FISCAL NOTE.--Pursuant to Legislative Law, Section 50:

This bill would provide an increase in the defined benefit cost-of-living adjustment (COLA) for New York public retirement systems. Starting with a payment in September 2022 the maximum percentage calculated for the annual cost of living increase shall increase from three (3) percent to five (5) percent.

Insofar as this bill affects the New York State and Local Employees' Retirement System, if this bill is enacted, pursuant to Section 25 of the Retirement and Social Security Law, the increased costs would be borne entirely by the State of New York and would require an itemized appropriation sufficient to pay the cost of the provision. Such an appropriation would be required only when the annual inflation exceeds 6%.

Insofar as this bill affects the New York State and Local Police and Fire Retirement System (PFRS), if this bill is enacted, the increased costs would be shared by the State of New York and all of the participating employers in the PFRS. Additional employer contributions would be required only when the annual inflation exceeds 6%.
