normal use, satisfactory and adequate service upon the public highway at the time of delivery**. It shall also certify that such vehicle complies with the equipment requirements in section four hundred nineteen-a of this article**.

The failure of the vendor to deliver to the vendee the certificate required by this section or delivery of a false certificate knowing the same to be false or misleading or without making an appropriate inspection to determine whether the contents of such certificate are true shall constitute a violation of this section. § 419-a. Inflatable restraint system, required equipment upon sale. No retail dealer may sell a second hand motor vehicle which is subject to federal motor vehicle safety standards for inflatable restraint systems as provided in part 571.208 of title 49 of the code of federal regulations, unless such vehicle is equipped with an inflatable restraint system which conforms to such federal motor vehicle safety standard applicable to that vehicle and the readiness indicator light does not indicate a malfunction of the inflatable restraint system.

§ 4. This act shall take effect on the ninetieth day after it shall have become a law. Effective immediately, the addition, amendment and/or repeal of any rule or regulation necessary for the implementation of this act on its effective date are authorized to be made and completed on or before such effective date.
