(d) The provisions of chapter four hundred forty-two of the laws of

to the authority for the purchase of the Long Island railroad shall be
inapplicable to (i) the construction of such bridges and their

issued for or in connection with the financing of the cost of design,
construction and reconstruction of such bridges and their approaches, or
the proceeds realized upon such issuance; and (iii) revenues derived
from the investment of such proceeds or of any part thereof, and from
the imposition of tolls, fees or other charges for the use of such
bridges.

10. Notwithstanding the provisions of any other law, general,
special or local, or of any agreement entered into in pursuance thereof,
relating to the repayment of any loan or advance made by the state to
the authority or to the New York city transit authority, neither the
authority nor the New York city transit authority shall be required to
repay any such loan or advance heretofore made from or by reason of the
issuance of bonds or notes of either of them or from the proceeds real-
ized upon such issuance or from any other funds received by either of
them from any source whatever in aid or assistance of the project or
projects for the financing of which such bonds or notes are issued.

11. No project to be constructed upon real property theretofore used
for a transportation purpose, or on an insubstantial addition to such
property contiguous thereto, which will not change in a material respect
the general character of such prior transportation use, nor any acts or
activities in connection with such project, shall be subject to the
provisions of article eight, nineteen, twenty-four or twenty-five of the
environmental conservation law, or to any local law or ordinance adopted
pursuant to any such article. Nor shall any acts or activities taken or

under or pursuant to any federal law or regulation as to the environ-

12. The authority may, upon suitable notice to and an offer to consult
with an officer designated by the city of New York, occupy the streets

consent of or payment to such city.

12-a] 6. (a) Whenever the authority determines in consultation with 
the city of New York that it is necessary to obtain the temporary or 
permanent use, occupancy, control or possession of vacant or undeveloped

or subsurface real property or any interest therein then owned by the 
city of New York for a project in the two thousand fifteen to two thou-

connection with the capital project to construct four commuter railroad 
passengers stations in the borough of the Bronx known as Penn Station 
access, the authority upon approval by the board of the metropolitan 
transportation authority and upon suitable notice and with the consent 
of the city of New York may cause the title to such real property, or 
any interest therein, to be transferred to the authority by adding it to 
the agreement of lease dated June first, nineteen hundred fifty-three, 
as amended, renewed and supplemented, authorized by section twelve 
hundred three of this article, or may itself acquire title to such prop-
erty from the city of New York, and any such transfer or acquisition of 
real property shall be subject to the provisions of subdivision five of 
section twelve hundred sixty-six-c of this title. Nothing in this subdi-

(b) (i) Upon the execution of any transfer or acquisition pursuant to 
this subdivision, which shall be final upon the approval by the board of 
the metropolitan transportation authority and consent of the city of New

graph. The authority shall make a written offer to pay to the city of 
New York the fair market value of the authority's use, occupancy, 
control, possession or acquisition of such property. The offer by the 
authority shall be based on an appraisal of the value of such property 
and a copy of such appraisal shall be included with the offer. Such 
appraisal shall be done by an independent New York state licensed or 
certified appraiser, who may not be employed by the authority, selected 
at random from a panel of appraisers maintained by it for such purpose. 
Such appraisal and a second appraisal, if required pursuant to subpara-
graph (ii) of this paragraph, shall consider only the reasonably antici-
pated lawful use of the property and its zoning designation under the 
zoning resolution of the city of New York at the time the authority 
notified the city of New York of its determination to use, occupy, 
control, possess or acquire such property.

(ii) Within thirty days of receipt of the offer by the authority, the 
city of New York may accept it, agree with the authority on another 
amount, or request a second appraisal by an independent New York state 
licensed or certified appraiser, who may not be employed by the city of 
New York, selected at random by the city of New York from a panel of 
appraisers maintained by it for such purpose. Such second appraisal 
shall be completed within thirty days. If the second appraisal produces 
an estimate of the fair market value of the property that is greater 
than that of the first appraisal, the authority shall have ten days to
increase its offer to such higher amount, otherwise the two appraisers
shall reconcile their valuations and agree on a final valuation within
ten days, which shall be an amount not less than the first appraisal nor
greater than the second appraisal.

the authority and the Long Island Rail Road shall, among other things,
consider: (a) requiring police officers who ride without cost to regis-

cost; (b) requiring such officers to indicate during such registration
process their regular working hours and the Long Island Rail Road trains
that such officers expect to ride; and (c) periodically re-registering

any contract, the authority, in consultation with the New York city
transit authority, the Long Island Rail Road and the Metro-North Commu-

for transportation on New York city transit authority systems, the Long
Island Rail Road and the Metro-North Commuter Railroad Company for indi-

(b) In order to be eligible for such no fare program the personal care
attendant must show his or her community-based personal care attendant

6. Such transfers shall be subject to section seventy of the civil service law; or, where not subject to civil service, the provisions of such section seventy shall be deemed applicable, except where the context clearly requires otherwise. Any such employee who, at the time

§ 36. Subdivision 3 of section 1270-c of the public authorities law, as amended by section 30 of part O of chapter 61 of the laws of 2000, is amended to read as follows:

3. Moneys in the fund may be pledged by the authority to secure and be applied to the payment of its bonds, notes or other obligations specified by the authority and issued to finance (i) transit projects undertaken for the New York city transit authority and its subsidiaries and (ii) transportation facilities undertaken for the authority and its subsidiaries and (b) used for payment of operating costs, [and capital costs,] including debt service, reserve requirements, if any, the
payment of amounts required under bond and note facilities or agreements related thereto, the payment of federal government loans, security or credit arrangements or other agreements related thereto, and the payment of all costs related to such obligations, of or for the authority[—the New York city transit authority and their subsidiaries as the authority shall determine]. To the extent moneys in the fund have already been pledged by the authority prior to January first, two thousand twenty-two to secure and pay its bonds, notes or other obligations [as herein provided], moneys deposited into the fund shall first be deposited into the pledged amounts account to the extent necessary to satisfy the requirements of any debt service or reserve requirements, if any, of the resolution authorizing such bonds, notes or other obligations. After satisfaction of such requirements of the resolution, or if the authority has not so pledged the moneys in the fund, moneys deposited in the fund shall be directly deposited into the operating and capital costs account and, subject to the provisions of any resolutions of the authority not secured by the pledged amounts account, transferred forthwith to or for the benefit of the [New York city transit authority and its subsidiaries and the Staten Island rapid transit operating authority] big apple transit authority (the "[TA] BAT") and to and for the benefit of the [Long Island Rail Road company and the Metro-North commuter rail road company] commuter transportation authority (the "[CRR] CTA") as provided in this section.

Moneys in the operating and capital costs account which were deposited in the fund pursuant to appropriation from moneys deposited in the dedicated mass transportation trust fund for payment to the metropolitan transportation authority dedicated tax fund pursuant to subdivision (d) of section three hundred one-j of the tax law (the "remaining PBT amount") shall be distributed by the authority as follows: an amount equal to the debt service incurred in such calendar year as a result of obligations issued and secured by moneys in the fund, to the extent such debt service is to be paid from money deposited in the fund pursuant to appropriation from moneys deposited in the dedicated mass transportation trust fund for payment to the metropolitan transportation authority dedicated tax fund pursuant to subdivision (d) of section three hundred one-j of the tax law ("PBT debt service"), shall be added to the remaining PBT amount. The sum of these figures shall then be allocated as follows: eighty-five per centum of such sum shall be allocated to the [TA] BAT and fifteen per centum of such sum shall be allocated to the [CRR] CTA. The amounts so allocated shall then be reduced respectively by the proportional amount of PBT debt service attributable to the payments for transit projects undertaken for the [TA] BAT and transportation facility projects undertaken for the [CRR] CTA. The remaining amounts shall constitute the respective distributable shares of the remaining PBT amount and shall be distributed to or for the benefit of the [TA] BAT and the [CRR] CTA.

Moneys in the operating and capital costs account which were deposited in the fund pursuant to section eighty-eight-a of the state finance law (the "remaining MMTOA amount") shall be distributed by the authority as follows: an amount equal to the debt service incurred in such calendar year as a result of obligations issued and secured by money in the fund, to the extent such debt service is to be paid from money deposited in the fund pursuant to section eighty-eight-a of the state finance law ("MMTOA debt service"), shall be added to the remaining MMTOA amount. The sum of these figures shall then be allocated as follows: there shall be allocated (i) to the [TA] BAT an amount of such sum which bears the
same proportion to such sum as the amount appropriated and paid during such calendar year from the metropolitan mass transportation operating assistance account to the authority for the operating expenses of the [TA] BAT bears to the total amounts so appropriated and paid from such operating assistance account during such calendar year to the [TA] BAT and [CRR] CTA combined and (ii) to the [CRR] CTA an amount of such sum which bears the same proportion to such sum as the amount appropriated and paid during such calendar year from the metropolitan mass transportation operating assistance account to the [CRR] CTA bears to the total amounts so appropriated and paid from such operating assistance account during such calendar year to the [TA] BAT and [CRR] CTA combined. The amounts so allocated shall then be reduced respectively by the proportional amount of MMTOA debt service attributable to the payments for transit projects undertaken for the [TA] BAT and transportation facility projects undertaken for the [CRR] CTA. The remaining amounts shall constitute the respective distributable shares of the remaining MMTOA amount and shall be distributed to or for the benefit of the [TA] BAT and the [CRR] CTA. In no event shall the authority utilize any measure or calculation for determining such distributable shares other than the formula prescribed herein nor shall the authority take any action which would result in the use of such money which is different from or inconsistent with the use prescribed in this section.

To the extent that amounts described in the preceding two paragraphs are distributed more frequently than annually, each such distribution shall be made as nearly as may be practicable in accordance with the allocations described above to the [TA] BAT and the [CRR] CTA. Within thirty days after the end of each calendar year, the authority shall certify to the director of the budget, the chairperson of the senate finance committee and the chairperson of the assembly ways and means committee, the amount of money deposited in the fund pursuant to appropriation from moneys deposited in the dedicated mass transportation trust fund for payment to the metropolitan transportation authority dedicated tax fund pursuant to subdivision (d) of section three hundred one-j of the tax law and section eighty-eight-a of the state finance law, the amounts expended from the pledged amounts account for the benefit of the [TA] BAT and the [CRR] CTA, and the amounts of the remaining PBT amount and the remaining MMTOA amount distributed during the prior calendar year to the [TA] BAT and the [CRR] CTA and specifying in each case the appropriation or appropriations which was the source of such amounts.

No such project shall be commenced if and to the extent that either the mayor or a majority in voting power of the members of the city council shall find that it is incompatible with sound planning for the development or redevelopment of the city, provided such finding, together with the reasons therefor, is set forth in a writing delivered to the authority within thirty days of the receipt by the mayor or the city council, as the case may be, of the notification of the authority relating to such project. If any such project is not so disapproved, it may nevertheless not be commenced unless and until the city shall have been given an opportunity to include the same in the capital budget of the city for the first fiscal year of the city commencing not less than six months after receipt of such notification. If and to the extent that such project is included in such capital budget, the authority may not thereafter incur capital costs for the same in its own name. Where the city is required to pay the capital costs of the subsidiary corporation pursuant to such agreement, serial bonds or capital notes may be issued by the city, pursuant to the local finance law, to finance any such costs. The subsidiary corporation shall submit timely requests for the necessary capital funds to the city planning commission and the mayor of the city;

8. cle. Matters within the jurisdiction of the bureau except violations of
the rules and regulations of the [triborough] Triborough bridge and

from any court now having jurisdiction over any criminal charge or traf-

§ 16. Section 1213 of the public authorities law, as amended by chap-

read as follows:
§ 1219-a. Transfer and receipt of surplus funds. 1. Notwithstanding
any provision of this title or any other provision of law, general,
special or local, the authority may from time to time transfer and pay
over to the metropolitan transportation authority, the big apple transit
authority or [triborough] the Triborough bridge and tunnel authority all
or any part of its surplus funds; and may accept and use any moneys
transferred and paid over to it by the metropolitan transportation
authority, the big apple transit authority or [triborough] the Tribor-
ough bridge and tunnel authority.
2. Notwithstanding the provisions of [the preceding] subdivision one of this section:

(a) If the city shall have provided in its capital budget for its fiscal year beginning July first, nineteen hundred sixty-eight the amount of one hundred million dollars, or such lesser amount as shall have been requested by the authority for inclusion in such budget, for the payment of the capital cost of projects requested by the authority pursuant to section twelve hundred three of this title, then upon the written request of the mayor made within thirty days after the commencement of such fiscal year, [Triborough] the Triborough bridge and tunnel authority shall transfer to the authority, by lump sum payment or installments at such time or times and in such amounts as the mayor shall elect, all or such part of the surplus funds of [Triborough] the Triborough bridge and tunnel authority on hand as of the last day of its last fiscal year ending prior to such request as the mayor shall specify, which funds shall be applied by the authority solely to the payment of its expenses of operation. If the city shall have provided in its capital budget for any of its next four fiscal years, commencing with the fiscal year beginning July first, nineteen hundred sixty-nine, the amount of one hundred million dollars, or such lesser amount as shall have been requested by the authority for inclusion in such budget, for the payment of the capital cost of projects requested by the authority pursuant to section twelve hundred three of this title, then upon the written request of the mayor made within thirty days after the commencement of such fiscal year, [Triborough] the Triborough bridge and tunnel authority shall transfer to the authority solely for application to the payment of expenses of operation of the authority the operating surplus of [Triborough] the Triborough bridge and tunnel authority for its last fiscal year ending prior to such request, which transfer shall also be by lump sum payment or installments at such time or times and in such amounts as the mayor shall elect. Projects shall be eligible for inclusion in a computation made hereunder only if included in a capital budget on the first day of the fiscal year for which it is adopted. A carry-over project shall not be eligible for inclusion unless it was first included in a capital budget by way of an amendment thereto, in which event it shall be eligible for inclusion in a computation made hereunder with respect to the first fiscal year of the city commencing after the adoption of the amendment.

(b) Promptly upon the making of the certification of its operating surplus, if any, for its fiscal year ending December thirty-first, nineteen hundred seventy-two and for each of its subsequent fiscal years, [Triborough] the Triborough bridge and tunnel authority, at the direction of [metropolitan transportation] the big apple transit authority, shall transfer such operating surplus (1) to the [metropolitan transportation] big apple transit authority for deposit into one or more funds or accounts to be used as contemplated by section [twelve hundred seventy-six] thirteen hundred forty-nine-dd of this article, or (2) to the authority and the [metropolitan transportation] big apple transit authority solely for application to the payment of the expenses of operation. [For purposes of determining the proportional allocation of the operating surplus as between the authority and the metropolitan transportation authority, the following formula shall apply: (i) twenty-four million dollars plus fifty percentum of the balance of such operating surplus shall be allocable to the authority, and (ii) the remainder shall be allocable to metropolitan transportation authority on behalf of
the commuter railroads operated by it, by its subsidiary corporations or
by others under joint arrangements.)

(c) The Triborough bridge and tunnel authority is authorized, at the
direction of the [metropolitan transportation] big apple transit author-
ity, from time to time to make advances from available funds on account
of the operating surplus it anticipates will or may be certified and
transferred as provided in this subdivision to (1) the [metropolitan
transportation] big apple transit authority for deposit into one or more
funds or accounts to be used as contemplated by section [twelve hundred
seventy-d] thirteen hundred forty-nine-dd of this article, or (2) the
authority and the [metropolitan transportation] big apple transit
authority solely for application to the payment of the expenses of oper-
ation. In the event that advances so made in respect of any fiscal year
including the year in which the surpluses are being earned exceed the
amounts required to be transferred to the authority and [metropolitan
transportation] the big apple transit authority pursuant to the
provisions of this subdivision, then the amount of any such excess shall
be refunded to [triborough] the Triborough bridge and tunnel authority
by the authority or [metropolitan transportation] the big apple transit
authority, as the case may be, within thirty days of the making by
[triborough] the Triborough bridge and tunnel authority of its certif-
ication of operating surplus for such fiscal year.

(d) For the purposes of this subdivision, the existence and the amount
of surplus funds and operating surplus of [triborough] the Triborough
bridge and tunnel authority shall be determined in accordance with the
provisions of subdivision twelve of section five hundred fifty-three of
this chapter.

(e) The Triborough bridge and tunnel authority shall certify to the
mayor and to the chairman of [metropolitan transportation] the big apple
transit authority within ninety days after the end of its fiscal year
ending December thirty-first, nineteen hundred sixty-seven, and within
forty-five days after the end of each of its subsequent fiscal years,
the amount of its operating surplus for that year and, in the case of
the fiscal year ending December thirty-first, nineteen hundred sixty-
seven, the amount of all of its surplus funds on hand as of the last day
of such fiscal year.

(f) No transfer of funds shall be made to the authority pursuant to
any provision of this section at any time when there shall have been
pending and not acted upon by the mayor for ninety days any request of
the authority for permission to expend or contract to expend funds for a
project included in a capital budget for transit facility purposes.
There shall be excluded from such ninety-day period any time during
which the mayor is prevented from acting by order of court or by opera-
tion of law.

[3. Notwithstanding the preceding subdivisions of this section, for
purposes of determining the proportional allocation of the operating
surplus of the Triborough bridge and tunnel authority between the
authority and the metropolitan transportation authority the following
formula shall be used: An amount equal to the debt service incurred in
such year as a result of the bonds issued to provide facilities pursuant
to paragraphs (m), (n), (o), (p) and (r) of subdivision nine of section
five hundred fifty-three of this chapter shall be added to the operating
surplus of the Triborough bridge and tunnel authority, as certified by
that authority. The sum of these figures shall then be allocated to the
authority and the commuter railroads operated by metropolitan transpor-
tation authority or by its subsidiary corporations, pursuant to the

8. No such project to be constructed upon real property theretofore used for a transit or transportation purpose, or on an insubstantial addition to such property contiguous thereto, which will not change in a material respect the general character of such prior transit or transportation use, nor any acts or activities in connection with such project, shall be subject to the provisions of article eight, nineteen, twenty-four or twenty-five of the environmental conservation law, or to any local law or ordinance adopted pursuant to any such article. (b) The authority may designate any officer or employee to open the bids at the time and place bids are to be opened and may designate an officer to award the contract to the lowest responsible bidder. Such designee shall make a record of all bids in such form and detail as the authority shall prescribe. All bidders shall be notified of the time and place of any such adjournment.

3. Notwithstanding the foregoing, the authority may, by resolution approved by a two-thirds vote, or by a majority vote with respect to contracts proposed to be let pursuant to paragraph (a) of this subdivision, declare that competitive bidding is impractical or inappropriate because of the existence of any of the circumstances hereinafter set forth and thereafter the authority may proceed to award contracts without complying with the requirements of subdivision one or two of this section. In each case where the authority declares competitive bidding impractical or inappropriate, it shall state the reason therefor in writing and summarize any negotiations that have been conducted. Except for contracts awarded pursuant to paragraphs (a), (b), (c) and (e) of this subdivision, the authority shall not award any contract pursuant to this subdivision earlier than thirty days from the date on which the authority declares that competitive bidding is impractical or inappropriate. Competitive bidding may only be declared impractical or inappropriate where:

(a) the existence of an emergency involving danger to life, safety or property requires immediate action and cannot await competitive bidding or the item to be purchased is essential to efficient operation or the adequate provision of service and as a consequence of an unforeseen circumstance such purchase cannot await competitive bidding;

(b) the item to be purchased is available only from a single responsible source, provided that if bids have not been solicited for such item pursuant to subdivision one of this section within the preceding twelve months public notice shall first be given pursuant to subdivision four of this section;

(c) the authority receives no responsive bids or only a single responsive bid in response to an invitation for competitive bids;

(d) the authority wishes to experiment with or test a product or technology or new source for such product or technology or evaluate the service or reliability of such product or technology;

(e) the item is available through an existing contract between a vendor and: (i) another public authority provided that such other authority utilized a process of competitive bidding or a process of competitive requests for proposals to award such contracts; (ii) Nassau county; (iii) the state of New York; or (iv) the city of New York, provided that in any case when under this paragraph the authority determines that obtaining such item thereby would be in the public interest and sets forth the reasons for such determination. The authority shall accept sole responsibility for any payment due the vendor as a result of the authority's order;

(f) the authority determines that it is in the public interest to award contracts pursuant to a process for competitive requests for proposals as hereinafter set forth. For purposes of this section, a process for competitive requests for proposals shall mean a method of soliciting proposals and awarding a contract on the basis of a formal evaluation of the characteristics, such as quality, cost, delivery sche-
dule and financing of such proposals against stated selection criteria. Public notice of the requests for proposals shall be given in the same manner as provided in subdivision four of this section and shall include the selection criteria. In the event the authority makes a material change in the selection criteria from those previously stated in the notice, it will inform all proposers of such change and permit proposers to modify their proposals:

(i) except for a contract with a value of one hundred million dollars or less that is awarded pursuant to this paragraph to the proposer whose proposal is the lowest cost, the authority may award a contract pursuant to this paragraph only after a resolution approved by a two-thirds vote of the board at a public meeting of the authority with such resolution:

(A) disclosing the other proposers and the substance of their proposals;

(B) summarizing the negotiation process including the opportunities, if any, available to proposers to present and modify their proposals; and

(C) setting forth the criteria upon which the selection was made provided however that for purposes of this subparagraph the board may, at its discretion, require such a resolution be approved for contracts with a value of one hundred million dollars or less:

(ii) nothing in this paragraph shall require or preclude (A) negotiations with any proposers following the receipt of responses to the request for proposals, or (B) the rejection of any or all proposals at any time. Upon the rejection of all proposals, the authority may solicit new proposals or bids in any manner prescribed in this section;

(g) the authority issues a competitive request for proposals pursuant to the procedures of paragraph (f) of this subdivision for the purchase or rehabilitation of rail cars and omnibuses. Any such request may include among the stated selection criteria the performance of all or a portion of the contract at sites within the state of New York or the use of goods produced or services provided within the state of New York, provided however that in no event shall the authority award a contract to a manufacturer whose final offer, as expressed in unit cost is more than ten percent higher than the unit cost of any qualified competing final offer, if the sole basis for such award is that the higher priced offer includes a more favorable provision for the performance of the contract within the state of New York or the use of goods produced or services provided within the state of New York, and further provided that the authority's discretion to award a contract to any manufacturer shall not be so limited if a basis for such award, as determined by the authority, is superior financing, delivery schedule, life cycle, reliability, or any other factor the authority deems relevant to its operations:

(i) except for a contract with a value of one hundred million dollars or less that is awarded pursuant to this paragraph to the proposer whose proposal is the lowest cost, the authority may award a contract pursuant to this paragraph only after a resolution approved by a vote of not less than a two-thirds vote of its members then in office at a public meeting of the authority with such resolution:

(A) disclosing the other proposers and the substance of their proposals;

(B) summarizing the negotiation process including the opportunities, if any, available to proposers to present and modify their proposals; and

(C) setting forth the criteria upon which the selection was made provided however that for purposes of this subparagraph the board may, at its discretion, require such a resolution be approved for contracts with a value of one hundred million dollars or less;
(ii) nothing in this paragraph shall require or preclude: (A) negotiations with any proposers following the receipt of responses to the request for proposals; or (B) the rejection of any or all proposals at any time. Upon the rejection of all proposals, the authority may solicit new proposals or bids in any manner prescribed in this section.

4. Upon the adoption of a resolution by the authority stating, for reasons of efficiency, economy, compatibility or maintenance reliability, that there is a need for standardization, the authority may establish procedures whereby particular supplies, materials or equipment are identified on a qualified products list. Such procedures shall provide for products or vendors to be added to or deleted from such list and shall include provisions for public advertisement of the manner in which such lists are compiled. The authority shall review such list no less than twice a year for the purpose of making such modifications. Contracts for particular supplies, materials or equipment identified on a qualified products list may be awarded by the authority to the lowest responsible bidder after obtaining sealed bids in accordance with this section or without competitive sealed bids in instances when the item is available from only a single source, except that the authority may dispense with advertising provided that it mails copies of the invitation to bid to all vendors of the particular item on the qualified products list.

5. The authority shall compile a list of potential sources of supplies, materials or equipment regularly purchased. The authority shall, by resolution, set forth the procedures it has established to identify new sources and to notify such new sources of the opportunity to bid for contracts for the purchase of supplies, materials or equipment. Such procedures shall include, but not be limited to:

(a) advertising in trade journals;
(b) cooperation with federal, state and local agencies within its area of operations;
(c) publication in the state register quarterly; and
(d) procedures established pursuant to subdivision thirteen of section thirteen hundred forty-nine-j of this title.

6. The provisions of this section shall not supersede any other provisions of law relative to purchases of products or devices manufactured or provided by the blind or other severely handicapped persons, to the invitation and acceptance of bids from small or minority business enterprises or to the purchases of supplies, materials or equipment through the office of general services. Except as may otherwise be provided by law or as more restrictively defined in the official policy or bid specifications of the authority, as used in this section the term "small business" means a small business or similar term, under federal regulations applicable to projects of the authority which are federally assisted.

7. Notwithstanding any other provisions in this section, the authority shall be allowed to use an electronic bidding system for the purchase of goods, materials, and commodities that may inform bidders whether their bid is the current low bid, and allow bidders to submit new bids before the date and time assigned for the opening of bids. Such procedure shall not constitute disclosure of bids in violation of section twenty-eight hundred seventy-eight of this chapter.

8. The provisions of this section shall not apply to any procurement made by any other public entity not otherwise required by law to award contracts for such purchases to the lowest responsible bidder if such purchases are made at the sole cost and expense of such entity.
9. (a) Whenever the comptroller pursuant to section twenty-eight hundred seventy-nine-a of this chapter intends to require supervision in the form of prior review and approval of a contract or contract amendment to be awarded by the authority pursuant to this section, then such contract or contract amendment shall be submitted to the comptroller by the authority for approval and shall not be a valid enforceable contract unless it shall first have been approved by the comptroller but only if the comptroller has notified the authority of such determination within thirty days of having received written notice of such contract or contract amendment either in the authority’s annual report or any revised report.

(b) If the comptroller has timely notified the authority as provided in paragraph (a) of this subdivision that any contract or contract amendment shall be subject to comptroller prior review and approval, and such contract or contract amendment has been submitted to the comptroller, it shall become valid and enforceable without such approval if the comptroller has not approved or disapproved it within thirty days of submission to the comptroller.

10. The award of construction contracts by the authority shall not be subject to the provisions of section one hundred one of the general municipal law.

