46 PART JJ

47 Section 1. The legislative law is amended by adding a new section 83-n
48 to read as follows:

49 § 83-n. Legislative commission on the future of the Long Island Power
50 Authority. 1. The legislature hereby finds and declares that chapter 517
51 of the laws of 1986 created the Long Island Power Authority (LIPA). Said
52 authority was created, in part, because the decisions by LILCO, the

1 private utility that provided electricity to Long Island and part of
2 Queens, "to commence construction of the Shoreham nuclear power plant
3 and thereafter to continue such construction were imprudent". Further,
4 the legislature found in chapter 517 of the laws of 1986 that "a situ-
5 ation threatening the economy, health and safety exists in the service
6 area". One of the two express purposes of the act was the closure of the
7 Shoreham nuclear power plant. In 1992, LIPA bought the Shoreham nuclear
8 power plant. The plant was fully decommissioned in 1994.

9 The second purpose of such chapter 517 was to replace LILCO with a
10 publicly owned power authority. The legislature found that "There is a
11 lack of confidence that the needs of the residents and of commerce and
12 industry in the service area for electricity can be supplied in a reli-
13 able, efficient and economic manner by the Long Island lighting company
14 (hereinafter referred to as "LILCO")" and "Such matters of state concern
15 best can be dealt with by replacing such investor owned utility with a
16 publicly owned power authority."

17 In 1995, LIPA replaced LILCO as the electric company for its service
18 area. However, LIPA was never established as a true "publicly owned
19 power authority" as originally envisioned by the State Legislature.
20 Rather, since 1995, LIPA has opted for a third-party management model
21 whereby LIPA contracts its responsibility to manage the utility to a
22 private, investor owned utility company.

23 LIPA is the only utility in the nation that is operated under a third-
24 party management model. This model has repeatedly failed its customers.
25 There has been a lack of transparency, oversight, and accountability.
26 This failure has been most dramatically evidenced in the unacceptable
27 storm response by LIPA and its third-party contractors during Superstorm
28 Sandy in 2012 and Tropical Storm Isaias in 2020.

29 After more than 25 years of unsatisfactory management under the third-
30 party management model, a better alternative must be implemented. That
31 inquiry must begin with the original intent of chapter 517 of the laws
32 of 1986, whereby LIPA was to directly manage and operate the utility as
33 a true public power utility. Initial investigations by LIPA after Trop-
34 ical Storm Isaias in 2020-2021 indicate that both ratepayer savings and
35 increased management efficiencies could be achieved through the public
36 power model.

37 Consequently, it is the purpose of this section to implement the
38 original vision for LIPA intended by chapter 517 of the laws of 1986, as
39 a publicly owned power company. The legislature hereby creates a
40 commission to provide the legislature with the specific actions, legis-
41 lation, and timeline necessary to restructure LIPA into a true publicly
42 owned power authority. The public must participate in that process so
43 that the new LIPA becomes transparent with proper oversight and account-
44 ability. The legislative commission shall submit its final report to the
45 legislature no later than April first, two thousand twenty-three.

46 2. A legislative commission is hereby established to investigate and
47 report to the legislature on the establishment of a public power model
48 for the operation of LIPA, whereby the authority would directly operate
49 the utility as a true public power authority. The commission shall
50 report to the legislature on the specific actions, legislation, and
51 timeline necessary to restructure LIPA into a true publicly owned power
52 authority. The commission shall consider: (a) the method of governance
53 of the public authority; (b) improved transparency, accountability, and
54 public involvement; (c) improved reliability of the system; (d) the
55 impact on electric rates; (e) improved storm response; (f) the powers
56 required by LIPA to more effectively operate the utility; (g) the over-

1 sight role of the department of public service and the public service
2 commission over LIPA's operation; (h) the impact on existing bonded
3 indebtedness; (i) improved long term energy planning; (j) compliance
4 with the goals of the New York state climate leadership and community
5 protection act; (k) increased reliance on renewable energy sources to
6 produce electricity; (l) taxation and payments in lieu of taxes; (m) the
7 special needs of communities that are or have been impacted by the
8 siting of power generating facilities; and (n) any other matter relevant
9 to the establishment of a public power model for the operation of LIPA.
10 In its report to the legislature, the commission shall provide for the
11 implementation of the public power model by LIPA no later than December
12 thirty-first, two thousand twenty-five.

13 3. The commission shall consist of eight members to be appointed as
14 follows: three members of the senate shall be appointed by the temporary
15 president of the senate; three members of the assembly shall be
16 appointed by the speaker of the assembly; one member of the senate shall
17 be appointed by the minority leader of the senate; and one member of the
18 assembly shall be appointed by the minority leader of the assembly. Any
19 vacancy that occurs in the commission shall be filled in the same manner
20 in which the original appointment was made. Co-chairs of the commission
21 shall be designated by the temporary president of the senate and the
22 speaker of the assembly, respectively. No member, officer, or employee
23 of the commission shall be disqualified from holding any other public
24 office or employment, nor shall he or she forfeit any such office or
25 employment by reason of his or her appointment hereunder, notwithstand-
26 ing the provisions of any general, special, or local law, ordinance, or
27 city charter.

28 4. The commission shall establish an advisory committee to actively
29 assist and advise the commission in the preparation of the public power
30 report required to be prepared pursuant to this section. The committee
31 shall consist of not more than fifteen members which shall include but
32 not be limited to representatives of organizations and institutions
