AN ACT making appropriations for the support of government

AID TO LOCALITIES BUDGET

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. a) The several amounts specified in this chapter for aid to localities, or so much thereof as shall be sufficient to accomplish the purposes designated by the appropriations, are hereby appropriated and authorized to be paid as hereinafter provided, to the respective public officers and for the several purposes specified.

b) Where applicable, appropriations made by this chapter for expenditures from federal grants for aid to localities may be allocated for spending from federal grants for any grant period beginning, during, or prior to, the state fiscal year beginning on April 1, 2022 except as otherwise noted.

c) The several amounts named herein, or so much thereof as shall be sufficient to accomplish the purpose designated, being the undisbursed and/or unexpended balances of the prior year's appropriations, are hereby reappropriated from the same funds and made available for the same purposes as the prior year's appropriations, unless herein amended, for the fiscal year beginning April 1, 2022. Certain reappropriations in this chapter are shown using abbreviated text, with three leader dots (an ellipsis) followed by three spaces (...) used to indicate where existing law that is being continued is not shown. However, unless a change is clearly indicated by the use of brackets [-] for deletions and underscores for additions, the purposes, amounts, funding source and all other aspects pertinent to each item of appropriation shall be as last appropriated.

EXPLANATION--Matter in italics (underscored) is new; matter in brackets [-] is old law to be omitted.

LBD12653-06-2
For the purpose of complying with the state finance law, the year, chapter and section of the last act reappropriating a former original appropriation or any part thereof is, unless otherwise indicated, chapter 53, section 1, of the laws of 2021.

d) No moneys appropriated by this chapter shall be available for payment until a certificate of approval has been issued by the director of the budget, who shall file such certificate with the department of audit and control, the chairperson of the senate finance committee and the chairperson of the assembly ways and means committee.

e) Notwithstanding any provision of law to the contrary, for purposes of any appropriation made by this chapter which authorizes spending in an amount net of refunds, rebates, reimbursements, credits, repayments, and/or disallowances, "refunds" shall mean funds received to the state resulting from the overpayment of monies, "rebates" shall mean funds received to the state resulting from a return of a full or partial amount previously paid, as for goods or services, serving as a reduction, discount or rebate to the original payment amount, "reimbursements" shall mean funds received to the state as repayment in an equivalent amount for goods or services, including but not limited to personal service costs, incurred by the state in the first instance being provided to a third party for their benefit and partially or in full financed by such third party, "credit" shall mean monies made available to the state that reduce the amount owed to a third party, including but not limited to billing errors, rebates, and prior overpayments, "repayment" shall mean the return of monies as pay back for expenses incurred, and "disallowance" shall mean monies made available to the state that were not allowed or accepted officially by the intended recipient, based on a determination the payment is not acceptable and/or valid. When the office of the state comptroller receives any such refunds, rebates, reimbursements, credits, repayments, and/or disallowances, he or she shall credit the refunded, rebated, reimbursed, credited, repaid, and disallowed amount back to the original appropriation and reduce expenditures in the year which such credit is received regardless of the timing of the initial expenditure.

f) Notwithstanding any other provision of law to the contrary, if the state or any agency thereof incurs any costs associated with administering the rent regulation program in accordance with subdivision (c) of section 8 of chapter 576 of the laws of 1974, as amended, for a city having a population of one million or more, the director of the budget may direct any other state agency or agencies making payments to such city, or any department, agency, or instrumentality thereof, to permanently reduce the amount of any other payment or payments owed to such city or any department, agency, or instrumentality thereof pursuant to any appropriation set forth in this chapter. Provided however, that such reduction shall be in an amount equal to the costs incurred by the state or agency thereof in accordance with subdivision (c) of section 8 of chapter 576 of the laws of 1974 and provided further that such direction shall be made in writing by the director of the budget. If the director of the budget makes such direction pursuant to the authority set forth herein, the impacted city shall not make the payments required by subdivision (c) of section 8 of chapter 576 of the laws of 1974, as amended, and the division of housing and community renewal shall notify such city in writing of what payment or payments will be reduced and the amount of such reduction. To the extent a city of one million or more or any department, agency, or instrumentality thereof is entitled to any cash disbursement authorized by any appropriation contained in this chapter,
such entitlement shall be reduced commensurate with reductions in payments made in accordance with this part.

g) Notwithstanding any provision of law to the contrary, upon enactment of this chapter of the laws of 2022 containing the aid to localities budget bill for the state fiscal year 2022-2023, all appropriations and reappropriations contained in chapter 53 of the laws of 2021, which would otherwise lapse by operation of law on March 31, 2023 are hereby repealed.

Notwithstanding any provision of law to the contrary, funds not otherwise allocated to local educational agencies pursuant to section 2001(d)(1) of the American rescue plan act of 2021 shall be allocated as follows, pursuant to a plan developed by the commissioner of education and approved by the director of the budget:

The "adjusted per pupil amount" shall be equal to the product of (a) $4,550.26 multiplied by (b) the regional cost index calculated in 2018, reflecting an analysis of labor market costs based on median salaries in professional occupations that require similar credentials to those of positions in the education field, but not including those occupations in the education field, multiplied by (c) the modified EN index, and multiplied by (d) the learning loss wealth factor.
(2) The "learning loss wealth factor" shall be equal to the positive difference, if any, of 0.75 less the product of 0.5 multiplied by the combined wealth ratio computed pursuant to subparagraph 1 of paragraph c of subdivision 3 of section 3602 of education law.

(3) The "modified EN index" shall be equal to the modified EN percent divided by the statewide average modified EN percent, provided that for the 2021-22 school year, the statewide average modified EN percent shall be equal to 0.5565.

(4) The "modified EN percent" shall be equal to the modified EN count divided by public school district enrollment for the base year computed pursuant to paragraph n of subdivision 1 of section 3602 of education law.

Notwithstanding any inconsistent provision of law, the amount appropriated herein, shall be available under a foster care block grant for state reimbursement of eligible social services district expenditures for the provision and administration of foster care services including care, maintenance, supervision, and tuition; for supervision of foster children placed in federally funded job corps programs; for care, maintenance, supervision, and tuition for adjudicated juvenile delinquents placed in residential programs operated by authorized agencies and in out-of-state residential programs; except that, reimbursement from the amount appropriated herein shall not be available for tuition expenditures for foster children, including persons in need of supervision and adjudicated juvenile delinquents, made by a social services district located within a city having a population of one million or more.

Notwithstanding any other provision of law, a portion of the funds are available to reimburse social services districts for the change in the maximum state aid rates established by the office of children and family services for the 2022-23 rate year pursuant to section 398-a of the social
services law and sections 4003 and 4405 of the education law to reflect the continuation of the cost of living adjustments that became effective April 1, 2008 for payments made to foster parents and for salary and fringe benefit costs and other critical nonpersonal services costs for foster care programs as determined by the office. Social services districts must adjust the amount of payments made for care provided by congregate care and foster boarding home programs and to foster parents to reflect the cost of living adjustments in the manner specified by the office. Each authorized agency operating a congregate care or foster boarding home program in New York state for which the office sets a maximum state aid rate pursuant to section 398-a of the social services law or section 4003 or 4405 of the education law shall submit, at the time and in a manner to be determined by the office, a written certification, attesting that the funds received for the continuation of the cost of living adjustment to the maximum state aid rate that became effective April 1, 2008 for that program will be or were used solely in accordance with the requirements of the cost of living adjustment established by the office.

Notwithstanding any inconsistent provision of law except a chapter of the laws of 2022 authorizing a 5.4 percent cost of living adjustment increase for the period commencing on April 1, 2022 and ending March 31, 2023, the commissioner shall not apply any other cost of living adjustment for the purpose of establishing rates of payments, contracts or any other form of reimbursement.

Within the amounts appropriated herein, state reimbursement to each social services district for services identified herein that are otherwise reimbursable by the state from April 1, 2022 through March 31, 2023 shall be limited to a district allocation, hereinafter referred to as the district's block grant allocation. Notwithstanding any other provision of law, such block grant allocation shall be
based, in part, on each district's claims for such costs, adjusted by the applicable cost allocation methodology and net of any retroactive payments for the 12 month period ending June 30, 2021 that are submitted on or before January 3, 2022 and, in part, on such other factors as determined by the office of children and family services and approved by the director of the budget. Any portion of a social services district's allocation from funds appropriated herein not claimed by such district during the state fiscal year may be used by such district for expenditures on preventive services provided pursuant to section 409-a of the social services law, independent living services and aftercare services provided pursuant to regulations of the department of family assistance, claimed by such district during the next state fiscal year up to the amount remaining from the district's foster care block grant allocation, provided however, that any claims for such services during the next state fiscal year in excess of such amount shall be subject to 62 percent state reimbursement exclusive of any federal funds made available for such purposes, in accordance with directives of the department of family assistance and subject to the approval of the director of the budget. Any claims submitted by a social services district for reimbursement for a particular state fiscal year for which the social services district does not receive state or federal reimbursement during that state fiscal year may not be claimed against that district's block grant apportionment for the next state fiscal year.

The office of children and family services, with the approval of the director of the budget, may reduce a district's block grant allocation by the state share decrease related to federal retroactive reimbursement for such foster care services identified herein. The office, with the approval of the director of the budget, may reduce a district's block grant allocation by the state share of disallowances or sanctions taken against
the district pursuant to the social services law or federal law.

Notwithstanding any other provision of law, the state shall not be responsible for reimbursing a social services district and a district shall not seek state reimbursement for any portion of any state disallowance or sanction taken against the social services district, or any federal disallowance attributable to final federal agency decisions or to settlement made, on or after July 1, 1995, when such disallowance or sanction results from the failure of the social services district to comply with federal or state requirements, including, but not limited to, failure to document eligibility for federal or state funds in the case record; provided, however, if the office determines that any federal disallowance for services provided between January 1, 1999 and May 31, 1999 results solely from the late enactment of the state legislation implementing the federal adoption and safe families act, the state shall be solely responsible for the full amount of the disallowance or sanction; provided, further, however, this provision shall be deemed to apply both prospectively and retroactively regardless of whether such sanctions or disallowances are for services provided or claims made prior to or after April 1, 2022.

Notwithstanding any other provision of law, any federal disallowance resulting from a federal title IV-E eligibility review or audit that uses extrapolated statistic techniques shall be passed along by the state to any and all social services districts that the office of children and family services has determined have not complied with the title IV-E eligibility requirements or have not taken the necessary actions to ensure compliance with such requirements including, but not limited to, failing to: assess and fully document all the criteria and have readily available all the necessary documents to establish and continue title IV-E eligibility for all title IV-E eligible children within the required time frames; claim title IV-E funding only for cases
that meet all of the title IV-E eligibility criteria; and fully implement the social services payment system on or before April 1, 2005 for all direct and voluntary agency foster care services.

Notwithstanding any law to the contrary, the office of children and family services shall impose on social services districts any federal disallowance issued against the state as a result of a federal title IV-E secondary eligibility review regardless of the date the children may have entered foster care, the date the eligibility or payment errors occurred, or the filing date of any federal claims for reimbursement; provided, however, that the state shall be responsible for the disallowed costs and expenditures related to the placement of children in a facility operated by the office of children and family services, which shall be determined in the same manner as the disallowed costs and expenditures for social services districts other than the city of New York.

In order to reimburse the federal government for the full amount of any disallowance imposed on the state by the federal administration for children and families within the timeframes necessary to avoid any potential interest payments on such amount, the office of children and family services is authorized to immediately offset funds otherwise due to each district for a pro rata share of the total disallowed costs based on the percentage of applicable federal title IV-E claims made by that district for the relevant time period as compared to the total applicable statewide title IV-E claims.

