STATE OF NEW YORK

6228

2021-2022 Regular Sessions

IN SENATE

April 16, 2021

Introduced by Sen. SANDERS -- read twice and ordered printed, and when printed to be committed to the Committee on Cities 1

AN ACT to amend the general city law, in relation to requiring contractors in certain cities to recycle construction and demolition site waste

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

- Section 1. Legislative intent. The purpose of this act is to significantly reduce the amount of waste produced by construction and demolition activities in cities having populations of one million or more.
 There are many opportunities to reduce or recycle materials from
 construction and demolition, including metals, cardboard, drywall,
 glass, wood and asphalt. This act is consistent with the goals of large
 cities' solid waste management plans, complementing other recycling and
 recovery programs currently in effect.
- 9 § 2. The general city law is amended by adding a new section 23-a to 10 read as follows:
- 11 <u>§ 23-a. Construction and demolition site waste recycling; certain</u> 12 <u>cities. 1. Definitions. As used in this section:</u>
- a. "Contractor" means a general contractor and shall also include any subcontractor engaged in the demolition or wrecking of a structure for which a permit is required.
- b. "Construction and demolition debris" shall include, but not be limited to, metals, cardboard, drywall, glass, wood, concrete, brick and asphalt, but shall not include any material that is contaminated by lead, asbestos or any other hazardous material such that recycling thereof would be illegal or unfeasible.
- 21 <u>c. "Recycler" means a recycling facility, transfer station or other</u> 22 <u>solid waste management facility permitted pursuant to the environmental</u> 23 <u>conservation law.</u>

EXPLANATION--Matter in italics (underscored) is new; matter in brackets
[-] is old law to be omitted.

"Reuse" means (i) the on-site use of reprocessed construction and demolition debris if the use of such debris is authorized by the city 2 department of buildings; and (ii) the off-site redistribution of a material which would otherwise be disposed of, for use in the same or similar form as it was produced.

- 2. Applicability. a. The provisions of this section shall apply only in cities having a population of one million or more.
- 8 b. Contractors shall recycle or reuse construction and demolition 9 debris produced on site as part of construction or demolition activities 10 by meeting the following requirements:
- 11 (1) on a project that is issued a permit with an application date within one year of the effective date of this section, the contractor 12 13 shall cause to be recycled or reused at least twenty-five percent of the construction and demolition debris, as measured by weight, produced on 14 15 site.
 - (2) on a project that is issued a permit with an application date a year or more after the effective date of this section, the contractor shall cause to be recycled or reused at least fifty percent of the construction and demolition debris, as measured by weight, produced on
- 21 c. The following projects shall be subject to the provisions of this 22 section:
- (1) Construction of new residential buildings with four or more dwell-24 ing units;
 - (2) Construction of new non-residential buildings, other than projects for which the total area is four thousand square feet or less;
 - (3) Any rehabilitation of non-residential buildings of more than four thousand square feet that will require a certificate of occupancy to be issued from the city;
 - (4) Demolition of residential buildings with four or more dwelling units that includes the demolition of at least one outside wall; and
 - (5) Demolition of non-residential buildings, other than projects for which the total area is four thousand square feet or less.
 - d. A project shall be exempt from the provisions of this section if only a plumbing permit or only an electrical permit is required for such
 - 3. Contractor responsibilities. a. Within thirty days of completion of a project, the contractor shall submit documentation to report compliance with this section and the regulations promulgated pursuant to this section. If the contractor is unable to meet the recycling and reuse requirements of this section, the contractor may apply for a waiver from the city. Such documentation shall be in a form and manner determined by the city department of buildings.
- 44 b. If a contractor is unable or refuses to submit the required 45 documentation, a property owner may submit a waiver application 46 supported by an affidavit that the contractor is unavailable or refuses 47 to provide the required documentation.
 - c. A contractor shall comply with all reasonable requests for information and documentation by the city department of buildings pursuant to an audit to monitor compliance with this section. Documentation required by this section shall be maintained for at least three years.
- 4. City responsibilities. a. The city shall establish a procedure for 52 53 contractors to apply for waivers of the requirements of this section. 54 Such requirements shall include documentation of the amount of material 55 the contractor is actually able to recycle or reuse and the reason or

reasons for which the contractor cannot meet the recycling and reuse 1 2 requirements in this section.

- b. The city shall not issue any new building or demolition permit to a contractor who has failed to timely submit the required documentation with respect to any completed project, until such contractor either submits (1) the required documents including, where applicable, proof that any fine due pursuant to subdivision five of this section has been paid in full, or (2) proof of a waiver issued by the city and, the payment of any fine due.
- c. The city may withhold a certificate of occupancy for a project until the contractor submits either the required documentation including, where applicable, proof that any fine due pursuant to subdivision 13 five of this section has been paid in full; or proof of a waiver issued 14 by the city and, the payment of any fine due.
- d. The city is authorized to conduct audits of contractors to deter-16 mine and validate compliance with the requirements of this section. The city may request information and documentation relevant to such an audit from any contractor.
 - e. The city is authorized to promulgate such rules and regulations as necessary to implement the provisions of this section. Such rules and regulations shall contain provisions for seeking and obtaining a waiver from the provisions of this section.
 - 5. Fines and penalties. a. Contractors who fail to provide the documentation required by this section or who have not received a waiver from the city shall be subject to a fine of five hundred dollars for each day that they fail to provide the information or apply for a waiv-
- b. Contractors who fail to meet the recycling or reuse requirements of 29 this section and have applied for and not received a waiver from the city shall be assessed a fine as follows: 30
- 31 (1) for projects involving ten thousand square feet or more of reno-32 vated, newly constructed or demolished space, five hundred dollars for each percentage point of difference between the amount required by this 33 34 section to be recycled or reused and the amount actually recycled or 35 reused; and
- (2) for projects involving less than ten thousand square feet of reno-37 vated, newly constructed or demolished space, two hundred fifty dollars for each percentage point of difference between the amount required by 38 this section to be recycled or reused and the amount actually recycled 39 40 or reused.
- 41 c. The city may modify the penalties required by paragraph a or b of 42 this subdivision for failure to provide documentation or meet the recy-43 cling and reuse requirements, if it finds that there are extenuating 44 circumstances for such failures.
- § 3. This act shall take effect on the first of January next succeed-45 46 ing the date on which it shall have become a law.
