3. This section does not apply to animal testing that is conducted:

(a) As a requirement of any federal or state regulatory agency if:

(i) the cosmetic or an ingredient in the cosmetic which is being tested is in wide use and cannot be replaced by another ingredient which is capable of performing a similar function; and

(ii) a specific human health problem relating to the cosmetic or ingredient is substantiated and the need to conduct animal testing is justified and supported by a detailed protocol for research that is proposed as the basis for the evaluation of the cosmetic or ingredient; and

(iii) there does not exist a method of testing other than animal testing that is accepted for the relevant purpose by a federal or state regulatory agency.

(b) As a requirement of any regulatory agency of a foreign jurisdiction, if no evidence derived from such testing was relied upon to substantiate the safety of a cosmetic sold within the state by the manufacturer.

(c) For any product or ingredient in a cosmetic which is subject to the requirements under 21 USC subchapter V.

(d) For purposes not related to cosmetics as required by any federal, state or foreign regulatory agency, provided that no evidence derived from such testing was relied upon to substantiate the safety of a cosmetic sold within the state by the manufacturer, unless:

(i) documentary evidence exists that the intent of the animal testing was unrelated to cosmetics; and

(ii) there is a history of the use of the ingredient unrelated to cosmetics for a minimum of twelve months.

4. This section does not apply to a cosmetic:

(a) If in its final form, such cosmetic was tested on animals before the effective date of this section, even if the cosmetic is manufactured on or after such date.

(b) If an ingredient contained in such cosmetic was tested on animals and sold in New York state before the effective date of this section, even if such ingredient is manufactured on or after such date.

5. This section may not be construed to prevent a manufacturer from reviewing, assessing or retaining data resulting from animal testing.

6. The attorney general may upon a determination that there is a reasonable likelihood of a violation of this section, review any testing data on which a manufacturer has relied in determining the safety of a cosmetic or an ingredient in a cosmetic sold in the state. Any information disclosed under this section shall be protected as a trade secret and the attorney general shall enter into a protective order with the manufacturer before receipt of such information from the manufacturer. The attorney general shall take other appropriate measures as necessary to preserve the confidentiality of the information produced pursuant to this section. The attorney general may bring an action or special proceeding in the supreme court for a judgment enjoining the continuance of such violation and for a civil penalty of not more than five thousand dollars for the first violation and not more than one thousand dollars per day if the violation continues.

7. No county or other political subdivision of the state may establish or continue any prohibition on or relating to animal testing, as defined in this section that is not identical to the prohibitions established in this section.

§ 2. This act shall take effect January 1, 2022.
