AN ACT relating to publishing data on the effects of bail reform

## The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. Legislative intent. The timing of the recent surge in shootings and violent crime corresponds with the implementation of changes to the bail laws passed by the majorities in the legislature and signed by the governor as part of the 2019-2020 State Budget. Since the start of 2020, shootings, murders, assaults and other violent crimes have dramatically increased all across the state. Shootings in New York City increased nearly one hundred percent from 2019 to 2020 and this year shootings are up another fifty percent through July. Shootings in the metropolitan areas across the state outside of New York City were up seventy-five percent from 2019 to 2020 and another forty-one percent this year through July.

12 It is imperative that the state fully understands the ramifications of 13 the changes to the bail reform act. The data collected by this legis-14 lation will help with that endeavor.

- § 2. The Office of Court Administration in collaboration with the New York State Division of Criminal Justice Services shall collect data on the following information:
  - (a) The number of individuals that were charged with crimes that no longer qualify for bail, and a breakdown of those charges;
- 20 (b) The number of individuals released pending trial because the 21 offense no longer qualifies for bail and then re-offended while awaiting 22 trial; and
  - (c) The types of crimes committed by re-offenders awaiting trial.
- The data shall be published on the Office of Court Administration's website and the New York State Division of Criminal Justice Services' website in a searchable format.
- 27 § 3. This act shall take effect immediately, provided, however, the 28 data shall be published within thirty days of the effective date of this 29 act.
