b) Where applicable, appropriations made by this chapter for expenditures from federal grants for aid to localities may be allocated for spending from federal grants for any grant period beginning, during, or prior to, the state fiscal year beginning on April 1, 2021 except as otherwise noted.

c) The several amounts named herein, or so much thereof as shall be sufficient to accomplish the purpose designated, being the undisbursed and/or unexpended balances of the prior year's appropriations, are hereby reappropriated from the same funds and made available for the same purposes as the prior year's appropriations, unless herein amended, for

the fiscal year beginning April 1, 2021. Certain reappropriations in
this chapter are shown using abbreviated text, with three leader dots
(an ellipsis) followed by three spaces (... ) used to indicate where
existing law that is being continued is not shown. However, unless a
change is clearly indicated by the use of brackets [ ] for deletions and
underscores for additions, the purposes, amounts, funding source and all
other aspects pertinent to each item of appropriation shall be as last
appropriated.

For the purpose of complying with the state finance law, the year,
chapter and section of the last act reappropriating a former original
appropriation or any part thereof is, unless otherwise indicated, chap-
ter 53, section 1, of the laws of 2020 and, for the department of
health, chapter 50, section 3, of the laws of 2020.

d) No moneys appropriated by this chapter shall be available for
payment until a certificate of approval has been issued by the director
of the budget, who shall file such certificate with the department of
audit and control, the chairperson of the senate finance committee and
the chairperson of the assembly ways and means committee.

e) Notwithstanding any provision of law to the contrary, prior to the
expenditure of any funds received by the Federal government in response
to the COVID-19 public health emergency pursuant to the authority grant-
ed in any appropriation set forth herein, the director of the budget may
require that the agency or public authority making such expenditures
submit an allocation plan to the director of the budget for approval.
Approved allocation plans shall be provided to the president pro tempore
of the senate and the speaker of the assembly within 30 days of
approval. Such allocation plan must comport with any minimum Federal
requirements for the expenditure of such funds.

f) Notwithstanding any provision of law to the contrary, for purposes
of any appropriation made by this chapter which authorizes spending in
an amount net of refunds, rebates, reimbursements, credits, repayments,
and/or disallowances, "refunds" shall mean funds received to the state
resulting from the overpayment of monies, "rebates" shall mean funds
received to the state resulting from a return of a full or partial
amount previously paid, as for goods or services, serving as a
reduction, discount or rebate to the original payment amount,
"reimbursements" shall mean funds received to the state as repayment in
an equivalent amount for goods or services, including but not limited to
personal service costs, incurred by the state in the first instance
being provided to a third party for their benefit and partially or in
full financed by such third party, "credit" shall mean monies made
available to the state that reduce the amount owed to a third party,
including but not limited to billing errors, rebates, and prior overpay-
ments, "repayment" shall mean the return of monies as pay back for
expenses incurred, and "disallowance" shall mean monies made available
to the state that were not allowed or accepted officially by the
intended recipient, based on a determination the payment is not accepta-
ble and/or valid. When the office of the state comptroller receives any
such refunds, rebates, reimbursements, credits, repayments, and/or
disallowances, he or she shall credit the refunded, rebated, reimbursed,
credited, repaid, and disallowed amount back to the original appropri-
ation and reduce expenditures in the year which such credit is received
regardless of the timing of the initial expenditure.

g) Notwithstanding any other provision of law to the contrary, if the
state or any agency thereof incurs any costs associated with administer-
ing the rent regulation program in accordance with subdivision (c) of
section 8 of chapter 576 of the laws of 1974, as amended, for a city having a population of one million or more, the director of the budget may direct any other state agency or agencies making payments to such city, or any department, agency, or instrumentality thereof, to perma-
ently reduce the amount of any other payment or payments owed to such city or any department, agency, or instrumentality thereof pursuant to any appropriation set forth in this chapter. Provided however, that such reduction shall be in an amount equal to the costs incurred by the state or agency thereof in accordance with subdivision (c) of section 8 of chapter 576 of the laws of 1974 and provided further that such direction shall be made in writing by the director of the budget. If the director of the budget makes such direction pursuant to the authority set forth herein, the impacted city shall not make the payments required by subdivi-
sion (c) of section 8 of chapter 576 of the laws of 1974, as amended, and the division of housing and community renewal shall notify such city in writing of what payment or payments will be reduced and the amount of such reduction. To the extent a city of one million or more or any department, agency, or instrumentality thereof is entitled to any cash disbursement authorized by any appropriation contained in this chapter, such entitlement shall be reduced commensurate with reductions in payments made in accordance with this part.

h) Notwithstanding any provision of law to the contrary, upon enact-
ment of this chapter of the laws of 2021 containing the aid to locali-
ties budget bill for the state fiscal year 2021-2022, all appropriations and reappropriations contained in chapter 53 of the laws of 2020, which would otherwise lapse by operation of law on March 31, 2022 are hereby repealed.

i) Notwithstanding any provision contained herein or any other law to the contrary, the budget director may withhold up to 50 percent of funds appropriated herein, including amounts that are to be paid on specific dates prescribed in law or regulation, from any local government entity which has a police agency operating with police officers as defined under 1.20 of the criminal procedure law who, by April 1, 2021, fails to submit to the budget director the certification required by Executive Order 203 issued on June 12, 2020 and titled "New York State Police Reform and Reinvention Collaborative". The Director of the Budget shall discontinue and reverse any withholds made pursuant to this provision upon receipt of the certification required by Executive Order 203. To the extent the State is obligated to make payment to any local govern-
ment entity which has a police agency operating with police officers as defined under 1.20 of the criminal procedure law pursuant to any appro-
priation contained herein, such obligation shall be reduced commensurate with the amount of payments withheld for the amount of time such payments are withheld by the director of the budget pursuant to this provision.

j) The appropriations contained in this chapter shall be available for the fiscal year beginning on April 1, 2021 except as otherwise noted.

ment to the commissioner of education and
the director of the budget on or before
September 3, 2021.

Provided further that such school districts
shall adhere to and complete the
prescribed form accurately and fully, and
shall make such statement publicly avail-
able and on the district website.

Provided further that the director of the
budget shall request in such form only
information that is known to, or may be
ascertained or estimated by, the district.

Provided further that each such local educa-
tional agency shall include in such state-
ment the approach used to allocate funds
to each school and that such statement
shall include but not be limited to sepa-
rate entries for each individual school, demographic data for the school, per pupil
funding level, source of funds, and
uniform decision rules regarding allo-
cation of centralized spending to individ-
ual schools from all funding sources.

Provided further that within 45 days of
submission of such statement by a school
district, the commissioner of education
and director of the budget shall review
such statement and determine whether the
statement is complete and is in the format
required. If such statement is determined
to be complete and in the format required,
a written acknowledgement of such shall be
sent to the school district. If no deter-

education and the director of the budget
within 45 days of submission of the state-
ment, such statement shall be deemed
approved.

Should the commissioner of education or the
director of the budget request additional
information from the school district to
determine completeness, the district shall
submit such requested information to the
commissioner of education and the director
of the budget within 30 days of such
request and the commissioner of education
and director of the budget's deadline for
review and determination shall be extended
by 45 days from the date of submission of
the additional requested information. If
the commissioner of education or director
of the budget determine a school
district's spending statement to be noncompliant, such school district shall be allowed to submit a revised spending statement at any time. Provided further that if a school district fails to submit a statement that is complete and in the format required on or before September 3, 2021 or if the commissioner of education or director of the budget determine the school district's spending statement to be noncompliant, a written explanation shall be provided and the school district will have 30 days to cure. If the school district does not cure within 30 days, at the joint direction of the director of the budget and the commissioner of education, the comptroller of the city in which such school district is situated, or if the city does not have an elected comptroller the chief financial officer of the city, or for school districts not located in a city, the chief financial officer of the town in which the majority of the school district is situated shall be authorized, at his or her discretion, to obtain appropriate information from the school district, and shall be authorized to complete such form and submit such statement to the director of the budget and the commissioner of education for approval. Provided further that where the comptroller or chief financial officer exercises the authority to submit such form, such submission shall occur within 60 days following notification of the school district's failure to cure. Provided further that nothing in the preceding paragraph shall preclude a school district from submitting a spending statement for approval by the director of the budget and the commissioner of education at any time. Provided further that any apportionment withheld pursuant to this appropriation shall not have any effect on the base year calculation for use in the subsequent school year. Notwithstanding any inconsistent provision of law, for the 2021-22 school year, any school district with an underfunded high-
need school shall prioritize all such underfunded high-need schools among its individual schools, and shall submit to the commissioner on or before September 1, 2021 a report specifying how such district effectuated appropriate funding for the underfunded high-need schools. Provided further, on or before May 1, 2021, the director of the budget shall produce a list of underfunded high need schools, as defined herein. Provided, however, that the director of the budget shall exclude from this list schools within district 75 of the city school district of New York, schools that are of the same school type within a district but do not serve any grade levels that overlap, schools serving only students in prekindergarten, or any other schools with irregular or outlying properties.

Provided further, for purposes of this appropriation:

(1) "school type" for any school shall mean elementary, middle, high, pre-k only, or K-12, as defined by the commissioner of education, provided that for purposes of this appropriation, a "middle" school shall include any school with the grade organization of either a middle school or a junior high school, and a "high" school shall include any school with the grade organization of either a senior high school or a junior-senior high school;

(3) "student need index" for any school shall mean the quotient arrived at when dividing the weighted student enrollment as defined herein by the K-12 enrollment for the 2020-21 school year as reported on the statement required for such school year pursuant to section 3614 of the education law;

(4) "average student need index by school type" shall mean the quotient arrived at when dividing the sum of weighted student enrollment as defined herein for all schools within a school district of the same school type by the K-12 enrollment
for the 2020-21 school year for all schools in a school district of the same school type as reported on the statement required for such school year pursuant to section 3614 of the education law;

(5) "weighted student enrollment" for any school shall mean the sum of (i) K-12 enrollment plus (ii) the product of the number of students eligible to receive free and reduced price lunch multiplied by 0.65 plus (iii) the product of the number of English language learners multiplied by 0.5, plus (iv) the product of the number of students with disabilities multiplied by 1.41, for the 2020-21 school year as reported on the statement required for such school year pursuant to section 3614 of the education law;

(6) "significantly high need school" shall mean a school with a student need index greater than the product of the average student need index by school type within the school district multiplied by 1.05;

(7) "per pupil expenditures" for any school shall mean the quotient arrived at when dividing the expenditure amount as reported for the 2020-21 school year in the statement required for such school year pursuant to section 3614 of the education law, excluding expenditures for prekindergarten and preschool special education programs and central district costs by the weighted student enrollment of the school;

(8) "average per pupil expenditures by school type" shall mean the quotient arrived at when dividing (i) the sum of the expenditure amounts reported for the 2020-21 school year in the statement required for such school year pursuant to section 3614 of the education law, excluding expenditures for prekindergarten and preschool special education programs and central district costs, for all schools within a school district of the same school type by (ii) the weighted student enrollment for the 2020-21 school year for all schools in a school district of the same school type as reported on the statement required for such school year pursuant to section 3614 of the education law;
(9) "significantly low funded school" shall mean a school within a school district that has per pupil expenditures less than the product of the average per pupil expenditures by school type within the school district multiplied by 0.95.

Provided further that notwithstanding any provision of law to the contrary, for the 2021-22 school year, the apportionments computed pursuant to subdivisions 5-a, 12 and 16 of section 3602 of the education law shall equal the amounts set forth, respectively, for such school district as "SUPPLEMENTAL PUB EXCESS COST", "ACADEMIC ENHANCEMENT" and "HIGH TAX AID" under the heading "2020-21 ESTIMATED AIDS" in the school aid computer listing produced by the commissioner of education in support of the enacted budget for the 2020-21 school year and entitled "SA202-1".

Provided further that to the extent required by federal law, each board of cooperative educational services receiving a payment pursuant to section 3609-d of the education law in the 2021-22 school year shall be required to set aside from such payment an amount not less than the amount of state aid received pursuant to subdivision 5 of section 1950 of the education law in the base year that was attributable to cooperative services agreements (CO-SERs) for career education, as determined by the commissioner of education, and shall be required to use such amount to support career education programs in the current year.

Provided further that, notwithstanding any inconsistent provision of law, subject to the approval of the director of the budget, funds appropriated herein may be interchanged with any other item of appropriation for general support for public schools within the general fund local assistance account office of prekindergarten through grade 12 education program.

Notwithstanding any other law, rule or regulation to the contrary, funds appropriated herein shall be available for payment of financial assistance net of any disallowances, refunds, reimbursement and credits, and may be suballocated to other departments and agencies to accomplish the

For support of elementary and secondary education from the elementary and secondary school emergency relief fund, as funded by the American rescue plan act of 2021 (P.L. 117-2) providing support for elementary and/or secondary education in response to the COVID-19 public health emergency.

