

# STATE OF NEW YORK

2735

2021-2022 Regular Sessions

## IN SENATE

January 25, 2021

Introduced by Sen. HARCKHAM -- read twice and ordered printed, and when printed to be committed to the Committee on Environmental Conservation

AN ACT to amend the environmental conservation law, in relation to providing that one hundred percent of in-state sales of new passenger cars and trucks shall be zero-emissions by two thousand thirty-six

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. The environmental conservation law is amended by adding a new section 19-0306-b to read as follows:

§ 19-0306-b. Zero-emissions cars and trucks.

1. It shall be a goal of the state that one hundred percent of in-state sales of new passenger cars and trucks shall be zero-emissions by two thousand thirty-six. It shall be a further goal of the state that one hundred percent of medium-duty and heavy-duty vehicles in the state be zero-emissions by two thousand forty-six for all operations where feasible. It shall be further a goal of the state to transition to one hundred percent zero-emissions off-road vehicles and equipment by two thousand thirty-six where feasible.

2. The department, to the extent consistent with federal law, shall develop and propose:

a. Passenger vehicle and truck regulations requiring increasing volumes of new zero-emissions vehicles sold in the state towards the target of one hundred percent of in-state sales by two thousand thirty-six.

b. Medium-duty and heavy-duty vehicle regulations requiring increasing volumes of new zero-emissions trucks and buses sold and operated in the state towards the target of one hundred percent of the fleet transitioning to zero-emissions vehicles by two thousand forty-six everywhere feasible.

c. Strategies, in coordination with other state agencies and the federal environmental protection agency, to achieve one hundred percent

EXPLANATION--Matter in italics (underscored) is new; matter in brackets [-] is old law to be omitted.

LBD04327-01-1

1 zero-emissions from off-road vehicles and equipment operations in the  
2 state by two thousand thirty-six. In implementing the provisions of  
3 this paragraph, the department shall act consistently with safety, tech-  
4 nological feasibility and cost-effectiveness.

5 3. The department, in consultation with the department of economic  
6 development, the New York state energy research and development authori-  
7 ty, the public service commission, the department of transportation, the  
8 department of motor vehicles, and other state agencies, local agencies  
9 and other interested parties, shall develop a zero-emissions vehicle  
10 market development strategy by January thirty-first, two thousand twen-  
11 ty-three, and an update every three years thereafter, that:

12 a. Ensures coordinated and expeditious implementation of the system of  
13 policies, programs and regulations necessary to achieve the goals and  
14 orders established by this section.

15 b. Outlines state agencies' actions to support new and used zero-emis-  
16 sions vehicle markets for broad accessibility for all residents of this  
17 state.

18 4. The department, the New York state energy research and development  
19 authority, the public service commission and other state agencies, shall  
20 use existing authorities to accelerate deployment of affordable powering  
21 options for zero-emissions vehicles, in ways that serve all communities  
22 and particularly low-income and disadvantaged communities, consistent  
23 with state and federal law.

24 5. The department, the New York state energy research and development  
25 authority, the department of motor vehicles and the department of trans-  
26 portation, in consultation with the other state agencies, shall on or  
27 before July fifteenth, two thousand twenty-three, identify near term  
28 actions and investment strategies to improve sustainable transportation,  
29 freight and transit options, including where feasible:

30 a. Supporting bicycle and pedestrian options, particularly in low-in-  
31 come and disadvantaged communities in the state, by incorporating safe  
32 and accessible infrastructure into projects where appropriate.

33 b. Supporting light, medium, and heavy-duty zero-emissions vehicles  
34 and infrastructure as part of larger transportation projects, where  
35 appropriate.

36 § 2. This act shall take effect immediately.
