FISCAL NOTE.--Pursuant to Legislative Law, Section 50:

This bill would amend Section 1000 of the Retirement and Social Security Law to give veterans who retired prior to May 31, 2017, a supplemental pension equal to their first \$15,000 of single life allowance together with any cost of living adjustment, multiplied by 3% per year for up to three (3) years of such service credit for military service that would have been eligible if the member retired on or after such date. The surviving spouse of such a retired veteran who chose a continued life benefit to the spouse shall receive half of what the deceased member would have received. There would not be any payment required by an affected retiree or surviving spouse for this supplemental pension. Such retiree may make application for the supplemental pension no later than December 31, 2022 and the payment of the benefit will begin with the next monthly pension payment payable at least 30 days after receipt of the application.

The exact number of retirees that could be affected by this legislation cannot be readily determined.

ERS Costs: Pursuant to Section 25 of the Retirement and Social Security Law, the increased cost to the New York State and Local Employees' Retirement System would be borne entirely by the State of New York and would require an itemized appropriation sufficient to pay the cost of the provision. Once a retiree applies for this benefit a cost will be generated, which will be billed to the State.

PFRS Costs: These costs would be shared by the State of New York and the participating employers in the PFRS.

FISCAL NOTE.--Pursuant to Legislative Law, Section 50:

This bill (legislative bill draft 09719-02-1) would amend section 1000 of the Retirement and Social Security Law by adding a new subdivision 8-a to allow eligible retired members of public retirement systems of New York State to receive a supplemental military retirement allowance based upon the retirement allowance of such member and up to three years of military service credit. This supplemental benefit would be in lieu of any benefit otherwise provided by military service credit. The annual supplemental military retirement allowance shall be equal to the retirement allowance of such person, computed without optional modification and not to exceed fifteen thousand dollars, multiplied by twenty-five one-hundredths of one percent per month of military service claimed. The surviving spouse of a deceased member who retired under an option which provides them with a continuing lifetime benefit would be entitled to receive fifty percent of the supplemental military retirement allowance that the retired member would have received. A member must have retired prior to May 31, 2017 and make application no later than December 31, 2022. This benefit is prospective only and shall commence on the next retirement allowance payable at least 30 days after the receipt of said application. There is no member cost for this benefit.

It is not possible to determine the total annual cost to the employers of members of the New York State Teachers' Retirement System since the number of retired members who would be eligible for the supplemental military retirement allowance under this bill cannot be effectively estimated. However, the cost is estimated to be, on average, approximately \$12,400 for each retired member eligible for three years of supplemental military retirement allowance provided under this bill if enacted.

Member data is from the System's most recent actuarial valuation files, consisting of data provided by the employers to the Retirement System. Data distributions and statistics can be found in the System's Annual Report. System assets are as reported in the System's financial statements and can also be found in the System's Annual Report. Actuarial assumptions and methods are provided in the System's Actuarial Valuation Report.