Notwithstanding any provision of law to the contrary, funds not otherwise allocated to local educational agencies pursuant to section 2001(d)(1) of the American rescue plan act of 2021 shall be allocated as follows, pursuant to a plan developed by the commissioner of education and approved by the director of the budget:

(i) $629,214,659 for learning loss grants to eligible school districts to implement (1) evidence-based activities to address learning loss, such as summer learning or summer enrichment, extended day, comprehensive after-school programs, or extended school year programs; (2) evidence-based summer enrichment programs; and (3) evidence-based comprehensive after-school programs; provided that such activities shall respond to students' academic, social, and emotional needs and address the disproportionate impact of the coronavirus on the student subgroups described in section 1111(b)(2)(B)(xi) of the elementary and secondary education act of 1965, students experiencing homelessness, and children and youth in foster care.
Provided that, notwithstanding any provision of law to the contrary, for the 2021-22 school year, eligible school districts shall receive learning loss grants in aid equal to the positive difference, if any, of the base ARPA allocation less 90 percent of the funds from the elementary and secondary school emergency relief fund made available to school districts pursuant to the American rescue plan act of 2021, but not less than $700,000, and not more than $10,000,000 or 10 percent of the total expenditures from the district's general fund for the 2020-21 school year, whichever is less. School districts where the base ARPA allocation is less than or equal to 90 percent of the funds from the elementary and secondary school emergency relief fund made available to school districts pursuant to the American rescue plan act of 2021 shall not be eligible for these grants. Such grant funds shall remain available for obligation by such school districts until the deadline therefor prescribed in federal law. Provided further that, for purposes of this appropriation:

(1) The "base ARPA allocation" shall be equal to the product of the adjusted per pupil amount multiplied by public school district enrollment for the base year as computed pursuant to paragraph n of subdivision 1 of section 3602 of education law. The "adjusted per pupil amount" shall be equal to the product of (a) $4,550.26 multiplied by (b) the regional cost index calculated in 2018, reflecting an analysis of labor market costs based on median salaries in professional occupations that require similar credentials to those of positions in the education field, but not including those occupations in the education field, multiplied by (c) the modified EN index, and multiplied by (d) the learning loss wealth factor.

(2) The "learning loss wealth factor" shall be equal to the positive difference, if any, of 0.75 less the product of 0.5 multiplied by the combined wealth ratio computed pursuant to subparagraph 1 of paragraph c of subdivision 3 of section 3602 of education law.
(3) The "modified EN index" shall be equal to the modified EN percent divided by the statewide average modified EN percent, provided that for the 2021-22 school year, the statewide average modified EN percent shall be equal to 0.5565.

(4) The "modified EN percent" shall be equal to the modified EN count divided by public school district enrollment for the base year computed pursuant to paragraph n of subdivision 1 of section 3602 of education law.

(5) The "modified EN count" shall equal the sum of (a) the product of 0.5 multiplied by the English language learner count computed pursuant to paragraph o of subdivision 1 of section 3602 of education law, plus (b) the sparsity count computed pursuant to paragraph r of subdivision 1 of section 3602 of education law, plus (c) the product of 0.65 multiplied by the 3-year average small area income and poverty estimate rate computed pursuant to paragraph mm of subdivision 1 of section 3602 of education law and multiplied further by public school district enrollment for the base year as computed pursuant to paragraph n of subdivision 1 of section 3602 of education law, plus (d) the product of 0.65 multiplied by the 3-year average economically disadvantaged rate defined pursuant to paragraph ll of subdivision 1 of section 3602 of education law and multiplied further by public school district enrollment for the base year as computed pursuant to paragraph n of subdivision 1 of section 3602 of education law.

Provided further that districts receiving learning loss grants shall use (a) 14.286 percent of such grants for implementation of evidence-based summer enrichment programs; (b) 14.286 percent for implementation of evidence-based comprehensive after-school programs; and (c) the remaining funds for activities to address learning loss by supporting the implementation of evidence-based interventions, such as summer learning or summer enrichment, extended day, comprehensive afterschool programs, or extended school year programs. School districts shall ensure
that such interventions respond to students' academic, social, and emotional needs and address the disproportionate impact of the coronavirus on low-income students, children with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.

(ii) $195,000,000 for new full-day 4-year-old universal prekindergarten expansion grants as prescribed in subdivision 19 of section 3602-e of education law. For purposes of this appropriation, districts shall be eligible to receive a grant amount equal to twice the product of expansion slots multiplied by selected aid per prekindergarten pupil calculated pursuant to subparagraph i of paragraph b of subdivision 10 of section 3602-e of education law for the 2021-22 school year, and provided further that funds paid from this appropriation shall not exceed the total actual grant expenditures incurred by the school district in the current school year as approved by the commissioner. Grantees awarded funds from this appropriation shall comply with all of the same rules and requirements as the universal prekindergarten programs pursuant to section 3602-e of education law. Provided further that, for purposes of this appropriation:

(1) For eligible school districts, the preliminary slot count shall be equal to the positive difference of (1) the product of 0.3504 and unserved 4-year-old prekindergarten pupils calculated pursuant to subparagraph iv of paragraph b of subdivision 10 of section 3602-e of education law less (2) the sum of (a) full day 4-year-old prekindergarten pupils served in the 2019-20 school year served pursuant to section 3602-e of education law plus (b) students served in full-day prekindergarten programs funded by grants pursuant to section 3602-ee of education law in the 2019-20 school year. If such preliminary slot count is less than 10, the expansion slots shall be 0; if such preliminary slot count is greater than or equal to 10 but less than 20, the expansion slots shall be 20; for all other eligible districts, the
expansion slots shall equal the preliminary slot count.

(2) For the 2021-22 school year, school districts shall be eligible for a grant amount if (1) the combined wealth ratio computed pursuant to subparagraph 1 of paragraph c of subdivision 3 of section 3602 of education law is less than 2.0 and (2) the quotient arrived at when dividing (i) the sum of (a) full day and half day 4-year-old prekindergarten pupils served in the 2019-20 school year served pursuant to section 3602-e of education law plus (b) students served in full-day prekindergarten programs funded by grants pursuant to section 3602-ee of education law in the 2019-20 school year by (ii) unserved four-year-old prekindergarten pupils calculated pursuant to subparagraph iv of paragraph b of subdivision 10 of section 3602-e of education law is less than 0.5.

(3) Maintenance of Effort. Where a school district serves fewer 4-year-old prekindergarten pupils in full-day programs funded by the Full-day 4-year-old universal prekindergarten expansion pursuant to this appropriation than the number of expansion slots as defined in this appropriation, the school district shall have its current year Full-day 4-year-old universal prekindergarten expansion payment reduced to an amount equal to the product of (i) the Full-day 4-year-old universal prekindergarten expansion multiplied by (ii) the quotient of 4-year-old prekindergarten pupils served in programs funded by the Full-day 4-year-old universal prekindergarten expansion divided by the number of expansion slots. Provided that funds provided pursuant to this appropriation shall only be used to supplement and not supplant current local expenditures of state or local funds on prekindergarten programs.

(4) Notwithstanding any inconsistent provision of law, for the purposes of determining the prekindergarten allocation on the electronic data file prepared by the commissioner pursuant to subdivision 21 of section 305 of education law for the 2021-22 school year, the commissioner is directed to include the grant amounts
awarded pursuant to this appropriation in

Provided that funds appropriated herein shall only be awarded to school districts which meet the requirements of section 3602-ee of the education law.

Programs shall (i) provide instruction for at least five hours per school day for full-day pre-kindergarten programs; (ii) agree to offer instruction consistent with applicable New York state prekindergarten early learning standards; and (iii) otherwise comply with all of the same rules and requirements as the statewide universal prekindergarten programs pursuant to section 3602-ee of the education law except as modified herein.
Provided further that funds appropriated herein shall only be used to supplement and not supplant current local expenditures of federal, state or local funds on pre-kindergarten programs and the number of placements in such programs from such sources and that current local expenditures shall include any local expenditures of federal, state or local funds used to supplement or extend services provided directly or via contract to eligible children enrolled in a universal pre-kindergarten program in accordance with section 3602-e of the education law.

Notwithstanding any provision of law to the contrary, programs that provide services for fewer than 180 days will be subject to the provisions of subdivision 16 of section 3602-e of the education law.

Notwithstanding any inconsistent provision of law except a chapter of the laws of 2021 authorizing a 1 percent cost of living adjustment increase, but including section 1 of part C of chapter 57 of the laws of 2006, as amended by section 1 of part I of chapter 60 of the laws of 2014, for the period commencing on April 1, 2021 and ending March 31, 2022 the director shall not apply any other cost of living adjustment for the purpose of establishing
rates of payments, contracts or any other
form of reimbursement.

state reimbursement to each social
services district for services identified
herein that are otherwise reimbursable by
the state from April 1, 2021 through March
31, 2022 shall be limited to a district
allocation, hereinafter referred to as the
district's block grant allocation.
Notwithstanding any other provision of
law, such block grant allocation shall be
based, in part, on each district's claims
for such costs, adjusted by the applicable
cost allocation methodology and net of any

determined by the office of children and
family services and approved by the direc-
tor of the budget. Any portion of a social
services district's allocation from funds
appropriated herein not claimed by such
district during the state fiscal year may
be used by such district for expenditures
on preventive services provided pursuant
to section 409-a of the social services
law, independent living services and
aftercare services provided pursuant to
regulations of the department of family
assistance, claimed by such district
during the next state fiscal year up to
the amount remaining from the district's
foster care block grant allocation,
provided however, that any claims for such
services during the next state fiscal year
in excess of such amount shall be subject
to 62 percent state reimbursement exclu-
sive of any federal funds made available
for such purposes, in accordance with
directives of the department of family
assistance and subject to the approval of
the director of the budget. Any claims
submitted by a social services district
for reimbursement for a particular state
fiscal year for which the social services
district does not receive state or federal
reimbursement during that state fiscal
year may not be claimed against that
district's block grant apportionment for the next state fiscal year.

The office of children and family services, with the approval of the director of the budget, may reduce a district's block grant allocation by the state share decrease related to federal retroactive reimbursement for such foster care services identified herein. The office, with the approval of the director of the budget, may reduce a district's block grant allocation by the state share of disallowances or sanctions taken against the district pursuant to the social services law or federal law.

Notwithstanding any other provision of law, the state shall not be responsible for reimbursing a social services district and a district shall not seek state reimbursement for any portion of any state disallowance or sanction taken against the social services district, or any federal disallowance attributable to final federal agency decisions or to settlement made, on or after July 1, 1995, when such disallowance or sanction results from the failure of the social services district to comply with federal or state requirements, including, but not limited to, failure to document eligibility for federal or state funds in the case record; provided, however, if the office determines that any federal disallowance for services provided between January 1, 1999 and May 31, 1999 results solely from the late enactment of the state legislation implementing the federal adoption and safe families act, the state shall be solely responsible for the full amount of the disallowance or sanction; provided, further, however, this provision shall be deemed to apply both prospectively and retroactively regardless of whether such sanctions or disallowances are for services provided or claims made prior to or after April 1, 2021.

Notwithstanding any other provision of law, any federal disallowance resulting from a federal title IV-E eligibility review or audit that uses extrapolated statistic techniques shall be passed along by the state to any and all social services
districts that the office of children and family services has determined have not complied with the title IV-E eligibility requirements or have not taken the necessary actions to ensure compliance with such requirements including, but not limited to, failing to: assess and fully document all the criteria and have readily available all the necessary documents to establish and continue title IV-E eligibility for all title IV-E eligible children within the required time frames; claim title IV-E funding only for cases that meet all of the title IV-E eligibility criteria; and fully implement the social services payment system on or before April 1, 2005 for all direct and voluntary agency foster care services.

Notwithstanding any law to the contrary, the office of children and family services shall impose on social services districts any federal disallowance issued against the state as a result of a federal title IV-E secondary eligibility review regardless of the date the children may have entered foster care, the date the eligibility or payment errors occurred, or the filing date of any federal claims for reimbursement; provided, however, that the state shall be responsible for the disallowed costs and expenditures related to the placement of children in a facility operated by the office of children and family services, which shall be determined in the same manner as the disallowed costs and expenditures for social services districts other than the city of New York. In order to reimburse the federal government for the full amount of any disallowance imposed on the state by the federal administration for children and families within the timeframes necessary to avoid any potential interest payments on such amount, the office of children and family services is authorized to immediately offset funds otherwise due to each district for a pro rata share of the total disallowed costs based on the percentage of applicable federal title IV-E claims made by that district for the relevant time period as compared to the total
applicable statewide title IV-E claims.
The amount of the offset against each
district will be adjusted, if necessary,
upon completion of the disallowance allo-
cation process. The final allocation of
the amount of any federal disallowance
resulting from a title IV-E secondary
eligibility review shall be allocated
among the districts so that each district
shall be responsible for the amount
attributable to each of the district's
children or cases that are determined by
the federal review to be unallowable. Each
district shall also be responsible for a
portion of the federal extrapolated disal-
lowance amount based on the relative error
rate for the district. The city of New
York's error rate will be based on the
federal sample and federal statistics. For
all social services districts other than
the city of New York, the error rate will
be based on a review conducted by the
district of a sample of children and/or
cases determined by the office of children
and family services and a re-review of a
sub-sample by the office of those children
and/or cases determined by the office. The
office of children and family services
will determine what is reasonable in
establishing the size of the sample and
sub-sample for each district. The office
of children and family services shall
notify each social services district of
the sample of children and/or cases from
the federal audit period that the social
services district must review. Any child
or case from the social services district
that was included in the federal sample
will automatically be included in the
social services district's review sample
and the determination made at the federal
review regarding that child or case will
govern for the purposes of the social
services district's review. The social
services district must complete and submit
the results of its review to the office of
children and family services within 60
days of receipt of the sample. The error
rate for the district will be based on the
findings of the district's review and the
office of children and family services'
re-review. If a social services district does not complete its review within 60 days of receiving the sample from the office of children and family services, the office of children and family services shall assign an error rate to the social services district based on the relative percentage of the district's applicable title IV-E claims for the relevant period as compared to applicable statewide title IV-E claims for that period and other circumstances that the office of children and family services may consider in order to allocate 100 percent of the federal disallowance. The office of children and family services shall apply each social services district's error rate to the total amount of the district's applicable title IV-E claims including associated administrative expenses. The resulting dollar amounts for all of the social services districts will be summed to derive the total amount of title IV-E claims deemed to be in error statewide. To establish a disallowance percentage for each social services district, the amount of the district's title IV-E claims deemed to be in error will be divided by the amount of statewide title IV-E claims deemed to be in error. The resulting disallowance percentage for each district will be applied to the entire title IV-E extrapolated disallowance calculated by the federal review to determine the amount of the extrapolated disallowance for which the district is responsible. Each district will be credited for the amount already disallowed for any individual children or cases found to be in error during the federal review. The exclusive appeal rights for the review of the amount of the federal disallowance assigned to each social services district shall be pursuant to article 78 of the civil practice law and rules; provided, however, that in any such action all of the social services districts shall be joined as necessary parties and the venue of any such action shall be in Rensselaer county. Any social services district that fails to complete its sample review in the required time
frames shall have no right to appeal and
shall not be a necessary party to any
action brought by another social services
district.

available for payment of state aid hereto-
fore accrued or hereafter to accrue to

Notwithstanding the provisions of any other law to the contrary, the office of children and family services may, on behalf of social services districts, make payments to foster boarding homes paid directly by social services districts by direct deposit or debit card. Local social services districts shall reimburse the office for the costs of administering such direct deposit or debit card payments.

Notwithstanding any inconsistent provision of the social services law or the state finance law, the office of children and family services shall, on a quarterly basis, request that the office of temporary and disability assistance reimburse the office of children and family services for the non-federal share of the costs of administering such direct deposit or debit card payments to capture the local share of such costs.

the director of the budget, such funds
shall be available to the office net of

notwithstanding any other provision of
law, for a district to receive reimburse-
ment for such services, the amount of
funds that the district expends on such
services from its flexible fund for family
services allocation and any flexible fund
for family services funds transferred at
the district's request to the title XX

formula developed by the office of tempo-
rary and disability assistance and the
office of children and family services and

By chapter 53, section 1, of the laws of 2020:
Notwithstanding any inconsistent provision of law, the amount appropriated herein, shall be available under a foster care block grant for state reimbursement of eligible social services district expenditures for the provision and administration of foster care services including care, maintenance, supervision, and tuition; for supervision of foster children placed in federally funded job corps programs; for care, maintenance, supervision, and tuition for adjudicated juvenile delinquents placed in residential programs operated by authorized agencies and in out-of-state residential programs; and for the provision and administration of the kinship guardian assistance program including kinship guardianship assistance payments and payments for non-recurring guardianship expenses; except that, reimbursement from the amount appropriated herein shall not be available for tuition expenditures for foster children, including persons in need of supervision and adjudicated juvenile delinquents, made by a social services district located within a city having a population of one million or more.
Notwithstanding any other provision of law, a portion of the funds are available to reimburse social services districts for the change in the maximum state aid rates established by the office of children and family services for the 2020-21 rate year pursuant to section 398-a of the social services law and sections 4003 and 4405 of the education law to reflect the continuation of the cost of living adjustments that became effective April 1, 2008 for payments made to foster parents and for salary and fringe benefit costs and other critical nonpersonal services costs for foster care programs as determined by the office. Social services districts must adjust the amount of payments made for care provided by congregate care and foster boarding home programs and to foster parents to reflect the cost of living adjustments in the manner specified by the office.
Each authorized agency operating a congregate care or foster boarding home program in New York state for which the office sets a maximum state aid rate pursuant to section 398-a of the social services law or section 4003 or 4405 of the education law shall submit, at the time and in a manner to be determined by the office, a written certification, attesting that the funds received for the continuation of the cost of living adjustment to the maximum state aid rate that became effective April 1, 2008 for that program will be or were used solely in accordance with the requirements of the cost of living adjustment established by the office.
Notwithstanding any inconsistent provision of law, for the period commencing on April 1, 2020 and ending March 31, 2021 the commissioner shall not apply any cost of living adjustment for the purpose of establishing rates of payments, contracts or any other form of reimbursement.
Within the amounts appropriated herein, state reimbursement to each social services district for services identified herein that are
otherwise reimbursable by the state from April 1, 2020 through March 31, 2021 shall be limited to a district allocation, hereinafter referred to as the district's block grant allocation. Notwithstanding any other provision of law, such block grant allocation shall be based, in part, on each district's claims for such costs, adjusted by the applicable cost allocation methodology and net of any retroactive payments for the 12 month period ending June 30, 2019 that are submitted on or before January 2, 2020 and, in part, on such other factors as determined by the office of children and family services and approved by the director of the budget. Any portion of a social services district's allocation from funds appropriated herein not claimed by such district during the state fiscal year may be used by such district for expenditures on preventive services provided pursuant to section 409-a of the social services law, independent living services and aftercare services provided pursuant to regulations of the department of family assistance, claimed by such district during the next state fiscal year up to the amount remaining from the district's foster care block grant allocation, provided however, that any claims for such services during the next state fiscal year in excess of such amount shall be subject to 62 percent state reimbursement exclusive of any federal funds made available for such purposes, in accordance with directives of the department of family assistance and subject to the approval of the director of the budget. Any claims submitted by a social services district for reimbursement for a particular state fiscal year for which the social services district does not receive state or federal reimbursement during that state fiscal year may not be claimed against that district's block grant apportionment for the next state fiscal year.

The office of children and family services, with the approval of the director of the budget, may reduce a district's block grant allocation by the state share decrease related to federal retroactive reimbursement for such foster care services identified herein. The office, with the approval of the director of the budget, may reduce a district's block grant allocation by the state share of disallowances or sanctions taken against the district pursuant to the social services law or federal law.

Notwithstanding any other provision of law, the state shall not be responsible for reimbursing a social services district and a district shall not seek state reimbursement for any portion of any state disallowance or sanction taken against the social services district, or any federal disallowance attributable to final federal agency decisions or to settlement made, on or after July 1, 1995, when such disallowance or sanction results from the failure of the social services district to comply with federal or state requirements, including, but not limited to, failure to document eligibility for federal or state funds in the case record; provided, however, if the office determines that any federal disallowance for services provided between January 1, 1999 and May 31, 1999 results solely from the late enactment of the state legislation implementing the federal adoption and safe families act, the state shall be sole-
ly responsible for the full amount of the disallowance or sanction; provided, further, however, this provision shall be deemed to apply both prospectively and retroactively regardless of whether such sanctions or disallowances are for services provided or claims made prior to or after April 1, 2020.

Notwithstanding any other provision of law, any federal disallowance resulting from a federal title IV-E eligibility review or audit that uses extrapolated statistic techniques shall be passed along by the state to any and all social services districts that the office of children and family services has determined have not complied with the title IV-E eligibility requirements or have not taken the necessary actions to ensure compliance with such requirements including, but not limited to, failing to: assess and fully document all the criteria and have readily available all the necessary documents to establish and continue title IV-E eligibility for all title IV-E eligible children within the required time frames; claim title IV-E funding only for cases that meet all of the title IV-E eligibility criteria; and fully implement the social services payment system on or before April 1, 2005 for all direct and voluntary agency foster care services.

Notwithstanding any law to the contrary, the office of children and family services shall impose on social services districts any federal disallowance issued against the state as a result of a federal title IV-E secondary eligibility review regardless of the date the children may have entered foster care, the date the eligibility or payment errors occurred, or the filing date of any federal claims for reimbursement; provided, however, that the state shall be responsible for the disallowed costs and expenditures related to the placement of children in a facility operated by the office of children and family services, which shall be determined in the same manner as the disallowed costs and expenditures for social services districts other than the city of New York. In order to reimburse the federal government for the full amount of any disallowance imposed on the state by the federal administration for children and families within the timeframes necessary to avoid any potential interest payments on such amount, the office of children and family services is authorized to immediately offset funds otherwise due to each district for a pro rata share of the total disallowed costs based on the percentage of applicable federal title IV-E claims made by that district for the relevant time period as compared to the total applicable statewide title IV-E claims. The amount of the offset against each district will be adjusted, if necessary, upon completion of the disallowance allocation process. The final allocation of the amount of any federal disallowance resulting from a title IV-E secondary eligibility review shall be allocated among the districts so that each district shall be responsible for the amount attributable to each of the district's children or cases that are determined by the federal review to be unallowable. Each district shall also be responsible for a portion of the federal extrapolated disallowance amount based on the relative error rate for the district. The city of New York's error rate will be based on the
federal sample and federal statistics. For all social services districts other than the city of New York, the error rate will be based on a review conducted by the district of a sample of children and/or cases determined by the office of children and family services and a re-review of a sub-sample by the office of those children and/or cases determined by the office. The office of children and family services will determine what is reasonable in establishing the size of the sample and sub-sample for each district. The office of children and family services shall notify each social services district of the sample of children and/or cases from the federal audit period that the social services district must review. Any child or case from the social services district that was included in the federal sample will automatically be included in the social services district's review sample and the determination made at the federal review regarding that child or case will govern for the purposes of the social services district's review. The social services district must complete and submit the results of its review to the office of children and family services within 60 days of receipt of the sample. The error rate for the district will be based on the findings of the district's review and the office of children and family services' re-review. If a social services district does not complete its review within 60 days of receiving the sample from the office of children and family services, the office of children and family services shall assign an error rate to the social services district based on the relative percentage of the district's applicable title IV-E claims for the relevant period as compared to applicable statewide title IV-E claims for that period and other circumstances that the office of children and family services may consider in order to allocate 100 percent of the federal disallowance. The office of children and family services shall apply each social services district's error rate to the total amount of the district's applicable title IV-E claims including associated administrative expenses. The resulting dollar amounts for all of the social services districts will be summed to derive the total amount of title IV-E claims deemed to be in error statewide. To establish a disallowance percentage for each social services district, the amount of the district's title IV-E claims deemed to be in error will be divided by the amount of statewide title IV-E claims deemed to be in error. The resulting disallowance percentage for each district will be applied to the entire title IV-E extrapolated disallowance calculated by the federal review to determine the amount of the extrapolated disallowance for which the district is responsible. Each district will be credited for the amount already disallowed for any individual children or cases found to be in error during the federal review. The exclusive appeal rights for the review of the amount of the federal disallowance assigned to each social services district shall be pursuant to article 78 of the civil practice law and rules; provided, however, that in any such action all of the social services districts shall be joined as necessary parties and the venue of any such action shall be in Rensselaer county. Any social services district that fails to complete
its sample review in the required time frames shall have no right to appeal and shall not be a necessary party to any action brought by another social services district.

The money hereby appropriated is to be available for payment of state aid heretofore accrued or hereafter to accrue to municipalities. Subject to the approval of the director of the budget, such funds shall be available to the office net of disallowances, refunds, reimbursements, and credits.

Notwithstanding any inconsistent provision of law, the amount herein appropriated may be transferred to any other appropriation within the office of children and family services and/or the office of temporary and disability assistance and/or suballocated to the office of temporary and disability assistance for the purpose of paying local social services districts' costs of the above program and may be increased or decreased by interchange with any other appropriation or with any other item or items within the amounts appropriated within the office of children and family services general fund - local assistance account with the approval of the director of the budget who shall file such approval with the department of audit and control and copies thereof with the chairman of the senate finance committee and the chairman of the assembly ways and means committee.

Notwithstanding any inconsistent provision of law, in lieu of payments authorized by the social services law, or payments of federal funds otherwise due to the local social services districts for programs provided under the federal social security act or the federal food stamp act, funds herein appropriated, in amounts certified by the state comptroller or the state commissioner of health as due from local social services districts each month as their share of payments made pursuant to section 367-b of the social services law may be set aside by the state comptroller in an interest bearing account with such interest accruing to the credit of the locality in order to ensure the orderly and prompt payment of providers under section 367-b of the social services law pursuant to an estimate provided by the commissioner of health of each local social services district's share of payments made pursuant to section 367-b of the social services law.

Notwithstanding the provisions of any other law to the contrary, the office of children and family services may, on behalf of social services districts, make payments to foster boarding homes paid directly by social services districts by direct deposit or debit card. Local social services districts shall reimburse the office for the costs of administering such direct deposit or debit card payments.

Notwithstanding any inconsistent provision of the social services law or the state finance law, the office of children and family services shall, on a quarterly basis, request that the office of temporary and disability assistance reimburse the office of children and family services for the non-federal share of the costs of administering such direct deposit or debit card payments to capture the local share of such costs.
Notwithstanding any other provision of law to the contrary, amounts due and owing to a social services district under this appropriation, may be reduced up to such amounts due and owing to the state under section 529 of the executive law (13997) ......................

Notwithstanding section 153 of the social services law or any other inconsistent provision of law, funds appropriated herein shall reimburse 29 percent of safety net assistance expenditures, including the cost of providing shelter supplements for safety net assistance households at local option, including eligible households containing a household member who has been released from prison, in order to prevent eviction and address homelessness in accordance with social services district plans approved by the office of temporary
and disability assistance and the director
of the budget, provided, however, that in
social services districts with a popu-

to section 131-a of the social services
law. Funds appropriated herein shall also
reimburse 29 percent of safety net assist-

districts with a population over five
million, for emergency shelter, transpor-

that funds appropriated herein may only be
used for such purposes if the cost of such
allowances are not eligible for reimburse-
ment under medical assistance or other

Funds appropriated herein shall reimburse 29
percent of safety net assistance expendi-

Such emergency shelter payments shall only be made at local option and in accordance with a plan approved by the office of temporary and disability assistance and the director of the budget. Provided, however, notwithstanding section 153 of the social services law or any other inconsistent provision of law, if necessary funding, as determined by the director of the budget, is secured in a social services district from the medical assistance program by reducing the capitation rates paid to medicaid managed care organizations by the amount of savings resulting from stably housing individuals living with medically diagnosed HIV infection as defined by the AIDS institute of the state department of health, the social services district shall make such emergency shelter payments in excess of those promulgated by the office of temporary and disability assistance but not exceeding an amount reasonably approximate to 100 percent of fair market rent, and the savings shall be used to reimburse 100 percent of the cost of such excess emergency shelter payments for cases reimbursed under the safety net assistance or
family assistance programs in social services districts with a population of five million or fewer, in accordance with a plan approved by the office of temporary and disability assistance and the director of the budget; provided further that reimbursement shall be provided to medicaid managed care organizations through adjustments to capitation rates should actual gross savings not be realized as determined by the director of the budget.

Such payments of additional rental costs shall only be made at local option and in accordance with a plan approved by the office of temporary and disability assistance and the director of the budget. Provided, however, notwithstanding section 153 of the social services law or any other inconsistent provision of law, if necessary funding, as determined by the director of the budget, is secured in a social services district from the medical assistance program by reducing the capitation rates paid to medicaid managed care organizations by the amount of savings resulting from stably housing individuals living with medically diagnosed HIV infection as defined by the AIDS institute of the state department of health, the
social services district shall make such

For allocation to local social services districts for the flexible fund for family services. Funds shall, without state or local participation, be allocated to local social services districts in accordance with a methodology to be developed by the office of temporary and disability assistance and the office of children and family services and approved by the director of the budget. Such amounts allocated to local social services districts shall hereinafter be referred to as the flexible fund for family services and shall be used for eligible services to eligible individuals under the State plan for the federal temporary assistance for needy families block grant.

Such funds are to be available for payment of aid heretofore accrued or hereafter to accrue to municipalities and, notwithstanding section 153 of the social services law and any inconsistent provision of law, shall constitute the full amount of federal temporary assistance for needy families funds to be paid on account of activities funded in whole or in part hereunder and the full amount of state reimbursement to be paid on account of local district administrative claims. District allocations from the flexible fund for family services may be spent only pursuant to plans of expenditure, developed by each social services district and the local governing body and approved by the office of temporary and disability assistance, the office of children and family services, and the director of the budget. Such allocation shall be available for reimbursement through March 31, 2019; provided, however, that reimbursement for child welfare services other than foster care services shall be available for eligible expenditures incurred on or after October 1, 2015 and before October 1, 2016 that are otherwise reimbursable by the state on or after April 1, 2016 and that are claimed by March 31, 2017.

Notwithstanding any inconsistent provision of law, the amounts so appropriated for allocation to local social services districts, may be used, without state or local financial participation, by social services districts for such district's first eligible expenditures that occurred on or after October 1, 2015, or, subject to the approval of the director of the budget, during any other period beginning on or after January 1, 1997, for tuition costs for foster care children who are eligible for emergency assistance for families in the manner the state was authorized to fund such costs under part A of title IV of the social security act as such part was in effect on September 30, 1995; provided that the funds appropriated herein may not be used to reimburse localities for costs disallowed under title IV-E of the social security act. Such expenditures shall
constitute good cause pursuant to section 408 (a) (10) of the social
security act. Such funds may also be used, without state or local
participation, for care, maintenance, supervision, and tuition for
juvenile delinquents and persons in need of supervision who are
placed in residential programs operated by authorized agencies and
who are eligible for emergency assistance to families in the manner
the state was authorized to fund such costs under part A of title IV
of the social security act as such part was in effect on September
30, 1995. Such expenditures shall constitute good cause pursuant to
section 408 (a) (10) of the social security act. Unless otherwise
approved by the commissioner of the office of children and family
services with the approval of the director of the budget, these
funds may be used only for eligible expenditures made from October
1, 2015 through September 30, 2016. Notwithstanding any inconsistent
provision of law, the funds so appropriated may not be used to reim-
burse localities for costs disallowed under title IV-E of the social
security act.

Notwithstanding any inconsistent provision of law, a social services
district may request that the office of temporary and disability
assistance retain and transfer a portion of the district's allo-

request to the title XX social services block grant shall be used by
the district for eligible title XX social services provided in
accordance with the provisions of the federal social security act
and the social services law to children or their families whose
income is less than 200 percent of the federal poverty level appli-

district's request to the office of children and family services

day care account shall be made available to the district for use for
eligible child care expenditures in accordance with the applicable
provisions of federal law and regulations relating to federal funds
included in the state block grant for child care and in accordance
with applicable state law and regulations of the office of children
and family services. Notwithstanding any other provision of law, any
claims made by a social services district for expenditures made for
child care during a particular federal fiscal year, other than
claims made under title XX of the federal social security act and
under the supplemental nutrition assistance program employment and
training funds, shall be counted against the social services
district's block grant for child care for that federal fiscal year.

Each social services district must certify to the office of children
and family services and the office of temporary and disability assistance, within 90 days of enactment of the budget but before August 15, 2016, the amount of funds it wishes to have transferred under this provision.

Notwithstanding any other provision of law, the amount of the funds that each district expends on child welfare services from its flexible fund for family services funds and any flexible fund for family services funds transferred at the district's request to the title XX social services block grant must, to the extent that families are eligible therefore, be equal to or greater than the district's portion of the $342,322,341 statewide child welfare threshold amount, which shall be established pursuant to a formula developed by the office of temporary and disability assistance and the office of children and family services and approved by the director of the budget.

Notwithstanding any other provision of law including the state finance law and any local procurement law, at the request of a social services district and with the approval of the director of the budget, a portion of the funds appropriated herein may be retained by the office of temporary and disability assistance for any services eligible for funding under the flexible fund for family services for which the applicable state agency has a contractual relationship. expenses for medical assistance programs
and for state administration of medical
assistance programs, notwithstanding
section 153 of the social services law, to
include the performance of eligibility and
enrollment determinations by the state or
third-party entities designated by the
state to perform such services.
14 Notwithstanding any provision of law to the
contrary, subject to the approval of the
director of budget, up to $23,000,000 of
the amount appropriated herein shall be
available for the purpose of providing
payments to local social services
districts for medical assistance adminis-
tration claims that exceed an administra-
tive ceiling established by the commis-
sioner of health.
15 Notwithstanding any inconsistent provision
of law and subject to the approval of the
director of budget, moneys hereby appro-
priated may be increased or decreased by
transfer or interchange between these
appropriated amounts and appropriations of
the medical assistance administration
program, the medical assistance program,
and the office of health insurance
programs. Funding authority from this
account used for state administration of
the medical assistance program may be
transferred to state operations appropri-
ations within the aforementioned programs
at amounts agreed upon by the commissioner
of health, and the New York state division
of the budget.
Notwithstanding section 40 of the state finance law or any other law to the contrary, all medical assistance appropriations made from this account shall remain in full force and effect in accordance, in the aggregate, with the following schedule: not more than 50 percent for the period April 1, 2021 to March 31, 2022 and the remaining amount for the period April 1, 2022 to March 31, 2023.

Notwithstanding section 40 of the state finance law or any provision of law to the contrary, subject to federal approval, department of health state funds medicaid spending, excluding payments for medical services provided at state facilities operated by the office of mental health, the office for people with developmental disabilities and the office of addiction services and supports and further excluding any payments which are not appropriated within the department of health, in the aggregate, for the period April 1, 2021 through March 31, 2022, shall not exceed $23,531,327,000 except as provided below and state share medicaid spending, in the aggregate, for the period April 1, 2022 through March 31, 2023, shall not exceed $25,587,116,000, but in no event shall department of health state funds medicaid spending for the period April 1, 2021 through March 31, 2023 exceed $49,118,443,000 provided, however, such aggregate limits may be adjusted by the director of the budget to account for any changes in the New York state federal medical assistance percentage amount established pursuant to the federal social security act, increases in provider revenues, reductions in local social services district payments for medical assistance administration, minimum wage increases, and beginning April 1, 2012 the operational costs of the New York state medical indemnity fund, pursuant to chapter 59 of the laws of 2011, and state costs or savings from the essential plan program. Such projections may be adjusted by the director of the budget to account for increased or expedited department of health state funds medicaid expenditures as a result of a natural or other type of
disaster, including a governmental declaration of emergency. The director of the budget, in consultation with the commissioner of health, shall assess on a quarterly basis known and projected medicaid expenditures by category of service and by geographic region, as determined by the commissioner of health, incurred both prior to and subsequent to such assessment for each such period, and if the director of the budget determines that such expenditures are expected to cause medicaid spending for such period to exceed the aggregate limit specified herein for such period, the state medicaid director, in consultation with the director of the budget and the commissioner of health, shall develop a medicaid savings allocation adjustment to limit such spending to the aggregate limit specified herein for such period. Such medicaid savings allocation adjustment shall be designed, to reduce the expenditures authorized by the appropriations herein in compliance with the following guidelines: (1) reductions shall be made in compliance with applicable federal law, including the provisions of the Patient Protection and Affordable Care Act, Public Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No. 111-152 (collectively "Affordable Care Act") and any subsequent amendments thereto or regulations promulgated thereunder; (2) reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver authority, to implement the provisions of the medicaid savings allocation adjustment that meets the other criteria set forth herein; (3) reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the
Affordable Care Act; (4) reductions shall be made uniformly among categories of services and geographic regions of the state, to the extent practicable, and shall be made uniformly within a category of service, to the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific categories of services contributed to department of health medicaid state funds spending in excess of the limits specified herein; the need to maintain safety net services in underserved communities; or the potential benefits of pursuing innovative payment models contemplated by the Affordable Care Act, in which case such grounds shall be set forth in the medicaid savings allocation adjustment; and (5) reductions shall be made in a manner that does not unnecessarily create administrative burdens to medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation adjustment, to the extent that all or part of such adjustment, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation adjustment on the department of health's website and shall provide written copies of such adjustment to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

(b) The commissioner may revise the medicaid savings allocation adjustment subsequent to the provisions of notice and prior to implementation but needs to provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that
such revisions materially alter the adjustment. Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this subdivision if, in the discretion of the commissioner, expedited development and implementation of a medicaid savings allocation adjustment is necessary due to a public health emergency. For purposes of this section, a public health emergency is defined as: (i) a disaster, natural or otherwise, that significantly increases the immediate need for health care personnel in an area of the state; (ii) an event or condition that creates a widespread risk of exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or (iii) any other event or condition determined by the commissioner to constitute an imminent threat to public health. Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation adjustment from taking effect retroactively to the extent permitted by the federal centers for medicare and medicaid services. In accordance with the medicaid savings allocation adjustment, the commissioner of the department of health shall reduce department of health state funds medicaid spending by the amount of the projected overspending through, actions including, but not limited to modifying or suspending reimbursement methods, including but not limited to all fees, premium levels and rates of payment, notwithstanding any provision of law that sets a specific amount or methodology for any such payments or rates of payment; modifying medicaid program benefits; seeking all necessary federal approvals, including, but not limited to waivers, waiver amendments; and suspending time frames for notice, approval or certification of rate requirements, notwithstanding any provision of law, rule or regulation to

the contrary, including but not limited to sections 2807 and 3614 of the public health law, section 18 of chapter 2 of the laws of 1988, and 18 NYCRR 505.14(h).

The department of health shall prepare a quarterly report that sets forth: (a) known and projected department of health medicaid expenditures as described in subdivision (1) of this section, and factors that could result in medicaid disbursements for the relevant state fiscal year to exceed the projected department of health state funds disbursements in the enacted budget financial plan pursuant to subdivision 3 of section 23 of the state finance law, including spending increases or decreases due to: enrollment fluctuations, rate changes, utilization changes, MRT investments, and shift of beneficiaries to managed care; and variations in offline medicaid payments; and (b) the actions taken to implement any medicaid savings allocation adjustment implemented pursuant to subdivision (4) of this section, including information concerning the impact of such actions on each category of service and each geographic region of the state. Each such quarterly report shall be provided to the chairs of the senate finance and the assembly ways and means committees and shall be posted on the department of health's website in a timely manner.

The money hereby appropriated is available for payment of liabilities heretofore and hereafter accrued and shall be available to the department net of disallowances, refunds, reimbursements, and credits.

Notwithstanding section 40 of the state finance law or any other law to the contrary, all medical assistance appropriations made from this account shall remain in full force and effect in accordance, in the aggregate, with the following schedule: not more than 48 percent for the period April 1, 2021 to March 31, 2022; and the remaining amount for the period April 1, 2022 to March 31, 2023.

Notwithstanding section 40 of the state finance law or any provision of law to the contrary, subject to federal approval, department of health state funds medicaid spending, excluding payments for medical services provided at state facilities operated by the office of mental health, the office for people with developmental disabilities and the office of addiction services and supports and further excluding any payments which are not appropriated within the department of health, in the aggregate, for the period April 1, 2021 through March 31, 2022, shall not exceed $23,531,327,000 except as provided below and state share medicaid spending, in the aggregate, for the period April 1, 2022 through March 31, 2023, shall not exceed $25,587,116,000, but in no event shall department of health state funds medicaid spending for the period April 1, 2021 through March 31, 2023 exceed $49,118,443,000. Provided, however, such aggregate limits may be adjusted by the director of the budget to account for any changes in the New York state federal medical assistance percentage amount established pursuant to the federal social security act, increases in provider revenues, reductions in local social services district payments for medical assistance administration, minimum wage increases, and beginning April 1, 2012 the operational costs of the New York state medical indemnity fund, pursuant to chapter 59 of the laws of 2011, and state costs or savings from the essential plan program. Such projections may be adjusted by the director of the budget to account for increased or expedited department of health state funds medicaid expenditures as a result of a natural or other type of
disaster, including a governmental declaration of emergency.

The director of the budget, in consultation with the commissioner of health, shall assess on a quarterly basis known and projected medicaid expenditures by category of service and by geographic region, as defined by the commissioner, incurred both prior to and subsequent to such assessment for each such period, and if the director of the budget determines that such expenditures are expected to cause medicaid spending for such period to exceed the aggregate limit specified herein for such period, the state medicaid director, in consultation with the director of the budget and the commissioner of health, shall develop a medicaid savings allocation adjustment to limit such spending to the aggregate limit specified herein for such period.

Such medicaid savings allocation adjustment shall be designed, to reduce the expenditures authorized by the appropriations herein in compliance with the following guidelines: (1) reductions shall be made in compliance with applicable federal law, including the provisions of the Patient Protection and Affordable Care Act, Public Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No. 111-152 (collectively "Affordable Care Act") and any subsequent amendments thereto or regulations promulgated thereunder; (2) reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver authority, to implement the provisions of the medicaid savings allocation adjustment that meets the other criteria set forth herein; (3) reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the
Affordable Care Act; (4) reductions shall be made uniformly among categories of services and geographic regions of the state, to the extent practicable, and shall be made uniformly within a category of service, to the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific categories of services contributed to department of health medicaid state funds spending in excess of the limits specified herein; the need to maintain safety net services in underserved communities; or the potential benefits of pursuing innovative payment models contemplated by the Affordable Care Act, in which case such grounds shall be set forth in the medicaid savings allocation adjustment; and (5) reductions shall be made in a manner that does not unnecessarily create administrative burdens to medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation adjustment, to the extent that all or part of such adjustment, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation adjustment on the department of health's website and shall provide written copies of such adjustment to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

(b) The commissioner may revise the medicaid savings allocation adjustment subsequent to the provisions of notice and prior to implementation but needs to provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that
such revisions materially alter the adjustment.

Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this subdivision if, in the discretion of the commissioner, expedited development and implementation of a medicaid savings allocation adjustment is necessary due to a public health emergency.

For purposes of this section, a public health emergency is defined as: (i) a disaster, natural or otherwise, that significantly increases the immediate need for health care personnel in an area of the state; (ii) an event or condition that creates a widespread risk of exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or (iii) any other event or condition determined by the commissioner to constitute an imminent threat to public health.

Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation adjustment from taking effect retroactively to the extent permitted by the federal centers for medicare and medicaid services.

In accordance with the medicaid savings allocation adjustment, the commissioner of the department of health shall reduce department of health state funds medicaid spending by the amount of the projected overspending through, actions including, but not limited to modifying or suspending reimbursement methods, including but not limited to all fees, premium levels and rates of payment, notwithstanding any provision of law that sets a specific amount or methodology for any such payments or rates of payment; modifying or discontinuing medicaid program benefits; seeking all necessary federal approvals, including, but not limited to waivers, waiver amendments; and suspending time frames for notice, approval or certification of rate requirements, notwithstanding any provision of law, rule or
regulation to the contrary, including but
not limited to sections 2807 and 3614 of
the public health law, section 18 of chap-
ter 2 of the laws of 1988, and 18 NYCRR
505.14(h).

The department of health shall prepare a
quarterly report that sets forth: (a)
known and projected department of health
medicaid expenditures as described in
subdivision (1) of this section, and
factors that could result in medicaid
disbursements for the relevant state
fiscal year to exceed the projected
department of health state funds disburse-
ments in the enacted budget financial plan
pursuant to subdivision 3 of section 23 of
the state finance law, including spending
increases or decreases due to: enrollment
fluctuations, rate changes, utilization
changes, MRT investments, and shift of
beneficiaries to managed care; and vari-
atations in offline medicaid payments; and
(b) the actions taken to implement any
medicaid savings allocation adjustment
implemented pursuant to subdivision (4) of
this section, including information
concerning the impact of such actions on
each category of service and each
geographic region of the state. Each such
quarterly report shall be provided to the
chairs of the senate finance and the
assembly ways and means committees and
shall be posted on the department of
health's website in a timely manner.

The money hereby appropriated is to be
available for payment of aid heretofore
accrued or hereafter accrued to munici-

below and state share medicaid spending,
in the aggregate, for the period April 1,
2022 through March 31, 2023, shall not
exceed $25,587,116,000, but in no event
shall department of health state funds
medicaid spending for the period April 1,
2021 through March 31, 2023 exceed
$49,118,443,000 provided, however, such
aggregate limits may be adjusted by the
director of the budget to account for any
changes in the New York state federal
medical assistance percentage amount
established pursuant to the federal social
security act, increases in provider reven-
ues, reductions in local social services
district payments for medical assistance
administration, minimum wage increases and
beginning April 1, 2012 the operational
costs of the New York state medical indem-
nity fund, pursuant to chapter 59 of the
laws of 2011, and state costs or savings
from the essential plan program. Such
projections may be adjusted by the direc-
tor of the budget to account for increased
or expedited department of health state
funds medicaid expenditures as a result of
a natural or other type of disaster, including a governmental declaration of
emergency.
The director of the budget, in consultation
with the commissioner of health, shall
assess on a quarterly basis known and
projected medicaid expenditures by catego-
ry of service and by geographic region, as
determined by the commissioner of health,
incurred both prior to and subsequent to
such assessment for each such period, and
if the director of the budget determines
that such expenditures are expected to
cause medicaid spending for such period to
exceed the aggregate limit specified here-
in for such period, the state medicaid
director, in consultation with the direc-
tor of the budget and the commissioner of
health, shall develop a medicaid savings allocation adjustment to limit such spend-
ing to the aggregate limit specified here-
in for such period.

Such medicaid savings allocation adjustment shall be designed, to reduce the expendi-
tures authorized by the appropriations herein in compliance with the following guidelines: (1) reductions shall be made in compliance with applicable federal law, including the provisions of the Patient Protection and Affordable Care Act, Public Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No. 111-152 (collectively "Affordable Care Act") and any subsequent amendments thereto or regulations promul-
gated thereunder; (2) reductions shall be made in a manner that complies with the state medicaid plan approved by the feder-
al centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver authority, to implement the provisions of the medicaid savings allocation adjustment that meets the other criteria set forth herein; (3) reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial partic-
ipation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the Affordable Care Act; (4) reductions shall be made uniformly among categories of services and geographic regions of the state, to the extent practicable, and shall be made uniformly within a category of service, to the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific catego-
ries of services contributed to department of health medicaid state funds spending in excess of the limits specified herein; the need to maintain safety net services in underserved communities; or the potential benefits of pursuing innovative payment models contemplated by the Affordable Care
Act, in which case such grounds shall be set forth in the medicaid savings allocation adjustment; and (5) reductions shall be made in a manner that does not unnecessarily create administrative burdens to medicaid applicants and recipients or providers. The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation adjustment, to the extent that all or part of such adjustment, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state. (a) The commissioner shall post the medicaid savings allocation adjustment on the department of health's website and shall provide written copies of such plan to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin. (b) The commissioner may revise the medicaid savings allocation adjustment subsequent to the provisions of notice and prior to implementation but needs to provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that such revisions materially alter the plan. Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this subdivision if, in the discretion of the commissioner, expedited development and implementation of a medicaid savings allocation adjustment is necessary due to a public health emergency. For purposes of this section, a public health emergency is defined as: (i) a disaster, natural or otherwise, that significantly increases the immediate need for health care personnel in an area of
the state; (ii) an event or condition that
creates a widespread risk of exposure to a
serious communicable disease, or the
potential for such widespread risk of
exposure; or (iii) any other event or
condition determined by the commissioner
to constitute an imminent threat to public
health.

Nothing in this paragraph shall be deemed to
prevent all or part of such medicaid
savings allocation adjustment from taking
effect retroactively to the extent permit-
ted by the federal centers for medicare
and medicaid services.

In accordance with the medicaid savings
allocation adjustment, the commissioner of
the department of health shall reduce
department of health state funds medicaid
spending by the amount of the projected
overspending through, actions including,
but not limited to modifying or suspending
reimbursement methods, including but not
limited to all fees, premium levels and
rates of payment, notwithstanding any
provision of law that sets a specific
amount or methodology for any such
payments or rates of payment; modifying
medicaid program benefits; seeking all
necessary federal approvals, including,
but not limited to waivers, waiver amend-
ments; and suspending time frames for
notice, approval or certification of rate
requirements, notwithstanding any
provision of law, rule or regulation to
the contrary, including but not limited to
sections 2807 and 3614 of the public
health law, section 18 of chapter 2 of the
laws of 1988, and 18 NYCRR 505.14(h).

The department of health shall prepare a
quarterly report that sets forth: (a)
known and projected department of health
medicaid expenditures as described in

Notwithstanding any provision of law to the contrary, the director of the budget, in consultation with the commissioner of health, may use a payment reduction plan to make across-the-board reductions to the department of health state funds medicaid spending by $373,000,000 for state fiscal year 2021-2022 and $373,000,000 in state fiscal year 2022-2023 to limit such spending to the aggregate limit specified herein, or reduce the aggregate limit specified herein to provide a reduction to the state's financial plan. Notwithstanding section 40 of the state finance law or any other law to the contrary, all medical assistance appropriations made from this account shall remain in full force and effect in accordance, in the aggregate, with the following schedule: not more than 51 percent for the period April 1, 2021 to March 31, 2022; and the remaining amount for the period April 1, 2022 to March 31, 2023.

Notwithstanding section 40 of the state finance law or any provision of law to the contrary, subject to federal approval, department of health state funds medicaid
spending, excluding payments for medical services provided at state facilities operated by the office of mental health, the office for people with developmental disabilities and the office of addiction services and supports and further excluding any payments which are not appropriated within the department of health, in the aggregate, for the period April 1, 2021 through March 31, 2022, shall not exceed $23,531,327,000 except as provided below and state share medicaid spending, in the aggregate, for the period April 1, 2022 through March 31, 2023, shall not exceed $25,587,116,000, but in no event shall department of health state funds medicaid spending for the period April 1, 2021 through March 31, 2023 exceed $49,118,443,000 provided, however, such aggregate limits may be adjusted by the director of the budget to account for any changes in the New York state federal medical assistance percentage amount established pursuant to the federal social security act, increases in provider revenues, reductions in local social services district payments for medical assistance administration, minimum wage increases and beginning April 1, 2012 the operational costs of the New York state medical indemnity fund, pursuant to chapter 59 of the laws of 2011, and state costs or savings from the essential plan. Such projections may be adjusted by the director of the budget to account for increased or expedited department of health state funds medicaid expenditures as a result of a natural or other type of disaster, including a governmental declaration of emergency.

The director of the budget, in consultation with the commissioner of health, shall assess on a quarterly basis known and projected medicaid expenditures by category of service and by geographic region, as determined by the commissioner of health, incurred both prior to and subsequent to such assessment for each such period, and if the director of the budget determines that such expenditures are expected to cause medicaid spending for such period to exceed the aggregate limit specified here-
in for such period, the state medicaid director, in consultation with the director of the budget and the commissioner of health, shall develop a medicaid savings allocation adjustment to limit such spending to the aggregate limit specified herein for such period.

Such medicaid savings allocation adjustment shall be designed, to reduce the expenditures authorized by the appropriations herein in compliance with the following guidelines: (1) reductions shall be made in compliance with applicable federal law, including the provisions of the Patient Protection and Affordable Care Act, Public Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No. 111-152 (collectively "Affordable Care Act") and any subsequent amendments thereto or regulations promulgated thereunder; (2) reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver authority, to implement the provisions of the medicaid savings allocation adjustment that meets the other criteria set forth herein; (3) reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the Affordable Care Act; (4) reductions shall be made uniformly among categories of services and geographic regions of the state, to the extent practicable, and shall be made uniformly within a category of service, to the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific categories of services contributed to department of health medicaid state funds spending in excess of the limits specified herein; the need to maintain safety net services in
underserved communities; or the potential benefits of pursuing innovative payment models contemplated by the Affordable Care Act, in which case such grounds shall be set forth in the medicaid savings allocation adjustment; and (5) reductions shall be made in a manner that does not unnecessarily create administrative burdens to medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation adjustment, to the extent that all or part of such adjustment, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation adjustment on the department of health's website and shall provide written copies of such plan to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

(b) The commissioner may revise the medicaid savings allocation adjustment subsequent to the provisions of notice and prior to implementation but needs to provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that such revisions materially alter the plan.

Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this subdivision if, in the discretion of the commissioner, expedited development and implementation of a medicaid savings allocation adjustment is necessary due to a public health emergency.

For purposes of this section, a public health emergency is defined as: (i) a
disaster, natural or otherwise, that significantly increases the immediate need for health care personnel in an area of the state; (ii) an event or condition that creates a widespread risk of exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or (iii) any other event or condition determined by the commissioner to constitute an imminent threat to public health.

Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation adjustment from taking effect retroactively to the extent permitted by the federal centers for medicare and medicaid services.

In accordance with the medicaid savings allocation adjustment, the commissioner of the department of health shall reduce department of health state funds medicaid spending by the amount of the projected overspending through, actions including, but not limited to modifying or suspending reimbursement methods, including but not limited to all fees, premium levels and rates of payment, notwithstanding any provision of law that sets a specific amount or methodology for any such payments or rates of payment; modifying medicaid program benefits; seeking all necessary federal approvals, including, but not limited to waivers, waiver amendments; and suspending time frames for notice, approval or certification of rate requirements, notwithstanding any provision of law, rule or regulation to the contrary, including but not limited to sections 2807 and 3614 of the public health law, section 18 of chapter 2 of the laws of 1988, and 18 NYCRR 505.14(h).

The department of health shall prepare a quarterly report that sets forth: (a) known and projected department of health medicaid expenditures as described in subdivision (1) of this section, and factors that could result in medicaid disbursements for the relevant state fiscal year to exceed the projected department of health state funds disbursements in the enacted budget financial plan pursuant to subdivision 3 of section 23 of
the state finance law, including spending
increases or decreases due to: enrollment
fluctuations, rate changes, utilization
changes, MRT investments, and shift of
beneficiaries to managed care; and vari-
ations in offline medicaid payments; and
(b) the actions taken to implement any
medicaid savings allocation adjustment
implemented pursuant to subdivision (4) of
this section, including information
concerning the impact of such actions on
each category of service and each
geographic region of the state. Each such
quarterly report shall be provided to the
chairs of the senate finance and the
assembly ways and means committees and
shall be posted on the department of
health's website in a timely manner.
For the purpose of making payments, the
money hereby appropriated is available for
payment of aid heretofore accrued or here-
after accrued, to providers of medical
care pursuant to section 367-b of the
social services law, and for payment of
state aid to municipalities and the feder-
gal government where payment systems
through fiscal intermediaries are not
operational, to reimburse such providers
for costs attributable to the provision of
care to patients eligible for medical
assistance. Notwithstanding any inconsist-
ten provision of law, the moneys hereby
appropriated may be increased or decreased
by interchange or transfer with any appro-
priation of the department of health with
the approval of the director of the budg-
et, who shall file such approval with the
department of audit and control and copies
terof with the chairman of the senate
finance committee and the chairman of the
assembly ways and means committee.
Notwithstanding any provision of law to the
contrary, the director of the budget, in
consultation with the commissioner of
health, may use a payment reduction plan
to make across-the-board reductions to the
department of health state funds medicaid
spending by $373,000,000 for state fiscal
year 2021-2022 and $373,000,000 in state
fiscal year 2022-2023 to limit such spend-
ing to the aggregate limit specified here-
in, or reduce the aggregate limit speci-
fied herein to provide a reduction to the
state's financial plan. Reductions shall
be made in a manner that complies with the
state medicaid plan approved by the feder-
al centers for medicare and medicaid
services, provided, however, that the
commissioner of health is authorized to
submit any state plan amendment or seek
other federal approval to implement the
provisions of the medicaid payment
reduction plan. For services and expenses

34 period April 1, 2021 to March 31, 2022;

48ated within the department of health, in
49 the aggregate, for the period April 1,
50 2021 through March 31, 2022, shall not
exceed $23,531,327,000 except as provided
below and state share medicaid spending,
in the aggregate, for the period April 1,
2022 through March 31, 2023, shall not
exceed $25,587,116,000, but in no event
shall department of health state funds
medicaid spending for the period April 1,
2021 through March 31, 2023 exceed
$49,118,443,000 provided, however, such
aggregate limits may be adjusted by the
director of the budget to account for any
changes in the New York state federal
medical assistance percentage amount
established pursuant to the federal social
security act, increases in provider reven-
ues, reductions in local social services
district payments for medical assistance
administration, minimum wage increases and
beginning April 1, 2012 the operational
costs of the New York state medical indem-
nity fund, pursuant to chapter 59 of the
laws of 2011, and state costs or savings
from the essential plan. Such projections
may be adjusted by the director of the
budget to account for increased or expen-
dited department of health state funds
medicaid expenditures as a result of a
natural or other type of disaster, includ-
ing a governmental declaration of emergen-
cy.

The director of the budget, in consultation
with the commissioner of health, shall
assess on a quarterly basis known and
projected medicaid expenditures by catego-
ry of service and by geographic region, as
determined by the commissioner of health,
incurred both prior to and subsequent to
such assessment for each such period, and
if the director of the budget determines
that such expenditures are expected to
cause medicaid spending for such period to
exceed the aggregate limit specified here-
in for such period, the state medicaid
director, in consultation with the direc-
tor of the budget and the commissioner of
health, shall develop a medicaid savings
allocation adjustment to limit such spend-
ing to the aggregate limit specified here-
in for such period.

Such medicaid savings allocation adjustment
shall be designed, to reduce the expendi-
tures authorized by the appropriations
herein in compliance with the following guidelines: (1) reductions shall be made in compliance with applicable federal law, including the provisions of the Patient Protection and Affordable Care Act, Public Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No. 111-152 (collectively "Affordable Care Act") and any subsequent amendments thereto or regulations promulgated thereunder; (2) reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver authority, to implement the provisions of the medicaid savings allocation adjustment that meets the other criteria set forth herein; (3) reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the Affordable Care Act; (4) reductions shall be made uniformly among categories of services and geographic regions of the state, to the extent practicable, and shall be made uniformly within a category of service, to the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific categories of services contributed to departmental medicaid state funds spending in excess of the limits specified herein; the need to maintain safety net services in underserved communities; or the potential benefits of pursuing innovative payment models contemplated by the Affordable Care Act, in which case such grounds shall be set forth in the medicaid savings allocation adjustment; and (5) reductions shall be made in a manner that does not unnecessarily create administrative burdens to medicaid applicants and recipients or providers.
The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation adjustment, to the extent that all or part of such adjustment, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation adjustment on the department of health's website and shall provide written copies of such plan to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

(b) The commissioner may revise the medicaid savings allocation adjustment subsequent to the provisions of notice and prior to implementation but needs to provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that such revisions materially alter the plan.

Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this subdivision if, in the discretion of the commissioner, expedited development and implementation of a medicaid savings allocation adjustment is necessary due to a public health emergency.

For purposes of this section, a public health emergency is defined as: (i) a disaster, natural or otherwise, that significantly increases the immediate need for health care personnel in an area of the state; (ii) an event or condition that creates a widespread risk of exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or (iii) any other event or condition determined by the commissioner.
to constitute an imminent threat to public health.

Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation adjustment from taking effect retroactively to the extent permitted by the federal centers for medicare and medicaid services.

In accordance with the medicaid savings allocation adjustment, the commissioner of the department of health shall reduce department of health state funds medicaid spending by the amount of the projected overspending through, actions including, but not limited to modifying or suspending reimbursement methods, including but not limited to all fees, premium levels and rates of payment, notwithstanding any provision of law that sets a specific amount or methodology for any such payments or rates of payment; modifying medicaid program benefits; seeking all necessary federal approvals, including, but not limited to waivers, waiver amendments; and suspending time frames for notice, approval or certification of rate requirements, notwithstanding any provision of law, rule or regulation to the contrary, including but not limited to sections 2807 and 3614 of the public health law, section 18 of chapter 2 of the laws of 1988, and 18 NYCRR 505.14(h).

The department of health shall prepare a quarterly report that sets forth: (a) known and projected department of health medicaid expenditures as described in subdivision (1) of this section, and factors that could result in medicaid disbursements for the relevant state fiscal year to exceed the projected department of health state funds disbursements in the enacted budget financial plan pursuant to subdivision 3 of section 23 of the state finance law, including spending increases or decreases due to: enrollment fluctuations, rate changes, utilization changes, MRT investments, and shift of beneficiaries to managed care; and variations in offline medicaid payments; and (b) the actions taken to implement any medicaid savings allocation adjustment implemented pursuant to subdivision (4) of
this section, including information concerning the impact of such actions on each category of service and each geographic region of the state. Each such quarterly report shall be provided to the chairs of the senate finance and the assembly ways and means committees and shall be posted on the department of health's website in a timely manner. Notwithstanding any provision of law to the contrary, the director of the budget, in consultation with the commissioner of health, may use a payment reduction plan to make across-the-board reductions to the department of health state funds medicaid spending by $373,000,000 for state fiscal year 2021-2022 and $373,000,000 in state fiscal year 2022-2023 and to limit such spending to the aggregate limit specified herein, or reduce the aggregate limit specified herein to provide a reduction to the state's financial plan. Reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval to implement the provisions of the medicaid payment reduction adjustment. For the purpose of making payments to providers of medical care pursuant to section 367-b of the social services law, and for payment of state aid to municipalities and the federal government where payment systems through fiscal intermediaries are not operational, to reimburse the provision of care to patients eligible for medical assistance. For services and expenses of the medical assistance program including nursing home, personal care, certified home health agency, long term home health care program and hospital services. Local Assistance Account - 10000

33 The appropriation made by chapter 53, section 1, of the laws of 2020, as
34 added by chapter 50, section 3, of the laws of 2020, is hereby
35 amended and reappropriated to read:
36 For reimbursement of local administrative expenses for medical assist-
37 ance programs and for state administration of medical assistance
38 programs, notwithstanding section 153 of the social services law, to
39 include the performance of eligibility and enrollment determinations
40 by the state or third-party entities designated by the state to
41 perform such services.
42 Notwithstanding any provision of law to the contrary, subject to the
43 approval of the director of budget, up to $23,000,000 of the amount
44 appropriated herein shall be available for the purpose of providing
45 payments to local social services districts for medical assistance
administration claims that exceed an administrative ceiling established by the commissioner of health. Notwithstanding any inconsistent provision of law and subject to the approval of the director of budget, moneys hereby appropriated may be increased or decreased by transfer or interchange between these appropriated amounts and appropriations of the medical assistance administration program, the medical assistance program, and the office of health insurance programs. Funding authority from this account used for state administration of the medical assistance program may be transferred to state operations appropriations within the aforementioned programs at amounts agreed upon by the commissioner of health, and the New York state division of the budget. Notwithstanding section 40 of the state finance law or any other law to the contrary, all medical assistance appropriations made from this account shall remain in full force and effect in accordance, in the aggregate, with the following schedule: not more than 50 percent for the period April 1, 2020 to March 31, 2021; and the remaining amount for the period April 1, 2021 to September 15, 2022.

Notwithstanding section 40 of the state finance law or any provision of law to the contrary, subject to federal approval, department of health state funds medicaid spending, excluding payments for medical services provided at state facilities operated by the office of mental health, the office for people with developmental disabilities and the office of addiction services and supports and further excluding any payments which are not appropriated within the department of health, in the aggregate, for the period April 1, 2020 through March 31, 2021, shall not exceed $23,606,772,000 except as provided below and state share medicaid spending, in the aggregate, for the period April 1, 2021 through September 15, 2022, shall not exceed $24,598,493,000 but in no event shall department of health state funds medicaid spending for the period April 1, 2020 through September 15, 2022 exceed $44,205,265,000 provided, however, such aggregate limits may be adjusted by the director of the budget to account for any changes in the New York state federal medical assistance percentage amount established pursuant to the federal social security act, increases in provider revenues, reductions in local social services district payments for medical assistance administration, minimum wage increases, and beginning April 1, 2012 the operational costs of the New York state medical indemnity fund, pursuant to chapter 59 of the laws of 2011, and state costs or savings from the essential plan program. Such projections may be adjusted by the director of the budget to account for increased or expedited department of health state funds medicaid expenditures as a result of a natural or other type of disaster, including a governmental declaration of emergency.

The director of the budget, in consultation with the commissioner of health, shall assess on a [monthly] quarterly basis known and projected medicaid expenditures by category of service and by geographic region, as determined by the commissioner of health, incurred both prior to and subsequent to such assessment for each
such period, and if the director of the budget determines that such expenditures are expected to cause medicaid spending for such period to exceed the aggregate limit specified herein for such period, the state medicaid director, in consultation with the director of the budget and the commissioner of health, shall develop a medicaid savings allocation adjustment to limit such spending to the aggregate limit specified herein for such period. Such medicaid savings allocation adjustment shall be designed, to reduce the expenditures authorized by the appropriations herein in compliance with the following guidelines: (1) reductions shall be made in compliance with applicable federal law, including the provisions of the Patient Protection and Affordable Care Act, Public Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No. 111-152 (collectively "Affordable Care Act") and any subsequent amendments thereto or regulations promulgated thereunder; (2) reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver authority, to implement the provisions of the medicaid savings allocation adjustment that meets the other criteria set forth herein; (3) reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the Affordable Care Act; (4) reductions shall be made uniformly among categories of services and geographic regions of the state, to the extent practicable, and shall be made uniformly within a category of service, to the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific categories of services contributed to department of health medicaid state funds spending in excess of the limits specified herein; the need to maintain safety net services in underserved communities; or the potential benefits of pursuing innovative payment models contemplated by the Affordable Care Act, in which case such grounds shall be set forth in the medicaid savings allocation adjustment; and (5) reductions shall be made in a manner that does not unnecessarily create administrative burdens to medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation adjustment, to the extent that all or part of such adjustment, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation adjustment on the department of health's website and shall provide written copies of such adjustment to the chairs of the senate...
finance and the assembly ways and means committees at least 30 days
before the date on which implementation is expected to begin.
(b) The commissioner may revise the medicaid savings allocation
adjustment subsequent to the provisions of notice and prior to
implementation but needs to provide a new notice pursuant to subpar-
agraph (i) of this paragraph only if the commissioner determines, in
his or her discretion, that such revisions materially alter the
adjustment.
Notwithstanding the provisions of paragraphs (a) and (b) of this
subdivision, the commissioner need not seek the input described in
paragraph (a) of this subdivision or provide notice pursuant to
paragraph (b) of this subdivision if, in the discretion of the
commissioner, expedited development and implementation of a medicaid
savings allocation adjustment is necessary due to a public health
emergency.
For purposes of this section, a public health emergency is defined as:
(i) a disaster, natural or otherwise, that significantly increases
the immediate need for health care personnel in an area of the
state; (ii) an event or condition that creates a widespread risk of
exposure to a serious communicable disease, or the potential for
such widespread risk of exposure; or (iii) any other event or condi-
tion determined by the commissioner to constitute an imminent threat
to public health.
Nothing in this paragraph shall be deemed to prevent all or part of
such medicaid savings allocation adjustment from taking effect
retroactively to the extent permitted by the federal centers for
medicare and medicaid services.
In accordance with the medicaid savings allocation adjustment, the
commissioner of the department of health shall reduce department of
health state funds medicaid spending by the amount of the projected
overspending through, actions including, but not limited to modify-
ing or suspending reimbursement methods, including but not limited
to all fees, premium levels and rates of payment, notwithstanding
any provision of law that sets a specific amount or methodology for
any such payments or rates of payment; modifying medicaid program
benefits; seeking all necessary federal approvals, including, but
not limited to waivers, waiver amendments; and suspending time
frames for notice, approval or certification of rate requirements,
notwithstanding any provision of law, rule or regulation to the
contrary, including but not limited to sections 2807 and 3614 of the
public health law, section 18 of chapter 2 of the laws of 1988, and
18 NYCRR 505.14(h).
The department of health shall prepare a [monthly] quarterly report
that sets forth: (a) known and projected department of health medi-
caid expenditures as described in subdivision (1) of this section,
and factors that could result in medicaid disbursements for the
relevant state fiscal year to exceed the projected department of
health state funds disbursements in the enacted budget financial
plan pursuant to subdivision 3 of section 23 of the state finance
law, including spending increases or decreases due to: enrollment
fluctuations, rate changes, utilization changes, MRT investments,
and shift of beneficiaries to managed care; and variations in

any medicaid savings allocation adjustment implemented pursuant to
subdivision (4) of this section, including information concerning
the impact of such actions on each category of service and each
geographic region of the state. Each such [monthly] quarterly report
shall be provided to the chairs of the senate finance and the assem-
bly ways and means committees and shall be posted on the department
of health's website in a timely manner.

fore accrued or hereafter accrued to municipalities, and to provid-
ers of medical services pursuant to section 367-b of the social

medicaid plan approved by the federal centers for medicare and medi-
caid services, provided, however, that the commissioner of health is

to the contrary, all medical assistance appropriations made from
this account shall remain in full force and effect in accordance, in
the aggregate, with the following schedule: not more than 49 percent
for the period April 1, 2020 to March 31, 2021; and the remaining
amount for the period April 1, 2021 to [March 31,] September 15,
2022.
Notwithstanding section 40 of the state finance law or any provision
of law to the contrary, subject to federal approval, department of
health state funds medicaid spending, excluding payments for medical
services provided at state facilities operated by the office of
mental health, the office for people with developmental disabilities
and the office of addiction services and supports and further
excluding any payments which are not appropriated within the depart-
ment of health, in the aggregate, for the period April 1, 2020
through March 31, 2021, shall not exceed $23,606,772,000 except as
provided below and state share medicaid spending, in the aggregate, for the period April 1, 2021 through [March 31,] September 15, 2022, shall not exceed [[$24,598,493,000]] $23,531,327,000, but in no event shall department of health state funds medicaid spending for the period April 1, 2020 through [March 31,] September 15, 2022 exceed [[$48,205,265,000]] $47,138,099,000. Provided, however, such aggregate limits may be adjusted by the director of the budget to account for any changes in the New York state federal medical assistance percentage amount established pursuant to the federal social security act, increases in provider revenues, reductions in local social services district payments for medical assistance administration, minimum wage increases, and beginning April 1, 2012 the operational costs of the New York state medical indemnity fund, pursuant to chapter 59 of the laws of 2011, and state costs or savings from the essential plan program. Such projections may be adjusted by the director of the budget to account for increased or expedited department of health state funds medicaid expenditures as a result of a natural or other type of disaster, including a governmental declaration of emergency.

The director of the budget, in consultation with the commissioner of health, shall assess on a [monthly] quarterly basis known and projected medicaid expenditures by category of service and by geographic region, as defined by the commissioner, incurred both prior to and subsequent to such assessment for each such period, and if the director of the budget determines that such expenditures are expected to cause medicaid spending for such period to exceed the aggregate limit specified herein for such period, the state medicaid director, in consultation with the director of the budget and the commissioner of health, shall develop a medicaid savings allocation adjustment to limit such spending to the aggregate limit specified herein for such period.

Such medicaid savings allocation adjustment shall be designed, to reduce the expenditures authorized by the appropriations herein in compliance with the following guidelines: (1) reductions shall be made in compliance with applicable federal law, including the provisions of the Patient Protection and Affordable Care Act, Public Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No. 111-152 (collectively "Affordable Care Act") and any subsequent amendments thereto or regulations promulgated thereunder; (2) reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver authority, to implement the provisions of the medicaid savings allocation adjustment that meets the other criteria set forth herein; (3) reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the Affordable Care Act; (4) reductions shall be made uniformly among categories of services and geographic regions of the state, to
the extent practicable, and shall be made uniformly within a category of service, to the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific categories of services contributed to department of health medicaid state funds spending in excess of the limits specified herein; the need to maintain safety net services in underserved communities; or the potential benefits of pursuing innovative payment models contemplated by the Affordable Care Act, in which case such grounds shall be set forth in the medicaid savings allocation adjustment; and (5) reductions shall be made in a manner that does not unnecessarily create administrative burdens to medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation adjustment, to the extent that all or part of such adjustment, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation adjustment on the department of health's website and shall provide written copies of such adjustment to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

(b) The commissioner may revise the medicaid savings allocation adjustment subsequent to the provisions of notice and prior to implementation but needs to provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that such revisions materially alter the adjustment.

Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this subdivision if, in the discretion of the commissioner, expedited development and implementation of a medicaid savings allocation adjustment is necessary due to a public health emergency.

For purposes of this section, a public health emergency is defined as: (i) a disaster, natural or otherwise, that significantly increases the immediate need for health care personnel in an area of the state; (ii) an event or condition that creates a widespread risk of exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or (iii) any other event or condition determined by the commissioner to constitute an imminent threat to public health.

Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation adjustment from taking effect retroactively to the extent permitted by the federal centers for medicare and medicaid services.
In accordance with the medicaid savings allocation adjustment, the commissioner of the department of health shall reduce department of health state funds medicaid spending by the amount of the projected overspending through, actions including, but not limited to modifying or suspending reimbursement methods, including but not limited to all fees, premium levels and rates of payment, notwithstanding any provision of law that sets a specific amount or methodology for any such payments or rates of payment; modifying or discontinuing medicaid program benefits; seeking all necessary federal approvals, including, but not limited to waivers, waiver amendments; and suspending time frames for notice, approval or certification of rate requirements, notwithstanding any provision of law, rule or regulation to the contrary, including but not limited to sections 2807 and 3614 of the public health law, section 18 of chapter 2 of the laws of 1988, and 18 NYCRR 505.14(h).

The department of health shall prepare a report that sets forth: (a) known and projected department of health medicaid expenditures as described in subdivision (1) of this section, and factors that could result in medicaid disbursements for the relevant state fiscal year to exceed the projected department of health state funds disbursements in the enacted budget financial plan pursuant to subdivision 3 of section 23 of the state finance law, including spending increases or decreases due to: enrollment fluctuations, rate changes, utilization changes, MRT investments, and shift of beneficiaries to managed care; and variations in offline medicaid payments; and (b) the actions taken to implement any medicaid savings allocation adjustment implemented pursuant to subdivision (4) of this section, including information concerning the impact of such actions on each category of service and each geographic region of the state. Each such report shall be provided to the chairs of the senate finance and the assembly ways and means committees and shall be posted on the department of health's website in a timely manner.

The money hereby appropriated is to be available for payment of aid heretofore accrued or hereafter accrued to municipalities, and to providers of medical services pursuant to section 367-b of the social services law, and for payment of state aid to municipalities and to providers of family care where payment systems through the fiscal intermediaries are not operational.

Notwithstanding any inconsistent provision of law to the contrary, funds may be used by the department for outside legal assistance on issues involving the federal government, the conduct of preadmission screening and annual resident reviews required by the state's medicaid program, computer matching with insurance carriers to insure that medicaid is the payer of last resort and activities related to the management of the pharmacy benefit available under the medicaid program.

Notwithstanding any inconsistent provision of law, in lieu of payments authorized by the social services law, or payments of federal funds otherwise due to the local social services districts for programs provided under the federal social security act or the federal food stamp act, funds herein appropriated, in amounts certified by the
state commissioner of temporary and disability assistance or the
state commissioner of health as due from local social services
districts each month as their share of payments made pursuant to
section 367-b of the social services law may be set aside by the
state comptroller in an interest-bearing account in order to ensure
the orderly and prompt payment of providers under section 367-b of
the social services law pursuant to an estimate provided by the
commissioner of health of each local social services district's
share of payments made pursuant to section 367-b of the social
services law.

Notwithstanding any inconsistent provision of law, funding made avail-
able by these appropriations shall support direct salary costs and
related fringe benefits within the medical assistance program asso-
ciated with any minimum wage increase that takes effect during the
timeframe of these appropriations, pursuant to section 652 of the
labor law. Each eligible organization in receipt of funding made
available by these appropriations may be required to submit written
certification, in such form and at such time the commissioner may
prescribe, attesting to the total amount of funds used by the eligi-
ble organization, how such funding will be or was used for purposes
eligible under these appropriations and any other reporting deemed
necessary by the commissioner. The amounts appropriated herein may
include advances to organizations authorized to receive such funds
to accomplish this purpose.

Notwithstanding any other provision of law, the money hereby appropri-
ated may be increased or decreased by interchange or transfer, with
any appropriation of the department of health and the office of
medicaid inspector general and may be increased or decreased by
transfer or suballocation between these appropriated amounts and
appropriations of the department of health state purpose account,
the office of mental health, office for people with developmental
disabilities, the office of addiction services and supports, the
department of family assistance office of temporary and disability
assistance, the department of corrections and community supervision,
the office of information technology services, the state university
of New York, and office of children and family services, the office
of medicaid inspector general, and the state office for the aging
with the approval of the director of the budget, who shall file such
approval with the department of audit and control and copies thereof
with the chairman of the senate finance committee and the chairman
of the assembly ways and means committee.

Notwithstanding any inconsistent provision of law to the contrary, the
moneys hereby appropriated may be used for payments to the centers
for medicaid and medicare services for obligations incurred related
to the pharmaceutical costs of dually eligible medicare/medicaid
beneficiaries participating in the medicare drug benefit authorized
by P.L. 108-173.

Notwithstanding any inconsistent provision of law, the moneys hereby
appropriated shall not be used for any existing rates, fees, fee
schedule, or procedures which may affect the cost of care and
services provided by personal care providers, case managers, health
maintenance organizations, out of state medical facilities which
provide care and services to residents of the state, providers of transportation services, that are altered, amended, adjusted or otherwise changed by a local social services district unless previ-ously approved by the department of health and the director of the budget.

Notwithstanding any inconsistent provision of law to the contrary, funds shall be made available to the commissioner of the office of mental health or the commissioner of the office of addiction services and supports, in consultation with the commissioner of health and approved by the director of the budget, and consistent with appropriations made therefor, to implement allocation adjust-ment developed by each such commissioner which shall describe mental health or substance use disorder services that should be developed to meet service needs resulting from the reduction of inpatient behavioral health services provided under the medicaid program, by programs licensed pursuant to article 31 or 32 of the mental hygiene law. Such programs may include programs that are licensed pursuant to both article 31 of the mental hygiene law and article 28 of the public health law, or certified under both article 32 of the mental hygiene law and article 28 of the public health law.

Notwithstanding any inconsistent provision of law, the moneys hereby appropriated may be available for payments associated with the resolution by settlement agreement or judgment of rate appeals and/or litigation where the department of health is a party.

Notwithstanding any provision of law to the contrary, the director of the budget, in consultation with the commissioner of health, may use a payment reduction plan to make across-the-board reductions to the department of health state funds medicaid spending by $373,000,000 for state fiscal year 2020-2021 and [[$175,000,000] $373,000,000] in state fiscal year 2021-2022 and to limit such spending to the aggregate limit specified herein, or reduce the aggregate limit specified herein to provide a reduction to the state's financial plan. Reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval to implement the provisions of the medicaid payment reduction adjustment.

For services and expenses of the medical assistance program including hospital inpatient services and general hospitals that are safetynet providers that evince severe financial distress, pursuant to crite-ria determined by the commissioner, shall be eligible for awards for amounts appropriated herein, to enable such providers to maintain operations and vital services while establishing long term solutions to achieve sustainable health services.

The appropriation made by chapter 53, section 1, of the laws of 2020, as added by chapter 50, section 3, of the laws of 2020, is hereby amended and reappropriated to read:

Notwithstanding section 40 of the state finance law or any other law to the contrary, all medical assistance appropriations made from this account shall remain in full force and effect in accordance, in the aggregate, with the following schedule: not more than 50 percent for the period April 1, 2020 to March 31, 2021; and the remaining amount for the period April 1, 2021 to [March 31, September 15, 2022].

Notwithstanding section 40 of the state finance law or any provision of law to the contrary, subject to federal approval, department of health state funds medicaid spending, excluding payments for medical services provided at state facilities operated by the office of mental health, the office for people with developmental disabilities and the office of addiction services and supports and further excluding any payments which are not appropriated within the department of health, in the aggregate, for the period April 1, 2020 through March 31, 2021, shall not exceed $23,606,772,000 except as provided below and state share medicaid spending, in the aggregate, for the period April 1, 2021 through [March 31, September 15, 2022], shall not exceed $24,598,493,000, but in no event shall department of health state funds medicaid spending for the period April 1, 2020 through [March 31, September 15, 2022] exceed $48,205,265,000 provided, however, such aggregate limits may be adjusted by the director of the budget to account for any changes in the New York state federal medical assistance percentage amount established pursuant to the federal social security act, increases in provider revenues, reductions in local social services district payments for medical assistance administration, minimum wage increases and beginning April 1, 2012 the operational costs of the New York state medical indemnity fund, pursuant to chapter 59 of the laws of 2011, and state costs or savings from the essential plan program. Such projections may be adjusted by the director of the budget to account for increased or expedited department of health state funds medicaid expenditures as a result of a natural or other type of disaster, including a governmental declaration of emergency.

The director of the budget, in consultation with the commissioner of health, shall assess on a [monthly quarterly] basis known and projected medicaid expenditures by category of service and by geographic region, as determined by the commissioner of health, incurred both prior to and subsequent to such assessment for each such period, and if the director of the budget determines that such
expenditures are expected to cause medicaid spending for such period
to exceed the aggregate limit specified herein for such period, the
state medicaid director, in consultation with the director of the
budget and the commissioner of health, shall develop a medicaid
savings allocation adjustment to limit such spending to the aggre-
gate limit specified herein for such period.

Such medicaid savings allocation adjustment shall be designed, to
reduce the expenditures authorized by the appropriations herein in
compliance with the following guidelines: (1) reductions shall be
made in compliance with applicable federal law, including the
provisions of the Patient Protection and Affordable Care Act, Public
Law No. 111-148, and the Health Care and Education Reconciliation
Act of 2010, Public Law No. 111-152 (collectively "Affordable Care
Act") and any subsequent amendments thereto or regulations promul-
gated thereunder; (2) reductions shall be made in a manner that
complies with the state medicaid plan approved by the federal
centers for medicare and medicaid services, provided, however, that
the commissioner of health is authorized to submit any state plan
amendment or seek other federal approval, including waiver authori-
ty, to implement the provisions of the medicaid savings allocation
adjustment that meets the other criteria set forth herein; (3)
reductions shall be made in a manner that maximizes federal finan-
cial participation, to the extent practicable, including any federal
financial participation that is available or is reasonably expected
to become available, in the discretion of the commissioner, under
the Affordable Care Act; (4) reductions shall be made uniformly
among categories of services and geographic regions of the state, to
the extent practicable, and shall be made uniformly within a catego-
ry of service, to the extent practicable, except where the commis-
sioner determines that there are sufficient grounds for non-uniform-
ity, including but not limited to: the extent to which specific
categories of services contributed to department of health medicaid
state funds spending in excess of the limits specified herein; the
need to maintain safety net services in underserved communities; or
the potential benefits of pursuing innovative payment models contem-
plated by the Affordable Care Act, in which case such grounds shall
be set forth in the medicaid savings allocation adjustment; and (5)
reductions shall be made in a manner that does not unnecessarily
create administrative burdens to medicaid applicants and recipients
or providers.

The commissioner shall seek the input of the legislature, as well as
organizations representing health care providers, consumers, busi-
nesses, workers, health insurers, and others with relevant exper-
tise, in developing such medicaid savings allocation adjustment, to
the extent that all or part of such adjustment, in the discretion of
the commissioner, is likely to have a material impact on the overall
medicaid program, particular categories of service or particular
geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation
adjustment on the department of health's website and shall provide
written copies of such plan to the chairs of the senate finance and
the assembly ways and means committees at least 30 days before the
date on which implementation is expected to begin.
(b) The commissioner may revise the medicaid savings allocation
adjustment subsequent to the provisions of notice and prior to
implementation but needs to provide a new notice pursuant to subpar-
agraph (i) of this paragraph only if the commissioner determines, in
his or her discretion, that such revisions materially alter the
plan.
Notwithstanding the provisions of paragraphs (a) and (b) of this
subdivision, the commissioner need not seek the input described in
paragraph (a) of this subdivision or provide notice pursuant to
paragraph (b) of this subdivision if, in the discretion of the
commissioner, expedited development and implementation of a medicaid
savings allocation adjustment is necessary due to a public health
emergency.
For purposes of this section, a public health emergency is defined as:
(i) a disaster, natural or otherwise, that significantly increases
the immediate need for health care personnel in an area of the
state; (ii) an event or condition that creates a widespread risk of
exposure to a serious communicable disease, or the potential for
such widespread risk of exposure; or (iii) any other event or condi-
tion determined by the commissioner to constitute an imminent threat
to public health.
Nothing in this paragraph shall be deemed to prevent all or part of
such medicaid savings allocation adjustment from taking effect
retroactively to the extent permitted by the federal centers for
medicare and medicaid services.
In accordance with the medicaid savings allocation adjustment, the
commissioner of the department of health shall reduce department of
health state funds medicaid spending by the amount of the projected
overspending through, actions including, but not limited to modify-
ing or suspending reimbursement methods, including but not limited
to all fees, premium levels and rates of payment, notwithstanding
any provision of law that sets a specific amount or methodology for
any such payments or rates of payment; modifying medicaid program
benefits; seeking all necessary federal approvals, including, but
not limited to waivers, waiver amendments; and suspending time
frames for notice, approval or certification of rate requirements,
notwithstanding any provision of law, rule or regulation to the
contrary, including but not limited to sections 2807 and 3614 of the
public health law, section 18 of chapter 2 of the laws of 1988, and
18 NYCRR 505.14(h).
The department of health shall prepare a [monthly] quarterly report
that sets forth: (a) known and projected department of health medi-
caid expenditures as described in subdivision (1) of this section,
and factors that could result in medicaid disbursements for the
relevant state fiscal year to exceed the projected department of
health state funds disbursements in the enacted budget financial
plan pursuant to subdivision 3 of section 23 of the state finance
law, including spending increases or decreases due to: enrollment
fluctuations, rate changes, utilization changes, MRT investments,
and shift of beneficiaries to managed care; and variations in

Each such report shall be provided to the chairs of the senate finance and the assembly ways and means committee and shall be posted on the department of health's website in a timely manner.

Notwithstanding any provision of law to the contrary, the director of the budget, in consultation with the commissioner of health, may use a payment reduction plan to make across-the-board reductions to the department of health state funds medicaid spending by $373,000,000 for state fiscal year 2020-2021 and $175,000,000 in state fiscal year 2021-2022 to limit such spending to the aggregate limit specified herein, or reduce the aggregate limit specified herein to provide a reduction to the state's financial plan. Reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval to implement the provisions of the medicaid payment reduction adjustment.

For the purpose of making payments to providers of medical care pursuant to section 367-b of the social services law, and for payment of state aid to municipalities where payment systems through fiscal intermediaries are not operational, to reimburse such providers for costs attributable to the provision of care to patients eligible for medical assistance. Notwithstanding any inconsistent provision of law, the moneys hereby appropriated may be increased or decreased by interchange or transfer with any appropriation of the department of health with the approval of the director of the budget, who shall file such approval with the department of audit and control and copies thereof with the chairman of the senate finance committee and the chairman of the assembly ways and means committee.
