The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. Section 3217-h of the insurance law, as added by chapter 6 of the laws of 2015, is amended to read as follows:

§ 3217-h. Telehealth delivery of services. (a) An insurer shall not exclude from coverage a service that is otherwise covered under a policy that provides comprehensive coverage for hospital, medical or surgical care because the service is delivered via telehealth, as that term is defined in subsection (b) of this section; provided, however, that an insurer may exclude from coverage a service by a health care provider where the provider is not otherwise covered under the policy. An insurer may subject the coverage of a service delivered via telehealth to co-payments, coinsurance or deductibles provided that they are at least as favorable to the insured as those established for the same service when not delivered via telehealth. An insurer may subject the coverage of a service delivered via telehealth to reasonable utilization management and quality assurance requirements that are consistent with those established for the same service when not delivered via telehealth. An insurer shall reimburse primary care services delivered via telehealth, where both the insured individual and the health care provider are located in a clinical setting, on the same basis and at the same rate as would apply to such services if the services had been delivered in person.

(b) For purposes of this section[~~7~~] the following terms shall have the following meanings:
