirement is not
32 practicable for a specific identified product or material and if the
33 department finds it is in the best interest of the intent of this title
34 to grant them an extension; provided, however, that the extension grant-
35 ed by the department shall not exceed twelve months.

36 § 27-3315. Outreach and education.

37 1. The producer, or producer responsibility organization, shall
38 provide effective outreach, education, and communications to consumers
39 throughout New York state regarding:

40 (a) proper end-of-life management of covered products and materials;

41 (b) the location and availability of curbside recycling and additional
42 drop-off collection opportunities;

43 (c) how to prevent litter of covered materials and products in the
44 process of collection; and

45 (d) recycling and composting instructions that are: consistent state-
46 wide, except as necessary to take into account differences among local
47 laws and processing capabilities; easy to understand; and easily acces-
48 sible.

49 2. The outreach and education required pursuant to subdivision 1 of
50 this section shall:

26 regulation governing a municipally-operated recycling program or
27 collection program operated on behalf of such municipality, from deter-
28 mining what materials shall be included for recycling in such municipal

30 ordinance or regulation which provides environmental protection equal to
31 or greater than the provisions of this title or rules promulgated here-
32 under, and (ii) that nothing in this section shall preclude a person
33 from coordinating, for recycling or reuse, the collection of covered
34 materials and products.

49 PART DDD

50 Section 1. The agriculture and markets law is amended by adding a new
51 article 27 to read as follows:

52 ARTICLE 27

53 NOURISH NEW YORK

54 Section 450. Declaration of legislative findings and intent.

451. Definitions.

452. Nourish New York program.

§ 450. Declaration of legislative findings and intent. While the Nourish New York program was developed in response to disrupted food supply chains due to the COVID-19 pandemic, it has emerged as an important innovation, significantly supporting the state's farms while providing nourishing fresh foods to people experiencing food insecurity. The COVID-19 crisis unveiled the weaknesses in our state's food supply system and has caused serious economic hardships for the state's farms and agribusinesses. But, in the ten months since its inception, Nourish New York has already strengthened the state's food supply network and expanded markets for New York farm products. The local food movement has also gained significant momentum during the pandemic, with increasing numbers of New Yorkers wanting to know where their food is sourced. This presents the state with a major opportunity to support our local economies and create greater equity in our food system by providing greater access to local, healthy options in food insecure areas through making the Nourish New York program permanent.

§ 451. Definitions. 1. "Food relief organization" means a religious organization or other not-for-profit that provides food for free to persons experiencing food insecurity, including but not limited to a food pantry, food bank, or soup kitchen or community-based organization that provides food for free to persons experiencing food insecurity.

2. "Surplus agricultural products" means consumable or edible agricultural products grown in New York but shall not include condiments, sweeteners or beverages containing alcohol.

§ 452. Nourish New York program. 1. The commissioner shall, to the extent permitted by state or federal appropriations for such purpose, facilitate programming that ensures surplus agricultural products are provided to food relief organizations at competitive wholesale prices.

2. The commissioner shall provide technical assistance and information about the program to food relief organizations, producers of surplus agricultural products and the public, including, but not limited to, information posted on the department's website.

3. The commissioner shall provide means, which may include posting on the department's website, for producers to make available surplus agricultural products and for food relief organizations to access surplus agricultural products.

4. The commissioner, in consultation with the department of health, shall review the current funding structure, funding adequacy and current service levels of the hunger prevention nutrition assistance program in all regions of the state. Review of current service levels shall take into account the size of the service area, the population in need of such hunger prevention nutrition assistance program and the need for additional facilities within a region in order to address increasing food insecurity and hunger. Following such review, the commissioner shall make and report any recommendations, including but not limited to, increasing the maximum amount of money each food pantry may be allocated by such program, whether such program funding should be indexed for inflation annually, and any structural and funding adequacy changes deemed necessary.

5. The commissioner shall review and report on the need to establish a grant program to fund the purchase of cold storage equipment for regional food banks, food pantries and other emergency food organizations. Such grant program shall prioritize regions of the state that have the highest demand for emergency food and regions of the state

where regional food banks and pantries have determined the need for more capacity to safely store perishable food before such food is distributed. Such report shall be completed and submitted to the governor and the legislature no later than February first, two thousand twenty-two.

§ 2. This act shall take effect immediately.

PART EEE

Section 1. Short title. This act shall be known and may be cited as the "comprehensive broadband connectivity act".

