STATE OF NEW YORK

6849

2021-2022 Regular Sessions

IN SENATE

May 19, 2021

Introduced by Sen. MAY -- read twice and ordered printed, and when printed to be committed to the Committee on Finance

AN ACT to amend the executive law, in relation to establishing an office of sustainability

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. The executive law is amended by adding a new section 94-d to read as follows:

§ 94-d. Office of sustainability. 1. Purpose. It shall be the purpose of the office to coordinate efforts across all agencies and other state government entities to address climate change mitigation and climate sustainability efforts.

2. Definitions. For the purposes of this section "office" shall mean the office of sustainability created pursuant to this section.

3. Office of sustainability; chief sustainability officer. There is hereby created within the department of state an office of sustainability. The secretary shall appoint a chief sustainability officer of the office to accomplish the duties set forth in this section. Such chief sustainability officer shall receive an annual salary within amounts appropriated and shall serve at the pleasure of the secretary.

4. Organization of the office. The secretary shall have the power to establish, consolidate, reorganize, or abolish any organizational units within the office as they determine to be necessary for the efficient operation of such office. The secretary shall assign functions to any such unit and may appoint staff, agents, and consultants, prescribe their duties, and fix their compensation within amounts appropriated.

5. Powers and duties of the office. The office shall have the power and duty to:

(a) Review rules and regulations of state agencies and submit proposed amendments and/or additions of such rules and regulations to such agencies for consideration that the chief sustainability officer shall deem

appropriate or necessary to help mitigate negative impacts of climate change and promote climate sustainability;

(b) Coordinate policy to promote energy and environmental sustainability across state government operations, including the office of general services, the New York state energy research and development authority, the department of environmental conservation, and the department of state;

(c) Work with state agencies and departments to ensure effective implementation and achievement of statutory requirements and state goals related to energy and environmental protection;

(d) Coordinate implementation of programs and initiatives to improve state facility and vehicle fleet efficiency, promote adoption of energy efficient technologies, and modernize state facilities and operations;

(e) Design and share with state agencies and departments strategies that can be used to leverage state facilities and assets to advance the conservation of natural resources and highlight best environmental, technological and policy strategies to reach the highest energy efficiency standards reasonably possible;

(f) Develop sustainable practices to plan for and mitigate enterprise risks while reducing waste and to help strengthen commercial, cultural, and political cooperation and engagement;

(g) Advise other state agencies and departments in best practices for environmental regulatory compliance, reporting, partnerships and outreach, and environmental sustainability innovation;

(h) Assist the department of state in reducing its use of natural resources through improving energy and water efficiency, and providing data and tools that protect the health of the state government's personnel and employees and their families;

(i) Partner with private sector businesses, public and private universities, and government agencies to improve environmental sustainability across the state;

(j) Participate in inter-agency working groups that develop environmental requirements and guidance for state agencies;

(k) Act as a representative of New York state at the United States Climate Alliance and other national and international organizations focused on climate science and sustainability research and goals that the chief sustainability officer shall deem appropriate;

(l) Inform the governor, secretary, legislature, and state agencies and other governmental entities of the latest research and developments in the field of climate science; and

(m) Advise and assist the New York state climate action council established pursuant to section 75-0103 of the environmental conservation law in such duties of such council that the chief sustainability officer shall deem appropriate.

§ 2. This act shall take effect on the first of January next succeeding the date on which it shall have become a law.
