2 applicant is applying for admission from a public or private high school
3 in this state accredited by a generally recognized accrediting organiza-
4 tion with a grade point average in the top ten percent of the student's
5 high school graduating class. To qualify for admission under this
6 section, an applicant must submit an application before the expiration
7 of any application filing deadline established by the institution.

8 2. After admitting an applicant under this section, the institution
9 shall review the applicant's record and any other factor the institution
10 considers appropriate to determine whether the applicant may require
11 additional preparation for college-level work or would benefit from
12 inclusion in a retention program. The institution may require a student
13 so identified to enroll during the summer immediately after the student
14 is admitted under this section to participate in appropriate enrichment
15 courses and orientation programs. This section does not prohibit a
16 student who is not determined to need additional preparation for
17 college-level work from enrolling, if the student chooses, during the
18 summer immediately after the student is admitted under this section.

19 § 6023. Additional automatic admissions; selected institutions. For
20 each academic year, the governing board of a city university and state
21 university shall determine whether to adopt an admissions policy under
22 which an applicant to the institution as a first-time freshman student,
23 other than an applicant eligible for admission under section six thou-
24 sand twenty-two of this article, shall be admitted to the institution if
25 the applicant graduated from a public or private high school in this
26 state accredited by a generally recognized accrediting organization with
27 a grade point average in the top twenty-five percent of the applicant's
28 high school graduating class.

31 twenty-three of this article may apply to any general academic teaching
32 institution.

33 2. A city university or state university, after admitting students
34 under sections six thousand twenty-two or six thousand twenty-three of
35 this article shall admit other applicants for admission as undergraduate
36 students. As a result of changing demographic trends, diversity, and
37 population increases in the state, the city university and state univer-
38 sity shall also consider all of, any of, or a combination of the follow-
39 ing socioeconomic indicators or factors in making first-time freshman
40 admissions decisions:

42 (b) the socioeconomic background of the applicant, including the
43 percentage by which the applicant's family is above or below any recog-
44 nized measure of poverty, the applicant's household income, and the
45 applicant's parents' level of education;

46 (c) whether the applicant would be the first generation of the appli-
47 cant's family to attend or graduate from an institution of higher educa-

4 (k) the applicant's performance on standardized tests in comparison
5 with that of other students from similar socioeconomic backgrounds;

6 (l) whether the applicant attended any school while the school was
7 under a court-ordered desegregation plan;

8 (m) the applicant's involvement in community activities;

9 (n) the applicant's extracurricular activities;

10 (o) the applicant's commitment to a particular field of study;

11 (p) the applicant's personal interview;

12 (q) the applicant's admission to a comparable accredited out-of-state
13 institution; and

14 (r) any other consideration the institution considers necessary to
15 accomplish the institution's stated mission.

16 3. A city university or state university may review other factors in
17 making an admissions decision.

18 4. Not later than one year before the date that applications for
19 admission are first considered under this section, each city university
20 and state university shall publish in each institution's catalog a
21 description of the factors considered by such institution in making
22 admission decisions and shall make the information available to the
23 public.

24 5. This section does not apply to an institution that has an open
25 enrollment policy.

26 § 6025. Report to board of regents. Each city university and state
27 university shall provide a report annually to the board of regents

35 relating to the identification of eligible students and the reporting
36 requirements of section six thousand twenty-five of this article.

37 § 6027. Application of admission criteria to other programs. 1. Each
38 city university or state university that offers admissions to undergrad-
39 uate transfer students or admissions to a graduate, postgraduate, or
40 professional program shall also adopt a written admission policy appli-
41 cable to those programs.

42 2. The policy shall be published in the institution's catalog and made
43 available to the public.

44 § 6028. Scholarship and fellowship awards. 1. A city university or
45 state university that offers competitive scholarship or fellowship
46 awards shall adopt a written policy describing the factors to be used by
47 the institution in making an award.

48 2. A policy adopted under this section shall be published in the
49 institution's catalog and shall be made available to the public in
50 advance of any deadline for the submission of an application for a
51 competitive scholarship or fellowship to which the policy applies.

52 § 2. This act shall take effect on the first of January next succeed-
53 ing the date on which it shall have become a law.
