15 (h) completes an application with any other state or federal agency  
16 designated as a source agency pursuant to paragraph (b) of subdivision  
17 three of this section.

18 3. (a) The term "source agency" includes the department of motor vehi-  
19 cles, any government agency designated pursuant to section 5-211 of this  
20 title, the state university of New York and the city university of New  
21 York, all public housing authorities listed in article thirteen of the  
22 public housing law, the department of corrections and community super-  
23 vision, the department of labor, the New York division of military and  
24 naval affairs and any agency designated by the state board of elections  
25 pursuant to paragraph (b) of this subdivision.

26 (b) The state board of elections may designate additional state agen-  
27 cies to serve as sources for voter registration. In designating an agen-  
28 cy under this paragraph, the state board of elections shall consider:

29 (i) the likelihood that source records reflect a large number of  
30 eligible citizens;

31 (ii) the extent to which source records reflect eligible citizens who  
32 would not otherwise be registered under the act to modernize voter  
33 registration;

34 (iii) the accuracy of personal identification data in source records;  
35 and

36 (iv) any additional factors designated by the chief election official  
37 as reasonably related to accomplishing the purposes of the act to  
38 modernize voter registration.

39 4. The state board of elections and the source agencies shall enter  
40 into agreements to ensure that for each person described in subdivision  
41 two of this section, each source agency electronically transmits to the  
42 state or local boards of elections the following information in a format  
43 that can be read by the computerized statewide voter registration list:

44 (a) given name or names and surname or surnames;

45 (b) mailing address and residential address;

46 (c) date of birth;

47 (d) citizenship;

48 (e) driver's license or non-driver identification card number, last  
49 four digits of the person's social security number, or a space for the  
50 person to indicate that he or she does not have any such number;

51 (f) political party enrollment, if any;

52 (g) an indication that the person intends to apply for an absentee  
53 ballot, if any; and

54 (h) an image of the person's signature.

55 In the event that any transmission of data pursuant to this section  
56 fails to include an image of an individual's signature, the absence of a

signature shall not preclude the registration of an eligible citizen. The board of elections shall develop procedures to enable an eligible citizen, whose information is transmitted pursuant to this section and whose information lacks an electronic signature, to provide a signature at the polling place or with an application for an absentee ballot before voting. The board may require an elector who has not provided a signature before arriving at the polling place or submitting an absentee ballot to present a current and valid photo identification or a copy of a current utility bill, bank statement, government check, paycheck, or other government document that shows the name and address of the voter.

5. If an agency does not routinely request information concerning the citizenship status of individuals, it shall maintain records sufficient to transmit to the board of elections indications of United States citizenship for each person described in subdivision two of this section, but shall not retain, use, or share any such information relating to an individual's citizenship for any other purpose.

6. The state board of elections shall prepare and distribute to participating agencies written instructions as to the implementation of the program and shall be responsible for establishing training programs for employees of source agencies listed in this section. Training shall include requirements that employees of any source agency communicate to each individual identified in subdivision two of this section that the source agency maintains strict neutrality with respect to a person's party enrollment and all persons seeking voter registration forms and information shall be advised that government services are not conditioned on being registered to vote, or eligibility to register to vote. No statement shall be made nor any action taken to discourage the applicant from registering to vote.

7. The agreements between the state board of elections and the source agencies shall include the format in which information will be transmitted, whether and how each entity will collect, in addition to the mandatory information listed in subdivision four of this section, additional information on a voluntary basis from persons for the purpose of facilitating voter registration, the frequency of data transmissions, the procedures and other measures that will be used to ensure the security and privacy of the information transmitted, and any other matter necessary or helpful to implement the requirements of this section.

8. Each source agency shall cooperate with the state board of elections and county board of elections to facilitate the voter registration of each person described in subdivision two of this section, and to electronically transmit the information needed to register each such person to vote or to update each such person's voter registration record.

9. Each source agency shall enter into an agreement with the state board of elections finalizing the format and content of electronic transmissions required by this section no later than September first, two thousand twenty-three; provided, that each source agency shall be able to comply fully with all requirements of this section, including the collection and transmission of all data required to register individuals to vote, by January first, two thousand twenty-four.

10. Upon receiving information from a source agency with respect to an individual, the state board of elections shall determine whether the individual is included in the computerized statewide voter registration list.

(a) If an individual for whom information is received from a source agency is eligible to vote in elections for federal office in the state

1 and is not on the computerized statewide voter registration list, the  
2 state board of elections shall: (i) ensure that the individual is regis-  
3 tered to vote in such elections not later than five days after receiving  
4 the information, without regard to whether or not the information  
5 provided by the source agency includes the individual's signature; (ii)  
6 update the statewide computerized voter registration list to include the  
7 individual; and (iii) notify the individual that the individual is  
8 registered to vote in elections for federal office in the state.

9 (b) If a source agency provides the state board of elections with  
10 information with respect to an individual who did not consent to be  
11 registered to vote, the state board of elections shall not take any  
12 action to register the individual to vote, except that no such individ-  
13 ual who is already included on the computerized statewide voter regis-  
14 tration list shall be removed from the list solely because the informa-  
15 tion was incorrectly provided.

16 11. If an individual who is not eligible to register to vote in  
17 elections for federal office is registered to vote in such elections by  
18 the state board of elections, the individual shall not be subject to any  
19 penalty, including the imposition of a fine or term of imprisonment,  
20 adverse treatment in any immigration or naturalization proceeding, or  
21 the denial of any status under immigration laws, under any law prohibit-  
22 ing an individual who is not eligible to register to vote in elections  
23 for federal office from registering to vote in such elections. Nothing  
24 in this subdivision shall be construed to waive the liability of any  
25 individual who knowingly provides false information to any person  
26 regarding the individual's eligibility to register to vote in elections  
27 for federal office.

28 12. No person may use the information received by the state board of  
29 elections to determine the citizenship status of any individual for  
30 immigration enforcement, criminal law enforcement (other than enforce-  
31 ment of this chapter), or any other purpose other than voter registra-  
32 tion or election administration. No information relating to an individ-  
33 ual's absence from the statewide voter registration list or an  
34 individual's declination to supply information for voter registration  
35 purposes to a source agency may be disclosed to the public for immi-  
36 gration enforcement, criminal law enforcement other than enforcement of  
37 laws against election crimes, or used for any purpose other than voter  
38 registration, election administration, or the enforcement of election  
39 laws.

40 13. Voter registration information collected under this section shall  
41 not be used for commercial purposes including for comparison with any  
42 existing commercial list or database.

43 § 5-232. Availability of online registration. 1. Every election  
44 district shall ensure that the following services are available to the  
45 public at any time on the official public websites of the appropriate  
46 local election officials in the state: online application for voter  
47 registration, online assistance to applications in applying to register  
48 to vote, online completion and submission by applications of the mail  
49 voter registration application form pursuant to section 5-210, including  
50 assistance with providing a signature in electronic form as required  
51 under section 5-234 of this title, and online receipt of completed voter  
52 registration applications.

53 2. Any county or municipality shall accept an online voter registra-  
54 tion application provided by an individual under this section, and  
55 ensure that the individual is registered to vote in the state, if (a)  
56 the individual meets the same voter registration requirements applicable

1 to individuals who register to vote by mail in accordance with law using  
2 the mail voter registration application form, and (b) the individual  
3 provides a signature in electronic form pursuant to section 5-234 of  
4 this title.

5 3. (a) Upon the online submission of a completed voter registration  
6 application by an individual under this section, the appropriate state  
7 or local election official shall send the individual a notice confirming  
8 the state's receipt of the application and providing instructions on how  
9 the individual may check the status of the application, and

10 (b) as soon as the appropriate election official has approved or  
11 rejected an application submitted by an individual under this section,  
12 the official shall send the individual a notice of the disposition of  
13 the application.

14 § 5-234. Signatures in electronic form. An individual provides a  
15 signature in electronic form by executing a computerized mark in the  
16 signature field on an online voter registration application; or submit-  
17 ting with the application an electronic copy of the individual's hand-  
18 written signature through electronic means.

19 § 5-236. Nonpartisan manner. The services made available under this  
20 title shall be provided in a manner that ensures that the online appli-  
21 cation does not seek to influence an applicant's political preference or  
22 party registration and there is no display on the website promoting any  
23 political preference or party allegiance, except that nothing in this  
24 section may be construed to prohibit an applicant from registering to  
25 vote as a member of a political party.

26 § 5-238. Protection of security information. The state board of  
27 elections shall establish appropriate technological security measures to  
28 prevent to the greatest extent practicable any unauthorized access to  
29 information provided by individuals using the services made available  
30 under section 5-232 of this title.

31 § 5-240. Use of additional telephone-based system. The board of  
32 elections shall make the services made available online under section  
33 5-232 of this title available through the use of an automated tele-  
34 phone-based system, subject to the same terms and conditions applicable  
35 under this section to the services made available online, in addition to  
36 making the services available online in accordance with the requirements  
37 of this section.

38 § 5-242. Use of internet to update registration information. 1. The  
39 appropriate state or local election official shall ensure that any  
40 registered voter on the computerized list may at any time update the  
41 voter's registration information, including the voter's address and  
42 electronic mail address, online through the official public website of  
43 the election official responsible for the maintenance of the list, so  
44 long as the voter attests to the contents of the update by providing a  
45 signature in electronic form.

46 2. If a registered voter updates registration information, the appro-  
47 priate state or local election official shall revise any information on  
48 the computerized list to reflect the update made by the voter; and if  
49 the updated registration information affects the voter's eligibility to  
50 vote in an election, ensure that the information is processed with  
51 respect to the election if the voter updates the information not later  
52 than seven days before the election.

53 3. Upon the online submission of updated registration information by  
54 an individual under this section, the appropriate state or local  
55 election official shall send the individual a notice confirming receipt

1 of the updated information and providing instructions on how the indi-  
2 vidual may check the status of the update.

3 4. As soon as the appropriate state or local election official has  
4 accepted or rejected updated information submitted by an individual  
5 under this section, the official shall send the individual a notice of  
6 the disposition of the update.

7 5. The appropriate state or local election official shall send the  
8 notices required under this section by regular mail, and, in the case of  
9 an individual who has requested that the state provide voter registra-  
10 tion and voting information through electronic mail, by both electronic  
11 mail and regular mail.

12 § 5-244. List maintenance, privacy and security. 1. The state board of  
13 elections shall publish on their website all standards established under  
14 this section. The state board of elections shall establish standards  
15 governing the comparison of data on the statewide computerized voter  
16 registration list, the data provided by various source agencies under  
17 section 5-200 of this title, including the specific data elements and  
18 data matching rules to be used for purposes of determining: (a) whether  
19 a data record from any source agency represents the same individual as a  
20 record in another source agency or on the statewide list; (b) whether a  
21 data record from any source agency represents an individual already  
22 registered to vote in the state; (c) whether two data records in the  
23 statewide computerized voter registration list represent duplicate  
24 records for the same individual; (d) whether a data record supplied by  
25 any list maintenance source represents an individual already registered  
26 to vote in the state; and (e) which information will be treated as more  
27 current and reliable when data records from multiple sources present  
28 information for the same individual.

29 2. The state board of elections shall establish uniform and non-dis-  
30 criminary standards describing the specific conditions under which an  
31 individual will be determined for list maintenance purposes to be ineli-  
32 gible to vote in an election.

33 3. The state board of elections shall publish and enforce a privacy  
34 and security policy specifying each class of users who shall have  
35 authorized access to the computerized statewide voter registration list,  
36 specifying for each such class the permission and levels of access to be  
37 granted, and setting forth other safeguards to protect the privacy and  
38 security of the information on the list. Such policy shall include secu-  
39 rity safeguards to protect personal information in the data transfer  
40 process, the online or telephone interface, the maintenance of the voter  
41 registration database, and audit procedures to track individual access  
42 to the system.

43 4. The state board of elections shall establish policies and enforce-  
44 ment procedures to prevent unauthorized access to or use of the comput-  
45 erized statewide voter registration list, any list or other information  
46 provided by a source agency, or any maintenance source for the list.  
47 Nothing in this subdivision shall be construed to prohibit access to  
48 information required for official purposes for purposes of voter regis-  
49 tration, election administration, and the enforcement of election laws.

50 5. The state board of elections shall establish policies and enforce-  
51 ment procedures to maintain security during inter-agency transfers of  
52 information required or permitted under this chapter. Each state agency  
53 and third party participating in such inter-agency transfers of informa-  
54 tion shall facilitate and comply with such policies. Nothing in this  
55 subdivision shall prevent a source agency from establishing and enforc-  
56 ing additional security measures to protect the confidentiality and

1 integrity of inter-agency data transfers. No state or local election  
2 official shall transfer or facilitate the transfer of information from  
3 the computerized statewide voter registration list to any source agency.

4 6. Nothing in this section shall be construed to prevent a source  
5 agency from contracting with a third party to assist in the transmission  
6 of data to the state board of elections, so long as the data trans-  
7 mission complies with the applicable requirements of this chapter.

8 7. The state board of elections shall establish standards and proce-  
9 dures to maintain all election records required for purposes of this  
10 section. Records for individuals who have been retained on the computer-  
11 ized statewide registration list but identified as ineligible to vote in  
12 an election or removed from the list due to ineligibility, shall be  
13 maintained and kept available until at least the date of the second  
14 general election for federal office that occurs after the date that the  
15 individual was identified as ineligible.

16 8. The identity of the specific source agency through which an indi-  
17 vidual consented to register to vote shall not be disclosed to the  
18 public and shall not be retained after the individual is added to the  
19 computerized statewide voter registration list.

20 9. The state board of elections shall establish policies and enforce-  
21 ment procedures to ensure that personal information provided by source  
22 agencies or otherwise transmitted under this section is kept confiden-  
23 tial and is available only to authorized users. For purposes of these  
24 policies and procedures, the term "personal information" means any of  
25 the following:

- 26 (a) any portion of an individual's social security number;
- 27 (b) any portion of an individual's motor vehicle driver's license  
28 number or state identification card number;

38 zen of the United States; and
- 39 (i) such other information as the state board of the elections may  
40 designate as confidential to the extent reasonably necessary to prevent  
41 identity theft or impersonation, except that such board may not desig-  
42 nate as confidential under this subdivision the name, address, or date  
43 of registration of an individual, or where applicable, the self-identi-  
44 fied racial or ethnic category of the individual.

45 10. The state board of elections shall ensure that, with respect to  
46 any individual who declines the opportunity to register to vote, the  
47 individual's information is not included on the computerized statewide  
48 voter registration list and is not provided to a third party (except to  
49 the extent required under other law). Nothing in this subdivision shall  
50 be construed to preclude an individual who has previously declined the  
51 opportunity to register to vote from subsequently registering to vote.

52 § 5-246. Accuracy of statewide voter registration lists. 1. Not later  
53 than twenty-four hours after receiving a change of address form or any  
54 other information indicating that identifying information with respect  
55 to an individual which is included in the records of the department of

1 motor vehicles has been changed, such department shall transmit such  
2 form or other information to the state board of elections, unless:

3 (a) the records of the department include information indicating that

9 or any other information indicating that identifying information with  
10 respect to an individual which is included in the records of a voter  
11 registration agency has been changed, the appropriate official of such  
12 agency shall transmit such form or other information to the state board  
13 of elections, unless:

14 (a) the records of the department include information indicating that  
15 the individual is not eligible to register to vote in the state; or

16 (b) the individual states on the form or otherwise indicates that the  
17 change of address or other information is not for voter registration  
18 purposes.

19 3. Not later than twenty-four hours after receiving a change of  
20 address form or any other information indicating that identifying infor-  
21 mation with respect to an individual which is included in the records of  
22 a source agency has been changed, the appropriate official of such agen-  
23 cy shall transmit such form or other information to the state board of  
24 elections, unless:

25 (a) the records of the department include information indicating that  
26 the individual is not eligible to register to vote in the state; or

27 (b) the individual states on the form or otherwise indicates that the  
28 change of address or other information is not for voter registration  
29 purposes.

30 4. If the department of motor vehicles, a voter registration agency,  
31 or a source agency transmits to the state board of elections a change of  
32 address form or any other information indicating that identifying infor-  
33 mation with respect to an individual has been changed the appropriate  
34 state or local election official shall:

35 (a) determine whether the individual appears on the computerized list;  
36 and

37 (b) if the individual appears on the list, revise the information  
38 relating to the individual on the list to reflect the individual's new  
39 address or other changed identifying information.

40 5. If an election official revises any voter registration information  
41 on the computerized list with respect to any voter (including removing  
42 the voter from the list), immediately after revising the information,  
43 the official shall send the individual a written notice of the revision  
44 which includes the following information:

45 (a) the voter's name, date of birth, and address, as reflected in the  
46 revised information on the computerized list;

47 (b) a statement that the voter's registration information has been  
48 updated;

50 list;

51 (d) a statement of the eligibility requirements for registered voters;

52 (e) a statement (in larger font size than the other statements on the  
53 notice) that it is illegal for an individual who does not meet the  
54 eligibility requirements for registered voters in the state to vote in  
55 such state; and

6. If an election official has an electronic mail address for any voter to whom the official is required to send notice under this section, the official may meet the requirements of this section by sending the notice to the voter in electronic form at that address, but only if prior to sending the notice, the official sends a test electronic mail to the voter at that address and receives confirmation that the address is current and valid.

§ 5-248. Same day registration. Each county shall allow any eligible individual on the day of an election and on any day when voting, including early voting, to register to vote in such election at the polling place and to cast a vote in such election.

§ 3. Section 5-210 of the election law is amended by adding three new subdivisions 16, 17 and 18 to read as follows:

16. The board of elections shall accept an online voter registration application provided by an individual and ensure that individual is registered to vote in the state if (a) the individual meets the same voter registration requirements applicable to individuals who register to vote by mail in accordance with this section; and (b) the individual provided a signature in electronic form in accordance with section 5-234 of this title.

17. Upon the online submission of a completed voter registration application by an individual, an appropriate election personnel shall send the individual a notice confirming the board of elections receipt of the application and providing instructions on how the individual may check on the status of the application. As soon as the appropriate election personnel has approved or rejected an application submitted by an individual, the personnel shall send the individual a notice of the disposition of the application by regular mail unless the individual has requested voter information to be sent through electronic mail, in which case a copy should be sent through both regular and electronic mail.

§ 4. The election law is amended by adding two new sections 5-108 and 5-110 to read as follows:

§ 5-108. Nondiscrimination. 1. The state shall treat a registered voter who is registered to vote online in accordance with this chapter in the same manner as the state treats a registered voter who registered to vote by mail.

2. No person may discriminate against any individual on the basis of the individual's absence from the statewide voter registration list, the information supplied by the individual for voter registration purpose to

1 a source agency, or the individual's declination to supply such informa-  
2 tion, except as required for purposes of voter registration, election  
3 administration, and the enforcement of election laws.

4 § 5-110. Prohibiting use of electronic mail addresses for other than  
5 official purposes. The state board of elections shall ensure that any  
6 electronic mail addresses provided by an applicant under this chapter  
7 are used only for purposes of carrying out official duties of election  
8 officials and are not transmitted by any state or local election offi-

23 (ii) any document with instructions to an addressee that the document  
24 be returned to the sender or a third party but is not so returned,

49 it is corroborated by independent evidence of the individual's ineligi-  
50 bility to register or vote.

23 and be preserved in accordance with the provisions of section 3-222 of  
24 this chapter. For purposes of this paragraph, the term "individual,  
25 durable, voter-verified, paper ballot" means a paper ballot marked by  
26 the voter by hand or a paper ballot marked through the use of a nontabu-  
27 lating ballot marking device or system, so long as the voter shall have  
28 the option to mark his or her ballot by hand;

40 ballot has been cast, to associate a voter with the record of the  
41 voter's vote without the voter's consent.

42 § 14. The election law is amended by adding a new section 3-508 to  
43 read as follows:

49 voting and verification mechanisms for individuals with disabilities,  
50 for voters whose primary language is not English, and for voters with  
51 difficulties in literacy, including best practices for the mechanisms  
52 themselves and the processes through which the mechanisms are used.

53 2. An entity is eligible to receive a grant under this section if it  
54 submits to the board (at such time and in such form as the board may  
55 require) an application containing:

### TITLE III

#### MANDATORY MANUAL AUDITS

#### Section 9-300. Requiring audits of results of elections.

##### 9-302. Number of ballots counted under audit.

##### 9-304. Process for administering audits.

##### 9-306. Selection of election districts.

##### 9-308. Publication of results.

§ 9-300. Requiring audits of results of elections. 1. In accordance with this title, the state board of elections shall administer, without advance notice to the local boards of elections selected, audits of the results of all elections for state and local offices held for each election consisting of random hand counts of the voter-verified paper ballots required to be used and preserved pursuant to this chapter.

2. The state board of elections shall not be required to administer an audit of the results of an election under this title if the winning candidate in the election:

(a) had no opposition on the ballot; or

(b) received eighty percent or more of the total number of votes cast in the election, as determined on the basis of the final unofficial vote count.

1 3. The state board of elections shall administer audits under this  
2 title through an election auditing entity selected for such purpose by  
3 the state board of elections in accordance with such criteria as the  
4 state board of elections considers appropriate consistent with the  
5 requirements of this title, except that such entity must meet standards  
6 to ensure its independence.

7 § 9-302. Number of ballots counted under audit. 1. Except as provided  
8 in subdivision two of this section, the number of voter-verified paper  
9 ballots which will be subject to a hand count administered by the  
10 election auditing entity under this title with respect to an election  
11 shall be determined as follows:

12 (a) In the event that the unofficial count as described in subdivision  
13 one of section 9-304 of this title reveals that the margin of victory  
14 between the two candidates receiving the largest number of votes in the  
15 election is less than one percent of the total votes cast in that  
16 election, the hand counts of the voter-verified paper ballots shall  
17 occur in at least ten percent of all election districts (or alternative  
18 audit units used in accordance with the method provided for under subdi-  
19 vision two of this section) in the district involved or the state.

20 (b) In the event that the unofficial count as described in subdivision  
21 one of section 9-304 of this title reveals that the margin of victory  
22 between the two candidates receiving the largest number of votes in the  
23 election is greater than or equal to one percent but less than two  
24 percent of the total votes cast in that election, the hand counts of the  
25 voter-verified paper ballots shall occur in at least five percent of all  
26 election districts (or alternative audit units used in accordance with  
27 the method provided for under subdivision two of this section) in the  
28 district involved or the state.

29 (c) In the event that the unofficial count as described in subdivision  
30 one of section 9-304 of this title reveals that the margin of victory  
31 between the two candidates receiving the largest number of votes in the  
32 election is equal to or greater than two percent of the total votes cast  
33 in that election, the hand counts of the voter-verified paper ballots  
34 shall occur in at least three percent of all election districts (or  
35 alternative audit units used in accordance with the method provided for  
36 under subdivision two of this section) in the district involved or the  
37 state.

38 2. Notwithstanding subdivision one of this section, the state board of  
39 elections may adopt and apply an alternative mechanism to determine the  
40 number of voter-verified paper ballots which will be subject to the hand  
41 counts required under this title with respect to an election, so long as  
42 the alternative mechanism uses the voter-verified paper ballots to  
43 conduct the audit and the alternative mechanism is in accordance with  
44 the principles set forth in this subdivision. In approving an alterna-  
45 tive mechanism under this subdivision, the state board of elections  
46 shall ensure that the audit procedure will have the property that for  
47 each election:

48 (a) the alternative mechanism will be at least as statistically effec-  
49 tive in ensuring the accuracy of the election results as the procedures  
50 under this section; or

51 (b) the alternative mechanism will achieve at least a ninety-five  
52 percent confidence interval (as determined in accordance with criteria  
53 set forth by the National Institute of Standards and Technology) with  
54 respect to the outcome of the election.

1     § 9-304. Process for administering audits. The election auditing enti-  
2 ty shall administer an audit under this section of the results of an  
3 election in accordance with the following procedures:

4     1. Within twenty-four hours after the final unofficial vote count is  
5 released, the election auditing entity shall:

6       (a) determine and then announce the election districts (or alternative  
7 audit units used in accordance with the method provided under subdivi-  
8 sion two of section 9-302 of this title) in the state in which it will  
9 administer the audits; and

10      (b) with respect to votes cast at the election district on or before  
11 the date of the election (other than affidavit ballots described in  
12 subdivision two of this section), begin to administer the hand count of  
13 the votes on the voter-verified paper ballots required to be used and

16 announced by the board of elections.

17     2. With respect to votes cast other than at the election district on  
18 the date of the election (other than votes cast before the date of the  
19 election) or votes cast by affidavit ballot on the date of the election  
20 which are certified and counted by the board of elections on or after  
21 the date of the election, including votes cast by absent uniformed  
22 services voters and overseas voters under the Uniformed and Overseas  
23 Citizens Absentee Voting Act, the election auditing entity shall admin-  
24 ister the hand count of the votes on the applicable voter-verified paper  
25 ballots required to be produced and preserved under this chapter and the  
26 comparison of the count of the votes on those ballots with the final  
27 unofficial count of such votes as announced by the board of elections.

28     3. In administering the audits, the election auditing entity may  
29 utilize the services of the personnel of the state or local boards of  
30 elections, including election administration personnel and poll workers,  
31 without regard to whether or not the personnel have professional audit-  
32 ing experience.

33     4. The election auditing entity shall administer an audit of an  
34 election:

35       (a) at the location where the ballots cast in the election are stored  
36 and counted after the date of the election or such other appropriate and  
37 secure location agreed upon by the election auditing entity and the  
38 state board of elections; and

39       (b) in the presence of the personnel of the state board of elections.

40     5. (a) If the election auditing entity finds that any of the hand  
41 counts administered under this section do not match the final unofficial  
42 tally of the results of an election, the election auditing entity shall  
43 administer hand counts of such additional election districts (or alter-  
44 native audit units) as the election auditing entity considers appropri-  
45 ate to resolve any concerns resulting from the audit and ensure the  
46 accuracy of the election results.

47       (b) Not later than August first, two thousand twenty-five, the state  
48 board of elections shall establish and publish procedures for carrying  
49 out the additional audits under this subdivision, including the means by  
50 which the state board of elections shall resolve any concerns resulting  
51 from the audit with finality and ensure the accuracy of the election  
52 results.

56 election districts or alternative audit units in the state in which the

1 election auditing entity shall administer the hand counts under this  
2 title shall be made by the election auditing entity on a random basis  
3 except that at least one election district shall be selected at random  
4 in each county, with additional election districts selected by the  
5 election auditing entity at the election auditing entity's discretion.

6 2. The random selection of election districts under subdivision one of  
7 this section shall be conducted in public, at a time and place announced