§ 1349-g. Big apple transit authority small business mentoring program. 1. As used in this section, unless the context requires otherwise:

(a) "Small business" means a business in the construction trades which (i) is independently owned and operated; (ii) has annual revenues not exceeding a fiscal limitation of five million dollars or such lesser amount as established by the authority pursuant to these provisions; and (iii) meets additional criteria as otherwise established by the chairperson in consultation with the members of the big apple transit authority small business mentoring program advisory committee. The chair of the committee shall be the chief diversity officer of the authority. The authority shall establish a detailed definition in general and specific to different segments of the construction industry to the extent necessary to reflect differing characteristics of such segments based on the criteria used by the United States small business administration for loans to small businesses as set forth in sections 121.301, 121.302, 121.303, 121.304, and 121.305, or for awarding government procurements as set forth in sections 121.401, 121.402, 121.403, 121.404, 121.405, 121.406, 121.407, 121.408, 121.409, 121.410, 121.411, 121.412, and 121.413 of subpart A of part 121 of chapter I of title 13 of the Code of Federal Regulations as amended, and such other criteria as determined by the authority;

(b) "Small business mentoring program" means a program established by the authority pursuant to these provisions to provide small businesses accepted into the program with the opportunity:

(i) for up to four years, to compete for and, where awarded, to perform certain authority public work contracts to be designated by the authority for inclusion in this program under this subparagraph, with the assistance of an authority-provided mentor, which shall be a firm competitively selected by the authority that has extensive construction management and mentoring experience, with the mentor to provide the small business with advice and assistance in competing for and managing authority public work contracts; and

(ii) for a small business mentoring program participant which the authority has determined has successfully completed the program under
subparagraph (i) of this paragraph, for up to four additional years, (A)
additional opportunities to compete with other designated small busi-
nesses in the program for certain public work contracts to be designated
for inclusion under this subparagraph and, where awarded, to perform
such authority public work contracts, with the further assistance of an
authority-provided mentor, which shall be a firm competitively selected
by the authority that has extensive construction management and mentor-
ing experience, with the mentor to provide the small business with
advice and technical assistance in competing for and managing authority
public work contracts, and (B) authority-provided assistance, as deter-
mined by the authority, for such a small business to obtain bonding for
public work contracts that are competitively awarded pursuant to
provisions of law other than this section.
(c) "Small business mentoring program contract" means a non-federally
funded authority public work contract designated by the authority, in an
estimated amount of not more than one million dollars for contracts
under subparagraph (i) of paragraph (b) of this subdivision and three
million dollars for contracts under subparagraph (ii) of paragraph (b)
of this subdivision, for which bids or proposals are to be invited and
accepted only from businesses that are enrolled in the small business
mentoring program and have been selected by the authority to compete for
the contract.
2. (a) The authority may establish a small business mentoring program.
In connection therewith, the authority may determine the criteria pursu-
ant to which a small business shall be eligible for and selected to
participate in the program under subparagraphs (i) and (ii) of paragraph
(b) of subdivision one of this section, the number of participants to
participate in each of such components of the program, the criteria for
the competitive selection of the firms that will provide small busi-
nesses with mentoring services, the assignment of a mentor to a specific
small business in the small business mentoring program, and the funding
for the program.
(b) Under the small business mentoring program, the chairperson or the
chairperson's designee is authorized, notwithstanding any other
provision of law:
(i) to designate which eligible public work contracts shall be small
business mentoring program contracts under subparagraphs (i) and (ii) of
paragraph (b) of subdivision one of this section, respectively;
(ii) to establish standards for qualifying small business mentoring
program participants to compete for a small business mentoring program
contract, provided that no less than three qualified small businesses in
the program must submit responsive offers to perform the contract;
(iii) to determine when bids or proposals for a small business mentor-
ing program contract should be restricted to small business mentoring
program participants which, prior to the receipt of bids or proposals,
have been qualified by the authority for such competition;
(iv) to competitively select, designate and contract with one or more
experienced construction management firms that, under the general super-
vision of the authority, will provide mentoring services to the small
businesses participating in the small business mentoring program, and to
assign such mentors one or more designated small businesses participat-
ing in the program;
(v) for small business mentoring program contracts, except as set
forth herein, to waive requirements for the solicitation and award of a
public work contract pursuant to sections twelve hundred nine, thirteen
hundred forty-nine and twenty-eight hundred seventy-nine of this chapter and any other provision of law;

(vi) to assist only small business mentoring program participants that have been awarded small business mentoring program contracts to obtain any surety bond or contract of insurance required of them in connection with such contract only notwithstanding any provision of section two thousand five hundred four of the insurance law to the contrary; and
(vii) for small businesses that have been accepted into the small business mentoring program under subparagraph (ii) of paragraph (b) of subdivision one of this section, in addition to the benefits of such program and notwithstanding any other provision of law, to provide technical assistance in obtaining bids, payment and performance bonding for authority public work contracts that are not small business mentoring program contracts, for which the small business is otherwise qualified.

3. (a) If the total number of qualified small business mentoring program participants that respond to a competition and are considered capable of meeting the specifications and terms of the invitation to compete is less than three, or if the chairperson or the chairperson’s designee determines that acceptance of the best offer will result in the payment of an unreasonable price, the authority may reject all offers and withdraw the designation of the contract as a small business mentoring program contract.

(b) If the authority withdraws the designation of contract as a small business mentoring program contract, the firms, if any, that made offers shall be notified. Invitations to compete containing the same or rewritten specifications and terms shall then be re-issued as a small business mentoring program contract for one or more additional contract period.

4. A mentor shall provide services and assistance to a small business as designated by the authority, which may include the following:
(a) provide business training in the skills necessary to operate a successful construction business and to compete for and perform a public work contract;
(b) provide technical assistance to the small business to assess the outcome if the small business competes for but is not awarded a contract;
(c) if the small business mentoring program contract is awarded to the small business, provide guidance, advice and technical assistance to the small business in the performance of the contract; and
(d) provide other technical assistance to the small business to facilitate learning, training and other issues which may arise.

5. The authority may delegate to the chairperson or the chairperson’s designee, the authority’s responsibilities set forth in this title.

6. The small business mentoring program contracts authorized by this legislation shall, for the initial year of the program, be in an aggregate amount of not less than ten million dollars, and shall not exceed one hundred million dollars, with the maximum amount in future years to be set by the chairperson.

§ 1349-h. Special powers of the authority. In order to effectuate the purposes of this title:
1. The authority may acquire, by purchase, gift, grant, transfer, contract or lease, any transportation facility, wholly or partially within the city, or any part thereof, or the use thereof, and may enter into any joint service arrangements as hereinafter provided. Any such acquisition or joint service arrangement shall be authorized only by resolution of the authority approved by not less than a majority vote.
2. The authority may on such terms and conditions as the authority may determine necessary, convenient or desirable itself plan, design, acquire, establish, construct, effectuate, operate, maintain, renovate, improve, extend, rehabilitate or repair any transportation facility, or may provide for such planning, design, acquisition, establishment, construction, effectuation, operation, maintenance, renovation, improvement, extension, rehabilitation or repair by contract, lease or other arrangement on such terms as the authority may deem necessary, convenient or desirable with any person, including but not limited to any common carrier or freight forwarder, the state, any state agency, the federal government, any other state or agency or instrumentality thereof, any public authority of this or any other state, the port of New York, any political subdivision or municipality of the state. In connection with the operation of any transportation facility, the authority may plan, design, acquire, establish, construct, effectuate, operate, maintain, renovate, improve, extend or repair or may provide by contract, lease or other arrangement for the planning, design, acquisition, establishment, construction, effectuation, operation, maintenance, renovation, improvement, extension or repair of any related services and activities it deems necessary, convenient or desirable, including but not limited to the transportation and storage of freight and the United States mail, feeder and connecting transportation, parking areas, transportation centers, stations and related facilities.

3. (a) Except as directed in paragraph (c) of this subdivision, the authority shall establish, levy and collect or cause to be established, levied and collected and, in the case of a joint service arrangement, join with others in the establishment, levy and collection of such fares, tolls, rentals, rates, charges and other fees necessary for the use and operation of any transportation facility and related services operated by the authority or by a subsidiary corporation of the authority or under contract, lease or other arrangement, including joint service arrangements, with the authority. Any such fares, tolls, rentals, rates, charges or other fees for the transportation of passengers shall be established and changed only if approved by resolution of the authority adopted by not less than a majority vote and only after a public hearing, provided however, that fares, tolls, rentals, rates, charges or other fees for the transportation of passengers on any transportation facility which are in effect at the time that the then owner of such transportation facility becomes a subsidiary corporation of the authority or at the time that operation of such transportation facility is commenced by the authority or is commenced under contract, lease or other arrangement, including joint service arrangements, with the authority may be continued in effect without such a hearing. Such fares, tolls, rentals, rates, charges and other fees shall be established as may in the judgment of the authority be necessary to maintain the combined operations of the authority and its subsidiary corporations on a self-sustaining basis and to ensure that the operations of the authority are such that, at the end of the fiscal year, the results thereof shall not show a deficit when reported in accordance with generally accepted accounting principles unless such deficit is offset by funds withdrawn from reserves therefor. The said operations shall be deemed to be on a self-sustaining basis as required by this title, when the authority is able to pay or cause to be paid from revenue and any other funds or property actually available to the authority and its subsidiary corporations (i) as the same shall become due, the principal of and
interest on the bonds and notes and other obligations of the authority
and its subsidiaries, and the metropolitan transportation authority,
together with the maintenance of proper reserves therefor, (ii) the cost
and expense of keeping the properties and assets of the authority and
its subsidiary corporations in good condition and repair, and (iii) the
capital and operating expenses of the authority and its subsidiary
corporations. The authority may contract with the holders of bonds and
notes with respect to the exercise of the powers authorized by this
section. No acts or activities taken or proposed to be taken by the
authority or any subsidiary of the authority pursuant to the provisions
of this subdivision shall be deemed to be "actions" for the purposes or
within the meaning of article eight of the environmental conservation
law.

(b) All fares, tolls, rentals, rates, charges, and other fees estab-
lished, levied, and collected or caused to be established, levied, and
collected by the authority and its affiliates, shall first be trans-
ferred to the metropolitan transportation authority in order to maintain
the metropolitan transportation authority on a self-sustaining basis
unless already pledged to secure, and necessary to satisfy the debt
service or reserve requirements of, bonds, notes or other obligations of
the New York city transit authority or the Triborough bridge and tunnel
authority prior to January first, two thousand twenty-two.

(c) In the event that the monthly revenues of the metropolitan trans-
portation authority fall below one hundred twenty-five percent of the
amount necessary to maintain the operations of the metropolitan trans-
portation authority on a self-sustaining basis, as defined by section
twelve hundred sixty-six of this article, the authority shall, at the
direction of the metropolitan transportation authority, establish, levy
and collect or cause to be established, levied and collected, in the
case of a joint service arrangement, and join with others in the estab-
ishment, levy and collection of such fares, tolls, rentals, rates, charges
and other fees as the metropolitan transportation authority may
deed necessary, convenient or desirable for the use and operation of any
transportation facility and related services operated by the authority
or by a subsidiary corporation of the authority or under contract, lease
or other arrangement, including joint service arrangements, with the
authority, until such time that monthly revenues of the metropolitan
transportation authority has exceeded, for three consecutive months, two
hundred percent of the amount necessary to maintain the monthly oper-
ations of the metropolitan transportation authority on a self-sustaining
basis.

4. In furtherance of the authority's mandate to develop and implement
a unified mass transportation policy for the city and the exercise of
its powers, including the power to issue notes, bonds and other obli-
gations secured in whole or in part by the revenues of the authority and
its subsidiaries, and New York city transit authority and its subsidi-
iaries, the authority shall join with the New York city transit authori-
ty and its subsidiaries in connection with any change in the establish-
ment, levy and collection of fares, tolls, rentals, rates, charges and
other fees for the transportation of passengers on any transportation
facilities operated by New York city transit authority and its subsid-
iaries. Such fares, tolls, rentals, charges and other fees on transit
facilities shall be established in accordance with the requirements of
sections twelve hundred five and twelve hundred seven-i of this article.

5. The authority may establish and, in the case of joint service
arrangements, join with others in the establishment of such schedules
and standards of operations and such other rules and regulations includ-
ing but not limited to rules and regulations governing the conduct and
safety of the public as it may deem necessary, convenient or desirable
for the use and operation of any transportation facility and related
services operated by the authority or under contract, lease or other
arrangement, including joint service arrangements, with the authority.
In the case of any conflict between any such rule or regulation of the
authority governing the conduct or the safety of the public and any
local law, ordinance, rule or regulation, such rule or regulation of the
authority shall prevail. Violation of any such rule or regulation of
the authority governing the conduct or the safety of the public in or
upon any facility of the authority shall constitute an offense and shall
be punishable by a fine not exceeding fifty dollars or imprisonment for
not more than thirty days or both or may be punishable by the imposition
of a civil penalty by the transit adjudication bureau established pursu-
ant to the provisions of title nine of this article.

6. The authority may acquire, hold, own, lease, establish, construct,
effectuate, operate, maintain, renovate, improve, extend or repair any
transportation facilities through, and cause any one or more of its
powers, duties, functions or activities to be exercised or performed by,
one or more wholly owned subsidiary corporations of the authority, or by
New York city transit authority or any of its subsidiary corporations in
the case of transit facilities and may transfer to or from any such
corporations any moneys, real property or other property for any of the
purposes of this title upon such terms and conditions as shall be agreed
to and subject to such payment or repayment obligations as are required
by law or by any agreement to which any of the affected entities is
subject. The directors or members of each such subsidiary corporation of
the authority corporation shall be the same persons holding the offices
of members of the authority. The chairperson of the board of each such
subsidiary shall be the chairperson of the authority, serving ex officio
and, provided that there is an executive director of the big apple tran-
sit authority, the executive director of such subsidiary shall be the
executive director of the big apple transit authority, serving ex offi-
cio. Notwithstanding any provision of law to the contrary, the chair-
person shall be the chief executive officer of each such subsidiary and
shall be responsible for the discharge of the executive and administra-
tive functions and powers of each such subsidiary. The chairperson and
executive director, if any, shall be empowered to delegate his or her
functions and powers to one or more officers or employees of each such
subsidiary designated by him or her. Each such subsidiary corporation of
the authority and any of its property, functions and activities shall
have all of the privileges, immunities, tax exemptions and other
exemptions of the authority and of the authority’s property, functions
and activities. Each such subsidiary corporation shall be subject to the
restrictions and limitations to which the authority may be subject. Each
such subsidiary corporation of the authority shall be subject to suit in
accordance with section thirteen hundred forty-nine-mm of this title.
The employees of any such subsidiary corporation, except those who are
also employees of the authority, shall not be deemed employees of the
authority.

7. If the authority shall determine that one or more of its subsidiary
corporations should be in the form of a public benefit corporation, it
shall create each such public benefit corporation by executing and
filing with the secretary of state a certificate of incorporation, which
may be amended from time to time by filing, which shall set forth the
name of such public benefit subsidiary corporation, its duration, the
location of its principal office, and any or all of the purposes of
acquiring, owning, leasing, establishing, constructing, effectuating,
operating, maintaining, renovating, improving, extending or repairing
one or more facilities of the authority. Each such public benefit
subsidiary corporation shall be a body politic and corporate and shall
have all those powers vested in the authority by the provisions of this
title which the authority shall determine to include in its certificate
of incorporation except the power to contract indebtedness.

8. Whenever any state, political subdivision, municipality, commis-
sion, agency, officer, department, board, division or person is author-
ized and empowered for any of the purposes of this title to co-operate
and enter into agreements with the authority such state, political
subdivision, municipality, commission, agency, officer, department,
board, division or person shall have the same authorization and power
for any of such purposes to co-operate and enter into agreements with a
subsidiary corporation of the authority.

9. Each of the authority and its subsidiaries, and the New York city
transit authority and its subsidiaries, in its own name or in the name
of the city, may apply for and receive and accept grants of property,
money and services and other assistance offered or made available to it
by any person, government or agency, which it may use to meet capital or
operating expenses and for any other use within the scope of its powers,
and to negotiate for the same upon such terms and conditions as the
respective authority may determine to be necessary, convenient or desir-
able.

10. Subject to the rights of the holders of any outstanding bonds,
notes or other obligations of the authority, New York city transit
authority and Triborough bridge and tunnel authority, and to facilitate
the efficient financial management of the authority, its subsidiary
corporations, New York city transit authority and its subsidiary corpo-
rations, and Triborough bridge and tunnel authority (the "affiliated
entities"), the authority may, and may permit and direct any affiliated
entity to, transfer revenues, subsidies and other monies or securities
to one or more funds or accounts of another affiliated entity for use by
such other affiliated entity, provided at the time of such transfer it is reasonably anticipated that the monies and securities so transferred
will be reimbursed, repaid or otherwise provided for by the end of the
next succeeding calendar year if reimbursement or repayment is required
by law or by any agreement to which any of the affected affiliated enti-
ties is subject. Any revenues of an affiliated entity that are trans-
ferred to another affiliated entity, which transfer was not authorized
by a provision of law other than this subdivision, shall be considered
to be required to be repaid to the affiliated entity which was the
source of such revenues by the end of the next succeeding calendar year
following such transfer.

11. The authority may lease railroad cars for use in its passenger
service pursuant to the provisions of chapter six hundred thirty-eight
of the laws of nineteen hundred fifty-nine.

12. The authority may do all things it deems necessary, convenient or
desirable to manage, control and direct the maintenance and operation of
transportation facilities, equipment or real property operated by or
under contract, lease or other arrangement with the authority and its
subsidiaries, and New York city transit authority and its subsidiaries.
Except as hereinafter specially provided, no municipality or political
subdivision other than the city of New York, including but not limited
to a county, city, village, town or school or other district shall have jurisdiction over any facilities of the authority and its subsidiaries, and New York city transit authority and its subsidiaries, or any of their activities or operations. The local laws, resolutions, ordinances, rules and regulations of a municipality or political subdivision, here-tofore or hereafter adopted, conflicting with this title or any rule or regulation of the authority or its subsidiaries, or New York city transit authority or its subsidiaries, shall not be applicable to the activities or operations of the authority and its subsidiaries, and New York city transit authority, or the facilities of the authority and its subsidiaries, and New York city transit authority and its subsidiaries, except such facilities that are devoted to purposes other than transportation or transit purposes. Each municipality or political subdivision, including but not limited to a county, city, village, town or district in which any facilities of the authority or its subsidiaries, or New York city transit authority or its subsidiaries are located shall provide for such facilities police, fire and health protection services of the same character and to the same extent as those provided for residents of such municipality or political subdivision.

13. The jurisdiction, supervision, powers and duties of the department of transportation of the state under the transportation law shall not extend to the authority in the exercise of any of its powers under this title. The authority may agree with such department for the execution by such department of any grade crossing elimination project or any grade crossing separation reconstruction project along any railroad facility operated by the authority or by one of its subsidiary corporations or under contract, lease or other arrangement with the authority. Any such project shall be executed as provided in article ten of the transportation law and the railroad law, respectively, and the costs of any such project shall be borne as provided in such laws, except that the authority's share of such costs shall be borne by the state.

14. Notwithstanding the provisions of any other law, general, special or local, or of any agreement entered into in pursuance thereof, relating to the repayment of any loan or advance made by the city or the state to the authority or to the New York city transit authority, neither the authority nor the New York city transit authority shall be required to repay any such loan or advance heretofore made from or by reason of the issuance of bonds or notes of either of them or from the proceeds realized upon such issuance or from any other funds received by either of them from any source whatever in aid or assistance of the project or projects for the financing of which such bonds or notes are issued.

15. No project to be constructed upon real property theretofore used for a transportation purpose, or on an insubstantial addition to such property contiguous thereto, which will not change in a material respect the general character of such prior transportation use, nor any acts or activities in connection with such project, shall be subject to the provisions of article eight, nineteen, twenty-four, or twenty-five of the environmental conservation law, or to any local law or ordinance adopted pursuant to any such article. Nor shall any acts or activities taken or proposed to be taken by the authority or by any other person or entity, public or private, in connection with the planning, design, acquisition, improvement, construction, reconstruction or rehabilitation of a transportation facility, other than a marine or aviation facility, be subject to the provisions of article eight of the environmental conservation law, or to any local law or ordinance adopted pursuant to.
any such article if such acts or activities require the preparation of a
statement under or pursuant to any federal law or regulation as to the
environmental impact thereof.
16. The authority may, upon suitable notice to and an offer to consult
with an officer designated by the city of New York, occupy the streets
of the city of New York for the purpose of doing any work over or under
the same in connection with the improvement, construction, recon-
struction or rehabilitation of a transportation facility without the
consent of or payment to such city.
17. The authority and each of its subsidiary corporations shall place
on each transformer and substation which contains polychlorinated biphe-
yls a symbol so indicating the presence of polychlorinated biphenyls.
Use of a polychlorinated biphenyl mark illustrated in the rules and
regulations promulgated pursuant to the federal Toxic Substances Control

18. (a) Notwithstanding any other provisions of law or the terms of
any contract, the authority shall establish and implement a no fare
program for transportation for individuals serving as personal care
attendants accompanying an Americans with Disabilities Act paratransit

(b) In order to be eligible for such no fare program the personal care

shall have the same origin and destination as such paratransit eligible

in first aid, emergency techniques and procedures, handling and posi-

used for respiratory and cardiac emergencies. Such program shall be
submitted to the legislature not later than one hundred eighty days
after the effective date of this section.
§ 1349-j. Transit projects. 1. Subject to the provisions of this
section, the authority is hereby authorized, upon the request of the New
York city transit authority and upon such terms and conditions as shall
be agreed to by the authority (a) to plan, design, acquire, construct,
reconstruct, rehabilitate and improve facilities, equipment, devices and
appurtenances, and property or property rights constituting or to
constitute part of, or used or to be used in connection with the opera-
tion of any transit facility now or hereafter owned or operated by the
New York city transit authority or any of its subsidiaries, each of such
activities and programs being referred to in this section as a "transit project"; (b) to finance the costs of a transit project by the issuance of its notes, bonds or lease obligations; and (c) upon the completion of any transit project or part thereof, to cause the same to be transferred, leased or subleased to the New York city transit authority or its designated subsidiary or other designee, for consideration. The terms "facilities", "equipment", "devices and appurtenances", "property" or "property rights" and "transit facility" shall have the meanings given to such terms in section twelve hundred of this article. The authority shall have no obligation to operate or, except as may otherwise be provided in any lease to which it may be a party as hereinafter provided, repair or maintain any transit project or part thereof subsequent to its completion nor shall it be liable to the transferee, lessee or sublessee by reason of any warranty, express or implied, in respect thereof. Warranties furnished in connection with such transit project shall be assignable and assigned as directed by the New York city transit authority and approved by the authority.

2. In connection with any transit project, and in order to effectuate the purposes of this section, the authority shall, subject to the provisions of this section, have all of the powers provided elsewhere in this title, and, in addition, the authority may:

(a) issue its notes or bonds to finance all or any part of the costs of a transit project;

(b) finance all or any part of the costs to the authority or to any other person or entity, public or private, of such transit project through, or accompanied by, a leasing of such project or any part thereof by such person or entity to the authority or through or accompanied by a sale by the authority to any such person or entity and leaseback to the authority, in each case for subleasing to the New York city transit authority, its designated subsidiary or other designee for consideration, except that such leasing or leaseback from such person or entity may be made directly to the New York city transit authority or its designated subsidiary or other designee with the consent of the authority;

(c) issue its notes or bonds to defease the lien of, refund or otherwise repay any outstanding notes, bonds or other obligations of the New York city transit authority which in the judgment of the authority would otherwise delay, impede or prevent its financing a transit project;

(d) accept the notes, bonds, lease, sublease and other contractual obligations of the New York city transit authority and any of its designated subsidiaries in payment for a transfer, lease or sublease of a transit project;

(e) accept from the New York city transit authority or its designated subsidiary or from the city of New York, acting by its mayor alone, a transfer of title to or the use, occupancy, control or possession of any real or personal property (or any interest therein) needed or useful for or in connection with any transit project;

(f) obtain security for the payment by the New York city transit authority or its designated subsidiary of its notes, bonds, lease, sublease or other contractual obligations, including a pledge of all or any part of any of their revenues, which pledge may contain covenants with respect to the charging and fixing of fares, fees and rentals, the use and disposition of such fares, fees, rentals and other revenues, and the setting aside of reserves therefrom;
(g) with the consent of the New York city transit authority or its designated subsidiary, use, with or without compensation, its agents, employees and facilities; and
(h) apply for, accept, enter into contracts for, administer and disburse any federal, state or local aid or assistance, subject to the terms and conditions thereof, which may be available for any transit project.

3. All of the provisions of this title not inconsistent with the provisions of this section shall be applicable with respect to any bonds, notes or lease obligations of the authority issued or entered into to finance any transit project, or to defease the lien of, refund or otherwise repay outstanding bonds, notes or other obligations of the New York city transit authority, subject to the following conditions:
   (a) such bonds and notes shall be payable as to principal, redemption premium, if any, and interest and such other obligations shall be payable, all in the manner more particularly provided by the authority in the resolution under which the same shall be authorized to be issued;
   (b) such lease obligations shall be non-recourse obligations limited to the recovery of the leased property by the lessor and as to the payments of sums of money coming due thereunder, to proceedings against the sublessee under any underlying sublease or pursuant to any pledge or assignment given to secure sums payable under such underlying sublease;
   (c) no bonds or notes of the authority shall be issued for the purpose of defeasing the lien of, refunding or otherwise repaying outstanding bonds, notes or other obligations of the New York city transit authority unless (i) the city of New York shall have entered into an agreement on terms satisfactory to the authority to make periodic payments to the New York city transit authority, and (ii) the New York city transit authority shall have entered into an agreement on terms satisfactory to the authority to make periodic payments to the authority, in each case sufficient to pay, when due, the principal, redemption premium, if any, and interest upon the bonds or notes of the authority issued to effect such defeasance, refunding or repayment;
   (d) notwithstanding and in addition to any provisions for the redemption of such bonds or notes which may be contained in any contract with the holders thereof, the city of New York may, upon furnishing sufficient funds therefor, require the authority to redeem as a whole any issue of such bonds or notes at the time or times and at the place or places and in accordance with the terms upon which such bonds or notes are redeemable; and
   (e) the city of New York shall not be liable on such bonds or notes, and such bonds or notes shall not be a debt of the city of New York, and shall contain on the face thereof a statement to such effect.

4. The authority shall not undertake any transit project unless the New York city transit authority or the subsidiary for whose benefit the transit project is to be undertaken, or both, shall pay or agree to pay, in the form of a bond, note, lease, sublease or other contractual obligation, in a manner and on terms and conditions satisfactory to the authority, any portion of the costs to the authority of such transit project and the financing thereof which is not paid to the authority from any federal, state or local aid or assistance or which is not payable from any other moneys made available or payable to the authority by others for such project.

5. Neither the provisions of section one hundred ninety-seven-c of the New York city charter, relating to a uniform land use review procedure, nor the provisions of any other local law of the city of New York of
like or similar tenor or import shall apply (a) to the acquisition of any real property, or any interest therein, for the purposes of any transit project by the city or by the New York city transit authority or any of its subsidiaries; (b) to the subsequent transfer of any real property (or interest therein) so acquired to the authority or its designee for the purposes of such project or to the transfer to the authority or its designee for such purposes of any real property (or interest therein) then owned by the city or by the New York city transit authority or any such subsidiary; nor (c) to the transfer to the authority or its designee for such purposes of the right of use, occupancy, control or possession of any real property (or interest therein), whether presently owned or hereafter acquired by the city or by the New York city transit authority or any such subsidiary; provided in each such case, however, that if at the time of such proposed acquisition or transfer the real property which is the subject of such acquisition or transfer is not then being utilized for a transit or transportation purpose or is not an insubstantial addition to such property contiguous thereto; (i) the authority proposing to acquire or receive such property shall, unless a submission with respect to such property has previously been made and approved as herein provided, submit to the community board for the community district in which such property is located, data with respect to the proposed use of such property and to the design of any facility proposed to be constructed thereon; (ii) such community board shall inform the council of the city of New York, with copies to the city planning commission of the city of New York and the proposing authority, of its views and recommendations with respect thereto within forty-five days of such submission, and if the community board shall fail to so inform such council within such period it shall be deemed to have recommended the proposal; and (iii) such council shall, within forty-five days of the recommendation of the community board, approve or disapprove such acquisition or transfer, and if such council shall fail to act within such period it shall be deemed to have approved the same.

