improvement plan by October 1, 2020. Such revised plan shall be

Upon finding compliance and determining that the funds were properly expended, the commissioner shall certify the amount of the approved expenditures to the state comptroller for payment no later than 60 days after such determinations. The East Ramapo central school district shall not receive reimbursement for funds authorized herein that are not spent for the direct benefit of students attending public schools in such district in a manner consistent with its approved comprehensive expenditure plan or prior written approval from the commissioner.

The board of education in consultation with the monitor or monitors shall submit the school district's proposed budget for the next succeeding school year to the commissioner no later than 45 days before the date scheduled for the school district's budget vote. The commissioner shall review the budget to ensure that it, to the greatest extent possible, expands educational programming for students including but not limited to extracurricular activities, course offerings, non-mandated support services, non-mandated art and music classes, programs and services for English language learners and students with disabilities, and maintaining class size. The commissioner shall also review the proposed budget to ensure that it is balanced within the context of revenue and expenditure estimates and mandated programs. The commissioner shall present his
or her findings to the board of education no later than 30 days prior to the date scheduled for the school district's budget vote. The board of education shall make adjustments to the proposed budget consistent with any recommendations made by the commissioner. The school district shall make available on the district's website: the initial proposed budget, the commissioner's findings, and the final proposed budget prior to the date of the school district's budget vote.

The monitor or monitors appointed by the commissioner shall quarterly, and the district shall annually provide to the commissioner reports on the fiscal and operational status of the school district to ensure compliance with the budgeting requirements herein. In addition, monitors shall provide an annual report to the commissioner and comptroller on contracts that the district entered into throughout the year. Notwithstanding any inconsistent provision of law, the amount appropriated herein, shall be available under a foster care block grant for state reimbursement of eligible social services district expenditures for the provision and administration of foster care services including care, maintenance, supervision, and tuition; for supervision of foster children placed in federally funded job corps programs; for care, maintenance, supervision, and tuition for adjudicated juvenile delinquents placed in residential programs operated by authorized agencies and in out-of-state residential programs; for the provision and administration of the kinship guardian assistance program including kinship guardianship assistance payments and payments for non-recurring guardianship expenses and eligible expenditures associated with local compliance with the federal Family First Prevention Services Act (P.L. 115-123); except that, reimbursement from the amount appropriated herein shall not be available for tuition expenditures for foster children, including persons in need of supervision and adjudicated juvenile delinquents, made by a social services district located within a city having a population of one million or more.

Notwithstanding any other provision of law, a portion of the funds are available to reimburse social services districts for the change in the maximum state aid rates established by the office of children and family services for the 2021-22 rate year pursuant to section 398-a of the social services law and sections 4003 and 4405 of the education law to reflect the continuation of the cost of living adjustments that became effective April 1, 2008 for payments made to foster parents and for salary and fringe benefit costs and other critical nonpersonal services costs for
foster care programs as determined by the office. Social services districts must adjust the amount of payments made for care provided by congregate care and foster boarding home programs and to foster parents to reflect the cost of living adjustments in the manner specified by the office. Each authorized agency operating a congregate care or foster boarding home program in New York state for which the office sets a maximum state aid rate pursuant to section 398-a of the social services law or section 4003 or 4405 of the education law shall submit, at the time and in a manner to be determined by the office, a written certification, attesting that the funds received for the continuation of the cost of living adjustment to the maximum state aid rate that became effective April 1, 2008 for that program will be or were used solely in accordance with the requirements of the cost of living adjustment established by the office.

Notwithstanding any inconsistent provision of law, for the period commencing on April 1, 2021 and ending March 31, 2022 the commissioner shall not apply any cost of living adjustment for the purpose of establishing rates of payments, contracts or any other form of reimbursement.

Within the amounts appropriated herein, state reimbursement to each social services district for services identified herein that are otherwise reimbursable by the state from April 1, 2021 through March 31, 2022 shall be limited to a district allocation, hereinafter referred to as the district's block grant allocation. Notwithstanding any other provision of law, such block grant allocation shall be based, in part, on each district's claims for such costs, adjusted by the applicable cost allocation methodology and net of any retroactive payments for the 12 month period ending June 30, 2020 that are submitted on or before January 2, 2021 and, in part, on such other factors as determined by the office of children and family services and approved by the director of the budget. Any portion of a social
services district's allocation from funds appropriated herein not claimed by such district during the state fiscal year may be used by such district for expenditures on preventive services provided pursuant to section 409-a of the social services law, independent living services and aftercare services provided pursuant to regulations of the department of family assistance, claimed by such district during the next state fiscal year up to the amount remaining from the district's foster care block grant allocation, provided however, that any claims for such services during the next state fiscal year in excess of such amount shall be subject to 62 percent state reimbursement exclusive of any federal funds made available for such purposes, in accordance with directives of the department of family assistance and subject to the approval of the director of the budget. Any claims submitted by a social services district for reimbursement for a particular state fiscal year for which the social services district does not receive state or federal reimbursement during that state fiscal year may not be claimed against that district's block grant apportionment for the next state fiscal year. The office of children and family services, with the approval of the director of the budget, may reduce a district's block grant allocation by the state share decrease related to federal retroactive reimbursement for such foster care services identified herein. The office, with the approval of the director of the budget, may reduce a district's block grant allocation by the state share of disallowances or sanctions taken against the district pursuant to the social services law or federal law. Notwithstanding any other provision of law, the state shall not be responsible for reimbursing a social services district and a district shall not seek state reimbursement for any portion of any state disallowance or sanction taken against the social services district, or any federal disallowance attributable to final federal
agency decisions or to settlement made, on
or after July 1, 1995, when such disallow-
ance or sanction results from the failure
of the social services district to comply
with federal or state requirements,
including, but not limited to, failure to
document eligibility for federal or state
funds in the case record; provided, howev-
er, if the office determines that any
federal disallowance for services provided
between January 1, 1999 and May 31, 1999
results solely from the late enactment of
the state legislation implementing the
federal adoption and safe families act,
the state shall be solely responsible for
the full amount of the disallowance or
sanction; provided, further, however, this
provision shall be deemed to apply both
prospectively and retroactively regardless
of whether such sanctions or disallowances
are for services provided or claims made
prior to or after April 1, 2021.
Notwithstanding any other provision of law,
any federal disallowance resulting from a
federal title IV-E eligibility review or
audit that uses extrapolated statistic
techniques shall be passed along by the
state to any and all social services
districts that the office of children and
family services has determined have not
complied with the title IV-E eligibility
requirements or have not taken the neces-
sary actions to ensure compliance with
such requirements including, but not
limited to, failing to: assess and fully
document all the criteria and have readily
available all the necessary documents to
establish and continue title IV-E eligi-
bility for all title IV-E eligible chil-
dren within the required time frames;
claim title IV-E funding only for cases
that meet all of the title IV-E eligibil-
ity criteria; and fully implement the
social services payment system on or
before April 1, 2005 for all direct and
voluntary agency foster care services.
Notwithstanding any law to the contrary, the
office of children and family services
shall impose on social services districts
any federal disallowance issued against
the state as a result of a federal title
IV-E secondary eligibility review regardless of the date the children may have entered foster care, the date the eligibility or payment errors occurred, or the filing date of any federal claims for reimbursement; provided, however, that the state shall be responsible for the disallowed costs and expenditures related to the placement of children in a facility operated by the office of children and family services, which shall be determined in the same manner as the disallowed costs and expenditures for social services districts other than the city of New York.

