result in the prompt submission of a request to the national tracing center of the bureau of alcohol, tobacco, firearms and explosives to trace the movement of the subject gun and such federal agency will be requested to provide the results of such a trace to the superintendent of the division of state police and to the law enforcement agency that submitted the clearinghouse report.

5. [~~In any case where a state or local law enforcement agency investigates the commission of a crime in this state and a specific gun is known to have been used in such crime, such agency shall submit a request to the national tracing center of the United States Department of Treasury, bureau of alcohol, tobacco and firearms to trace the movement of such gun and such federal agency shall be requested to provide the superintendent of the division of state police and the local law enforcement agency with the results of such a trace. This subdivision shall not apply where the source of a gun is already known to a local law enforcement agency.~~] All state and local law enforcement agencies shall participate in the bureau of alcohol, tobacco, firearms and explosives collective data sharing program for the purpose of sharing gun trace reports among all law enforcement agencies in the state on a reciprocal basis.

6. (a) Whenever a state or local law enforcement agency seizes or recovers a gun that was unlawfully possessed, recovered from the scene of a crime, or is reasonably believed to have been used or associated with the commission of a crime, or is recovered by the agency as an abandoned or discarded gun, the agency shall arrange for every such gun that is determined to be suitable for test-firing and of a type that is eligible for national integrated ballistic information network data entry and correlation to be test-fired as soon as practicable, and the results of that test-firing shall be submitted forthwith to the national integrated ballistic information network to determine whether the gun is associated or related to a crime, criminal event, or any individual associated or related to a crime or criminal event or reasonably believed to be associated or related to a crime or criminal event.

(b) Whenever a state or local law enforcement agency recovers any ammunition cartridge case that is of a type that is eligible for national integrated ballistic information network data entry and correlation at a crime scene, or has reason to believe that such recovered ammunition cartridge case is related to or associated with the commission of a crime or the unlawful discharge of a gun, the agency shall, as soon as practicable, arrange for the ballistics information to be submitted to the national integrated ballistic information network.

7. Whenever a state or local law enforcement agency seizes or recovers any gun, the agency shall promptly enter the make, model, caliber, and serial number of the gun into the national crime information center (NCIC) system to determine whether the gun was reported stolen.

8. The superintendent may adopt rules and regulations to effectuate the provisions of this section.

§ 2. This act shall take effect on the one hundred eightieth day after it shall have become a law.