6. In its performance of any transit project, the authority shall not be deemed the agent or instrumentality of the city of New York or the New York city transit authority or any of its subsidiaries notwithstanding the fact that title to any real or personal property (or any interest therein) which is the subject of or is a part of such project is held by or upon completion of such project is to be transferred to such other entity. In its performance of any transit project, however, the provisions of section twelve hundred nine of this article shall apply to the authority as if it were the authority referred to in such section.

7. The authority, in addition to the powers provided elsewhere in this title, shall possess all of the powers, rights and privileges of the New York city transit authority or its designated subsidiary in connection with the undertaking by the authority of any transit project. The authority, upon suitable notice to and an offer to consult with an officer designated by the city of New York, may occupy the streets of the city of New York for the purpose of doing any work over or under the same in connection with any transit project without the consent of or payment to such city.

8. After the transfer, transfer back, lease or sublease to the New York city transit authority or its designated subsidiary or other designee of any transit project or part thereof, actions for damages for injuries to real or personal property or for the destruction thereof, or for personal injuries or death, based upon the use, condition or state of such project or part thereof may not be instituted against the
authority, which shall have no liability or responsibility to the trans-
feree, lessee or sublessee or to third parties therefor.

9. Except as the authority shall otherwise agree, title to any transit project or any part thereof or interest therein which shall have been transferred, leased, or subleased to the New York city transit authority or its designated subsidiary, shall remain in such transferee, lessee, or sublessee notwithstanding any provision of title nine of this article or of any lease or other agreement entered into under the provisions of such title to the contrary.

10. The providing of any transit project shall not relieve the city of New York of its obligations under law and by lease to pay the capital costs of the New York city transit authority or its subsidiaries.

11. No transit project to be constructed upon real property to be used for a transit or transportation purpose, or on an insubstantial addition to such property contiguous thereto, which will not change in a material respect the general character of such prior transit or transportation use, or any acts or activities in connection with such project, shall be subject to the provisions of article eight, nineteen, twenty-four or twenty-five of the environmental conservation law, or to any local law or ordinance adopted pursuant to any such article. Nor shall any trans- it project or any acts or activities in connection therewith taken by any person or entity, public or private, pursuant to this section be subject to the provisions of article eight of the environmental conser- vation law if such project, acts or activities require the preparation of a statement under or pursuant to any federal law or regulation as to the environmental impact thereof.

12. The provisions of this section and of all agreements undertaken by the New York city transit authority in accordance therewith shall in all respects be subject to the rights of the holders of any outstanding bonds or notes of such authority.

13. (a) All contracts for design, construction, services and materials pursuant to this title of whatever nature and all documents soliciting bids or proposals therefor shall contain or make reference to the following provisions:

(i) The contractor will not discriminate against employees or appli- cants for employment because of race, creed, color, national origin, sex, age, disability, or marital status, and will undertake or continue existing programs of affirmative action to ensure that minority group persons and women are afforded equal opportunity without discrimination. Such programs shall include, but not be limited to, recruitment, employ- ment, job assignment, promotion, upgrading, demotion, transfer, layoff, termination, rates of pay or other forms of compensation, and selections for training or retraining, including apprenticeship and on-the-job training.

(ii) At the request of the New York city transit authority, the big apple transit authority, and their subsidiaries, the contractor shall request each employment agency, labor union, or authorized represen- tative of workers with which it has a collective bargaining or other agreement or understanding and which is involved in the performance of the contract with the authority to furnish a written statement that such employment agency, labor union or representative shall not discriminate because of race, creed, color, national origin, sex, age, disability or marital status and that such union or representative will cooperate in the implementation of the contractor's obligations under this section.

(iii) The contractor will state, in all solicitations or advertise- ments for employees placed by or on behalf of the contractor in the
performance of the contract with the authority, that all qualified applicants will be afforded equal employment opportunity without discrimination because of race, creed, color, national origin, sex, age, disability or marital status.

(iv) The contractor will include the provisions of subparagraphs (i), (ii), and (iii) of this paragraph in every subcontract or purchase order in such a manner that such provisions will be binding upon each subcontractor or vendor as to its work in connection with the contract with the authority.

(b) The authority shall establish procedures and guidelines to ensure that contractors and subcontractors undertake programs of affirmative action and equal employment opportunity as required by this subdivision. Such procedures may require after notice in a bid solicitation, the submission of an affirmative action program prior to the award of any contract, or at any time thereafter, and may require the submission of compliance reports relating to the operation and implementation of any affirmative action program adopted pursuant to this section. The authority may take appropriate action including contractual sanctions for non-compliance to effectuate the provisions of this subdivision and shall be responsible for monitoring compliance with this title.

14. (a)(i) In the performance of projects pursuant to this title minority and women-owned business enterprises shall be given the opportunity for meaningful participation. The authority provided for in this title shall establish measures and procedures to secure meaningful participation and identify those contracts and items of work for which minority and women-owned business enterprises may best bid to actively and affirmatively promote and assist their participation in the projects, so as to facilitate the award of a fair share of contracts to such enterprises; provided, however, that nothing in this title shall be construed to limit the ability of the authority to assure that qualified minority and women-owned business enterprises may participate in the program.

(A) For purposes of this section, minority business enterprise shall mean any business enterprise which is at least fifty-one per centum owned by, or in the case of a publicly owned business, at least fifty-one per centum of the stock of which is owned by citizens or permanent resident aliens who are African-American, Hispanic, Asian or American Indian, Pacific Islander or Alaskan natives and such ownership interest is real, substantial and continuing and have the authority to independently control the day to day business decisions of the entity for at least one year; and women-owned business enterprise shall mean any business enterprise which is at least fifty-one per centum owned by, or in the case of a publicly owned business, at least fifty-one per centum of the stock of which is owned by citizens or permanent resident aliens who are women, and such ownership interest is real, substantial and continuing and have the authority to independently control the day to day business decisions of the entity for at least one year.

(B) The provisions of this paragraph shall not be construed to limit the ability of any minority or women-owned business enterprise to bid on any contract.

(ii) In the implementation of this subdivision, the authority shall consider compliance by any contractor with the requirements of any federal, state, or local law concerning minority and women-owned business enterprises, which may effectuate the requirements of this subdivision. If the authority determines that by virtue of the imposition of the requirements of any such law, in respect to capital project
contracts, the provisions thereof duplicate or conflict with such law, the authority may waive the applicability of this subdivision to the extent of such duplication or conflict.

(iii) Nothing in this subdivision shall be deemed to require that overall state and federal requirements for participation of minority and women-owned business enterprises in programs authorized under this title be applied without regard to local circumstances to all projects or in all communities.

(b) In order to implement the requirements and objectives of this subdivision, the authority shall establish procedures to monitor the contractors’ compliance with provisions hereof, provide assistance in obtaining competing qualified minority and women-owned business enterprises to perform contracts proposed to be awarded, and take other appropriate measures to improve the access of minority and women-owned business enterprises to these contracts.

15. (a) In connection with the performance of projects pursuant to this section, the authority shall, to the extent practicable and not inconsistent with any federal law, regulation or requirement, promote the meaningful participation of small business and New York state business enterprises in the provision of goods and services that are produced or manufactured in New York state as part of procurements undertaken by the authority.

(b) The authority shall within one hundred eighty days after the effective date of this subdivision develop, and review annually thereafter, a plan to effect the purposes of this subdivision.

§ 1349-k. Excess loss fund. 1. Subject to the provisions of this section, the authority is authorized to issue bonds and notes, in accordance with section thirteen hundred forty-nine-u of this title, in such principal amounts not in excess of the seventy-five million dollar limitation established in subdivision four of this section as, in the opinion of the authority, shall be necessary to provide sufficient funds to meet the capital and reserve requirements of a trust, pooling arrangement or other entity established for the purpose of providing reimbursement and funding to the authority and its subsidiaries, the New York city transit authority and its subsidiaries and Triborough bridge and tunnel authority for excess or extraordinary losses for damages to real or personal property or for the destruction thereof or for personal injuries or death and for certain property damage losses which may be incurred or sustained by any of them in connection with the use and operation of their respective facilities and in the conduct of their respective activities, the trust, pooling arrangement or other entity established in order to provide such benefits to such participants being referred to in this section as the "excess loss fund". Prior to the issuance of any bonds or notes, other than refunding bonds or notes, authorized by this section, the authority shall make a finding that such issue is expected to result, on a present value basis, in a lower effective cost to the participating authorities than funding the requirements of the excess loss fund solely through the payment of premiums and assessments by such participating authorities.

2. In order to effectuate the purposes of the excess loss fund, the authority shall, subject to the provisions of this section, have all the powers provided elsewhere in this title and may:

(a) accept the notes, bonds and other contractual obligations of the excess loss fund for funds provided to it by the authority;

(b) obtain security for the payment by the excess loss fund of its notes, bonds and other contractual obligations issued to the authority,
including a pledge of all or any part of the assets and revenues of the
excess loss fund, including its receipts and rights to receive premiums,
assessments, reimbursements and other payments from the participants in
the excess loss fund, which pledge may contain covenants with respect to
the charging and fixing by actuarial estimates, where appropriate, of
premiums, assessments, reimbursements and other payments and the use and
disposition thereof; and

(c) enter into contracts with the excess loss fund and with the
participants therein, on such terms and conditions as the parties may
agree, with respect to the payment of premiums, assessments, reimburse-
ments and other payments to the excess loss fund and the nature and
extent of the benefits to be paid by the excess loss fund to such
participants.

3. The bonds and notes of the authority authorized by this section
shall not constitute general obligations of the authority, but shall be
special obligations of the authority payable as to principal, redemption
premium, if any, and interest solely from the security, sources of
payment and funds obtained from or on behalf of the excess loss fund,
all in the manner more particularly provided by the authority in the
resolution under which such bonds and notes shall be authorized to be
issued.

4. The aggregate principal amount of bonds and notes issued for the
purposes enumerated in subdivision one of this section shall not exceed
seventy-five million dollars, excluding:

(a) bonds and notes issued to fund costs of issuance and any reason-
ably required debt service reserve fund for such bonds or notes;

(b) an amount equal to any original issue discount from the principal
amount of any bonds or notes issued; and

(c) bonds and notes issued to refund or otherwise repay bonds or notes
therefore issued for such purposes, provided, however, that upon any
such refunding or repayment of the total aggregate principal amount of
outstanding bonds and notes, including for purpose of such calculation
the principal amount of the refunding bonds or notes then to be issued
and excluding the principal amount of the bonds or notes so to be
refunded or repaid and any amounts excluded under paragraph (a) or (b)
of this subdivision, may be greater than seventy-five million dollars,
only if the present value of the aggregate debt service of the refunding
or repayment bonds or notes to be issued shall not exceed the present
value of the aggregate debt service of the bonds or notes so to be
refunded or repaid. For purposes of this subparagraph, the present
values of the aggregate debt service of the refunding or repayment bonds
or notes and of the aggregate debt service of the bonds or notes so to be
refunded or repaid, shall be calculated by utilizing the effective
interest rate of the refunding or repayment bonds or notes, which shall
be that rate arrived at by doubling the semi-annual interest rate,
compounded semi-annually, necessary to discount the debt service
payments on the refunding or repayment bonds or notes from the payment
dates thereof to the date of issue of the refunding or repayment bonds
or notes and to the price bid including estimated accrued interest or
proceeds received by the authority including estimated accrued interest
from the sale thereof.

5. The term "excess loss fund" as used in this section shall not
include any trust, pooling arrangements or other entity (a) which
provides or offers to provide reimbursement or funding for losses or
liabilities to any entity other than the authority and its subsidiaries,
the New York city transit authority and its subsidiaries and Triborough
bridge and tunnel authority, or (b) in which any entity other than the authority and its subsidiaries, the New York city transit authority and its subsidiaries and Triborough bridge and tunnel authority holds an equity interest.

§ 1349-l. Authority police force.

1. The authority is hereby authorized and empowered, to provide and maintain an authority police department and a uniformed authority police force. Each member of such uniformed police force shall be a "police officer" for the purposes of the criminal procedure law, with all of the powers of such police officers thereunder and subject to the same jurisdictional provisions on the exercise of that power as set forth in such law. The geographical area of employment of such police officers for the purposes of the criminal procedure law shall embrace the city of New York. Such department and force shall have the power, in and about any or all of the facilities owned and/or operated by the authority and its subsidiary corporations, the New York city transit authority and its subsidiaries, and the Triborough bridge and tunnel authority, as determined in the discretion of the authority, to enforce and prevent violation of all laws and ordinances. Nothing in this section shall confer upon the authority police force or upon their collective negotiations representatives exclusive jurisdiction or claim over the exercise of police power or security work on behalf of the authority and its subsidiary corporations, the New York city transit authority and its subsidiaries, and the Triborough bridge and tunnel authority. Nothing in this section shall limit the authority and its subsidiary corporations, the New York city transit authority and its subsidiaries, and the Triborough bridge and tunnel authority from continuing to rely on local police for police services.

2. Initial appointments to such authority police force shall from the incumbent police officers of the metropolitan transportation authority at the time of such appointment. The executive director of the authority, through the chief of police, shall have the power and authority to appoint and employ such number of police officers as he or she deems necessary to act as police officers of the authority and to administer to the officers an oath or affirmation faithfully to perform the duties of their respective positions or offices. Unless, at the time of appointment, the person is a police officer of the metropolitan transportation authority, only persons who have never been convicted of a felony and are citizens of the United States shall be appointed police officers on the authority police force. After the initial appointments are made, selection of police officer candidates shall be made pursuant to an examination process to be determined at the discretion of the authority and candidates must receive a certificate attesting to satisfactory completion of an approved municipal police basic training program, as described in section two hundred nine-q of the general municipal law. No person shall be eligible for appointment unless such person is not less than twenty years of age as of the date of appointment nor more than thirty-five years of age as of the date when the applicant takes the written examination, provided, however, that time spent on military duty or on terminal leave, not exceeding a total of six years, shall be subtracted from the age of any applicant who has passed his or her thirty-fifth birthday as provided in subdivision ten-a of section two hundred forty-three of the military law. Upon appointments made by transferring an entire group of police officers into the authority police force, thereby eliminating such other group of police officers, the authority shall recognize any representative previously
chosen by the police officers for the purposes of collective negotiations consistent with the bargaining units already established and shall also assume and continue to observe any existing labor contracts covering these police officers including such provisions which relate to the grievance and disciplinary procedures and interest arbitration. Subsequent to the establishment of the consolidated police force the authority and the collective bargaining representatives shall be authorized to negotiate a merger of the separate bargaining units.

3. The authority may appoint a chief and one or more deputy chiefs of the authority police department who, in the discretion of the authority, may be selected from the ranks of the authority police force, and assign powers and duties to them and fix their compensation. The chief shall be the head of such department. The deputy chief designated by the chief shall possess all the powers and perform all the duties of the chief during his or her absence or disability. The authority police force shall consist of such divisions, supervisors and officers, including but not limited to police officers, detectives, sergeants, lieutenants and captains as designated by the authority. Notwithstanding any law or provision to the contrary, the members of the uniformed authority police force shall not acquire civil service status or become members of the New York state and local employees' retirement system, except as set in this section.

4. The authority may, in its sole discretion, establish within the authority's defined benefit program a retirement program consistent with the foregoing. If the authority has not so established such program in its defined benefit program within one hundred eighty days after enactment, then the authority shall elect to participate in article fourteen-B of the retirement and social security law.

5. If the authority elects to participate in the New York city employees' retirement system, such election to participate shall be made by resolution filed with the comptroller and accepted by him or her pursuant to section thirty-one of the retirement and social security law.

6. Nothing contained in this section shall be deemed to diminish, suspend or abolish an existing benefit inured to a police officer, transferred from the metropolitan transportation authority police force and subject to the provisions of this section in and to the rights, privileges or status previously earned within a pension or retirement system of which they were a member immediately prior to the enactment of this section; and any such existing right, privilege or status shall survive the effect of any decisions or determinations lawfully made in accordance with the provisions of this section so long as such right, privilege or status is greater in benefit to that which would be imposed or imputed to any subject officer as a result of actions of the authority authorized by this section.

§ 1349-m. The permanent citizens advisory committee. There is hereby established a permanent citizens advisory committee. The members of the committee shall consist of the New York city transit authority advisory council, as defined in section twelve hundred four-e of this title.

§ 1349-n. Big apple transit authority pledge to customers. 1. A big apple transit authority pledge to customers shall be created and adopted by the big apple transit authority. A copy of such pledge shall be posted on the website of the authority and shall be posted in stations where the authority makes regular postings. The authority shall post the pledge in the language or languages it deems necessary and appropriate.

2. The big apple transit authority pledge to customers shall be in the form and manner as prescribed by the authority, include the contact
information of the authority, and include, but not be limited to, the
following:
(a) a description of the authority's commitment to provide safe and
reliable services;
(b) a description of the authority's commitment to provide timely and
accurate information on its services;
(c) a commitment that employees will provide service in a courteous
manner;
(d) a description of the authority's commitment to maintain clean
stations, facilities, subways and buses;
(e) a description of the authority's policies when it comes to arrange-
ing alternative transportation when service is interrupted;
(f) when service is interrupted, a description of the authority's
policies when it comes to considering the comfort of inconvenienced
customers;
(g) when service is interrupted due to weather conditions, a
description of the authority's policies on notifying customers; and
(h) when service is severely interrupted, a description of the author-
ity's policies on service restoration.
3. The authority from time to time may update and amend the big apple
transit authority pledge to customers as it deems necessary and proper
and may adopt rules and regulations for the proper administration of
this section.
§ 1349-o. Expired fare transfer policy. Notwithstanding any other
provision of law to the contrary, the authority shall, within ninety
days of the effective date of this section, establish an expired fare
transfer policy that may be amended from time to time. Such policy shall
provide any person who purchases a fare the ability to transfer any
remaining balance for two years after such fare is deemed expired.
§ 1349-p. Acquisition and disposition of real property. 1. In addi-
tion to the powers provided in section thirteen hundred forty-nine-h of
this title to acquire transportation facilities, equipment and real
property, the authority may acquire, by condemnation pursuant to the
eminent domain procedure law, any real property within the city of New
York it may deem necessary, convenient or desirable to effectuate the
purposes of this title, provided however, that any such condemnation
proceedings shall be brought only in the supreme court and the compen-
sation to be paid shall be ascertained and determined by the court with-
out a jury. Notwithstanding the provisions of this subdivision, no real
property may be acquired by the authority by condemnation for purposes
other than a transportation facility unless the governing body of the
city, village or town in which such real property is located shall first
consent to such condemnation.
2. Nothing contained in this section shall be construed to prevent the
authority from bringing any proceedings to remove a cloud on title or
such other proceedings as it may, in its discretion, deem proper and
necessary or from acquiring any such property by negotiation or
purchase.
3. Where a person entitled to an award in the proceedings to condemn
any real property for any of the purposes of this title remains in
possession of such property after the time of the vesting of title in
the condemnor, the reasonable value of his or her use and occupancy of
such property subsequent to such time as fixed by agreement or by the
court in such proceedings or by any court of competent jurisdiction
shall be a lien against such award subject only to the liens of record
at the time of vesting of title in the condemnor.
4. Subject to the provisions of sections thirteen hundred forty-nine-h and thirteen hundred forty-nine-j of this title, title to all property acquired under this title shall vest in the authority or one of its subsidiary corporations, or in the New York City transit authority or one of its subsidiary corporations as the authority directs.

5. The authority may, whenever it determines that it is in the interest of the authority, dispose of any real property or property other than real property, which it determines is not necessary, convenient or desirable for its purposes.

6. The authority may, whenever it shall determine that it is in the interest of the authority, rent, lease, or grant easements or other rights in, any land or property of the authority.

§ 1349-q. Acquisition and disposition of real property by department of transportation. If funds are made available by the authority for the payment of the cost and expense of the acquisition thereof, the commissioner of transportation of the state of New York, when requested by the authority, may acquire such real property in the name of the state as may be determined from time to time by the authority as being necessary, convenient or desirable to effectuate the purposes of this title, may remove the owner or occupant thereof where necessary and obtain possession of, and, when requested by the authority, may dispose of any real property so acquired, all according to the procedure provided in section thirty of the highway law. The authority shall have the right to possess and use for its corporate purposes all such real property so acquired. Claims for the value of the property appropriated and for legal damages caused by any such appropriation shall be adjusted and determined by such commissioner with the approval of the authority or by the court of claims as provided in section thirty of the highway law. When a claim has been filed with the court of claims, the claimant shall cause a copy of such claim to be served upon the authority and the authority shall have the right to be represented and heard before such court. All awards and judgments arising from such claims shall be paid out of moneys of the authority. No real property may be acquired pursuant to the provisions of this section for purposes other than a transportation facility unless the governing body of the city, village or town in which such real property is located shall first consent to such acquisition.

§ 1349-r. Transit facilities for transit construction fund. 1. As used in this section, unless a different meaning clearly appears from the context:

(a) "City" shall mean the city of New York.

(b) "Transit construction fund act" shall mean title nine-A of this article.

(c) "Transit construction fund" shall mean the corporation created by section twelve hundred twenty-five-c of this article.

(d) "Transit facility" shall mean such term as defined from time to time in section twelve hundred twenty-five-b of this article.

2. In addition to the powers provided elsewhere in this title, and to effectuate the purposes of the transit construction fund act, the authority may:

(a) Plan, design, construct, acquire, extend, reconstruct, rehabilitate, modernize and otherwise improve transit facilities in accordance with the terms and conditions of any lease or other agreement with the transit construction fund:

(b) Occupy the streets of the city of New York in the course of constructing and thereafter owning a transit facility which consists of a rapid transit railroad or portion thereof, provided such construction
is carried out in accordance with the terms of a lease or other agreement with the transit construction fund entered into pursuant to the provisions of the transit construction fund act;

(c) Make and execute contracts, leases, subleases, and all other instruments or agreements deemed necessary or convenient;

(d) Authorize the use by the transit construction fund, either with or without compensation to the authority or any subsidiary of the agents, employees and facilities of the authority or any subsidiary;

(e) Undertake planning, design and feasibility studies in accordance with the terms and conditions of any agreement with the transit construction fund or the city; and

(f) Do any and all other things deemed necessary or convenient.

3. All of the provisions of this title not inconsistent with the provisions of this section shall be applicable with respect to any bonds or notes of the authority issued to finance any purpose authorized under this section or the transit construction fund act, subject to the following conditions and exceptions:

(a) Payment of the principal, redemption premium, if any, and interest on such bonds and notes shall be made only from monies payable to the authority from the transit construction fund under a lease or other agreement entered into pursuant to the provisions of the transit construction fund act, and any security given by the authority for the payment of such principal, redemption premium or interest on such bonds and notes shall be limited to the monies so payable from the transit construction fund. The authority shall not grant any security interest in or otherwise encumber any transit facility leased to the transit construction fund.

(b) The provisions of section thirteen hundred forty-nine-aa of this title, relating to the creation and establishment of and appropriations and payments to certain debt service reserve funds shall be inapplicable; provided that nothing in this section shall be deemed to prohibit the creation and establishment of one or more reserve funds for debt service as authorized by section thirteen hundred forty-nine-u of this title;

(c) In addition to the statement required by subdivision nine of section thirteen hundred forty-nine-u of this title, such bonds and notes shall contain on the face thereof a statement to the effect that the city shall not be liable thereon and that the same shall not be a debt of the city.

4. Notwithstanding the provisions of any general or special law to the contrary, or of any agreement entered into in pursuance thereof relating to the repayment of any loan or advance made by the state to the authority, the authority shall not be required to repay any such loan or advance from or by reason of the issuance: (a) of bonds or notes of the authority issued to finance any purpose authorized under this section or the transit construction fund act, or the proceeds realized upon such issuance; or (b) from any other funds of the authority derived from the transit construction fund or from any other source whatever to effectuate the purposes of the transit construction fund act.

§ 1349-s. Co-operation and assistance of other agencies. 1. To avoid duplication of effort and in the interests of economy, the authority may make use of existing studies, surveys, plans, data and other materials in the possession of any state agency or any municipality or political subdivision of the state. Each such agency, municipality or subdivision is hereby authorized to make the same available to the authority and otherwise to assist it in the performance of its functions. At the
request of the authority, each such agency, municipality or subdivision
which is engaged in highway or other transportation activities or in
land use or development planning, or which is charged with the duty of
providing or regulating any transportation facility or any other public
facility, is further authorized to provide the authority with informa-
tion regarding its plans and programs affecting the transportation
district so that the authority may have available to it current informa-
tion with respect thereto. The officers and personnel of such agencies,
municipalities or subdivisions, and of any other government or agency
whatever, may serve at the request of the authority upon such advisory
committees as the authority shall determine to create and such officers
and personnel may serve upon such committees without forfeiture of
office or employment and with no loss or diminution in the compensation,
status, rights and privileges which they otherwise enjoy.

2. The authority shall, at the request of any state agency, munici-
pality or political subdivision of the state, engaged in highway or
other transportation activities or in land use or development planning,
provide said state agency, municipality or political subdivision with
all current and relevant information regarding its plans or programs, so
as to enable said agency, municipality or subdivision to properly effec-
tuate said activities or planning.

3. To the extent that the provisions of this title authorize the
authority to enter into any agreement or arrangement with, or undertake
any other activity requiring the participation of, the New York city
transit authority or any of its subsidiary corporations in furtherance
of their respective purposes and powers or the Triborough bridge and
tunnel authority in furtherance of its purposes and powers, such enti-
ties are hereby authorized and empowered to enter into and perform such
contract or other arrangement and to undertake such activities.

§ 1349-t. Promotion of qualified transportation fringes. The authori-
ity shall promote the broad use of qualified transportation fringes,
under section one hundred thirty-two of the federal internal revenue
code, in order to increase the number of participating companies and
employees in such programs. The authority may also study and report on
ways in which programs may be improved so as to increase public partic-
ipation.