In order to reimburse the federal government for the full amount of any disallowance imposed on the state by the federal administration for children and families within the timeframes necessary to avoid any potential interest payments on such amount, the office of children and family services is authorized to immediately offset funds otherwise due to each district for a pro rata share of the total disallowed costs based on the percentage of applicable federal title IV-E claims made by that district for the relevant time period as compared to the total applicable statewide title IV-E claims. The amount of the offset against each district will be adjusted, if necessary, upon completion of the disallowance allocation process. The final allocation of the amount of any federal disallowance resulting from a title IV-E secondary eligibility review shall be allocated among the districts so that each district shall be responsible for the amount attributable to each of the district's children or cases that are determined by the federal review to be unallowable. Each district shall also be responsible for a portion of the federal extrapolated disallowance amount based on the relative error rate for the district. The city of New York's error rate will be based on the federal sample and federal statistics. For all social services districts other than the city of New York, the error rate will be based on a review conducted by the district of a sample of children and/or
cases determined by the office of children and family services and a re-review of a sub-sample by the office of those children and/or cases determined by the office. The office of children and family services will determine what is reasonable in establishing the size of the sample and sub-sample for each district. The office of children and family services shall notify each social services district of the sample of children and/or cases from the federal audit period that the social services district must review. Any child or case from the social services district that was included in the federal sample will automatically be included in the social services district's review sample and the determination made at the federal review regarding that child or case will govern for the purposes of the social services district's review. The social services district must complete and submit the results of its review to the office of children and family services within 60 days of receipt of the sample. The error rate for the district will be based on the findings of the district's review and the office of children and family services' re-review. If a social services district does not complete its review within 60 days of receiving the sample from the office of children and family services, the office of children and family services shall assign an error rate to the social services district based on the relative percentage of the district's applicable title IV-E claims for the relevant period as compared to applicable statewide title IV-E claims for that period and other circumstances that the office of children and family services may consider in order to allocate 100 percent of the federal disallowance. The office of children and family services shall apply each social services district's error rate to the total amount of the district's applicable title IV-E claims including associated administrative expenses. The resulting dollar amounts for all of the social services districts will be summed to derive the total amount of title IV-E
claims deemed to be in error statewide. To 
establish a disallowance percentage for 
each social services district, the amount 
of the district's title IV-E claims deemed 
to be in error will be divided by the 
amount of statewide title IV-E claims 
deemed to be in error. The resulting 
disallowance percentage for each district 
will be applied to the entire title IV-E 
extrapolated disallowance calculated by 
the federal review to determine the amount 
of the extrapolated disallowance for which 
the district is responsible. Each district 
will be credited for the amount already 
disallowed for any individual children or 
cases found to be in error during the 
federal review. The exclusive appeal 
rights for the review of the amount of the 
federal disallowance assigned to each 
social services district shall be pursuant 
to article 78 of the civil practice law 
and rules; provided, however, that in any 
such action all of the social services 
districts shall be joined as necessary 
parties and the venue of any such action 
shall be in Rensselaer county. Any social 
services district that fails to complete 
its sample review in the required time 
frames shall have no right to appeal and 
shall not be a necessary party to any 
action brought by another social services 
district.

fore accrued or hereafter to accrue to

FAMILY AND CHILDREN'S SERVICES PROGRAM
By chapter 53, section 1, of the laws of 2020:
Notwithstanding any inconsistent provision of law, the amount appropriated herein, shall be available under a foster care block grant for state reimbursement of eligible social services district expenditures for the provision and administration of foster care services including care, maintenance, supervision, and tuition; for supervision of foster children placed in federally funded job corps programs; for care, maintenance, supervision, and tuition for adjudicated juvenile delinquents placed in residential programs operated by authorized agencies and in out-of-state residential programs; and for the provision and administration of the kinship guardian assistance program including kinship guardianship assistance payments and payments for non-recurring guardianship expenses; except that, reimbursement from the amount appropriated herein shall not be available for tuition expenditures for foster children, including persons in need of supervision and adjudicated juvenile delinquents, made by a social services district located within a city having a population of one million or more.

Notwithstanding any other provision of law, a portion of the funds are available to reimburse social services districts for the change in the maximum state aid rates established by the office of children and family services for the 2020-21 rate year pursuant to section 398-a of the social services law and sections 4003 and 4405 of the education law to reflect the continuation of the cost of living adjustments that became effective April 1, 2008 for payments made to foster parents and for salary and fringe benefit costs and other critical nonpersonal services costs for foster care programs as determined by the office. Social services districts must adjust the amount of payments made for care provided by congregate care and foster boarding home programs and to foster parents to reflect the cost of living adjustments in the manner specified by the office. Each authorized agency operating a congregate care or foster boarding home program in New York state for which the office sets a maximum state aid rate pursuant to section 398-a of the social services law or section 4003 or 4405 of the education law shall submit, at the time and in a manner to be determined by the office, a written certification, attesting that the funds received for the continuation of the cost of living adjustment to the maximum state aid rate that became effective April 1, 2008 for that program will be or were used solely in accordance with the requirements of the cost of living adjustment established by the office.

Notwithstanding any inconsistent provision of law, for the period commencing on April 1, 2020 and ending March 31, 2021 the commissioner shall not apply any cost of living adjustment for the purpose of establishing rates of payments, contracts or any other form of reimbursement.

Within the amounts appropriated herein, state reimbursement to each social services district for services identified herein that are
otherwise reimbursable by the state from April 1, 2020 through March 31, 2021 shall be limited to a district allocation, hereinafter referred to as the district's block grant allocation. Notwithstanding any other provision of law, such block grant allocation shall be based, in part, on each district's claims for such costs, adjusted by the applicable cost allocation methodology and net of any retroactive payments for the 12 month period ending June 30, 2019 that are submitted on or before January 2, 2020 and, in part, on such other factors as determined by the office of children and family services and approved by the director of the budget. Any portion of a social services district's allocation from funds appropriated herein not claimed by such district during the state fiscal year may be used by such district for expenditures on preventive services provided pursuant to section 409-a of the social services law, independent living services and aftercare services provided pursuant to regulations of the department of family assistance, claimed by such district during the next state fiscal year up to the amount remaining from the district's foster care block grant allocation, provided however, that any claims for such services during the next state fiscal year in excess of such amount shall be subject to 62 percent state reimbursement exclusive of any federal funds made available for such purposes, in accordance with directives of the department of family assistance and subject to the approval of the director of the budget. Any claims submitted by a social services district for reimbursement for a particular state fiscal year for which the social services district does not receive state or federal reimbursement during that state fiscal year may not be claimed against that district's block grant apportionment for the next state fiscal year.

The office of children and family services, with the approval of the director of the budget, may reduce a district's block grant allocation by the state share decrease related to federal retroactive reimbursement for such foster care services identified herein. The office, with the approval of the director of the budget, may reduce a district's block grant allocation by the state share of disallowances or sanctions taken against the district pursuant to the social services law or federal law.

Notwithstanding any other provision of law, the state shall not be responsible for reimbursing a social services district and a district shall not seek state reimbursement for any portion of any state disallowance or sanction taken against the social services district, or any federal disallowance attributable to final federal agency decisions or to settlement made, on or after July 1, 1995, when such disallowance or sanction results from the failure of the social services district to comply with federal or state requirements, including, but not limited to, failure to document eligibility for federal or state funds in the case record; provided, however, if the office determines that any federal disallowance for services provided between January 1, 1999 and May 31, 1999 results solely from the late enactment of the state legislation implementing the federal adoption and safe families act, the state shall be sole-
ly responsible for the full amount of the disallowance or sanction; provided, further, however, this provision shall be deemed to apply both prospectively and retroactively regardless of whether such sanctions or disallowances are for services provided or claims made prior to or after April 1, 2020.

Notwithstanding any other provision of law, any federal disallowance resulting from a federal title IV-E eligibility review or audit that uses extrapolated statistic techniques shall be passed along by the state to any and all social services districts that the office of children and family services has determined have not complied with the title IV-E eligibility requirements or have not taken the necessary actions to ensure compliance with such requirements including, but not limited to, failing to: assess and fully document all the criteria and have readily available all the necessary documents to establish and continue title IV-E eligibility for all title IV-E eligible children within the required time frames; claim title IV-E funding only for cases that meet all of the title IV-E eligibility criteria; and fully implement the social services payment system on or before April 1, 2005 for all direct and voluntary agency foster care services.

Notwithstanding any law to the contrary, the office of children and family services shall impose on social services districts any federal disallowance issued against the state as a result of a federal title IV-E secondary eligibility review regardless of the date the children may have entered foster care, the date the eligibility or payment errors occurred, or the filing date of any federal claims for reimbursement; provided, however, that the state shall be responsible for the disallowed costs and expenditures related to the placement of children in a facility operated by the office of children and family services, which shall be determined in the same manner as the disallowed costs and expenditures for social services districts other than the city of New York. In order to reimburse the federal government for the full amount of any disallowance imposed on the state by the federal administration for children and families within the timeframes necessary to avoid any potential interest payments on such amount, the office of children and family services is authorized to immediately offset funds otherwise due to each district for a pro rata share of the total disallowed costs based on the percentage of applicable federal title IV-E claims made by that district for the relevant time period as compared to the total applicable statewide title IV-E claims. The amount of the offset against each district will be adjusted, if necessary, upon completion of the disallowance allocation process. The final allocation of the amount of any federal disallowance resulting from a title IV-E secondary eligibility review shall be allocated among the districts so that each district shall be responsible for the amount attributable to each of the district's children or cases that are determined by the federal review to be unallowable. Each district shall also be responsible for a portion of the federal extrapolated disallowance amount based on the relative error rate for the district. The city of New York's error rate will be based on the
federal sample and federal statistics. For all social services
districts other than the city of New York, the error rate will be
based on a review conducted by the district of a sample of children
and/or cases determined by the office of children and family
services and a re-review of a sub-sample by the office of those
children and/or cases determined by the office. The office of chil-
dren and family services will determine what is reasonable in estab-
lishing the size of the sample and sub-sample for each district. The
office of children and family services shall notify each social
services district of the sample of children and/or cases from the
federal audit period that the social services district must review.
Any child or case from the social services district that was
included in the federal sample will automatically be included in the
social services district's review sample and the determination made
at the federal review regarding that child or case will govern for
the purposes of the social services district's review. The social
services district must complete and submit the results of its review
to the office of children and family services within 60 days of
receipt of the sample. The error rate for the district will be based
on the findings of the district's review and the office of children
and family services' re-review. If a social services district does
not complete its review within 60 days of receiving the sample from
the office of children and family services, the office of children
and family services shall assign an error rate to the social
services district based on the relative percentage of the district's
applicable title IV-E claims for the relevant period as compared to
applicable statewide title IV-E claims for that period and other
circumstances that the office of children and family services may
consider in order to allocate 100 percent of the federal disallow-
ance. The office of children and family services shall apply each
social services district's error rate to the total amount of the
district's applicable title IV-E claims including associated admin-
istrative expenses. The resulting dollar amounts for all of the
social services districts will be summed to derive the total amount
of title IV-E claims deemed to be in error statewide. To establish a
disallowance percentage for each social services district, the
amount of the district's title IV-E claims deemed to be in error
will be divided by the amount of statewide title IV-E claims deemed
to be in error. The resulting disallowance percentage for each
district will be applied to the entire title IV-E extrapolated
disallowance calculated by the federal review to determine the
amount of the extrapolated disallowance for which the district is
responsible. Each district will be credited for the amount already
disallowed for any individual children or cases found to be in error
during the federal review. The exclusive appeal rights for the
review of the amount of the federal disallowance assigned to each
social services district shall be pursuant to article 78 of the
civil practice law and rules; provided, however, that in any such
action all of the social services districts shall be joined as
necessary parties and the venue of any such action shall be in Rens-
selaer county. Any social services district that fails to complete
its sample review in the required time frames shall have no right to appeal and shall not be a necessary party to any action brought by another social services district.

The money hereby appropriated is to be available for payment of state aid heretofore accrued or hereafter to accrue to municipalities. Subject to the approval of the director of the budget, such funds shall be available to the office net of disallowances, refunds, reimbursements, and credits.

Notwithstanding any inconsistent provision of law, the amount herein appropriated may be transferred to any other appropriation within the office of children and family services and/or the office of temporary and disability assistance and/or suballocated to the office of temporary and disability assistance for the purpose of paying local social services districts' costs of the above program and may be increased or decreased by interchange with any other appropriation or with any other item or items within the amounts appropriated within the office of children and family services general fund - local assistance account with the approval of the director of the budget who shall file such approval with the department of audit and control and copies thereof with the chairman of the senate finance committee and the chairman of the assembly ways and means committee.

Notwithstanding any inconsistent provision of law, in lieu of payments authorized by the social services law, or payments of federal funds otherwise due to the local social services districts for programs provided under the federal social security act or the federal food stamp act, funds herein appropriated, in amounts certified by the state comptroller or the state commissioner of health as due from local social services districts each month as their share of payments made pursuant to section 367-b of the social services law may be set aside by the state comptroller in an interest bearing account with such interest accruing to the credit of the locality in order to ensure the orderly and prompt payment of providers under section 367-b of the social services law pursuant to an estimate provided by the commissioner of health of each local social services district's share of payments made pursuant to section 367-b of the social services law.

Notwithstanding the provisions of any other law to the contrary, the office of children and family services may, on behalf of social services districts, make payments to foster boarding homes paid directly by social services districts by direct deposit or debit card. Local social services districts shall reimburse the office for the costs of administering such direct deposit or debit card payments.

Notwithstanding any inconsistent provision of the social services law or the state finance law, the office of children and family services shall, on a quarterly basis, request that the office of temporary and disability assistance reimburse the office of children and family services for the non-federal share of the costs of administering such direct deposit or debit card payments to capture the local share of such costs.
Notwithstanding any other provision of law to the contrary, amounts due and owing to a social services district under this appropriation, may be reduced up to such amounts due and owing to the state under section 529 of the executive law (13997) 383,526,000 ................................. (re. $358,677,000)

Notwithstanding any inconsistent provision of law, the amount appropriated herein shall be made available to reimburse 62 percent of eligible social services district expenditures that are claimed by March 31, 2021 for child welfare services which shall include and be limited to preventive services provided pursuant to section 409-a of the social services law other than community optional preventive services, child protective services, independent living services, after-care services as defined in regulations of the department of family assistance, and adoption administration and services, other than adoption subsidies provided pursuant to title 9 of article 6 of the social services law and regulations of the department of family assistance incurred on or after October 1, 2019 and before October 1, 2020 and that are otherwise reimbursable by the state on or after April 1, 2020, after first deducting therefrom any federal funds properly received or to be received on account thereof upon certification by the social services district that it will not be using these funds to supplant other state and local funds and that the district will not submit claims for reimbursement under this appropriation for the same type and level of services that the county previously provided and claimed under any contract in existence on October 1, 2002 as other than child protective, preventive, independent living, after care or adoption services or adoption administration.

The money hereby appropriated is to be available for payment of state aid heretofore accrued or hereafter to accrue to municipalities. Subject to the approval of the director of the budget, such funds shall be available to the office net of disallowances, refunds, reimbursements, and credits; provided, however, that notwithstanding any other provision of law, for a district to receive reimbursement for such services, the amount of funds that the district expends on such services from its flexible fund for family services allocation and any flexible fund for family services funds transferred at the district's request to the title XX social services block grant must, to the extent that families are eligible therefore, be equal to or greater than the district's portion of the $382,322,341 statewide child welfare threshold amount, which shall be established pursuant to a formula developed by the office of temporary and disability assistance and the office of children and family services and approved by the director of the budget.

Notwithstanding any other provision of law, selected social services districts may authorize the office of temporary and disability assistance to intercept a portion of the funds on behalf of the office of children and family services otherwise due to the districts under this appropriation and/or under any other general fund - aid to localities appropriation available to such districts to suballocate to the office of mental health and subsequently for
suballocation from the office of mental health to the department of health to use for the 38.9 percent of the non-federal share of the medical assistance payments for home and community based waiver services provided in accordance with subdivision 9 of section 366 of the social services law as authorized by such selected social services districts which choose to use preventive services funds to support such costs.

Notwithstanding any inconsistent provision of law, the amount herein appropriated may be transferred to any other appropriation within the office of children and family services and/or the office of temporary and disability assistance and/or suballocated to the office of temporary and disability assistance for the purpose of paying local social services districts' costs of the above program and may be increased or decreased by interchange with any other appropriation or with any other item or items within the amounts appropriated within the office of children and family services general fund – local assistance account with the approval of the director of the budget who shall file such approval with the department of audit and control and copies thereof with the chairman of the senate finance committee and the chairman of the assembly ways and means committee.

Notwithstanding the provisions of any other law to the contrary, the office of children and family services may, on behalf of local social services districts, make payments for adoption subsidies by

share of the costs of administering such direct deposit or debit
card payments to capture the local share of such costs.
Notwithstanding any other provision of law, the office of children and
family services shall reissue per diem rates, required pursuant to
section 529 of the executive law, for calendar years 2002 through
2009 to remove any adjustments to the costs included in determining
such rates to reflect any changes in federal funding made available
to the office or to local social services districts for such costs
and, provided further, the office shall not include any such adjust-
ments in per diem rates established hereafter.
All reimbursement made by local social services districts for care,
maintenance and supervision under this section shall be paid direct-

social services districts with a popu-

MEDICAL ASSISTANCE ADMINISTRATION PROGRAM

General Fund
Local Assistance Account - 10000

The appropriation made by chapter 53, section 1, of the laws of 2020, as added by chapter 50, section 3, of the laws of 2020, is hereby amended and reappropriated to read:

For reimbursement of local administrative expenses for medical assistance programs and for state administration of medical assistance programs, notwithstanding section 153 of the social services law, to include the performance of eligibility and enrollment determinations by the state or third-party entities designated by the state to perform such services.

Notwithstanding any provision of law to the contrary, subject to the approval of the director of budget, up to $23,000,000 of the amount appropriated herein shall be available for the purpose of providing payments to local social services districts for medical assistance administration claims that exceed an administrative ceiling established by the commissioner of health.

Notwithstanding any inconsistent provision of law and subject to the approval of the director of budget, moneys hereby appropriated may be increased or decreased by transfer or interchange between these appropriated amounts and appropriations of the medical assistance administration program, the medical assistance program, and the office of health insurance programs. Funding authority from this account used for state administration of the medical assistance program may be transferred to state operations appropriations within the aforementioned programs at amounts agreed upon by the commissioner of health, and the New York state division of the budget.

Notwithstanding section 40 of the state finance law or any other law to the contrary, all medical assistance appropriations made from this account shall remain in full force and effect in accordance, in the aggregate, with the following schedule: not more than 50 percent for the period April 1, 2020 to March 31, 2021; and the remaining amount for the period April 1, 2021 to [March 31, 2022] September 15, 2022.

Notwithstanding section 40 of the state finance law or any provision of law to the contrary, subject to federal approval, department of health state funds medicaid spending, excluding payments for medical services provided at state facilities operated by the office of mental health, the office for people with developmental disabilities and the office of addiction services and supports and further excluding any payments which are not appropriated within the department of health, in the aggregate, for the period April 1, 2020 through March 31, 2021, shall not exceed $23,606,772,000 except as provided below and state share medicaid spending, in the aggregate, for the period April 1, 2021 through [March 31, 2022] September 15, 2022, shall not exceed $24,598,493,000, except as provided, however, such aggregate limits may be adjusted by the director of the budget to account for any changes in the New York state federal medical assistance percentage amount established pursuant to the federal...
social security act, increases in provider revenues, reductions in local social services district payments for medical assistance administration, minimum wage increases, and beginning April 1, 2012, the operational costs of the New York state medical indemnity fund, pursuant to chapter 59 of the laws of 2011, and state costs or savings from the essential plan program. Such projections may be adjusted by the director of the budget to account for increased or expedited department of health state funds medicaid expenditures as a result of a natural or other type of disaster, including a governmental declaration of emergency.

The director of the budget, in consultation with the commissioner of health, shall assess on a monthly basis known and projected medicaid expenditures by category of service and by geographic region, as determined by the commissioner of health, incurred both prior to and subsequent to such assessment for each such period, and if the director of the budget determines that such expenditures are expected to cause medicaid spending for such period to exceed the aggregate limit specified herein for such period, the state medicaid director, in consultation with the director of the budget and the commissioner of health, shall develop a medicaid savings allocation adjustment to limit such spending to the aggregate limit specified herein for such period.

Such medicaid savings allocation adjustment shall be designed, to reduce the expenditures authorized by the appropriations herein in compliance with the following guidelines: (1) reductions shall be made in compliance with applicable federal law, including the provisions of the Patient Protection and Affordable Care Act, Public Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No. 111-152 (collectively "Affordable Care Act") and any subsequent amendments thereto or regulations promulgated thereunder; (2) reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver authority, to implement the provisions of the medicaid savings allocation adjustment that meets the other criteria set forth herein; (3) reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the Affordable Care Act; (4) reductions shall be made uniformly among categories of services and geographic regions of the state, to the extent practicable, and shall be made uniformly within a category of service, to the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific categories of services contributed to department of health medicaid state funds spending in excess of the limits specified herein; the need to maintain safety net services in underserved communities; or the potential benefits of pursuing innovative payment models contemplated by the Affordable Care Act, in which case such grounds shall
be set forth in the medicaid savings allocation adjustment; and (5) reductions shall be made in a manner that does not unnecessarily create administrative burdens to medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation adjustment, to the extent that all or part of such adjustment, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation adjustment on the department of health's website and shall provide written copies of such adjustment to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

(b) The commissioner may revise the medicaid savings allocation adjustment subsequent to the provisions of notice and prior to implementation but needs to provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that such revisions materially alter the adjustment.

Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this subdivision if, in the discretion of the commissioner, expedited development and implementation of a medicaid savings allocation adjustment is necessary due to a public health emergency.

For purposes of this section, a public health emergency is defined as:
(i) a disaster, natural or otherwise, that significantly increases the immediate need for health care personnel in an area of the state; (ii) an event or condition that creates a widespread risk of exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or (iii) any other event or condition determined by the commissioner to constitute an imminent threat to public health.

Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation adjustment from taking effect retroactively to the extent permitted by the federal centers for medicare and medicaid services.

In accordance with the medicaid savings allocation adjustment, the commissioner of the department of health shall reduce department of health state funds medicaid spending by the amount of the projected overspending through, actions including, but not limited to modifying or suspending reimbursement methods, including but not limited to all fees, premium levels and rates of payment, notwithstanding any provision of law that sets a specific amount or methodology for any such payments or rates of payment; modifying medicaid program benefits; seeking all necessary federal approvals, including, but not limited to waivers, waiver amendments; and suspending time
frames for notice, approval or certification of rate requirements, notwithstanding any provision of law, rule or regulation to the contrary, including but not limited to sections 2807 and 3614 of the public health law, section 18 of chapter 2 of the laws of 1988, and 18 NYCRR 505.14(h).

The department of health shall prepare a monthly report that sets forth: (a) known and projected department of health medicaid expenditures as described in subdivision (1) of this section, and factors that could result in medicaid disbursements for the relevant state fiscal year to exceed the projected department of health state funds disbursements in the enacted budget financial plan pursuant to subdivision 3 of section 23 of the state finance law, including spending increases or decreases due to: enrollment fluctuations, rate changes, utilization changes, MRT investments, and shift of beneficiaries to managed care; and variations in offline medicaid payments; and (b) the actions taken to implement any medicaid savings allocation adjustment implemented pursuant to subdivision (4) of this section, including information concerning the impact of such actions on each category of service and each geographic region of the state. Each such monthly report shall be provided to the chairs of the senate finance and the assembly ways and means committees and shall be posted on the department of health's website in a timely manner.

The money hereby appropriated is available for payment of aid herefore accrued or hereafter accrued to municipalities, and to providers of medical services pursuant to section 367-b of the social services law.

Notwithstanding any other provision of law, the money hereby appropriated may be increased or decreased by interchange or transfer, with any appropriation of the department of health, and may be increased or decreased by transfer or suballocation between these appropriated amounts and appropriations of the office of mental health, the office for people with developmental disabilities, the office of addiction services and supports, the department of family assistance office of temporary and disability assistance, the department of corrections and community supervision, the office of information technology services, the state university of New York, the state office for the aging, the office of the medicaid inspector general, and office of children and family services with the approval of the director of the budget, who shall file such approval with the department of audit and control and copies thereof with the chairman of the senate finance committee and the chairman of the assembly ways and means committee.

the aggregate, with the following schedule: not more than 49 percent
for the period April 1, 2020 to March 31, 2021; and the remaining
amount for the period April 1, 2021 to [March 31,] September 15,
2022.

Notwithstanding section 40 of the state finance law or any provision
of law to the contrary, subject to federal approval, department of
health state funds medicaid spending, excluding payments for medical
services provided at state facilities operated by the office of
mental health, the office for people with developmental disabilities
and the office of addiction services and supports and further
excluding any payments which are not appropriated within the depart-
ment of health, in the aggregate, for the period April 1, 2020
through March 31, 2021, shall not exceed $23,606,772,000 except as
provided below and state share medicaid spending, in the aggregate,
for the period April 1, 2021 through [March 31,] September 15,
2022, shall not exceed [[$24,598,493,000] $23,531,327,000, but in no  event
shall department of health state funds medicaid spending for the
period April 1, 2020 through [March 31,] September 15, 2022 exceed
[$48,205,265,000] $47,138,099,000. Provided, however, such aggre-
gate limits may be adjusted by the director of the budget to account
for any changes in the New York state federal medical assistance
percentage amount established pursuant to the federal social securi-
ty act, increases in provider revenues, reductions in local social
services district payments for medical assistance administration,
minimum wage increases, and beginning April 1, 2012 the operational
costs of the New York state medical indemnity fund, pursuant to
chapter 59 of the laws of 2011, and state costs or savings from the
essential plan program. Such projections may be adjusted by the
director of the budget to account for increased or expedited depart-
ment of health state funds medicaid expenditures as a result of a
natural or other type of disaster, including a governmental declara-
tion of emergency.

The director of the budget, in consultation with the commissioner of
health, shall assess on a monthly basis known and projected medicaid
expenditures by category of service and by geographic region, as
defined by the commissioner, incurred both prior to and subsequent
to such assessment for each such period, and if the director of the
budget determines that such expenditures are expected to cause medi-
caid spending for such period to exceed the aggregate limit speci-
fied herein for such period, the state medicaid director, in consul-
tation with the director of the budget and the commissioner of
health, shall develop a medicaid savings allocation adjustment to
limit such spending to the aggregate limit specified herein for such
period.

Such medicaid savings allocation adjustment shall be designed, to
reduce the expenditures authorized by the appropriations herein in
compliance with the following guidelines: (1) reductions shall be
made in compliance with applicable federal law, including the
provisions of the Patient Protection and Affordable Care Act, Public
Law No. 111-148, and the Health Care and Education Reconciliation
Act of 2010, Public Law No. 111-152 (collectively "Affordable Care
Act") and any subsequent amendments thereto or regulations promul-
gated thereunder; (2) reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver authority, to implement the provisions of the medicaid savings allocation adjustment that meets the other criteria set forth herein; (3) reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the Affordable Care Act; (4) reductions shall be made uniformly among categories of services and geographic regions of the state, to the extent practicable, and shall be made uniformly within a category of service, to the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific categories of services contributed to department of health medicaid state funds spending in excess of the limits specified herein; the need to maintain safety net services in underserved communities; or the potential benefits of pursuing innovative payment models contemplated by the Affordable Care Act, in which case such grounds shall be set forth in the medicaid savings allocation adjustment; and (5) reductions shall be made in a manner that does not unnecessarily create administrative burdens to medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation adjustment, to the extent that all or part of such adjustment, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation adjustment on the department of health's website and shall provide written copies of such adjustment to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

(b) The commissioner may revise the medicaid savings allocation adjustment subsequent to the provisions of notice and prior to implementation but needs to provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that such revisions materially alter the adjustment.

Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this subdivision if, in the discretion of the commissioner, expedited development and implementation of a medicaid savings allocation adjustment is necessary due to a public health emergency.
For purposes of this section, a public health emergency is defined as:
(i) a disaster, natural or otherwise, that significantly increases
the immediate need for health care personnel in an area of the
state; (ii) an event or condition that creates a widespread risk of
exposure to a serious communicable disease, or the potential for
such widespread risk of exposure; or (iii) any other event or condi-
tion determined by the commissioner to constitute an imminent threat
to public health.

Nothing in this paragraph shall be deemed to prevent all or part of
such medicaid savings allocation adjustment from taking effect
retroactively to the extent permitted by the federal centers for
medicare and medicaid services.

In accordance with the medicaid savings allocation adjustment, the
commissioner of the department of health shall reduce department of
health state funds medicaid spending by the amount of the projected
overspending through, actions including, but not limited to modify-
ing or suspending reimbursement methods, including but not limited
to all fees, premium levels and rates of payment, notwithstanding
any provision of law that sets a specific amount or methodology for
any such payments or rates of payment; modifying or discontinuing
medicaid program benefits; seeking all necessary federal approvals,
including, but not limited to waivers, waiver amendments; and
suspending time frames for notice, approval or certification of rate
requirements, notwithstanding any provision of law, rule or regu-
lation to the contrary, including but not limited to sections 2807
and 3614 of the public health law, section 18 of chapter 2 of the
laws of 1988, and 18 NYCRR 505.14(h).

The department of health shall prepare a monthly report that sets
forth: (a) known and projected department of health medicaid expend-
itures as described in subdivision (1) of this section, and factors
that could result in medicaid disbursements for the relevant state
fiscal year to exceed the projected department of health state funds
disbursements in the enacted budget financial plan pursuant to
subdivision 3 of section 23 of the state finance law, including
spending increases or decreases due to: enrollment fluctuations,
rate changes, utilization changes, MRT investments, and shift of
beneficiaries to managed care; and variations in offline medicaid
payments; and (b) the actions taken to implement any medicaid
savings allocation adjustment implemented pursuant to subdivision
(4) of this section, including information concerning the impact of
such actions on each category of service and each geographic region
of the state. Each such monthly report shall be provided to the
chairs of the senate finance and the assembly ways and means commit-
tees and shall be posted on the department of health's website in a
timely manner.

The money hereby appropriated is to be available for payment of aid
herefore accrued or hereafter accrued to municipalities, and to
providers of medical services pursuant to section 367-b of the
social services law, and for payment of state aid to municipalities
and to providers of family care where payment systems through the
fiscal intermediaries are not operational.

Notwithstanding section 40 of the state finance law or any other law to the contrary, all medical assistance appropriations made from this account shall remain in full force and effect in accordance, in the aggregate, with the following schedule: not more than 50 percent for the period April 1, 2020 to March 31, 2021; and the remaining amount for the period April 1, 2021 to [March 31, September 15, 2022].

Notwithstanding section 40 of the state finance law or any provision of law to the contrary, subject to federal approval, department of health state funds medicaid spending, excluding payments for medical services provided at state facilities operated by the office of mental health, the office for people with developmental disabilities and the office of addiction services and supports and further excluding any payments which are not appropriated within the department of health, in the aggregate, for the period April 1, 2020 through March 31, 2021, shall not exceed $23,606,772,000 except as provided below and state share medicaid spending, in the aggregate, for the period April 1, 2021 through [March 31, September 15, 2022], shall not exceed [24,598,493,000] $23,531,327,000, but in no event shall department of health state funds medicaid spending for the period April 1, 2020 through [March 31, September 15, 2022] exceed [48,205,265,000] $47,138,099,000 provided, however, such aggregate limits may be adjusted by the director of the budget to account for any changes in the New York state federal medical assistance
percentage amount established pursuant to the federal social security act, increases in provider revenues, reductions in local social services district payments for medical assistance administration, minimum wage increases and beginning April 1, 2012 the operational costs of the New York state medical indemnity fund, pursuant to chapter 59 of the laws of 2011, and state costs or savings from the essential plan program. Such projections may be adjusted by the director of the budget to account for increased or expedited department of health state funds medicaid expenditures as a result of a natural or other type of disaster, including a governmental declaration of emergency.

The director of the budget, in consultation with the commissioner of health, shall assess on a monthly basis known and projected medicaid expenditures by category of service and by geographic region, as determined by the commissioner of health, incurred both prior to and subsequent to such assessment for each such period, and if the director of the budget determines that such expenditures are expected to cause medicaid spending for such period to exceed the aggregate limit specified herein for such period, the state medicaid director, in consultation with the director of the budget and the commissioner of health, shall develop a medicaid savings allocation adjustment to limit such spending to the aggregate limit specified herein for such period.

Such medicaid savings allocation adjustment shall be designed, to reduce the expenditures authorized by the appropriations herein in compliance with the following guidelines: (1) reductions shall be made in compliance with applicable federal law, including the provisions of the Patient Protection and Affordable Care Act, Public Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No. 111-152 (collectively "Affordable Care Act") and any subsequent amendments thereto or regulations promulgated thereunder; (2) reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver authority, to implement the provisions of the medicaid savings allocation adjustment that meets the other criteria set forth herein; (3) reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the Affordable Care Act; (4) reductions shall be made uniformly among categories of services and geographic regions of the state, to the extent practicable, and shall be made uniformly within a category of service, to the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific categories of services contributed to department of health medicaid state funds spending in excess of the limits specified herein; the need to maintain safety net services in underserved communities; or the potential benefits of pursuing innovative payment models contem-
plated by the Affordable Care Act, in which case such grounds shall be set forth in the medicaid savings allocation adjustment; and (5) reductions shall be made in a manner that does not unnecessarily create administrative burdens to medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation adjustment, to the extent that all or part of such adjustment, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation adjustment on the department of health's website and shall provide written copies of such plan to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

(b) The commissioner may revise the medicaid savings allocation adjustment subsequent to the provisions of notice and prior to implementation but needs to provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that such revisions materially alter the plan.

Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this subdivision if, in the discretion of the commissioner, expedited development and implementation of a medicaid savings allocation adjustment is necessary due to a public health emergency.

For purposes of this section, a public health emergency is defined as: (i) a disaster, natural or otherwise, that significantly increases the immediate need for health care personnel in an area of the state; (ii) an event or condition that creates a widespread risk of exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or (iii) any other event or condition determined by the commissioner to constitute an imminent threat to public health.

Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation adjustment from taking effect retroactively to the extent permitted by the federal centers for medicare and medicaid services.

In accordance with the medicaid savings allocation adjustment, the commissioner of the department of health shall reduce department of health state funds medicaid spending by the amount of the projected overspending through, actions including, but not limited to modifying or suspending reimbursement methods, including but not limited to all fees, premium levels and rates of payment, notwithstanding any provision of law that sets a specific amount or methodology for any such payments or rates of payment; modifying medicaid program benefits; seeking all necessary federal approvals, including, but

not limited to waivers, waiver amendments; and suspending time
frames for notice, approval or certification of rate requirements,
notwithstanding any provision of law, rule or regulation to the
contrary, including but not limited to sections 2807 and 3614 of the
public health law, section 18 of chapter 2 of the laws of 1988, and
18 NYCRR 505.14(h).

The department of health shall prepare a monthly report that sets
forth: (a) known and projected department of health medicaid expend-
itures as described in subdivision (1) of this section, and factors
that could result in medicaid disbursements for the relevant state
fiscal year to exceed the projected department of health state funds
disbursements in the enacted budget financial plan pursuant to
subdivision 3 of section 23 of the state finance law, including
spending increases or decreases due to: enrollment fluctuations,
rate changes, utilization changes, MRT investments, and shift of
beneficiaries to managed care; and variations in offline medicaid
payments; and (b) the actions taken to implement any medicaid
savings allocation adjustment implemented pursuant to subdivision
(4) of this section, including information concerning the impact of
such actions on each category of service and each geographic region
of the state. Each such monthly report shall be provided to the
chairs of the senate finance and the assembly ways and means commit-
tees and shall be posted on the department of health's website in a
timely manner.

the budget, in consultation with the commissioner of health, may use
a payment reduction plan to make across-the-board reductions to the
department of health state funds medicaid spending by $373,000,000
for state fiscal year 2020-2021 and [$175,000,000 $467,000,000 in
state fiscal year 2021-2022 to limit such spending to the aggregate
limit specified herein, or reduce the aggregate limit specified
herein to provide a reduction to the state's financial plan.
Reductions shall be made in a manner that complies with the state
medicaid plan approved by the federal centers for medicare and medi-
caid services, provided, however, that the commissioner of health is
authorized to submit any state plan amendment or seek other federal
approval to implement the provisions of the medicaid payment
reduction adjustment.

For the purpose of making payments to providers of medical care pursu-
ant to section 367-b of the social services law, and for payment of
state aid to municipalities where payment systems through fiscal
intermediaries are not operational, to reimburse such providers for
costs attributable to the provision of care to patients eligible for
medical assistance. Payments from this appropriation to general
hospitals related to indigent care pursuant to article 28 of the
public health law respectively, when combined with federal funds for
services and expenses for the medical assistance program pursuant to
title XIX of the federal social security act or its successor
program, shall equal the amount of the funds received related to
health care reform act allowances and surcharges pursuant to article
28 of the public health law and deposited to this account less any
such amounts withheld pursuant to subdivision 21 of section 2807-c

The appropriation made by chapter 53, section 1, of the laws of 2020, as
added by chapter 50, section 3, of the laws of 2020, is hereby
amended and reappropriated to read:

Notwithstanding section 40 of the state finance law or any other law
to the contrary, all medical assistance appropriations made from
this account shall remain in full force and effect in accordance, in
the aggregate, with the following schedule: not more than 50 percent
for the period April 1, 2020 to March 31, 2021; and the remaining
amount for the period April 1, 2021 to [March 31,] September 15,
2022.

Notwithstanding section 40 of the state finance law or any provision
of law to the contrary, subject to federal approval, department of
health state funds medicaid spending, excluding payments for medical
services provided at state facilities operated by the office of
mental health, the office for people with developmental disabilities
and the office of addiction services and supports and further
excluding any payments which are not appropriated within the depart-
ment of health, in the aggregate, for the period April 1, 2020
through March 31, 2021, shall not exceed $23,606,772,000 except as
provided below and state share medicaid spending, in the aggregate,
for the period April 1, 2021 through [March 31,] September 15,
2022, shall not exceed [$24,690,493,000] $23,531,327,000, but in no event
shall department of health state funds medicaid spending for the
period April 1, 2020 through [March 31,] September 15, 2022 exceed
[$48,205,265,000] $47,138,099,000 provided, however, such aggregate
limits may be adjusted by the director of the budget to account for
any changes in the New York state federal medical assistance
percentage amount established pursuant to the federal social securi-
ty act, increases in provider revenues, reductions in local social
services district payments for medical assistance administration,
minimum wage increases and beginning April 1, 2012 the operational
costs of the New York state medical indemnity fund, pursuant to
chapter 59 of the laws of 2011, and state costs or savings from the
essential plan. Such projections may be adjusted by the director of
the budget to account for increased or expedited department of
health state funds medicaid expenditures as a result of a natural or
other type of disaster, including a governmental declaration of
emergency.

The director of the budget, in consultation with the commissioner of
health, shall assess on a monthly basis known and projected medicaid
expenditures by category of service and by geographic region, as
determined by the commissioner of health, incurred both prior to and
subsequent to such assessment for each such period, and if the
director of the budget determines that such expenditures are
expected to cause medicaid spending for such period to exceed the
aggregate limit specified herein for such period, the state medicaid
director, in consultation with the director of the budget and the
commissioner of health, shall develop a medicaid savings allocation
adjustment to limit such spending to the aggregate limit specified
herein for such period.

Such medicaid savings allocation adjustment shall be designed, to
reduce the expenditures authorized by the appropriations herein in
compliance with the following guidelines: (1) reductions shall be
made in compliance with applicable federal law, including the
provisions of the Patient Protection and Affordable Care Act, Public
Law No. 111-148, and the Health Care and Education Reconciliation
Act of 2010, Public Law No. 111-152 (collectively "Affordable Care
Act") and any subsequent amendments thereto or regulations promul-
gated thereunder; (2) reductions shall be made in a manner that
complies with the state medicaid plan approved by the federal
centers for medicare and medicaid services, provided, however, that
the commissioner of health is authorized to submit any state plan
amendment or seek other federal approval, including waiver authori-
sity, to implement the provisions of the medicaid savings allocation
adjustment that meets the other criteria set forth herein; (3)
reductions shall be made in a manner that maximizes federal finan-
cial participation, to the extent practicable, including any federal
financial participation that is available or is reasonably expected
to become available, in the discretion of the commissioner, under
the Affordable Care Act; (4) reductions shall be made uniformly
among categories of services and geographic regions of the state, to
the extent practicable, and shall be made uniformly within a catego-
ry of service, to the extent practicable, except where the commis-
ioner determines that there are sufficient grounds for non-uniform-
ity, including but not limited to: the extent to which specific
categories of services contributed to department of health medicaid
state funds spending in excess of the limits specified herein; the
need to maintain safety net services in underserved communities; or
the potential benefits of pursuing innovative payment models contem-
plated by the Affordable Care Act, in which case such grounds shall
be set forth in the medicaid savings allocation adjustment; and (5)
reductions shall be made in a manner that does not unnecessarily
create administrative burdens to medicaid applicants and recipients
or providers.

The commissioner shall seek the input of the legislature, as well as
organizations representing health care providers, consumers, busi-
nesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation adjustment, to the extent that all or part of such adjustment, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation adjustment on the department of health's website and shall provide written copies of such plan to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

(b) The commissioner may revise the medicaid savings allocation adjustment subsequent to the provisions of notice and prior to implementation but needs to provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that such revisions materially alter the plan.

Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this subdivision if, in the discretion of the commissioner, expedited development and implementation of a medicaid savings allocation adjustment is necessary due to a public health emergency.

For purposes of this section, a public health emergency is defined as:

(i) a disaster, natural or otherwise, that significantly increases the immediate need for health care personnel in an area of the state;
(ii) an event or condition that creates a widespread risk of exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or
(iii) any other event or condition determined by the commissioner to constitute an imminent threat to public health.

Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation adjustment from taking effect retroactively to the extent permitted by the federal centers for medicare and medicaid services.

In accordance with the medicaid savings allocation adjustment, the commissioner of the department of health shall reduce department of health state funds medicaid spending by the amount of the projected overspending through, actions including, but not limited to modifying or suspending reimbursement methods, including but not limited to all fees, premium levels and rates of payment, notwithstanding any provision of law that sets a specific amount or methodology for any such payments or rates of payment; modifying medicaid program benefits; seeking all necessary federal approvals, including, but not limited to waivers, waiver amendments; and suspending time frames for notice, approval or certification of rate requirements, notwithstanding any provision of law, rule or regulation to the contrary, including but not limited to sections 2807 and 3614 of the public health law, section 18 of chapter 2 of the laws of 1988, and 18 NYCRR 505.14(h).
The department of health shall prepare a monthly report that sets forth: (a) known and projected department of health medicaid expenditures as described in subdivision (1) of this section, and factors that could result in medicaid disbursements for the relevant state fiscal year to exceed the projected department of health state funds disbursements in the enacted budget financial plan pursuant to subdivision 3 of section 23 of the state finance law, including spending increases or decreases due to: enrollment fluctuations, rate changes, utilization changes, MRT investments, and shift of beneficiaries to managed care; and variations in offline medicaid payments; and (b) the actions taken to implement any medicaid savings allocation adjustment implemented pursuant to subdivision (4) of this section, including information concerning the impact of such actions on each category of service and each geographic region of the state. Each such monthly report shall be provided to the chairs of the senate finance and the assembly ways and means committees and shall be posted on the department of health's website in a timely manner.

For the purpose of making payments, the money hereby appropriated is available for payment of aid heretofore accrued or hereafter accrued, to providers of medical care pursuant to section 367-b of the social services law, and for payment of state aid to municipalities and the federal government where payment systems through fiscal intermediaries are not operational, to reimburse such providers for costs attributable to the provision of care to patients eligible for medical assistance. Notwithstanding any inconsistent provision of law, the moneys hereby appropriated may be increased or decreased by interchange or transfer with any appropriation of the department of health with the approval of the director of the budget, who shall file such approval with the department of audit and control and copies thereof with the chairman of the senate finance committee and the chairman of the assembly ways and means committee.

Notwithstanding any provision of law to the contrary, the director of the budget, in consultation with the commissioner of health, may use a payment reduction plan to make across-the-board reductions to the department of health state funds medicaid spending by $373,000,000 for state fiscal year 2020-2021 and [[$175,000,000]$467,000,000] in state fiscal year 2021-2022 to limit such spending to the aggregate limit specified herein, or reduce the aggregate limit specified herein to provide a reduction to the state's financial plan. Reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval to implement the provisions of the medicaid payment reduction plan. For services and expenses of the medical assistance program.

added by chapter 50, section 3, of the laws of 2020, is hereby
amended and reappropriated to read:
Notwithstanding section 40 of the state finance law or any other law
to the contrary, all medical assistance appropriations made from
this account shall remain in full force and effect in accordance, in
the aggregate, with the following schedule: not more than 49 percent
for the period April 1, 2020 to March 31, 2021; and the remaining
amount for the period April 1, 2021 to [March 31] September 15,
2022.

Notwithstanding section 40 of the state finance law or any provision
of law to the contrary, subject to federal approval, department of
health state funds medicaid spending, excluding payments for medical
services provided at state facilities operated by the office of
mental health, the office for people with developmental disabilities
and the office of addiction services and supports and further
excluding any payments which are not appropriated within the depart-
ment of health, in the aggregate, for the period April 1, 2020

for the period April 1, 2021 through [March 31, 2022], shall not exceed $24,598,493,000, but in no event
shall department of health state funds medicaid spending for the
period April 1, 2020 through [March 31, 2022] exceed $48,205,265,000 provided, however, such aggregate
limits may be adjusted by the director of the budget to account for
any changes in the New York state federal medical assistance
percentage amount established pursuant to the federal social securi-
ty act, increases in provider revenues, reductions in local social
services district payments for medical assistance administration,
minimum wage increases and beginning April 1, 2012 the operational
costs of the New York state medical indemnity fund, pursuant to
chapter 59 of the laws of 2011, and state costs or savings from the
essential plan. Such projections may be adjusted by the director of
the budget to account for increased or expedited department of
health state funds medicaid expenditures as a result of a natural or
other type of disaster, including a governmental declaration of

The director of the budget, in consultation with the commissioner of
health, shall assess on monthly basis known and projected medicaid
expenditures by category of service and by geographic region, as
determined by the commissioner of health, incurred both prior to and
subsequent to such assessment for each such period, and if the
director of the budget determines that such expenditures are
expected to cause medicaid spending for such period to exceed the
aggregate limit specified herein for such period, the state medicaid
director, in consultation with the director of the budget and the
commissioner of health, shall develop a medicaid savings allocation
adjustment to limit such spending to the aggregate limit specified
herein for such period.

Such medicaid savings allocation adjustment shall be designed, to
reduce the expenditures authorized by the appropriations herein in
compliance with the following guidelines: (1) reductions shall be
made in compliance with applicable federal law, including the

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation adjustment, to the extent that all or part of such adjustment, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation adjustment on the department of health's website and shall provide written copies of such plan to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

Each such monthly report shall be provided to the chairs of the senate finance and the assembly ways and means committees and shall be posted on the department of health's website in a timely manner.

Notwithstanding any provision of law to the contrary, the director of the budget, in consultation with the commissioner of health, may use a payment reduction plan to make across-the-board reductions to the department of health state funds medicaid spending by $373,000,000 for state fiscal year 2020-2021 and $467,000,000 in state fiscal year 2021-2022 and to limit such spending to the aggregate limit specified herein, or reduce the aggregate limit specified herein to provide a reduction to the state's financial plan.
