b) Where applicable, appropriations made by this chapter for expenditures from federal grants for aid to localities may be allocated for spending from federal grants for any grant period beginning, during, or prior to, the state fiscal year beginning on April 1, 2021 except as otherwise noted.

c) The several amounts named herein, or so much thereof as shall be sufficient to accomplish the purpose designated, being the undisbursed and/or unexpended balances of the prior year's appropriations, are hereby reappropriated from the same funds and made available for the same purposes as the prior year's appropriations, unless herein amended, for the fiscal year beginning April 1, 2021. Certain reappropriations in this chapter are shown using abbreviated text, with three leader dots (an ellipsis) followed by three spaces (...) used to indicate where existing law that is being continued is not shown. However, unless a change is clearly indicated by the use of brackets [-] for deletions and underscores for additions, the purposes, amounts, funding source and all other aspects pertinent to each item of appropriation shall be as last appropriated.

EXPLANATION--Matter in italics (underscored) is new; matter in brackets [-] is old law to be omitted.

LBD12553-08-1
For the purpose of complying with the state finance law, the year, chapter and section of the last act reappropriating a former original appropriation or any part thereof is, unless otherwise indicated, chapter 53, section 1, of the laws of 2020 and, for the department of health, chapter 50, section 3, of the laws of 2020.

d) No moneys appropriated by this chapter shall be available for payment until a certificate of approval has been issued by the director of the budget, who shall file such certificate with the department of audit and control, the chairperson of the senate finance committee and the chairperson of the assembly ways and means committee.

e) Notwithstanding any provision of law to the contrary, prior to the expenditure of any funds received by the Federal government in response to the COVID-19 public health emergency pursuant to the authority granted in any appropriation set forth herein, the director of the budget may require that the agency or public authority making such expenditures submit an allocation plan to the director of the budget for approval. Approved allocation plans shall be provided to the president pro tempore of the senate and the speaker of the assembly within 30 days of approval. Such allocation plan must comport with any minimum Federal requirements for the expenditure of such funds.

f) Notwithstanding any provision of law to the contrary, for purposes of any appropriation made by this chapter which authorizes spending in an amount net of refunds, rebates, credits, and/or disallowances, "refunds" shall mean funds received to the state resulting from the overpayment of monies, "rebates" shall mean funds received to the state resulting from a return of a full or partial amount previously paid, as for goods or services, serving as a reduction, discount or rebate to the original payment amount, "credit" shall mean monies made available to the state that reduce the amount owed to a third party, including but not limited to billing errors, rebates, and prior overpayments, and "disallowance" shall mean monies made available to the state that were not allowed or accepted officially by the intended recipient, based on a determination the payment is not acceptable and/or valid. When the office of the state comptroller receives any such refunds, rebates, credits, and/or disallowances, he or she shall credit the refunded, rebated, credited, and disallowed amount back to the original appropriation and reduce expenditures in the year which such credit is received regardless of the timing of the initial expenditure.

g) Notwithstanding any other provision of law to the contrary, if the state or any agency thereof incurs any costs associated with administering the rent regulation program in accordance with subdivision (c) of section 8 of chapter 576 of the laws of 1974, as amended, for a city having a population of one million or more, the director of the budget may direct any other state agency or agencies making payments to such city, or any department, agency, or instrumentality thereof, to permanently reduce the amount of any other payment or payments owed to such city or any department, agency, or instrumentality thereof pursuant to any appropriation set forth in this chapter. Provided however, that such reduction shall be in an amount equal to the costs incurred by the state or agency thereof in accordance with subdivision (c) of section 8 of chapter 576 of the laws of 1974 and provided further that such direction shall be in writing by the director of the budget. If the director of the budget makes such direction pursuant to the authority set forth herein, the impacted city shall not make the payments required by subdivision (c) of section 8 of chapter 576 of the laws of 1974, as amended, and the division of housing and community renewal shall notify such city.
in writing of what payment or payments will be reduced and the amount of such reduction. To the extent a city of one million or more or any department, agency, or instrumentality thereof is entitled to any cash disbursement authorized by any appropriation contained in this chapter, such entitlement shall be reduced commensurate with reductions in payments made in accordance with this part.

h) Notwithstanding any provision of law to the contrary, upon enactment of this chapter of the laws of 2021 containing the aid to localities budget bill for the state fiscal year 2021-2022, all appropriations and reallocations contained in chapter 53 of the laws of 2020, which would otherwise lapse by operation of law on March 31, 2022 are hereby repealed.

For reimbursement to the East Ramapo central school district to
support students attending public schools in such district, provided
that the district is in compliance with the requirements set forth
in chapter 89 of the laws of 2016.

The East Ramapo central school district shall be eligible to receive
reimbursement from the funds appropriated herein for its approved
expenditures in the 2020-2021 school year on services to improve and
enhance the educational opportunities of students attending the
public schools in such district. Such services shall include, but
not be limited to, reducing class sizes, expanding academic and
enrichment opportunities, establishing and expanding kindergarten
programs, expanding extracurricular opportunities and providing
student support services, provided, however, transportation services
and expenses shall not be eligible for reimbursement from such
funds.

In order to receive such funds, the school district in consultation
with the monitor or monitors pursuant to chapter 89 of the laws of
2016 shall revise its long term strategic academic and fiscal
improvement plan by October 1, 2020. Such revised plan shall be
submitted to the commissioner for approval and shall include a set
of goals with appropriate benchmarks and measurable objectives and
identify strategies to address areas where improvements are needed
in the district, including but not limited to its financial stabili-
ty, academic opportunities and outcomes, education of students with
disabilities, and education of English language learners, and shall
ensure compliance with all applicable state and federal laws and regulations. Such revised improvement plan shall also include a comprehensive expenditure plan that will describe how the funds made available to the district from this appropriation will be spent. Such comprehensive expenditure plan shall ensure that funds supplement, not supplant, expenditures from local, state and federal funds for services provided to public school students, except that such funds may be used to continue services funded pursuant to chapter 89 of the laws of 2016 in prior years. Such expenditure plan shall be revised in consultation with the monitor or monitors appointed by the commissioner. The board of education of the East Ramapo central school district shall conduct a public hearing on the expenditure plan and shall consider the input of the community before adopting such plan. Such expenditure plan shall also be made publicly available and shall be submitted along with comments made by the community to the commissioner for approval once the plan is finalized. Upon review of such improvement plan and such expenditure plan, the commissioner shall approve or deny such plan in writing and, if denied, shall include the reasons therefor. The district in consultation with the monitors may resubmit such plan or plans with any needed modifications thereto.

The commissioner shall disburse the funds appropriated herein after receiving satisfactory evidence from the East Ramapo central school district that the district has complied with the approved comprehensive expenditure plan and spent such funds pursuant to the approved expenditure plan as set forth in chapter 89 of the laws of 2016.

The commissioner of education shall have 30 days from the receipt of such evidence to confirm whether the school district has complied with the requirements of chapter 89 of the laws of 2016 and shall determine whether such funds were spent in conformance with the provisions of such chapter. Upon finding compliance and determining that the funds were properly expended, the commissioner shall certify the amount of the approved expenditures to the state comptroller for payment no later than 60 days after such determinations. The East Ramapo central school district shall not receive reimbursement for funds authorized herein that are not spent for the direct benefit of students attending public schools in such district in a manner consistent with its approved comprehensive expenditure plan or prior written approval from the commissioner.

The board of education in consultation with the monitor or monitors shall submit the school district's proposed budget for the next succeeding school year to the commissioner no later than 45 days before the date scheduled for the school district's budget vote. The commissioner shall review the budget to ensure that it, to the greatest extent possible, expands educational programming for students including but not limited to extracurricular activities, course offerings, non-mandated support services, non-mandated art and music classes, programs and services for English language learners and students with disabilities, and maintaining class size. The commissioner shall also review the proposed budget to ensure that it is balanced within the context of revenue and expenditure estimates and mandated programs. The commissioner shall present his
or her findings to the board of education no later than 30 days prior to the date scheduled for the school district's budget vote. The board of education shall make adjustments to the proposed budget consistent with any recommendations made by the commissioner. The school district shall make available on the district's website: the initial proposed budget, the commissioner's findings, and the final proposed budget prior to the date of the school district's budget vote.

The monitor or monitors appointed by the commissioner shall quarterly, and the district shall annually provide to the commissioner reports on the fiscal and operational status of the school district to ensure compliance with the budgeting requirements herein. In addition, monitors shall provide an annual report to the commissioner and comptroller on contracts that the district entered into throughout the year. All reports shall be subject to review by the comptroller at the request of the commissioner.

Notwithstanding any inconsistent provision
of law, the amount appropriated herein,
shall be available under a foster care
block grant for state reimbursement of
eligible social services district expendi-
tures for the provision and administration
of foster care services including care,
maintenance, supervision, and tuition; for
supervision of foster children placed in
federally funded job corps programs; for
care, maintenance, supervision, and
tuition for adjudicated juvenile delin-
quents placed in residential programs
operated by authorized agencies and in
out-of-state residential programs; for the
provision and administration of the
kinship guardian assistance program
including kinship guardianship assistance
payments and payments for non-recurring
guardianship expenses and eligible expend-
itures associated with local compliance
with the federal Family First Prevention
Services Act (P.L. 115-123); except that,
reimbursement from the amount appropriated
herein shall not be available for tuition
expenditures for foster children, includ-
ing persons in need of supervision and
adjudicated juvenile delinquents, made by
a social services district located within
a city having a population of one million
or more.

Notwithstanding any other provision of law,
a portion of the funds are available to
reimburse social services districts for
the change in the maximum state aid rates
established by the office of children and
family services for the 2021-22 rate year
pursuant to section 398-a of the social
services law and sections 4003 and 4405 of
the education law to reflect the continua-
tion of the cost of living adjustments
that became effective April 1, 2008 for
payments made to foster parents and for
salary and fringe benefit costs and other
critical nonpersonal services costs for
foster care programs as determined by the
office. Social services districts must
adjust the amount of payments made for
care provided by congregate care and
foster boarding home programs and to
foster parents to reflect the cost of
living adjustments in the manner specified
by the office. Each authorized agency
operating a congregate care or foster
boarding home program in New York state
for which the office sets a maximum state
aid rate pursuant to section 398-a of the
social services law or section 4003 or
4405 of the education law shall submit, at
the time and in a manner to be determined
by the office, a written certification,
attesting that the funds received for the
continuation of the cost of living adjust-
ment to the maximum state aid rate that
became effective April 1, 2008 for that
program will be or were used solely in
accordance with the requirements of the
cost of living adjustment established by
the office.
Notwithstanding any inconsistent provision
of law, for the period commencing on April
1, 2021 and ending March 31, 2022 the
commissioner shall not apply any cost of
living adjustment for the purpose of
establishing rates of payments, contracts
or any other form of reimbursement.
Within the amounts appropriated herein,
state reimbursement to each social
services district for services identified
herein that are otherwise reimbursable by
the state from April 1, 2021 through March
31, 2022 shall be limited to a district
allocation, hereinafter referred to as the
district's block grant allocation.
Notwithstanding any other provision of law, such block grant allocation shall be based, in part, on each district's claims for such costs, adjusted by the applicable cost allocation methodology and net of any retroactive payments for the 12 month period ending June 30, 2020 that are submitted on or before January 2, 2021 and, in part, on such other factors as determined by the office of children and family services and approved by the director of the budget. Any portion of a social services district's allocation from funds appropriated herein not claimed by such district during the state fiscal year may be used by such district for expenditures on preventive services provided pursuant to section 409-a of the social services law, independent living services and aftercare services provided pursuant to regulations of the department of family assistance, claimed by such district during the next state fiscal year up to the amount remaining from the district's foster care block grant allocation, provided however, that any claims for such services during the next state fiscal year in excess of such amount shall be subject to 62 percent state reimbursement exclusive of any federal funds made available for such purposes, in accordance with directives of the department of family assistance and subject to the approval of the director of the budget. Any claims submitted by a social services district for reimbursement for a particular state fiscal year for which the social services district does not receive state or federal reimbursement during that state fiscal year may not be claimed against that district's block grant apportionment for the next state fiscal year.

