

# STATE OF NEW YORK

---

143--A

2021-2022 Regular Sessions

## IN ASSEMBLY

(Prefiled)

January 6, 2021

---

Introduced by M. of A. GOTTFRIED, ENGLEBRIGHT, L. ROSENTHAL, REYES, THIELE, GALEF, DICKENS, STECK, GALLAGHER, COLTON, KELLES, CLARK, GRIF-FIN, SILLITTI, SEAWRIGHT, LAVINE, FAHY, SIMON, FORREST, STIRPE, GLICK, EPSTEIN, RAMOS, QUART, LUNSFORD, JACOBSON, BURDICK, NIOU, ABINANTI, DINOWITZ, ZEBROWSKI, GIBBS, STERN -- read once and referred to the Committee on Environmental Conservation -- recommitted to the Committee on Environmental Conservation in accordance with Assembly Rule 3, sec. 2 -- committee discharged, bill amended, ordered reprinted as amended and recommitted to said committee

AN ACT to amend the environmental conservation law, in relation to the regulation of ingredients in personal care products and cosmetics

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

1 Section 1. Short title. This act shall be known and may be cited as  
2 the "safe personal care and cosmetics act".  
3 § 2. Legislative findings and intent. There are thousands of chemicals  
4 used in personal care, household cleaning, and other consumer products,  
5 many of which have never been fully tested for potential impacts on  
6 human health or the environment. Moreover, regarding the safety of  
7 using personal care products, it is most concerning that cosmetics regu-  
8 lation in the United States has not been significantly updated since  
9 1938. This has led state national, and international organizations to  
10 develop lists of chemicals of concern, including New York State's Toxic  
11 Chemicals in children's products and others. While federal law requires  
12 personal care product labels to list certain intentionally added ingre-  
13 dients, information concerning potential health effects is not widely  
14 available and certain categories of chemical ingredients are exempt from  
15 labeling requirements. Furthermore, over 40 countries, including coun-  
16 tries in the European Union, Japan, Cambodia, and Vietnam, have stricter  
17 restrictions on chemicals in personal care products than does the United

EXPLANATION--Matter in italics (underscored) is new; matter in brackets  
[-] is old law to be omitted.

LBD00402-07-2

1 States. Therefore, the legislature finds and declares that federal  
2 disclosure requirements are inadequate to educate and protect consumers,  
3 and that it shall be the policy of the state to require the personal  
4 care product industry to more fully disclose ingredients and identify  
5 ingredients published as chemicals of concern on lists identified by the  
6 commissioner and other state, national or international lists.

7 § 2. Article 37 of the environmental conservation law is amended by  
8 adding a new title 11 to read as follows:

9 TITLE XI

10 PERSONAL CARE AND COSMETICS

11 Section 37-1101. Definitions.

12 37-1103. Disclosure.

13 37-1105. Promulgation of lists.

14 37-1107. Sales prohibition.

15 37-1109. Small business exemption.

16 37-1111. Penalties.

17 § 37-1101. Definitions.

18 As used in this title, unless the context requires otherwise:

19 1. "Chemical of concern" shall mean a chemical or class of chemicals  
20 referenced in Section 108954(a)(1) of Chapter 13 to Part 3 of Division  
21 104 of the California Health and Safety Code as of March fifteenth, two  
22 thousand twenty-two, and asthmagens as designated by the commissioner,  
23 in consultation with the commissioner of health.

24 2. "Ingredient" shall mean:

25 (a) an intentionally added ingredient present in any quantity in a  
26 personal care product; or

27 (b) a nonfunctional byproduct or nonfunctional contaminant present in  
28 a personal care product, in any quantity, provided such element or  
29 compound is a chemical of concern.

30 3. "Intentionally added ingredient" shall mean any element or compound  
31 that a manufacturer has intentionally added to a personal care product,  
32 and which has a functional or technical effect in the finished product,  
33 including, but not limited to, the components of intentionally added  
34 fragrance, flavoring and colorants, and the intentional breakdown  
35 products of an added element or compound that also has a functional or  
36 technical effect on the finished product.

37 4. "Nonfunctional byproduct" shall mean any element or compound which  
38 has no functional or technical effect in the finished product which:

39 (a) was intentionally added during the manufacturing process for a  
40 personal care product at any point in a product's, a raw material's or  
41 ingredient's supply chain; or

42 (b) was created or formed during the manufacturing process as an  
43 intentional or unintentional consequence of the manufacturing process at  
44 any point in a product's, a raw material's, or an ingredient's supply  
45 chain.

46 Nonfunctional byproduct shall include, but is not limited to, an  
47 unreacted raw material, a breakdown product of an intentionally added  
48 ingredient, or a byproduct of the manufacturing process.

49 5. "Nonfunctional contaminant" shall mean any element or compound  
50 present in a personal care product as an unintentional consequence of  
51 manufacturing which has no functional or technical effect in the  
52 finished product. Nonfunctional contaminants include, but are not limit-  
53 ed to, elements or compounds present in the environment as contaminants  
54 which were introduced into a product, a raw material, or a product  
55 ingredient as a result of the use of an environmental medium, such as a  
56 naturally occurring mineral, air, soil or water, in the manufacturing

1 process at any point in a product's, a raw material's, or an ingredi-  
2 ent's supply chain.

3 6. "Manufacturer" shall mean any person, firm, association, partner-  
4 ship, limited liability company, or corporation which produces,  
5 prepares, formulates, or compounds a personal care product, or whose  
6 brand name is affixed to such product. In the case of a personal care  
7 product imported into the United States, "manufacturer" shall mean the  
8 importer or first domestic distributor of the product if the entity that  
9 manufactures the product or whose brand name is affixed to the product  
10 does not have a presence in the United States.

11 7. "Personal care product" shall mean articles intended to be rubbed,  
12 poured, sprinkled, or sprayed on, introduced into, or otherwise applied  
13 to the human body or any part thereof for cleansing, beautifying,  
14 promoting attractiveness, or altering the appearance, and articles  
15 intended for use as a component of any such articles; except that such  
16 term shall not include soap.

17 8. "Practical quantification limit" means the lowest level that can be  
18 reliably achieved within pre-determined limits of precision and accuracy  
19 during routine laboratory operating conditions.

20 9. "Restricted substance" shall mean lead, lead compounds, or mercury  
21 and related compounds, formaldehyde, paraformaldehyde, triclosan,  
22 toluene, per- and polyfluoroalkyl substances, dibutyl phthalate,  
23 di(2)ethylhexyl phthalate, diethyl phthalate, butyl benzyl phthalate,  
24 isobutyl-, isopropyl-, butyl-, methyl-, propyl paraben, methylene  
25 glycol, oxybenzone, Quaternium-15, m-Phenylenediamine and its salts,  
26 and o- Phenylenediamine and its salts.

27 10. "Soap" shall mean articles comprised entirely of an alkali salt of  
28 fatty acids where the detergent properties of the article are due to the  
29 alkali-fatty acid compounds, and the article shall be labeled, sold, and  
30 represented only as a soap.

31 § 37-1103. Disclosure.

32 1. Manufacturers of personal care products distributed, sold or  
33 offered for sale in this state, whether at retail or wholesale, for  
34 personal, professional or commercial use, or distributed for promotional  
35 purposes, shall furnish to the department, in a manner prescribed by the  
36 commissioner that is readily accessible to the public, information for  
37 each personal care product, including but not limited to:

38 (a) a list naming each ingredient, of the product in descending order  
39 of predominance by weight in the product, except that ingredients pres-  
40 ent at a weight below one percent (1%) may be listed following other  
41 ingredients without respect to the order of predominance by weight; and

42 (b) each ingredient in the product that is a chemical of concern.

43 2. The information required by subdivision one of this section shall  
44 be submitted to the department on or before January thirtieth, two thou-  
45 sand twenty-four and annually thereafter.

46 3. The information provided pursuant to subdivision one of this  
47 section to the department shall be made available to the public by the  
48 department, provided however, that an ingredient that is not a chemical  
49 of concern may be withheld from public disclosure if the department  
50 determines, based on application by the manufacturer, that disclosure  
51 would reveal proprietary information. If the department makes such a  
52 determination, the manufacturer shall provide a generic name for the  
53 ingredient consistent with the confidential chemical substances identify  
54 reporting requirements of the federal Toxic Substance Control Act.

55 4. The department may require submission by a manufacturer of the  
56 information required by this section to the Interstate Chemicals Clear-

1 inghouse, which may make the reported information available to the  
2 public, except for proprietary information withheld under subdivision  
3 three of this section.

4 5. The manufacturer shall pay a fee upon submission of the information  
5 required pursuant to subdivision one of this section to cover the  
6 department's reasonable costs in the administration and enforcement of  
7 this title. Exclusive of fines and penalties, the state shall only  
8 recover its actual cost of administration and enforcement.

9 § 37-1105. Promulgation of lists.

10 The department shall promulgate as regulations the lists of chemicals  
11 of concern and restricted substances on or before the effective date of  
12 this title, and shall periodically revise the regulations as necessary  
13 when such lists are amended.

14 § 37-1107. Sales prohibition.

15 Effective three years after the effective date of this section, no  
16 person shall distribute, sell or offer for sale in this state a personal  
17 care product containing a restricted substance.

18 § 37-1109. Small business exemption.

19 The requirements of section 37-1103 of this title shall not apply to  
20 personal care product manufacturers that employ ten persons or fewer,  
21 and are independently owned and operated.

22 § 37-1111. Penalties.

23 A manufacturer in violation of this title is subject to a civil penal-  
24 ty not to exceed five thousand dollars for each violation in the case of  
25 a first offense. Manufacturers who commit subsequent violations are  
26 subject to a civil penalty not to exceed ten thousand dollars for each  
27 additional offense.

28 § 3. Severability. If any provision of this act, or any application of  
29 any provision of this act, is held to be invalid, or to violate or be  
30 inconsistent with any federal law or regulation, that shall not affect  
31 the validity or effectiveness of any other provision of this act, or of  
32 any other application of any provision of this act, which can be given  
33 effect without that provision or application; and to that end, the  
34 provisions and applications of this act are severable.

35 § 4. This act shall take effect one year after it shall have become a  
36 law. Effective immediately, the addition, amendment and/or repeal of any  
37 rule or regulation necessary for the implementation of this act on its  
38 effective date are authorized to be made and completed on or before such  
39 effective date.
