AN ACT to establish a construction industry advisory council on public contracting reform

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

1 Section 1. Legislative intent. The legislature finds that construction
2 contractors often face significant challenges when bidding and working
3 on public works projects in New York state. Often, the inclusion of
4 onerous or inequitable contract terms and conditions governing issues
5 such as contractor payment, job delays and dispute resolution, can place
6 an unfair burden on contractors in public works projects. Furthermore,
7 the legislature finds that many prior, piecemeal attempts to address
8 these inequities through individual approaches have proven unsuccessful,
9 and therefore a more equitable and comprehensive approach is warranted.
10 The legislature also finds that current inefficiencies in the public
11 contracting process are responsible for driving up the cost of
12 construction, making New York a less competitive place to engage in such
13 work in relation to other states, which in turn harms the New York state
14 economy and costs jobs.

15 Therefore, it is the intent of the legislature to establish an inde-
16 pendent advisory council charged with (a) studying the current public
17 contracting process; and (b) adopting recommendations, best practices
18 and legislative proposals in order to reform and improve the current
19 state public contracting process, by making it fairer, predictable and
20 equitable for all parties involved.

21 § 2. There is hereby created a construction industry advisory council
22 on public contracting reform (the "advisory council"), which shall

5 various state agencies and authorities, two members upon the recommenda-
6 tion of the speaker of the assembly, one member upon recommendation of
7 the minority leader of the assembly, two members upon the recommendation
8 of the temporary president of the senate, one member upon the recommen-
9 dation of the minority leader of the senate, one member upon the recom-
10 mendation of the comptroller, three members representing general
11 contractors in the construction industry, three members representing
12 subcontractors in the construction industry, two members representing

23 the advisory council. Meetings may be conducted via teleconference or

26 and authorities, contractor and subcontractor trade associations and
27 their representatives, related professional trade associations, and
28 other experts and consultants in the construction industry, and with
29 such other persons as it shall determine necessary. Further, any state
30 or local government agency or authority that engages in construction,
31 construction financing or construction project ownership or oversight
32 shall cooperate in good faith with an inquiry or request of the advisory
33 council on matters germane to its work.

34 § 7. Members of the advisory council shall serve without compensation
35 for their services as members but shall be reimbursed for their actual
36 expenses incurred in the performance of their duties in the work of the
37 advisory council.

38 § 8. The advisory council shall convene not less than 3 regional
39 meetings on issues relating to the public contracting process, with a

52 may deem necessary and appropriate, and suggest best practices for a
53 more fair and efficient public works contracting process by addressing
54 the subject matters specified in section 8 of this act. The advisory

3 of the assembly, and the minority leaders of the senate and assembly.

7 in section 8 of this act.

8 § 11. This act shall take effect immediately.