The office of children and family services, with the approval of the director of the budget, may reduce a district's block grant allocation by the state share decrease related to federal retroactive reimbursement for such foster care services identified herein. The office, with the approval of the director of the budget, may reduce a district's block
grant allocation by the state share of
disallowances or sanctions taken against
the district pursuant to the social
services law or federal law.
Notwithstanding any other provision of law,
the state shall not be responsible for
reimbursing a social services district and
a district shall not seek state reimburse-
ment for any portion of any state disal-
lowance or sanction taken against the
social services district, or any federal
disallowance attributable to final federal
agency decisions or to settlement made, on
or after July 1, 1995, when such disallow-
ance or sanction results from the failure
of the social services district to comply
with federal or state requirements,
including, but not limited to, failure to
document eligibility for federal or state
funds in the case record; provided, howev-
er, if the office determines that any
federal disallowance for services provided
between January 1, 1999 and May 31, 1999
results solely from the late enactment of
the state legislation implementing the
federal adoption and safe families act,
the state shall be solely responsible for
the full amount of the disallowance or
sanction; provided, further, however, this
provision shall be deemed to apply both
prospectively and retroactively regardless
of whether such sanctions or disallowances
are for services provided or claims made
prior to or after April 1, 2021.
Notwithstanding any other provision of law,
any federal disallowance resulting from a
federal title IV-E eligibility review or
audit that uses extrapolated statistic
techniques shall be passed along by the
state to any and all social services
districts that the office of children and
family services has determined have not
complied with the title IV-E eligibility
requirements or have not taken the neces-
sary actions to ensure compliance with
such requirements including, but not
limited to, failing to: assess and fully
document all the criteria and have readily
available all the necessary documents to
establish and continue title IV-E eligi-
bility for all title IV-E eligible chil-
dren within the required time frames;
that meet all of the title IV-E eligibility criteria; and fully implement the
social services payment system on or before April 1, 2005 for all direct and
voluntary agency foster care services.
Notwithstanding any law to the contrary, the
office of children and family services
shall impose on social services districts
any federal disallowance issued against
the state as a result of a federal title IV-E secondary eligibility review regard-
less of the date the children may have entered foster care, the date the eligi-
bility or payment errors occurred, or the filing date of any federal claims for
reimbursement; provided, however, that the state shall be responsible for the disal-
lowed costs and expenditures related to the placement of children in a facility
operated by the office of children and family services, which shall be determined
in the same manner as the disallowed costs and expenditures for social services
districts other than the city of New York.
In order to reimburse the federal govern-
ment for the full amount of any disallow-
ance imposed on the state by the federal administration for children and families
within the timeframes necessary to avoid any potential interest payments on such
amount, the office of children and family
services is authorized to immediately
offset funds otherwise due to each
district for a pro rata share of the total
disallowed costs based on the percentage
of applicable federal title IV-E claims
made by that district for the relevant
time period as compared to the total
applicable statewide title IV-E claims.
The amount of the offset against each
district will be adjusted, if necessary,
upon completion of the disallowance allo-
cation process. The final allocation of
the amount of any federal disallowance
resulting from a title IV-E secondary
eligibility review shall be allocated
among the districts so that each district
shall be responsible for the amount
attributable to each of the district's
children or cases that are determined by
the federal review to be unallowable. Each
district shall also be responsible for a
portion of the federal extrapolated disallowance amount based on the relative error
rate for the district. The city of New
York's error rate will be based on the
federal sample and federal statistics. For
all social services districts other than
the city of New York, the error rate will
be based on a review conducted by the
district of a sample of children and/or
cases determined by the office of children
and family services and a re-review of a
sub-sample by the office of those children
and/or cases determined by the office. The
office of children and family services
will determine what is reasonable in
establishing the size of the sample and
sub-sample for each district. The office
of children and family services shall
notify each social services district of
the sample of children and/or cases from
the federal audit period that the social
services district must review. Any child
or case from the social services district
that was included in the federal sample
will automatically be included in the
social services district's review sample
and the determination made at the federal
review regarding that child or case will
govern for the purposes of the social
services district's review. The social
services district must complete and submit
the results of its review to the office of
children and family services within 60
days of receipt of the sample. The error
rate for the district will be based on the
findings of the district's review and the
office of children and family services'
re-review. If a social services district
does not complete its review within 60
days of receiving the sample from the
office of children and family services,
the office of children and family services
shall assign an error rate to the social
services district based on the relative
percentage of the district's applicable
title IV-E claims for the relevant period
as compared to applicable statewide title
IV-E claims for that period and other
circumstances that the office of children and family services may consider in order to allocate 100 percent of the federal disallowance. The office of children and family services shall apply each social services district's error rate to the total amount of the district's applicable title IV-E claims including associated administrative expenses. The resulting dollar amounts for all of the social services districts will be summed to derive the total amount of title IV-E claims deemed to be in error statewide. To establish a disallowance percentage for each social services district, the amount of the district's title IV-E claims deemed to be in error will be divided by the amount of statewide title IV-E claims deemed to be in error. The resulting disallowance percentage for each district will be applied to the entire title IV-E extrapolated disallowance calculated by the federal review to determine the amount of the extrapolated disallowance for which the district is responsible. Each district will be credited for the amount already disallowed for any individual children or cases found to be in error during the federal review. The exclusive appeal rights for the review of the amount of the federal disallowance assigned to each social services district shall be pursuant to article 78 of the civil practice law and rules; provided, however, that in any such action all of the social services districts shall be joined as necessary parties and the venue of any such action shall be in Rensselaer county. Any social services district that fails to complete its sample review in the required time frames shall have no right to appeal and shall not be a necessary party to any action brought by another social services district.

The money hereby appropriated is to be available for payment of state aid heretofore accrued or hereafter to accrue to municipalities. Subject to the approval of the director of the budget, such funds shall be available to the office net of
disallowances, refunds, reimbursements, and credits. 

Notwithstanding any inconsistent provision of law, the amount herein appropriated may be transferred to any other appropriation within the office of children and family services and/or the office of temporary and disability assistance and/or suballocated to the office of temporary and disability assistance for the purpose of paying local social services districts' costs of the above program and may be increased or decreased by interchange with any other appropriation or with any other item or items within the amounts appropriated within the office of children and family services general fund - local assistance account with the approval of the director of the budget who shall file such approval with the department of audit and control and copies thereof with the chairman of the senate finance committee and the chairman of the assembly ways and means committee.

Notwithstanding any inconsistent provision of law, in lieu of payments authorized by the social services law, or payments of federal funds otherwise due to the local social services districts for programs provided under the federal social security act or the federal food stamp act, funds herein appropriated, in amounts certified by the state comptroller or the state commissioner of health as due from local social services districts each month as their share of payments made pursuant to section 367-b of the social services law may be set aside by the state comptroller in an interest bearing account with such interest accruing to the credit of the locality in order to ensure the orderly and prompt payment of providers under section 367-b of the social services law pursuant to an estimate provided by the commissioner of health of each local social services district's share of payments made pursuant to section 367-b of the social services law.

Notwithstanding the provisions of any other law to the contrary, the office of children and family services may, on behalf of
social services districts, make payments
to foster boarding homes paid directly by
social services districts by direct depos-
it or debit card. Local social services
districts shall reimburse the office for
the costs of administering such direct
deposit or debit card payments.
Notwithstanding any inconsistent provision
of the social services law or the state
finance law, the office of children and family services shall, on a quarterly
basis, request that the office of tempo-
rary and disability assistance reimburse
the office of children and family services
for the non-federal share of the costs of
administering such direct deposit or debit
card payments to capture the local share
of such costs.
Notwithstanding any other provision of law
to the contrary, amounts due and owing to
a social services district under this
appropriation, may be reduced up to such
amounts due and owing to the state under
section 529 of the executive law (13997) ... 372,316,000
Notwithstanding any inconsistent provision
of law, the amount appropriated herein
shall be made available to reimburse 62
percent of eligible social services
district expenditures that are claimed by
March 31, 2022 for child welfare services
which shall include and be limited to
preventive services provided pursuant to
section 409-a of the social services law
other than community optional preventive
services, child protective services, inde-
pendent living services, after-care
services as defined in regulations of the
department of family assistance, and
adoption administration and services,
other than adoption subsidies provided
pursuant to title 9 of article 6 of the
social services law and regulations of the
department of family assistance incurred
on or after October 1, 2020 and before
October 1, 2021 and that are otherwise
reimbursable by the state on or after
April 1, 2021, after first deducting ther-
from any federal funds properly received
or to be received on account thereof upon
certification by the social services
district that it will not be using these
funds to supplant other state and local
funds and that the district will not
submit claims for reimbursement under this
appropriation for the same type and level
of services that the county previously
provided and claimed under any contract in
existence on October 1, 2002 as other than
child protective, preventive, independent
living, after care or adoption services or
adoption administration.

The money hereby appropriated is to be
available for payment of state aid hereto-
fore accrued or hereafter to accrue to
municipalities. Subject to the approval of
the director of the budget, such funds
shall be available to the office net of
disallowances, refunds, reimbursements,
and credits; provided, however, that
notwithstanding any other provision of
law, for a district to receive reimburse-
ment for such services, the amount of
funds that the district expends on such
services from its flexible fund for family
services allocation and any flexible fund
for family services funds transferred at
the district's request to the title XX
social services block grant must, to the
extent that families are eligible there-
fore, be equal to or greater than the
district's portion of the $382,322,341
statewide child welfare threshold amount,
which shall be established pursuant to a
formula developed by the office of tempo-
rary and disability assistance and the
office of children and family services and
approved by the director of the budget.

Notwithstanding any other provision of law,
selected social services districts may
authorize the office of temporary and
disability assistance to intercept a
portion of the funds on behalf of the
office of children and family services
otherwise due to the districts under this
appropriation and/or under any other
general fund - aid to localities appro-
piation available to such districts to
suballocate to the office of mental health
and subsequently for suballocation from
the office of mental health to the depart-
ment of health to use for the 38.9 percent
of the non-federal share of the medical
assistance payments for home and community
based waiver services provided in accordance
with subdivision 9 of section 366 of
the social services law as authorized by
such selected social services districts
which choose to use preventive services
funds to support such costs.
Notwithstanding any other provision of law,
social services districts may authorize
the office of temporary and disability
assistance to intercept a portion of the
funds on behalf of the office of children
and family services otherwise due to the
districts under this appropriation and/or
under any other general fund – aid to

office of children and family services to
use for the local share of the federal
funds available for education and training
vouchers provided in accordance with
section 477 of title IV-E of the social
security act as authorized by such social
services districts which choose to use
funds to support such costs.
Notwithstanding any inconsistent provision
of law, the amount herein appropriated may
be transferred to any other appropriation
within the office of children and family
services and/or the office of temporary
and disability assistance and/or suballo-
cated to the office of temporary and disa-
ability assistance for the purpose of
paying local social services districts'
costs of the above program and may be
increased or decreased by interchange with
any other appropriation or with any other
item or items within the amounts appropri-
ated within the office of children and
family services general fund – local
assistance account with the approval of
the director of the budget who shall file
such approval with the department of audit
and control and copies thereof with the
chairman of the senate finance committee
and the chairman of the assembly ways and
means committee.
Notwithstanding any inconsistent provision
of law, in lieu of payments authorized by
the social services law, or payments of
federal funds otherwise due to the local
social services districts for programs
provided under the federal social security
act or the federal food stamp act, funds
herein appropriated, in amounts certified
by the state comptroller or the state
commissioner of health as due from local
social services districts each month as
their share of payments made pursuant to
section 367-b of the social services law
may be set aside by the state comptroller
in an interest bearing account with such
interest accruing to the credit of the
locality in order to ensure the orderly
and prompt payment of providers under
section 367-b of the social services law
pursuant to an estimate provided by the
commissioner of health of each local
social services district's share of
payments made pursuant to section 367-b of
the social services law.

Notwithstanding the provisions of any other
law to the contrary, the office of chil-
dren and family services may, on behalf of
local social services districts, make
payments for adoption subsidies by direct
deposit or debit card. Local social
services districts shall reimburse the
office for the costs of administering such
direct deposit or debit card payments.

of the social services law or the state
finance law, the office of children and
family services shall, on a quarterly
basis, request that the office of tempo-
rary and disability assistance reimburse
the office of children and family services
in an amount equal to 38 percent of the
non-federal share of the costs of adminis-
tering such direct deposit or debit card
payments to capture the local share of
such costs.

Notwithstanding any other provision of law,
the office of children and family services
shall reissue per diem rates, required
pursuant to section 529 of the executive
law, for calendar years 2002 through 2009
to remove any adjustments to the costs
included in determining such rates to
reflect any changes in federal funding
made available to the office or to local
social services districts for such costs
and, provided further, the office shall
not include any such adjustments in per
diem rates established hereafter.
All reimbursement made by local social
services districts for care, maintenance
and supervision under this section shall
be paid directly to the state through the
office of children and family services for
deposit into a miscellaneous special
revenue fund known as the youth facility
per diem account.
Notwithstanding any other provision of law
to the contrary, amounts due and owing to
a social services district under this
appropriation, may be reduced up to such
amounts due and owing to the state under
section 529 of the executive law (13998) ... 579,569,000
Notwithstanding any other provision of law,
the amount appropriated herein shall be
available to reimburse for 98 percent of
65 percent of eligible social services
district expenditures that are claimed by
March 31, 2022 for those community preven-
tive services provided from October 1,

that does not exceed the cost that was in
effect on October 1, 2008 and that a
social services district can demonstrate
had been approved by the office of chil-
dren and family services on or before
October 1, 2008; provided, however, that
should insufficient funds be available to
provide state reimbursement for 98 percent
of 65 percent of such costs, reimbursement
shall be made proportionally to each
district based on the percentage of their
total eligible claims to the amount appro-
priated; and, provided further, however,
that if the amount appropriated exceeds
the amount of funds necessary to reimburse
98 percent of 65 percent of the eligible
social services district expenditures, the
office may, to the extent funds are avail-
able, provide reimbursement for 98 percent
of 65 percent of eligible social services
district expenditures for new community
preventive services programs approved by
the office and only up to the amounts
approved by the office. A local social
services district seeking federal and/or
state reimbursement for community preventive services provided on or after October 1, 2020 must submit claims that separately identify the costs of such services in a form and manner and at such times as are required by the department of family assistance and that information regarding outcome based measures that demonstrate quality of services provided and program effectiveness be submitted to the office of children and family services in a form and manner and at such times as required by the office. Of the amount appropriated herein, up to $1,000,000 may be used to provide additional funding to an eligible program or programs with evaluation results that show program effectiveness and demonstrate private monetary support as determined by the office of children and family services and approved by the director of the budget (13999) ............... 12,124,750

Notwithstanding any inconsistent provision of law, and pursuant to chapter 7 of the laws of 1999 and chapter 668 of the laws of 2006, local social services districts shall reimburse the commissioner of the office of children and family services for an amount equal to 53.94 percent of the non-federal share of the cost of obtaining state and national fingerprint records. The commissioner shall ensure expenditures made pursuant to this provision reflect appropriate federal and local shares. The commissioner of the office of children and family services shall request that the commissioner of the office of temporary and disability assistance reimburse the commissioner of the office of children and family services in an amount equal to 53.94 percent of the nonfederal share of such payments provided
that such reimbursement in payments reflects actual expenditures made on behalf of each local social services district to capture the local share of such costs.

Notwithstanding any inconsistent provision of the social services law or the state finance law, the commissioner shall, on a quarterly basis, request that the commissioner of the office of temporary and disability assistance reimburse the commissioner of the office of children and family services in an amount equal to 53.94 percent of the non-federal share of such fees to capture the local share of such fees. Such reimbursement shall occur on or before the one hundred and twentieth day following the close of the preceding quarter and shall be charged among districts based on the number of children currently placed in foster care in each local social services district provided that this methodology is revised quarterly to reflect most current available data. Amounts appropriated herein may, subject to the director of the budget, be interchanged or transferred with any other appropriation of the office of children and family services or the office of temporary and disability assistance as necessary to reimburse the state share of local social services district costs appropriated herein (14002) ................. 1,857,000

By chapter 53, section 1, of the laws of 2020:
Notwithstanding any inconsistent provision of law, the amount appropriated herein, shall be available under a foster care block grant for state reimbursement of eligible social services district expenditures for the provision and administration of foster care services including care, maintenance, supervision, and tuition; for supervision of foster children placed in federally funded job corps programs; for care, maintenance, supervision, and tuition for adjudicated juvenile delinquents placed in residential programs operated by authorized agencies and in out-of-state residential programs; and for the provision and administration of the kinship guardian assistance program including kinship guardianship assistance payments and payments for non-recurring guardianship expenses; except that, reimbursement from the amount appropriated herein shall not be available for tuition expenditures for foster children, including persons in need of supervision and adjudicated juvenile delinquents, made by a social services district located within a city having a population of one million or more.
Notwithstanding any other provision of law, a portion of the funds are available to reimburse social services districts for the change in the maximum state aid rates established by the office of children and family services for the 2020-21 rate year pursuant to section 398-a of the social services law and sections 4003 and 4405 of the education law to reflect the continuation of the cost of living adjustments that became effective April 1, 2008 for payments made to foster parents and for salary and fringe benefit costs and other critical nonpersonal services costs for foster care programs as determined by the office. Social services districts must adjust the amount of payments made for care provided by congregate care and foster boarding home programs and to foster parents to reflect the cost of living adjustments in the manner specified by the office. Each authorized agency operating a congregate care or foster boarding home program in New York state for which the office sets a maximum state aid rate pursuant to section 398-a of the social services law or section 4003 or 4405 of the education law shall submit, at the time and in a manner to be determined by the office, a written certification, attesting that the funds received for the continuation of the cost of living adjustment to the maximum state aid rate that became effective April 1, 2008 for that program will be or were used solely in accordance with the requirements of the cost of living adjustment established by the office.
Notwithstanding any inconsistent provision of law, for the period commencing on April 1, 2020 and ending March 31, 2021 the commissioner shall not apply any cost of living adjustment for the purpose of establishing rates of payments, contracts or any other form of reimbursement.
Within the amounts appropriated herein, state reimbursement to each social services district for services identified herein that are
otherwise reimbursable by the state from April 1, 2020 through March 31, 2021 shall be limited to a district allocation, hereinafter referred to as the district's block grant allocation. Notwithstanding any other provision of law, such block grant allocation shall be based, in part, on each district's claims for such costs, adjusted by the applicable cost allocation methodology and net of any retroactive payments for the 12 month period ending June 30, 2019 that are submitted on or before January 2, 2020 and, in part, on such other factors as determined by the office of children and family services and approved by the director of the budget. Any portion of a social services district's allocation from funds appropriated herein not claimed by such district during the state fiscal year may be used by such district for expenditures on preventive services provided pursuant to section 409-a of the social services law, independent living services and aftercare services provided pursuant to regulations of the department of family assistance, claimed by such district during the next state fiscal year up to the amount remaining from the district's foster care block grant allocation, provided however, that any claims for such services during the next state fiscal year in excess of such amount shall be subject to 62 percent state reimbursement exclusive of any federal funds made available for such purposes, in accordance with directives of the department of family assistance and subject to the approval of the director of the budget. Any claims submitted by a social services district for reimbursement for a particular state fiscal year for which the social services district does not receive state or federal reimbursement during that state fiscal year may not be claimed against that district's block grant apportionment for the next state fiscal year.

The office of children and family services, with the approval of the director of the budget, may reduce a district's block grant allocation by the state share decrease related to federal retroactive reimbursement for such foster care services identified herein. The office, with the approval of the director of the budget, may reduce a district's block grant allocation by the state share of disallowances or sanctions taken against the district pursuant to the social services law or federal law.

Notwithstanding any other provision of law, the state shall not be responsible for reimbursing a social services district and a district shall not seek state reimbursement for any portion of any state disallowance or sanction taken against the social services district, or any federal disallowance attributable to final federal agency decisions or to settlement made, on or after July 1, 1995, when such disallowance or sanction results from the failure of the social services district to comply with federal or state requirements, including, but not limited to, failure to document eligibility for federal or state funds in the case record; provided, however, if the office determines that any federal disallowance for services provided between January 1, 1999 and May 31, 1999 results solely from the late enactment of the state legislation implementing the federal adoption and safe families act, the state shall be sole-
ly responsible for the full amount of the disallowance or sanction; provided, further, however, this provision shall be deemed to apply both prospectively and retroactively regardless of whether such sanctions or disallowances are for services provided or claims made prior to or after April 1, 2020.

Notwithstanding any other provision of law, any federal disallowance resulting from a federal title IV-E eligibility review or audit that uses extrapolated statistic techniques shall be passed along by the state to any and all social services districts that the office of children and family services has determined have not complied with the title IV-E eligibility requirements or have not taken the necessary actions to ensure compliance with such requirements including, but not limited to, failing to: assess and fully document all the criteria and have readily available all the necessary documents to establish and continue title IV-E eligibility for all title IV-E eligible children within the required time frames; claim title IV-E funding only for cases that meet all of the title IV-E eligibility criteria; and fully implement the social services payment system on or before April 1, 2005 for all direct and voluntary agency foster care services.

Notwithstanding any law to the contrary, the office of children and family services shall impose on social services districts any federal disallowance issued against the state as a result of a federal title IV-E secondary eligibility review regardless of the date the children may have entered foster care, the date the eligibility or payment errors occurred, or the filing date of any federal claims for reimbursement; provided, however, that the state shall be responsible for the disallowed costs and expenditures related to the placement of children in a facility operated by the office of children and family services, which shall be determined in the same manner as the disallowed costs and expenditures for social services districts other than the city of New York. In order to reimburse the federal government for the full amount of any disallowance imposed on the state by the federal administration for children and families within the timeframes necessary to avoid any potential interest payments on such amount, the office of children and family services is authorized to immediately offset funds otherwise due to each district for a pro rata share of the total disallowed costs based on the percentage of applicable federal title IV-E claims made by that district for the relevant time period as compared to the total applicable statewide title IV-E claims. The amount of the offset against each district will be adjusted, if necessary, upon completion of the disallowance allocation process. The final allocation of the amount of any federal disallowance resulting from a title IV-E secondary eligibility review shall be allocated among the districts so that each district shall be responsible for the amount attributable to each of the district's children or cases that are determined by the federal review to be unallowable. Each district shall also be responsible for a portion of the federal extrapolated disallowance amount based on the relative error rate for the district. The city of New York's error rate will be based on the
federal sample and federal statistics. For all social services districts other than the city of New York, the error rate will be based on a review conducted by the district of a sample of children and/or cases determined by the office of children and family services and a re-review of a sub-sample by the office of those children and/or cases determined by the office. The office of children and family services will determine what is reasonable in establishing the size of the sample and sub-sample for each district. The office of children and family services shall notify each social services district of the sample of children and/or cases from the federal audit period that the social services district must review. Any child or case from the social services district that was included in the federal sample will automatically be included in the social services district's review sample and the determination made at the federal review regarding that child or case will govern for the purposes of the social services district's review. The social services district must complete and submit the results of its review to the office of children and family services within 60 days of receipt of the sample. The error rate for the district will be based on the findings of the district's review and the office of children and family services' re-review. If a social services district does not complete its review within 60 days of receiving the sample from the office of children and family services, the office of children and family services shall assign an error rate to the social services district based on the relative percentage of the district's applicable title IV-E claims for the relevant period as compared to applicable statewide title IV-E claims for that period and other circumstances that the office of children and family services may consider in order to allocate 100 percent of the federal disallowance. The office of children and family services shall apply each social services district's error rate to the total amount of the district's applicable title IV-E claims including associated administrative expenses. The resulting dollar amounts for all of the social services districts will be summed to derive the total amount of title IV-E claims deemed to be in error statewide. To establish a disallowance percentage for each social services district, the amount of the district's title IV-E claims deemed to be in error will be divided by the amount of statewide title IV-E claims deemed to be in error. The resulting disallowance percentage for each district will be applied to the entire title IV-E extrapolated disallowance calculated by the federal review to determine the amount of the extrapolated disallowance for which the district is responsible. Each district will be credited for the amount already disallowed for any individual children or cases found to be in error during the federal review. The exclusive appeal rights for the review of the amount of the federal disallowance assigned to each social services district shall be pursuant to article 78 of the civil practice law and rules; provided, however, that in any such action all of the social services districts shall be joined as necessary parties and the venue of any such action shall be in Rensselaer county. Any social services district that fails to complete
its sample review in the required time frames shall have no right to appeal and shall not be a necessary party to any action brought by another social services district.

The money hereby appropriated is to be available for payment of state aid heretofore accrued or hereafter to accrue to municipalities. Subject to the approval of the director of the budget, such funds shall be available to the office net of disallowances, refunds, reimbursements, and credits.

Notwithstanding any inconsistent provision of law, in lieu of payments authorized by the social services law, or payments of federal funds otherwise due to the local social services districts for programs provided under the federal social security act or the federal food stamp act, funds herein appropriated, in amounts certified by the state comptroller or the state commissioner of health as due from local social services districts each month as their share of payments made pursuant to section 367-b of the social services law may be set aside by the state comptroller in an interest bearing account with such interest accruing to the credit of the locality in order to ensure the orderly and prompt payment of providers under section 367-b of the social services law pursuant to an estimate provided by the commissioner of health of each local social services district's share of payments made pursuant to section 367-b of the social services law.

Notwithstanding any inconsistent provision of the social services law or the state finance law, the office of children and family services shall, on a quarterly basis, request that the office of temporary and disability assistance reimburse the office of children and family services for the non-federal share of the costs of administering such direct deposit or debit card payments to capture the local share of such costs.
Notwithstanding any other provision of law to the contrary, amounts due and owing to a social services district under this appropriation, may be reduced up to such amounts due and owing to the state under section 529 of the executive law (13997) .................... 383,526,000 ................................. (re. $358,677,000)

Notwithstanding any inconsistent provision of law, the amount appropriated herein shall be made available to reimburse 62 percent of eligible social services district expenditures that are claimed by March 31, 2021 for child welfare services which shall include and be limited to preventive services provided pursuant to section 409-a of the social services law other than community optional preventive services, child protective services, independent living services, after-care services as defined in regulations of the department of family assistance, and adoption administration and services, other than adoption subsidies provided pursuant to title 9 of article 6 of the social services law and regulations of the department of family assistance incurred on or after October 1, 2019 and before October 1, 2020 and that are otherwise reimbursable by the state on or after April 1, 2020, after first deducting therefrom any federal funds properly received or to be received on account thereof upon certification by the social services district that it will not be using these funds to supplant other state and local funds and that the district will not submit claims for reimbursement under this appropriation for the same type and level of services that the county previously provided and claimed under any contract in existence on October 1, 2002 as other than child protective, preventive, independent living, after care or adoption services or adoption administration.

The money hereby appropriated is to be available for payment of state aid heretofore accrued or hereafter to accrue to municipalities. Subject to the approval of the director of the budget, such funds shall be available to the office net of disallowances, refunds, reimbursements, and credits; provided, however, that notwithstanding any other provision of law, for a district to receive reimbursement for such services, the amount of funds that the district expends on such services from its flexible fund for family services allocation and any flexible fund for family services funds transferred at the district's request to the title XX social services block grant must, to the extent that families are eligible therefore, be equal to or greater than the district's portion of the $382,322,341 statewide child welfare threshold amount, which shall be established pursuant to a formula developed by the office of temporary and disability assistance and the office of children and family services and approved by the director of the budget.

Notwithstanding any other provision of law, selected social services districts may authorize the office of temporary and disability assistance to intercept a portion of the funds on behalf of the office of children and family services otherwise due to the districts under this appropriation and/or under any other general fund - aid to localities appropriation available to such districts to suballocate to the office of mental health and subsequently for

Notwithstanding any inconsistent provision of law, the amount herein appropriated may be transferred to any other appropriation within the office of children and family services and/or the office of temporary and disability assistance and/or suballocated to the office of temporary and disability assistance for the purpose of paying local social services districts' costs of the above program and may be increased or decreased by interchange with any other appropriation or with any other item or items within the amounts appropriated within the office of children and family services general fund – local assistance account with the approval of the director of the budget who shall file such approval with the department of audit and control and copies thereof with the chairman of the senate finance committee and the chairman of the assembly ways and means committee.

All reimbursement made by local social services districts for care, maintenance and supervision under this section shall be paid directly to the state through the office of children and family services for deposit into a miscellaneous special revenue fund known as the youth facility per diem account.