§ 1349-u. Notes, bonds and other obligations of the authority. 1. (a)
The authority shall have power and is hereby authorized from time to
time to issue its bonds, notes and other obligations in such principal
amount as, in the opinion of the authority, shall be necessary, conven-
ient or desirable to effectuate any of its powers and purposes, includ-
ing to provide sufficient funds for achieving its purposes, including
the acquisition, establishment, construction, effectuation, operation, 
maintenance, renovation, improvement, extension, rehabilitation or
repair of any transportation facility, the payment of principal, redemp-
tion premium and interest on bonds, notes and other obligations of the
authority, establishment of reserves to secure such bonds, notes and
other obligations, the provision of working capital and all other
expenditures of the authority and its subsidiary corporations, and New
York city transit authority and its subsidiary corporations incident to
and necessary or convenient to carry out their purposes and powers. Such
bonds, notes or other obligations may be issued for an individual trans-
portation facility or issued on a consolidated basis for such groups or
classes of facilities and projects as the authority in its discretion
deems appropriate and be payable from and secured separately or on a
consolidated basis by, among other things, all or any portion of such
revenues and other monies and assets of the authority and its subsidiary
corporations, and New York city transit authority and its subsidiary
corporations as the authority determines in accordance with the
provisions of section thirteen hundred forty-nine-dd of this title;
(b) The authority shall have power, from time to time, to issue
renewal notes, to issue bonds to refund, redeem or otherwise pay,
including by purchase or tender, notes of the authority and its subsid-
iary corporations, the metropolitan transportation authority, and the
New York city transit authority and its subsidiary corporations and
whenever it deems refunding, redemption or payment expedient, to refund,
redeem or otherwise pay, including by purchase or tender, any bonds of
the authority and its subsidiary corporations, the metropolitan trans-
portation authority, the New York city transit authority and its subsid-
iary corporations and the Triborough bridge and tunnel authority by the
issuance of new bonds, whether the bonds to be refunded, redeemed or
otherwise paid have or have not matured, and to issue bonds partly for
such purpose and partly for any other purpose and to otherwise refund,
redeem, acquire by purchase or tender, or in any other way repay any
outstanding notes, bonds or other obligations of the authority, any of
its subsidiary corporations, the metropolitan transportation authority,
the New York city transit authority, any of its subsidiary corporations
and the Triborough bridge and tunnel authority;
(c) Every issue of its notes, bonds or other obligations shall be
general obligations or special obligations. Every issue of general obli-
gations of the authority shall be payable out of any revenues or monies
of the authority, subject only to any agreements with the holders of
particular notes or bonds pledging any particular receipts or revenues.
Every issue of special obligations shall be payable out of any revenues,
receipts, monies or other assets of the authority and its subsidiary
corporations, the New York city transit authority and its subsidiary
corporations and the Triborough bridge and tunnel authority identified
for such purposes in accordance with agreements with the holders of
particular notes, bonds or other obligations. The authority may issue
transportation revenue special obligation bonds, notes or other obli-
gations as provided in section thirteen hundred forty-nine-dd of this
title;
2. The authority may from time to time issue its bonds and notes in
such principal amounts as, in the opinion of the authority, shall be
necessary to finance the unfunded pension fund liabilities of the
authority, its affiliates and subsidiaries, provided, however, that in
no event shall the cumulative amounts of bonds and notes issued pursuant
to the authority under this subdivision exceed one billion two hundred
million dollars or sixty percent of such unfunded pension fund liabil-
ities, whichever is less, and provided, further, that no bonds shall be
issued under this subdivision for a term longer than twenty years. The
authority may not issue bonds or notes in any twelve month period in a
cumulative principal amount in excess of forty percent of the total
amount permitted to be issued under this subdivision. Prior to the issu-
ance of any bonds or notes, the authority shall make a finding that such
issue is expected to result, on a present value basis, in a lower effec-
tive cost to the authority than funding the unfunded pension fund
liability solely through the payment of annual amounts to the pension
fund, assuming that the principal component of the unfunded liability
will be amortized over the same number of years as the term of the bonds
or notes and that the interest payable thereon is the actuarial rate of
interest determined by the actuary for the pension fund at the time of
the issuance of such bonds or notes. The aggregate principal amount of bonds and notes issued for such purposes may be increased to fund costs of issuance and reasonably required debt service or other reserve funds. Bonds and notes may be issued to refund or otherwise repay bonds or notes theretofore issued for such purposes; provided, however, that upon any such refunding or repayment, including for purpose of such calculation the principal amount of the refunding bonds or notes then to be issued and excluding the principal amount of the bonds or notes so to be refunded or repaid and also excluding any amounts used to pay costs of issuance and reasonably required debt service or other reserve funds, the present value of the aggregate debt service of the refunding or repayment bonds or notes to be issued shall not exceed the present value of the aggregate debt service of the bonds or notes so to be refunded or repaid. For purposes of the preceding sentence, the present values of the aggregate debt service of the refunding or repayment bonds or notes and of the aggregate debt service of the bonds or notes so to be refunded or repaid shall be calculated by utilizing the effective interest rate of the refunding or repayment bonds or notes, which shall be that rate arrived at by doubling the semi-annual interest rate, compounded semi-annually, necessary to discount the debt service payments on the refunding or repayment bonds or notes from the payment dates thereof to the date of issue of the refunding or repayment bonds or notes and to the price bid including estimated accrued interest or proceeds received by the authority including estimated accrued interest from the sale thereof. Debt service on the bonds or notes shall be structured so that the economic benefits thereof shall be relatively uniform for each full year throughout the term of the bonds or notes. Beginning with the date of first issuance of bonds under this section, the authority and its subsidiaries shall make annual payments into the pension fund in amounts at least equal to the current pension contribution liability applicable to such year. The net proceeds of the bonds or notes intended to be invested in non-debt securities may be invested by the recipient pension fund in a fiscally prudent manner in securities consistent with any trust indentures and all applicable state and federal law over a reasonable period of time not less than thirty days following the issuance of the bonds or notes. The operating budget savings associated with the issuance of pension obligation bonds pursuant to this subdivision shall be dedicated to reducing service eliminations projected to occur within that period.

3. The notes, bonds and other obligations shall be authorized by resolution approved by not less than a majority vote of the whole number of members of the authority then in office, except that in the event of a tie vote the chairperson shall cast one additional vote. Such notes, bonds and other obligations shall bear such date or dates, and shall mature at such time or times, in the case of any such note or any renewals thereof not exceeding five years from the date of issue of such original note, and in the case of any such bond not exceeding fifty years from the date of issue, as such resolution or resolutions may provide. The notes, bonds and other obligations shall bear interest at such rate or rates, be in such denominations, be in such form, either coupon or registered, carry such registration privileges, be executed in such manner, be payable in such medium of payment, at such place or places and be subject to such terms of redemption as such resolution or resolutions may provide. The notes, bonds and other obligations of the authority may be sold by the authority, at public or private sale, at such price or prices as the authority shall determine. No notes or bonds
of the authority may be sold by the authority at private sale, however, unless such sale and the terms thereof have been approved in writing by (a) the comptroller, where such sale is not to the comptroller, or (b) the director of the office of management and budget, where such sale is to the comptroller.

4. Any resolution or resolutions authorizing any notes, bonds or any issue thereof, or any other obligations of the authority, may contain provisions, which shall be a part of the contract with the holders thereof, as to:

(a) pledging all or any part of the revenues of the authority or of any of its subsidiary corporations or New York city transit authority or any of its subsidiary corporations or Triborough bridge and tunnel authority to secure the payment of the notes or bonds or of any issue thereof, or any other obligations of the authority, subject to such applicable agreements with bondholders, noteholders, or holders of other obligations of the authority, the metropolitan transportation authority, the New York city transit authority and its subsidiary corporations, and Triborough bridge and tunnel authority;

(b) pledging all or any part of the assets of the authority or of any of its subsidiary corporations or New York city transit authority or any of its subsidiary corporations or Triborough bridge and tunnel authority to secure the payment of the notes or bonds or of any issue of notes or bonds, or any other obligations of the authority, subject to such agreements with noteholders, bondholders, or holders of other obligations of the authority, the New York city transit authority and its subsidiary corporations, and Triborough bridge and tunnel authority;

(c) the use and disposition of revenues, including fares, tolls, rentals, rates, charges and other fees, made or received by the authority, any of its subsidiary corporations, New York city transit authority or any of its subsidiary corporations, or Triborough bridge and tunnel authority;

(d) the setting aside of reserves or sinking funds and the regulation and disposition thereof;

(e) limitations on the purpose to which the proceeds of sale of notes, bonds or other obligations of the authority may be applied and pledging such proceeds to secure the payment of the notes or bonds or of any issue thereof or of other obligations;

(f) limitations on the issuance of additional notes, bonds or other obligations of the authority; the terms upon which additional notes, bonds or other obligations of the authority may be issued and secured; the refunding of outstanding or other notes, bonds or other obligations of the authority;

(g) the procedure, if any, by which the terms of any contract with noteholders, bondholders, or holders of other obligations of the authority, may be amended or abrogated, the amount of notes, bonds or other obligations of the authority the holders of which must consent thereto, and the manner in which such consent may be given;

(h) limitations on the amount of monies to be expended by the authority or any of its subsidiary corporations or New York city transit authority or any of its subsidiary corporations or Triborough bridge and tunnel authority for operating, administrative or other expenses of the authority or any of its subsidiary corporations or New York city transit authority or any of its subsidiary corporations or Triborough bridge and tunnel authority;

(i) vesting in a trustee or trustees such property, rights, powers and duties in trust as the authority may determine, which may include any or
all of the rights, powers and duties of the trustee appointed by the
bondholders, noteholders or holders of other obligations of the authori-
yty pursuant to this title, and limiting or abrogating the right of the
bondholders, noteholders or holders of other obligations of the authori-
ty to appoint a trustee under this article or limiting the rights,
powers and duties of such trustee; and
(j) any other matters, of like or different character, which in any
way affect the security or protection of the notes, bonds or other obli-
gations of the authority.
5. In addition to the powers conferred by this section upon the
authority to secure its notes, bonds and other obligations, the authori-
ty shall have power in connection with the issuance of notes, bonds and
other obligations to enter into such agreements as the authority may
deem necessary, convenient or desirable concerning the use or disposi-
tion of the monies or property of the authority, its subsidiary corpo-
rations, New York city transit authority, or any of its subsidiary
 corporations, or Triborough bridge and tunnel authority, including the
mortgaging of any such property and the entrusting, pledging or creation
of any other security interest in any such monies or property and the
doing of any act (including refraining from doing any act) which the
authority would have the right to do in the absence of such agreements.
The authority shall have power to enter into amendments of any such
agreements within the powers granted to the authority by this title and
to perform such agreements. The provisions of any such agreements may be
made a part of the contract with the holders of the notes, bonds and
other obligations of the authority.
6. Any pledge, mortgage or security instrument made by the authority
shall be valid and binding from the time when the pledge, mortgage or
security instrument is made; the monies or property so pledged, mort-
gaged and entrusted and thereafter received by the authority, or any of
its subsidiary corporations shall immediately be subject to the lien of
such pledge, mortgage or security instrument without any physical deliv-
ery thereof or further act; and the lien of any such pledge, mortgage or
security instrument shall be valid and binding as against all parties
having claims of any kind in tort, contract or otherwise against the
authority, or any of its subsidiary corporations, irrespective of wheth-
er such parties have notice thereof. Neither the resolution nor any
mortgage, security instrument or other instrument by which a pledge,
mortgage lien or other security is created shall need to be recorded or
filed and neither the authority nor, any of its subsidiary corporations
shall be required to comply with any of the provisions of the uniform
commercial code.
7. Neither the members of the authority, the New York city transit
authority or the Triborough bridge and tunnel authority nor any person
executing the notes, bonds or other obligations shall be liable
personally on the notes, bonds or other obligations or be subject to any
personal liability or accountability by reason of the issuance thereof.
8. The authority, subject to such agreements with the holders of
notes, bonds or other obligations as may then exist, shall have power
out of any funds available therefor to purchase notes, bonds or other
obligations of the authority. The authority may hold, cancel or sell
such bonds, notes and other obligations, subject to and in accordance
with agreements with such holders.
9. Neither the state nor the city of New York shall be liable on
notes, bonds or other obligations of the authority and such notes, bonds
and other obligations shall not be a debt of the state or the city of
New York, and such notes, bonds and other obligations shall contain on
the face thereof, or in an equally prominent place, a statement to such
effect.

10. So long as the authority has any outstanding bonds, notes or other
obligations issued pursuant to this section or any bonds, notes or other
obligations issued or incurred pursuant to section thirteen hundred
forty-nine-j of this title, none of the authority or any of its subsid-
iary corporations, New York city transit authority or any of its subsid-
iary corporations, or Triborough bridge and tunnel authority shall have
the authority to file a voluntary petition under chapter nine of the
federal bankruptcy code or such corresponding chapter, chapters or
sections as may, from time to time, be in effect, and neither any public
officer nor any organization, entity or other person shall authorize the
authority or any of its subsidiary corporations, New York city transit
authority or any of its subsidiary corporations, or Triborough bridge
and tunnel authority to be or become a debtor under chapter nine of the
federal bankruptcy code or said corresponding chapter, chapters or
sections during any such period.

11. The term "monies" as used in this section shall include, but not
be limited to, all operating subsidies provided by (i) any public bene-
fit corporation, including without limitation transfers of operating
surplus by Triborough bridge and tunnel authority pursuant to section
twelve hundred nineteen-a of this article, or (ii) any governmental
entity, federal, state or local and shall exclude all funds required to
be transferred to the metropolitan transportation authority pursuant to
section thirteen hundred forty-nine-h of this title.

12. Any resolution or agreement authorizing the issuance of bonds,
notes or other obligations pursuant to this section may, in addition,
authorize and provide for the issuance of lease obligations of the
authority which may be issued for the purposes and on the terms and
conditions under which the bonds, notes and other obligations authorized
under this section may be issued, and may be secured in the same manner
as such bonds, notes and other obligations, and which resolution with
respect to such lease obligations, may contain such other provisions
applicable to bonds, notes and other obligations not inconsistent with
the provisions of this section, as the authority may determine.

13. The aggregate principal amount of bonds, notes or other obli-
gations issued after the first of January next succeeding the effective
date of this title, by the authority, the Triborough bridge and tunnel
authority and the New York city transit authority to fund projects
contained in capital program plans approved pursuant to section thirteen
hundred forty-nine-v of this title for the capital program authorization
period shall not exceed fifty-five billion four hundred ninety-seven
million dollars. Such aggregate principal amount of bonds, notes or
other obligations or the expenditure thereof shall not be subject to any
limitation contained in any other provision of law on the principal
amount of bonds, notes or other obligations or the expenditure thereof
applicable to the authority, the Triborough bridge and tunnel authority
or the New York city transit authority. The aggregate limitation estab-
lished by this subdivision shall not include: (a) obligations issued to
refund, redeem or otherwise repay, including by purchase or tender,
obligations theretofore issued either by the issuer of such refunding
obligations or by the authority, the New York city transit authority or
the Triborough bridge and tunnel authority; (b) obligations issued to
fund any debt service or other reserve funds for such obligations; (c)
obligations issued or incurred to fund the costs of issuance, the
payment of amounts required under bond and note facilities, federal or other governmental loans, security or credit arrangements or other agreements related thereto and the payment of other financing, original issue premiums and related costs associated with such obligations; (d) an amount equal to any original issue discount from the principal amount of such obligations or to fund capitalized interest; (e) obligations incurred pursuant to section twelve hundred seven-m of this article; (f) obligations incurred to fund the acquisition of certain buses for the New York city transit authority as identified in a capital program plan approved pursuant to chapter fifty-three of the laws of nineteen hundred ninety-two; (g) obligations incurred in connection with the leasing, selling or transferring of equipment; and (h) bond anticipation notes or other obligations payable solely from the proceeds of other bonds, notes or other obligations which would be included in the aggregate principal amount specified in the first sentence of this subdivision, whether or not additionally secured by revenues of the authority, or any of its subsidiary corporations, New York city transit authority, or any of its subsidiary corporations, or Triborough bridge and tunnel authority.

§ 1349-v. Capital program plans; approvals; effect of disapproval. 1. On or before October first next succeeding the effective date of this section, and every fifth year thereafter, the authority shall submit to the mayor a capital program plan for the ten-year period commencing January first of the following year.

2. For the period described in subdivision one of this section, the plan shall contain the capital program for the transit facilities operated by the New York city transit authority and its subsidiaries and for the Staten Island rapid transit operating authority.

3. The plan shall set system-wide goals and objectives for capital spending, establish standards for service and operations, and describe each capital element proposed to be initiated in each of the years covered by the plan and explain how each proposed element supports the achievement of the service and operational standards established in the plan. The plan shall also set forth an estimate of the amount of capital funding required each year and the expected sources of such funding. Each plan subsequent to the first such plan and each proposed amendment or modification thereof shall also describe the current status of each capital element included in the previously approved plan, if any. The plan shall be accompanied or supplemented by such supporting materials as the mayor shall require.

4. A "capital element", as used in this section, shall mean either a category of expenditure itemized in a plan, as hereinafter provided, for which a specified maximum dollar amount is proposed to be expended, or a particularly described capital project within one or more categories for which no maximum expenditure is proposed, but for which an estimate of expected cost is provided. A capital element shall be deemed to have been initiated for purposes of this section if in connection with such element the authority shall certify that:

(a) purchase or construction contracts have been entered into, obligating in the aggregate an amount exceeding ten percent of the maximum or estimated cost of the element as set forth in a plan;

(b) financing specific to the project has been undertaken; or

(c) in a case where such element is limited to design or engineering, a contract therefor has been entered into.

5. The plan shall itemize the capital elements included in each section of the plan under the following categories of expenditure: (a) rolling stock and buses; (b) passenger stations; (c) track; (d) line
equipment; (e) line structures; (f) signals and communications; (g) power equipment, emergency power equipment and substations; (h) shops, yards, maintenance facilities, depots and terminals; (i) service vehicles; (j) security systems; (k) electrification extensions; and (l) unspecified, miscellaneous and emergency.

6. A capital program plan must be approved only by resolution of the authority approved by not less than a majority vote. After approval, the authority must submit the plan to the mayor, who has ninety days to approve the plan.

7. A copy of any capital program plan that has been approved by the authority and distributed to the mayor shall be simultaneously provided to the public by the big apple transit authority, via its official or shared internet website.

8. If the mayor takes no action within ninety days after receiving the plan, the plan shall be deemed to have been approved.

9. If the mayor vetoes the plan, the authority may only override the veto by unanimous vote.

10. If the mayor vetoes the plan and the authority does not override the veto, the authority may thereafter reformulate and resubmit such plan at any time. Within thirty days of the submission of such reformulated plan, the mayor may notify the authority of its approval, or, if the reformulated plan is not approved and the mayor has not notified the authority of his or her disapproval within such period, the reformulated plan shall be deemed to have been approved.

11. No general obligation bonds or notes of the authority, no special obligation bonds or notes of the authority to finance a transit project, as such term is defined in section thirteen hundred forty-nine-j of this title, and no bonds or notes of the Triborough bridge and tunnel authority to finance a project pursuant to the authorization contained in paragraph (r) of subdivision nine of section five hundred fifty-three of this chapter shall be issued to finance the costs of a capital element unless such capital element and such source of funding was set forth in a plan approved as provided in this section.

12. The disapproval of a capital program plan shall not affect: (a) the right of the authority, of the Triborough bridge and tunnel authority, or of the New York city transit authority, or of the subsidiaries of any of them to initiate and complete any capital element which will be financed otherwise than through the issuance of the bonds or notes the issuance of which is prohibited under subdivision seven of this section; (b) the right of the authority or the Triborough bridge and tunnel authority to issue bonds or notes to finance a capital element which was initiated prior to such disapproval in conformity with a previously approved plan; (c) the right of the New York city transit authority to issue its bonds, notes, lease, sublease or other contractual obligations in payment for a transit project initiated prior to such disapproval in conformity with a previously approved plan; (d) the right of the authority or of the Triborough bridge and tunnel authority to issue bonds or notes to refund or otherwise repay any of its outstanding bonds or notes or to fulfill any of their obligations to the holders of any of their outstanding bonds or notes; or (e) the right of the New York city transit authority to issue its bonds, notes, lease, sublease or other contractual obligations to refund or otherwise repay any of its outstanding bonds or notes or to fulfill any of its obligations to the holders of any of its outstanding bonds or notes.

13. Notwithstanding the provisions of subdivision eight of this section, if a source of funding described in an approved plan shall be
unavailable or be available in a lesser amount than that set forth in such plan, the authority and the Triborough bridge and tunnel authority may issue bonds or notes as necessary to provide the requisite funding for the capital elements included in the plan to the extent that the aggregate amount of such bonds or notes to be issued in substitution for such unavailable amounts shall not exceed the greater of fifty million dollars or twenty percent of the total amount described in such plan for either the substitute funding source or the funding source being substituted for, subject to the limitations set forth in subdivision eleven of section five hundred fifty-three-e of this chapter and paragraph (a) of subdivision four of section twelve hundred seven-m of this article.

14. (a) The authority may from time to time submit to the mayor amendments or modifications to any ten-year plan theretofore submitted, and shall submit such an amendment or modification (i) if the estimated cost of any capital element for which a specified dollar amount was proposed to be expended exceeds the amount set forth in the approved plan for such element by more than ten percent, (ii) if with respect to a particularly described capital element for which only an estimate of projected cost has been provided in the plan there is a material change in the description of such element from that contained in the approved plan, (iii) if a capital element not previously included in the approved plan is proposed to be undertaken and its cost, together with the cost of other elements included in category (l) of the plan, exceeds by ten percent the amount provided for such category (l) elements, (iv) if the authority shall propose to change by more than one year from the time when any capital element is proposed to be initiated or the effect of such change will be to increase the estimated amount of capital funding required in any year covered by the plan by more than twenty percent, or (v) if the availability of funding sources changes to the degree to which the authority or the Triborough bridge and tunnel authority are precluded from exercising the authorization provided in subdivision nine of this section and the authority wishes to do so.

(b) An amendment or modification may only be approved in two ways: (i) an amendment or modification shall only be approved by the mayor and within thirty days of the submission of an amendment or modification the mayor may notify the authority of its approval of the same; or (ii) if the amendment or modification is not approved by the mayor within such thirty day period and the mayor has not notified the authority in writing of his or her disapproval within such period, the amendment or modification shall be deemed to have been approved.

15. In formulating its capital program plans, the authority shall give consideration to the physical condition and urgency of need of each of the several transportation and transit systems involved, to the needs of all of the communities and areas serviced by these systems, to the extent to which other capital aid or assistance may be available to each of these systems, and to the safety, comfort and convenience of its passengers. In determining the source or method of funding which the authority is to use to finance the cost of the capital elements included in its capital program plans, the authority shall, insofar as practicable, give consideration, among other things, to: (a) the potential impact of each such source or method upon the level of passenger fares; (b) the relative cost of the several funding alternatives; and (c) the relative ability of each source or method to provide funding at times and in amounts estimated to be required by the capital program plan. To the extent funding is proposed to be obtained through the issuance and sale of bonds or notes, the authority shall, insofar as practicable and
consistent with the matters set forth in paragraphs (a), (b) and (c) of this subdivision, give preference to the use of funds appropriated or to be appropriated to the authority by virtue of service contracts with the director of the office of management and budget entered into pursuant to the provisions of the transportation systems assistance and financing act of nineteen hundred eighty-one for purposes of paying the annual cost of debt service for such bonds or notes.

Such assessment shall: (a) set forth broad long-term capital investments to be made throughout the district; and (b) establish a non-binding basis to be used by the authority in the planning of strategic investments involving capital elements in its five-year capital plan. Such assessment shall not require approval of the mayor and shall be for informational purposes only.

17. For purposes of this section, "broad long-term capital investments" shall include but not be limited to: system rebuilding, enhancement, and expansion needs; agency needs broken down by capital element or investment category; and projected future trends and network implications. Such assessment shall be certified by the chairperson of the authority and shall be entered into the permanent record of the minutes of the review board.

(i) Identification of the operating and capital costs as compared to the revenues anticipated from system users for the big apple transit authority and its subsidiaries and the New York city transit authority and its subsidiaries; and
(j) An analysis of the relationship between specific planned capital elements contained in approved capital program plans and the achievement of planned service and performance standards. Such analysis shall include the relationship of specific planned capital elements to the achievement of such service and performance standards for each subway line, bus route or group of bus routes as appropriate.

2. Each annual update of the plan shall include a status report summarizing the extent to which planned service and performance standards developed for the previous year were achieved, the causes of any failure to achieve projected standards of service, and corrective measures the authority intends to take to avoid non-achievement of projected standards in the next upcoming year.

for the provision of goods or services.
6. The authority is authorized to adopt such rules and regulations as
are necessary to effectuate the purposes of this section.
§ 1349-aa. Reserve funds and appropriations. The authority may create

§ 1349-bb. Big apple transit authority special assistance fund. 1. The
authority shall create and establish a fund to be known as the "big
apple transit authority special assistance fund" which shall be kept
separate from and shall not be commingled with any other moneys of the
authority. The special assistance fund shall consist of two separate
accounts: (i) the "transit account"; and (ii) the "corporate transportation account".

2. Moneys in the transit account may be pledged to the Triborough bridge and tunnel authority to secure bonds and notes and, if so pledged, shall be paid to the Triborough bridge and tunnel authority in such amounts and at such times as necessary to pay or to reimburse that authority for its payment of debt service and reserve requirements on that portion of special Triborough bridge and tunnel authority bonds and notes issued by that authority pursuant to section five hundred fifty-three-d of this chapter for transit projects undertaken for the New York city transit authority and its subsidiaries. Subject to the provisions of such pledge, any excess moneys, or in the event there is no such pledge, any moneys in such account shall, at the direction of the big apple transit authority, be: (a) deposited into one or more funds or accounts and used as contemplated by section thirteen hundred forty-nine-dd of this title; or (b) used for the payment of operating and capital costs of the New York city transit authority and its subsidiaries and the Staten Island rapid transit operating authority.

3. (a) Moneys in the corporate transportation account shall be pledged by the authority, or pledged to the Triborough bridge and tunnel authority, to secure bonds, notes or other obligations of the authority or the Triborough bridge and tunnel authority, as the case may be, and, if so pledged to the Triborough bridge and tunnel authority, shall be paid to the Triborough bridge and tunnel authority in such amounts and at such times as necessary to pay or to reimburse that authority for its payment of debt service and reserve requirements, if any, on that portion of special Triborough bridge and tunnel authority bonds and notes issued by that authority pursuant to section five hundred fifty-three-d of this chapter. Subject to the provisions of any such pledge, or in the event there is no such pledge, any excess moneys in the corporate transportation account may be used by the authority for payment of operating costs of, and capital costs, including debt service and reserve requirements, if any, of or for the authority, the New York city transit authority and their subsidiaries as the authority shall determine.

§ 1349-cc. Big apple transit authority dedicated tax fund. 1. The authority shall establish a fund to be known as the "big apple transit authority dedicated tax fund" which shall be kept separate from and shall not be commingled with any other moneys of the authority. The fund shall consist of a "pledged amounts account" and an "operating and capital costs account" and such other accounts and subaccounts as the authority may determine.

2. Moneys in the fund may be:

(a) pledged by the authority to secure and be applied to the payment of its bonds, notes or other obligations specified by the authority and issued to finance: (i) transit projects undertaken for the New York city transit authority and its subsidiaries; and (ii) transportation facilities undertaken for the authority and its subsidiaries; and

(b) used for payment of operating costs, and capital costs, including debt service, reserve requirements, if any, the payment of amounts required under bond and note facilities or agreements related thereto, the payment of federal government loans, security or credit arrangements or other agreements related thereto, and the payment of all costs related to such obligations, of or for the authority, the New York city transit authority and their subsidiaries as the authority shall determine. To the extent moneys in the fund have been pledged by the authority to secure and pay its bonds, notes or other obligations as herein
provided, moneys deposited into the fund shall first be deposited into
the pledged amounts account to the extent necessary to satisfy the
requirements of any debt service or reserve requirements, if any, of the
resolution authorizing such bonds, notes or other obligations. After
satisfaction of such requirements of the resolution, or if the authority
has not so pledged the moneys in the fund, moneys deposited in the fund
shall be directly deposited into the operating and capital costs account
and, subject to the provisions of any resolutions of the authority not
secured by the pledged amounts account, transferred forthwith to or for
the benefit of the New York city transit authority and its subsidiaries
and the Staten Island rapid transit operating authority.

3. Any moneys deposited in the fund shall be held in the fund free and
clear of any claim by any person arising out of or in connection with
article thirteen-A of the tax law. Without limiting the generality of
the foregoing and without limiting the rights and duties of the commis-
sioner of taxation and finance under article thirteen-A of the tax law,
or any other person, including the state, a person shall have any right
or claim against the authority, any of its bondholders, the authority or
the commuter transportation authority to any moneys in or distributed
from the fund or in respect of a refund, rebate, credit or reimbursement
of taxes paid under article thirteen-A of the tax law.

§ 1349-dd. Consolidated financings. 1. Notwithstanding any inconsist-
ent provisions of this law or any other law, general, special or local,
the authority may issue its notes, bonds and other obligations to
finance transportation facilities, including transit projects and
Triborough bridge and tunnel authority projects, utilizing a consol-
idated pledge of all or any portion of the revenues and other moneys and
assets of the authority and its subsidiaries, New York city transit
authority and its subsidiaries, and the Triborough bridge and tunnel
authority, together with those other sources of payment described in
this section. In connection therewith, at its discretion, the authority,
subject to the rights of the holders of notes, bonds or other obli-
gations of the authority, the metropolitan transportation authority, the
New York city transit authority or the Triborough bridge and tunnel
authority, may: (a) agree with the New York city transit authority or
the Triborough bridge and tunnel authority that any such entity shall
deposit all or any portion of the revenues, other monies and assets
received by it or its subsidiaries into one or more funds or accounts;
and (b) deposit or cause to be deposited into one or more funds and
accounts: (i) all or any portion of the revenues, other monies and
assets received by the authority and its subsidiaries; (ii) all or any
portion of the annual operating surplus of the Triborough bridge and
tunnel authority as certified pursuant to paragraph (b) of subdivision
two of section twelve hundred nineteen-a of this article; (iii) all or
any portion of the amounts from the operating and capital costs account
of the metropolitan transportation authority dedicated tax fund required
to be distributed to New York city transit authority under the
provisions of section twelve hundred seventy-c of this title; (iv) all
or any portion of the available monies in the transit account of the
metropolitan transportation authority special assistance fund estab-
lished under the provisions of section twelve hundred seventy-a of this
title available for payment of operating and capital costs of New York
city transit authority and its subsidiaries and Staten Island rapid
transit operating authority as provided in subdivision two of section
twelve hundred seventy-a of this title; (v) all or any portion of the
available moneys in the corporate transportation account of the metro-
politan transportation authority special assistance fund established under the provisions of section twelve hundred seventy-a of this title available for use by the authority for payment of operating costs of, and capital costs, including debt service and reserve requirements, if any, of or for the authority, the New York city transit authority and their subsidiaries as provided in paragraph (a) of subdivision four of section twelve hundred seventy-a of this title; and (vi) any other monies of the authority, its subsidiaries, the New York city transit authority and its subsidiaries, and the Triborough bridge and tunnel authority from any source whatsoever.

2. Amounts so deposited in such funds or accounts may be: (a) pledged by the authority to secure, and be applied to, the payment of its bonds, notes or other obligations issued to finance transportation facilities undertaken for the authority and its subsidiaries, transportation facilities, including transit projects, undertaken for New York city transit authority and its subsidiaries, and Triborough bridge and tunnel authority projects undertaken for the Triborough bridge and tunnel authority; and (b) used for payment of operating costs, and capital costs, including debt service, reserve requirements, if any, the payment of amounts required under bond, note or other financing facilities or agreements, and the payment of all costs related to such obligations, of or for the authority and its subsidiaries, and the New York city transit authority and its subsidiaries as the authority in its full discretion shall determine. To the extent moneys so deposited have been pledged by the authority to secure and pay its bonds, notes or other obligations pursuant to this subdivision, such moneys shall first be applied to satisfy the requirements of any debt service or reserve requirements of the resolution or resolutions or other contractual arrangements authorizing such bonds, notes or other obligations. After satisfaction of such requirements of any such resolution, resolutions, or other contractual arrangements or if the authority has not so pledged such moneys, such moneys so deposited, subject to the provisions of any other resolutions or contractual arrangements of the authority and the New York city transit authority and applicable provisions of law, may be transferred to or for the benefit of the authority and its subsidiaries and New York city transit authority and its subsidiaries. Revenues and other monies of the authority and its subsidiaries and New York city transit authority and its subsidiaries, respectively, which are deposited in the funds or accounts authorized by this section, as reduced by any application of such revenues or monies to the payment of debt service, reserve requirements, if any, and other costs attributable to the funding of the capital costs of such entity, shall be allocated, credited and distributed to such source entity. Any other revenues or monies which are deposited in the funds or accounts authorized by this section which are required by law to be allocated or paid to the authority or its subsidiaries or New York city transit authority or its subsidiaries, shall be allocated or paid to the entity to which it is required to be allocated or paid by law after reduction by an amount equal to the portion thereof applied to the payment of debt service, reserve requirements, if any, and other costs attributable to the funding of the capital costs of such entity. In determining the amount of debt service, reserve requirements, if any, and other costs attributable to the authority and its subsidiaries and the New York city transit authority and its subsidiaries, the authority shall make such calculation based upon the percentage of the proceeds of the bonds, notes and other obligations expended for the capital costs attributable to each such entity. The authority may utilize any interim
allocation of such distributions, provided that within ninety days after
the end of each calendar year, the authority shall certify that the
aggregate amount of moneys transferred to each of the authority and its
subsidiaries, and the New York city transit authority and its subsid-
aries in respect of such calendar year, taking into account any intera-
gency repayments or reimbursements anticipated to be made in the next
succeeding calendar year, is not less than the amounts required to be
paid or transferred to such entities.

3. For the purpose of appropriately aligning and allocating the ulti-
mate responsibility for debt service among and between the authority and
its subsidiaries, New York city transit authority and its subsidiaries,
or the Triborough bridge and tunnel authority, each being an "affiliated
group", and except as otherwise authorized or required by law, in
connection with the application of revenues, subsidies or other moneys
or securities of an affiliated group to pay the debt service attribut-
able to bonds, notes or other obligations which provide funding of the
capital costs of another affiliated group or to refund or redeem bonds,
notes or other obligations, the proceeds of which were used to fund the
capital costs of another affiliated group, the affiliated group for
whose benefit debt service is paid or obligations refunded or redeemed,
shall repay, through payments, adjustments or other form of reconcil-
iation, such amounts to the affiliated group that made such payments not
later than the end of the next succeeding fiscal year; provided, howev-
er, that in connection with any refunding or redemption of bonds, notes
or other obligations, such repayment, adjustments or other form of
reconciliation shall be completed within the period of the applicable
capital program plan.

§ 1349-ee. Regulation of certain authority expenditures. The authori-
ty shall implement policies as appropriate to minimize unwarranted
expenses and to protect against abuses in connection with (i) the grant-
ing of any privileges or benefits having financial value, other than
wage payments or expense reimbursements, to members or staff of the
authority, or any subsidiary or other authority created by the authori-
ty; and (ii) the full-time and part-time assignment and use of automo-
biles owned or leased by the authority, or any subsidiary or other
authority created by the authority, and the use by authority employees
and board members of livery vehicles, as defined in section one hundred
twenty-one-e of the vehicle and traffic law.

§ 1349-ff. Metropolitan transportation authority finance fund. 1. The
authority shall establish a fund to be known as the "metropolitan trans-
portation authority finance fund" which shall be kept separate from and
shall not be commingled with any other moneys of the authority.

2. Moneys in the fund may be: (a) pledged by the authority to secure
and be applied to the payment of the bonds, notes or other obligations
of the authority issued on or after the effective date of this section
to finance capital projects of the authority and its subsidiaries and
the New York city transit authority and any subsidiaries; or (b) used
for payment of capital costs, including debt service, reserve require-
ments, if any, the payment of amounts required under bond and note
facilities or agreements related thereto, the payment of federal govern-
ment loans, security or credit arrangements or other agreements related
thereto, and the payment of all costs related to such obligations, of or
for the authority, the New York city transit authority and their subsid-
aries as the authority shall determine. Subject to the provisions of
any such pledge, or in the event there is no such pledge, any excess
moneys in this fund may be used by the authority for payment of operat-
ing costs of, and capital costs, including debt service and reserve requirements, if any, of or for the authority, the New York city transit authority and their subsidiaries as the authority shall determine. To the extent moneys in the fund have been pledged by the authority to secure and pay the bonds, notes or other obligations of the authority issued to finance capital projects of the authority and its subsidiaries and the New York city transit authority and any subsidiaries as herein provided, moneys deposited into the fund shall be deposited to the extent necessary to satisfy the requirements of any debt service or reserve requirements, if any, of the resolution authorizing such bonds, notes or other obligations.

3. Any moneys deposited in the fund shall be held in the fund free and clear of any claim by any person arising out of or in connection with article twenty-three of the tax law. Without limiting the generality of the foregoing and without limiting the rights and duties of the commissioner of taxation and finance under article twenty-three of the tax law, a person shall have any right or claim against the authority, any of their bondholders, any of the authority's other subsidiaries or the New York city transit authority or any subsidiary to any moneys in or distributed from the fund or in respect of a refund, rebate, credit or reimbursement of taxes paid under article twenty-three of the tax law.

§ 1349-gg. New York city transportation assistance fund. 1. The authority shall create and establish a fund to be known as the "New York city transportation assistance fund" which shall be kept separate from and shall not be commingled with any other moneys of the authority. The New York city transportation assistance fund shall consist of three separate accounts: (i) the "subway action plan account"; (ii) the "outer borough transportation account"; and (iii) the "general transportation account".

2. Moneys in the subway action plan account shall be used for the exclusive purpose of funding the operating and capital costs of the metropolitan transportation authority's New York city subway action plan. Such funds may be used for infrastructure including construction, reconstruction, reconditioning and preservation of transportation systems, facilities and equipment, acquisition of property, and for operating costs including personal services, non-personal services, fringe benefits, and contractual services. Funds may also be used to pay or to reimburse the authority for its payment of debt service and reserve requirements on that portion of authority bonds and notes issued by the authority for capital costs of the metropolitan transportation authority's New York city subway action plan.

3. Moneys in the outer borough transportation account shall be used for the exclusive purpose of funding the operating and capital costs of metropolitan transportation authority facilities, equipment and services in the counties of Bronx, Kings, Queens and Richmond, and any projects improving transportation connections from such counties to New York county. Such funds may be used for infrastructure including construction, reconstruction, reconditioning and preservation of transportation systems, facilities and equipment, acquisition of property, and for operating costs including personal services, non-personal services, fringe benefits, and contractual services. Funds may also be used to fund a toll reduction program for any crossings under the jurisdiction of the metropolitan transportation authority or its subsidiaries or affiliates. Funds may also be used to pay or to reimburse the authority for its payment of debt service and reserve requirements on that portion of authority bonds and notes that have been issued by the
authority specifically for the authorized purpose of this account. Notwithstanding any law to the contrary, final approval of the use of any funds paid into the outer borough transportation account shall be approved by the mayor.

4. Moneys in the general transportation account shall be used for funding the operating and capital costs of the metropolitan transportation authority. Such funds may be used for infrastructure including construction, reconstruction, reconditioning and preservation of transportation systems, facilities and equipment, acquisition of property, and for operating costs including personal services, non-personal services, fringe benefits, and contractual services. Funds may also be used to pay or to reimburse the authority for its payment of debt service and reserve requirements on that portion of authority bonds and notes that have been issued by the authority specifically for the purposes of this account.

5. Any revenues deposited in the subway action plan account, the outer borough transportation account, or the general transportation account pursuant to subdivision one of this section shall be used exclusively for the purposes described, respectively, in subdivisions two, three, and four of this section. Such revenues shall only supplement and shall not supplant any federal, state, or local funds expended by the metropolitan transportation authority, such authority’s affiliates or subsidiaries for such respective purposes.

6. Any revenues deposited into the New York city transportation assistance fund pursuant to subdivision one of this section shall not be diverted into the general fund of the state, any other fund maintained for the support of any other governmental purpose, or for any other purpose not authorized by subdivisions two, three and four of this section.

7. The authority shall report on the receipt and uses of all funds received by the New York city transportation assistance fund, and in each of its accounts, to the director of the budget, the temporary president of the senate, and the speaker of the assembly, on an annual basis no later than the first day of February.

§ 1349-hh. Agreement of the state. The state does hereby pledge to and agree with the authority and its subsidiaries, the New York city transit authority and its subsidiaries, and the Triborough bridge and tunnel authority, and the holders of any notes, bonds or other obligations, including lease obligations, issued or incurred under this title, that the state shall not limit or alter the denial of authority under subdivision nine of section thirteen hundred forty-nine-u of this title, or the rights and powers vested in the authority and its subsidiaries, the New York city transit authority and its subsidiaries, and the Triborough bridge and tunnel authority by this title to fulfill the terms of any agreements made by any of them with the holders thereof, or in any way impair the rights and remedies of such holders until such notes, bonds or other obligations, including lease obligations, together with the interest thereon, with interest on any unpaid installments of interest, and all costs and expenses for which the authority or its subsidiaries, the New York city transit authority and its subsidiaries, and the Triborough bridge and tunnel authority is liable in connection with any action or proceeding by or on behalf of such holders, are fully met and discharged. The authority and its subsidiaries, the New York city transit authority and its subsidiaries, and the Triborough bridge and tunnel authority are each authorized to include this pledge and agreement of
the state in any agreement with the holders of such notes, bonds or
other obligations, including lease obligations.
§ 1349-ii. Right of state to require redemption of bonds. Notwith-
standing, and in addition to any provisions for the redemption of bonds
which may be contained in any contract with the holders of the bonds,
the state may, upon furnishing sufficient funds therefor, require the
authority to redeem, prior to maturity, as a whole, any issue of bonds
on any interest payment date not less than twenty years after the date
of the bonds of such issue at one hundred five per centum of their face
value and accrued interest or at such lower redemption price as may be
provided in the bonds in case of the redemption thereof as a whole on
the redemption date. Notice of such redemption shall be published in at
least two newspapers publishing and circulating respectively in the
cities of Albany and New York at least twice, the first publication to
be at least thirty days before the date of redemption.
§ 1349–jj. Remedies of noteholders and bondholders. 1. In the event

The authority shall be a body corporate and politic constituting a public benefit corporation. The authority shall consist of a chairperson, seven other voting members, and four non-voting members, as described in subparagraph (ii) of this paragraph, appointed by the governor and with the advice and consent of the senate. Any member appointed shall have experience in one or more of the following areas of expertise: transportation, public administration, business management, finance, accounting, law, engineering, land use, urban and regional planning, management of large capital projects, labor relations, or have experience in some other area of activity central to the mission of the authority. Each voting member other than the chairperson shall be appointed after selection from a written list of three recommendations from the chief executive officer of the county in which such member is required to reside pursuant to the provisions of this subdivision. Of the members appointed on recommendation of the chief executive officer of a county, one such member shall be, at the time of appointment: a resident of the county of Nassau; one a resident of the county of Suffolk; one a resident of the county of Westchester; one a resident of the county of Dutchess; one a resident of the county of Orange; one a resident of the county of Putnam; and one a resident of the county of Rockland. The chairperson and each of the members shall be appointed for a term of six years. The members from the counties of Dutchess, Orange, Putnam and Rockland shall cast one collective vote.

(ii) There shall be four non-voting members, as referred to in subparagraph (i) of this paragraph. The first non-voting member shall be a regular user of the facilities of the authority and be recommended to the governor by the Metro-North commuter council. The second non-voting member shall be a regular mass transit user of the facilities of the authority and be recommended to the governor by the Long Island Rail...
Road commuter council. The third non-voting member shall be recommended to the governor by the labor organization representing the majority of employees of the Long Island Rail Road. The fourth non-voting member shall be recommended to the governor by the labor organization representing the majority of employees of the Metro-North Commuter Railroad Company. The chairperson of the authority, at their direction, may exclude such non-voting member from attending any portion of a meeting of the authority or of any committee established pursuant to paragraph (b) of subdivision four of this section held for the purpose of discussing negotiations with labor organizations.

(b) Vacancies occurring otherwise than by expiration of term shall be filled in the same manner as original appointments for the balance of the unexpired term.

2. The chairperson and the first vice chairperson shall be paid a salary in the amount determined by the authority; the other members shall not receive a salary or other compensation. Each member, including the chairperson and the first vice chairperson, shall be entitled to reimbursement for actual and necessary expenses incurred in the performance of his or her official duties.

3. (a) A majority of the whole number of members of the authority then in office shall constitute a quorum for the transaction of any business or the exercise of any power of the authority. (b) For purposes of determining the presence of a quorum, and for purposes of participation on any committee or subcommittee, those members who collectively cast a single vote pursuant to the provisions of paragraph (a) of subdivision one of this section shall be considered to be a single member, and the presence of such member shall be determined as provided in this subdivision. Except as otherwise provided in a by-law adopted as hereinafter provided, such single member constituting those members entitled to a collective vote shall be deemed present as a single member for purposes of a quorum if one or more of the members then in office entitled to cast such collective vote is present, and such collective vote shall be cast in accordance with the majority agreement of the members entitled to a collective vote who are present or in the event a single member entitled to a collective vote is present it shall be cast by that member. To evidence the existence of such majority agreement among the members entitled to a collective vote, each such member shall be polled as to his or her vote and such poll shall be recorded in the minutes. In the event a majority vote is not achieved by the members entitled to a collective vote who are present, then the vote shall not be cast. Nothing herein shall limit the right of an individual member to participate in board meetings or in other activities of the authority when the other members then in office entitled to collectively cast a vote are not present. At any meeting of the authority at which there is a quorum including all the members then in office entitled to cast a collective vote, the authority may adopt a by-law or by-laws regulating the casting of such collective vote, provided all members then in office entitled to cast a collective vote affirmatively approve such by-law or by-laws. Any action taken by the authority in accordance with any such by-law or by-laws adopted pursuant to the provisions of this paragraph shall take effect in the same manner as any other action
of the authority. Any such by-law or by-laws shall not provide for the
casting of any fractional vote. Nor shall such a by-law or by-laws
provide for the amendment, repeal or adoption in the future of such a
by-law or by-laws in a manner other than that set forth in this para-
graph.
(c) No provision of paragraph (b) of this subdivision relating to the
adoption of certain by-laws by the authority shall affect the manner in
which by-laws of the authority are adopted concerning any subject other
than the voting and presence for quorum purposes of the members from the
counties of Dutchess, Putnam, Orange and Rockland.

4. (a) Notwithstanding any provision of law to the contrary, the
chairperson shall be the chief executive officer of the authority and

program plan; (vi) monitor the expenditures incurred and to be incurred
for each such element; and (vii) identify capital elements not progress-
ing on schedule, ascertain responsibility therefor and recommend those
actions required or appropriate to accelerate their implementation. The
capital program committee shall issue a quarterly report on its activi-
...
erties and findings, and shall in connection with the preparation of such quarterly report, consult with the division of the budget, the department of transportation, the governor, and any other group the committee deems relevant, including public employee organizations, and, at least annually, with a nationally recognized independent transit engineering firm. Such report shall be made available to the members of the authority, to the governor, and the directors of the municipal assistance corporation for the city of New York.

(c) The chairperson shall ensure that at every meeting of the board and at every meeting of each committee the public shall be allotted a period of time, not less than thirty minutes, to speak on any topic on the agenda.

(d) Notwithstanding paragraph (c) of subdivision one of section twenty-eight hundred twenty-four of this chapter or any other provision of law to the contrary, the chairperson shall not participate in establishing authority policies regarding the payment of salary, compensation and reimbursement to, nor establish rules for the time and attendance of, the chief executive officer. The salary of the chairperson, as determined pursuant to subdivision two of this section, shall also be compensation for all services performed as chief executive officer.

5. The authority shall be a "state agency" for the purposes of sections seventy-three and seventy-four of the public officers law.

6. Notwithstanding any inconsistent provisions of this or any other law, general, special or local, no officer or employee of the state, or of any public corporation, shall be deemed to have forfeited or shall forfeit his or her office or employment or any benefits provided under the retirement and social security law or under any public retirement system maintained by the state by reason of their acceptance of membership on or chairpersonship of the authority; provided, however, a member or chairperson who holds such other public office or employment shall receive no additional compensation for services rendered pursuant to this title, but shall be entitled to reimbursement for their actual and necessary expenses incurred in the performance of such services.

7. The governor may remove any member for inefficiency, neglect of duty, breach of fiduciary duty or misconduct in office after giving the member a copy of the charges against the member and an opportunity to be heard, in person or by counsel in the member's defense, upon not less than ten days' notice. If any member shall be so removed, the governor shall file in the office of the department of state a complete statement of charges made against such member, and his or her findings thereon, together with a complete record of the proceedings.

8. The authority shall continue so long as it shall have bonds or other obligations outstanding and until its existence shall be terminated by law. Upon the termination of the existence of the authority, all its rights and properties shall pass to and be vested in the state.

9. The purposes of the authority shall be the continuance, further development and improvement of commuter transportation and other services related thereto within the metropolitan commuter transportation district, except within the city of New York, including but not limited to such transportation by railroad, omnibus, marine and air, in accordance with the provisions of this title, in an efficient and cost-effective manner that includes the use of design-build contracting on all appropriate projects.

2. It is hereby found and declared that such purposes are in all respects for the benefit of the people of the state of New York and the authority shall be regarded as performing an essential governmental function in carrying out its purposes and in exercising the powers granted by this title.

The provisions of this section shall only apply to the owners of domestic companion animals who are evacuating from a region of the state affected by an emergency or disaster, or a local state of emergency, as defined in section twenty-four of the executive law.

(b) A domestic companion animal may be refused permission to board any commuter transportation, even if the animal is under the owner's control or properly confined in accordance with this subdivision if there is reasonable cause to believe that, due to attendant circumstances, permitting the animal to board would pose a health or safety hazard.

3. All passengers with service animals shall be given priority seating on all means of transportation regulated by this title in accordance with the federal "Americans with Disabilities Act of 1990", 42 U.S.C. s.12101 et seq. For the purposes of this section, "service animal" shall

12. The authority may conduct investigations and hearings in the furtherance of its general purposes, and in aid thereof have access to any books, records or papers relevant thereto. If any person whose testimony shall be required for the proper performance of the duties of the authority shall fail or refuse to aid or assist the authority in the conduct of any investigation or hearing, or to produce any relevant books, records or other papers, the authority is authorized to apply for process of subpoena, to issue out of any court of general original jurisdiction whose process can reach such person, upon due cause shown;

§ 1349-gggg. Contracts. 1. The provisions of this section shall not apply to:

(a) the award of any contract of the authority if the bid documents for such contract so provide and such bid documents are issued within sixty days of the effective date of this section; or

(b) for a period of one hundred eighty days after the effective date of this section, the award of any contract for which an invitation to bid, solicitation, request for proposal, or any similar document has
been issued by the authority prior to the effective date of this section.

2. (a) Except as otherwise provided in this section, all purchase contracts for supplies, materials or equipment involving an estimated expenditure in excess of one million dollars and all contracts for public work involving an estimated expenditure in excess of one million dollars shall be awarded by the authority to the lowest responsible bidder after obtaining sealed bids in the manner hereinafter set forth. For purposes hereof, contracts for public work shall exclude contracts for personal, engineering and architectural, or professional services. The authority may reject all bids and obtain new bids in the manner provided by this section when it is deemed in the public interest to do so or, in cases where two or more responsible bidders submit identical bids which are the lowest bids, award the contract to any of such bidders or obtain new bids from such bidders. Nothing in this paragraph shall obligate the authority to seek new bids after the rejection of bids or after cancellation of an invitation to bid. Nothing in this section shall prohibit the evaluation of bids on the basis of costs or savings including life cycle costs of the item to be purchased, discounts, and inspection services so long as the invitation to bid reasonably sets forth the criteria to be used in evaluating such costs or savings. Life cycle costs may include but shall not be limited to costs or savings associated with installation, energy use, maintenance, operation and salvage or disposal.

(b) Section twenty-eight hundred seventy-nine of this chapter shall apply to the authority’s acquisition of goods or services of any kind, in the actual or estimated amount of fifteen thousand dollars or more, provided: (i) that a contract for services in the actual or estimated amount of one million dollars or less shall not require approval by the board of the authority regardless of the length of the period over which the services are rendered, and provided further that a contract for services in the actual or estimated amount of one million dollars or more shall require approval by the board of the authority regardless of the length of the period over which the services are rendered unless such a contract is awarded to the lowest responsible bidder after obtaining sealed bids; and (ii) the board of the authority may by resolution adopt guidelines that authorize the award of contracts to small business concerns, to service disabled veteran owned businesses certified pursuant to article seventeen-B of the executive law, or minority or women-owned business enterprises certified pursuant to article fifteen-A of the executive law, or purchases of goods or technology that are recycled or remanufactured, in an amount not to exceed one million dollars without a formal competitive process and without further board approval. The board of the authority shall adopt guidelines which shall be made publicly available for the awarding of such contract without a formal competitive process.

(c)(i) Notwithstanding the provisions of paragraph (a) of this subdivision, the authority shall establish guidelines governing the qualifications of bidders entering into contracts for its project to bring the Long Island Rail Road into Grand Central Terminal, referred to as the "East Side Access Project" for the purposes of this section. The bidding may be restricted to those who have qualified prior to the receipt of bids according to standards fixed by the authority; provided, however, that the award of contracts shall, to the extent not inconsistent with this paragraph, be in accordance with paragraph (a) of this subdivision.
(ii) In determining whether a prospective bidder qualifies for the inclusion on a list of prequalified bidders for the East Side Access Project, the authority shall consider: (A) the experience and past performance of the prospective bidder; (B) the prospective bidder’s ability to undertake work, including but not limited to whether it participates in state approved apprenticeship programs and whether it utilizes employees who are represented by labor organizations; (C) the financial capability and responsibility of the prospective bidder; and (D) the records of the prospective bidder in complying with existing labor standards. The authority may also consider such other factors as it deems appropriate.

3. (a) Advertisement for bids, when required by this section, shall be published at least once in a newspaper of general circulation in the area served by the authority and in the procurement opportunities newsletter published pursuant to article four-C of the economic development law provided that, notwithstanding the provisions of article four-C of the economic development law, an advertisement shall only be required for a purchase contract for supplies, materials or equipment when required by this section. Publication in a newspaper of general circulation in the area served or in the procurement opportunities newsletter shall not be required if bids for contracts for supplies, materials or equipment are of a type regularly purchased by the authority and are to be solicited from a list of potential suppliers, if such list is or has been developed consistent with the provisions of subdivision six of this section. Any such advertisement shall contain a statement of: (i) the time and place where bids received pursuant to any notice requesting sealed bids will be publicly opened and read; (ii) the name of the contracting agency; (iii) the contract identification number; (iv) a brief description of the public work, supplies, materials, or equipment sought, the location where work is to be performed, goods are to be delivered or services provided and the contract term; (v) the address where bids or proposals are to be submitted; (vi) the date when bids or proposals are due; (vii) a description of any eligibility or qualification requirement or preference; (viii) a statement as to whether the contract requirements may be fulfilled by a subcontracting, joint venture, or co-production arrangement; (ix) any other information deemed useful to potential contractors; and (x) the name, address, and telephone number of the person to be contacted for additional information. At least fifteen business days shall elapse between the first publication of such advertisement or the solicitation of bids, as the case may be, and the date of opening and reading of bids.

(b) The authority may designate any officer or employee to open the bids at the time and place bids are to be opened and may designate an officer to award the contract to the lowest responsible bidder. Such designee shall make a record of all bids in such form and detail as the authority shall prescribe. All bids received shall be publicly opened and read at the time and place specified in the advertisement or at the time of solicitation, or to which the opening and reading have been adjourned by the authority. All bidders shall be notified of the time and place of any such adjournment.

