47 the laws of 2021, is amended to read as follows:

48 (c) Subject to the provisions of chapter fifty-nine of the laws of two

PART CC

Section 1. Section 163 of the state finance law is amended by adding a new subdivision 16 to read as follows:

16. Consultant services. a. Before a state agency enters into a contract for consultant services which is anticipated to cost more than one million dollars in a twelve month period the state agency shall conduct a cost comparison review to determine whether the services to be provided by the consultant can be performed at equal or lower cost by utilizing state employees, unless the contract meets one of the exceptions set forth in paragraph g of this subdivision. As used in this section, the term "consultant services" shall mean any contract entered into by a state agency for analysis, evaluation, research, training, data processing, computer programming, the design, development and

1 implementation of technology, communications or telecommunications
2 systems or the infrastructure pertaining thereto, including hardware and
3 software, engineering including inspection and professional design
4 services, health services, mental health services, accounting, auditing,
5 or similar services and such services that are substantially similar to
6 and in lieu of services provided, in whole or in part, by state employ-
7 ees, but shall not include legal services or services in connection with
8 litigation including expert witnesses and shall not include contracts
9 for construction of public works. For purposes of this subdivision, the
10 costs of performing the services by state employees shall include any
11 salary, pension costs, all other benefit costs, costs that are required
12 for equipment, facilities and all other overhead. The costs of consult-
13 ant services shall include the total cost of the contract including
14 costs that are required for equipment, facilities and all other overhead
15 and any continuing state costs directly associated with a contractor
16 providing a contracted function including, but not limited to, those
17 costs for inspection, supervision, monitoring of the contractor's work
18 and any pro rata share of existing costs or expenses, including adminis-
19 trative salaries and benefits, rent, equipment costs, utilities and
20 materials. The cost comparison shall be expressed where feasible as an
21 hourly rate, or where such a calculation is not feasible, as a total
22 estimated cost for the anticipated term of the contract.

23 b. Prior to entering any consultation services contract for the priva-
24 tization of a state service that is not currently privatized, the state
25 agency shall develop a cost comparison review in accordance with the
26 provisions of paragraph a of this subdivision.

27 c. (i) If such cost comparison review identifies a cost savings to the
28 state of ten percent or more, and such consultant services contract will
29 not diminish the quality of such service, the state agency shall develop
30 a business plan, in accordance with the provisions of paragraph d of
31 this subdivision, in order to evaluate the feasibility of entering any
32 such contract and to identify the potential results, effectiveness and
33 efficiency of such contract.

34 (ii) If such cost comparison review identifies a cost savings of less
35 than ten percent to the state and such consultant services contract will
36 not diminish the quality of such service, the state agency may develop a
37 business plan, in order to evaluate the feasibility of entering any such
38 contract and to identify the potential results, effectiveness and effi-
39 ciency of such contract, provided there is a significant public policy
40 reason to enter into such consultant services contract.

41 (iii) If any such proposed consultant services contract would result
42 in the layoff, transfer or reassignment of fifty or more state agency
43 employees, after consulting with the potentially affected bargaining
44 units, if any, the state agency shall notify the state employees of such
45 bargaining unit, after such cost comparison review is completed. Such
46 state agency shall provide an opportunity for said employees to reduce
47 the costs of conducting the operations to be privatized and provide
48 reasonable resources for the purpose of encouraging and assisting such
49 state employees to organize and submit a bid to provide the services
50 that are the subject of the potential consultant services contact.

51 d. Any business plan developed by a state agency for the purpose of
52 complying with paragraph c of this subdivision shall include: (i) the
53 cost comparison review as described in paragraph b of this subdivision,
54 (ii) a detailed description of the service or activity that is the
55 subject of such business plan, (iii) a description and analysis of the
56 state agency's current performance of such service or activity, (iv) the

1 goals to be achieved through the proposed consultant services contract
2 and the rationale for such goals, (v) a description of available options
3 for achieving such goals, (vi) an analysis of the advantages and disad-
4 vantages of each option, including, at a minimum, potential performance
5 improvements and risks attendant to termination of the contract or
6 rescission of such contract, (vii) a description of the current market
7 for the services or activities that are the subject of such business
8 plan, (viii) an analysis of the quality of services as gauged by stand-
9 ardized measures and key performance requirements including compen-
10 sation, turnover, and staffing ratios, (ix) a description of the specif-
11 ic results based performance standards that shall, at a minimum be met,
12 to ensure adequate performance by any party performing such service or
13 activity, (x) the projected time frame for key events from the beginning
14 of the procurement process through the expiration of a contract, if
15 applicable, (xi) a specific and feasible contingency plan that addresses
16 contractor nonperformance and a description of the tasks involved in and
17 costs required for implementation of such plan, and (xii) a transition
18 plan, if appropriate, for addressing changes in the number of agency
19 personnel, affected business processes, employee transition issues, and
20 communications with affected stakeholders, such as agency clients and
21 members of the public, if applicable. Such transition plan shall contain
22 a reemployment and retraining assistance plan for employees who are not
23 retained by the state or employed by the contractor. If any part of such
24 business plan is based upon evidence that the state agency is not suffi-
25 ciently staffed to provide the services required by the consultant
26 services contract, the state agency shall also include within such busi-
27 ness plan a recommendation for remediation of the understaffing to allow
28 such services to be provided directly by the state agency in the future.

29 e. Upon the completion of such business plan, the state agency shall
30 submit the business plan to the state comptroller.

31 f. (i) Not later than sixty days after receipt of any business plan,
32 the state comptroller shall transmit a report detailing its review,
33 evaluation and disposition regarding such business plan to the state
34 agency that submitted such cost comparison review. Such sixty-day period
35 may be extended for an additional thirty days upon a showing of good
36 cause.

37 (ii) The state comptroller's report shall include the business plan
38 prepared by the state agency, the reasons for approval or disapproval,
39 any recommendations or other information to assist the state agency in
40 determining if additional steps are necessary to move forward with a
41 consultant services contract.

42 (iii) If the state comptroller does not act on a business plan submit-
43 ted by a state agency within ninety days of receipt of such business
44 plan, such business plan shall be deemed approved.

45 g. A cost comparison shall not be required if the contracting agency
46 demonstrates:

47 (i) the services are incidental to the purchase of real or personal
48 property; or

49 (ii) the contract is necessary in order to avoid a conflict of inter-
50 est on the part of the agency or its employees; or

51 (iii) the services are of such a highly specialized nature that it is
52 not feasible to utilize state employees to perform them or require
53 special equipment that is not feasible for the state to purchase or
54 lease; or

55 (iv) the services are of such an urgent nature that it is not feasible
56 to utilize state employees; or

(v) the services are anticipated to be short term and are not likely to be extended or repeated after the contract is completed; or
(vi) a quantifiable improvement in services that cannot be reasonably duplicated.

h. Nothing in this section shall be deemed to authorize a state agency to enter into a contract which is otherwise prohibited by law.

i. All documents related to the cost comparison and business plan required by this subdivision and the determinations made pursuant to paragraph g of this subdivision shall be public records subject to disclosure pursuant to article six of the public officers law.

§ 2. On or before December 31, 2023 the state comptroller shall prepare a report, to be delivered to the governor, the temporary president of the senate and the speaker of the assembly. Such report shall include, but need not be limited to, an analysis of the effectiveness of the cost comparison review program and an analysis of the cost savings associated with performing such cost comparison.

§ 3. This act shall take effect on the ninetieth day after it shall have become a law and shall apply to all contracts solicited or entered into by state agencies after the effective date of this act; provided, however, the amendments to section 163 of the state finance law made by section one of this act shall not affect the repeal of such section and shall be deemed repealed therewith.

43 ent discretion in determining the interests of residential utility
44 customers that will be advocated in any proceeding, and determining
45 whether to participate in or initiate any proceeding and, in so deter-

48 residential utility customers;

2 available to the public free of charge on a publicly available website,

Such plans shall be submitted by the office of indigent legal services to the director of the division of budget for review and approval. However, the director's approval shall be limited solely to the plan's projected fiscal impact of the required appropriation for the implementation of such plan, and his or her approval shall not be unreasonably withheld. The state shall appropriate funds sufficient to provide for the reimbursement required by this section.

2. All expenses for providing counsel and services pursuant to paragraph (a) of subdivision one of section seven hundred twenty-two-b of this article in excess of sixty dollars per hour and paragraph (b) of subdivision one of section seven hundred twenty-two-b of this article in excess of seventy-five dollars per hour shall be funded by the state.

PART II

Section 1. The legislative law is amended by adding a new section 83-n to read as follows:

§ 83-n. Legislative commission on the future of the Long Island Power Authority. 1. The legislature hereby finds and declares that chapter 517 of the laws of 1986 created the Long Island Power Authority (LIPA). Said authority was created, in part, because the decisions by LILCO, the private utility that provided electricity to Long Island and part of Queens, "to commence construction of the Shoreham nuclear power plant and thereafter to continue such construction were imprudent". Further, the legislature found in chapter 517 of the laws of 1986 that "a situation threatening the economy, health and safety exists in the service

1 area". One of the two express purposes of the act was the closure of the
2 Shoreham nuclear power plant. In 1992, LIPA bought the Shoreham nuclear
3 power plant. The plant was fully decommissioned in 1994.

4 The second purpose of such chapter 517 was to replace LILCO with a
5 publicly owned power authority. The legislature found that "There is a
6 lack of confidence that the needs of the residents and of commerce and
7 industry in the service area for electricity can be supplied in a reli-
8 able, efficient and economic manner by the Long Island lighting company
9 (hereinafter referred to as "LILCO")" and "Such matters of state concern
10 best can be dealt with by replacing such investor owned utility with a
11 publicly owned power authority."

12 In 1995, LIPA replaced LILCO as the electric company for its service
13 area. However, LIPA was never established as a true "publicly owned
14 power authority" as originally envisioned by the State Legislature.
15 Rather, since 1995, LIPA has opted for a third-party management model
16 whereby LIPA contracts its responsibility to manage the utility to a
17 private, investor owned utility company.

18 LIPA is the only utility in the nation that is operated under a third-
19 party management model. This model has repeatedly failed its customers.
20 There has been a lack of transparency, oversight, and accountability.
21 This failure has been most dramatically evidenced in the unacceptable
22 storm response by LIPA and its third-party contractors during Superstorm
23 Sandy in 2012 and Tropical Storm Isaias in 2020.

24 After more than 25 years of unsatisfactory management under the third-
25 party management model, a better alternative must be implemented. That
26 inquiry must begin with the original intent of chapter 517 of the laws
27 of 1986, whereby LIPA was to directly manage and operate the utility as
28 a true public power utility. Initial investigations by LIPA after Trop-
29 ical Storm Isaias in 2020-2021 indicate that both ratepayer savings and
30 increased management efficiencies could be achieved through the public
31 power model.

32 Consequently, it is the purpose of this section to implement the
33 original vision for LIPA intended by chapter 517 of the laws of 1986, as
34 a publicly owned power company. The legislature hereby creates a
35 commission to provide the legislature with the specific actions, legis-
36 lation, and timeline necessary to restructure LIPA into a true publicly
37 owned power authority. The public must participate in that process so
38 that the new LIPA becomes transparent with proper oversight and account-
39 ability. The legislative commission shall submit its final report to the
40 legislature no later than April first, two thousand twenty-three.

41 2. A legislative commission is hereby established to investigate and
42 report to the legislature on the establishment of a public power model
43 for the operation of LIPA, whereby the authority would directly operate
44 the utility as a true public power authority. The commission shall
45 report to the legislature on the specific actions, legislation, and
46 timeline necessary to restructure LIPA into a true publicly owned power
47 authority. The commission shall consider: (a) the method of governance
48 of the public authority; (b) improved transparency, accountability, and
49 public involvement; (c) improved reliability of the system; (d) the
50 impact on electric rates; (e) improved storm response; (f) the powers
51 required by LIPA to more effectively operate the utility; (g) the over-
52 sight role of the department of public service and the public service
53 commission over LIPA's operation; (h) the impact on existing bonded
54 indebtedness; (i) improved long term energy planning; (j) compliance
55 with the goals of the New York state climate leadership and community
56 protection act; (k) increased reliance on renewable energy sources to

1 produce electricity; (l) taxation and payments in lieu of taxes; (m) the
2 special needs of communities that are or have been impacted by the
