AN ACT making appropriations for the support of government

AID TO LOCALITIES BUDGET

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. a) The several amounts specified in this chapter for aid to localities, or so much thereof as shall be sufficient to accomplish the purposes designated by the appropriations, are hereby appropriated and authorized to be paid as hereinafter provided, to the respective public officers and for the several purposes specified.

b) Where applicable, appropriations made by this chapter for expenditures from federal grants for aid to localities may be allocated for spending from federal grants for any grant period beginning, during, or prior to, the state fiscal year beginning on April 1, 2022 except as otherwise noted.

c) The several amounts named herein, or so much thereof as shall be sufficient to accomplish the purpose designated, being the undisbursed and/or unexpended balances of the prior year's appropriations, are hereby reappropriated from the same funds and made available for the same purposes as the prior year's appropriations, unless herein amended, for the fiscal year beginning April 1, 2022. Certain reappropriations in this chapter are shown using abbreviated text, with three leader dots (an ellipsis) followed by three spaces (...) used to indicate where existing law that is being continued is not shown. However, unless a change is clearly indicated by the use of brackets [-] for deletions and underscores for additions, the purposes, amounts, funding source and all other aspects pertinent to each item of appropriation shall be as last appropriated.

EXPLANATION--Matter in italics (underscored) is new; matter in brackets [−] is old law to be omitted.

LBD12653-06-2
For the purpose of complying with the state finance law, the year, chapter and section of the last act reappropriating a former original appropriation or any part thereof is, unless otherwise indicated, chapter 53, section 1, of the laws of 2021.

d) No moneys appropriated by this chapter shall be available for payment until a certificate of approval has been issued by the director of the budget, who shall file such certificate with the department of audit and control, the chairperson of the senate finance committee and the chairperson of the assembly ways and means committee.

e) Notwithstanding any provision of law to the contrary, for purposes of any appropriation made by this chapter which authorizes spending in an amount net of refunds, rebates, reimbursements, credits, repayments, and/or disallowances, "refunds" shall mean funds received to the state resulting from the overpayment of monies, "rebates" shall mean funds received to the state resulting from a return of a full or partial amount previously paid, as for goods or services, serving as a reduction, discount or rebate to the original payment amount, "reimbursements" shall mean funds received to the state as repayment in an equivalent amount for goods or services, including but not limited to personal service costs, incurred by the state in the first instance being provided to a third party for their benefit and partially or in full financed by such third party, "credit" shall mean monies made available to the state that reduce the amount owed to a third party, including but not limited to billing errors, rebates, and prior overpayments, "repayment" shall mean the return of monies as pay back for expenses incurred, and "disallowance" shall mean monies made available to the state that were not allowed or accepted officially by the intended recipient, based on a determination the payment is not acceptable and/or valid. When the office of the state comptroller receives any such refunds, rebates, reimbursements, credits, repayments, and/or disallowances, he or she shall credit the refunded, rebated, reimbursed, credited, repaid, and disallowed amount back to the original appropriation and reduce expenditures in the year which such credit is received regardless of the timing of the initial expenditure.

f) Notwithstanding any other provision of law to the contrary, if the state or any agency thereof incurs any costs associated with administering the rent regulation program in accordance with subdivision (c) of section 8 of chapter 576 of the laws of 1974, as amended, for a city having a population of one million or more, the director of the budget may direct any other state agency or agencies making payments to such city, or any department, agency, or instrumentality thereof, to permanently reduce the amount of any other payment or payments owed to such city or any department, agency, or instrumentality thereof pursuant to any appropriation set forth in this chapter. Provided however, that such reduction shall be in an amount equal to the costs incurred by the state or agency thereof in accordance with subdivision (c) of section 8 of chapter 576 of the laws of 1974 and provided further that such direction shall be made in writing by the director of the budget. If the director of the budget makes such direction pursuant to the authority set forth herein, the impacted city shall not make the payments required by subdivision (c) of section 8 of chapter 576 of the laws of 1974, as amended, and the division of housing and community renewal shall notify such city in writing of what payment or payments will be reduced and the amount of such reduction. To the extent a city of one million or more or any department, agency, or instrumentality thereof is entitled to any cash disbursement authorized by any appropriation contained in this chapter,
such entitlement shall be reduced commensurate with reductions in payments made in accordance with this part.