The amount of the offset against each district will be adjusted, if necessary, upon completion of the disallowance allocation process. The final allocation of the amount of any federal disallowance resulting from a title IV-E secondary eligibility review shall be allocated among the districts so that each district shall be responsible for the amount attributable to each of the district's children or cases that are determined by the federal review to be unallowable. Each
district shall also be responsible for a portion of the federal extrapolated disallowance amount based on the relative error rate for the district. The city of New York's error rate will be based on the federal sample and federal statistics. For all social services districts other than the city of New York, the error rate will be based on a review conducted by the district of a sample of children and/or cases determined by the office of children and family services and a re-review of a sub-sample by the office of those children and/or cases determined by the office. The office of children and family services will determine what is reasonable in establishing the size of the sample and sub-sample for each district. The office of children and family services shall notify each social services district of the sample of children and/or cases from the federal audit period that the social services district must review. Any child or case from the social services district that was included in the federal sample will automatically be included in the social services district's review sample and the determination made at the federal review regarding that child or case will govern for the purposes of the social services district's review. The social services district must complete and submit the results of its review to the office of children and family services within 60 days of receipt of the sample. The error rate for the district will be based on the findings of the district's review and the office of children and family services' re-review. If a social services district does not complete its review within 60 days of receiving the sample from the office of children and family services, the office of children and family services shall assign an error rate to the social services district based on the relative percentage of the district's applicable title IV-E claims for the relevant period as compared to applicable statewide title IV-E claims for that period and other circumstances that the office of children and family services may consider in order
to allocate 100 percent of the federal disallowance. The office of children and family services shall apply each social services district's error rate to the total amount of the district's applicable title IV-E claims including associated administrative expenses. The resulting dollar amounts for all of the social services districts will be summed to derive the total amount of title IV-E claims deemed to be in error statewide. To establish a disallowance percentage for each social services district, the amount of the district's title IV-E claims deemed to be in error will be divided by the amount of statewide title IV-E claims deemed to be in error. Each district will be credited for the amount already disallowed for any individual children or cases found to be in error during the federal review. The exclusive appeal rights for the review of the amount of the federal disallowance assigned to each social services district shall be pursuant to article 78 of the civil practice law and rules; provided, however, that in any such action all of the social services districts shall be joined as necessary parties and the venue of any such action shall be in Rensselaer county. General Fund
Local Assistance Account - 10000

The appropriation made by chapter 53, section 1, of the laws of 2021, is hereby amended and reappropriated to read:
Notwithstanding any inconsistent provision of law, the amount appropriated herein, shall be available under a foster care block grant for state reimbursement of eligible social services district expenditures for the provision and administration of foster care services including care, maintenance, supervision, and tuition; for supervision of foster children placed in federally funded job corps programs; for care, maintenance, supervision, and tuition for adjudicated juvenile delinquents placed in residential programs operated by authorized agencies and in out-of-state residential programs; for the provision and administration of the kinship guardian assistance program including kinship guardianship assistance payments and payments for non-recurring guardianship expenses and eligible expenditures associated with local compliance with the federal Family First Prevention Services Act (P.L. 115-123); except that, reimbursement from the amount appropriated herein shall not be available for tuition expenditures for foster children, including persons in need of supervision and adjudicated juvenile delinquents, made by a social services district located within a city having a population of one million or more.

Notwithstanding any other provision of law, a portion of the funds are available to reimburse social services districts for the change in the maximum state aid rates established by the office of children and family services for the 2021-22 rate year pursuant to section 398-a of the social services law and sections 4003 and 4405 of the education law to reflect the continuation of the cost of living adjustments that became effective April 1, 2008 for payments made to foster parents and for salary and fringe benefit costs and other critical nonpersonal services costs for foster care programs as determined by the office. Social services districts must adjust the
amount of payments made for care provided by congregate care and
foster boarding home programs and to foster parents to reflect the
cost of living adjustments in the manner specified by the office.
Each authorized agency operating a congregate care or foster board-
ing home program in New York state for which the office sets a maxi-
mum state aid rate pursuant to section 398-a of the social services
law or section 4003 or 4405 of the education law shall submit, at
the time and in a manner to be determined by the office, a written
certification, attesting that the funds received for the continua-
tion of the cost of living adjustment to the maximum state aid rate
that became effective April 1, 2008 for that program will be or were
used solely in accordance with the requirements of the cost of
living adjustment established by the office.
Notwithstanding any inconsistent provision of law except a chapter of
the laws of 2021 authorizing a 1 percent cost of living adjustment
increase, but including section 1 of part C of chapter 57 of the
laws of 2006, as amended by section 1 of part I of chapter 60 of the
laws of 2014, for the period commencing on April 1, 2021 and ending
March 31, 2022 the director shall not apply any other cost of living
adjustment for the purpose of establishing rates of payments,
contracts or any other form of reimbursement.
Within the amounts appropriated herein, state reimbursement to each
social services district for services identified herein that are
otherwise reimbursable by the state from April 1, 2021 through March
31, 2022 shall be limited to a district allocation, hereinafter
referred to as the district's block grant allocation. Notwithstand-
ing any other provision of law, such block grant allocation shall be
based, in part, on each district's claims for such costs, adjusted
by the applicable cost allocation methodology and net of any retro-
active payments for the 12 month period ending June 30, 2020 that
are submitted on or before January 2, 2021 and, in part, on such
other factors as determined by the office of children and family
services and approved by the director of the budget. Any portion of
a social services district's allocation from funds appropriated
herein not claimed by such district during the state fiscal year may
be used by such district for expenditures on preventive services
provided pursuant to section 409-a of the social services law, inde-
dependent living services and aftercare services provided pursuant to
regulations of the department of family assistance, claimed by such
district during the next state fiscal year up to the amount remain-
ing from the district's foster care block grant allocation, provided
however, that any claims for such services during the next state
fiscal year in excess of such amount shall be subject to 62 percent
state reimbursement exclusive of any federal funds made available
for such purposes, in accordance with directives of the department
of family assistance and subject to the approval of the director of
the budget. Any claims submitted by a social services district for
reimbursement for a particular state fiscal year for which the
social services district does not receive state or federal
reimbursement during that state fiscal year may not be claimed

The office of children and family services, with the approval of the director of the budget, may reduce a district's block grant allocation by the state share decrease related to federal retroactive reimbursement for such foster care services identified herein. The office, with the approval of the director of the budget, may reduce a district's block grant allocation by the state share of disallowances or sanctions taken against the district pursuant to the social services law or federal law.

Notwithstanding any other provision of law, the state shall not be responsible for reimbursing a social services district and a district shall not seek state reimbursement for any portion of any state disallowance or sanction taken against the social services district, or any federal disallowance attributable to final federal agency decisions or to settlement made, on or after July 1, 1995, when such disallowance or sanction results from the failure of the social services district to comply with federal or state requirements, including, but not limited to, failure to document eligibility for federal or state funds in the case record; provided, however, if the office determines that any federal disallowance for services provided between January 1, 1999 and May 31, 1999 results solely from the late enactment of the state legislation implementing the federal adoption and safe families act, the state shall be solely responsible for the full amount of the disallowance or sanction; provided, further, however, this provision shall be deemed to apply both prospectively and retroactively regardless of whether such sanctions or disallowances are for services provided or claims made prior to or after April 1, 2021.

Notwithstanding any other provision of law, any federal disallowance resulting from a federal title IV-E eligibility review or audit that uses extrapolated statistic techniques shall be passed along by the state to any and all social services districts that the office of children and family services has determined have not complied with the title IV-E eligibility requirements or have not taken the necessary actions to ensure compliance with such requirements including, but not limited to, failing to: assess and fully document all the criteria and have readily available all the necessary documents to establish and continue title IV-E eligibility for all title IV-E eligible children within the required time frames; claim title IV-E funding only for cases that meet all of the title IV-E eligibility criteria; and fully implement the social services payment system on or before April 1, 2005 for all direct and voluntary agency foster care services.

Notwithstanding any law to the contrary, the office of children and family services shall impose on social services districts any federal disallowance issued against the state as a result of a federal title IV-E secondary eligibility review regardless of the date the children may have entered foster care, the date the eligibility or payment errors occurred, or the filing date of any federal claims for reimbursement; provided, however, that the state shall be
responsible for the disallowed costs and expenditures related to the
placement of children in a facility operated by the office of chil-
dren and family services, which shall be determined in the same
manner as the disallowed costs and expenditures for social services
districts other than the city of New York. In order to reimburse the
federal government for the full amount of any disallowance imposed
on the state by the federal administration for children and families
within the timeframes necessary to avoid any potential interest
payments on such amount, the office of children and family services
is authorized to immediately offset funds otherwise due to each
district for a pro rata share of the total disallowed costs based on
the percentage of applicable federal title IV-E claims made by that
district for the relevant time period as compared to the total
applicable statewide title IV-E claims. The amount of the offset
against each district will be adjusted, if necessary, upon
completion of the disallowance allocation process. The final allo-
cation of the amount of any federal disallowance resulting from a
title IV-E secondary eligibility review shall be allocated among the
districts so that each district shall be responsible for the amount
attributable to each of the district's children or cases that are
determined by the federal review to be unallowable. Each district
shall also be responsible for a portion of the federal extrapolated
disallowance amount based on the relative error rate for the
district. The city of New York's error rate will be based on the
federal sample and federal statistics. For all social services
districts other than the city of New York, the error rate will be
based on a review conducted by the district of a sample of children
and/or cases determined by the office of children and family
services and a re-review of a sub-sample by the office of those
children and/or cases determined by the office. The office of chil-
dren and family services will determine what is reasonable in estab-
lishing the size of the sample and sub-sample for each district. The
office of children and family services shall notify each social
services district of the sample of children and/or cases from the
federal audit period that the social services district must review.
Any child or case from the social services district that was
included in the federal sample will automatically be included in the
social services district's review sample and the determination made
at the federal review regarding that child or case will govern for
the purposes of the social services district's review. The social
services district must complete and submit the results of its review
to the office of children and family services within 60 days of
receipt of the sample. The error rate for the district will be based
on the findings of the district's review and the office of children
and family services' re-review. If a social services district does
not complete its review within 60 days of receiving the sample from
the office of children and family services, the office of children
and family services shall assign an error rate to the social
services district based on the relative percentage of the district's
applicable title IV-E claims for the relevant period as compared to
applicable statewide title IV-E claims for that period and other
circumstances that the office of children and family services may
consider in order to allocate 100 percent of the federal disallow-
ance. The office of children and family services shall apply each
social services district's error rate to the total amount of the
district's applicable title IV-E claims including associated admin-
istrative expenses. The resulting dollar amounts for all of the
social services districts will be summed to derive the total amount
of title IV-E claims deemed to be in error statewide. To establish a
disallowance percentage for each social services district, the
amount of the district's title IV-E claims deemed to be in error
will be divided by the amount of statewide title IV-E claims deemed
to be in error. The resulting disallowance percentage for each
district will be applied to the entire title IV-E extrapolated
disallowance calculated by the federal review to determine the
amount of the extrapolated disallowance for which the district is
responsible. Each district will be credited for the amount already
disallowed for any individual children or cases found to be in error
during the federal review. The exclusive appeal rights for the
review of the amount of the federal disallowance assigned to each
social services district shall be pursuant to article 78 of the
civil practice law and rules; provided, however, that in any such
action all of the social services districts shall be joined as
necessary parties and the venue of any such action shall be in Rens-
selaer county. Any social services district that fails to complete
its sample review in the required time frames shall have no right to
appeal and shall not be a necessary party to any action brought by
another social services district.

and any flexible fund for family services funds transferred at the
district's request to the title XX social services block grant must,
to the extent that families are eligible therefore, be equal to or

By chapter 53, section 1, of the laws of 2020:
Notwithstanding any inconsistent provision of law, the amount appropriated herein, shall be available under a foster care block grant for state reimbursement of eligible social services district expenditures for the provision and administration of foster care services including care, maintenance, supervision, and tuition; for supervision of foster children placed in federally funded job corps programs; for care, maintenance, supervision, and tuition for adjudicated juvenile delinquents placed in residential programs operated by authorized agencies and in out-of-state residential programs; and for the provision and administration of the kinship guardian assistance program including kinship guardianship assistance payments and payments for non-recurring guardianship expenses; except that, reimbursement from the amount appropriated herein shall not be available for tuition expenditures for foster children, including persons in need of supervision and adjudicated juvenile delinquents, made by a social services district located within a city having a population of one million or more.

