§ 3. 1. A distinctive plate established pursuant to section 404-ff of the vehicle and traffic law shall only be designed, produced and issued upon the delivery to the department of motor vehicles of a surety bond in the amount of six thousand dollars, which shall be executed by a surety company authorized by the department of financial services to transact business in this state. Provided, however, that if the commissioner of motor vehicles shall have received prior to plate design, production and issuance at least two hundred orders for such distinctive plate together with the additional annual service charge applicable to each such order, which shall be non-refundable, no such surety bond shall be required. All service charges collected pursuant to this section shall be deposited pursuant to the provisions of section 404-oo of the vehicle and traffic law to the credit of the department of motor vehicles distinctive plate development fund established by section 95-g of the state finance law and shall be used for the design, production, advertising and distribution of distinctive license plates in accordance with such section 95-g.

2. If, upon the expiration of two years following the date upon which distinctive plates in the series are first available for sale two hundred or more sets of such plates are sold, a bond delivered pursuant to this section shall be discontinued. If fewer than two hundred sets of such plates are sold by such time, the department of motor vehicles shall be entitled to recover against the bond in an amount proportionate to such shortfall.

§ 4. This act shall take effect immediately.
