FISCAL NOTE.--Pursuant to Legislative Law, Section 50:

SUMMARY OF BILL: This proposed legislation would amend Section 208-f  
of the General Municipal Law (GML) to provide Special Accidental Death  
Benefits (SADB) to eligible beneficiaries of members of the New York  
City Employees' Retirement System (NYCERS) who are employed in certain  
Deputy Sheriff titles and die as a natural and proximate result of an  
accident sustained in the performance of duty.

Effective Date: Upon enactment.

IMPACT ON BENEFITS: Currently, certain beneficiaries of Deputy Sher-  
iffs who die as a natural and proximate result of an accident sustained  
in the performance of duty are eligible to receive an Accidental Death  
Benefit equal to 50% of Final Salary. Such benefit is subject to a Cost-  
of-Living Adjustment (COLA) starting after five years, pursuant to  
Administrative Code of the City of New York (ACCNY) Section 13-696.

Under the proposed legislation, if enacted, beneficiaries of Deputy  
Sheriffs who die as a natural and proximate result of an accident  
sustained in the performance of duty would receive an Accidental Death  
Benefit equal to 100% of Final Salary, offset by any social security and  
workers' compensation benefits paid. For purposes of this Fiscal Note,  
and consistent with the assumptions and methods described herein, it is

assumed that the past four decades' practice of providing 3.0% COLAs on the SADB each year will be continued in the future.

For purposes of this Fiscal Note, it is assumed that SADB under the proposed legislation would only be provided to members who die in the performance of duty after the Effective Date.

FINANCIAL IMPACT - OVERVIEW: There is insufficient data available to estimate the number of members who may die as a natural and proximate result of an accident sustained in the performance of duty. Therefore, the estimated financial impact has been calculated on a per event basis equal to the increase in the Present Value of Future Benefits (PVFB) for an average member who could potentially be eligible for SADB provided by this proposed legislation.

FINANCIAL IMPACT - PRESENT VALUES: Based on the census data and the actuarial assumptions and methods described herein, the enactment of this proposed legislation would increase the PVFB by approximately \$1.1 million, on average, for each eligible Deputy Sheriff who dies as a natural and proximate result of an accident sustained in the performance of duty.

FINANCIAL IMPACT - ANNUAL EMPLOYER CONTRIBUTIONS: Enactment of this proposed legislation would increase employer contributions, where such amount would depend on the number of members affected as well as other characteristics including the age, years of service, and salary history of each member.

As there is insufficient data currently available to estimate the number of eligible members who might die and be eligible for SADB under the proposed legislation, the financial impact would be recognized at the time of event. Consequently, changes in employer contributions have been estimated assuming that the increase in the PVFB will be financed over the same time period used for actuarial losses in accordance with ACCNY Section 13-638.2(k-2). Using this approach, the additional PVFB would be amortized over a closed 15-year period (14 payments under the One-Year Lag Methodology) using level dollar payments.

Based on the actuarial assumptions and methods in effect as of June 30, 2021, the enactment of this proposed legislation is estimated to increase annual employer contributions by approximately \$133,000, on average, for each eligible Deputy Sheriff who dies as a natural and proximate result of an accident sustained in the performance of duty.

With respect to the timing, increases in employer contributions would depend upon when members would die as a natural and proximate result of an accident sustained in the performance of duty but, generally, increased employer contributions will first occur the second fiscal year following approval of the Accidental Death Benefit.

CENSUS DATA: The estimates presented herein are based on the census data used in the Preliminary June 30, 2021 (Lag) actuarial valuation of NYCERS to determine the Preliminary Fiscal Year 2023 employer contributions.

The 132 NYCERS Deputy Sheriffs as of June 30, 2021 had an average age of approximately 42.8 years, average service of approximately 12.6 years, and an average salary of approximately \$85,200.

ACTUARIAL ASSUMPTIONS AND METHODS: The changes in the PVFB and annual employer contributions presented herein have been calculated based on the actuarial assumptions and methods in effect for the Preliminary June 30, 2021 (Lag) actuarial valuations used to determine the Preliminary Fiscal Year 2023 employer contributions of NYCERS.

RISK AND UNCERTAINTY: The costs presented in this Fiscal Note depend highly on the realization of the actuarial assumptions used, as well as

certain demographic characteristics of NYCERS and other exogenous factors such as investment, contribution, and other risks. If actual experience deviates from actuarial assumptions, the actual costs could differ from those presented herein. Costs are also dependent on the actuarial methods used, and therefore different actuarial methods could produce different results. Quantifying these risks is beyond the scope of this Fiscal Note.

Not measured in this Fiscal Note are the following:

- \* The initial, additional administrative costs of NYCERS and other New York City agencies to implement the proposed legislation.