Notwithstanding any other provision of law, a portion of the funds are available to reimburse social services districts for the change in the maximum state aid rates established by the office of children and family services for the 2020-21 rate year pursuant to section 398-a of the social services law and sections 4003 and 4405 of the education law to reflect the continuation of the cost of living adjustments that became effective April 1, 2008 for payments made to foster parents and for salary and fringe benefit costs and other critical nonpersonal services costs for foster care programs as determined by the office. Social services districts must adjust the amount of payments made for care provided by congregate care and foster boarding home programs and to foster parents to reflect the cost of living adjustments in the manner specified by the office. Each authorized agency operating a congregate care or foster boarding home program in New York state for which the office sets a maximum state aid rate pursuant to section 398-a of the social services law or section 4003 or 4405 of the education law shall submit, at the time and in a manner to be determined by the office, a written certification, attesting that the funds received for the continuation of the cost of living adjustment to the maximum state aid rate that became effective April 1, 2008 for that program will be or were used solely in accordance with the requirements of the cost of living adjustment established by the office.

Notwithstanding any inconsistent provision of law, for the period commencing on April 1, 2020 and ending March 31, 2021 the commissioner shall not apply any cost of living adjustment for the purpose of establishing rates of payments, contracts or any other form of reimbursement.
Within the amounts appropriated herein, state reimbursement to each social services district for services identified herein that are otherwise reimbursable by the state from April 1, 2020 through March 31, 2021 shall be limited to a district allocation, hereinafter referred to as the district's block grant allocation. Notwithstanding any other provision of law, such block grant allocation shall be based, in part, on each district's claims for such costs, adjusted by the applicable cost allocation methodology and net of any retroactive payments for the 12 month period ending June 30, 2019 that are submitted on or before January 2, 2020 and, in part, on such other factors as determined by the office of children and family services and approved by the director of the budget. Any portion of a social services district's allocation from funds appropriated herein not claimed by such district during the state fiscal year may be used by such district for expenditures on preventive services provided pursuant to section 409-a of the social services law, independent living services and aftercare services provided pursuant to regulations of the department of family assistance, claimed by such district during the next state fiscal year up to the amount remaining from the district's foster care block grant allocation, provided however, that any claims for such services during the next state fiscal year in excess of such amount shall be subject to 62 percent state reimbursement exclusive of any federal funds made available for such purposes, in accordance with directives of the department of family assistance and subject to the approval of the director of the budget. Any claims submitted by a social services district for reimbursement for a particular state fiscal year for which the social services district does not receive state or federal reimbursement during that state fiscal year may not be claimed against that district's block grant apportionment for the next state fiscal year.

The office of children and family services, with the approval of the director of the budget, may reduce a district's block grant allocation by the state share decrease related to federal retroactive reimbursement for such foster care services identified herein. The office, with the approval of the director of the budget, may reduce a district's block grant allocation by the state share of disallowances or sanctions taken against the district pursuant to the social services law or federal law.

Notwithstanding any other provision of law, the state shall not be responsible for reimbursing a social services district and a district shall not seek state reimbursement for any portion of any state disallowance or sanction taken against the social services district, or any federal disallowance attributable to final federal agency decisions or to settlement made, on or after July 1, 1995, when such disallowance or sanction results from the failure of the social services district to comply with federal or state requirements, including, but not limited to, failure to document eligibility for federal or state funds in the case record; provided, however, if the office determines that any federal disallowance for services provided between January 1, 1999 and May 31, 1999 results
solely from the late enactment of the state legislation implementing
the federal adoption and safe families act, the state shall be sole-
ly responsible for the full amount of the disallowance or sanction;
provided, further, however, this provision shall be deemed to apply
both prospectively and retroactively regardless of whether such
sanctions or disallowances are for services provided or claims made
prior to or after April 1, 2020.

Notwithstanding any other provision of law, any federal disallowance
resulting from a federal title IV-E eligibility review or audit that
uses extrapolated statistic techniques shall be passed along by the
state to any and all social services districts that the office of
children and family services has determined have not complied with
the title IV-E eligibility requirements or have not taken the neces-
sary actions to ensure compliance with such requirements including,
but not limited to, failing to: assess and fully document all the
criteria and have readily available all the necessary documents to
establish and continue title IV-E eligibility for all title IV-E
eligible children within the required time frames; claim title IV-E
funding only for cases that meet all of the title IV-E eligibility
criteria; and fully implement the social services payment system on
or before April 1, 2005 for all direct and voluntary agency foster
care services.

Notwithstanding any law to the contrary, the office of children and
family services shall impose on social services districts any feder-
al disallowance issued against the state as a result of a federal
title IV-E secondary eligibility review regardless of the date the
children may have entered foster care, the date the eligibility or
payment errors occurred, or the filing date of any federal claims
for reimbursement; provided, however, that the state shall be
responsible for the disallowed costs and expenditures related to the
placement of children in a facility operated by the office of chil-
dren and family services, which shall be determined in the same
manner as the disallowed costs and expenditures for social services
districts other than the city of New York. In order to reimburse the
federal government for the full amount of any disallowance imposed
on the state by the federal administration for children and families
within the timeframes necessary to avoid any potential interest
payments on such amount, the office of children and family services
is authorized to immediately offset funds otherwise due to each
district for a pro rata share of the total disallowed costs based on
the percentage of applicable federal title IV-E claims made by that
district for the relevant time period as compared to the total
applicable statewide title IV-E claims. The amount of the offset
against each district will be adjusted, if necessary, upon
completion of the disallowance allocation process. The final allo-
cation of the amount of any federal disallowance resulting from a
title IV-E secondary eligibility review shall be allocated among the
districts so that each district shall be responsible for the amount
attributable to each of the district's children or cases that are
determined by the federal review to be unallowable. Each district
shall also be responsible for a portion of the federal extrapolated
disallowance amount based on the relative error rate for the
district. The city of New York's error rate will be based on the
federal sample and federal statistics. For all social services
districts other than the city of New York, the error rate will be
based on a review conducted by the district of a sample of children
and/or cases determined by the office of children and family
services and a re-review of a sub-sample by the office of those
children and/or cases determined by the office. The office of chil-
dren and family services will determine what is reasonable in estab-
lishing the size of the sample and sub-sample for each district.
The office of children and family services shall notify each social
services district of the sample of children and/or cases from the
federal audit period that the social services district must review.
Any child or case from the social services district that was
included in the federal sample will automatically be included in the
social services district's review sample and the determination made
at the federal review regarding that child or case will govern for
the purposes of the social services district's review. The social
services district must complete and submit the results of its review
to the office of children and family services within 60 days of
receipt of the sample. The error rate for the district will be based
on the findings of the district's review and the office of children
and family services' re-review. If a social services district does
not complete its review within 60 days of receiving the sample from
the office of children and family services, the office of children
and family services shall assign an error rate to the social
services district based on the relative percentage of the district's
applicable title IV-E claims for the relevant period as compared to
applicable statewide title IV-E claims for that period and other
circumstances that the office of children and family services may
consider in order to allocate 100 percent of the federal disallow-
ance. The office of children and family services shall apply each
social services district's error rate to the total amount of the
district's applicable title IV-E claims including associated admin-
istrative expenses. The resulting dollar amounts for all of the
social services districts will be summed to derive the total amount
of title IV-E claims deemed to be in error statewide. To establish a
disallowance percentage for each social services district, the
amount of the district's title IV-E claims deemed to be in error
will be divided by the amount of statewide title IV-E claims deemed
to be in error. The resulting disallowance percentage for each
district will be applied to the entire title IV-E extrapolated
disallowance calculated by the federal review to determine the
amount of the extrapolated disallowance for which the district is
responsible. Each district will be credited for the amount already
disallowed for any individual children or cases found to be in error
during the federal review. The exclusive appeal rights for the
review of the amount of the federal disallowance assigned to each
social services district shall be pursuant to article 78 of the
civil practice law and rules; provided, however, that in any such
action all of the social services districts shall be joined as
necessary parties and the venue of any such action shall be in Rens-
selaer county. Any social services district that fails to complete
its sample review in the required time frames shall have no right to
appeal and shall not be a necessary party to any action brought by
another social services district.
The money hereby appropriated is to be available for payment of state
aid heretofore accrued or hereafter to accrue to municipalities.
Subject to the approval of the director of the budget, such funds
shall be available to the office net of disallowances, refunds,
reimbursements, and credits.
Notwithstanding any inconsistent provision of law, the amount herein
appropriated may be transferred to any other appropriation within
the office of children and family services and/or the office of
temporary and disability assistance and/or suballocated to the
office of temporary and disability assistance for the purpose of
paying local social services districts' costs of the above program
and may be increased or decreased by interchange with any other
appropriation or with any other item or items within the amounts
appropriated within the office of children and family services
general fund - local assistance account with the approval of the
director of the budget who shall file such approval with the depart-
ment of audit and control and copies thereof with the chairman of
the senate finance committee and the chairman of the assembly ways
and means committee.
Notwithstanding any inconsistent provision of law, in lieu of payments

otherwise due to the local social services districts for programs
provided under the federal social security act or the federal food

state comptroller or the state commissioner of health as due from
local social services districts each month as their share of
payments made pursuant to section 367-b of the social services law
may be set aside by the state comptroller in an interest bearing
account with such interest accruing to the credit of the locality in
order to ensure the orderly and prompt payment of providers under
section 367-b of the social services law pursuant to an estimate
provided by the commissioner of health of each local social services
district's share of payments made pursuant to section 367-b of the
social services law.
Notwithstanding the provisions of any other law to the contrary, the
office of children and family services may, on behalf of social
services districts, make payments to foster boarding homes paid

the costs of administering such direct deposit or debit card
payments.
Notwithstanding any inconsistent provision of the social services law
or the state finance law, the office of children and family services
shall, on a quarterly basis, request that the office of temporary
and disability assistance reimburse the office of children and fami-

such direct deposit or debit card payments to capture the local share of such costs.

The money hereby appropriated is to be available for payment of state aid heretofore accrued or hereafter to accrue to municipalities. Subject to the approval of the director of the budget, such funds shall be available to the office net of disallowances, refunds, reimbursements, and credits; provided, however, that notwithstanding any other provision of law, for a district to receive reimbursement for such services, the amount of funds that the district expends on such services from its flexible fund for family services allocation and any flexible fund for family services funds transferred at the district's request to the title XX social services block grant must, to the extent that families are eligible therefore, be equal to or greater than the district's portion of the $382,322,341 statewide child welfare threshold amount, which shall be established pursuant to a formula developed by the office of temporary and disability assistance and the office of children and family services and approved by the director of the budget.

The appropriation made by chapter 53, section 1, of the laws of 2018, is
hereby amended and reappropriated to read:

Notwithstanding any other provision of law, the amount appropriated
herein shall be available to reimburse for 98 percent of 65 percent
of eligible social services district expenditures that are claimed
by March 31, 2019 for those community preventive services provided
from October 1, 2017 through September 30, 2018 at a cost that does
not exceed the cost that was in effect on October 1, 2008 and that a
social services district can demonstrate had been approved by the
office of children and family services on or before October 1, 2008;
provided, however, that should insufficient funds be available to
provide state reimbursement for 98 percent of 65 percent of such
costs, reimbursement shall be made proportionally to each district
based on the percentage of their total eligible claims to the amount
appropriated; and, provided further, however, that if the amount
appropriated exceeds the amount of funds necessary to reimburse 98
percent of 65 percent of the eligible social services district
expenditures, the office may, to the extent funds are available,
provide reimbursement for 98 percent of 65 percent of eligible
social services district expenditures for new community preventive
services programs approved by the office and only up to the amounts
approved by the office. A local social services district seeking
federal and/or state reimbursement for community preventive services
provided on or after October 1, 2017 must submit claims that separately identify the costs of such services in a form and manner and at such times as are required by the department of family assistance and that information regarding outcome based measures that demonstrate quality of services provided and program effectiveness be submitted to the office of children and family services in a form and manner and at such times as required by the office. Of the amount appropriated herein, up to $1 million may be used to provide additional funding to an eligible program or programs with evaluation results that show program effectiveness and demonstrate private monetary support as determined by the office of children and family services and approved by the director of the budget (13999) ...

Notwithstanding any other provision of law, for suballocation to the office of mental health and subsequently for suballocation from the office of mental health to the department of health for 94 percent of 65 percent of the nonfederal share of medical assistance payments for home and community based waiver services provided in accordance with subdivision 9 of section 366 of the social services law as authorized by selected social services districts which choose to use preventive services funds to support such costs and to authorize the office of temporary and disability assistance to intercept funds otherwise due to the districts to provide the 38.9 percent local share of such preventive services expenditures.