Notwithstanding any other provision of law to the contrary, amounts due and owing to a social services district under this appropriation, may be reduced up to such amounts due and owing to the state under section 529 of the executive law (13998) ................. 610,073,000 .......................... (re. $609,798,000)

determined by the office of children and family services. Notwith-
standing any other provision of law to the contrary, a youth devel-
opment program shall mean a program designed to provide community-
level services to promote positive youth development but shall not
include approved runaway programs or transitional independent living
support programs as such terms are defined in section 532-a of the
executive law. Each county or a city with a population of one

family services shall be eligible for one hundred percent state
reimbursement of its qualified expenditures, subject to the amount
available under this appropriation and exclusive of any federal
funds made available therefor, not to exceed the municipality's
distribution of state aid for youth development programs. The amount
appropriated herein for youth development programs shall be distrib-
uted by the office of children and family services to eligible munici-
palities that have a comprehensive plan that has been developed in
consultation with the applicable municipal youth bureau and approved

section 54 of the state finance law and may include, but not be
limited to, the percentage of youth living in poverty within the
municipality or such other factors as provided for in the regu-
lations of the office of children and family services. Up to fifteen
percent of the youth development funds that a municipality would
allocate to an approved local youth bureau pursuant to an approved
comprehensive plan may be used for administrative functions
performed by such local youth bureau. Notwithstanding any provision
of law to the contrary, an approved local youth bureau that is not
providing, operating, administering or monitoring youth development
programs shall not receive funding under this appropriation. The
office shall not reimburse any claims for youth development programs
unless they are submitted within twelve months of the calendar quar-
ter in which the expenditure was made. The office may require that
such claims be submitted to the office electronically in the manner
and format required by the office. A municipality may enter into contracts to effectuate its youth development program as approved by the office of children and family services. No expenditures shall be made from this appropriation for youth development programs until a plan has been approved by the director of the budget and a certificate of approval allocating these funds has been issued by the director of the budget.

Notwithstanding any provision of law to the contrary, provisions relating to youth development programs and runaway and homeless youth services pursuant to part G of chapter 57 of laws of 2013, as amended by part M of chapter 56 of the laws of 2017, shall hereby remain in effect...

section 408 (a) (10) of the social security act. Unless otherwise
approved by the commissioner of the office of children and family
services with the approval of the director of the budget, these
funds may be used only for eligible expenditures made from October

29 enrollment determinations by the state or
30 third-party entities designated by the
31 state to perform such services.
32 Notwithstanding any provision of law to the
33 contrary, subject to the approval of the
34 director of budget, up to $23,000,000 of
35 the amount appropriated herein shall be
36 available for the purpose of providing
37 payments to local social services
38 districts for medical assistance adminis-
39 tration claims that exceed an administra-
40 tive ceiling established by the commis-
41 sioner of health.
42 Notwithstanding any inconsistent provision
43 of law and subject to the approval of the
44 director of budget, moneys hereby appro-
45 priated may be increased or decreased by
46 transfer or interchange between these
47 appropriated amounts and appropriations of
48 the medical assistance administration
49 program, the medical assistance program,
and the office of health insurance programs. Funding authority from this account used for state administration of the medical assistance program may be transferred to state operations appropriations within the aforementioned programs at amounts agreed upon by the commissioner of health, and the New York state division of the budget.

Notwithstanding section 40 of the state finance law or any other law to the contrary, all medical assistance appropriations made from this account shall remain in full force and effect in accordance, in the aggregate, with the following schedule: not more than 50 percent for the period April 1, 2021 to March 31, 2022 and the remaining amount for the period April 1, 2022 to March 31, 2023.

Notwithstanding section 40 of the state finance law or any provision of law to the contrary, subject to federal approval, department of health state funds medicaid spending, excluding payments for medical services provided at state facilities operated by the office of mental health, the office for people with developmental disabilities and the office of addiction services and supports and further excluding any payments which are not appropriated within the department of health, in the aggregate, for the period April 1, 2021 through March 31, 2022, shall not exceed $23,531,327,000 except as provided below and state share medicaid spending, in the aggregate, for the period April 1, 2022 through March 31, 2023, shall not exceed $25,587,116,000, but in no event shall department of health state funds medicaid spending for the period April 1, 2021 through March 31, 2023 exceed $49,118,443,000 provided, however, such aggregate limits may be adjusted by the director of the budget to account for any changes in the New York state federal medical assistance percentage amount established pursuant to the federal social security act, increases in provider revenues, reductions in local social services district payments for medical assistance administration, minimum wage increases, and beginning April 1, 2012 the opera-
tional costs of the New York state medical
indemnity fund, pursuant to chapter 59 of
the laws of 2011, and state costs or
 savings from the essential plan program.
Such projections may be adjusted by the
director of the budget to account for
increased or expedited department of
health state funds medicaid expenditures
as a result of a natural or other type of
disaster, including a governmental decla-
ration of emergency.

The director of the budget, in consultation
with the commissioner of health, shall
assess on a monthly basis known and
projected medicaid expenditures by catego-
ry of service and by geographic region, as
determined by the commissioner of health,
incurred both prior to and subsequent to
such assessment for each such period, and
if the director of the budget determines
that such expenditures are expected to
cause medicaid spending for such period to
exceed the aggregate limit specified here-
in for such period, the state medicaid
director, in consultation with the direc-
tor of the budget and the commissioner of
health, shall develop a medicaid savings
allocation adjustment to limit such spend-
ing to the aggregate limit specified here-
in for such period.

Such medicaid savings allocation adjustment
shall be designed, to reduce the expendi-
tures authorized by the appropriations
herein in compliance with the following
guidelines: (1) reductions shall be made
in compliance with applicable federal law,
including the provisions of the Patient
Protection and Affordable Care Act, Public
Law No. 111-148, and the Health Care and
Education Reconciliation Act of 2010,
Public Law No. 111-152 (collectively
"Affordable Care Act") and any subsequent
amendments thereto or regulations promul-
gated thereunder; (2) reductions shall be
made in a manner that complies with the
state medicaid plan approved by the feder-
al centers for medicare and medicaid
services, provided, however, that the
commissioner of health is authorized to
submit any state plan amendment or seek
other federal approval, including waiver
authority, to implement the provisions of
DEPARTMENT OF HEALTH

AID TO LOCALITIES 2021-22

the medicaid savings allocation adjustment
that meets the other criteria set forth herein; (3) reductions shall be made in a
manner that maximizes federal financial participation, to the extent practicable,
including any federal financial partic-
ipation that is available or is reasonably
expected to become available, in the
discretion of the commissioner, under the
Affordable Care Act; (4) reductions shall
be made uniformly among categories of
services and geographic regions of the
state, to the extent practicable, and
shall be made uniformly within a category
of service, to the extent practicable,
except where the commissioner determines
that there are sufficient grounds for
non-uniformity, including but not limited
to: the extent to which specific catego-
ries of services contributed to department
of health medicaid state funds spending in
excess of the limits specified herein; the
need to maintain safety net services in
underserved communities; or the potential
benefits of pursuing innovative payment
models contemplated by the Affordable Care
Act, in which case such grounds shall be
set forth in the medicaid savings allo-
cation adjustment; and (5) reductions
shall be made in a manner that does not
unnecessarily create administrative
burdens to medicaid applicants and recipi-
ents or providers.

The commissioner shall seek the input of the
legislature, as well as organizations
representing health care providers,
consumers, businesses, workers, health
insurers, and others with relevant exper-
tise, in developing such medicaid savings
allocation adjustment, to the extent that
all or part of such adjustment, in the
discretion of the commissioner, is likely
to have a material impact on the overall
medicaid program, particular categories of
service or particular geographic regions
of the state.

(a) The commissioner shall post the medicaid
savings allocation adjustment on the
department of health's website and shall
provide written copies of such adjustment
to the chairs of the senate finance and
the assembly ways and means committees at
least 30 days before the date on which implementation is expected to begin.

(b) The commissioner may revise the medicaid savings allocation adjustment subsequent to the provisions of notice and prior to implementation but needs to provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that such revisions materially alter the adjustment.

Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this subdivision if, in the discretion of the commissioner, expedited development and implementation of a medicaid savings allocation adjustment is necessary due to a public health emergency.

For purposes of this section, a public health emergency is defined as: (i) a disaster, natural or otherwise, that significantly increases the immediate need for health care personnel in an area of the state; (ii) an event or condition that creates a widespread risk of exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or (iii) any other event or condition determined by the commissioner to constitute an imminent threat to public health.

Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation adjustment from taking effect retroactively to the extent permitted by the federal centers for medicare and medicaid services.

In accordance with the medicaid savings allocation adjustment, the commissioner of the department of health shall reduce department of health state funds medicaid spending by the amount of the projected overspending through, actions including, but not limited to modifying or suspending reimbursement methods, including but not limited to all fees, premium levels and rates of payment, notwithstanding any provision of law that sets a specific
amount or methodology for any such payments or rates of payment; modifying medicaid program benefits; seeking all necessary federal approvals, including, but not limited to waivers, waiver amendments; and suspending time frames for notice, approval or certification of rate requirements, notwithstanding any provision of law, rule or regulation to the contrary, including but not limited to sections 2807 and 3614 of the public health law, section 18 of chapter 2 of the laws of 1988, and 18 NYCRR 505.14(h).

The department of health shall prepare a monthly report that sets forth: (a) known and projected department of health medicaid expenditures as described in subdivision (1) of this section, and factors that could result in medicaid disbursements for the relevant state fiscal year to exceed the projected department of health state funds disbursements in the enacted budget financial plan pursuant to subdivision 3 of section 23 of the state finance law, including spending increases or decreases due to: enrollment fluctuations, rate changes, utilization changes, MRT investments, and shift of beneficiaries to managed care; and variations in offline medicaid payments; and (b) the actions taken to implement any medicaid savings allocation adjustment implemented pursuant to subdivision (4) of this section, including information concerning the impact of such actions on each category of service and each geographic region of the state. Each such monthly report shall be provided to the chairs of the senate finance and the assembly ways and means committees and shall be posted on the department of health's website in a timely manner.

The money hereby appropriated is available for payment of aid heretofore accrued or hereafter accrued to municipalities, and to providers of medical services pursuant to section 367-b of the social services law.

Notwithstanding any other provision of law, the money hereby appropriated may be increased or decreased by interchange or transfer, with any appropriation of the

family services with the approval of the
director of the budget, who shall file
such approval with the department of audit
and control and copies thereof with the
chairman of the senate finance committee
and the chairman of the assembly ways and
means committee.

Notwithstanding any provision of law to the
contrary, the director of the budget, in
consultation with the commissioner of
health, may use a payment reduction plan
to make across-the-board reductions to the
department of health state funds medicaid
spending by $467,000,000 for state fiscal
year 2021-2022 and $467,000,000 in state
fiscal year 2022-2023 to limit such spend-
ing to the aggregate limit specified here-
in, or reduce the aggregate limit speci-
fied herein to provide a reduction to the
state's financial plan. Reductions shall
be made in a manner that complies with the
state medicaid plan approved by the feder-
al centers for medicare and medicaid
services, provided, however, that the
commissioner of health is authorized to
submit any state plan amendment or seek
other federal approval to implement the
provisions of the medicaid payment
redaction adjustment.

Notwithstanding any inconsistent provision
of law, in lieu of payments authorized by
the social services law, or payments of

MEDICAL ASSISTANCE PROGRAM ............................. 172,408,764,000

General Fund
Local Assistance Account - 10000

For the medical assistance program, including administrative expenses, for local social services districts, and for medical care rates for authorized child care agencies.

Notwithstanding section 40 of the state finance law or any other law to the contrary, all medical assistance appropriations made from this account shall remain in full force and effect in accordance, in the aggregate, with the following schedule: not more than 48 percent for the period April 1, 2021 to March 31, 2022; and the remaining amount for the period April 1, 2022 to March 31, 2023.

Notwithstanding section 40 of the state finance law or any provision of law to the contrary, subject to federal approval, department of health state funds medicaid spending, excluding payments for medical services provided at state facilities operated by the office of mental health, the office for people with developmental disabilities and the office of addiction services and supports and further excluding any payments which are not appropriated within the department of health, in the aggregate, for the period April 1, 2021 through March 31, 2022, shall not exceed $23,531,327,000 except as provided below and state share medicaid spending, in the aggregate, for the period April 1, 2022 through March 31, 2023, shall not exceed $25,587,116,000, but in no event shall department of health state funds medicaid spending for the period April 1, 2021 through March 31, 2023 exceed $49,118,443,000. Provided, however, such aggregate limits may be adjusted by the director of the budget to account for any changes in the New York state federal medical assistance percentage amount established pursuant to the federal social security act, increases in provider revenues, reductions in local social services district payments for medical assistance.
administration, minimum wage increases, and beginning April 1, 2012 the op-erational costs of the New York state medical indemnity fund, pursuant to chapter 59 of the laws of 2011, and state costs or savings from the essential plan program. Such projections may be adjusted by the director of the budget to account for increased or expedited department of health state funds medicaid expenditures as a result of a natural or other type of disaster, including a governmental decla-ration of emergency.

The director of the budget, in consultation with the commissioner of health, shall assess on a monthly basis known and projected medicaid expenditures by category of service and by geographic region, as defined by the commissioner, incurred both prior to and subsequent to such assessment for each such period, and if the director of the budget determines that such expend-itures are expected to cause medicaid spending for such period to exceed the aggregate limit specified herein for such period, the state medicaid director, in consultation with the director of the budget and the commissioner of health, shall develop a medicaid savings allo-ca-tion adjustment to limit such spending to the aggregate limit specified herein for such period.

Such medicaid savings allocation adjustment shall be designed, to reduce the expendi-tures authorized by the appropriations herein in compliance with the following guidelines: (1) reductions shall be made in compliance with applicable federal law, including the provisions of the Patient Protection and Affordable Care Act, Public Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No. 111-152 (collectively "Affordable Care Act") and any subsequent amendments thereto or regulations promul-gated thereunder; (2) reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek
other federal approval, including waiver
authority, to implement the provisions of
the medicaid savings allocation adjustment
that meets the other criteria set forth
herein; (3) reductions shall be made in a
manner that maximizes federal financial
participation, to the extent practicable,
including any federal financial partic-
ipation that is available or is reasonably
expected to become available, in the
discretion of the commissioner, under the
Affordable Care Act; (4) reductions shall
be made uniformly among categories of
services and geographic regions of the
state, to the extent practicable, and
shall be made uniformly within a category
of service, to the extent practicable,
except where the commissioner determines
that there are sufficient grounds for
non-uniformity, including but not limited
to: the extent to which specific catego-
ries of services contributed to department
of health medicaid state funds spending in
excess of the limits specified herein; the
need to maintain safety net services in
underserved communities; or the potential
benefits of pursuing innovative payment
models contemplated by the Affordable Care
Act, in which case such grounds shall be
set forth in the medicaid savings allo-
cation adjustment; and (5) reductions
shall be made in a manner that does not
unnecessarily create administrative
burdens to medicaid applicants and recipi-
ents or providers.

The commissioner shall seek the input of the
legislature, as well as organizations
representing health care providers,
consumers, businesses, workers, health
insurers, and others with relevant exper-
tise, in developing such medicaid savings
allocation adjustment, to the extent that
all or part of such adjustment, in the
discretion of the commissioner, is likely
to have a material impact on the overall
medicaid program, particular categories of
service or particular geographic regions
of the state.

(a) The commissioner shall post the medicaid
savings allocation adjustment on the
department of health's website and shall
provide written copies of such adjustment
to the chairs of the senate finance and
the assembly ways and means committees at
least 30 days before the date on which
implementation is expected to begin.
(b) The commissioner may revise the medicaid
savings allocation adjustment subsequent
to the provisions of notice and prior to
implementation but needs to provide a new
notice pursuant to subparagraph (i) of
this paragraph only if the commissioner
determines, in his or her discretion, that
such revisions materially alter the
adjustment.
Notwithstanding the provisions of paragraphs
(a) and (b) of this subdivision, the
commissioner need not seek the input
described in paragraph (a) of this subdi-
vision or provide notice pursuant to para-
graph (b) of this subdivision if, in the
discretion of the commissioner, expedited
development and implementation of a medi-
caid savings allocation adjustment is
necessary due to a public health emergen-
cy.
For purposes of this section, a public
health emergency is defined as: (i) a
disaster, natural or otherwise, that
significantly increases the immediate need
for health care personnel in an area of
the state; (ii) an event or condition that
creates a widespread risk of exposure to a
serious communicable disease, or the
potential for such widespread risk of
exposure; or (iii) any other event or
condition determined by the commissioner
to constitute an imminent threat to public
health.
Nothing in this paragraph shall be deemed to
prevent all or part of such medicaid
savings allocation adjustment from taking
effect retroactively to the extent permit-
ted by the federal centers for medicare
and medicaid services.
In accordance with the medicaid savings
allocation adjustment, the commissioner of
the department of health shall reduce
department of health state funds medicaid
spending by the amount of the projected
overspending through, actions including,
but not limited to modifying or suspending
reimbursement methods, including but not
limited to all fees, premium levels and
rates of payment, notwithstanding any provision of law that sets a specific amount or methodology for any such payments or rates of payment; modifying or discontinuing medicaid program benefits; seeking all necessary federal approvals, including, but not limited to waivers, waiver amendments; and suspending time frames for notice, approval or certification of rate requirements, notwithstanding any provision of law, rule or regulation to the contrary, including but not limited to sections 2807 and 3614 of the public health law, section 18 of chapter 2 of the laws of 1988, and 18 NYCRR 505.14(h).

The department of health shall prepare a monthly report that sets forth: (a) known and projected department of health medicaid expenditures as described in subdivision (1) of this section, and factors that could result in medicaid disbursements for the relevant state fiscal year to exceed the projected department of health state funds disbursements in the enacted budget financial plan pursuant to subdivision 3 of section 23 of the state finance law, including spending increases or decreases due to: enrollment fluctuations, rate changes, utilization changes, MRT investments, and shift of beneficiaries to managed care; and variations in offline medicaid payments; and (b) the actions taken to implement any medicaid savings allocation adjustment implemented pursuant to subdivision (4) of this section, including information concerning the impact of such actions on each category of service and each geographic region of the state. Each such monthly report shall be provided to the chairs of the senate finance and the assembly ways and means committees and shall be posted on the department of health's website in a timely manner.

The money hereby appropriated is to be available for payment of aid heretofore accrued or hereafter accrued to municipalities, and to providers of medical services pursuant to section 367-b of the social services law, and for payment of state aid to municipalities and to provid-
ers of family care where payment systems
through the fiscal intermediaries are not
operational.
Notwithstanding any inconsistent provision
of law to the contrary, funds may be used
by the department for outside legal
assistance on issues involving the federal
government, the conduct of preadmission
screening and annual resident reviews
required by the state's medicaid program,
computer matching with insurance carriers
to insure that medicaid is the payer of
last resort and activities related to the
management of the pharmacy benefit avail-
able under the medicaid program.
Notwithstanding any inconsistent provision
of law, in lieu of payments authorized by

31 shall department of health state funds
32 medicaid spending for the period April 1,
33 2021 through March 31, 2023 exceed
34 $49,118,443,000 provided, however, such
35 aggregate limits may be adjusted by the
36 director of the budget to account for any
37 changes in the New York state federal
38 medical assistance percentage amount
39 established pursuant to the federal social
40 security act, increases in provider reven-
41 ues, reductions in local social services
42 district payments for medical assistance
43 administration, minimum wage increases and
44 beginning April 1, 2012 the operational
45 costs of the New York state medical indem-
46 nity fund, pursuant to chapter 59 of the
47 laws of 2011, and state costs or savings
48 from the essential plan program. Such
49 projections may be adjusted by the direc-
50 tor of the budget to account for increased
51 or expedited department of health state
funds medicaid expenditures as a result of
a natural or other type of disaster,
including a governmental declaration of
emergency.
The director of the budget, in consultation
with the commissioner of health, shall
assess on a monthly basis known and
projected medicaid expenditures by catego-
ry of service and by geographic region, as
determined by the commissioner of health,
incurred both prior to and subsequent to
such assessment for each such period, and
if the director of the budget determines
that such expenditures are expected to
cause medicaid spending for such period to
exceed the aggregate limit specified here-
in for such period, the state medicaid
director, in consultation with the direc-
tor of the budget and the commissioner of
health, shall develop a medicaid savings
allocation adjustment to limit such spend-
ing to the aggregate limit specified here-
in for such period.

Such medicaid savings allocation adjustment
shall be designed, to reduce the expendi-
tures authorized by the appropriations
herein in compliance with the following
guidelines: (1) reductions shall be made
in compliance with applicable federal law,
including the provisions of the Patient
Protection and Affordable Care Act, Public
Law No. 111-148, and the Health Care and
Education Reconciliation Act of 2010,
Public Law No. 111-152 (collectively
"Affordable Care Act") and any subsequent
amendments thereto or regulations promul-
gated thereunder; (2) reductions shall be
made in a manner that complies with the
state medicaid plan approved by the feder-
al centers for medicare and medicaid
services, provided, however, that the
commissioner of health is authorized to
submit any state plan amendment or seek
other federal approval, including waiver
authority, to implement the provisions of
the medicaid savings allocation adjustment
that meets the other criteria set forth
herein; (3) reductions shall be made in a
manner that maximizes federal financial
participation, to the extent practicable,
including any federal financial partic-
ipation that is available or is reasonably
expected to become available, in the
discretion of the commissioner, under the
Affordable Care Act; (4) reductions shall
be made uniformly among categories of
services and geographic regions of the
state, to the extent practicable, and
shall be made uniformly within a category
of service, to the extent practicable,
except where the commissioner determines
that there are sufficient grounds for
non-uniformity, including but not limited
to: the extent to which specific catego-
ries of services contributed to department
of health medicaid state funds spending in
excess of the limits specified herein; the
need to maintain safety net services in
underserved communities; or the potential
benefits of pursuing innovative payment
models contemplated by the Affordable Care
Act, in which case such grounds shall be
set forth in the medicaid savings allo-
cation adjustment; and (5) reductions
shall be made in a manner that does not
unnecessarily create administrative
burdens to medicaid applicants and recipi-
ents or providers.

The commissioner shall seek the input of the
legislature, as well as organizations
representing health care providers,
consumers, businesses, workers, health
insurers, and others with relevant exper-
tise, in developing such medicaid savings
allocation adjustment, to the extent that
all or part of such adjustment, in the
discretion of the commissioner, is likely
to have a material impact on the overall
medicaid program, particular categories of
service or particular geographic regions
of the state.

(a) The commissioner shall post the medicaid
savings allocation adjustment on the
department of health's website and shall
provide written copies of such plan to the
chairs of the senate finance and the
assembly ways and means committees at
least 30 days before the date on which
implementation is expected to begin.

(b) The commissioner may revise the medicaid
savings allocation adjustment subsequent
to the provisions of notice and prior to
implementation but needs to provide a new
notice pursuant to subparagraph (i) of
this paragraph only if the commissioner
determines, in his or her discretion, that
such revisions materially alter the plan.
Notwithstanding the provisions of paragraphs
(a) and (b) of this subdivision, the
commissioner need not seek the input
described in paragraph (a) of this subdi-
vision or provide notice pursuant to para-
graph (b) of this subdivision if, in the
discretion of the commissioner, expedited
development and implementation of a medi-
caid savings allocation adjustment is
necessary due to a public health emergen-
cy.
For purposes of this section, a public
health emergency is defined as: (i) a
disaster, natural or otherwise, that
significantly increases the immediate need
for health care personnel in an area of
the state; (ii) an event or condition that
creates a widespread risk of exposure to a
serious communicable disease, or the
potential for such widespread risk of
exposure; or (iii) any other event or
condition determined by the commissioner
to constitute an imminent threat to public
health.
Nothing in this paragraph shall be deemed to
prevent all or part of such medicaid
savings allocation adjustment from taking
effect retroactively to the extent permit-
ted by the federal centers for medicare
and medicaid services.
In accordance with the medicaid savings
allocation adjustment, the commissioner of
the department of health shall reduce
department of health state funds medicaid
spending by the amount of the projected
overspending through, actions including,
but not limited to modifying or suspending
reimbursement methods, including but not
limited to all fees, premium levels and
rates of payment, notwithstanding any
provision of law that sets a specific
amount or methodology for any such
payments or rates of payment; modifying
medicaid program benefits; seeking all
necessary federal approvals, including,
but not limited to waivers, waiver amend-
ments; and suspending time frames for
notice, approval or certification of rate
requirements, notwithstanding any
provision of law, rule or regulation to
the contrary, including but not limited to
sections 2807 and 3614 of the public
health law, section 18 of chapter 2 of the
laws of 1988, and 18 NYCRR 505.14(h).
The department of health shall prepare a
monthly report that sets forth: (a) known
and projected department of health medi-
caid expenditures as described in subdivi-
sion (1) of this section, and factors that
could result in medicaid disbursements for
the relevant state fiscal year to exceed
the projected department of health state
funds disbursements in the enacted budget
financial plan pursuant to subdivision 3
of section 23 of the state finance law,
including spending increases or decreases
due to: enrollment fluctuations, rate
changes, utilization changes, MRT invest-
ments, and shift of beneficiaries to
managed care; and variations in offline
medicaid payments; and (b) the actions
taken to implement any medicaid savings
allocation adjustment implemented pursuant
to subdivision (4) of this section,
including information concerning the
impact of such actions on each category of
service and each geographic region of the
state. Each such monthly report shall be
provided to the chairs of the senate
finance and the assembly ways and means
committees and shall be posted on the
department of health's website in a timely
manner.
Notwithstanding any provision of law to the
contrary, the director of the budget, in
consultation with the commissioner of
health, may use a payment reduction plan
to make across-the-board reductions to the
department of health state funds medicaid
spending by $467,000,000 for state fiscal
year 2021-2022 and $467,000,000 in state
fiscal year 2022-2023 to limit such spend-
ing to the aggregate limit specified here-
in, or reduce the aggregate limit speci-
fied herein to provide a reduction to the
state's financial plan. Reductions shall
be made in a manner that complies with the
state medicaid plan approved by the feder-
al centers for medicare and medicaid
services, provided, however, that the
commissioner of health is authorized to

budget to account for increased or expedited department of health state funds medicaid expenditures as a result of a natural or other type of disaster, including a governmental declaration of emergency.

The director of the budget, in consultation with the commissioner of health, shall assess on a monthly basis known and projected medicaid expenditures by category of service and by geographic region, as determined by the commissioner of health, incurred both prior to and subsequent to such assessment for each such period, and if the director of the budget determines that such expenditures are expected to cause medicaid spending for such period to exceed the aggregate limit specified herein for such period, the state medicaid director, in consultation with the director of the budget and the commissioner of health, shall develop a medicaid savings allocation adjustment to limit such spending to the aggregate limit specified herein for such period.

Such medicaid savings allocation adjustment shall be designed, to reduce the expenditures authorized by the appropriations herein in compliance with the following guidelines: (1) reductions shall be made in compliance with applicable federal law, including the provisions of the Patient Protection and Affordable Care Act, Public Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No. 111-152 (collectively "Affordable Care Act") and any subsequent amendments thereto or regulations promulgated thereunder; (2) reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver authority, to implement the provisions of the medicaid savings allocation adjustment that meets the other criteria set forth herein; (3) reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable,
including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the Affordable Care Act; (4) reductions shall be made uniformly among categories of services and geographic regions of the state, to the extent practicable, and shall be made uniformly within a category of service, to the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific categories of services contributed to department of health medicaid state funds spending in excess of the limits specified herein; the need to maintain safety net services in underserved communities; or the potential benefits of pursuing innovative payment models contemplated by the Affordable Care Act, in which case such grounds shall be set forth in the medicaid savings allocation adjustment; and (5) reductions shall be made in a manner that does not unnecessarily create administrative burdens to medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation adjustment, to the extent that all or part of such adjustment, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation adjustment on the department of health's website and shall provide written copies of such plan to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

(b) The commissioner may revise the medicaid savings allocation adjustment subsequent to the provisions of notice and prior to

AID TO LOCALITIES  2021-22

implementation but needs to provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that such revisions materially alter the plan. Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this subdivision if, in the discretion of the commissioner, expedited development and implementation of a medicaid savings allocation adjustment is necessary due to a public health emergency.

For purposes of this section, a public health emergency is defined as: (i) a disaster, natural or otherwise, that significantly increases the immediate need for health care personnel in an area of the state; (ii) an event or condition that creates a widespread risk of exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or (iii) any other event or condition determined by the commissioner to constitute an imminent threat to public health.

Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation adjustment from taking effect retroactively to the extent permitted by the federal centers for medicare and medicaid services.

In accordance with the medicaid savings allocation adjustment, the commissioner of the department of health shall reduce department of health state funds medicaid spending by the amount of the projected overspending through, actions including, but not limited to modifying or suspending reimbursement methods, including but not limited to all fees, premium levels and rates of payment, notwithstanding any provision of law that sets a specific amount or methodology for any such payments or rates of payment; modifying medicaid program benefits; seeking all necessary federal approvals, including, but not limited to waivers, waiver amendments; and suspending time frames for
notice, approval or certification of rate
requirements, notwithstanding any
provision of law, rule or regulation to
the contrary, including but not limited to
sections 2807 and 3614 of the public
health law, section 18 of chapter 2 of the
laws of 1988, and 18 NYCRR 505.14(h).
The department of health shall prepare a
monthly report that sets forth: (a) known
and projected department of health medi-
caid expenditures as described in subdi-
vision (1) of this section, and factors that
could result in medicaid disbursements for
the relevant state fiscal year to exceed
the projected department of health state

of section 23 of the state finance law,
including spending increases or decreases
due to: enrollment fluctuations, rate
changes, utilization changes, MRT invest-

managed care; and variations in offline
medicaid payments; and (b) the actions
taken to implement any medicaid savings
allocation adjustment implemented pursuant
to subdivision (4) of this section,
including information concerning the
impact of such actions on each category of
service and each geographic region of the
state. Each such monthly report shall be
provided to the chairs of the senate
finance and the assembly ways and means
committees and shall be posted on the
department of health's website in a timely
manner.
For the purpose of making payments, the
money hereby appropriated is available for
payment of aid heretofore accrued or here-

ule: not more than 49 percent for the period April 1, 2021 to March 31, 2022; and the remaining amount for the period April 1, 2022 to March 31, 2023.

Notwithstanding section 40 of the state finance law or any provision of law to the contrary, subject to federal approval, department of health state funds medicaid spending, excluding payments for medical services provided at state facilities operated by the office of mental health, the office for people with developmental disabilities and the office of addiction services and supports and further excluding any payments which are not appropriated within the department of health, in the aggregate, for the period April 1, 2021 through March 31, 2022, shall not exceed $23,531,327,000 except as provided below and state share medicaid spending, in the aggregate, for the period April 1, 2022 through March 31, 2023, shall not exceed $25,587,116,000, but in no event shall department of health state funds medicaid spending for the period April 1, 2021 through March 31, 2023 exceed $49,118,443,000 provided, however, such aggregate limits may be adjusted by the director of the budget to account for any changes in the New York state federal medical assistance percentage amount established pursuant to the federal social security act, increases in provider revenues, reductions in local social services district payments for medical assistance administration, minimum wage increases and beginning April 1, 2012 the operational costs of the New York state medical indemnity fund, pursuant to chapter 59 of the laws of 2011, and state costs or savings from the essential plan. Such projections may be adjusted by the director of the budget to account for increased or expedited department of health state funds medicaid expenditures as a result of a natural or other type of disaster, including a governmental declaration of emergency.

The director of the budget, in consultation with the commissioner of health, shall assess on monthly basis known and projected medicaid expenditures by category of
service and by geographic region, as
determined by the commissioner of health,
incurred both prior to and subsequent to
such assessment for each such period, and
if the director of the budget determines
that such expenditures are expected to
cause medicaid spending for such period to
exceed the aggregate limit specified here-
in for such period, the state medicaid
director, in consultation with the direc-
tor of the budget and the commissioner of
health, shall develop a medicaid savings
allocation adjustment to limit such spend-
ing to the aggregate limit specified here-
in for such period.

Such medicaid savings allocation adjustment
shall be designed, to reduce the expendi-
tures authorized by the appropriations
herein in compliance with the following
guidelines: (1) reductions shall be made
in compliance with applicable federal law,
including the provisions of the Patient
Protection and Affordable Care Act, Public
Law No. 111-148, and the Health Care and

"Affordable Care Act") and any subsequent
amendments thereto or regulations promul-

commissioner of health is authorized to
submit any state plan amendment or seek
other federal approval, including waiver

expected to become available, in the
discretion of the commissioner, under the
Affordable Care Act; (4) reductions shall

state, to the extent practicable, and

of service, to the extent practicable,

except where the commissioner determines
that there are sufficient grounds for
non-uniformity, including but not limited
to: the extent to which specific catego-
ries of services contributed to department
of health medicaid state funds spending in
excess of the limits specified herein; the
need to maintain safety net services in
underserved communities; or the potential
benefits of pursuing innovative payment
models contemplated by the Affordable Care
Act, in which case such grounds shall be
set forth in the medicaid savings allo-
cation adjustment; and (5) reductions
shall be made in a manner that does not
unnecessarily create administrative
burdens to medicaid applicants and recipi-
ents or providers.

The commissioner shall seek the input of the
legislature, as well as organizations
representing health care providers,
consumers, businesses, workers, health
insurers, and others with relevant exper-
tise, in developing such medicaid savings
allocation adjustment, to the extent that
all or part of such adjustment, in the
discretion of the commissioner, is likely
to have a material impact on the overall
medicaid program, particular categories of
service or particular geographic regions
of the state.

(a) The commissioner shall post the medicaid
savings allocation adjustment on the
department of health's website and shall
provide written copies of such plan to the
chairs of the senate finance and the
assembly ways and means committees at
least 30 days before the date on which
implementation is expected to begin.

to the provisions of notice and prior to
implementation but needs to provide a new
notice pursuant to subparagraph (i) of
this paragraph only if the commissioner
determines, in his or her discretion, that
such revisions materially alter the plan.

Notwithstanding the provisions of paragraphs
(a) and (b) of this subdivision, the
commissioner need not seek the input
described in paragraph (a) of this subdi-
vision or provide notice pursuant to para-

Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation adjustment from taking effect retroactively to the extent permitted by the federal centers for medicare and medicaid services.

In accordance with the medicaid savings allocation adjustment, the commissioner of the department of health shall reduce department of health state funds medicaid spending by the amount of the projected overspending through, actions including, but not limited to modifying or suspending reimbursement methods, including but not limited to all fees, premium levels and rates of payment, notwithstanding any provision of law that sets a specific amount or methodology for any such payments or rates of payment; modifying medicaid program benefits; seeking all necessary federal approvals, including, but not limited to waivers, waiver amendments; and suspending time frames for notice, approval or certification of rate requirements, notwithstanding any provision of law, rule or regulation to the contrary, including but not limited to sections 2807 and 3614 of the public health law, section 18 of chapter 2 of the laws of 1988, and 18 NYCRR 505.14(h).

MEDICAL ASSISTANCE ADMINISTRATION PROGRAM

General Fund
Local Assistance Account - 10000

The appropriation made by chapter 53, section 1, of the laws of 2020, as added by chapter 50, section 3, of the laws of 2020, is hereby amended and reappropriated to read:

For reimbursement of local administrative expenses for medical assistance programs and for state administration of medical assistance programs, notwithstanding section 153 of the social services law, to include the performance of eligibility and enrollment determinations by the state or third-party entities designated by the state to perform such services.

Notwithstanding any provision of law to the contrary, subject to the approval of the director of budget, up to $23,000,000 of the amount appropriated herein shall be available for the purpose of providing payments to local social services districts for medical assistance administration claims that exceed an administrative ceiling established by the commissioner of health.

Notwithstanding any inconsistent provision of law and subject to the approval of the director of budget, moneys hereby appropriated may be increased or decreased by transfer or interchange between these appropriated amounts and appropriations of the medical assistance administration program, the medical assistance program, and the office of health insurance programs. Funding authority from this account used for state administration of the medical assistance program may be transferred to state operations appropriations within the aforementioned programs at amounts agreed upon by the commissioner of health, and the New York state division of the budget.

Notwithstanding section 40 of the state finance law or any other law to the contrary, all medical assistance appropriations made from this account shall remain in full force and effect in accordance, in the aggregate, with the following schedule: not more than 50 percent for the period April 1, 2020 to March 31, 2021; and the remaining amount for the period April 1, 2021 to [March 31, 2022] September 15, 2022.

Notwithstanding section 40 of the state finance law or any provision of law to the contrary, subject to federal approval, department of health state funds medicaid spending, excluding payments for medical services provided at state facilities operated by the office of mental health, the office for people with developmental disabilities and the office of addiction services and supports and further excluding any payments which are not appropriated within the department of health, in the aggregate, for the period April 1, 2020 through March 31, 2021, shall not exceed $23,606,772,000 except as provided below and state share medicaid spending, in the aggregate, for the period April 1, 2021 through [March 31, 2022] September 15, 2022, shall not exceed $47,138,099,000 but in no event shall department of health state funds medicaid spending for the period April 1, 2020 through [March 31, 2022] September 15, 2022 exceed [48,205,265,000] $47,138,099,000 provided, however, such aggregate limits may be adjusted by the director of the budget to account for any changes in the New York state federal medical assistance percentage amount established pursuant to the federal
social security act, increases in provider revenues, reductions in
local social services district payments for medical assistance
administration, minimum wage increases, and beginning April 1, 2012
the operational costs of the New York state medical indemnity fund,
pursuant to chapter 59 of the laws of 2011, and state costs or
savings from the essential plan program. Such projections may be
adjusted by the director of the budget to account for increased or
expedited department of health state funds medicaid expenditures as
a result of a natural or other type of disaster, including a govern-
mental declaration of emergency.
The director of the budget, in consultation with the commissioner of
health, shall assess on a monthly basis known and projected medicaid
expenditures by category of service and by geographic region, as
determined by the commissioner of health, incurred both prior to and
subsequent to such assessment for each such period, and if the
director of the budget determines that such expenditures are
expected to cause medicaid spending for such period to exceed the
aggregate limit specified herein for such period, the state medicaid
director, in consultation with the director of the budget and the
commissioner of health, shall develop a medicaid savings allocation
adjustment to limit such spending to the aggregate limit specified
herein for such period.
Such medicaid savings allocation adjustment shall be designed, to
reduce the expenditures authorized by the appropriations herein in
compliance with the following guidelines: (1) reductions shall be
made in compliance with applicable federal law, including the
provisions of the Patient Protection and Affordable Care Act, Public
Law No. 111-148, and the Health Care and Education Reconciliation
Act of 2010, Public Law No. 111-152 (collectively "Affordable Care
Act") and any subsequent amendments thereto or regulations promul-
gated thereunder; (2) reductions shall be made in a manner that
complies with the state medicaid plan approved by the federal
centers for medicare and medicaid services, provided, however, that
the commissioner of health is authorized to submit any state plan
amendment or seek other federal approval, including waiver authori-
ty, to implement the provisions of the medicaid savings allocation
adjustment that meets the other criteria set forth herein; (3)
reductions shall be made in a manner that maximizes federal finan-
cial participation, to the extent practicable, including any federal
financial participation that is available or is reasonably expected
to become available, in the discretion of the commissioner, under
the Affordable Care Act; (4) reductions shall be made uniformly
among categories of services and geographic regions of the state, to
the extent practicable, and shall be made uniformly within a catego-
ry of service, to the extent practicable, except where the commis-
sioner determines that there are sufficient grounds for non-uniform-
ity, including but not limited to: the extent to which specific
categories of services contributed to department of health medicaid
state funds spending in excess of the limits specified herein; the
need to maintain safety net services in underserved communities; or
the potential benefits of pursuing innovative payment models contem-
plated by the Affordable Care Act, in which case such grounds shall
be set forth in the medicaid savings allocation adjustment; and (5) reductions shall be made in a manner that does not unnecessarily create administrative burdens to medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation adjustment, to the extent that all or part of such adjustment, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation adjustment on the department of health's website and shall provide written copies of such adjustment to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

(b) The commissioner may revise the medicaid savings allocation adjustment subsequent to the provisions of notice and prior to implementation but needs to provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that such revisions materially alter the adjustment.

Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this subdivision if, in the discretion of the commissioner, expedited development and implementation of a medicaid savings allocation adjustment is necessary due to a public health emergency.

For purposes of this section, a public health emergency is defined as:

(i) a disaster, natural or otherwise, that significantly increases the immediate need for health care personnel in an area of the state; (ii) an event or condition that creates a widespread risk of exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or (iii) any other event or condition determined by the commissioner to constitute an imminent threat to public health.

Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation adjustment from taking effect retroactively to the extent permitted by the federal centers for medicare and medicaid services.

In accordance with the medicaid savings allocation adjustment, the commissioner of the department of health shall reduce department of health state funds medicaid spending by the amount of the projected overspending through, actions including, but not limited to modifying or suspending reimbursement methods, including but not limited to all fees, premium levels and rates of payment, notwithstanding any provision of law that sets a specific amount or methodology for any such payments or rates of payment; modifying medicaid program benefits; seeking all necessary federal approvals, including, but not limited to waivers, waiver amendments; and suspending time
frames for notice, approval or certification of rate requirements, notwithstanding any provision of law, rule or regulation to the contrary, including but not limited to sections 2807 and 3614 of the public health law, section 18 of chapter 2 of the laws of 1988, and 18 NYCRR 505.14(h).

