17 section twenty-eight hundred thirty of this article shall apply to this
18 subdivision and subdivision nine-a of this section.

19 9-a. (a) (i) As a condition for participation in pool distributions
20 authorized pursuant to this section and section twenty-eight hundred

44 shall not require a patient to apply for coverage through the New York
45 state of health marketplace in order to receive care or financial
46 assistance.

47 (iii) Upon submission of a completed application form, the patient may

54 amount that would have been paid for the same services [~~by the highest~~

1 ~~volume payor" for such general hospital as defined in subparagraph (v)~~
2 ~~of this paragraph, or for services provided pursuant to title XVIII of~~

11 (ii) For patients with incomes between [~~at least one~~] two hundred one
12 percent and [~~one~~] four hundred [~~fifty~~] percent of the federal poverty
13 level, the hospital shall collect no more than the amount identified
14 after application of a proportional sliding fee schedule under which
15 patients with lower incomes shall pay the lowest amount. Such schedule
16 shall provide that the amount the hospital may collect for such patients
17 increases from the nominal amount described in subparagraph (i) of this
18 paragraph in equal increments as the income of the patient increases, up
19 to a maximum of twenty percent of the greater of the amount that would
20 have been paid for the same services [~~by the "highest volume payor" for~~
21 ~~such general hospital, as defined in subparagraph (v) of this paragraph,~~
22 ~~or for services provided pursuant to title XVIII of the federal social~~
23 ~~security act (medicare) or for services]~~ provided pursuant to title XIX
24 of the federal social security act (medicaid)[~~†~~].

25 (iii) [~~For patients with incomes between at least one hundred fifty~~
26 ~~one percent and two hundred fifty percent of the federal poverty level,~~
27 ~~the hospital shall collect no more than the amount identified after~~
28 ~~application of a proportional sliding fee schedule under which patients~~
29 ~~with lower income shall pay the lowest amounts. Such schedule shall~~
30 ~~provide that the amount the hospital may collect for such patients~~
31 ~~increases from the twenty percent figure described in subparagraph (ii)~~
32 ~~of this paragraph in equal increments as the income of the patient~~
33 ~~increases, up to a maximum of the greater of the amount that would have~~
34 ~~been paid for the same services by the "highest volume payor" for such~~
35 ~~general hospital, as defined in subparagraph (v) of this paragraph, or~~
36 ~~for services provided pursuant to title XVIII of the federal social~~
37 ~~security act (medicare) or for services provided pursuant to title XIX~~
38 ~~of the federal social security act (medicaid); and~~

39 (iv)] For patients with incomes [~~between at least two hundred fifty~~
40 ~~one percent and three hundred~~] above four hundred one percent of the
41 federal poverty level, the hospital shall collect no more than the
42 greater of the amount that would have been paid for the same services
43 [~~by the "highest volume payor" for such general hospital as defined in~~

47 act (medicaid).

48 [~~(v) For the purposes of this paragraph, "highest volume payor" shall~~
49 ~~mean the insurer, corporation or organization licensed, organized or~~

52 ~~party payor, which has a contract or agreement to pay claims for~~
53 ~~services provided by the general hospital and incurred the highest~~
54 ~~volume of claims in the previous calendar year.~~

55 (vi) ~~A hospital may implement policies and procedures to permit, but~~
56 ~~not require, consideration on a case-by-case basis of exceptions to the~~

1 ~~requirements described in subparagraphs (i) and (ii) of this paragraph~~
2 ~~based upon the existence of significant assets owned by the patient that~~
3 ~~should be taken into account in determining the appropriate payment~~
4 ~~amount for that patient's care, provided, however, that such proposed~~
5 ~~policies and procedures shall be subject to the prior review and~~
6 ~~approval of the commissioner and, if approved, shall be included in the~~
7 ~~hospital's financial assistance policy established pursuant to this~~
8 ~~section, and provided further that, if such approval is granted, the~~
9 ~~maximum amount that may be collected shall not exceed the greater of the~~
10 ~~amount that would have been paid for the same services by the "highest~~
11 ~~volume payor" for such general hospital as defined in subparagraph (v)~~
12 ~~of this paragraph, or for services provided pursuant to title XVIII of~~
13 ~~the federal social security act (medicare), or for services provided~~
14 ~~pursuant to title XIX of the federal social security act (medicaid). In~~
15 ~~the event that a general hospital reviews a patient's assets in deter-~~
16 ~~mining payment adjustments such policies and procedures shall not~~
17 ~~consider as assets a patient's primary residence, assets held in a tax-~~
18 ~~deferred or comparable retirement savings account, college savings~~
19 ~~accounts, or cars used regularly by a patient or immediate family~~
20 ~~members.~~