§ 2. Legislative findings. The legislature hereby finds and declares that more granular and adequate broadband mapping is an essential next step in continuing the progress of expanding access to high-quality, affordable broadband access in New York State. The New York Broadband Program has helped expand broadband service to hundreds of thousands of previously underserved New Yorkers. However, many still lack access. Due to a lack of comprehensive data, measuring the true extent of this problem has been hampered by the limitations of federal data on broadband access. More accurate and comprehensive data is necessary to complete the State's work in ensuring truly universal broadband access.

§ 3. The public service law is amended by adding a new section 224-c to read as follows:

§ 224-c. Broadband and fiber optic services. 1. For the purposes of this section:

(a) The term "served" means any location with at least two internet service providers and at least one such provider offers high-speed internet service.

(b) The term "underserved" means any location which has fewer than two internet service providers, or has internet speeds of at least 25 megabits per second (mbps) download but less than 100 mbps download available.

(c) The term "unserved" means any location which has no fixed wireless service or wired service with speeds of 25 mbps download or less available.

(d) The term "high-speed internet service" means internet service of at least 100 mbps download and at least 10 mbps upload.

(e) The term "broadband service" shall mean a mass-market retail service that provides the capability to transmit data to and receive data from all or substantially all internet endpoints, including any capabilities that are incidental to and enable the operation of the communications service, but shall not include dial-up service.

(f) The term "location" shall mean a geographic area smaller than a census tract.

(g) The term "internet service provider" shall mean any person, business or organization qualified to do business in this state that provides individuals, corporations, or other entities with the ability to connect to the internet.

2. The commission shall study the availability, affordability and reliability of high-speed internet and broadband services in New York state. The commission shall, with the assistance of the New York state energy research and development authority, to the extent practicable under New York state law:

(a) assess the efficacy and make recommendations regarding levels of competition among providers, as well as any regulatory and statutory barriers, in order to deliver comprehensive statewide access to high-speed internet;

1 (b) review available technology to identify solutions that best
2 support high-speed internet service in underserved or unserved areas,
3 and make recommendations on ensuring deployment of such technology in
4 underserved and unserved areas;

5 (c) identify instances where local franchise agreements and legal
6 settlements related to internet access have not been complied with;

7 (d) identify locations where insufficient access to high-speed inter-
8 net and/or broadband service, and/or persistent digital divide, is caus-
9 ing negative social or economic impact on the community;

10 (e) identify locations where the commission believes fiber optic
11 service is necessary for the successful implementation of commission's
12 policies on competition, affordability, and adequate service;

13 (f) examine any other telecommunications deficiencies affecting broad-
14 band service it deems necessary to further the economic and social goals
15 of the state; and

16 (g) produce, maintain and publish on its website, a detailed internet
17 access map of the state, indicating access to internet service by
18 location. Such map shall include, but not be limited to, the following
19 information for each location:

20 (i) download and upload speeds advertised and experienced;

21 (ii) the consistency and reliability of download and upload speeds
22 including latency;

23 (iii) the types of internet service and technologies available includ-
24 ing but not limited to dial-up, broadband, wireless, fiber, coax, or
25 satellite;

26 (iv) the number of internet service providers available, the price of
27 internet service available; and

28 (v) any other factors the commission may deem relevant.

29 3. The commission shall submit a report of its findings and recommen-
30 dations from the study required in subdivision two of this section, to
31 the governor, the temporary president of the senate and the speaker of
32 the assembly no later than one year after the effective date of this
33 section, and an updated report annually thereafter. Such report shall
34 include, but not be limited to, the following:

35 (a) the overall number of residences with access to high-speed inter-
36 net identifying which areas are served, unserved and underserved;

37 (b) a regional survey of internet service prices in comparison to
38 county-level median income;

39 (c) an analysis of the affordability of high-speed internet service in
40 New York state;

41 (d) any relevant usage statistics;

42 (e) any other metrics or analyses the commission deems necessary in
43 order to assess the availability, affordability and reliability of
44 internet service in New York state; and

45 (f) the map maintained pursuant to paragraph (g) of subdivision two of
46 this section.

47 4. The commission shall hold at least four regional public hearings
48 within one year of the effective date of this section, to solicit input
49 from the public and other stakeholders including but not limited to
50 internet service providers, telecommunications concerns, labor organiza-
51 tions, public safety organizations, healthcare, education, agricultural
52 and other businesses or organizations.

53 5. The commission shall work with internet service providers in the
54 state to prioritize access to broadband and fiber optic services for the
55 communities determined to have experienced negative economic and social

impacts due to absent, insufficient, or inadequate broadband or fiber optic service pursuant to subdivision one of this section.

6. To effectuate the purposes of this section, the commission may request and shall receive from any department, division, board, bureau, commission or other agency of the state or any state public authority such assistance, information and data as will enable the commission to carry out its powers and duties under this section.

§ 4. This act shall take effect on the thirtieth day after it shall have become a law.

PART FFF

Section 1. Short title. This act shall be known and may be cited as the "E-Let's Expand Access to Remote Now (E-LEARN) Act".

§ 2. Legislative intent. The legislature hereby finds and declares that the COVID-19 pandemic has plagued the health, economy and education systems throughout New York and impacted the livelihood of every resident of the state with an extensive, protracted and disproportionate impact on students in every region.

The legislature further finds the unprecedented closure of school buildings for the last quarter of the 2019-20 school year coupled with increasing COVID-19 public health and safety concerns throughout the summer and into the beginning of the 2020-21 school year have continued to present logistical challenges for the delivery of education and support services especially for students who are living in poverty.

The legislature further finds Article XI of the New York state Constitution which stipulates 'The Legislature shall provide for the maintenance and support of a system of free common schools, wherein all the children of the state may be educated' must be continuously upheld even throughout the ensuing pandemic period.

The legislature further finds schools across the state had to quickly implement technological programs and devices to deliver remote learning options to students during the closed down period and many schools are required to, or are requested to, continue distance learning modality as an instructional delivery model.

The legislature further finds lack of high-quality internet access has had and continues to have a disequalizing impact on children who are poor, homeless and without the resources to support their educational needs.

The Legislature further finds it is a state imperative to ensure all children have access to the delivery of technology through high-quality broadband internet connectivity in order to meet the State's constitutional requirement and maintain a system of free common schools.

The legislature further finds that high-speed internet access, commonly referred to as broadband internet, can be achieved through utilization of a variety of technologies, including wired infrastructure via fiber optic cable, and through wireless technologies such as fixed wireless internet and satellite internet, and that taking advantage of all available and evolving technologies can enable communities currently without wired infrastructure to nonetheless improve access to high quality internet until such time as wired infrastructure is made universally available.

The legislature further finds that almost every sector of New York's economy, democracy, and society depends on widespread, high-quality internet access that supports vital functions regulated under the police power of the state.

1 The legislature further finds that while the internet is an interstate
2 resource, the essential support it provides for innumerable municipal
3 and state operations, vital business and community service, delivery of
4 educational programs and services and daily interactions between the
5 people of New York and their governments are of state concern.

6 The legislature further finds that while the operations of telecommu-
7 nication service providers must be subject to state oversight, they also
8 must be protected from undue restraint and regulation so as to assure
9 optimum technology and maximum availability in this state as rapidly as
10 economically and technically feasible.

11 The legislature further finds that telecommunication service provid-
12 ers, notwithstanding their unique attributes, are part of an increasing-
13 ly integrated telecommunications industry, the soundness of which is
14 essential, not only to education, but also to the state's economic
15 growth and general welfare, and portions of whose business are wholly
16 intrastate.

17 The legislature further finds that there is a need for one or more
18 state agencies to determine state internet access policy as it relates
19 to the education of the state's students during the COVID-19 pandemic,
20 ensure that telecommunication service providers provide adequate,
21 economical and efficient service to students and schools, and oversee,
22 consonant with federal regulations and statutes, the availability of
23 high-quality internet access during the COVID-19 pandemic in support of
24 the constitutional education obligations of the state.

25 The legislature further finds that it is necessary to establish a
26 competitively-neutral funding mechanism to provide the resources neces-
27 sary to assure and maintain satisfaction of the constitutional education
28 obligations of the state.

29 Therefore, be it resolved, that, the legislature hereby approves the
30 use of the police power inherent in the state of New York to protect and
31 promote the safety, life, public health, public convenience, general
32 prosperity, and well-being of society, and the welfare of the state's
33 population and economy, as necessary to satisfy the provisions of Arti-
34 cle XI of the New York state Constitution to provide a free public
35 education pursuant to the E-Let's Expand Access to Remote Now (E-LEARN)
36 act, as defined in this act.

37 § 3. The education law is amended by adding a new article 9-A to read
