AN ACT to amend the executive law, in relation to requiring the collection of certain demographic information by certain state agencies, boards, departments and commissions

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. Legislative intent. The legislature hereby finds and declares the following:

- (a) Asian Americans as well as Native Hawaiians and other Pacific Islanders are an incredibly diverse group. Due to this diversity, the United States Office of Management and Budget's Statistical Policy Directive No. 15, entitled Race and Ethnic Standards for Federal Statistics and Administrative Reporting, separated the "Asian and Pacific Islander" category into two distinct and separate categories, now called "Asians" and "Native Hawaiians and Other Pacific Islanders," and these 10 two distinct categories were used in the 2000 United States Census. The 11 United States Census Bureau currently reports data for more than 20 12 different ethnicities within these two categories.
- 13 (b) While Asian Americans as well as Native Hawaiians and other Pacific Islanders are often misrepresented as a homogeneous group, they are 14 an extremely diverse group, with ethnicities from over 30 different 15 countries. Although Asian American as well as Native Hawaiian and other 16 17 Pacific Islander communities in this state share geographical and 18 cultural commonalities, they also experience diverse social, educa-19 tional, health, and economic differences that are unique to their 20 respective communities.
- (c) Existing state law requires state demographic data to be collected 22 for Asian and some Native Hawaiian and Pacific Islander ethnic groups.

EXPLANATION--Matter in italics (underscored) is new; matter in brackets [-] is old law to be omitted.

However, additional ethnic groups reported by the United States Census Bureau are not included that reflect changing demographics and intrastate migration patterns. Most state agencies are currently not in compliance with existing state law or have not made the collected data accessible. Data should be updated on a regular basis and made accessible to the public so that regional and local governments, elected officials, decision makers, and other stakeholders can use the information to strategically target programs for those most in need.

- (d) Given the diversity of languages and cultures, separating data for additional Asian and additional Native Hawaiian and Pacific Islander ethnic groups and making the data publicly accessible are critical for enhancing our state's understanding of the needs and experiences of these different communities.
- 14 § 2. The executive law is amended by adding a new section 170-e to 15 read as follows:
 - § 170-e. Collection of demographic information. 1. Every state agency, board, department, or commission that directly or by contract collects demographic data as to the ancestry or ethnic origin of residents of the state of New York shall use separate collection categories and tabulations for the following:
