FISCAL NOTE.--Pursuant to Legislative Law, Section 50:

This bill would allow certain members of the New York State and Local Employees' Retirement System (ERS) employed by Nassau County as chief fire marshal, assistant chief fire marshal, division supervising fire marshal, supervising fire marshal, fire marshal and fire marshal trainee to receive an accidental disability benefit if the member is impaired due to a condition of the heart as a result of an accident, in the performance of his or her duties, unless the contrary be proven by competent evidence. The annual benefit would be 3/4 of final average salary less worker's compensation.

If this bill is enacted during the 2021 legislative session, we anticipate that there will be an increase of approximately \$5,200 in the annual contributions of Nassau County for the fiscal year ending March 31, 2022. In future years, this cost will vary as the billing rates and salary of the affected members change.

In addition to the annual contributions discussed above, there will be an immediate past service cost of approximately \$21,400 which will be borne by Nassau County as a one-time payment. This estimate is based on the assumption that payment will be made on February 1, 2022. If Nassau County elects to amortize this cost over a 10 year period, the cost for the first year including interest would be \$2,830.

These estimated costs are based on 50 affected members employed by Nassau County, with annual salary of approximately \$5.2 million as of March 31, 2020.