21 ~~(vii)]~~ (iv) Nothing in this paragraph shall be construed to limit a
22 hospital's ability to establish patient eligibility for payment
23 discounts at income levels higher than those specified herein and/or to
24 provide greater payment discounts for eligible patients than those
25 required by this paragraph.

26 (c) [~~Such policies and procedures shall be clear, understandable, in~~
27 ~~writing and publicly available in summary form and each]~~ Each general
28 hospital participating in the pool shall ensure that every patient is

32 policy upon request. [~~Any summary provided to patients shall, at a mini-~~
33 ~~imum, include specific information as to income levels used to determine~~
34 ~~eligibility for assistance, a description of the primary service area of~~
35 ~~the hospital and the means of applying for assistance. For general~~
36 ~~hospitals with twenty four hour emergency departments, such policies and~~
37 ~~procedures]~~ A general hospital shall require the notification of
38 patients through written materials provided to patients during the
39 intake and registration process, through the conspicuous posting of
40 language-appropriate information in the general hospital, and informa-
41 tion on bills and statements sent to patients, that financial [~~aid]~~
42 assistance may be available to qualified patients and how to obtain
43 further information. [~~For specialty hospitals without twenty-four hour~~
44 ~~emergency departments, such notification shall take place through writ-~~

47 ~~dures, and through information on bills and statements sent to patients,~~
48 ~~that financial aid may be available to qualified patients and how to~~
49 ~~obtain further information. Application materials shall include a notice~~
50 ~~to patients that upon submission of a completed application, including~~
51 ~~any information or documentation needed to determine the patient's~~
52 ~~eligibility pursuant to the hospital's financial assistance policy, the~~
53 ~~patient may disregard any bills until the hospital has rendered a deci-~~
54 ~~sion on the application in accordance with this paragraph]~~ General
55 hospitals shall post the uniform financial assistance application form
56 and policy in a conspicuous location on the general hospital's website.

1 The commissioner shall likewise post the uniform financial assistance
2 form and policy on the department's hospital profile page related to the
3 general hospital's or any successor website.

4 (d) The commissioner shall provide application materials to general
5 hospitals, including the uniform financial assistance application form
6 and policy. These application materials shall include a notice to
7 patients that upon submission of a completed application form, the
8 patient may disregard any bills until the general hospital has rendered
9 a decision on the application in accordance with this paragraph. The
10 application materials shall include specific information as the income
11 levels used to determine eligibility for financial assistance, a
12 description of the primary service area of the hospital and the means to
13 apply for assistance. Such policies and procedures shall include clear,
14 objective criteria for determining a patient's ability to pay and for
15 providing such adjustments to payment requirements as are necessary. In
16 addition to adjustment mechanisms such as sliding fee schedules and
17 discounts to fixed standards, such policies and procedures shall also
18 provide for the use of installment plans for the payment of outstanding
19 balances by patients pursuant to the provisions of the hospital's finan-
20 cial assistance policy. The monthly payment under such a plan shall not
21 exceed [~~ten~~] five percent of the gross monthly income of the patient[~~7~~
22 ~~provided, however, that if patient assets are considered under such a~~
23 ~~policy, then patient assets which are not excluded assets pursuant to~~
24 ~~subparagraph (vi) of paragraph (b) of this subdivision may be considered~~
25 ~~in addition to the limit on monthly payments.] The rate of interest
26 charged to the patient on the unpaid balance, if any, shall not exceed
27 the [~~rate for a ninety day security~~] federal funds rate issued by the
28 United States Department of Treasury[~~, plus .5 percent~~] and no plan
29 shall include an accelerator or similar clause under which a higher rate
30 of interest is triggered upon a missed payment. [~~If such policies and~~

34 procedures shall be applied consistently to all eligible patients.~~~~

35 (e) Such policies and procedures shall permit patients to apply for
36 assistance within at least [~~ninety~~] two hundred forty days of the date
37 of discharge or date of service and provide at least [~~twenty~~] sixty days
38 for patients to submit a completed application. Such policies and proce-
39 dures may require that patients seeking payment adjustments provide
40 [~~appropriate~~] the following financial information and documentation in
41 support of their application[~~, provided, however, that such application~~
42 ~~process shall not be unduly burdensome or complex] that are used by the
43 New York state of health marketplace: pay checks or pay stubs; rent
44 receipts; a letter from the patient's employer attesting to the
45 patient's gross income; or, if none of the aforementioned information
46 and documentation are available, a written self-attestation of the
47 patient's income. General hospitals shall, upon request, assist patients
48 in understanding the hospital's policies and procedures and in applying
49 for payment adjustments. [~~Application forms shall be printed] The
50 commissioner shall translate the financial assistance application form
51 and policy into the "primary languages" of each general hospital. Each
52 general hospital shall print and post these materials to its website in
53 the "primary languages" of patients served by the general hospital. For
54 the purposes of this paragraph, "primary languages" shall include any
55 language that is either (i) used to communicate, during at least five
56 percent of patient visits in a year, by patients who cannot speak, read,~~~~

1 write or understand the English language at the level of proficiency
2 necessary for effective communication with health care providers, or
3 (ii) spoken by non-English speaking individuals comprising more than one
4 percent of the primary hospital service area population, as calculated
5 using demographic information available from the United States Bureau of
6 the Census, supplemented by data from school systems. Decisions regard-
7 ing such applications shall be made within thirty days of receipt of a
8 completed application. Such policies and procedures shall require that
9 the hospital issue any denial/approval of such application in writing
10 with information on how to appeal the denial and shall require the
11 hospital to establish an appeals process under which it will evaluate
12 the denial of an application. [~~Nothing in this subdivision shall be
13 interpreted as prohibiting a hospital from making the availability of
14 financial assistance contingent upon the patient first applying for
15 coverage under title XIX of the social security act (medicaid) or another
16 insurance program if, in the judgment of the hospital, the patient
17 may be eligible for medicaid or another insurance program, and upon the
18 patient's cooperation in following the hospital's financial assistance
19 application requirements, including the provision of information needed
20 to make a determination on the patient's application in accordance with
21 the hospital's financial assistance policy.~~]

22 (f) Such policies and procedures shall provide that patients with
23 incomes below [~~three~~] four hundred percent of the federal poverty level
24 are deemed presumptively eligible for payment adjustments and shall
25 conform to the requirements set forth in paragraph (b) of this subdivi-
26 sion, provided, however, that nothing in this subdivision shall be
27 interpreted as precluding hospitals from extending such payment adjust-
28 ments to other patients, either generally or on a case-by-case basis.
29 Such [~~policies and procedures~~] policy shall provide financial [~~aid~~]
30 assistance for emergency hospital services, including emergency trans-
31 fers pursuant to the federal emergency medical treatment and active
32 labor act (42 USC 1395dd), to patients who reside in New York state and
33 for medically necessary hospital services for patients who reside in the
34 hospital's primary service area as determined according to criteria
35 established by the commissioner. In developing such criteria, the
36 commissioner shall consult with representatives of the hospital indus-
37 try, health care consumer advocates and local public health officials.
38 Such criteria shall be made available to the public no less than thirty
39 days prior to the date of implementation and shall, at a minimum:

40 (i) prohibit a hospital from developing or altering its primary
41 service area in a manner designed to avoid medically underserved commu-
42 nities or communities with high percentages of uninsured residents;

43 (ii) ensure that every geographic area of the state is included in at
44 least one general hospital's primary service area so that eligible
45 patients may access care and financial assistance; and