The department of health shall prepare a monthly report that sets forth: (a) known and projected department of health medicaid expenditures as described in subdivision (1) of this section, and factors that could result in medicaid disbursements for the relevant state fiscal year to exceed the projected department of health state funds disbursements in the enacted budget financial plan pursuant to subdivision 3 of section 23 of the state finance law, including spending increases or decreases due to: enrollment fluctuations, rate changes, utilization changes, MRT investments, and shift of beneficiaries to managed care; and variations in offline medicaid payments; and (b) the actions taken to implement any medicaid savings allocation adjustment implemented pursuant to subdivision (4) of this section, including information concerning the impact of such actions on each category of service and each geographic region of the state. Each such monthly report shall be provided to the chairs of the senate finance and the assembly ways and means committees and shall be posted on the department of health's website in a timely manner.

The money hereby appropriated is available for payment of aid heretofore accrued or hereafter accrued to municipalities, and to providers of medical services pursuant to section 367-b of the social services law.

Notwithstanding any other provision of law, the money hereby appropriated may be increased or decreased by interchange or transfer, with any appropriation of the department of health, and may be increased or decreased by transfer or suballocation between these appropriated amounts and appropriations of the office of mental health, the office for people with developmental disabilities, the office of addiction services and supports, the department of family assistance office of temporary and disability assistance, the department of corrections and community supervision, the office of information technology services, the state university of New York, the state office for the aging, the office of the medicaid inspector general, and office of children and family services with the approval of the director of the budget, who shall file such approval with the department of audit and control and copies thereof with the chairman of the senate finance committee and the chairman of the assembly ways and means committee.

Notwithstanding any provision of law to the contrary, the director of the budget, in consultation with the commissioner of health, may use a payment reduction plan to make across-the-board reductions to the department of health state funds medicaid spending by $373,000,000 for state fiscal year 2020-2021 and [$175,000,000] $467,000,000 in state fiscal year 2021-2022 to limit such spending to the aggregate limit specified herein, or reduce the aggregate limit specified herein to provide a reduction to the state's financial plan. Reductions shall be made in a manner that complies with the state
medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval to implement the provisions of the medicaid payment reduction adjustment.

Notwithstanding any inconsistent provision of law, in lieu of payments authorized by the social services law, or payments of federal funds otherwise due to the local social services districts for programs provided under the federal social security act or the federal food stamp act, funds herein appropriated, in amounts certified by the state commissioner of temporary and disability assistance or the state commissioner of health as due from local social services districts each month as their share of payments made pursuant to section 367-b of the social services law may be set aside by the state comptroller in an interest-bearing account in order to ensure the orderly and prompt payment of providers under section 367-b of the social services law pursuant to an estimate provided by the commissioner of health of each local social services district's share of payments made pursuant to section 367-b of the social services law.

Notwithstanding any provision of law to the contrary, the portion of this appropriation covering fiscal year 2020-21 shall supersede and replace any duplicative (i) reappropriation for this item covering fiscal year 2020-21, and (ii) appropriation for this item covering fiscal year 2020-21 set forth in chapter 53 of the laws of 2019 (26963) ... 1,090,100,000 ..................... MEDICAL ASSISTANCE PROGRAM

General Fund
Local Assistance Account - 10000

The appropriation made by chapter 53, section 1, of the laws of 2020, as added by chapter 50, section 3, of the laws of 2020, is hereby amended and reappropriated to read:

For the medical assistance program, including administrative expenses, for local social services districts, and for medical care rates for authorized child care agencies.

Notwithstanding section 40 of the state finance law or any other law to the contrary, all medical assistance appropriations made from this account shall remain in full force and effect in accordance, in
the aggregate, with the following schedule: not more than 49 percent
for the period April 1, 2020 to March 31, 2021; and the remaining
amount for the period April 1, 2021 to [March 31, September 15, 2022].

Notwithstanding section 40 of the state finance law or any provision
of law to the contrary, subject to federal approval, department of
health state funds medicaid spending, excluding payments for medical
services provided at state facilities operated by the office of
mental health, the office for people with developmental disabilities
and the office of addiction services and supports and further
excluding any payments which are not appropriated within the depart-
ment of health, in the aggregate, for the period April 1, 2020
through March 31, 2021, shall not exceed $23,606,772,000 except as
provided below and state share medicaid spending, in the aggregate,
for the period April 1, 2021 through [March 31, September 15, 2022],
shall not exceed $23,531,327,000, but in no event
shall department of health state funds medicaid spending for the
period April 1, 2020 through [March 31, September 15, 2022] exceed
$47,138,099,000. Provided, however, such aggre-
gate limits may be adjusted by the director of the budget to account
for any changes in the New York state federal medical assistance
percentage amount established pursuant to the federal social securi-
ty act, increases in provider revenues, reductions in local social
services district payments for medical assistance administration,
minimum wage increases, and beginning April 1, 2012 the operational
costs of the New York state medical indemnity fund, pursuant to
chapter 59 of the laws of 2011, and state costs or savings from the
essential plan program. Such projections may be adjusted by the
director of the budget to account for increased or expedited depart-
ment of health state funds medicaid expenditures as a result of a
natural or other type of disaster, including a governmental declara-
tion of emergency.

The director of the budget, in consultation with the commissioner of
health, shall assess on a monthly basis known and projected medicaid
expenditures by category of service and by geographic region, as
defined by the commissioner, incurred both prior to and subsequent
to such assessment for each such period, and if the director of the
budget determines that such expenditures are expected to cause medi-
caid spending for such period to exceed the aggregate limit speci-
fied herein for such period, the state medicaid director, in consul-
tation with the director of the budget and the commissioner of
health, shall develop a medicaid savings allocation adjustment to
limit such spending to the aggregate limit specified herein for such
period.

Such medicaid savings allocation adjustment shall be designed, to
reduce the expenditures authorized by the appropriations herein in
compliance with the following guidelines: (1) reductions shall be
made in compliance with applicable federal law, including the
provisions of the Patient Protection and Affordable Care Act, Public
Law No. 111-148, and the Health Care and Education Reconciliation
Act of 2010, Public Law No. 111-152 (collectively "Affordable Care
Act") and any subsequent amendments thereto or regulations promul-
gated thereunder; (2) reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver authority, to implement the provisions of the medicaid savings allocation adjustment that meets the other criteria set forth herein; (3) reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the Affordable Care Act; (4) reductions shall be made uniformly among categories of services and geographic regions of the state, to the extent practicable, and shall be made uniformly within a category of service, to the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific categories of services contributed to department of health medicaid state funds spending in excess of the limits specified herein; the need to maintain safety net services in underserved communities; or the potential benefits of pursuing innovative payment models contemplated by the Affordable Care Act, in which case such grounds shall be set forth in the medicaid savings allocation adjustment; and (5) reductions shall be made in a manner that does not unnecessarily create administrative burdens to medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation adjustment, to the extent that all or part of such adjustment, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation adjustment on the department of health's website and shall provide written copies of such adjustment to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

(b) The commissioner may revise the medicaid savings allocation adjustment subsequent to the provisions of notice and prior to implementation but needs to provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that such revisions materially alter the adjustment.

Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this subdivision if, in the discretion of the commissioner, expedited development and implementation of a medicaid savings allocation adjustment is necessary due to a public health emergency.
For purposes of this section, a public health emergency is defined as:
(i) a disaster, natural or otherwise, that significantly increases
the immediate need for health care personnel in an area of the
state; (ii) an event or condition that creates a widespread risk of
exposure to a serious communicable disease, or the potential for
such widespread risk of exposure; or (iii) any other event or condi-
tion determined by the commissioner to constitute an imminent threat
to public health.
Nothing in this paragraph shall be deemed to prevent all or part of
such medicaid savings allocation adjustment from taking effect
retroactively to the extent permitted by the federal centers for
medicare and medicaid services.
In accordance with the medicaid savings allocation adjustment, the
commissioner of the department of health shall reduce department of
health state funds medicaid spending by the amount of the projected
overspending through, actions including, but not limited to modify-
ing or suspending reimbursement methods, including but not limited
to all fees, premium levels and rates of payment, notwithstanding
any provision of law that sets a specific amount or methodology for
any such payments or rates of payment; modifying or discontinuing
medicaid program benefits; seeking all necessary federal approvals,
including, but not limited to waivers, waiver amendments; and
suspending time frames for notice, approval or certification of rate
requirements, notwithstanding any provision of law, rule or regu-
lation to the contrary, including but not limited to sections 2807
and 3614 of the public health law, section 18 of chapter 2 of the
laws of 1988, and 18 NYCRR 505.14(h).
The department of health shall prepare a monthly report that sets
forth: (a) known and projected department of health medicaid expend-
itures as described in subdivision (1) of this section, and factors
that could result in medicaid disbursements for the relevant state
fiscal year to exceed the projected department of health state funds
disbursements in the enacted budget financial plan pursuant to
subdivision 3 of section 23 of the state finance law, including
spending increases or decreases due to: enrollment fluctuations,
rate changes, utilization changes, MRT investments, and shift of
beneficiaries to managed care; and variations in offline medicaid
payments; and (b) the actions taken to implement any medicaid
savings allocation adjustment implemented pursuant to subdivision
(4) of this section, including information concerning the impact of
such actions on each category of service and each geographic region
of the state. Each such monthly report shall be provided to the
chairs of the senate finance and the assembly ways and means commit-
tees and shall be posted on the department of health's website in a
timely manner.
The money hereby appropriated is to be available for payment of aid
heretofore accrued or hereafter accrued to municipalities, and to
providers of medical services pursuant to section 367-b of the
social services law, and for payment of state aid to municipalities
and to providers of family care where payment systems through the
fiscal intermediaries are not operational.

The appropriation made by chapter 53, section 1, of the laws of 2020, as added by chapter 50, section 3, of the laws of 2020, is hereby amended and reappropriated to read:

Notwithstanding section 40 of the state finance law or any other law to the contrary, all medical assistance appropriations made from this account shall remain in full force and effect in accordance, in the aggregate, with the following schedule: not more than 50 percent for the period April 1, 2020 to March 31, 2021; and the remaining amount for the period April 1, 2021 to [March 31,] September 15, 2022.

Notwithstanding section 40 of the state finance law or any provision of law to the contrary, subject to federal approval, department of health state funds medicaid spending, excluding payments for medical services provided at state facilities operated by the office of mental health, the office for people with developmental disabilities and the office of addiction services and supports and further excluding any payments which are not appropriated within the department of health, in the aggregate, for the period April 1, 2020 through March 31, 2021, shall not exceed $23,606,772,000 except as provided below and state share medicaid spending, in the aggregate, for the period April 1, 2021 through [March 31,] September 15, 2022, shall not exceed [24,598,493,000] $23,531,327,000, but in no event shall department of health state funds medicaid spending for the period April 1, 2020 through [March 31,] September 15, 2022 exceed [48,205,265,000] $47,138,099,000 provided, however, such aggregate limits may be adjusted by the director of the budget to account for any changes in the New York state federal medical assistance
percentage amount established pursuant to the federal social security act, increases in provider revenues, reductions in local social services district payments for medical assistance administration, minimum wage increases and beginning April 1, 2012 the operational costs of the New York state medical indemnity fund, pursuant to chapter 59 of the laws of 2011, and state costs or savings from the essential plan program. Such projections may be adjusted by the director of the budget to account for increased or expedited department of health state funds medicaid expenditures as a result of a natural or other type of disaster, including a governmental declaration of emergency.

The director of the budget, in consultation with the commissioner of health, shall assess on a monthly basis known and projected medicaid expenditures by category of service and by geographic region, as determined by the commissioner of health, incurred both prior to and subsequent to such assessment for each such period, and if the director of the budget determines that such expenditures are expected to cause medicaid spending for such period to exceed the aggregate limit specified herein for such period, the state medicaid director, in consultation with the director of the budget and the commissioner of health, shall develop a medicaid savings allocation adjustment to limit such spending to the aggregate limit specified herein for such period.

Such medicaid savings allocation adjustment shall be designed, to reduce the expenditures authorized by the appropriations herein in compliance with the following guidelines: (1) reductions shall be made in compliance with applicable federal law, including the provisions of the Patient Protection and Affordable Care Act, Public Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No. 111-152 (collectively "Affordable Care Act") and any subsequent amendments thereto or regulations promulgated thereunder; (2) reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver authority, to implement the provisions of the medicaid savings allocation adjustment that meets the other criteria set forth herein; (3) reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the Affordable Care Act; (4) reductions shall be made uniformly among categories of services and geographic regions of the state, to the extent practicable, and shall be made uniformly within a category of service, to the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific categories of services contributed to department of health medicaid state funds spending in excess of the limits specified herein; the need to maintain safety net services in underserved communities; or the potential benefits of pursuing innovative payment models contem-
plated by the Affordable Care Act, in which case such grounds shall be set forth in the medicaid savings allocation adjustment; and (5) reductions shall be made in a manner that does not unnecessarily create administrative burdens to medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation adjustment, to the extent that all or part of such adjustment, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation adjustment on the department of health's website and shall provide written copies of such plan to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

(b) The commissioner may revise the medicaid savings allocation adjustment subsequent to the provisions of notice and prior to implementation but needs to provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that such revisions materially alter the plan.

Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this subdivision if, in the discretion of the commissioner, expedited development and implementation of a medicaid savings allocation adjustment is necessary due to a public health emergency.

For purposes of this section, a public health emergency is defined as:

(i) a disaster, natural or otherwise, that significantly increases the immediate need for health care personnel in an area of the state; (ii) an event or condition that creates a widespread risk of exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or (iii) any other event or condition determined by the commissioner to constitute an imminent threat to public health.

Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation adjustment from taking effect retroactively to the extent permitted by the federal centers for medicare and medicaid services.

