2021-2022 Regular Sessions

IN ASSEMBLY

May 27, 2021

Introduced by M. of A. ENGLEBRIGHT -- read once and referred to the Committee on Environmental Conservation

AN ACT to amend the environmental conservation law, in relation to freshwater wetlands; and to repeal certain provisions of such law relating thereto

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. Subdivisions 2, 3 and 7 of section 24-0105 of the environ-1 2 mental conservation law, as added by chapter 614 of the laws of 1975, 3 subdivision 7 as renumbered by chapter 654 of the laws of 1977, are amended to read as follows: 4 5 2. Considerable acreage of freshwater wetlands in the state of New York has been lost, despoiled or impaired by unregulated draining, б 7 dredging, filling, excavating, building, pollution or other [acts] activities inconsistent with the natural uses of such areas. [Other 8 9 **freshwater**] **Freshwater** wetlands are in jeopardy of being lost, despoiled 10 or impaired by such [unrelated acts] activities and because of the recent curtailment of federal wetland protections. 11 12 3. Recurrent flooding aggravated or caused by the loss of freshwater 13 wetlands has serious effects upon natural ecosystems. The increasing 14 severity and duration of storm-related flooding due to climate change, which has caused billions of dollars of property damage in the state, 15 makes protection of all freshwater wetlands in the state of vital impor-16 17 tance. 18 7. Any loss of freshwater wetlands deprives the people of the state of some or all of the many and multiple benefits to be derived from 19 20 wetlands, to wit: 21 (a) flood and storm control by the hydrologic absorption and storage 22 capacity of freshwater wetlands; (b) wildlife habitat by providing breeding, nesting and feeding 23 24 grounds and cover for many forms of wildlife, wildfowl and shorebirds, 25 including migratory wildfowl and rare, endangered or threatened species 26 [such as the bald eagle and osprey];