4. Notwithstanding the foregoing, the authority may, by resolution approved by a two-thirds vote of its members then in office, or by a majority vote of its members with respect to contracts proposed to be let pursuant to paragraph (a) of this subdivision declare that competitive bidding is impractical or inappropriate because of the existence of any of the circumstances hereinafter set forth and thereafter the
authority may proceed to award contracts without complying with the
requirements of subdivision two or three of this section. In each case
where the authority declares competitive bidding impractical or inappro-
priate, it shall state the reason therefor in writing and summarize any
negotiations that have been conducted. Except for contracts awarded
pursuant to paragraphs (a), (b), (c) and (e) of this subdivision, the
authority shall not award any contract pursuant to this subdivision
earlier than thirty days from the date on which the authority declares
that competitive bidding is impractical or inappropriate. Competitive
bidding may only be declared impractical or inappropriate where:
(a) the existence of an emergency involving danger to life, safety or
property requires immediate action and cannot await competitive bidding;
or the item to be purchased is essential to efficient operation or the
adequate provision of service and as a consequence of an unforeseen
circumstance such purchase cannot await competitive bidding;
(b) the item to be purchased is available only from a single responsi-
ble source, provided that if bids have not been solicited for such item
pursuant to subdivision two of this section within the preceding twelve
months, public notice shall first be given pursuant to subdivision three
of this section;
(c) the authority receives no responsive bids or only a single respon-
sive bid in response to an invitation for competitive bids;
(d) the authority wishes to experiment with or test a product or tech-
nology or new source for such product or technology or evaluate the
service or reliability of such product or technology;
(e) the item is available through an existing contract between a
vendor and: (i) another public authority provided that such other
authority utilized a process of competitive bidding or a process of
competitive requests for proposals to award such contracts; (ii) Nassau
county; (iii) the state of New York; or (iv) the city of New York,
provided that in any case when under this paragraph the authority deter-
mines that obtaining such item thereby would be in the public interest
and sets forth the reasons for such determination. The authority shall
accept sole responsibility for any payment due the vendor as a result of
the authority’s order; or
(f) the authority determines that it is in the public interest to
award contracts pursuant to a process for competitive requests for
proposals as hereinafter set forth. For purposes of this section, a
process for competitive requests for proposals shall mean a method of
soliciting proposals and awarding a contract on the basis of a formal
evaluation of the characteristics, such as quality, cost, delivery sche-
dule and financing of such proposals against stated selection criteria.
Public notice of the requests for proposals shall be given in the same
manner as provided in subdivision three of this section and shall
include the selection criteria. In the event the authority makes a mate-
rial change in the selection criteria from those previously stated in
the notice, it will inform all proposers of such change and permit
proposers to modify their proposals;
(i) The authority may award a contract pursuant to this paragraph only
after a resolution approved by a two-thirds vote of its members then in
office at a public meeting of the authority with such resolution: (A)
disclosing the other proposers and the substance of their proposals; (B)
summarizing the negotiation process including the opportunities, if any,
available to proposers to present and modify their proposals; and (C)
setting forth the criteria upon which the selection was made.
(ii) Nothing in this paragraph shall require or preclude: (A) negotiations with any proposers following the receipt of responses to the request for proposals; or (B) the rejection of any or all proposals at any time. Upon the rejection of all proposals, the authority may solicit new proposals or bids in any manner prescribed in this section.

(g) The authority issues a competitive request for proposals pursuant to the procedures of paragraph (f) of this subdivision for the purchase or rehabilitation of rail cars and omnibuses. Any such request may include among the stated selection criteria the performance of all or a portion of the contract at sites within the state of New York or the use of goods produced or services provided within the state of New York, provided however that in no event shall the authority award a contract to a manufacturer whose final offer, as expressed in unit cost is more than ten percent higher than the unit cost of any qualified competing final offer, if the sole basis for such award is that the higher priced offer includes more favorable provision for the performance of the contract within the state of New York or the use of goods produced or services provided within the state of New York, and further provided that the authority's discretion to award a contract to any manufacturer shall not be so limited if a basis for such award, as determined by the authority, is superior financing, delivery schedule, life cycle, reliability, or any other factor the authority deems relevant to its operations;

(i) The authority may award a contract pursuant to this paragraph only after a resolution approved by a vote of not less than a two-thirds vote of its members then in office at a public meeting of the authority with such resolution; (A) disclosing the other proposers and the substance of their proposals; (B) summarizing the negotiation process including the opportunities, if any, available to proposers to present and modify their proposals; and (C) setting forth the criteria upon which the selection was made.

(ii) Nothing in this paragraph shall require or preclude: (A) negotiations with any proposers following the receipt of responses to the request for proposals; or (B) the rejection of any or all proposals at any time. Upon the rejection of all proposals, the authority may solicit new proposals or bids in any manner prescribed in this section.

5. Upon the adoption of a resolution by the authority stating, for reasons of efficiency, economy, compatibility or maintenance reliability, that there is a need for standardization, the authority may establish procedures whereby particular supplies, materials or equipment are identified on a qualified products list. Such procedures shall provide for products or vendors to be added to or deleted from such list and shall include provisions for public advertisement of the manner in which such lists are compiled. The authority shall review such list no less than twice a year for the purpose of making such modifications. Contracts for particular supplies, materials or equipment identified on a qualified products list may be awarded by the authority to the lowest responsible bidder after obtaining sealed bids in accordance with this section or without competitive sealed bids in instances when the item is available from only a single source, except that the authority may dispense with advertising provided that it mails copies of the invitation to bid to all vendors of the particular item on the qualified products list.

6. The authority shall compile a list of potential sources of supplies, materials or equipment regularly purchased. The authority shall, by resolution, set forth the procedures it has established to
identify new sources and to notify such new sources of the opportunity
to bid for contracts for the purchase of supplies, materials or equip-
ment. Such procedures shall include, but not be limited to: (a) adver-
tising in trade journals; (b) cooperation with federal, state and local
agencies within its area of operations; (c) publication in the state
register quarterly; and (d) procedures established pursuant to subdivi-
sion thirteen of section thirteen hundred forty-nine-j of this article.

7. The provisions of this section shall not supersede any other
provisions of law relative to purchases of products or devices manufac-
tured or provided by the blind or other severely handicapped persons, to
the invitation and acceptance of bids from small or minority business
enterprises or to the purchases of supplies, materials or equipment
through the office of general services. Except as may otherwise be
provided by law or as more restrictively defined in the official policy
or bid specifications of the authority, the term "small business" means
a small business or similar term, under federal regulations applicable
to projects of the authority which are federally assisted.

8. Notwithstanding any other provisions in this section, the authority
shall be allowed to use an electronic bidding system for the purchase of
goods, materials, and commodities that may inform bidders whether their
bid is the current low bid and allow bidders to submit new bids before
the date and time assigned for the opening of bids. Such procedure shall
not constitute disclosure of bids in violation of section twenty-eight
hundred seventy-eight of this chapter.

9. The provisions of this section shall not apply to any procurement
made by any other public entity not otherwise required by law to award
contracts for such purchases to the lowest responsible bidder if such
purchases are made at the sole cost and expense of such entity.

10. (a) Whenever the comptroller pursuant to section twenty-eight
hundred seventy-nine-a of this chapter intends to require supervision in
the form of prior review and approval of a contract or contract amend-
ment to be awarded by the authority pursuant to this section, then such
contract or contract amendment shall be submitted to the comptroller by
the authority for approval and shall not be a valid enforceable contract
unless it shall first have been approved by the comptroller but only if
the comptroller has notified the authority of such determination within
thirty days of having received written notice of such contract or
contract amendment either in the authority's annual report or any
revised report.

(b) If the comptroller has timely notified the authority as provided
in paragraph (a) of this subdivision that any contract or contract
amendment shall be subject to comptroller prior review and approval, and
such contract or contract amendment has been submitted to the comp-
troller, it shall become valid and enforceable without such approval if
the comptroller has not approved or disapproved it within thirty days of
submission to the comptroller.

11. The award of construction contracts by the authority shall not be
subject to the provisions of section one hundred one of the general
municipal law.

2. (a) Pursuant to these provisions, the authority may establish a small business mentoring program. In connection therewith, the authority may determine the criteria pursuant to which a small business shall be eligible for and selected to participate in the program under subpara-
graphs (i) and (ii) of paragraph (d) of subdivision one of this section,  
the number of participants to participate in each such components of the  
program, the criteria for the competitive selection of the firms that  
will provide small businesses with mentoring services, the assignment of  
a mentor to a specific small business in the small business mentoring  
program, and the funding for the program.  
(b) Under the small business mentoring program, the chairperson or the  
chairperson's designee is authorized, notwithstanding any other  
provision of law:  
(i) to designate which eligible public work contracts shall be small  
business mentoring program contracts under subparagraphs (i) and (ii) of  
paragraph (d) of subdivision one of this section, respectively;

the program submit responsive offers to perform the contract;  
(iii) to determine when bids or proposals for a small business mentor-  
ing program contract should be restricted to small business mentoring  
program participants which, prior to the receipt of bids or proposals,  
have been qualified by the authority for such competition;  
(iv) to competitively select, designate and contract with one or more  
experienced construction management firms that, under the general super-

(v) for small business mentoring program contracts, except as set  
forth herein, to waive requirements for the solicitation and award of a  
public work contract pursuant to sections thirteen hundred forty-nine-  
gggg and twenty-eight hundred seventy-nine of this chapter and any other  
provision of law;  
(vi) to assist only small business mentoring program participants that  
have been awarded small business mentoring program contracts to obtain  
any surety bond or contract of insurance required of them in connection  
with such contract only notwithstanding any provision of section two  
thousand five hundred four of the insurance law to the contrary; and  
(vii) for small businesses that have been accepted into the small  
business mentoring program under subparagraph (ii) of paragraph (d) of  
subdivision one of this section, in addition to the benefits of such  
program and notwithstanding any other provision of law, to provide tech-  
nical assistance in obtaining bids, payment and performance bonding for  
authority public work contracts that are not small business mentoring  
program contracts, for which the small business is otherwise qualified.  
3. (a) If the total number of qualified small business mentoring  
program participants that respond to a competition and are considered  
capable of meeting the specifications and terms of the invitation to  
compete is less than three, or if the chairperson or the chairperson's  
designee determines that acceptance of the best offer will result in the  
payment of an unreasonable price, the authority may reject all offers  
and withdraw the designation of the contract as a small business mentor-  
ing program contract.  
(b) If the authority withdraws the designation of contract as a small  
business mentoring program contract, the firms, if any, that made offers  
shall be notified. Invitations to compete containing the same or rewrit-  
ten specifications and terms shall then be re-issued as a small business  
mentoring program contract for one or more additional contract period.
4. A mentor shall provide services and assistance to a small business as designated by the authority, which may include the following:
   (a) provide business training in the skills necessary to operate a successful construction business and to compete for and perform a public work contract;

   (d) provide other technical assistance to the small business to facilitate learning, training and other issues which may arise.

5. The authority may delegate to the chairperson or the chairperson's designee the authority's responsibilities set forth herein.

6. The small business mentoring program contracts authorized by this legislation shall, for the initial year of the program, be in an aggregate amount of not less than ten million dollars, and shall not exceed one hundred million dollars, with the maximum amount in future years to be set by the chairperson.

§ 1349-iiii. Special powers of the authority. In order to effectuate the purposes of this title:

1. The authority may acquire, by purchase, gift, grant, transfer, contract or lease, any transportation facility other than a transit facility wholly or partially within the metropolitan commuter transportation district, or any part thereof, or the use thereof, and may enter into any joint service arrangements as hereinafter provided. Any such acquisition or joint service arrangement shall be authorized only by resolution of the authority approved by not less than a majority vote of the whole number of members of the authority then in office, except that in the event of a tie vote the chairperson shall cast one additional vote.

2. The authority may on such terms and conditions as the authority may determine necessary, convenient or desirable itself plan, design, acquire, establish, construct, effectuate, operate, maintain, renovate, improve, extend, rehabilitate or repair any transportation facility other than a transit project, or may provide for such planning, design, acquisition, establishment, construction, effectuation, operation, maintenance, renovation, improvement, extension, rehabilitation or repair by contract, lease or other arrangement on such terms as the authority may deem necessary, convenient or desirable with any person, including but not limited to any common carrier or freight forwarder, the state, any state agency, the federal government, any other state or agency or instrumentality thereof, any public authority of this or any other state, the port of New York authority or any political subdivision or municipality of the state. In connection with the operation of any transportation facility, the authority may plan, design, acquire, establish, construct, effectuate, operate, maintain, renovate, improve, extend or repair or may provide by contract, lease or other arrangement for the planning, design, acquisition, establishment, construction, effectuation, operation, maintenance, renovation, improvement, extension or repair of any related services and activities it deems necessary, convenient or desirable, including but not limited to the transportation and storage of freight and the United States mail, feeder and connecting transportation, parking areas, transportation centers, stations and related facilities.
3. (a) Except as directed in paragraph (c) of this subdivision, the authority may establish, levy and collect or cause to be established, levied and collected and, in the case of a joint service arrangement, join with others in the establishment, levy and collection of such fares, tolls, rentals, rates, charges and other fees as it may deem necessary, convenient or desirable for the use and operation of any transportation facility and related services operated by the authority or by a subsidiary corporation of the authority or under contract, lease or other arrangement, including joint service arrangements, with the authority. Any such fares, tolls, rentals, rates, charges or other fees for the transportation of passengers shall be established and changed only if approved by resolution of the authority adopted by not less than a majority vote of the whole number of members of the authority then in office, with the chairperson having one additional vote in the event of a tie vote, and only after a public hearing, provided however, that fares, tolls, rentals, rates, charges or other fees for the transportation of passengers on any transportation facility which are in effect at the time that the then owner of such transportation facility becomes a subsidiary corporation of the authority or at the time that operation of such transportation facility is commenced by the authority or is commenced under contract, lease or other arrangement, including joint service arrangements, with the authority may be continued in effect without such a hearing. Such fares, tolls, rentals, rates, charges and other fees shall be established as may in the judgment of the authority be necessary to maintain the combined operations of the authority and its subsidiary corporations on a self-sustaining basis. The said operations shall be deemed to be on a self-sustaining basis as required by this title, when the authority is able to pay or cause to be paid from revenue and any other funds or property actually available to the authority and its subsidiary corporations: (i) as the same shall become due, the principal of and interest on the bonds and notes and other obligations of the authority and its subsidiaries and the metropolitan transportation authority, together with the maintenance of proper reserves therefor; (ii) the cost and expense of keeping the properties and assets of the authority and its subsidiary corporations in good condition and repair; and (iii) the capital and operating expenses of the authority and its subsidiary corporations. The authority may contract with the holders of bonds and notes with respect to the exercise of the powers authorized by this section. No acts or activities taken or proposed to be taken by the authority or any subsidiary of the authority pursuant to the provisions of this subdivision shall be deemed to be "actions" for the purposes or within the meaning of article eight of the environmental conservation law.

(b) All fares, tolls, rentals, rates, charges, and other fees established, levied, and collected or caused to be established, levied, and collected, shall first be transferred to the metropolitan transportation authority in order to maintain the metropolitan transportation authority on a self-sustaining basis unless already pledged to secure, and necessary to satisfy the debt service or reserve requirements of, bonds, notes or other obligations of the authority prior to January first, two thousand twenty-two.

(c) In the event that the monthly revenues of the metropolitan transportation authority fall below one hundred twenty-five percent of the amount necessary to maintain the operations of the metropolitan transportation authority on a self-sustaining basis, as defined by section twelve hundred sixty-six of this article, the authority shall, at the
direction of the metropolitan transportation authority, establish, levy and collect or cause to be established, levied and collected, in the case of a joint service arrangement, and join with others in the establishment, levy and collection of such fares, tolls, rentals, rates, charges and other fees as the metropolitan transportation authority may deem necessary, convenient or desirable for the use and operation of any transportation facility and related services operated by the authority or by a subsidiary corporation of the authority or under contract, lease or other arrangement, including joint service arrangements, with the authority, until such time that monthly revenues of the metropolitan transportation authority has exceeded, for three consecutive months, two hundred percent of the amount necessary to maintain the operations of the metropolitan transportation authority on a self-sustaining basis.

4. The authority may establish and, in the case of joint service arrangements, join with others in the establishment of such schedules and standards of operations and such other rules and regulations including but not limited to rules and regulations governing the conduct and safety of the public as it may deem necessary, convenient or desirable for the use and operation of any transportation facility and related services operated by the authority or under contract, lease or other arrangement, including joint service arrangements, with the authority. Such rules and regulations governing the conduct and safety of the public shall be filed with the department of state in the manner provided by section one hundred two of the executive law. In the case of any conflict between any such rule or regulation of the authority governing the conduct or the safety of the public and any local law, ordinance, rule or regulation, such rule or regulation of the authority shall prevail. Violation of any such rule or regulation of the authority governing the conduct or the safety of the public in or upon any facility of the authority shall constitute an offense and shall be punishable by a fine not exceeding fifty dollars or imprisonment for not more than thirty days or both or may be punishable by the imposition of a civil penalty by the transit adjudication bureau established pursuant to the provisions of title nine of this article.

5. (a) The authority may acquire, hold, own, lease, establish, construct, effectuate, operate, maintain, renovate, improve, extend or repair any transportation facilities through, and cause any one or more of its powers, duties, functions or activities to be exercised or performed by, one or more wholly owned subsidiary corporations of the authority, and may transfer to or from any such corporations any moneys, real property or other property for any of the purposes of this title upon such terms and conditions as shall be agreed to and subject to such payment or repayment obligations as are required by law or by any agreement to which any of the affected entities is subject. The directors or members of each such subsidiary corporation of the authority corporation shall be the same persons holding the offices of members of the authority. The chairperson of the board of each such subsidiary shall be the chairperson of the authority, serving ex officio and, provided that there is an executive director of the commuter transportation authority, the executive director of such subsidiary shall be the executive director of the commuter transportation authority, serving ex officio. Notwithstanding any provision of law to the contrary, the chairperson shall be the chief executive officer of each such subsidiary and shall be responsible for the discharge of the executive and administrative functions and powers of each such subsidiary. The chairperson and executive director, if any, shall be empowered to delegate his or her func-
tions and powers to one or more officers or employees of each such subsidiary designated by him or her. Each such subsidiary corporation of the authority and any of its property, functions and activities shall have all of the privileges, immunities, tax exemptions and other exemptions of the authority and of the authority's property, functions and activities. Each such subsidiary corporation shall be subject to the restrictions and limitations to which the authority may be subject. Each such subsidiary corporation of the authority shall be subject to suit in accordance with section thirteen hundred forty-nine-lllll of this title. The employees of any such subsidiary corporation, except those who are also employees of the authority, shall not be deemed employees of the authority.

(b) If the authority shall determine that one or more of its subsidiary corporations should be in the form of a public benefit corporation, it shall create each such public benefit corporation by executing and filing with the secretary of state a certificate of incorporation, which may be amended from time to time by filing, which shall set forth the name of such public benefit subsidiary corporation, its duration, the location of its principal office, and any or all of the purposes of acquiring, owning, leasing, establishing, constructing, effectuating, operating, maintaining, renovating, improving, extending or repairing one or more facilities of the authority. Each such public benefit subsidiary corporation shall be a body politic and corporate and shall have all those powers vested in the authority by the provisions of this title which the authority shall determine to include in its certificate of incorporation except the power to contract indebtedness.

(c) Whenever any state, political subdivision, municipality, commission, agency, officer, department, board, division or person is authorized and empowered for any of the purposes of this title to co-operate and enter into agreements with the authority such state, political subdivision, municipality, commission, agency, officer, department, board, division or person shall have the same authorization and power for any of such purposes to co-operate and enter into agreements with a subsidiary corporation of the authority.

6. Each of the authority and its subsidiaries, in its own name or in the name of the state, may apply for and receive and accept grants of property, money and services and other assistance offered or made available to it by any person, government or agency, which it may use to meet capital or operating expenses and for any other use within the scope of its powers, and to negotiate for the same upon such terms and conditions as the respective authority may determine to be necessary, convenient or desirable.

7. The authority may lease railroad cars for use in its passenger service pursuant to the provisions of chapter six hundred thirty-eight of the laws of nineteen hundred fifty-nine.

8. (a) The authority may do all things it deems necessary, convenient or desirable to manage, control and direct the maintenance and operation of transportation facilities, equipment or real property operated by or under contract, lease or other arrangement with the authority and its subsidiaries. Except as hereinafter specially provided, no municipality or political subdivision, including but not limited to a county, city, village, town or school or other district shall have jurisdiction over any facilities of the authority and its subsidiaries, or any of their activities or operations. The local laws, resolutions, ordinances, rules and regulations of a municipality or political subdivision, heretofore or hereafter adopted, conflicting with this title or any rule or regu-
lation of the authority or its subsidiaries, shall not be applicable to
the activities or operations of the authority and its subsidiaries, or
the facilities of the authority and its subsidiaries, except such facil-
ities that are devoted to purposes other than transportation or transit
purposes. Each municipality or political subdivision, including but not
limited to a county, city, village, town or district in which any facil-
ities of the authority or its subsidiaries are located shall provide for
such facilities police, fire and health protection services of the same
character and to the same extent as those provided for residents of such
municipality or political subdivision.

(b) The jurisdiction, supervision, powers and duties of the department
of transportation of the state under the transportation law shall not
extend to the authority in the exercise of any of its powers under this
title. The authority may agree with such department for the execution by
such department of any grade crossing elimination project or any grade
crossing separation reconstruction project along any railroad facility
operated by the authority or by one of its subsidiary corporations or
under contract, lease or other arrangement with the authority. Any such
project shall be executed as provided in article ten of the transporta-
tion law and the railroad law, and the costs of any such project shall
be borne as provided in such laws, except that the authority’s share of
such costs shall be borne by the state.

9. Upon approval by the commissioner of transportation of the state of
New York of detailed plans and specifications, which approval may be
based upon considerations of relative need and the timing of
construction, the authority is authorized to design, construct, main-
tain, operate, improve and reconstruct a highway bridge crossing Long
Island sound, as follows:

(a) Upon: (i) the enactment by the state of Connecticut of legislation
having like effect as the provisions of this paragraph and the granting
of the consent of the congress of the United States of America to the
interstate compact thereby created; and (ii) in conformity with recom-
mandations of the New York-Connecticut bi-state bridge study commission,
the authority is authorized, in cooperation with any duly designated
agency or agencies of the state of Connecticut, to design, construct,
maintain, operate, improve and reconstruct a highway bridge crossing
Long Island sound from a point in the vicinity of the city of Bridgeport
in the state of Connecticut to a point in the vicinity of the village of
Port Jefferson in the state of New York, together with approaches to
such bridge; and to contract from time to time with such agency or agen-
cies of the state of Connecticut with respect to all matters affecting
these authorizations, including, without limitation, the sharing of all
capital, operational and maintenance expense, except that the capital
expense of the original construction of such bridge, other than the
expense of acquiring the needed real property, shall be in the ratio of
fifty per centum for the authority and fifty per centum for such agency
or agencies of the state of Connecticut, the manner and by whom the work
of design, construction, reconstruction, improvement, maintenance and
operation is to be performed or contracted to others for performance,
the tolls, fees and other charges to be imposed from time to time for
the use of such bridge, and the sharing of revenues derived from the
imposition of such tolls, fees and charges, except that net revenues
remaining after deduction of operational and maintenance expense of such
bridge shall be in the ratio of fifty per centum for the authority and
fifty per centum for the state of Connecticut or for such agency or
agencies of the state of Connecticut. Subject to the limitations imposed
upon the authority by the provisions of the said contracts, that portion of the said bridge and its approaches situate and lying within the territorial boundaries of the state of New York shall be deemed a "transportation facility" of the authority for all the purposes of this title, but tolls, fees and other charges imposed for the use of such bridge shall not be deemed to have been imposed "for the transportation of passengers" within the intendment of subdivision three of this section.

(b) If funds are made available by the authority for the payment of the cost and expense of the acquisition thereof, the commissioner of transportation of the state of New York, when requested by the authority, may acquire in the name of the state such real property lying within the territorial boundaries of the state as may be determined from time to time by the authority to be necessary, convenient or desirable to carry out the authorizations set forth in paragraph (a) of this subdivision and this paragraph, may remove the owner or occupant thereof where necessary and obtain possession and, when requested by the authority, may dispose of any real property so acquired, all according to the procedures provided in section thirty of the highway law. The authority shall have the right to possess and use for its corporate purposes all such real property so acquired. Claims for the value of the property appropriated and for legal damages caused by any such appropriation shall be adjusted and determined by the commissioner of transportation with the approval of the authority or by the court of claims as provided in section thirty of the highway law. When a claim has been filed with the court of claims, the claimant shall cause a copy of such claim to be served upon the authority and the authority shall have the right to be represented and heard before such court. All awards and judgments arising from such claims shall be paid out of moneys of the authority.

(c) The authority, acting independently or jointly or in cooperation with such agency or agencies of the state of Connecticut, may also apply for and accept, upon condition or otherwise, from the duly authorized agencies of the federal government, and of the governments of the states of Connecticut and New York, such underwater and overwater grants of real property, licenses or permits as shall be necessary, convenient or desirable to carry out the authorizations set forth in paragraphs (a) and (b) of this subdivision.

(d) The provisions of chapter four hundred forty-two of the laws of nineteen hundred sixty-five, and of any agreement entered into in pursuance thereof, relating to the repayment of a loan made by the state to the authority for the purchase of the Long Island Rail Road shall be inapplicable to: (i) the construction of such bridges and their approaches; (ii) bonds, notes or other obligations of the authority issued for or in connection with the financing of the cost of design, construction and reconstruction of such bridges and their approaches, or the proceeds realized upon such issuance; and (iii) revenues derived from the investment of such proceeds or of any part thereof, and from the imposition of tolls, fees or other charges for the use of such bridges.

10. Notwithstanding the provisions of any other law, general, special or local, or of any agreement entered into in pursuance thereof, relating to the repayment of any loan or advance made by the state to the authority, the authority shall not be required to repay any such loan or
advance heretofore made from or by reason of the issuance of bonds or notes or from the proceeds realized upon such issuance or from any other funds received from any source whatever in aid or assistance of the project or projects for the financing of which such bonds or notes are issued.

11. No project to be constructed upon real property theretofore used for a transportation purpose, or on an insubstantial addition to such property contiguous thereto, which will not change in a material respect the general character of such prior transportation use, nor any acts or activities in connection with such project, shall be subject to the provisions of article eight, nineteen, twenty-four or twenty-five of the environmental conservation law, or to any local law or ordinance adopted pursuant to any such article. Nor shall any acts or activities taken or proposed to be taken by the authority or by any other person or entity, public or private, in connection with the planning, design, acquisition, improvement, construction, reconstruction or rehabilitation of a transportation facility, other than a marine or aviation facility, be subject to the provisions of article eight of the environmental conservation law, or to any local law or ordinance adopted pursuant to any such article if such acts or activities require the preparation of a statement under or pursuant to any federal law or regulation as to the environmental impact thereof.

12. The authority and each of its subsidiary corporations shall place on each transformer and substation which contains polychlorinated biphenyls (PCBs) a symbol so indicating the presence of PCBs. Use of a PCB mark illustrated in the rules and regulations promulgated pursuant to the federal Toxic Substances Control Act shall constitute compliance with the provisions of this subdivision.

13. Notwithstanding any other provisions of law or the terms of any contract, the authority, in consultation with the Long Island Rail Road, shall establish and implement a no fare program for transportation on the Long Island Rail Road for police officers employed by the city of New York, county of Nassau, Nassau county villages and cities, county of Suffolk, Suffolk county villages and towns, the division of state police, the port authority of New York and New Jersey, the Metro-North Commuter Railroad Company, the New York city housing authority and the New York city transit authority. In establishing such program, which has as its goal increased protection and improved safety for its commuters, the authority and the Long Island Rail Road shall, among other things, consider: (a) requiring police officers who ride without cost to register with the Long Island Rail Road as a condition of riding without cost; (b) requiring such officers to indicate during such registration process their regular working hours and the Long Island Rail Road trains that such officers expect to ride; and (c) periodically re-registering and re-validating such officers. The authority and the Long Island Rail Road shall also have the power to consider other matters necessary to carry out the goals and objectives of this section.

14. § 1349-oooo. Excess loss fund. 1. Subject to the provisions of this
section, the authority is authorized to issue bonds and notes, in
accordance with section thirteen hundred forty-nine-xxxx of this title,
in such principal amounts not in excess of the seventy-five million
dollar limitation established in subdivision four of this section as, in
the opinion of the authority, shall be necessary to provide sufficient
funds to meet the capital and reserve requirements of a trust, pooling
arrangement or other entity established for the purpose of providing
reimbursement and funding to the authority and its subsidiaries for
excess or extraordinary losses for damages to real or personal property
or for the destruction thereof or for personal injuries or death and for
certain property damage losses which may be incurred or sustained by any
of them in connection with the use and operation of their respective
facilities and in the conduct of their respective activities, the trust,
pooling arrangement or other entity established in order to provide such
benefits to such participants being referred to in this section as the
"excess loss fund". Prior to the issuance of any bonds or notes, other
than refunding bonds or notes, authorized by this section, the authority
shall make a finding that such issue is expected to result, on a present
value basis, in a lower effective cost to the participating authorities
than funding the requirements of the excess loss fund solely through the
payment of premiums and assessments by such participating authorities.

2. In order to effectuate the purposes of the excess loss fund, the
authority shall, subject to the provisions of this section, have all the
powers provided elsewhere in this title and may:

(a) accept the notes, bonds and other contractual obligations of the
excess loss fund for funds provided to it by the authority;

(b) obtain security for the payment by the excess loss fund of its
notes, bonds and other contractual obligations issued to the authority,
including a pledge of all or any part of the assets and revenues of the
excess loss fund, including its receipts and rights to receive premiums,
assessments, reimbursements and other payments from the participants in
the excess loss fund, which pledge may contain covenants with respect to
the charging and fixing by actuarial estimates, where appropriate, of
premiums, assessments, reimbursements and other payments and the use and
disposition thereof; and

(c) enter into contracts with the excess loss fund and with the
participants therein, on such terms and conditions as the parties may
agree, with respect to the payment of premiums, assessments, reimburse-
ments and other payments to the excess loss fund and the nature and
extent of the benefits to be paid by the excess loss fund to such
participants.

3. The bonds and notes of the authority authorized by this section
shall not constitute general obligations of the authority, but shall be
special obligations of the authority payable as to principal, redemption
premium, if any, and interest solely from the security, sources of
payment and funds obtained from or on behalf of the excess loss fund,
all in the manner more particularly provided by the authority in the
resolution under which such bonds and notes shall be authorized to be
issued.

4. The aggregate principal amount of bonds and notes issued for the
purposes enumerated in subdivision one of this section shall not exceed
seventy-five million dollars, excluding: (a) bonds and notes issued to
fund costs of issuance and any reasonably required debt service reserve
fund for such bonds or notes; (b) an amount equal to any original issue
discount from the principal amount of any bonds or notes issued; and (c)
bonds and notes issued to refund or otherwise repay bonds or notes ther-
etofore issued for such purposes, provided, however, that upon any such
refunding or repayment of the total aggregate principal amount of
outstanding bonds and notes, including for purpose of such calculation
the principal amount of the refunding bonds or notes then to be issued
and excluding the principal amount of the bonds or notes so to be
refunded or repaid and any amounts excluded under paragraph (a) or (b)
of this subdivision, may be greater than seventy-five million dollars,
only if the present value of the aggregate debt service of the refunding
or repayment bonds or notes to be issued shall not exceed the present
value of the aggregate debt service of the bonds or notes so to be
refunded or repaid. For purposes of paragraph (c) of this subdivision,
the present values of the aggregate debt service of the refunding or
repayment bonds or notes and of the aggregate debt service of the bonds
or notes so to be refunded or repaid, shall be calculated by utilizing
the effective interest rate of the refunding or repayment bonds or
notes, which shall be that rate arrived at by doubling the semi-annual
interest rate, compounded semi-annually, necessary to discount the debt
service payments on the refunding or repayment bonds or notes from the
payment dates thereof to the date of issue of the refunding or repayment
bonds or notes and to the price bid including estimated accrued interest
or proceeds received by the authority including estimated accrued inter-
est from the sale thereof.

5. The term "excess loss fund" as used in this section shall not
include any trust, pooling arrangements or other entity: (a) which
provides or offers to provide reimbursement or funding for losses or
liabilities to any entity other than the authority and its subsidiaries;
or (b) in which any entity other than the authority and its subsidiaries
holds an equity interest.

§ 1349-pppp. Authority police force. 1. The authority is hereby
authorized and empowered, to provide and maintain an authority police
department and a uniformed authority police force. Each member of such
uniformed police force shall be a "police officer" for the purposes of
the criminal procedure law, with all of the powers of such police offi-
cers thereunder and subject to the same jurisdictional provisions on the
exercise of that power as set forth in such law. The geographical area
of employment of such police officers for the purposes of the criminal
procedure law shall embrace the metropolitan commuter transportation
district as defined in section twelve hundred sixty-two of this article.
Such department and force shall have the power, in and about any or all
of the facilities owned, occupied and/or operated by the authority and
its subsidiary corporations, as determined in the discretion of the
authority, to enforce and prevent violation of all laws and ordinances.
Nothing herein shall confer upon the authority police force or upon
their collective negotiations representatives exclusive jurisdiction or
claim over the exercise of police power or security work on behalf of
the authority and its subsidiary corporations. Nothing herein shall
limit the authority and its subsidiary corporations from continuing to
rely on local police for police services. However, traditional police
functions previously performed by the Long Island Rail Road Company
and/or the Metro-North Commuter Railroad Company police force shall
continue to be performed by the authority police forces.

2. Initial appointments to such authority police force shall be all
incumbent police officers from the Long Island Rail Road Company and/or
the Metro-North Commuter Railroad Company at the time of such appoint-
ment. The executive director of the authority, through the chief of
police, shall have the power and authority to appoint and employ such
number of police officers as he or she deems necessary to act as police
officers of the authority and to administer to the officers an oath or
affirmation faithfully to perform the duties of their respective posi-
tions or offices. Unless, at the time of appointment, the person is a
police officer of the Long Island Rail Road Company or the Metro-North
Commuter Railroad Company, only persons who have never been convicted of
a felony and are citizens of the United States shall be appointed police

officers on the authority police force. After the initial appointments are made, selection of police officer candidates shall be made pursuant to an examination process to be determined at the discretion of the authority and candidates shall receive a certificate attesting to satisfactory completion of an approved municipal police basic training program, as described in section two hundred nine-q of the general municipal law. No person shall be eligible for appointment unless such person is not less than twenty years of age as of the date of appointment nor more than thirty-five years of age as of the date when the applicant takes the written examination, provided, however, that time spent on military duty or on terminal leave, not exceeding a total of six years, shall be subtracted from the age of any applicant who has passed his or her thirty-fifth birthday as provided in subdivision ten-a of section two hundred forty-three of the military law. Upon appointments made by transferring an entire group of police officers into the authority police force, thereby eliminating such other group of police officers, the authority shall recognize any representative previously chosen by the police officers for the purposes of collective negotiations consistent with the bargaining units already established and shall also assume and continue to observe any existing labor contracts covering these police officers including such provisions which relate to the grievance and disciplinary procedures and interest arbitration. Subsequent to the establishment of the consolidated police force the authority and the collective bargaining representatives shall be authorized to negotiate a merger of the separate bargaining units.

3. The authority may appoint a chief and one or more deputy chiefs of the authority police department who, in the discretion of the authority, may be selected from the ranks of the authority police force, and assign powers and duties to them and fix their compensation. The chief shall be the head of such department. The deputy chief designated by the chief shall possess all the powers and perform all the duties of the chief during his or her absence or disability. The authority police force shall consist of such divisions, supervisors and officers, including but not limited to police officers, detectives, sergeants, lieutenants and captains as designated by the authority. Notwithstanding any law or provision to the contrary, the members of the uniformed authority police force shall not acquire civil service status or become members of the New York state and local employees' retirement system, except as set forth in this section.

4. The authority shall provide for a twenty year retirement plan under the same terms and conditions as provided by section three hundred eighty-nine of the retirement and social security law as enacted by chapter six hundred twenty-eight of the laws of nineteen hundred ninety-one; except that:

(a) any benefit provided pursuant to such plan shall be subject to an offset, as defined in this paragraph, for any tier II benefit payable pursuant to the federal Railroad Retirement Act to or in the respect of a member. The offset provided for by this paragraph shall be the amount of the tier II benefit which would be payable to or in respect to such member pursuant to the federal Railroad Retirement Act multiplied by a fraction, the numerator of which is the member's years of credited service covered by the federal Railroad Retirement Act rendered to, or credited by, the authority or any subsidiary corporation of the authority, and the denominator of which is the member's total years of service covered by the federal Railroad Retirement Act;

(b) references to the Long Island Rail Road shall be to the authority;
(c) the transfer of funds described in subdivision f of section three hundred eighty-nine of the retirement and social security law as enacted by chapter six hundred twenty-eight of the laws of nineteen hundred ninety-one shall include the Metro-North Commuter Railroad Company Defined Contribution Pension Plan for Agreement Employees;

(d) the provisions of subdivision g of section three hundred eighty-nine of the retirement and social security law as enacted by chapter six hundred twenty-eight of the laws of nineteen hundred ninety-one to the extent of requiring contributions for past service liability shall not be applicable; and

(e) when a police officer transferred from the Long Island Rail Road Company police force to the authority police force reaches age sixty-two the authority will offset the amount payable under this plan by the amount of tier II benefit payable from the Railroad Retirement Board for a service age annuity or disability payable at the participant's age sixty-two.

5. The authority may, in its sole discretion, establish within the authority's defined benefit program, a retirement program consistent with the foregoing. If the authority has not so established such program in its defined benefit program within one hundred eighty days after enactment, then the authority shall elect to participate in article fourteen-B of the retirement and social security law.

6. If the authority elects to participate in the New York state and local employees' retirement system, such election to participate shall be made by resolution filed with the comptroller and accepted by him or her pursuant to section thirty-one of the retirement and social security law.

7. Nothing herein contained shall be deemed to diminish, suspend or abolish an existing benefit inured to a police officer, transferred from the Long Island Rail Road Company and/or Metro-North Commuter Railroad Company police force and subject to the provisions of this section in and to the rights, privileges or status previously earned within a pension or retirement system of which they were a member immediately prior to the enactment of this section; and any such existing right, privilege or status shall survive the effect of any decisions or determinations lawfully made in accordance with the provisions hereof so long as such right, privilege or status is greater in benefit to that which would be imposed or imputed to any subject officer as a result of actions of the authority authorized herein.

§ 1349-qqqq. The permanent citizens advisory committee. There is hereby established a permanent citizens advisory committee. The members of the committee shall consist of the following members: the Long Island Rail Road commuter council and the Metro-North commuter council.

§ 1349-rrrr. Commuter transportation authority pledge to customers. 1. A commuter transportation authority pledge to customers shall be created and adopted by the commuter transportation authority. A copy of such pledge shall be posted on the website of the authority and shall be posted in stations where the authority makes regular postings. The authority shall post the pledge in the language or languages it deems necessary and appropriate.

2. The commuter transportation authority pledge to customers shall be in the form and manner as prescribed by the authority, include the contact information of the authority, and include, but not be limited to, the following:

(a) a description of the authority's commitment to provide safe and reliable services;
(b) a description of the authority’s commitment to provide timely and accurate information on its services;
(c) a commitment that employees will provide service in a courteous manner;
(d) a description of the authority’s commitment to maintain clean stations, facilities, and buses;
(e) a description of the authority’s policies when it comes to arranging alternative transportation when service is interrupted;
(f) when service is interrupted, a description of the authority’s policies when it comes to considering the comfort of inconvenienced customers;
(g) when service is interrupted due to weather conditions, a description of the authority’s policies on notifying customers;
(h) when service is severely interrupted, a description of the authority’s policies on service restoration.

3. The authority from time to time may update and amend the commuter transportation authority pledge to customers as it deems necessary and proper and may adopt rules and regulations for the proper administration of this section.

§ 1349-ssss. Expired fare transfer policy. Notwithstanding any other provision of law to the contrary, the authority shall, within ninety days of the effective date of this section, establish an expired fare transfer policy that may be amended from time to time. Such policy shall provide any person who purchases a fare the ability to transfer any remaining balance for two years after such fare is deemed expired.

§ 1349-tttt. Acquisition and disposition of real property. 1. In addition to the powers provided in section thirteen hundred forty-nine-iiii of this title to acquire transportation facilities, equipment and real property, the authority may acquire, by condemnation pursuant to the condemnation law, any real property it may deem necessary, convenient or desirable to effectuate the purposes of this title, provided however, that any such condemnation proceedings shall be brought only in the supreme court and the compensation to be paid shall be ascertained and determined by the court without a jury. Notwithstanding the foregoing provisions of this subdivision, no real property may be acquired by the authority by condemnation for purposes other than a transportation facility unless the governing body of the city, village or town in which such real property is located shall first consent to such condemnation.

2. Nothing herein contained shall be construed to prevent the authority from bringing any proceedings to remove a cloud on title or such other proceedings as it may, in its discretion, deem proper and necessary or from acquiring any such property by negotiation or purchase.

3. Where a person entitled to an award in the proceedings to condemn any real property for any of the purposes of this title remains in possession of such property after the time of the vesting of title in the condemnor, the reasonable value of his or her use and occupancy of such property subsequent to such time as fixed by agreement or by the court in such proceedings or by any court of competent jurisdiction shall be a lien against such award subject only to the liens of record at the time of vesting of title in the condemnor.

4. Subject to the provisions of sections thirteen hundred forty-nine-iiii of this title, title to all property acquired under this title shall vest in the authority or one of its subsidiary corporations as the authority directs.

5. The authority may, whenever it determines that it is in the interest of the authority, dispose of any real property or property other
than real property, which it determines is not necessary, convenient or
desirable for its purposes.

6. The authority may, whenever it shall determine that it is in the
interest of the authority, rent, lease, or grant easements or other
rights in, any land or property of the authority.

§ 1349-uuuu. Acquisition and disposition of real property by depart-
ment of transportation. If funds are made available by the authority for
the payment of the cost and expense of the acquisition thereof, the
commissioner of transportation of the state of New York, when requested
by the authority, may acquire such real property in the name of the
state as may be determined from time to time by the authority as being
necessary, convenient or desirable to effectuate the purposes of this
title, may remove the owner or occupant thereof where necessary and
obtain possession and, when requested by the authority, may dispose of
any real property so acquired, all according to the procedures provided
in section thirty of the highway law. The authority shall have the right
to possess and use for its corporate purposes all such real property so
acquired. Claims for the value of the property appropriated and for
legal damages caused by any such appropriation shall be adjusted and
determined by such commissioner with the approval of the authority or by
the court of claims as provided in section thirty of the highway law.
When a claim has been filed with the court of claims, the claimant shall
cause a copy of such claim to be served upon the authority and the
authority shall have the right to be represented and heard before such
court. All awards and judgments arising from such claims shall be paid
out of moneys of the authority. No real property may be acquired pursu-
ant to the provisions of this section for purposes other than a trans-
portation facility unless the governing body of the city, village or
town in which such real property is located shall first consent to such
acquisition. The provisions of this section shall not be applicable to
the acquisition or disposition of real property required for the
construction of the two highway bridges crossing Long Island sound
referred to in section thirteen hundred forty-nine-iiii of this title.
The authority shall be empowered to lease for such other purposes as the
authority may determine any part or parts of Republic airport not needed
for transportation purposes.

§ 1349-vvvv. Cooperation and assistance of other agencies. 1. To
avoid duplication of effort and in the interests of economy, the author-
ity may make use of existing studies, surveys, plans, data and other
materials in the possession of any state agency or any municipality or
political subdivision of the state. Each such agency, municipality or
subdivision is hereby authorized to make the same available to the
authority and otherwise to assist it in the performance of its func-
tions. At the request of the authority, each such agency, municipality
or subdivision which is engaged in highway or other transportation
activities or in land use or development planning, or which is charged
with the duty of providing or regulating any transportation facility or
any other public facility, is further authorized to provide the authori-
ity with information regarding its plans and programs affecting the
transportation district so that the authority may have available to it
current information with respect thereto. The officers and personnel of
such agencies, municipalities or subdivisions, and of any other govern-
ment or agency whatever, may serve at the request of the authority upon
such advisory committees as the authority shall determine to create and
such officers and personnel may serve upon such committees without
forfeiture of office or employment and with no loss or diminution in the compensation, status, rights and privileges which they otherwise enjoy.

2. The authority shall, at the request of any state agency, municipality or political subdivision of the state, engaged in highway or other transportation activities or in land use or development planning, provide said state agency, municipality or political subdivision with all current and relevant information regarding its plans or programs, so as to enable said agency, municipality or subdivision to properly effectuate said activities or planning.

3. To the extent that the provisions of this title authorize the authority to enter into any agreement or arrangement with, or undertake any other activity requiring the participation of, the Big Apple Transit, the New York city transit authority or any of their subsidiary corporations, in furtherance of their respective purposes and powers or the Triborough bridge and tunnel authority in furtherance of its purposes and powers, such entities are hereby authorized and empowered to enter into and perform such contract or other arrangement and to undertake such activities.

§ 1349-wwww. Promotion of qualified transportation fringes. The authority shall promote the broad use of qualified transportation fringes, under section 132(f) of the internal revenue code, in order to increase the number of participating companies and employees in such programs. The authority may also study and report on ways in which programs may be improved so as to increase public participation.

§ 1349-xxxx. Notes, bonds and other obligations of the authority. 1. (a) The authority shall have power and is hereby authorized from time to time to issue its bonds, notes and other obligations in such principal amount as, in the opinion of the authority, shall be necessary, convenient or desirable to effectuate any of its powers and purposes, including to provide sufficient funds for achieving its purposes, including the acquisition, establishment, construction, effectuation, operation, maintenance, renovation, improvement, extension, rehabilitation or repair of any transportation facility, the payment of principal, redemption premium and interest on bonds, notes and other obligations of the authority, establishment of reserves to secure such bonds, notes and other obligations, the provision of working capital and all other expenditures of the authority and its subsidiary corporations incident to and necessary or convenient to carry out their purposes and powers. Such bonds, notes or other obligations may be issued for an individual transportation facility or issued on a consolidated basis for such groups or classes of facilities and projects as the authority in its discretion deems appropriate and be payable from and secured separately or on a consolidated basis by, among other things, all or any portion of such revenues and other monies and assets of the authority and its subsidiary corporations as the authority determines in accordance with the provisions of section thirteen hundred forty-nine-ddddd of this title;

(b) The authority shall have power, from time to time, to issue renewal notes, to issue bonds to refund, redeem or otherwise pay, including by purchase or tender, notes of the authority and its subsidiary corporations and whenever it deems refunding, redemption or payment expedient, to refund, redeem or otherwise pay, including by purchase or tender, any bonds of the authority and its subsidiary corporations, by the issuance of new bonds, whether the bonds to be refunded, redeemed or otherwise paid have or have not matured, and to issue bonds partly for such purpose and partly for any other purpose and to otherwise refund,
redeem, acquire by purchase or tender, or in any other way repay any
outstanding notes, bonds or other obligations of the authority, and any
of its subsidiary corporations;
(c) Every issue of its notes, bonds or other obligations shall be
general obligations or special obligations. Every issue of general obli-
gations of the authority shall be payable out of any revenues or monies
of the authority, subject only to any agreements with the holders of
particular notes or bonds pledging any particular receipts or revenues.
Every issue of special obligations shall be payable out of any revenues,
receipts, monies or other assets of the authority and its subsidiary
corporations, identified for such purposes in accordance with agreements
with the holders of particular notes, bonds or other obligations. The
authority may issue transportation revenue special obligation bonds,
notes or other obligations as provided in section thirteen hundred
forty-nine-eeee of this title;
2. The authority may from time to time issue its bonds and notes in
such principal amounts as, in the opinion of the authority, shall be
necessary to finance the unfunded pension fund liabilities of the
authority, its affiliates and subsidiaries, provided, however, that in
no event shall the cumulative amounts of bonds and notes issued pursuant
to the authority of this subdivision exceed one billion two hundred
million dollars or sixty percent of such unfunded pension fund liabil-
ities, whichever is less, and provided, further, that no bonds shall be
issued under this subdivision for a term longer than twenty years. The
authority shall not issue bonds or notes in any twelve-month period in a
cumulative principal amount in excess of forty percent of the total
amount permitted to be issued under this subdivision. Prior to the issu-
ance of any bonds or notes, the authority shall make a finding that such
issue is expected to result, on a present value basis, in a lower effec-
tive cost to the authority than funding the unfunded pension fund liability solely through the payment of annual amounts to the pension
fund, assuming that the principal component of the unfunded liability
will be amortized over the same number of years as the term of the bonds
or notes and that the interest payable thereon is the actuarial rate of
interest determined by the actuary for the pension fund at the time of
the issuance of such bonds or notes. The aggregate principal amount of
bonds and notes issued for such purposes may be increased to fund costs
of issuance and may reasonably require debt service of other reserve
funds. Bonds and notes may be issued to refund or otherwise repay bonds
or notes theretofore issued for such purposes; provided, however, that
upon any such refunding or repayment, including for the purpose of such
calculation the principal amount of the refunding bonds or notes then to
be issued and excluding the principal amount of the bonds or notes so to
be refunded or repaid and also excluding any amounts used to pay costs
of issuance and reasonably required debt service or other reserve funds,
the present value of the aggregate debt service of the refunding or
repayment bonds or notes to be issued shall not exceed the present value
of the aggregate debt service of the bonds or notes so to be refunded or
repaid. For purposes of the preceding sentence, the present values of
the aggregate debt service of the refunding or repayment bonds or notes
and of the aggregate debt service of the bonds or notes so to be
refunded or repaid shall be calculated by utilizing the effective inter-
est rate of the refunding or repayment bonds or notes, which shall be
that rate arrived at by doubling the semi-annual interest rate, compounded semi-annually, necessary to discount the debt service
payments on the refunding or repayment bonds or notes from the payment
dates thereof to the date of issue of the refunding or repayment bonds or notes and to the price bid including estimated accrued interest or proceeds received by the authority including estimated accrued interest from the sale thereof. Debt service on the bonds or notes shall be structured so that the economic benefits thereof shall be relatively uniform for each full year throughout the term of the bonds or notes. Beginning with the date of first issuance of bonds under this section, the authority and its subsidiaries shall make annual payments into the pension fund in amounts at least equal to the current pension contribution liability applicable to such year. The net proceeds of the bonds or notes intended to be invested in non-debt securities may be invested by the recipient pension fund in a fiscally prudent manner in securities consistent with any trust indentures and all applicable state and federal law over a reasonable period of time not less than thirty days following the issuance of the bonds or notes. The operating budget savings associated with the issuance of pension obligation bonds pursuant to this subdivision shall be dedicated to reducing service eliminations projected to occur within that period.

3. The notes, bonds and other obligations shall be authorized by resolution approved by not less than a majority vote of the whole number of members of the authority then in office, except that in the event of a tie vote the chairperson shall cast one additional vote. Such notes, bonds and other obligations shall bear such date or dates, and shall mature at such time or times, in the case of any such note or any renewals thereof not exceeding five years from the date of issue of such original note, and in the case of any such bond not exceeding fifty years from the date of issue, as such resolution or resolutions may provide. The notes, bonds and other obligations shall bear interest at such rate or rates, be in such denominations, be in such form, either coupon or registered, carry such registration privileges, be executed in such manner, be payable in such medium of payment, at such place or places and be subject to such terms of redemption as such resolution or resolutions may provide. The notes, bonds and other obligations of the authority may be sold by the authority, at public or private sale, at such price or prices as the authority shall determine. No notes or bonds of the authority may be sold by the authority at private sale, however, unless such sale and the terms thereof have been approved in writing by (a) the comptroller, where such sale is not to the comptroller, or (b) the director of the budget, where such sale is to the comptroller.

4. Any resolution or resolutions authorizing any notes, bonds or any issue thereof, or any other obligations of the authority, may contain provisions, which shall be a part of the contract with the holders thereof, as to:

(a) pledging all or any part of the revenues of the authority or of any of its subsidiary corporations to secure the payment of the notes or bonds or of any issue thereof, or any other obligations of the authority, subject to such applicable agreements with bondholders, noteholders, or holders of other obligations of the authority and the metropolitan transportation authority, as may then exist;

(b) pledging all or any part of the assets of the authority or of any of its subsidiary corporations to secure the payment of the notes or bonds or of any issue of notes or bonds, or any other obligations of the authority, subject to such agreements with noteholders, bondholders, or holders of other obligations of the authority as may then exist;
(c) the use and disposition of revenues, including fares, tolls, rentals, rates, charges and other fees, made or received by the authority, or any of its subsidiary corporations;
(d) the setting aside of reserves or sinking funds and the regulation and disposition thereof;
(e) limitations on the purpose to which the proceeds of sale of notes, bonds or other obligations of the authority may be applied and pledging such proceeds to secure the payment of the notes or bonds or of any issue thereof or of other obligations;
(f) limitations on the issuance of additional notes, bonds or other obligations of the authority; the terms upon which additional notes, bonds or other obligations of the authority may be issued and secured; the redeeming of outstanding or other notes, bonds or other obligations of the authority;
(g) the procedure, if any, by which the terms of any contract with noteholders, bondholders, or holders of other obligations of the authority, may be amended or abrogated, the amount of notes, bonds or other obligations of the authority the holders of which shall consent thereto, and the manner in which such consent may be given;
(h) limitations on the amount of monies to be expended by the authority or any of its subsidiary corporations for operating, administrative or other expenses of the authority or any of its subsidiary corporations;
(i) vesting in a trustee or trustees such property, rights, powers and duties in trust as the authority may determine, which may include any or all of the rights, powers and duties of the trustee appointed by the bondholders, noteholders or holders of other obligations of the authority pursuant to this title, and limiting or abrogating the right of the bondholders, noteholders or holders of other obligations of the authority to appoint a trustee under this article or limiting the rights, powers and duties of such trustee;
(j) any other matters, of like or different character, which in any way affect the security or protection of the notes, bonds or other obligations of the authority.
5. In addition to the powers herein conferred upon the authority to secure its notes, bonds and other obligations, the authority shall have power in connection with the issuance of notes, bonds and other obligations to enter into such agreements as the authority may deem necessary, convenient or desirable concerning the use or disposition of the monies or property of any of the authority, its subsidiary corporations, including the mortgaging of any such property and the entrusting, pledging or creation of any other security interest in any such monies or property and the doing of any act, including refraining from doing any act, which the authority would have the right to do in the absence of such agreements. The authority shall have power to enter into amendments of any such agreements within the powers granted to the authority by this title and to perform such agreements. The provisions of any such agreements may be made a part of the contract with the holders of the notes, bonds and other obligations of the authority.
6. It is the intention hereof that any pledge, mortgage or security instrument made by the authority shall be valid and binding from the time when the pledge, mortgage or security instrument is made; that the monies or property so pledged, mortgaged and entrusted and thereafter received by the authority, or any of its subsidiary corporations shall immediately be subject to the lien of such pledge, mortgage or security instrument without any physical delivery thereof or further act; and
that the lien of any such pledge, mortgage or security instrument shall be valid and binding as against all parties having claims of any kind in tort, contract or otherwise against the authority, or any of its subsidiary corporations, irrespective of whether such parties have notice thereof. Neither the resolution nor any mortgage, security instrument or other instrument by which a pledge, mortgage lien or other security is created need be recorded or filed and neither the authority nor, any of its subsidiary corporations shall be required to comply with any of the provisions of the uniform commercial code.

7. Neither the members of the authority nor any person executing the notes, bonds or other obligations shall be liable personally on the notes, bonds or other obligations or be subject to any personal liability or accountability by reason of the issuance thereof.

8. The authority, subject to such agreements with the holders of notes, bonds or other obligations as may then exist, shall have power out of any funds available therefor to purchase notes, bonds or other obligations of the authority. The authority may hold, cancel or sell such bonds, notes and other obligations, subject to and in accordance with agreements with such holders.

9. Neither the state nor the city of New York shall be liable on notes, bonds or other obligations of the authority and such notes, bonds and other obligations shall not be a debt of the state or the city of New York, and such notes, bonds and other obligations shall contain on the face thereof, or in an equally prominent place, a statement to such effect.

10. So long as the authority has any outstanding bonds, notes or other obligations issued pursuant to this section, none of the authority or any of its subsidiary corporations shall have the authority to file a voluntary petition under chapter nine of the federal bankruptcy code or such corresponding chapter, chapters or sections as may, from time to time, be in effect, and neither any public officer nor any organization, entity or other person shall authorize the authority or any of its subsidiary corporations to be or become a debtor under chapter nine or said corresponding chapter, chapters or sections during any such period.

11. The term "monies" as used in this section shall include, but not be limited to, all operating subsidies provided by: (i) any public benefit corporation; or (ii) any governmental entity, federal, state or local and shall exclude all funds required to be transferred to the metropolitan transportation authority pursuant to section thirteen hundred forty-nine-iii of this title.

12. Any resolution or agreement authorizing the issuance of bonds, notes or other obligations pursuant to this section may, in addition, authorize and provide for the issuance of lease obligations of the authority which may be issued for the purposes and on the terms and conditions under which the bonds, notes and other obligations authorized under this section may be issued, and may be secured in the same manner as such bonds, notes and other obligations, and which resolution with respect to such lease obligations, may contain such other provisions applicable to bonds, notes and other obligations not inconsistent with the provisions of this section, as the authority may determine.

13. The aggregate principal amount of bonds, notes or other obligations issued after the effective date of this title by the authority to fund projects contained in capital program plans approved pursuant to section thirteen hundred forty-nine-yy of this title for the new capital program period shall not exceed the new capital program debt limit. Such aggregate principal amount of bonds, notes or other obligations or
the expenditure thereof shall not be subject to any limitation contained
in any other provision of law on the principal amount of bonds, notes or
other obligations or the expenditure thereof applicable to the authori-
ty. The aggregate limitation established by this subdivision shall not
include:
(a) obligations issued to refund, redeem or otherwise repay, including
by purchase or tender, obligations theretofore issued either by the
issuer of such refunding obligations or by the authority;
(b) obligations issued to fund any debt service or other reserve funds
for such obligations;
(c) obligations issued or incurred to fund the costs of issuance, the
payment of amounts required under bond and note facilities, federal or
other governmental loans, security or credit arrangements or other
agreements related thereto and the payment of other financing, original
issue premiums and related costs associated with such obligations;
(d) an amount equal to any original issue discount from the principal
amount of such obligations or to fund capitalized interest;
(e) obligations incurred in connection with the leasing, selling or
transferring of equipment; and
(f) bond anticipation notes or other obligations payable solely from
the proceeds of other bonds, notes or other obligations which would be
included in the aggregate principal amount specified in the opening
paragraph of this subdivision, whether or not additionally secured by
revenues of the authority, or any of its subsidiary corporations.
§ 1349-yyyy. Capital program plans; approvals; effect of disapproval.
1. (a) On or before the first of October next succeeding the effective
date of this section and every fifth year thereafter, the authority
shall submit to the governor a capital program plan for the ten-year
period commencing January first of the following year.
(b) Each such plan shall contain the capital program for the railroad
facilities, not including the Staten Island rapid transit operating
authority, under the jurisdiction of the authority.
(c) The plan shall set system-wide goals and objectives for capital
spending, establish standards for service and operations, and describe
each capital element proposed to be initiated in each of the years
covered by the plan and explain how each proposed element supports the
achievement of the service and operational standards established in the
plan. The plan shall also set forth an estimate of the amount of capital
funding required each year and the expected sources of such funding.
Each plan subsequent to the first such plan and each proposed amendment
or modification thereof shall also describe the current status of each
capital element included in the previously approved plan, if any. The
plan shall be accompanied or supplemented by such supporting materials
as the governor shall require.
(d) A capital element shall mean either a category of expenditure
itemized in a plan, as hereinafter provided, for which a specified maxi-
mum dollar amount is proposed to be expended, or a particularly
described capital project within one or more categories for which no
maximum expenditure is proposed, but for which an estimate of expected
cost is provided. A capital element shall be deemed to have been initia-
ated for purposes of this section if in connection with such element the
authority shall certify that: (i) purchase or construction contracts
have been entered into, obligating in the aggregate an amount exceeding
ten percent of the maximum or estimated cost of the element as set forth
in a plan; (ii) financing specific to the project has been undertaken;
or (iii) in a case where such element is limited to design or engineering, a contract therefor has been entered into.

2. The plan shall itemize the capital elements included in each section of the plan under the following categories of expenditure: (a) rolling stock and buses; (b) passenger stations; (c) track; (d) line equipment; (e) line structures; (f) signals and communications; (g) power equipment, emergency power equipment and substations; (h) shops, yards, maintenance facilities, depots and terminals; (i) service vehicles; (j) security systems; (k) electrification extensions; and (l) unspecified, miscellaneous and emergency.

3. A capital program plan shall be approved only by resolution of the authority approved by not less than a majority vote of the whole number of members of the authority then in office, except that in the event of a tie vote the chairperson shall cast one additional vote. After approval, the authority shall submit the plan to the governor, who has ninety days to approve the plan.

4. A copy of any capital program plan that has been approved by the authority and distributed to the governor shall be simultaneously provided to the public by the metropolitan commuter authority, via its official or shared internet website.

5. If the governor takes no action within ninety days after receiving the plan, the plan shall be deemed to have been approved.

6. If the governor vetoes the plan, the authority may only override the veto by unanimous vote.

7. If the governor vetoes the plan and the authority does not override the veto, the authority may thereafter formulate and resubmit such plan at any time. Within thirty days of the submission of such reformulated plan, the governor shall notify the authority of its approval, or, if the reformulated plan is not approved and the governor has not notified the authority of his or her disapproval within such period, the reformulated plan shall be deemed to have been approved.

8. No general obligation bonds or notes of the authority, no special obligation bonds or notes of the authority to finance a transit project shall be issued to finance the costs of a capital element unless such capital element and such source of funding was set forth in a plan approved as provided in this section.

9. The disapproval of a capital program plan shall not affect: (a) the right of the authority or of its subsidiaries to initiate and complete any capital element which will be financed otherwise than through the issuance of the bonds or notes the issuance of which is prohibited under subdivision four of this section; (b) the right of the authority to issue bonds or notes to finance a capital element which was initiated prior to such disapproval in conformity with a previously approved plan; or (c) the right of the authority to issue bonds or notes to refund or otherwise repay any of its outstanding bonds or notes or to fulfill any of their obligations to the holders of any of their outstanding bonds or notes.

10. Notwithstanding the provisions of subdivision eight of this section, if a source of funding described in an approved plan shall be unavailable or be available in a lesser amount than that set forth in such plan, the authority may issue bonds or notes as necessary to provide the requisite funding for the capital elements included in the plan to the extent that the aggregate amount of such bonds or notes to be issued in substitution for such unavailable amounts shall not exceed the greater of fifty million dollars or twenty percent of the total
amount described in such plan for either the substitute funding source
or the funding source being substituted for.

11. (a) The authority may from time to time submit to the governor
amendments or modifications to any ten-year plan theretofore submitted,
and shall submit such an amendment or modification: (i) if the estimated
cost of any capital element for which a specified dollar amount was
proposed to be expended exceeds the amount set forth in the approved
plan for such element by more than ten percent; (ii) if with respect to
a particularly described capital element for which only an estimate of
projected cost has been provided in the plan there is a material change
in the description of such element from that contained in the approved
plan; (iii) if a capital element not previously included in the approved
plan is proposed to be undertaken and its cost, together with the cost
of other elements included in category (1) of the plan, exceeds by ten
percent the amount provided for such category (1) elements; (iv) if the
authority shall propose to change by more than one year the time when
any capital element is proposed to be initiated or the effect of such
change will be to increase the estimated amount of capital funding
required in any year covered by the plan by more than twenty percent; or
(v) if the availability of funding sources changes to the degree to
which the authority is precluded from exercising the authorization
provided in subdivision six of this section and the authority wishes to
do so.

(b) An amendment or modification may only be approved in two ways: (i)
an amendment or modification shall only be approved by the governor and
within thirty days of the submission of an amendment or modification the
governor shall notify the authority of its approval of the same; or (ii)
if the amendment or modification is not approved by the governor within
such thirty day period and the governor has not notified the authority
in writing of his or her disapproval within such period, the amendment
or modification shall be deemed to have been approved.

12. In formulating its capital program plans, the authority shall give
consideration to the physical condition and urgency of need of each of
the several transportation and transit systems involved, to the needs of
all of the communities and areas serviced by these systems, to the
extent to which other capital aid or assistance may be available to each
of these systems, and to the safety, comfort and convenience of its
passengers. In determining the source or method of funding which the
authority is to use to finance the cost of the capital elements included
in its capital program plans, the authority shall, insofar as practicable,
give consideration, among other things, to: (a) the potential
impact of each such source or method upon the level of passenger fares;
(b) the relative cost of the several funding alternatives; and (c) the
relative ability of each source or method to provide funding at times
and in amounts estimated to be required by the capital program plan. To
the extent funding is proposed to be obtained through the issuance and
sale of bonds or notes, the authority shall, insofar as practicable and
consistent with the matters set forth in paragraphs (a), (b) and (c) of
this subdivision, give preference to the use of funds appropriated or to
be appropriated to the authority by virtue of service contracts with the
director of the budget entered into pursuant to the provisions of the
transportation systems assistance and financing act of 1981 for purposes
of paying the annual cost of debt service for such bonds or notes.

13. On or before the fourth first of October succeeding the effective
date of this subdivision, and on or before October first of every fifth
year thereafter, the authority shall submit to the governor a twenty-
year capital needs assessment. Such assessment shall begin with the
period commencing on the second first of January after such submission,
and begin each assessment with every fifth year thereafter, and describe
capital investments over the succeeding twenty years. Such assessment
shall: (a) set forth broad long-term capital investments to be made
throughout the district; and (b) establish a non-binding basis to be
used by the authority in the planning of strategic investments involving
capital elements in its five-year capital plans. Such assessment shall
not require the approval of the governor and shall be for informational
purposes only. For purposes of this section, "broad long-term capital
investments" shall include but not be limited to: system rebuilding,
enhancement, and expansion needs; agency needs broken down by capital
element or investment category; and projected future trends and network
implications. Such assessment shall be certified by the chairperson of
the authority and shall be entered into the permanent record of the
minutes of the review board.
§ 1349-zzzz. Submission of strategic operation plan. 1. On or before
the first of July next succeeding the effective date of this section,
the authority shall submit to the governor a strategic operation plan
for the commuter railroad services under the jurisdiction of the author-
ity for the five-year period commencing January first of the following
year. The plan may be amended as required but shall be updated at least
annually. The plan shall include, but need not be limited to, the
following:
(a) Long-range goals and objectives for the operation of services and

the transit industry, including such measures as planned number of vehi-

planned standards for cleanliness of the interior and exterior of commu-
ter rail cars, buses, and passenger stations, and other appropriate
measures of planned performance influencing the quality of services;
(c) Level and structure of fares projected for each year of the period
covered by the plan;

of performance and service;
(f) Strategies to improve productivity; control cost growth; integrate
and coordinate the delivery of services provided by the authority as
well as other public and private transportation providers in the service
area;
(g) Specific allocation of operating and capital resources by mode and
operation, including funds, personnel, and equipment;
(h) Configuration by mode, operation and route of the services to be provided and the facilities to be operated, identifying major planned changes in services and routes; and

An analysis of the relationship between specific planned capital elements contained in approved capital program plans and the achievement of planned service and performance standards. Such analysis shall include the relationship of specific planned capital elements to the achievement of such service and performance standards for each bus route or group of bus routes, or commuter rail lines, divisions or branches as appropriate.

2. Each annual update of the plan shall include a status report summarizing the extent to which planned service and performance standards developed for the previous year were achieved, the causes of any failure to achieve projected standards of service, and corrective measures the authority intends to take to avoid non-achievement of projected standards in the next upcoming year.

3. The commuter transportation authority shall take into consideration any petitions from local officials for improved services, including how these service improvements relate to the service and performance standards described in this section, and shall consult with appropriate local officials in its preparation and periodic updates to the operation plan.

§ 1349-aaaaa. Financial and operational reports. The authority shall submit to the governor, the temporary president of the senate and the speaker of the assembly, no later than thirty days following the submission of the annual independent audit report pursuant to section twenty-eight hundred two of this chapter, a complete detailed report or reports setting forth, to the extent such matters are not fully addressed in the annual independent audit report, the following:

2. The authority shall thereafter reexamine its mission statement and measurements on an annual basis, and publish on its website self evaluations based on the stated measures.

§ 1349-cccc. Requirements for certain authority contracts and related subcontracts. 1. Any contractor or subcontractor subject to the posting requirements of paragraph a of subdivision three-a of section two hundred twenty of the labor law with respect to a public works contract of the authority shall:

(a) post information conforming to the provisions of subdivision two of this section in one or more conspicuous places at each major work-place site where persons who perform work on the contract or subcontract, including management, are most likely to see such postings; provided that, this requirement may be satisfied by the displaying of such information with other notices that inform persons of rights under federal or state laws or rules, human resource policies, or collective bargaining agreements;

(b) post information conforming to the provisions of subdivision two of this section on an internet and intranet website, if any, of that person or business organization; provided that, this requirement may be satisfied by providing on such website a conspicuous hyperlink to the authority website maintained pursuant to subdivision three of this section, which hyperlink shall be labeled "Protections for Reporting Fraud in New York";

(c) distribute information specified in subdivision two of this section to those persons, including employees and managers, who perform work on the contract; provided that, this requirement may be satisfied by distributing such information in an employee handbook or through a specific electronic communication containing the information to a known electronic mail address maintained by the person; and

3. No later than forty-five days after the effective date of this section, the authority shall establish and continuously maintain on its public website and its intranet site a page that shall provide the information specified in subdivision two of this section, and that shall also provide sample statements, displays and other materials suitable for insertion in employee handbooks or posting at workplaces or on websites that would satisfy the disclosure requirements of this section.

4. The authority shall not enter into any contract described in subdivision one of this section that does not incorporate the terms of this section.

5. Material compliance by a covered person or business organization that has contracted with the authority under a contract that incorporates the terms of this section shall be a material condition of payment for the provision of goods or services.

6. The authority is authorized to adopt such rules and regulations as are necessary to effect the purposes of this section.

§ 1349-ddddd. Reserve funds and appropriations. The authority may create and establish one or more reserve funds in accordance with agree-
ments with bondholders, note holders or the holders of other obligations of the authority and may pay into such reserve funds: (a) any monies appropriated and made available by the state for the purposes of such funds; (b) any proceeds of sale of notes, bonds or other obligations to the extent provided in the resolution of the authority authorizing the issuance thereof; and (c) any other monies which may be made available to the authority for the purpose of such funds from any other source or sources. In lieu thereof, the authority may provide for the deposit therein of, or substitute for monies on deposit therein, a liquidity or credit facility, surety bond or other similar agreement.

§ 1349-eeeef. Consolidated financings. 1. Notwithstanding any incon-
sistent provisions of this or any other law, general, special or local, the authority may issue its notes, bonds and other obligations to finance transportation facilities utilizing a consolidated pledge of all or any portion of the revenues and other monies and assets of the authority and its subsidiaries, together with those other sources of payment described in this section. In connection therewith, at its discretion, the authority, subject to the rights of the holders of notes, bonds or other obligations of the authority, and the metropolitan transportation authority, may deposit or cause to be deposited into one or more funds and accounts: (a) all or any portion of the revenues, other monies and assets received by the authority and its subsidiaries; (b) all or any portion of the amounts from the operating and capital costs account of the metropolitan transportation authority dedicated tax fund required to be distributed to the authority under the provisions of section twelve hundred seventy-c of this article; (c) all or any portion of the available monies in the commuter railroad account of the metropolitan transportation authority special assistance fund established under the provisions of section twelve hundred seventy-a of this article
available for payment of operating and capital costs of the Long Island Rail Road company and the Metro-North Commuter Railroad Company as provided in subdivision three of section twelve hundred seventy-a of this article; and (d) any other monies of the authority and its subsidiaries from any source whatsoever.

2. Amounts so deposited in such funds or accounts may be: (a) pledged by the authority to secure, and be applied to, the payment of its bonds, notes or other obligations issued to finance transportation facilities undertaken for the authority and its subsidiaries; and (b) used for payment of operating costs, and capital costs, including debt service, reserve requirements, if any, the payment of amounts required under bonds, notes or other financing facilities or agreements, and the payment of all costs related to such obligations, of or for the authority and its subsidiaries as the authority in its full discretion shall determine. To the extent moneys so deposited have been pledged by the authority to secure and pay its bonds, notes or other obligations as herein provided, such moneys shall first be applied to satisfy the requirements of any debt service or reserve requirements of the resolution or resolutions or other contractual arrangements authorizing such bonds, notes or other obligations. After satisfaction of such requirements of any such resolution, resolutions, or other contractual arrangements or if the authority has not so pledged such moneys, such moneys so deposited, subject to the provisions of any other resolutions or contractual arrangements of the authority applicable provisions of law, may be transferred to or for the benefit of the authority and its subsidiaries. Revenues and other monies of the authority and its subsidiaries which are deposited in the funds or accounts authorized by this section, as reduced by any application of such revenues or monies to the payment of debt service, reserve requirements, if any, and other costs attributable to the funding of the capital costs of such entity, shall be allocated, credited and distributed to such source entity. Any other revenues or monies which are deposited in the funds or accounts authorized by this section which are required by law to be allocated or paid to the authority or its subsidiaries shall be allocated or paid to the entity to which it is required to be allocated or paid by law after reduction by an amount equal to the portion thereof applied to the payment of debt service, reserve requirements, if any, and other costs attributable to the funding of the capital costs of such entity. In determining the amount of debt service, reserve requirements, if any, and other costs attributable to the authority and its subsidiaries the authority shall make such calculation based upon the percentage of the proceeds of the bonds, notes and other obligations expended for the capital costs attributable to each such entity. The authority may utilize any interim allocation of such distributions, provided that within ninety days after the end of each calendar year, the authority shall certify to the director of the budget, the chairperson of the senate finance committee and the chairperson of the assembly ways and means committee, that the aggregate amount of monies transferred to each of the authority and its subsidiaries in respect of such calendar year, taking into account any interagency repayments or reimbursements anticipated to be made in the next succeeding calendar year, is not less than the amounts required to be paid or transferred to such entities.

§ 1349-fffff. Regulation of certain authority expenditures. The authority shall implement policies as appropriate to minimize unwarranted expenses and to protect against abuses in connection with: (a) the granting of any privileges or benefits having financial value, other
than wage payments or expense reimbursements, to members or staff of the
authority, or any subsidiary or other authority created by the authori-
ty; and (b) the full-time and part-time assignment and use of automo-

Such agreement shall provide, in the event a facility, operation, right or obligation is necessary and material to the provision of rail passenger service in the district or is not assignable under applicable bond covenants or contracts or the parties agree that it should not be assigned, that the authority or subsidiary thereof shall continue to hold and be responsible for such facility, operation, right or obligation and that such county shall reimburse to the authority that portion of the cost to the authority or subsidiary of its retention of such facility, operation, right or obligation that is allocable to such county. If the parties agree that the authority or subsidiary thereof shall operate the railroad facilities in a county after the effective date of such county's withdrawal, the agreement also shall provide for the terms and conditions of the operation of such service.

3. Within forty-five days of the effective date of this section, the authority and any subsidiary corporation of the authority shall provide to the counties of Dutchess, Orange and Rockland a written statement, including cost estimates and the useful life, if any, of all of its facilities, operations, rights and obligations relating to the provision of rail service in such counties.

4. The authority and any subsidiary corporation of the authority is authorized to enter into an agreement or agreements with a county that plans to withdraw from the district, pursuant to which the authority or subsidiary thereof will provide technical assistance to such county prior to, during and after the withdrawal, with respect to the transfer of ownership, operation, maintenance and use of railroad facilities within such county. Such agreement may provide that the county reimburse the authority or its subsidiary for the cost to the authority and its subsidiary for the provision of such technical assistance.
5. The authority shall have no obligation to undertake or continue any project or part thereof in a current or future capital program plan that pertains to railroad facilities within or services to a county that withdraws from the district on or after such date of withdrawal nor shall the authority enter into any contract for a project or part thereof which would increase liabilities pursuant to subdivision six of this section in a county after such county notifies the authority of its intent to withdraw as provided in subdivision one of this section, provided, however, that if the authority has executed a contract for the effectuation of a project or part thereof in a capital program plan in such county, it shall be assigned to such county in accordance with subdivision two of this section, unless the parties agree that it shall not be assigned and that the authority or its subsidiary shall continue to be responsible therefor, in which event the county shall reimburse the authority or its subsidiary in accordance with the provisions of subdivision two of this section.

6. Any county which withdraws from the district shall reimburse to the authority or its subsidiary, within the time period agreed to by the parties, any capital expenditures heretofore undertaken by the authority, the metropolitan transportation authority or its subsidiary for railroad facilities only within such county which were financed by commuter railroad revenue bonds issued by the metropolitan transportation authority pursuant to section twelve hundred sixty-nine of this article or by the authority pursuant to section thirteen hundred forty-nine-xxxx of this title and are assigned to such county in accordance with the provisions of subdivision two of this section.

7. The obligations of a county that withdraws from the district to reimburse the authority and any subsidiary corporation of the authority for the costs of operation, maintenance and use of passenger stations pursuant to section thirteen hundred forty-nine-rrrrrr of this title, shall continue for any such costs incurred up to the effective date of the county's withdrawal from the district and for costs incurred thereafter that result from acts preceding such withdrawal, and the applicability of the payment provisions and procedures of such section thirteen hundred forty-nine-rrrrrr to such county shall continue thereafter with respect to the aforesaid costs.

8. In the event of a county's failure to make payment of any monies determined by the authority to be owed and due it or any subsidiary corporation of the authority pursuant to the terms of any agreement entered into pursuant to this section, the authority is authorized to recover such payments in the same manner as in section thirteen hundred forty-nine-rrrrrr of this title and the state comptroller shall withhold and pay monies to the authority in accordance with the procedures set forth in that section.

9. The term of office of any resident of a county that withdraws from the district under this section, as a member of the board of the authority, the Metro-North rail commuter council or the management advisory board, which is based upon residence in such county, shall terminate upon the county's withdrawal and the office shall be deemed vacant and filled in the manner provided by law.

10. The provisions of this section and all agreements undertaken in accordance herewith shall be subject to the rights of the holders of any outstanding bonds or notes issued by the authority.

§ 1349-xxxxxx. The office of legislative and community input. 1. The chairperson of the authority shall establish the office of legislative and community input for the purpose of communicating information to, and
receiving comments, concerns and recommendations from, members of the legislature, and members of the permanent citizens advisory committee to the authority, as defined in section thirteen hundred forty-nine-qqqq of this chapter, on the following:

(a) the operations of the rapid transit, omnibus and commuter rail line facilities of the authority including, but not limited to:

(i) the quality of service provided on any rapid transit, omnibus, and commuter rail line or route;

(ii) the frequency of operating service on the authority's mass transit facilities;

(iii) the maintenance and condition of the authority's mass transit facilities including, but not limited to, rapid transit and commuter rail stations, railcars, buses, rail lines, fare collection systems and sound systems; and

(iv) proposed service changes, including any reductions or expansion of services, as it relates to the authority's mass transit facilities; and

(b) any proposed, submitted and/or approved capital program plan, its components, elements and projects, and associated expenditures. Any such comments, concerns and recommendations relating to the capital program plan, its components, elements and projects, and associated expenditures shall be taken into consideration in the development of the current and each successive capital program plan and/or any amendment to such plan.

2. The office shall establish a process to ensure timely notification of the receipt of, and response to, comments, concerns, and recommendations by members of the legislature or members of the permanent citizens advisory committee to the authority.

3. The chair and office shall prepare a report containing the following information:

(a) a compilation of the comments, concerns, and recommendations received by the office;

(b) how these comments, concerns or recommendations were or will be addressed, such as the authority's response by the incorporation or initiation of system and operational adjustments, improvements or expansions if applicable; and

(c) how these comments, concerns or recommendations were or will be addressed, such as the authority's response by changing or amending the capital plan, as well as providing status updates on the progress of such plan.

4. Such report shall on a biannual basis, commencing the first of September next succeeding the effective date of this section, be submitted to the governor, the temporary president of the senate and the speaker of the assembly, be posted on the authority's website and also be made readily available to the public.

§ 1349-yyyyy. Debarment. The authority shall establish, pursuant to regulation, a debarment process for contractors of the authority that prohibits such contractors from bidding on future contracts, after a debarment determination by such authority, for a period of five years from such determination. Such regulations shall ensure notice and an opportunity to be heard before such debarment determination and provide as a defense acts such as force majeure. Such regulations shall only provide for a debarment in situations involving a contractor's failure to substantially complete the work within the time frame set forth in the contract, or in any subsequent change order, by more than ten percent of the contract term; or where a contractor's disputed work exceeds ten percent or more of the total contract cost where claimed.
costs are deemed to be invalid pursuant by the contractual dispute resolution process.

§ 1349-zzzzz. Right to share employees. 1. It is hereby found and declared to be necessary and proper to authorize the authority, its subsidiaries, affiliates, and subsidiaries of affiliates, powers to effectuate and ensure such entities continued financial viability, which is at issue given sizable operating deficits and significant capital needs. Allowing wholesale internal management reforms will create savings, combat entrenched bureaucracies, create streamlined, uniform, and efficient services, ensure public accountability and reestablish public trust. In order to facilitate these necessary goals it is both reasonable and a legitimate public purpose to provide systematic author-

ity for the sharing of employees within and between the respective enti-
ties.

2. Notwithstanding any provision of law to the contrary, the authori-
ty, its subsidiaries, affiliates, and subsidiaries of affiliates shall each have the right to share employees within and between such entities and to assign such employees to perform any operation or function subject only to a determination that they are substantially similar to any operation or function currently performed. Substantially similar operation or function shall be determined exclusively by the authority.

3. Nothing set forth in this subdivision shall be construed to impede, infringe or diminish the rights and benefits that accrue to employees and employers through collective bargaining agreements, or impact or change an employee's membership in a bargaining unit.

§ 2. This act shall take effect January 1, 2022.

§ 2. Severability clause. If any clause, sentence, paragraph, subdivi-
sion, section or part of this act shall be adjudged by any court of competent jurisdiction to be invalid, such judgment shall not affect, impair, or invalidate the remainder thereof, but shall be confined in its operation to the clause, sentence, paragraph, subdivision, section or part thereof directly involved in the controversy in which such judg-
ment shall have been rendered. It is hereby declared to be the intent of the legislature that this act would have been enacted even if such invalid provisions had not been included herein.

§ 3. This act shall take effect immediately provided, however, that the applicable effective date of Parts A through E of this act shall be as specifically set forth in the last section of such Parts.
