STATE OF NEW YORK

8075

IN SENATE

January 24, 2022

Introduced by Sen. CLEARE -- read twice and ordered printed, and when printed to be committed to the Committee on Health

AN ACT to amend the public health law and the environmental conservation law, in relation to the remediation of lead contaminated soil

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. Section 206 of the public health law is amended by adding a new subdivision 32 to read as follows:

32. The commissioner in consultation with the commissioner of environmental conservation shall require that areas containing lead-contaminated soil shall have the levels of lead contamination decreased to the level of three hundred ppm (parts per million) for residential zoned areas and one thousand ppm for areas zoned for commercial and/or industrial development.

§ 2. Subdivision 1 of section 3-0301 of the environmental conservation law is amended by adding a new paragraph nn to read as follows:

nn. Require, in consultation with the commissioner of public health, as required by subdivision thirty-two of section two hundred six of the public health law, that areas containing lead-contaminated soil have the levels of lead contamination decreased to the level of three hundred ppm (parts per million) for residential zoned areas and one thousand ppm for areas zoned for commercial and/or industrial development.

§ 3. This act shall take effect on the ninetieth day after it shall have become a law. Effective immediately, the addition, amendment and/or repeal of any rule or regulation necessary for the implementation of this act on its effective date are authorized to be made and completed on or before such date.

EXPLANATION--Matter in *italics* (underscored) is new; matter in brackets [-] is old law to be omitted.
