1 shall be deemed eligible for the survivor option as authorized by this
2 act.

3 § 2. This act shall take effect immediately.

FISCAL NOTE.--Pursuant to Legislative Law, Section 50:

This bill would allow Dominic J. Feminella, the widower of Jeannette M. Feminella who was a retired member of the New York State Teachers' Retirement System, to change her originally executed retirement option to the 100% joint and survivor option, designating him as the beneficiary. Ms. Feminella retired on June 17, 2016 and died on July 7, 2016, two days before her signed, notarized change of option election form was received by the Retirement System. Mr. Feminella must file a written request with the head of the New York State Teachers' Retirement System within one year of the effective date of this act. Such retirement option election shall be deemed to have become effective on June 17, 2016. All retirement benefits payable pursuant to the provisions of this act shall be paid to Mr. Feminella and shall be in lieu of any other retirement benefits payable. Any retirement benefit that was made prior to the effective date of this act will be paid back to the Retirement System. Upon enactment of this bill, Mr. Feminella shall renounce all benefits to be paid under the originally executed retirement option filed effective June 17, 2016 and shall be deemed eligible for the survivor option as authorized by this act.

The total cost of this benefit cannot be determined. If this bill is enacted the Retirement System will be providing a survivor benefit to Ms. Feminella's spouse. The ultimate cost of this benefit will be determined by how long Mr. Feminella lives. He is required to return any benefit already received. Allowing retired members to change their benefit option after retirement weakens the pooling of longevity risk and the pricing of the options and would potentially result in actuarial losses.
