30 emergency medical services practitioners as a patient care team member,  
31 for emergency, non-emergency, specialty, low acuity, preventative, or  
32 interfacility care; emergency and non-emergency medical dispatch; coor-  
33 ordination of emergency medical system equipment and personnel; assess-  
34 ment; treatment, transportation, routing, referrals and communications  
35 with treatment facilities and medical personnel; public education, inju-  
36 ry prevention and wellness initiatives; administration of immunizations  
37 as approved by the state emergency medical services council; and  
38 follow-up and restorative care.

39 § 6. Section 3002 of the public health law is amended by adding a new  
40 subdivision 9 to read as follows:

41 9. The state council shall advise the commissioner on such issues as  
42 the commissioner may require related to the provision of emergency  
43 medical service, specialty care, designated facility care, and disaster  
44 medical care, and assist in the coordination of such service and care.  
45 This shall include, but is not limited to, the recommendation, periodic  
46 revision, and application of rules and regulations, appropriateness  
47 review standards, treatment protocols, and quality improvement stand-  
48 ards. Such rules, regulations, standards and protocols shall be region-

52 new subdivisions 11 and 12 to read as follows:

53 11. Each regional council shall advise the state emergency medical  
54 services council, the commissioner and the department on such issues as  
55 the state emergency medical services council, the commissioner and the  
56 department may require related to the provision of emergency medical

1 service, specialty care, designated facility care, and disaster medical  
2 care, and assist in the regional coordination of such service and care.

3 12. Each regional council shall advise the state emergency medical  
4 services council, the commissioner and the department on the appropriate

20 Standards and requirements of the quality and sustainability assurance  
21 program may be regionalized. The commissioner is hereby authorized to  
22 promulgate regulations related to the standards and requirements of the  
23 quality and sustainability assurance program. Quality and sustainability  
24 assurance programs shall require each emergency medical services agency  
25 to perform regular and periodic review of quality and sustainability

28 system sustainability, and continuous monitoring of care provided. The  
29 department may contract for services with subject matter experts to  
30 assist in the oversight of these metrics statewide. The department may  
31 delegate authority to oversee these metrics and regulations to counties  
32 or other contractors as determined by the commissioner. Emergency  
33 medical services agencies that do not meet the standards and require-  
34 ments set forth in the quality assurance program set by the commissioner  
35 may be subject to enforcement actions, including but not limited to  
36 revocation, suspension, performance improvement plans, or restriction

38 sion of the ability to respond to requests for emergency medical assist-  
39 ance or to perform emergency medical services.

40 § 9. The public health law is amended by adding a new section 3018 to  
41 read as follows:

43 department, in consultation with the state emergency medical advisory

46 medical system within the state, which shall include but not be limited  
47 to:

48 (a) establishing a comprehensive statewide emergency medical system,  
49 incorporating facilities, transportation, workforce, communications, and

52 (b) improving the accessibility of high-quality emergency medical  
53 service;

54 (c) coordinating with professional medical organizations, hospitals,  
55 and other public and private agencies to develop approaches for persons

3 (d) conducting, promoting, and encouraging programs of education and  
4 training designed to upgrade the knowledge and skills of emergency  
5 medical service practitioners throughout the state with emphasis on  
6 regions underserved by emergency medical services.

7 2. The statewide comprehensive emergency medical system plan shall be  
8 reviewed, updated if necessary, and published every five years on the  
9 department's website, or at such earlier times as may be necessary to  
10 improve the effectiveness and efficiency of the state's emergency  
11 medical service system.

12 3. Each regional emergency medical advisory committee shall develop  
13 and maintain a comprehensive regional emergency medical system plan that  
14 shall provide for a coordinated emergency medical system within the  
15 region. Such plans shall be subject to review by the state emergency  
16 medical advisory committee and approval by the department.

17 4. Each county shall develop and maintain a comprehensive county emer-  
18 gency medical system plan that shall provide for a coordinated emergency  
19 medical system within the county. The county office of emergency medical  
20 services shall be responsible for the development and maintenance of the

33 section three thousand eighteen of this article. The commissioner may  
34 promulgate regulations to provide for standards on the determination of  
35 need. The department shall issue a new emergency medical system agency  
36 certificate only upon a determination that a public need for the  
37 proposed service has been established pursuant to regulation. If the  
38 department determines that a public need exists for only a portion of a  
39 proposed service, a certificate may be issued for that portion. Prior to  
40 reaching a final determination of need, the department shall forward a  
41 summary of the proposed service including any documentation received or  
42 subsequent reports created thereto, to the state emergency medical  
43 services advisory council for review and recommendation to the depart-  
44 ment on the approval of the application. An applicant or other concerned  
45 party may appeal any determination made by the department pursuant to  
46 this section within fourteen days. Appeals shall be heard pursuant to  
47 the provisions of section twelve-a of this chapter, and a final determi-  
48 nation as to need shall be made by the commissioner upon review of the  
49 report and recommendation by the presiding administrative law judge.

50 (b) Notwithstanding the provisions of paragraph (a) of this subdivi-  
51 sion, the commissioner may promulgate regulations to provide for the  
52 issuance of an emergency medical system agency certificate without a  
53 determination of public need.

54 § 11. The public health law is amended by adding a new section 3019 to  
55 read as follows:

1 § 3019. Emergency medical systems training program. 1. There is hereby  
2 established a training program for emergency medical systems that  
3 includes students, emergency medical service practitioners, agencies,

16 contract, emergency medical system training for emergency medical  
17 service practitioners and emergency medical system agency personnel,  
18 develop and distribute training materials for use by instructors, and to  
19 recruit additional instructors to provide training.

20 4. The department may visit and inspect any emergency medical system  
21 training program or training center operating under this article and the

27 emergency medical system mental health and wellness program that  
28 provides resources to emergency medical service practitioners to reduce

30 outcomes; and increase safety.

31 7. The department may create or adopt with the approval of the commis-  
32 sioner additional standards, training and criteria to become a credent-  
33 ialled emergency medical service practitioner to provide specialized,  
34 advanced, or other services that further support or advance the emergen-  
35 cy medical system.

36 § 12. This act shall take effect immediately.