In accordance with the medicaid savings allocation adjustment, the commissioner of the department of health shall reduce department of health state funds medicaid spending by the amount of the projected overspending through, actions including, but not limited to modifying or suspending reimbursement methods, including but not limited to all fees, premium levels and rates of payment, notwithstanding any provision of law that sets a specific amount or methodology for any such payments or rates of payment; modifying medicaid program benefits; seeking all necessary federal approvals, including, but
not limited to waivers, waiver amendments; and suspending time frames for notice, approval or certification of rate requirements, notwithstanding any provision of law, rule or regulation to the contrary, including but not limited to sections 2807 and 3614 of the public health law, section 18 of chapter 2 of the laws of 1988, and 18 NYCRR 505.14(h).

The department of health shall prepare a monthly report that sets forth: (a) known and projected department of health medicaid expenditures as described in subdivision (1) of this section, and factors that could result in medicaid disbursements for the relevant state fiscal year to exceed the projected department of health state funds disbursements in the enacted budget financial plan pursuant to subdivision 3 of section 23 of the state finance law, including spending increases or decreases due to: enrollment fluctuations, rate changes, utilization changes, MRT investments, and shift of beneficiaries to managed care; and variations in offline medicaid payments; and (b) the actions taken to implement any medicaid savings allocation adjustment implemented pursuant to subdivision (4) of this section, including information concerning the impact of such actions on each category of service and each geographic region of the state. Each such monthly report shall be provided to the chairs of the senate finance and the assembly ways and means committees and shall be posted on the department of health's website in a timely manner.

Notwithstanding any provision of law to the contrary, the director of the budget, in consultation with the commissioner of health, may use a payment reduction plan to make across-the-board reductions to the department of health state funds medicaid spending by $373,000,000 for state fiscal year 2020-2021 and $467,000,000 in state fiscal year 2021-2022 to limit such spending to the aggregate limit specified herein, or reduce the aggregate limit specified herein to provide a reduction to the state's financial plan. Reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval to implement the provisions of the medicaid payment reduction adjustment.

For the purpose of making payments to providers of medical care pursuant to section 367-b of the social services law, and for payment of state aid to municipalities where payment systems through fiscal intermediaries are not operational, to reimburse such providers for costs attributable to the provision of care to patients eligible for medical assistance. Payments from this appropriation to general hospitals related to indigent care pursuant to article 28 of the public health law respectively, when combined with federal funds for services and expenses for the medical assistance program pursuant to title XIX of the federal social security act or its successor program, shall equal the amount of the funds received related to health care reform act allowances and surcharges pursuant to article 28 of the public health law and deposited to this account less any such amounts withheld pursuant to subdivision 21 of section 2807-c
of the public health law. Notwithstanding any inconsistent
provision of law, the moneys hereby appropriated may be increased or
decreased by interchange or transfer with any appropriation of the
department of health with the approval of the director of the budg-
et, who shall file such approval with the department of audit and
control and copies thereof with the chairman of the senate finance
committee and the chairman of the assembly ways and means committee.
Notwithstanding any provision of law to the contrary, the portion of
this appropriation covering fiscal year 2020-21 shall supersede and
replace any duplicative (i) reappropriation for this item covering
fiscal year 2020-21, and (ii) appropriation for this item covering
fiscal year 2020-21 set forth in chapter 53 of the laws of 2019

expenditures by category of service and by geographic region, as
determined by the commissioner of health, incurred both prior to and

adjustment subsequent to the provisions of notice and prior to
implementation but needs to provide a new notice pursuant to subpar-
agraph (i) of this paragraph only if the commissioner determines, in
his or her discretion, that such revisions materially alter the
plan.
Notwithstanding the provisions of paragraphs (a) and (b) of this
subdivision, the commissioner need not seek the input described in
paragraph (a) of this subdivision or provide notice pursuant to
paragraph (b) of this subdivision if, in the discretion of the
commissioner, expedited development and implementation of a medicaid
savings allocation adjustment is necessary due to a public health
emergency.
For purposes of this section, a public health emergency is defined as:
(i) a disaster, natural or otherwise, that significantly increases
the immediate need for health care personnel in an area of the
state; (ii) an event or condition that creates a widespread risk of
exposure to a serious communicable disease, or the potential for
such widespread risk of exposure; or (iii) any other event or condi-
tion determined by the commissioner to constitute an imminent threat
to public health.
Nothing in this paragraph shall be deemed to prevent all or part of
such medicaid savings allocation adjustment from taking effect
retroactively to the extent permitted by the federal centers for
medicare and medicaid services.
In accordance with the medicaid savings allocation adjustment, the
commissioner of the department of health shall reduce department of
health state funds medicaid spending by the amount of the projected
overspending through, actions including, but not limited to modify-
ing or suspending reimbursement methods, including but not limited
to all fees, premium levels and rates of payment, notwithstanding
any provision of law that sets a specific amount or methodology for
any such payments or rates of payment; modifying medicaid program
benefits; seeking all necessary federal approvals, including, but
not limited to waivers, waiver amendments; and suspending time
frames for notice, approval or certification of rate requirements,
notwithstanding any provision of law, rule or regulation to the
contrary, including but not limited to sections 2807 and 3614 of the
public health law, section 18 of chapter 2 of the laws of 1988, and
18 NYCRR 505.14(h).
The department of health shall prepare a monthly report that sets forth: (a) known and projected department of health medicaid expenditures as described in subdivision (1) of this section, and factors that could result in medicaid disbursements for the relevant state fiscal year to exceed the projected department of health state funds disbursements in the enacted budget financial plan pursuant to subdivision 3 of section 23 of the state finance law, including spending increases or decreases due to: enrollment fluctuations, rate changes, utilization changes, MRT investments, and shift of beneficiaries to managed care; and variations in offline medicaid payments; and (b) the actions taken to implement any medicaid savings allocation adjustment implemented pursuant to subdivision (4) of this section, including information concerning the impact of such actions on each category of service and each geographic region of the state. Each such monthly report shall be provided to the chairs of the senate finance and the assembly ways and means committees and shall be posted on the department of health's website in a timely manner.

For the purpose of making payments, the money hereby appropriated is available for payment of aid heretofore accrued or hereafter accrued, to providers of medical care pursuant to section 367-b of the social services law, and for payment of state aid to municipalities and the federal government where payment systems through fiscal intermediaries are not operational, to reimburse such providers for costs attributable to the provision of care to patients eligible for medical assistance. Notwithstanding any inconsistent provision of law, the moneys hereby appropriated may be increased or decreased by interchange or transfer with any appropriation of the department of health with the approval of the director of the budget, who shall file such approval with the department of audit and control and copies thereof with the chairman of the senate finance committee and the chairman of the assembly ways and means committee.

Notwithstanding any provision of law to the contrary, the director of the budget, in consultation with the commissioner of health, may use a payment reduction plan to make across-the-board reductions to the department of health state funds medicaid spending by $373,000,000 for state fiscal year 2020-2021 and [$175,000,000] $467,000,000 in state fiscal year 2021-2022 to limit such spending to the aggregate limit specified herein, or reduce the aggregate limit specified herein to provide a reduction to the state's financial plan. Reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval to implement the provisions of the medicaid payment reduction plan. For services and expenses of the medical assistance program.

Notwithstanding any provision of law to the contrary, the portion of this appropriation covering fiscal year 2020-21 shall supersede and replace any duplicative (i) reappropriation for this item covering fiscal year 2020-21, and (ii) appropriation for this item covering

Medical Assistance Account - 22187

The appropriation made by chapter 53, section 1, of the laws of 2020, as added by chapter 50, section 3, of the laws of 2020, is hereby amended and reappropriated to read:

Notwithstanding section 40 of the state finance law or any other law to the contrary, all medical assistance appropriations made from this account shall remain in full force and effect in accordance, in the aggregate, with the following schedule: not more than 49 percent for the period April 1, 2020 to March 31, 2021; and the remaining amount for the period April 1, 2021 to [March-31] September 15, 2022.

Notwithstanding section 40 of the state finance law or any provision of law to the contrary, subject to federal approval, department of
health state funds medicaid spending, excluding payments for medical
services provided at state facilities operated by the office of
mental health, the office for people with developmental disabilities
and the office of addiction services and supports and further
excluding any payments which are not appropriated within the depart-
ment of health, in the aggregate, for the period April 1, 2020
through March 31, 2021, shall not exceed $23,606,772,000 except as
provided below and state share medicaid spending, in the aggregate,
for the period April 1, 2021 through [March 31, September 15, 2022,
shall not exceed $24,598,493,000] $23,531,327,000, but in no event
shall department of health state funds medicaid spending for the
period April 1, 2020 through [March 31, September 15, 2022 exceed
$48,205,265,000] $47,138,099,000 provided, however, such aggregate
limits may be adjusted by the director of the budget to account for
any changes in the New York state federal medical assistance
percentage amount established pursuant to the federal social securi-
ty act, increases in provider revenues, reductions in local social
services district payments for medical assistance administration,
minimum wage increases and beginning April 1, 2012 the operational
costs of the New York state medical indemnity fund, pursuant to
chapter 59 of the laws of 2011, and state costs or savings from the
essential plan. Such projections may be adjusted by the director of
the budget to account for increased or expedited department of
health state funds medicaid expenditures as a result of a natural or
other type of disaster, including a governmental declaration of
emergency.

The director of the budget, in consultation with the commissioner of
health, shall assess on monthly basis known and projected medicaid
spendings by category of service and by geographic region, as
determined by the commissioner of health, incurred both prior to and
subsequent to such assessment for each such period, and if the
director of the budget determines that such expenditures are
expected to cause medicaid spending for such period to exceed the
aggregate limit specified herein for such period, the state medicaid
director, in consultation with the director of the budget and the
commissioner of health, shall develop a medicaid savings allocation
adjustment to limit such spending to the aggregate limit specified
herein for such period.

Such medicaid savings allocation adjustment shall be designed, to
reduce the expenditures authorized by the appropriations herein in
compliance with the following guidelines: (1) reductions shall be
made in compliance with applicable federal law, including the
provisions of the Patient Protection and Affordable Care Act, Public
Law No. 111-148, and the Health Care and Education Reconciliation
Act of 2010, Public Law No. 111-152 (collectively "Affordable Care
Act") and any subsequent amendments thereto or regulations promul-
gated thereunder; (2) reductions shall be made in a manner that
complies with the state medicaid plan approved by the federal
centers for medicare and medicaid services, provided, however, that
the commissioner of health is authorized to submit any state plan
amendment or seek other federal approval, including waiver authori-
ty, to implement the provisions of the medicaid savings allocation
adjustment that meets the other criteria set forth herein; (3) reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the Affordable Care Act; (4) reductions shall be made uniformly among categories of services and geographic regions of the state, to the extent practicable, and shall be made uniformly within a category of service, to the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific categories of services contributed to department of health medicaid state funds spending in excess of the limits specified herein; the need to maintain safety net services in underserved communities; or the potential benefits of pursuing innovative payment models contemplated by the Affordable Care Act, in which case such grounds shall be set forth in the medicaid savings allocation adjustment; and (5) reductions shall be made in a manner that does not unnecessarily create administrative burdens to medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation adjustment, to the extent that all or part of such adjustment, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation adjustment on the department of health's website and shall provide written copies of such plan to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

(b) The commissioner may revise the medicaid savings allocation adjustment subsequent to the provisions of notice and prior to implementation but needs to provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that such revisions materially alter the plan.

Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this subdivision if, in the discretion of the commissioner, expedited development and implementation of a medicaid savings allocation adjustment is necessary due to a public health emergency.

For purposes of this section, a public health emergency is defined as:

(i) a disaster, natural or otherwise, that significantly increases the immediate need for health care personnel in an area of the state; (ii) an event or condition that creates a widespread risk of exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or (iii) any other event or condi-

tion determined by the commissioner to constitute an imminent threat to public health.
Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation adjustment from taking effect retroactively to the extent permitted by the federal centers for medicare and medicaid services.
In accordance with the medicaid savings allocation adjustment, the commissioner of the department of health shall reduce department of health state funds medicaid spending by the amount of the projected overspending through, actions including, but not limited to modifying or suspending reimbursement methods, including but not limited to all fees, premium levels and rates of payment, notwithstanding any provision of law that sets a specific amount or methodology for any such payments or rates of payment; modifying medicaid program benefits; seeking all necessary federal approvals, including, but not limited to waivers, waiver amendments; and suspending time frames for notice, approval or certification of rate requirements, notwithstanding any provision of law, rule or regulation to the contrary, including but not limited to sections 2807 and 3614 of the public health law, section 18 of chapter 2 of the laws of 1988, and 18 NYCRR 505.14(h).
The department of health shall prepare a monthly report that sets forth: (a) known and projected department of health medicaid expend- itures as described in subdivision (1) of this section, and factors that could result in medicaid disbursements for the relevant state fiscal year to exceed the projected department of health state funds disbursements in the enacted budget financial plan pursuant to subdivision 3 of section 23 of the state finance law, including spending increases or decreases due to: enrollment fluctuations, rate changes, utilization changes, MRT investments, and shift of beneficiaries to managed care; and variations in offline medicaid payments; and (b) the actions taken to implement any medicaid savings allocation adjustment implemented pursuant to subdivision (4) of this section, including information concerning the impact of such actions on each category of service and each geographic region of the state. Each such monthly report shall be provided to the chairs of the senate finance and the assembly ways and means commit- tees and shall be posted on the department of health's website in a timely manner.
Notwithstanding any provision of law to the contrary, the director of the budget, in consultation with the commissioner of health, may use a payment reduction plan to make across-the-board reductions to the department of health state funds medicaid spending by $373,000,000 for state fiscal year 2020-2021 and \$175,000,000 in state fiscal year 2021-2022 and to limit such spending to the aggre- gate limit specified herein, or reduce the aggregate limit specified herein to provide a reduction to the state's financial plan. Reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal
