2 system exists in the courtroom, microphones and related wiring essential
3 for media purposes shall be permissible provided they are unobtrusive
4 and shall be located in places designated in advance of any proceeding
5 by the judge or justice presiding over the proceeding.

6 (d) Any pooling arrangements among members of the media concerning
7 equipment and personnel shall be the sole responsibility of such members

12 issues, the judge or justice presiding over the proceeding may exclude
13 all contesting media personnel from a proceeding.

14 3. Livestreaming. (a) Within six months of the effective date of this
15 section, and subject to appropriation by the legislature, the chief
16 administrator of the courts shall provide for:

17 (i) the installation and maintenance of cameras in all Supreme, Coun-
18 ty, City, and Appellate courtrooms;

19 (ii) the transmission of live proceedings on a publicly available
20 website, free of charge, in audio-visual form; and

21 (iii) the preservation of all recordings in archival form on a public-

32 4. Sound and light criteria. Video and audio equipment, including
33 still camera equipment, whether film or digital, shall not be permitted
34 if it produces disorienting sound or light. No artificial lighting
35 device of any kind shall be used in connection with the video equipment
36 or still camera.

37 5. Location of equipment personnel. Video camera equipment and still
38 camera photographers shall be positioned in such location in the court-
39 room as shall be designated by the chief administrative judge of the
40 court or the chief administrative judge's designee. The area designated

7 otape, still photographs, or audio reproductions captured or recorded
8 during or by virtue of coverage of a judicial proceeding shall not be
9 admissible as evidence in the proceeding out of which it arose, in any
10 proceeding subsequent or collateral thereto, or upon retrial or appeal
11 of such proceedings.

12 10. Written order. An order restricting audio-visual coverage with
13 respect to a particular participant shall be in writing and be included
14 in the record of such proceeding. The order must state good cause why
15 such coverage will have a substantial effect upon the individual which
16 would be qualitatively different from the effect on members of the
17 public in general and that such effect will be qualitatively different
18 from coverage by other types of media. Before prohibiting audio-visual
19 coverage, the presiding judge must first consider the imposition of
20 special limitations, such as a delayed or modified still or audio-visual
21 coverage of the proceedings.

32 Judge, 22 NYCRR Part 29, and any other court rule regarding audio-visual
33 coverage of judicial proceedings.
