7 3. No health care professional licensed, certified or authorized under

36 such individual sufficient opportunity to consider whether or not to  
37 authorize the drug or alcohol test or drug or alcohol screen and mini-  
38 mize the possibility of coercion or undue influence, and shall consist  
39 of oral authorization and written authorization that is dated, signed  
40 and includes the following:

41 (a) a statement explaining that consenting to a drug or alcohol test  
42 or drug or alcohol screen is voluntary and requires written and oral

44 section are met;

45 (b) a statement that testing or screening positive for drugs or alco-

56 consent for a newborn when, in the health care professional's judgment,

1 an emergency exists and the patient or newborn is in immediate need of  
2 medical attention, and an attempt to secure consent would result in  
3 delay of treatment that could increase the risk to the patient's or  
4 newborn's life or health. In the case that drug or alcohol testing or  
5 drug or alcohol screening is performed under these circumstances, the  
6 test or screen results shall be discussed with the patient or the indi-

15 legal counsel;

16 (b) a statement in the medical record with a description of the emer-

20 or screen results.

21 6. No health care professional licensed, certified, or authorized

25 refusal to submit to a drug or alcohol test or drug or alcohol screen.

26 7. Nothing in this section shall diminish any other requirement to  
27 obtain informed consent for a drug or alcohol test or drug or alcohol  
28 screen or any other procedure.

29 § 2. This act shall take effect immediately.