Notwithstanding any inconsistent provision of law, including section 1 of part C of chapter 57 of the laws of 2006, as amended by part I of chapter 60 of the laws of 2014, for the period commencing on April 1, 2018 and ending March 31, 2019 the commissioner shall not apply any cost of living adjustment for the purpose of establishing rates of payments, contracts or any other form of reimbursement (14001) ...

For services and expenses of the office of children and family services and local social services districts for activities necessary to comply with certain provisions of the adoption and safe families act of 1997 (P.L. 105-89) and chapter 7 of the laws of 1999 and chapter 668 of the laws of 2006 requiring criminal record checks for foster care parents, prospective adoptive parents, and adult household members. Funds appropriated herein shall be made available in accordance with a plan to be developed by the commissioner of the office of children and family services and approved by the director of the budget.

Notwithstanding any other provision of law to the contrary, the following appropriation shall be net of refunds, rebates, reimbursements and credits. Funds appropriated herein shall be available for 94 percent of 98 percent of one-half of the non-federal share of the national and state fees for fingerprinting foster care parents, prospective adoptive parents, and other adult household members. Notwithstanding any inconsistent provision of law, and pursuant to chapter 7 of the laws of 1999 and chapter 668 of the laws of 2006, local social services districts shall reimburse the commissioner of the office of children and family services for an amount equal to
53.94 percent of the non-federal share of the cost of obtaining state and national fingerprint records. Notwithstanding any inconsistent provision of law, and pursuant to chapter 7 of the laws of 1999 and chapter 668 of the laws of 2006, the commissioner of the office of children and family services shall, on behalf of local social services districts, make payments to the division of criminal justice services for processing of state and national criminal record checks and any other related costs. The commissioner shall ensure expenditures made pursuant to this provision reflect appropriate federal and local shares. The commissioner of the office of children and family services shall request that the commissioner of the office of temporary and disability assistance reimburse the commissioner of the office of children and family services in an amount equal to 53.94 percent of the nonfederal share of such payments provided that such reimbursement in payments reflects actual expenditures made on behalf of each local social services district to capture the local share of such costs.

Notwithstanding any inconsistent provision of the social services law or the state finance law, the commissioner shall, on a quarterly basis, request that the commissioner of the office of temporary and disability assistance reimburse the commissioner of the office of children and family services in an amount equal to 53.94 percent of the non-federal share of such fees to capture the local share of such fees. Such reimbursement shall occur on or before the one hundred and twentieth day following the close of the preceding quarter and shall be charged among districts based on the number of children currently placed in foster care in each local social services district provided that this methodology is revised quarterly to reflect most current available data. Amounts appropriated herein may, subject to the director of the budget, be interchanged or transferred with any other appropriation of the office of children and family services or the office of temporary and disability assistance as necessary to reimburse the state share of local social services district costs appropriated herein (14002) ................ 1,857,000 ......................................... (re. $147,000)

The money hereby appropriated is to be available for payment of state aid heretofore accrued or hereafter to accrue to municipalities. Subject to the approval of the director of the budget, the money hereby appropriated shall be available to the office net of disallowances, refunds, reimbursements, and credits.

Notwithstanding any inconsistent provision of law, the amount herein appropriated may be transferred to any other appropriation within
the office of children and family services and/or the office of
temporary and disability assistance and/or suballocated to the
office of temporary and disability assistance for the purpose of
paying local social services districts' costs of the above program
and may be increased or decreased by interchange with any other
appropriation or with any other item or items within the amounts
appropriated within the office of children and family services
general fund - local assistance account with the approval of the
director of the budget who shall file such approval with the depart-
ment of audit and control and copies thereof with the chairman of
the senate finance committee and the chairman of the assembly ways
and means committee.

Notwithstanding any inconsistent provision of law, in lieu of payments
authorized by the social services law, or payments of federal funds
otherwise due to the local social services districts for programs
provided under the federal social security act or the federal food
stamp act, funds herein appropriated, in amounts certified by the
state commissioner or the state commissioner of health as due from
local social services districts each month as their share of
payments made pursuant to section 367-b of the social services law

account with such interest accruing to the credit of the locality in
order to ensure the orderly and prompt payment of providers under
section 367-b of the social services law pursuant to an estimate
provided by the commissioner of health of each local social services
district's share of payments made pursuant to section 367-b of the
social services law.

law to the contrary, the amount appropriated herein, or such other
amount as may be approved by the director of the budget, shall be
available for 94 percent of 98 percent of 50 percent reimbursement
after deducting any federal funds available therefor to social
services districts for amounts attributable to dormitory authority
billings or approved refinancing of such billings which result in
local social services districts' claims in excess of a local
district's foster care block grant allocation. In addition, subject
to the approval of the director of the budget, a portion of funds
appropriated herein, or such other amount as may be approved by the
director of the budget, shall be available for reimbursement related
to payments made by a social services district to foster care
providers subject to the provisions of section 410-i of the social
services law for expenses directly related to projects funded
through the housing finance agency for those foster care providers
which also received revised or supplemental rates from the applica-
ble regulating agency to accommodate the housing finance agency
payments or the refinancing of previously approved dormitory author-
ity payments.

Notwithstanding section 398-a of the social services law or any other
law to the contrary, such reimbursement shall be available for 94
percent of 98 percent of 50 percent of social services district
costs, after deducting federal funds available therefor, for those

The appropriation made by chapter 53, section 1, of the laws of 2017, is  
hereby amended and reappropriated to read:
Notwithstanding any other provision of law, the amount appropriated  
herein shall be available to reimburse for 98 percent of 65 percent  
of eligible social services district expenditures that are claimed  
by March 31, 2018 for those community preventive services provided  
from October 1, 2016 through September 30, 2017 at a cost that does  
not exceed the cost that was in effect on October 1, 2008 and that a  
social services district can demonstrate had been approved by the  
office of children and family services on or before October 1, 2008;  
provided, however, that should insufficient funds be available to  
provide state reimbursement for 98 percent of 65 percent of such  
costs, reimbursement shall be made proportionally to each district  
based on the percentage of their total eligible claims to the amount  
appropriated; and, provided further, however, that if the amount  
appropriated exceeds the amount of funds necessary to reimburse 98  
percent of 65 percent of the eligible social services district  
expenditures, the office may, to the extent funds are available,  
provide reimbursement for 98 percent of 65 percent of eligible
social services district expenditures for new community preventive services programs approved by the office and only up to the amounts approved by the office. A local social services district seeking federal and/or state reimbursement for community preventive services provided on or after October 1, 2016 must submit claims that separately identify the costs of such services in a form and manner and at such times as are required by the department of family assistance and that information regarding outcome based measures that demonstrate quality of services provided and program effectiveness be submitted to the office of children and family services in a form and manner and at such times as required by the office. Of the amount appropriated herein, up to $1 million may be used to provide additional funding to an eligible program or programs with evaluation results that show program effectiveness and demonstrate private monetary support as determined by the office of children and family services and approved by the director of the budget (13999) $12,124,750 ...................................... (re. $268,000)

Notwithstanding any other provision of law, for suballocation to the office of mental health and subsequently for suballocation from the office of mental health to the department of health for 94 percent of 65 percent of the nonfederal share of medical assistance payments for home and community based waiver services provided in accordance with subdivision 9 of section 366 of the social services law as authorized by selected social services districts which choose to use preventive services funds to support such costs and to authorize the office of temporary and disability assistance to intercept funds otherwise due to the districts to provide the 38.9 percent local share of such preventive services expenditures.

Notwithstanding any inconsistent provision of law, including section 1 of part C of chapter 57 of the laws of 2006, as amended by part I of chapter 60 of the laws of 2014, for the period commencing on April 1, 2017 and ending March 31, 2018 the commissioner shall not apply any cost of living adjustment for the purpose of establishing rates of payments, contracts or any other form of reimbursement (14001) $6,213,000 ..................................... (re. $1,410,000)

For services and expenses of the office of children and family services and local social services districts for activities necessary to comply with certain provisions of the adoption and safe families act of 1997 (P.L. 105-89) and chapter 7 of the laws of 1999 and chapter 668 of the laws of 2006 requiring criminal record checks for foster care parents, prospective adoptive parents, and adult household members. Funds appropriated herein shall be made available in accordance with a plan to be developed by the commissioner of the office of children and family services and approved by the director of the budget. Funds appropriated herein shall be available for 94 percent of 98 percent of one-half of the non-federal share of the national and state fees for fingerprinting foster care parents, prospective adoptive parents, and other adult household members. Notwithstanding any inconsistent provision of law, and pursuant to chapter 7 of the laws of 1999 and chapter 668 of the laws of 2006, local social services districts shall reimburse the commissioner of
the office of children and family services for an amount equal to 53.94 percent of the non-federal share of the cost of obtaining state and national fingerprint records. Notwithstanding any inconsistent provision of law, and pursuant to chapter 7 of the laws of 1999 and chapter 668 of the laws of 2006, the commissioner of the office of children and family services shall, on behalf of local social services districts, make payments to the division of criminal justice services for processing of state and national criminal record checks and any other related costs. The commissioner shall ensure expenditures made pursuant to this provision reflect appropriate federal and local shares. The commissioner of the office of children and family services shall request that the commissioner of the office of temporary and disability assistance reimburse the commissioner of the office of children and family services in an amount equal to 53.94 percent of the nonfederal share of such payments provided that such reimbursement in payments reflects actual expenditures made on behalf of each local social services district to capture the local share of such costs. Notwithstanding any inconsistent provision of the social services law or the state finance law, the commissioner shall, on a quarterly basis, request that the commissioner of the office of temporary and disability assistance reimburse the commissioner of the office of children and family services in an amount equal to 53.94 percent of the non-federal share of such fees to capture the local share of such fees. Such reimbursement shall occur on or before the one hundred and twentieth day following the close of the preceding quarter and shall be charged among districts based on the number of children currently placed in foster care in each local social services district provided that this methodology is revised quarterly to reflect most current available data. Amounts appropriated herein may, subject to the director of the budget, be interchanged or transferred with any other appropriation of the office of children and family services or the office of temporary and disability assistance as necessary to reimburse the state share of local social services district costs appropriated herein (14002) ................. 1,857,000 ........................................... Notwithstanding any inconsistent provision of law, the amount herein appropriated may be transferred to any other appropriation within the office of children and family services and/or the office of temporary and disability assistance and/or suballocated to the office of temporary and disability assistance for the purpose of paying local social services districts' costs of the above program

Funds appropriated herein shall be made available for eligible services provided consistent with plans that cover juvenile delinquents in non-secure and limited secure settings submitted by a city with a population in excess of one million and approved by the office of children and family services and the director of the budget. Notwithstanding any inconsistent provision of law, the amount appropriated herein shall be available under the supervision and treatment services for juveniles program for 62 percent state reimbursement to counties and the city of New York for eligible expenditures for the provision and administration of eligible supervision and
treatment services for juveniles programs during the period of April 1, 2014 through March 31, 2015 that have been approved by the office of children and family services pursuant to a plan approved by the director of the budget; provided, however, if a municipality is unable to use or claim all of its allocation for such program period within the required time frames, the municipality may apply to the office of children and family services for a waiver to permit the municipality to continue to have the funds available to it for an additional one-year program period upon a showing and certification by the municipality that such funds will be used only to reimburse the municipality for eligible expenditures for eligible services provided during the period of April 1, 2014 through March 31, 2015 for which the municipality was unable to claim within the required timeframes and for non-recurring eligible services or expenses that will occur during the period April 1, 2015 through March 31, 2016. Any funds that are remaining after all such waivers have been approved may be used to provide additional reimbursement to those counties that chose to transfer funds from their detention block grants into their supervision and treatment services for juveniles programs for the April 1, 2014 through March 31, 2015 program period proportionately to the amount each such district transferred.

Notwithstanding paragraph (a) of subdivision 1 of section 529-b of the executive law or any other law to contrary, a municipality that was eligible for a minimum funding allocation under the supervision and treatment services for juveniles program for state fiscal year 2013-14 but did not submit an application for such funds may apply to the office of children and family services for a waiver of the local share requirement for the program funds for state fiscal year 2014-15 upon a showing that the municipality has fiscal issues that significantly impact its ability to provide the required local share and that providing the program funds to the municipality without a local share will enable the municipality to implement services designed to decrease the use of detention or residential care for such youth.

Within the amounts appropriated herein, state reimbursement shall be limited to the amount of such municipality's distribution. Notwithstanding section 153 of the social services law or any inconsistent provision of law, funds appropriated herein shall be provided without state or local participation except that for social services districts with a population of five million or more, reimbursement for emergency assistance to families costs will be ninety percent. Funds appropriated herein shall also include the cost of providing shelter supplements for family assistance households at local option, including eligible households containing a household member who has been released from prison, in order to prevent eviction and address homelessness in accordance with social services district plans approved by the office of temporary and disability assistance and the director of the budget, provided, however, that in social services districts with a population over five million no shelter supplements other than those to prevent eviction shall be reimbursed unless such social services district has agreed to offset claims for other eligible public assistance expenditures in an amount commensurate with the cost of any such supplement, and further provided that such supplements shall not be part of the standard of need pursuant to section 131-a of the social services law.

Funds appropriated herein shall also reimburse for family assistance expenditures for emergency shelter, transportation, or nutrition payments which the district determines are necessary to establish or maintain independent living arrangements among persons living with medically diagnosed HIV infection as defined by the AIDS institute of the State department of health and who are homeless or facing homelessness and for whom no viable and less costly alternative to housing is available; provided, however, that funds appropriated herein may only be used for such purposes if the cost of such allowances are not eligible for reimbursement under medical assistance or other programs.

For persons living with medically diagnosed HIV infection as defined by the AIDS institute of the state department of health who are receiving public assistance funds appropriated herein shall not be used to reimburse the additional rental costs determined based on limiting such person's earned and/or unearned income contribution to 30 percent.

Each social services district must certify to the office of children and family services and the office of temporary and disability assistance, within 90 days of enactment of the budget but before August 15, 2018, the amount of funds it wishes to have transferred under this provision.

2023 through March 31, 2024, shall not
exceed $27,415,894,000, but in no event
shall department of health state funds
medicaid spending for the period April 1,
2022 through March 31, 2024 exceed
$53,352,781,000 provided, however, such
aggregate limits may be adjusted by the
director of the budget to account for any
changes in the New York state federal
medical assistance percentage amount
established pursuant to the federal social
security act, increases in provider reven-
ues, reductions in local social services
district payments for medical assistance
administration, minimum wage increases,
and beginning April 1, 2012 the opera-
tional costs of the New York state medical
indemnity fund, pursuant to chapter 59 of
the laws of 2011, and state costs or
savings from the essential plan program.
Such projections may be adjusted by the
director of the budget to account for
increased or expedited department of
health state funds medicaid expenditures
as a result of a natural or other type of
disaster, including a governmental decla-
ration of emergency.
The director of the budget, in consultation
with the commissioner of health, shall
assess on a quarterly basis known and
projected medicaid expenditures by catego-
ry of service and by geographic region, as
determined by the commissioner of health,
incurred both prior to and subsequent to
such assessment for each such period, and
if the director of the budget determines
that such expenditures are expected to
cause medicaid spending for such period to
exceed the aggregate limit specified here-
in for such period, the state medicaid
director, in consultation with the direc-
tor of the budget and the commissioner of
health, shall develop a medicaid savings
allocation adjustment to limit such spend-
ing to the aggregate limit specified here-
in for such period.
Such medicaid savings allocation adjustment
shall be designed, to reduce the expendi-
tures authorized by the appropriations
herein in compliance with the following
guidelines: (1) reductions shall be made
in compliance with applicable federal law,
including the provisions of the Patient
Protection and Affordable Care Act, Public
Law No. 111-148, and the Health Care and
Education Reconciliation Act of 2010,
Public Law No. 111-152 (collectively
"Affordable Care Act") and any subsequent

AID TO LOCALITIES  2022-23

amendments thereto or regulations promulgated thereunder; (2) reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver authority, to implement the provisions of the medicaid savings allocation adjustment that meets the other criteria set forth herein; (3) reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the Affordable Care Act; (4) reductions shall be made uniformly among categories of services and geographic regions of the state, to the extent practicable, and shall be made uniformly within a category of service, to the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific categories of services contributed to department of health medicaid state funds spending in excess of the limits specified herein; the need to maintain safety net services in underserved communities; or the potential benefits of pursuing innovative payment models contemplated by the Affordable Care Act, in which case such grounds shall be set forth in the medicaid savings allocation adjustment; and (5) reductions shall be made in a manner that does not unnecessarily create administrative burdens to medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation adjustment, to the extent that all or part of such adjustment, in the discretion of the commissioner, is likely
to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation adjustment on the department of health's website and shall provide written copies of such adjustment to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

(b) The commissioner may revise the medicaid savings allocation adjustment subsequent to the provisions of notice and prior to implementation but needs to provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that such revisions materially alter the adjustment.

Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this subdivision if, in the discretion of the commissioner, expedited development and implementation of a medicaid savings allocation adjustment is necessary due to a public health emergency.

For purposes of this section, a public health emergency is defined as: (i) a disaster, natural or otherwise, that significantly increases the immediate need for health care personnel in an area of the state; (ii) an event or condition that creates a widespread risk of exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or (iii) any other event or condition determined by the commissioner to constitute an imminent threat to public health.

Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation adjustment from taking effect retroactively to the extent permitted by the federal centers for medicare and medicaid services.
In accordance with the medicaid savings allocation adjustment, the commissioner of the department of health shall reduce department of health state funds medicaid spending by the amount of the projected overspending through, actions including, but not limited to modifying or suspending reimbursement methods, including but not limited to all fees, premium levels and rates of payment, notwithstanding any provision of law that sets a specific amount or methodology for any such payments or rates of payment; modifying medicaid program benefits; seeking all necessary federal approvals, including, but not limited to waivers, waiver amendments; and suspending time frames for notice, approval or certification of rate requirements, notwithstanding any provision of law, rule or regulation to the contrary, including but not limited to sections 2807 and 3614 of the public health law, section 18 of chapter 2 of the laws of 1988, and 18 NYCRR 505.14(h).

The department of health shall prepare a quarterly report that sets forth: (a) known and projected department of health medicaid expenditures as described in subdivision (1) of this section, and factors that could result in medicaid disbursements for the relevant state fiscal year to exceed the projected department of health state funds disbursements in the enacted budget financial plan pursuant to subdivision 3 of section 23 of the state finance law, including spending increases or decreases due to: enrollment fluctuations, rate changes, utilization changes, MRT investments, and shift of beneficiaries to managed care; and variations in offline medicaid payments; and (b) the actions taken to implement any medicaid savings allocation adjustment implemented pursuant to subdivision (4) of this section, including information concerning the impact of such actions on each category of service and each geographic region of the state. Each such quarterly report shall be provided to the chairs of the senate finance and the assembly ways and means committees and
shall be posted on the department of health's website in a timely manner.

The money hereby appropriated is available for payment of liabilities heretofore and hereafter accrued and shall be available to the department net of disallowances, refunds, reimbursements, and credits.

Notwithstanding any other provision of law, the money hereby appropriated may be increased or decreased by interchange or transfer, with any appropriation of the department of health, and may be increased or decreased by transfer or suballocation between these appropriated amounts and appropriations of the office of mental health, the office for people with developmental disabilities, the office of addiction services and supports, the department of family assistance office of temporary and disability assistance, the department of corrections and community supervision, the office of information technology services, the state university of New York, the state office for the aging, the office of the medicaid inspector general, and office of children and family services with the approval of the director of the budget, who shall file such approval with the department of audit and control and copies thereof with the chairman of the senate finance committee and the chairman of the assembly ways and means committee.

Notwithstanding any inconsistent provision of law, in lieu of payments authorized by the social services law, or payments of federal funds otherwise due to the local social services districts for programs provided under the federal social security act or the federal food stamp act, funds herein appropriated, in amounts certified by the state commissioner of temporary and disability assistance or the state commissioner of health as due from local social services districts each month as their share of payments made pursuant to section 367-b of the social services law may be set aside by the state comptroller in an interest-bearing account in order to ensure the orderly and prompt payment of providers under section 367-b of the social services law pursuant to an esti-

Local Assistance Account - 10000

For the medical assistance program, including administrative expenses, for local social services districts, and for medical care rates for authorized child care agencies.

Notwithstanding section 40 of the state finance law or any other law to the contrary, all medical assistance appropri-
ctions made from this account shall remain in full force and effect in accordance, in the aggregate, with the following schedule: not more than 48 percent for the period April 1, 2022 to March 31, 2023; and the remaining amount for the period April 1, 2023 to March 31, 2024.

Notwithstanding section 40 of the state finance law or any provision of law to the contrary, subject to federal approval, department of health state funds medicaid spending, excluding payments for medical services provided at state facilities operated by the office of mental health, the office for people with developmental disabilities and the office of addiction services and supports and further excluding any payments which are not appropriated within the department of health, in the aggregate, for the period April 1, 2022 through March 31, 2023, shall not exceed $25,936,887,000 except as provided below and state share medicaid spending, in the aggregate, for the period April 1, 2023 through March 31, 2024, shall not exceed $27,415,894,000, but in no event shall department of health state funds medicaid spending for the period April 1, 2022 through March 31, 2024 exceed $53,352,781,000. Provided, however, such aggregate limits may be adjusted by the director of the budget to account for any changes in the New York state federal medical assistance percentage amount established pursuant to the federal social security act, increases in provider revenues, reductions in local social services district payments for medical assistance administration, minimum wage increases, and beginning April 1, 2012 the operational costs of the New York state medical indemnity fund, pursuant to chapter 59 of the laws of 2011, and state costs or savings from the essential plan program. Such projections may be adjusted by the director of the budget to account for increased or expedited department of health state funds medicaid expenditures as a result of a natural or other type of disaster, including a governmental declaration of emergency.
The director of the budget, in consultation with the commissioner of health, shall assess on a quarterly basis known and projected medicaid expenditures by category of service and by geographic region, as defined by the commissioner, incurred both prior to and subsequent to such assessment for each such period, and if the director of the budget determines that such expenditures are expected to cause medicaid spending for such period to exceed the aggregate limit specified herein for such period, the state medicaid director, in consultation with the director of the budget and the commissioner of health, shall develop a medicaid savings allocation adjustment to limit such spending to the aggregate limit specified herein for such period.

Such medicaid savings allocation adjustment shall be designed, to reduce the expenditures authorized by the appropriations herein in compliance with the following guidelines: (1) reductions shall be made in compliance with applicable federal law, including the provisions of the Patient Protection and Affordable Care Act, Public Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No. 111-152 (collectively "Affordable Care Act") and any subsequent amendments thereto or regulations promulgated thereunder; (2) reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver authority, to implement the provisions of the medicaid savings allocation adjustment that meets the other criteria set forth herein; (3) reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the Affordable Care Act; (4) reductions shall be made uniformly among categories of

services and geographic regions of the state, to the extent practicable, and shall be made uniformly within a category of service, to the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific categories of services contributed to department of health medicaid state funds spending in excess of the limits specified herein; the need to maintain safety net services in underserved communities; or the potential benefits of pursuing innovative payment models contemplated by the Affordable Care Act, in which case such grounds shall be set forth in the medicaid savings allocation adjustment; and (5) reductions shall be made in a manner that does not unnecessarily create administrative burdens to medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation adjustment, to the extent that all or part of such adjustment, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation adjustment on the department of health's website and shall provide written copies of such adjustment to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

(b) The commissioner may revise the medicaid savings allocation adjustment subsequent to the provisions of notice and prior to implementation but needs to provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that such revisions materially alter the adjustment.
Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this subdivision if, in the discretion of the commissioner, expedited development and implementation of a medicaid savings allocation adjustment is necessary due to a public health emergency.

For purposes of this section, a public health emergency is defined as: (i) a disaster, natural or otherwise, that significantly increases the immediate need for health care personnel in an area of the state; (ii) an event or condition that creates a widespread risk of exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or (iii) any other event or condition determined by the commissioner to constitute an imminent threat to public health.

Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation adjustment from taking effect retroactively to the extent permitted by the federal centers for medicare and medicaid services.

In accordance with the medicaid savings allocation adjustment, the commissioner of the department of health shall reduce department of health state funds medicaid spending by the amount of the projected overspending through, actions including, but not limited to modifying or suspending reimbursement methods, including but not limited to all fees, premium levels and rates of payment, notwithstanding any provision of law that sets a specific amount or methodology for any such payments or rates of payment; modifying or discontinuing medicaid program benefits; seeking all necessary federal approvals, including, but not limited to waivers, waiver amendments; and suspending time frames for notice, approval or certification of rate requirements, notwithstanding any provision of law, rule or regulation to the contrary, including but not limited to sections 2807 and 3614 of

AID TO LOCALITIES  2022–23

the public health law, section 18 of chapter 2 of the laws of 1988, and 18 NYCRR 505.14(h).

The department of health shall prepare a quarterly report that sets forth: (a) known and projected department of health medicaid expenditures as described in subdivision (1) of this section, and factors that could result in medicaid disbursements for the relevant state fiscal year to exceed the projected department of health state funds disbursements in the enacted budget financial plan pursuant to subdivision 3 of section 23 of the state finance law, including spending increases or decreases due to: enrollment fluctuations, rate changes, utilization changes, MRT investments, and shift of beneficiaries to managed care; and variations in offline medicaid payments; and (b) the actions taken to implement any medicaid savings allocation adjustment implemented pursuant to subdivision (4) of this section, including information concerning the impact of such actions on each category of service and each geographic region of the state. Each such quarterly report shall be provided to the chairs of the senate finance and the assembly ways and means committees and shall be posted on the department of health's website in a timely manner.

The money hereby appropriated is to be available for payment of aid heretofore accrued or hereafter accrued to municipalities, and to providers of medical services pursuant to section 367-b of the social services law, and for payment of state aid to municipalities and to providers of family care where payment systems through the fiscal intermediaries are not operational.

Notwithstanding any inconsistent provision of law to the contrary, funds may be used by the department for outside legal assistance on issues involving the federal government, the conduct of preadmission screening and annual resident reviews required by the state's medicaid program, computer matching with insurance carriers to insure that medicaid is the payer of last resort and activities related to the
management of the pharmacy benefit available under the medicaid program.

Notwithstanding any inconsistent provision of law, in lieu of payments authorized by the social services law, or payments of federal funds otherwise due to the local social services districts for programs provided under the federal social security act or the federal food stamp act, funds herein appropriated, in amounts certified by the state commissioner of temporary and disability assistance or the state commissioner of health as due from local social services districts each month as their share of payments made pursuant to section 367-b of the social services law may be set aside by the state comptroller in an interest-bearing account in order to ensure the orderly and prompt payment of providers under section 367-b of the social services law pursuant to an estimate provided by the commissioner of health of each local social services district's share of payments made pursuant to section 367-b of the social services law.

Notwithstanding any inconsistent provision of law, funding made available by these appropriations shall support direct salary costs and related fringe benefits within the medical assistance program associated with any minimum wage increase that takes effect during the timeframe of these appropriations, pursuant to section 652 of the labor law. Each eligible organization in receipt of funding made available by these appropriations may be required to submit written certification, in such form and at such time the commissioner may prescribe, attesting to the total amount of funds used by the eligible organization, how such funding will be or was used for purposes eligible under these appropriations and any other reporting deemed necessary by the commissioner. The amounts appropriated herein may include advances to organizations authorized to receive such funds to accomplish this purpose.

Notwithstanding any other provision of law, the money hereby appropriated may be increased or decreased by interchange or transfer, with any appropriation of the
department of health and the office of
medicaid inspector general and may be
increased or decreased by transfer or
suballocation between these appropriated
amounts and appropriations of the depart-
ment of health state purpose account, the

for the aging with the approval of the
director of the budget, who shall file
such approval with the department of audit
and control and copies thereof with the
chairman of the senate finance committee
and the chairman of the assembly ways and
means committee.

Notwithstanding any inconsistent provision
of law to the contrary, the moneys hereby
appropriated may be used for payments to
the centers for medicaid and medicare
services for obligations incurred related
to the pharmaceutical costs of dually
eligible medicare/medicaid beneficiaries

dents of the state, providers of transpor-
tation services, that are altered,
amended, adjusted or otherwise changed by
a local social services district unless
previously approved by the department of
health and the director of the budget.

Notwithstanding any inconsistent provision
of law to the contrary, funds shall be
made available to the commissioner of the
office of mental health or the commission-
er of the office of addiction services and
supports, in consultation with the commis-
sioner of health and approved by the
director of the budget, and consistent
with appropriations made therefor, to

that are licensed pursuant to both article
31 of the mental hygiene law and article
28 of the public health law, or certified
under both article 32 of the mental
hygiene law and article 28 of the public

Such projections may be adjusted by the direc-
The director of the budget, in consultation with the commissioner of health, shall assess on a quarterly basis known and projected medicaid expenditures by category of service and by geographic region, as determined by the commissioner of health, incurred both prior to and subsequent to such assessment for each such period, and if the director of the budget determines that such expenditures are expected to cause medicaid spending for such period to exceed the aggregate limit specified herein for such period, the state medicaid director, in consultation with the director of the budget and the commissioner of health, shall develop a medicaid savings allocation adjustment to limit such spending to the aggregate limit specified herein for such period.

Such medicaid savings allocation adjustment shall be designed, to reduce the expenditures authorized by the appropriations herein in compliance with the following guidelines: (1) reductions shall be made in compliance with applicable federal law, including the provisions of the Patient Protection and Affordable Care Act, Public Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No. 111-152 (collectively "Affordable Care Act") and any subsequent amendments thereto or regulations promulgated thereunder; (2) reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver authority, to implement the provisions of the medicaid savings allocation adjustment that meets the other criteria set forth herein; (3) reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable,
including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the Affordable Care Act; (4) reductions shall be made uniformly among categories of services and geographic regions of the state, to the extent practicable, and shall be made uniformly within a category of service, to the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific categories of services contributed to department of health medicaid state funds spending in excess of the limits specified herein; the need to maintain safety net services in underserved communities; or the potential benefits of pursuing innovative payment models contemplated by the Affordable Care Act, in which case such grounds shall be set forth in the medicaid savings allocation adjustment; and (5) reductions shall be made in a manner that does not unnecessarily create administrative burdens to medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation adjustment, to the extent that all or part of such adjustment, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation adjustment on the department of health's website and shall provide written copies of such plan to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

(b) The commissioner may revise the medicaid savings allocation adjustment subsequent to the provisions of notice and prior to

determines, in his or her discretion, that
such revisions materially alter the plan.
Notwithstanding the provisions of paragraphs
(a) and (b) of this subdivision, the
commissioner need not seek the input
described in paragraph (a) of this subdi-
vision or provide notice pursuant to para-
graph (b) of this subdivision if, in the
discretion of the commissioner, expedited
development and implementation of a medi-
caid savings allocation adjustment is
necessary due to a public health emergen-

serious communicable disease, or the
potential for such widespread risk of
exposure; or (iii) any other event or
condition determined by the commissioner
to constitute an imminent threat to public
health.

Nothing in this paragraph shall be deemed to
prevent all or part of such medicaid
savings allocation adjustment from taking
effect retroactively to the extent permit-
ted by the federal centers for medicare
and medicaid services.

In accordance with the medicaid savings
allocation adjustment, the commissioner of
the department of health shall reduce
department of health state funds medicaid
spending by the amount of the projected
overspending through, actions including,
but not limited to modifying or suspending
reimbursement methods, including but not
limited to all fees, premium levels and
rates of payment, notwithstanding any
provision of law that sets a specific
amount or methodology for any such
payments or rates of payment; modifying
medicaid program benefits; seeking all
necessary federal approvals, including,
but not limited to waivers, waiver amend-
ments; and suspending time frames for

pursuant to subdivision 3 of section 23 of
the state finance law, including spending
increases or decreases due to: enrollment

medicaid savings allocation adjustment
implemented pursuant to subdivision (4) of
this section, including information
concerning the impact of such actions on
each category of service and each

MEDICAL ASSISTANCE ADMINISTRATION PROGRAM

General Fund

Local Assistance Account - 10000
The appropriation made by chapter 53, section 1, of the laws of 2021, is hereby amended and reappropriated to read:

For reimbursement of local administrative expenses for medical assistance programs and for state administration of medical assistance programs, notwithstanding section 153 of the social services law, to include the performance of eligibility and enrollment determinations by the state or third-party entities designated by the state to perform such services.

Notwithstanding any provision of law to the contrary, subject to the approval of the director of budget, up to $23,000,000 of the amount appropriated herein shall be available for the purpose of providing payments to local social services districts for medical assistance administration claims that exceed an administrative ceiling established by the commissioner of health.

Notwithstanding any inconsistent provision of law and subject to the approval of the director of budget, moneys hereby appropriated may be increased or decreased by transfer or interchange between these appropriated amounts and appropriations of the medical assistance administration program, the medical assistance program, and the office of health insurance programs. Funding authority from this account used for state administration of the medical assistance program may be transferred to state operations appropriations within the aforementioned programs at amounts agreed upon by the commissioner of health, and the New York state division of the budget.

Notwithstanding section 40 of the state finance law or any other law to the contrary, all medical assistance appropriations made from this account shall remain in full force and effect in accordance, in the aggregate, with the following schedule: not more than 50 percent for the period April 1, 2021 to March 31, 2022 and the remaining amount for the period April 1, 2022 to September 15, 2023.

Notwithstanding section 40 of the state finance law or any provision of law to the contrary, subject to federal approval, department of health state funds medicaid spending, excluding payments for medical services provided at state facilities operated by the office of mental health, the office for people with developmental disabilities and the office of addiction services and supports and further excluding any payments which are not appropriated within the department of health, in the aggregate, for the period April 1, 2021 through March 31, 2022, shall not exceed $23,531,327,000 except as provided below and state share medicaid spending, in the aggregate, for the period April 1, 2022 through September 15, 2023, shall not exceed $25,936,887,000, but in no event shall department of health state funds medicaid spending for the period April 1, 2021 through March 31, 2022 exceed $25,587,116,000 and state share medicaid spending for the period April 1, 2022 through September 15, 2023 exceed $49,118,443,000 provided, however, such aggregate limits may be adjusted by the director of the budget to account for any changes in the New York state federal medical assistance percentage amount established pursuant to the federal social security act, increases in provider revenues, reductions in local social services district payments for medical assistance administration, minimum wage increases, and beginning April 1, 2012 the operational
costs of the New York state medical indemnity fund, pursuant to chapter 59 of the laws of 2011, and state costs or savings from the essential plan program. Such projections may be adjusted by the director of the budget to account for increased or expedited department of health state funds medicaid expenditures as a result of a natural or other type of disaster, including a governmental declaration of emergency.

The director of the budget, in consultation with the commissioner of health, shall assess on a quarterly basis known and projected medicaid expenditures by category of service and by geographic region, as determined by the commissioner of health, incurred both prior to and subsequent to such assessment for each such period, and if the director of the budget determines that such expenditures are expected to cause medicaid spending for such period to exceed the aggregate limit specified herein for such period, the state medicaid director, in consultation with the director of the budget and the commissioner of health, shall develop a medicaid savings allocation adjustment to limit such spending to the aggregate limit specified herein for such period.

Such medicaid savings allocation adjustment shall be designed, to reduce the expenditures authorized by the appropriations herein in compliance with the following guidelines: (1) reductions shall be made in compliance with applicable federal law, including the provisions of the Patient Protection and Affordable Care Act, Public Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No. 111-152 (collectively "Affordable Care Act") and any subsequent amendments thereto or regulations promulgated thereunder; (2) reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver authority, to implement the provisions of the medicaid savings allocation adjustment that meets the other criteria set forth herein; (3) reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the Affordable Care Act; (4) reductions shall be made uniformly among categories of services and geographic regions of the state, to the extent practicable, and shall be made uniformly within a category of service, to the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific categories of services contributed to department of health medicaid state funds spending in excess of the limits specified herein; the need to maintain safety net services in underserved communities; or the potential benefits of pursuing innovative payment models contemplated by the Affordable Care Act, in which case such grounds shall be set forth in the medicaid savings allocation adjustment; and (5) reductions shall be made in a manner that does not unnecessarily
create administrative burdens to medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation adjustment, to the extent that all or part of such adjustment, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation adjustment on the department of health's website and shall provide written copies of such adjustment to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

(b) The commissioner may revise the medicaid savings allocation adjustment subsequent to the provisions of notice and prior to implementation but needs to provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that such revisions materially alter the adjustment.

Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this subdivision if, in the discretion of the commissioner, expedited development and implementation of a medicaid savings allocation adjustment is necessary due to a public health emergency.

For purposes of this section, a public health emergency is defined as:

(i) a disaster, natural or otherwise, that significantly increases the immediate need for health care personnel in an area of the state; (ii) an event or condition that creates a widespread risk of exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or (iii) any other event or condition determined by the commissioner to constitute an imminent threat to public health.

Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation adjustment from taking effect retroactively to the extent permitted by the federal centers for medicare and medicaid services.

In accordance with the medicaid savings allocation adjustment, the commissioner of the department of health shall reduce department of health state funds medicaid spending by the amount of the projected overspending through, actions including, but not limited to modifying or suspending reimbursement methods, including but not limited to all fees, premium levels and rates of payment, notwithstanding any provision of law that sets a specific amount or methodology for any such payments or rates of payment; modifying medicaid program benefits; seeking all necessary federal approvals, including, but not limited to waivers, waiver amendments; and suspending time frames for notice, approval or certification of rate requirements, notwithstanding any provision of law, rule or regulation to the
contrary, including but not limited to sections 2807 and 3614 of the public health law, section 18 of chapter 2 of the laws of 1988, and 18 NYCRR 505.14(h).

The department of health shall prepare a quarterly report that sets forth: (a) known and projected department of health medicaid expenditures as described in subdivision (1) of this section, and factors that could result in medicaid disbursements for the relevant state fiscal year to exceed the projected department of health state funds disbursements in the enacted budget financial plan pursuant to subdivision 3 of section 23 of the state finance law, including spending increases or decreases due to: enrollment fluctuations, rate changes, utilization changes, MRT investments, and shift of beneficiaries to managed care; and variations in offline medicaid payments; and (b) the actions taken to implement any medicaid savings allocation adjustment implemented pursuant to subdivision (4) of this section, including information concerning the impact of such actions on each category of service and each geographic region of the state. Each such quarterly report shall be provided to the chairs of the senate finance and the assembly ways and means committees and shall be posted on the department of health’s website in a timely manner.

The money hereby appropriated is available for payment of liabilities heretofore and hereafter accrued and shall be available to the department net of disallowances, refunds, reimbursements, and credits.

Notwithstanding any other provision of law, the money hereby appropriated may be increased or decreased by interchange or transfer, with any appropriation of the department of health, and may be increased or decreased by transfer or suballocation between these appropriated amounts and appropriations of the office of mental health, the office for people with developmental disabilities, the office of addiction services and supports, the department of family assistance office of temporary and disability assistance, the department of corrections and community supervision, the office of information technology services, the state university of New York, the state office for the aging, the office of the Medicaid inspector general, and office of children and family services with the approval of the director of the budget, who shall file such approval with the department of audit and control and copies thereof with the chairman of the senate finance committee and the chairman of the assembly ways and means committee.

[Notwithstanding any provision of law to the contrary, the director of the budget, in consultation with the commissioner of health, may use a payment reduction plan to make across-the-board reductions to the department of health state funds medicaid spending by $373,000,000 for state fiscal year 2021-2022 and $373,000,000 in state fiscal year 2022-2023 to limit such spending to the aggregate limit specified herein, or reduce the aggregate limit specified herein to provide a reduction to the state’s financial plan. Reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for Medicare and Medicaid services, provided, however, that the commissioner of health is authorized to]
submit any state plan amendment or seek other federal approval to implement the provisions of the medicaid payment reduction adjustment.

Notwithstanding any inconsistent provision of law, in lieu of payments authorized by the social services law, or payments of federal funds otherwise due to the local social services districts for programs provided under the federal social security act or the federal food stamp act, funds herein appropriated, in amounts certified by the state commissioner of temporary and disability assistance or the state commissioner of health as due from local social services districts each month as their share of payments made pursuant to section 367-b of the social services law may be set aside by the state comptroller in an interest-bearing account in order to ensure the orderly and prompt payment of providers under section 367-b of the social services law pursuant to an estimate provided by the commissioner of health of each local social services district's share of payments made pursuant to section 367-b of the social services law.

Notwithstanding any provision of law to the contrary, the portion of this appropriation covering fiscal year 2021-22 shall supersede and replace any duplicative (i) reappropriation for this item covering fiscal year 2021-22, and (ii) appropriation for this item covering fiscal year 2021-22 set forth in chapter 53 of the laws of 2020 (26963) ... 1,090,100,000 ....................... MEDICAL ASSISTANCE PROGRAM

General Fund
Local Assistance Account - 10000
The appropriation made by chapter 53, section 1, of the laws of 2021, is
hereby amended and reappropriated to read:
For the medical assistance program, including administrative expenses,
for local social services districts, and for medical care rates for
authorized child care agencies.
Notwithstanding section 40 of the state finance law or any other law
to the contrary, all medical assistance appropriations made from
this account shall remain in full force and effect in accordance, in
the aggregate, with the following schedule: not more than 48 percent
for the period April 1, 2021 to March 31, 2022; and the remaining
amount for the period April 1, 2022 to [March 31] September 15,
2023.

Notwithstanding section 40 of the state finance law or any provision
of law to the contrary, subject to federal approval, department of
health state funds medicaid spending, excluding payments for medical
services provided at state facilities operated by the office of mental health, the office for people with developmental disabilities and the office of addiction services and supports and further excluding any payments which are not appropriated within the department of health, in the aggregate, for the period April 1, 2021 through March 31, 2022, shall not exceed $23,531,327,000 except as provided below and state share medicaid spending, in the aggregate, for the period April 1, 2022 through [March 31] September 15, 2023, shall not exceed $25,587,116,000 but in no event shall department of health state funds medicaid spending for the period April 1, 2021 through [March 31] September 15, 2023 exceed $25,936,887,000. Provided, however, such aggregate limits may be adjusted by the director of the budget to account for any changes in the New York state federal medical assistance percentage amount established pursuant to the federal social security act, increases in provider revenues, reductions in local social services district payments for medical assistance administration, minimum wage increases, and beginning April 1, 2012 the operational costs of the New York state medical indemnity fund, pursuant to chapter 59 of the laws of 2011, and state costs or savings from the essential plan program. Such projections may be adjusted by the director of the budget to account for increased or expedited department of health state funds medicaid expenditures as a result of a natural or other type of disaster, including a governmental declaration of emergency.

The director of the budget, in consultation with the commissioner of health, shall assess on a quarterly basis known and projected medicaid expenditures by category of service and by geographic region, as defined by the commissioner, incurred both prior to and subsequent to such assessment for each such period, and if the director of the budget determines that such expenditures are expected to cause medicaid spending for such period to exceed the aggregate limit specified herein for such period, the state medicaid director, in consultation with the director of the budget and the commissioner of health, shall develop a medicaid savings allocation adjustment to limit such spending to the aggregate limit specified herein for such period.

Such medicaid savings allocation adjustment shall be designed, to reduce the expenditures authorized by the appropriations herein in compliance with the following guidelines: (1) reductions shall be made in compliance with applicable federal law, including the provisions of the Patient Protection and Affordable Care Act, Public Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No. 111-152 (collectively "Affordable Care Act") and any subsequent amendments thereto or regulations promulgated thereunder; (2) reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver authority, to implement the provisions of the medicaid savings allocation adjustment that meets the other criteria set forth herein; (3)
reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the Affordable Care Act; (4) reductions shall be made uniformly among categories of services and geographic regions of the state, to the extent practicable, and shall be made uniformly within a category of service, to the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific categories of services contributed to department of health medicaid state funds spending in excess of the limits specified herein; the need to maintain safety net services in underserved communities; or the potential benefits of pursuing innovative payment models contemplated by the Affordable Care Act, in which case such grounds shall be set forth in the medicaid savings allocation adjustment; and (5) reductions shall be made in a manner that does not unnecessarily create administrative burdens to medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation adjustment, to the extent that all or part of such adjustment, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation adjustment on the department of health's website and shall provide written copies of such adjustment to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

(b) The commissioner may revise the medicaid savings allocation adjustment subsequent to the provisions of notice and prior to implementation but needs to provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that such revisions materially alter the adjustment.

Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this subdivision if, in the discretion of the commissioner, expedited development and implementation of a medicaid savings allocation adjustment is necessary due to a public health emergency.

For purposes of this section, a public health emergency is defined as: (i) a disaster, natural or otherwise, that significantly increases the immediate need for health care personnel in an area of the state; (ii) an event or condition that creates a widespread risk of exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or (iii) any other event or condi-

tion determined by the commissioner to constitute an imminent threat to public health.

Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation adjustment from taking effect retroactively to the extent permitted by the federal centers for medicare and medicaid services.

In accordance with the medicaid savings allocation adjustment, the commissioner of the department of health shall reduce department of health state funds medicaid spending by the amount of the projected overspending through, actions including, but not limited to modifying or suspending reimbursement methods, including but not limited to all fees, premium levels and rates of payment, notwithstanding any provision of law that sets a specific amount or methodology for any such payments or rates of payment; modifying or discontinuing medicaid program benefits; seeking all necessary federal approvals, including, but not limited to waivers, waiver amendments; and suspending time frames for notice, approval or certification of rate requirements, notwithstanding any provision of law, rule or regulation to the contrary, including but not limited to sections 2807 and 3614 of the public health law, section 18 of chapter 2 of the laws of 1988, and 18 NYCRR 505.14(h).

The department of health shall prepare a quarterly report that sets forth: (a) known and projected department of health medicaid expenditures as described in subdivision (1) of this section, and factors that could result in medicaid disbursements for the relevant state fiscal year to exceed the projected department of health state funds disbursements in the enacted budget financial plan pursuant to subdivision 3 of section 23 of the state finance law, including spending increases or decreases due to: enrollment fluctuations, rate changes, utilization changes, MRT investments, and shift of beneficiaries to managed care; and variations in offline medicaid payments; and (b) the actions taken to implement any medicaid savings allocation adjustment implemented pursuant to subdivision (4) of this section, including information concerning the impact of such actions on each category of service and each geographic region of the state. Each such quarterly report shall be provided to the chairs of the senate finance and the assembly ways and means committees and shall be posted on the department of health's website in a timely manner.

The money hereby appropriated is to be available for payment of aid heretofore accrued or hereafter accrued to municipalities, and to providers of medical services pursuant to section 367-b of the social services law, and for payment of state aid to municipalities and to providers of family care where payment systems through the fiscal intermediaries are not operational.

Notwithstanding any inconsistent provision of law, funding made available by these appropriations shall support direct salary costs and related fringe benefits within the medical assistance program associated with any minimum wage increase that takes effect during the timeframe of these appropriations, pursuant to section 652 of the labor law. Each eligible organization in receipt of funding made available by these appropriations may be required to submit written certification, in such form and at such time the commissioner may prescribe, attesting to the total amount of funds used by the eligible organization, how such funding will be or was used for purposes eligible under these appropriations and any other reporting deemed necessary by the commissioner. The amounts appropriated herein may include advances to organizations authorized to receive such funds to accomplish this purpose.

Notwithstanding any other provision of law, the money hereby appropriated may be increased or decreased by interchange or transfer, with any appropriation of the department of health and the office of medicaid inspector general and may be increased or decreased by transfer or suballocation between these appropriated amounts and appropriations of the department of health state purpose account, the office of mental health, office for people with developmental disabilities, the office of addiction services and supports, the department of family assistance office of temporary and disability assistance, the department of corrections and community supervision, the office of information technology services, the state university of New York, and office of children and family services, the office of medicaid inspector general, and the state office for the aging with the approval of the director of the budget, who shall file such approval with the department of audit and control and copies thereof with the chairman of the senate finance committee and the chairman of the assembly ways and means committee.

Reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval to implement the provisions of the medicaid payment reduction adjustment.]

financial participation that is available or is reasonably expected
to become available, in the discretion of the commissioner, under the Affordable Care Act; (4) reductions shall be made uniformly among categories of services and geographic regions of the state, to the extent practicable, and shall be made uniformly within a category of service, to the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific categories of services contributed to department of health medicaid state funds spending in excess of the limits specified herein; the need to maintain safety net services in underserved communities; or the potential benefits of pursuing innovative payment models contemplated by the Affordable Care Act, in which case such grounds shall be set forth in the medicaid savings allocation adjustment; and (5) reductions shall be made in a manner that does not unnecessarily create administrative burdens to medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation adjustment, to the extent that all or part of such adjustment, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state.

The appropriation made by chapter 53, section 1, of the laws of 2021, is hereby amended and reappropriated to read:

Notwithstanding section 40 of the state finance law or any other law to the contrary, all medical assistance appropriations made from this account shall remain in full force and effect in accordance, in the aggregate, with the following schedule: not more than 51 percent for the period April 1, 2021 to March 31, 2022; and the remaining amount for the period April 1, 2022 to March 31, 2023.

Notwithstanding section 40 of the state finance law or any provision of law to the contrary, subject to federal approval, department of health state funds medicaid spending, excluding payments for medical services provided at state facilities operated by the office of mental health, the office for people with developmental disabilities and the office of addiction services and supports and further excluding any payments which are not appropriated within the department of health, in the aggregate, for the period April 1, 2021 through March 31, 2022, shall not exceed $23,531,327,000 except as provided below and state share medicaid spending, in the aggregate, for the period April 1, 2022 through March 31, 2023, shall not exceed $25,936,887,000, but in no event shall department of health state funds medicaid spending for the...
period April 1, 2021 through [March 31] September 15, 2023 exceed $49,118,443,000 provided, however, such aggregate limits may be adjusted by the director of the budget to account for any changes in the New York state federal medical assistance percentage amount established pursuant to the federal social security act, increases in provider revenues, reductions in local social services district payments for medical assistance administration, minimum wage increases and beginning April 1, 2012 the operational costs of the New York state medical indemnity fund, pursuant to chapter 59 of the laws of 2011, and state costs or savings from the essential plan. Such projections may be adjusted by the director of the budget to account for increased or expedited department of health state funds medicaid expenditures as a result of a natural or other type of disaster, including a governmental declaration of emergency.

The director of the budget, in consultation with the commissioner of health, shall assess on a quarterly basis known and projected medicaid expenditures by category of service and by geographic region, as determined by the commissioner of health, incurred both prior to and subsequent to such assessment for each such period, and if the director of the budget determines that such expenditures are expected to cause medicaid spending for such period to exceed the aggregate limit specified herein for such period, the state medicaid director, in consultation with the director of the budget and the commissioner of health, shall develop a medicaid savings allocation adjustment to limit such spending to the aggregate limit specified herein for such period.

Such medicaid savings allocation adjustment shall be designed, to reduce the expenditures authorized by the appropriations herein in compliance with the following guidelines: (1) reductions shall be made in compliance with applicable federal law, including the provisions of the Patient Protection and Affordable Care Act, Public Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No. 111-152 (collectively "Affordable Care Act") and any subsequent amendments thereto or regulations promulgated thereunder; (2) reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver authority, to implement the provisions of the medicaid savings allocation adjustment that meets the other criteria set forth herein; (3) reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the Affordable Care Act; (4) reductions shall be made uniformly among categories of services and geographic regions of the state, to the extent practicable, and shall be made uniformly within a category of service, to the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific
categories of services contributed to department of health medicaid
state funds spending in excess of the limits specified herein; the
need to maintain safety net services in underserved communities; or
the potential benefits of pursuing innovative payment models contem-
plated by the Affordable Care Act, in which case such grounds shall
be set forth in the medicaid savings allocation adjustment; and (5)
reductions shall be made in a manner that does not unnecessarily
create administrative burdens to medicaid applicants and recipients
or providers.

The commissioner shall seek the input of the legislature, as well as
organizations representing health care providers, consumers, busi-
nesses, workers, health insurers, and others with relevant expert-
tise, in developing such medicaid savings allocation adjustment, to
the extent that all or part of such adjustment, in the discretion of
the commissioner, is likely to have a material impact on the overall
medicaid program, particular categories of service or particular
geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation
adjustment on the department of health's website and shall provide
written copies of such plan to the chairs of the senate finance and
the assembly ways and means committees at least 30 days before the
date on which implementation is expected to begin.

(b) The commissioner may revise the medicaid savings allocation
adjustment subsequent to the provisions of notice and prior to
implementation but needs to provide a new notice pursuant to subpar-
agraph (i) of this paragraph only if the commissioner determines, in
his or her discretion, that such revisions materially alter the
plan.

Notwithstanding the provisions of paragraphs (a) and (b) of this
subdivision, the commissioner need not seek the input described in
paragraph (a) of this subdivision or provide notice pursuant to
paragraph (b) of this subdivision if, in the discretion of the
commissioner, expedited development and implementation of a medicaid
savings allocation adjustment is necessary due to a public health
emergency.

the immediate need for health care personnel in an area of the
state; (ii) an event or condition that creates a widespread risk of
exposure to a serious communicable disease, or the potential for
such widespread risk of exposure; or (iii) any other event or condi-
tion determined by the commissioner to constitute an imminent threat
to public health.

Nothing in this paragraph shall be deemed to prevent all or part of
such medicaid savings allocation adjustment from taking effect
retroactively to the extent permitted by the federal centers for
medicare and medicaid services.

In accordance with the medicaid savings allocation adjustment, the
commissioner of the department of health shall reduce department of
health state funds medicaid spending by the amount of the projected
overspending through, actions including, but not limited to modify-
ing or suspending reimbursement methods, including but not limited
to all fees, premium levels and rates of payment, notwithstanding any provision of law that sets a specific amount or methodology for any such payments or rates of payment; modifying medicaid program benefits; seeking all necessary federal approvals, including, but not limited to waivers, waiver amendments; and suspending time frames for notice, approval or certification of rate requirements, notwithstanding any provision of law, rule or regulation to the contrary, including but not limited to sections 2807 and 3614 of the public health law, section 18 of chapter 2 of the laws of 1988, and 18 NYCRR 505.14(h).

The department of health shall prepare a quarterly report that sets forth: (a) known and projected department of health medicaid expenditures as described in subdivision (1) of this section, and factors that could result in medicaid disbursements for the relevant state fiscal year to exceed the projected department of health state funds disbursements in the enacted budget financial plan pursuant to subdivision 3 of section 23 of the state finance law, including spending increases or decreases due to: enrollment fluctuations, rate changes, utilization changes, MRT investments, and shift of beneficiaries to managed care; and variations in offline medicaid payments; and

(b) the actions taken to implement any medicaid savings allocation adjustment implemented pursuant to subdivision (4) of this section, including information concerning the impact of such actions on each category of service and each geographic region of the state. Each such quarterly report shall be provided to the chairs of the senate finance and the assembly ways and means committees and shall be posted on the department of health's website in a timely manner.

For the purpose of making payments, the money hereby appropriated is available for payment of aid heretofore accrued or hereafter accrued, to providers of medical care pursuant to section 367-b of the social services law, and for payment of state aid to municipalities and the federal government where payment systems through fiscal intermediaries are not operational, to reimburse such providers for costs attributable to the provision of care to patients eligible for medical assistance. Notwithstanding any inconsistent provision of law, the moneys hereby appropriated may be increased or decreased by interchange or transfer with any appropriation of the department of health with the approval of the director of the budget, who shall file such approval with the department of audit and control and copies thereof with the chairman of the senate finance committee and the chairman of the assembly ways and means committee.

Notwithstanding any provision of law to the contrary, the director of the budget, in consultation with the commissioner of health, may use a payment reduction plan to make across-the-board reductions to the department of health state funds medicaid spending by $373,000,000 for state fiscal year 2021-2022 and $373,000,000 in state fiscal year 2022-2023 to limit such spending to the aggregate limit specified herein, or reduce the aggregate limit specified herein to provide a reduction to the state's financial plan. Reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services,
provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval to implement the provisions of the medicaid payment reduction plan. For services and expenses of the medical assistance program.

Notwithstanding section 40 of the state finance law or any other law to the contrary, all medical assistance appropriations made from
this account shall remain in full force and effect in accordance, in
the aggregate, with the following schedule: not more than 49 percent
for the period April 1, 2021 to March 31, 2022; and the remaining
amount for the period April 1, 2022 to [March 31] September 15,
2023.

Notwithstanding section 40 of the state finance law or any provision
of law to the contrary, subject to federal approval, department of
health state funds medicaid spending, excluding payments for medical
services provided at state facilities operated by the office of
mental health, the office for people with developmental disabilities
and the office of addiction services and supports and further

through March 31, 2022, shall not exceed $23,531,327,000 except as
provided below and state share medicaid spending, in the aggregate,
for the period April 1, 2022 through [March 31] September 15, 2023,
shall not exceed [[$25,587,116,000] $25,936,887,000], but in no  event
shall department of health state funds medicaid spending for the
period April 1, 2021 through [March 31] September 15, 2023 exceed
[[$49,118,443,000] $49,468,214,000] provided, however, such aggregate
limits may be adjusted by the director of the budget to account for
any changes in the New York state federal medical assistance
percentage amount established pursuant to the federal social securi-
ty act, increases in provider revenues, reductions in local social
services district payments for medical assistance administration,
minimum wage increases and beginning April 1, 2012 the operational
costs of the New York state medical indemnity fund, pursuant to
chapter 59 of the laws of 2011, and state costs or savings from the
essential plan. Such projections may be adjusted by the director of
the budget to account for increased or expedited department of
health state funds medicaid expenditures as a result of a natural or
other type of disaster, including a governmental declaration of
emergency.

The director of the budget, in consultation with the commissioner of
health, shall assess on a quarterly basis known and projected medi-
caid expenditures by category of service and by geographic region,
as determined by the commissioner of health, incurred both prior to
and subsequent to such assessment for each such period, and if the
director of the budget determines that such expenditures are
expected to cause medicaid spending for such period to exceed the
aggregate limit specified herein for such period, the state medicaid
director, in consultation with the director of the budget and the
commissioner of health, shall develop a medicaid savings allocation
adjustment to limit such spending to the aggregate limit specified
herein for such period.

Such medicaid savings allocation adjustment shall be designed, to
reduce the expenditures authorized by the appropriations herein in
compliance with the following guidelines: (1) reductions shall be
made in compliance with applicable federal law, including the

complies with the state medicaid plan approved by the federal
centers for medicare and medicaid services, provided, however, that
the commissioner of health is authorized to submit any state plan
amendment or seek other federal approval, including waiver authori-
ty, to implement the provisions of the medicaid savings allocation
adjustment that meets the other criteria set forth herein; (3)
reductions shall be made in a manner that maximizes federal finan-
cial participation, to the extent practicable, including any federal
financial participation that is available or is reasonably expected
to become available, in the discretion of the commissioner, under
the Affordable Care Act; (4) reductions shall be made uniformly
among categories of services and geographic regions of the state, to
the extent practicable, and shall be made uniformly within a catego-
ry of service, to the extent practicable, except where the commis-
sioner determines that there are sufficient grounds for non-uniform-
ity, including but not limited to: the extent to which specific
categories of services contributed to department of health medicaid
state funds spending in excess of the limits specified herein; the
need to maintain safety net services in underserved communities; or
the potential benefits of pursuing innovative payment models contem-
plated by the Affordable Care Act, in which case such grounds shall
be set forth in the medicaid savings allocation adjustment; and (5)
reductions shall be made in a manner that does not unnecessarily
create administrative burdens to medicaid applicants and recipients
or providers.

The commissioner shall seek the input of the legislature, as well as
organizations representing health care providers, consumers, busi-

tise, in developing such medicaid savings allocation adjustment, to
the extent that all or part of such adjustment, in the discretion of
the commissioner, is likely to have a material impact on the overall
medicaid program, particular categories of service or particular
geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation
