1 This assessment shall be based upon each college's gross annual income  
2 from the previous year, and shall be payable to the commissioner in  
3 equal quarterly installments which shall be due on December first, March  
4 first, June first, and September first.

5 (c) All of the total assessment provided for within this section shall  
6 accrue to the credit of the proprietary college tuition reimbursement  
7 account.

8 (d) In the event that the balance of the proprietary college tuition  
9 reimbursement account provided for in this section exceeds three million  
10 dollars, all additional funds shall be dedicated to fund the depart-  
11 ment's supervision, regulation, and publicly accessible website of  
12 proprietary degree-granting colleges pursuant to an annual appropriation  
13 and an annual plan of expenditure prepared by the commissioner and  
14 approved by the director of the budget.

15 (e) Payments made within thirty days following the due date shall be  
16 subject to interest at one percent above the prevailing prime rate.  
17 Thereafter, late payments may result in enrollment caps on the number of  
18 new students a college has the ability to register and the department  
19 shall approve no new programs at a college that is in arrears to the  
20 proprietary college tuition reimbursement account.

21 (f) Nothing in this section shall prohibit the state, if it determines  
22 that there is a need, to allocate additional funding to the proprietary  
23 college tuition reimbursement account to provide for the needs of harmed  
24 students.

25 2. Complaint process for access to the proprietary college tuition  
26 reimbursement account. (a)(i) Claimants who had been enrolled in  
27 proprietary degree-granting colleges which have not closed or ceased  
28 operation shall be required to show, in a manner determined by the  
29 commissioner, that:

30 (1) the student is eligible pursuant to subparagraph (ii) of this  
31 paragraph for a refund amount up to the total cost of tuition expended  
32 by the student as determined using a refund formula to be promulgated by  
33 the commissioner;

34 (2) the student has made a request to the college for a refund amount  
35 up to the total cost of tuition expended by the student and has done so  
36 in a manner consistent with any existing complaint process as outlined  
37 by the department prior to the effective date of this section or any  
38 future process promulgated by the department;

39 (3) the college has failed to provide a refund amount up to the total  
40 cost of tuition expended by the student within the ninety days of the  
41 complaint being submitted by the student to the college;

42 (4) the student has in their complaint clearly identified the program  
43 or degree that the student believes is not compliant with this section  
44 and has included information necessary for the department to complete an  
45 investigation of the program; and

46 (5) the student has, if applicable, attempted to have any federal  
47 student loans discharged pursuant to a borrower defense to repayment  
48 claim with the United States department of education.

49 (ii) The commissioner shall compute the total refund amount, if any,  
50 in an amount up to the total cost of tuition expended by the student  
51 using a refund formula to be promulgated by the department. The commis-  
52 sioner shall act on each refund request within thirty business days of  
53 such request.

54 (iii) Utilizing any existing complaint process at the department that  
55 may exist or any new complaint process that the department may promul-  
56 gate, if a student who meets the eligibility requirements of subpara-

graph (i) of this paragraph and can in such complaint make a good cause showing of a violation pursuant to paragraph (c) of this subdivision has occurred then that student shall be deemed eligible for a refund in an amount up to the total cost of tuition expended by the student as determined using a refund formula to be promulgated by the commissioner.

(iv) For a student who had been enrolled in a proprietary degree-granting college that has not closed or ceased operation, the refund shall be an amount up to the total cost of tuition, however, any discharge of student loans as prescribed under borrower defense to repayment claims with the United States department of education that the student has successfully received shall be deducted from any refund calculation under this section.

(v) (1) Where a claim is paid to a student relating to a verified complaint asserting a violation by a degree-granting proprietary college that has not closed or ceased operation the commissioner shall immediately notify the college within thirty days of its decision on a student's complaint to the department.

(2) Within fifteen days of the receipt of the notice, the college shall either request a hearing to challenge the commissioner's determination that a refund was owed to the student or reimburse the fund the amount paid to the claimant. This payment shall also incur interest for each day it remains unpaid at an annual interest rate of one percent above the prime rate. The commissioner may promulgate streamlined procedures for conducting hearings pursuant to this clause.

(vi) Persons and entities receiving refunds under this section shall be deemed to have assigned or subrogated their proprietary college tuition reimbursement account rights to the commissioner on behalf of the proprietary college tuition reimbursement account only for the amount refunded by the proprietary college tuition reimbursement account. Within ninety days of any refund made pursuant to this section, the commissioner or the attorney general shall take appropriate action to recover the total amount of the refunds made, plus administrative costs, from the college.

(b) The commissioner shall develop a complaint form for students of closed or closing institutions and provide such form to students. In order to claim a refund amount up to the total cost of tuition expended by the student from the proprietary college tuition reimbursement account, a student, for the section also referred to as a claimant, shall apply to the department with a complaint form pursuant to the following requirements:

(i) Claimants who had been enrolled in proprietary degree-granting colleges which have closed or ceased operation shall be required to show in a manner determined by the commissioner that:

(2) the student has in their complaint clearly identified the program or degree that the student believes was not compliant with this section at the closed college and has included information necessary for the department to complete and make a determination of the program; and

(3) the student has, if applicable, attempted to have any federal student loans discharged pursuant to a borrower defense to repayment claim with the United States department of education.

(ii) The commissioner shall compute the total refund amount, if any, in an amount up to the total cost of tuition expended by the student

1 using a refund formula to be promulgated by the department. The commis-  
2 sioner shall act on each refund request within thirty business days of  
3 such request, unless such request relates to a recent or impending  
4 college closure in which case the department shall handle all similarly  
5 situated claims within a reasonable amount of time but in no instance  
6 shall that time be longer than ninety business days.

7 (iii) Utilizing any existing complaint process at the department that  
8 may exist or any new complaint process that the department may promul-  
9 gate, if a student who meets the eligibility requirements of subpara-  
10 graph (i) of this paragraph and can in such complaint make a good cause  
11 showing of a violation pursuant to paragraph (c) of this subdivision has  
12 occurred then that student shall be deemed eligible for a refund in an  
13 amount up to the total cost of tuition expended by the the student as

16 granting college that has closed or ceased operation, the refund shall  
17 be paid in an amount up to the total cost of tuition expended by a  
18 student for the program the student was enrolled in at college closure,  
19 however, any discharge of student loans as prescribed under borrower

21 tion that the student has successfully received shall be deducted from  
22 any refund calculation under this subdivision.

23 (v) A student who is offered a teachout plan approved by an institu-  
24 tional accrediting agency for the program in which the student was  
25 enrolled at the time the college closed or ceased operation may elect to  
26 continue instruction pursuant to the teachout plan or may decline to  
27 continue instruction and may instead apply for a refund in an amount up  
28 to the total cost of tuition expended by the student under this section.  
29 The option to apply for a refund shall extend to the end of the first  
30 week of instruction at the teachout college.

31 (vi) A student who was enrolled in a proprietary degree-granting  
32 college at the time the college closes or ceases operation shall be  
33 entitled to a refund of the full amount any prepaid tuition or expenses

22 months thereafter. For the purpose of calculating the net balance, the  
23 state comptroller shall not take into consideration any refunds made  
24 from the account pursuant to this section for the year immediately  
25 preceding the date on which the calculation is made.

26 (b) (i) In the event that the account has accumulated a net balance in  
27 excess of three million dollars, the commissioner shall, with the  
28 approval of the director of the budget, waive an amount not to exceed  
29 the amount due for the next quarterly assessment for a proprietary

41 of three million dollars.

42 (c) The commissioner may annually apportion from the proprietary

50 proprietary college tuition reimbursement account once every two years  
51 and produce an audited financial statement according to generally  
52 accepted accounting principles.

14 withdrawal from their program at the proprietary degree-granting  
15 college.

16 (b) The commissioner shall maintain a written record of each complaint  
17 that is made. The commissioner shall also send to the complainant a form  
18 acknowledging the complaint and requesting further information if neces-  
19 sary and shall advise the director of the college that a complaint has  
20 been made and, where appropriate, the nature of the complaint.

21 5. Proprietary college complaint investigation process. (a) The  
22 commissioner shall within twenty days of receipt of such written  
23 complaint commence an investigation of the alleged violation and shall  
24 within ninety days of the receipt of such written complaint, issue a  
25 written finding. The commissioner shall furnish such findings to the  
26 person who filed the complaint and to the chief operating officer of the  
27 college cited in the complaint. If the commissioner finds that there has  
28 been a violation of this section, the commissioner shall take appropri-  
29 ate action, including but not limited to referring cases of misconduct  
30 to the state attorney general, beginning a review of the program in  
31 violation, and providing notice to students of the institution of the  
32 violation by a publicly accessible website.

34 section, the commissioner shall also place such finding on a publicly

39 dollars from the state general fund to carry out investigations of  
40 student complaints pursuant to this subdivision.

13 department and may be expended pursuant to sections two hundred twelve-b  
14 and two hundred twelve-d of the education law. Monies shall be paid out

16 § 4. Severability clause. If any clause, sentence, paragraph, subdivi-  
17 sion, section or part of this act shall be adjudged by any court of  
18 competent jurisdiction to be invalid, such judgment shall not affect,  
19 impair, or invalidate the remainder thereof, but shall be confined in  
20 its operation to the clause, sentence, paragraph, subdivision, section  
21 or part thereof directly involved in the controversy in which such judg-  
22 ment shall have been rendered. It is hereby declared to be the intent of  
23 the legislature that this act would have been enacted even if such  
24 invalid provisions had not been included herein.