(g) Notwithstanding any provision of law to the contrary, upon enactment of this chapter of the laws of 2022 containing the aid to localities budget bill for the state fiscal year 2022-2023, all appropriations and reappropriations contained in chapter 53 of the laws of 2021, which would otherwise lapse by operation of law on March 31, 2023 are hereby repealed.

The appropriation made by chapter 53, section 1, of the laws of 2021, is
hereby amended and reappropriated to read:
For support of elementary and secondary education from the elementary
and secondary school emergency relief fund and the governor's emer-
gency education relief fund, as funded by the Coronavirus Response
and Relief Supplemental appropriations Act (P.L. 116-260) providing
support for elementary and/or secondary education in response to the
COVID-19 public health emergency. Provided that each school district
eligible for an apportionment pursuant to subdivision 4 of section
3602 of education law shall be eligible to receive an allocation
equal to the amount set forth for such school district as "COVID-19
SUPPL. STIMULUS" in the school aid electronic data file produced by
the commissioner pursuant to subdivision 21 of section 305 of the
education law, provided that a schedule of such amount shall be
approved by the director of the budget. Provided further that such
funds shall be deemed grants in aid and the state comptroller shall
prescribe that any monies received by school districts from such
funds shall be recorded and reported as special aid funds of the
district. Funds appropriated herein shall be subject to all applica-
ble reporting and accountability requirements contained in such act.
Notwithstanding section 40 of the state finance law or any provision
of law to the contrary, this appropriation shall remain in full
force and effect to the maximum extent allowed by law (23335) ...... 4,069,958,000 .................................................. (re. $3,707,869,000)

For support of elementary and secondary education from the elementary and secondary school emergency relief fund, as funded by the American rescue plan act of 2021 (P.L. 117-2) providing support for elementary and/or secondary education in response to the COVID-19 public health emergency.

Notwithstanding any provision of law to the contrary, funds not otherwise allocated to local educational agencies pursuant to section 2001(d)(1) of the American rescue plan act of 2021 shall be allocated as follows, pursuant to a plan developed by the commissioner of education and approved by the director of the budget:

(i) $629,214,659 for learning loss grants to eligible school districts to implement (1) evidence-based activities to address learning loss, such as summer learning or summer enrichment, extended day, comprehensive after-school programs, or extended school year programs; (2) evidence-based summer enrichment programs; and (3) evidence-based comprehensive after-school programs; provided that such activities shall respond to students' academic, social, and emotional needs and address the disproportionate impact of the coronavirus on the student subgroups described in section 1111(b)(2)(B)(xi) of the elementary and secondary education act of 1965, students experiencing homelessness, and children and youth in foster care.

Provided that, notwithstanding any provision of law to the contrary, for the 2021-22 school year, eligible school districts shall receive learning loss grants in aid equal to the positive difference, if any, of the base ARPA allocation less 90 percent of the funds from the elementary and secondary school emergency relief fund made available to school districts pursuant to the American rescue plan act of 2021, but not less than $700,000, and not more than $10,000,000 or 10 percent of the total expenditures from the district's general fund for the 2020-21 school year, whichever is less. School districts where the base ARPA allocation is less than or equal to 90 percent of the funds from the elementary and secondary school emergency relief fund made available to school districts pursuant to the American rescue plan act of 2021 shall not be eligible for these grants. Such grant funds shall remain available for obligation by such school districts until the deadline therefor prescribed in federal law. Provided further that, for purposes of this appropriation:

(1) The "base ARPA allocation" shall be equal to the product of the adjusted per pupil amount multiplied by public school district enrollment for the base year as computed pursuant to paragraph n of subdivision 1 of section 3602 of education law.

The "adjusted per pupil amount" shall be equal to the product of (a) $4,550.26 multiplied by (b) the regional cost index calculated in 2018, reflecting an analysis of labor market costs based on median salaries in professional occupations that require similar credentials to those of positions in the education field, but not including those occupations in the education field, multiplied by (c) the modified EN index, and multiplied by (d) the learning loss wealth factor.
(2) The "learning loss wealth factor" shall be equal to the positive difference, if any, of 0.75 less the product of 0.5 multiplied by the combined wealth ratio computed pursuant to subparagraph 1 of paragraph c of subdivision 3 of section 3602 of education law.

(3) The "modified EN index" shall be equal to the modified EN percent divided by the statewide average modified EN percent, provided that for the 2021-22 school year, the statewide average modified EN percent shall be equal to 0.5565.

(4) The "modified EN percent" shall be equal to the modified EN count divided by public school district enrollment for the base year computed pursuant to paragraph n of subdivision 1 of section 3602 of education law.

(5) The "modified EN count" shall equal the sum of (a) the product of 0.5 multiplied by the English language learner count computed pursuant to paragraph o of subdivision 1 of section 3602 of education law, plus (b) the sparsity count computed pursuant to paragraph r of subdivision 1 of section 3602 of education law, plus (c) the product of 0.65 multiplied by the 3-year average small area income and poverty estimate rate computed pursuant to paragraph mm of subdivision 1 of section 3602 of education law and multiplied further by public school district enrollment for the base year as computed pursuant to paragraph n of subdivision 1 of section 3602 of education law, plus (d) the product of 0.65 multiplied by the 3-year average economically disadvantaged rate defined pursuant to paragraph ll of subdivision 1 of section 3602 of education law and multiplied further by public school district enrollment for the base year as computed pursuant to paragraph n of subdivision 1 of section 3602 of education law.

Provided further that districts receiving learning loss grants shall use (a) 14.286 percent of such grants for implementation of evidence-based summer enrichment programs; (b) 14.286 percent for implementation of evidence-based comprehensive after-school programs; and (c) the remaining funds for activities to address learning loss by supporting the implementation of evidence-based interventions, such as summer learning or summer enrichment, extended day, comprehensive afterschool programs, or extended school year programs. School districts shall ensure that such interventions respond to students' academic, social, and emotional needs and address the disproportionate impact of the coronavirus on low-income students, children with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.

(ii) $195,000,000 for new full-day 4-year-old universal prekindergarten expansion grants as prescribed in subdivision 19 of section 3602-e of education law. For purposes of this appropriation, districts shall be eligible to receive a grant amount equal to twice the product of expansion slots multiplied by selected aid per prekindergarten pupil calculated pursuant to subparagraph i of paragraph b of subdivision 10 of section 3602-e of education law for the 2021-22 school year, and provided further that funds paid from this appropriation shall not exceed the total actual grant expenditures incurred by the school district in the current school year as
approved by the commissioner. Grantees awarded funds from this
appropriation shall comply with all of the same rules and require-
ments as the universal prekindergarten programs pursuant to section
3602-e of education law. Provided further that, for purposes of this
appropriation:

(1) For eligible school districts, the preliminary slot count shall be
equal to the positive difference of (1) the product of 0.3504 and
unserved 4-year-old prekindergarten pupils calculated pursuant to
subparagraph iv of paragraph b of subdivision 10 of section 3602-e
of education law less (2) the sum of (a) full day 4-year-old prekin-
dergarten pupils served in the 2019-20 school year served pursuant
to section 3602-e of education law plus (b) students served in full-
day prekindergarten programs funded by grants pursuant to section
3602-ee of education law in the 2019-20 school year. If such prelimi-
mary slot count is less than 10, the expansion slots shall be 0; if
such preliminary slot count is greater than or equal to 10 but less
than 20, the expansion slots shall be 20; for all other eligible
districts, the expansion slots shall equal the preliminary slot
count.

(2) For the 2021-22 school year, school districts shall be eligible
for a grant amount if (1) the combined wealth ratio computed pursu-
ant to subparagraph 1 of paragraph c of subdivision 3 of section
3602 of education law is less than 2.0 and (2) the quotient arrived
at when dividing (i) the sum of (a) full day and half day 4-year-old
prekindergarten pupils served in the 2019-20 school year served
pursuant to section 3602-e of education law plus (b) students served
in full-day prekindergarten programs funded by grants pursuant to
section 3602-ee of education law in the 2019-20 school year by (ii)
unserved four-year-old prekindergarten pupils calculated pursuant to
subparagraph iv of paragraph b of subdivision 10 of section 3602-e
of education law is less than 0.5.

(3) Maintenance of Effort. Where a school district serves fewer
4-year-old prekindergarten pupils in full-day programs funded by the
Full-day 4-year-old universal prekindergarten expansion pursuant to
this appropriation than the number of expansion slots as defined in
this appropriation, the school district shall have its current year
Full-day 4-year-old universal prekindergarten expansion payment
reduced to an amount equal to the product of (i) the Full-day
4-year-old universal prekindergarten expansion multiplied by (ii)
the quotient of 4-year-old prekindergarten pupils served in programs
funded by the Full-day 4-year-old universal prekindergarten expan-
sion divided by the number of expansion slots. Provided that funds
provided pursuant to this appropriation shall only be used to
supplement and not supplant current local expenditures of state or
local funds on prekindergarten programs.

(4) Notwithstanding any inconsistent provision of law, for the
purposes of determining the prekindergarten allocation on the elec-
tronic data file prepared by the commissioner pursuant to subdivi-
sion 21 of section 305 of education law for the 2021-22 school year,
the commissioner is directed to include the grant amounts awarded
pursuant to this appropriation in the amount set forth for such
school district as "UNIVERSAL PRE-KINDERGARTEN."
(iii) $15,000,000 for universal prekindergarten expansion grants for
prekindergarten programs serving four-year-old students in new full-
day placements operating in the 2021-22 and 2022-23 school year,
based on a request for proposals, in which all school
districts would be eligible to apply, developed by the commissioner
and approved by the director of the budget, provided further that
the commissioner of education shall evaluate applications and make
awards on a competitive basis based on merit and factors including,
but not limited to, the following: (i) measures of the need of
students to be served by the school district, (ii) the school
district's proposal to target the highest need schools and students,
(iii) the extent to which the district's proposal would prioritize
funds to maximize the total number of eligible children in the
district served in pre-kindergarten programs, (iv) proposal quality,
and (v) the level of existing prekindergarten services in the
district. Provided that funds appropriated herein shall only be
awarded to school districts which meet the requirements of section
3602-ee of the education law.

Provided that grants awarded pursuant to this request for proposal
process shall be equal to $7,000 per pupil for students served by
teachers without a certificate valid for service in early childhood
grades and $10,000 per pupil for students served by teachers with
valid certificates for service in early childhood grades. Programs
shall (i) provide instruction for at least five hours per school day
for full-day pre-kindergarten programs; (ii) agree to offer instruc-
tion consistent with applicable New York state prekindergarten early
learning standards; and (iii) otherwise comply with all of the same
rules and requirements as the statewide universal prekindergarten
programs pursuant to section 3602-ee of the education law except as
modified herein.

Provided further that funds appropriated herein shall only be used to
supplement and not supplant current local expenditures of federal,
state or local funds on pre-kindergarten programs and the number of
placements in such programs from such sources and that current local
expenditures shall include any local expenditures of federal, state
or local funds used to supplement or extend services provided
directly or via contract to eligible children enrolled in a
universal pre-kindergarten program in accordance with section 3602-e
of the education law.

Notwithstanding any provision of law to the contrary, programs that
provide services for fewer than 180 days will be subject to the
provisions of subdivision 16 of section 3602-e of the education law.
(iv) $35,000,000 for city school districts in a city having a popu-
lation of one million or more; and
(v) $24,663,589 for administrative costs of the state education
department, provided that, notwithstanding any provision of law to
the contrary, upon approval of the director of the budget, the funds
hereby made available may be transferred to the credit of the state
purposes account of the state education department for purposes of
administration of this program.

Funds appropriated herein shall be subject to all applicable federal
reporting and accountability requirements.
Provided further that such funds shall be deemed grants in aid and the state comptroller shall prescribe that any monies received by school districts from such funds shall be recorded and reported as special aid funds of the district.

Notwithstanding section 40 of the state finance law or any provision of law to the contrary, this appropriation shall remain in full force and effect to the maximum extent allowed by law (23357) .......

8,988,781,000 ................................. (re. $8,972,838,000)

For services and assistance to nonpublic schools through the emergency assistance to nonpublic schools program, funded through the coronavirus response and relief supplemental appropriations act, 2021, P.L. 116-260 ("CRRSA act").

Notwithstanding any inconsistent provision of law, funds appropriated herein shall be available subject to a plan developed by the commissioner of education and approved by the director of the budget. Provided that such plan shall comport with any minimum federal requirements for the expenditure of such funds and shall include at a minimum (1) an allocation methodology which shall consider total student enrollment, low-income student enrollment, and the degree to which each school seeking services and assistance through this program has been impacted by the COVID-19 pandemic, and (2) application materials to be completed by schools seeking services and assistance through this program.

Provided that prior to development of such plan, the state education department shall require nonpublic schools to submit a notice of intent to seek services and assistance through this program, based on a form developed by the commissioner of education and approved by the director of the budget. Initial allocations shall be determined based on notices of intent submitted by nonpublic schools, and only those schools that submit such notice shall be eligible for an allocation. In the event that not all schools that submitted a notice of intent submit an application by the deadline established in such plan, allocations may be revised based on the approved allocation methodology after all applications are received.

Notwithstanding any inconsistent provision of law, rule, or regulation, the state education department shall be authorized to reimburse each participating eligible nonpublic school for approved expenses of any eligible services or assistance requested by the school, and to provide eligible services or assistance to a nonpublic school either directly or through one or more non-competitive agreements, subject to the approval of the director of the budget, provided that any services and assistance purchased by the state education department on behalf of a nonpublic school through this program shall be exempt from the requirements of sections 112 and 163 of the state finance law, and section 142 of the economic development law.

Notwithstanding any inconsistent provision of law, rule or regulation, subject to the approval of the director of the budget, a portion of this appropriation may be interchanged with any other appropriation within the education stabilization fund to accomplish the intent of the CRRSA act, or to any other program or fund within the state education department for purposes of administration of this program,
provided that within amounts transferred for program administration, a portion may be used to enter into non-competitive contracts with one or more boards of cooperative educational services to assist the state education department in administering this program, provided that such noncompetitive contracts shall be exempt from the require-
ments of sections 163 and 112 of the state finance law and section 142 of the economic development law, and provided further that any eligible services or assistance provided to a nonpublic school by any board of cooperative educational services or through a third-party contractor with a board of cooperative educational services shall, due to the tight time constraints established under federal law to enter into such contracts for services and/or assistance, if deemed necessary by any board of cooperative educational services, be provided pursuant to a non-competitive contract and such non-com-
petitive contract shall be exempt from the requirements of sections 112 and 163 of the state finance law, section 142 of the economic development law, and sections 103, 104, 104-a, and 104-b of the general municipal law.

Provided further that, notwithstanding any inconsistent provision of law, rule, or regulation, any unobligated funds that revert from the emergency assistance to nonpublic schools program to the governor's emergency education relief fund, as authorized by the federal department of education, shall be made available to reimburse nonpublic schools for allowable costs related to preventing, prepar-
ing for, and responding to the COVID-19 public health emergency pursuant to a plan developed by the commissioner of education and approved by the director of the budget. Provided that such funds shall not be used to reimburse costs that have already been reim-

Notwithstanding any inconsistent provision of law, funds appropriated herein shall be available subject to a plan developed by the commis-
sioner of education and approved by the director of the budget. Provided that such plan shall comport with any minimum federal requirements for the expenditure of such funds and shall include at a minimum (1) an allocation methodology which, to the extent permit-
ted by federal law, shall consider total student enrollment, low-in-
come student enrollment, and the degree to which each school seeking services and assistance through this program has been impacted by the COVID-19 pandemic, and (2) application materials to be completed by schools seeking services and assistance through this program.

Provided that prior to development of such plan, the state education department shall require nonpublic schools to submit a notice of intent to seek services and assistance through this program, based
on a form developed by the commissioner of education and approved by
the director of the budget. Initial allocations shall be determined
based on notices of intent submitted by nonpublic schools, and only

142 of the economic development law, and provided further that any
eligible services or assistance provided to a nonpublic school by
any board of cooperative educational services or through a third-
party contractor with a board of cooperative educational services
shall, due to the tight time constraints established under federal
law to enter into such contracts for services and/or assistance, if
deemed necessary by any board of cooperative educational services,
be provided pursuant to a non-competitive contract and such non-com-

Notwithstanding any inconsistent provision of law, the amount appropriated herein, shall be available under a foster care block grant for state reimbursement of eligible social services district expenditures for the provision and administration of foster care services including care, maintenance, supervision, and tuition; for supervision of foster children placed in federally funded job corps programs; for care, maintenance, supervision, and tuition for adjudicated juvenile delinquents placed in residential programs operated by authorized agencies and in out-of-state residential programs; except that, reimbursement from the amount appropriated herein shall not be available for tuition expenditures for foster children, including persons in need of supervision and adjudicated juvenile delinquents, made by a social services district located within a city having a population of one million or more.

Notwithstanding any other provision of law, a portion of the funds are available to reimburse social services districts for the change in the maximum state aid rates established by the office of children and family services for the 2022-23 rate year pursuant to section 398-a of the social
services law and sections 4003 and 4405 of
the education law to reflect the continua-
tion of the cost of living adjustments
that became effective April 1, 2008 for
payments made to foster parents and for
salary and fringe benefit costs and other
critical nonpersonal services costs for
foster care programs as determined by the
office. Social services districts must
adjust the amount of payments made for
care provided by congregate care and
foster boarding home programs and to
foster parents to reflect the cost of
living adjustments in the manner specified
by the office. Each authorized agency
operating a congregate care or foster
boarding home program in New York state
for which the office sets a maximum state
aid rate pursuant to section 398-a of the
social services law or section 4003 or
4405 of the education law shall submit, at
the time and in a manner to be determined
by the office, a written certification,
attesting that the funds received for the
continuation of the cost of living adjust-
ment to the maximum state aid rate that
became effective April 1, 2008 for that
program will be or were used solely in
accordance with the requirements of the
cost of living adjustment established by
the office.
Notwithstanding any inconsistent provision
of law except a chapter of the laws of
2022 authorizing a 5.4 percent cost of
living adjustment increase for the period
commencing on April 1, 2022 and ending
March 31, 2023, the commissioner shall not
apply any other cost of living adjustment
for the purpose of establishing rates of
payments, contracts or any other form of
reimbursement.
Within the amounts appropriated herein,
state reimbursement to each social
services district for services identified
herein that are otherwise reimbursable by
the state from April 1, 2022 through March
31, 2023 shall be limited to a district
allocation, hereinafter referred to as the
district's block grant allocation.
Notwithstanding any other provision of
law, such block grant allocation shall be
based, in part, on each district's claims for such costs, adjusted by the applicable cost allocation methodology and net of any retroactive payments for the 12 month period ending June 30, 2021 that are submitted on or before January 3, 2022 and, in part, on such other factors as determined by the office of children and family services and approved by the director of the budget. Any portion of a social services district's allocation from funds appropriated herein not claimed by such district during the state fiscal year may be used by such district for expenditures on preventive services provided pursuant to section 409-a of the social services law, independent living services and aftercare services provided pursuant to regulations of the department of family assistance, claimed by such district during the next state fiscal year up to the amount remaining from the district's foster care block grant allocation, provided however, that any claims for such services during the next state fiscal year in excess of such amount shall be subject to 62 percent state reimbursement exclusive of any federal funds made available for such purposes, in accordance with directives of the department of family assistance and subject to the approval of the director of the budget. Any claims submitted by a social services district for reimbursement for a particular state fiscal year for which the social services district does not receive state or federal reimbursement during that state fiscal year may not be claimed against that district's block grant apportionment for the next state fiscal year.

The office of children and family services, with the approval of the director of the budget, may reduce a district's block grant allocation by the state share decrease related to federal retroactive reimbursement for such foster care services identified herein. The office, with the approval of the director of the budget, may reduce a district's block grant allocation by the state share of disallowances or sanctions taken against
Notwithstanding any other provision of law, the state shall not be responsible for reimbursing a social services district and a district shall not seek state reimbursement for any portion of any state disallowance or sanction taken against the social services district, or any federal disallowance attributable to final federal agency decisions or to settlement made, on or after July 1, 1995, when such disallowance or sanction results from the failure of the social services district to comply with federal or state requirements, including, but not limited to, failure to document eligibility for federal or state funds in the case record; provided, however, if the office determines that any federal disallowance for services provided between January 1, 1999 and May 31, 1999 results solely from the late enactment of the state legislation implementing the federal adoption and safe families act, the state shall be solely responsible for the full amount of the disallowance or sanction; provided, further, however, this provision shall be deemed to apply both prospectively and retroactively regardless of whether such sanctions or disallowances are for services provided or claims made prior to or after April 1, 2022.

Notwithstanding any other provision of law, any federal disallowance resulting from a federal title IV-E eligibility review or audit that uses extrapolated statistical techniques shall be passed along by the state to any and all social services districts that the office of children and family services has determined have not complied with the title IV-E eligibility requirements or have not taken the necessary actions to ensure compliance with such requirements including, but not limited to, failing to: assess and fully document all the criteria and have readily available all the necessary documents to establish and continue title IV-E eligibility for all title IV-E eligible children within the required time frames; claim title IV-E funding only for cases
that meet all of the title IV-E eligibility criteria; and fully implement the social services payment system on or before April 1, 2005 for all direct and voluntary agency foster care services.

Notwithstanding any law to the contrary, the office of children and family services shall impose on social services districts any federal disallowance issued against the state as a result of a federal title IV-E secondary eligibility review regardless of the date the children may have entered foster care, the date the eligibility or payment errors occurred, or the filing date of any federal claims for reimbursement; provided, however, that the state shall be responsible for the disallowed costs and expenditures related to the placement of children in a facility operated by the office of children and family services, which shall be determined in the same manner as the disallowed costs and expenditures for social services districts other than the city of New York.

In order to reimburse the federal government for the full amount of any disallowance imposed on the state by the federal administration for children and families within the timeframes necessary to avoid any potential interest payments on such amount, the office of children and family services is authorized to immediately offset funds otherwise due to each district for a pro rata share of the total disallowed costs based on the percentage of applicable federal title IV-E claims made by that district for the relevant time period as compared to the total applicable statewide title IV-E claims. The amount of the offset against each district will be adjusted, if necessary, upon completion of the disallowance allocation process. The final allocation of the amount of any federal disallowance resulting from a title IV-E secondary eligibility review shall be allocated among the districts so that each district shall be responsible for the amount attributable to each of the district's children or cases that are determined by the federal review to be unallowable. Each
district shall also be responsible for a portion of the federal extrapolated disallowance amount based on the relative error rate for the district. The city of New York's error rate will be based on the federal sample and federal statistics. For all social services districts other than the city of New York, the error rate will be based on a review conducted by the district of a sample of children and/or cases determined by the office of children and family services and a re-review of a sub-sample by the office of those children and/or cases determined by the office. The office of children and family services will determine what is reasonable in establishing the size of the sample and sub-sample for each district. The office of children and family services shall notify each social services district of the sample of children and/or cases from the federal audit period that the social services district must review. Any child or case from the social services district that was included in the federal sample will automatically be included in the social services district's review sample and the determination made at the federal review regarding that child or case will govern for the purposes of the social services district's review. The social services district must complete and submit the results of its review to the office of children and family services within 60 days of receipt of the sample. The error rate for the district will be based on the findings of the district's review and the office of children and family services' re-review. If a social services district does not complete its review within 60 days of receiving the sample from the office of children and family services, the office of children and family services shall assign an error rate to the social services district based on the relative percentage of the district's applicable title IV-E claims for the relevant period as compared to applicable statewide title IV-E claims for that period and other circumstances that the office of children and family services may consider in order
to allocate 100 percent of the federal disallowance. The office of children and family services shall apply each social services district's error rate to the total amount of the district's applicable title IV-E claims including associated administrative expenses. The resulting dollar amounts for all of the social services districts will be summed to derive the total amount of title IV-E claims deemed to be in error statewide. To establish a disallowance percentage for each social services district, the amount of the district's title IV-E claims deemed to be in error will be divided by the amount of statewide title IV-E claims deemed to be in error. The resulting disallowance percentage for each district will be applied to the entire title IV-E extrapolated disallowance calculated by the federal review to determine the amount of the extrapolated disallowance for which the district is responsible. Each district will be credited for the amount already disallowed for any individual children or cases found to be in error during the federal review. The exclusive appeal rights for the review of the amount of the federal disallowance assigned to each social services district shall be pursuant to article 78 of the civil practice law and rules; provided, however, that in any such action all of the social services districts shall be joined as necessary parties and the venue of any such action shall be in Rensselaer county. Any social services district that fails to complete its sample review in the required time frames shall have no right to appeal and shall not be a necessary party to any action brought by another social services district.

The money hereby appropriated is to be available for payment of state aid heretofore accrued or hereafter to accrue to municipalities. Subject to the approval of the director of the budget, such funds shall be available to the office net of disallowances, refunds, reimbursements, and credits.

FAMILY AND CHILDREN'S SERVICES PROGRAM

General Fund
Local Assistance Account - 10000

The appropriation made by chapter 53, section 1, of the laws of 2021, is hereby amended and reappropriated to read:
Notwithstanding any inconsistent provision of law, the amount appropriated herein, shall be available under a foster care block grant for state reimbursement of eligible social services district expenditures for the provision and administration of foster care services including care, maintenance, supervision, and tuition; for supervision of foster children placed in federally funded job corps programs; for care, maintenance, supervision, and tuition for adjudicated juvenile delinquents placed in residential programs operated by authorized agencies and in out-of-state residential programs; for the provision and administration of the kinship guardian assistance program including kinship guardianship assistance payments and payments for non-recurring guardianship expenses and eligible expenditures associated with local compliance with the federal Family First Prevention Services Act (P.L. 115-123); except that, reimbursement from the amount appropriated herein shall not be available for tuition expenditures for foster children, including persons in need of supervision and adjudicated juvenile delinquents, made by a social services district located within a city having a population of one million or more.

Notwithstanding any other provision of law, a portion of the funds are available to reimburse social services districts for the change in the maximum state aid rates established by the office of children and family services for the 2021-22 rate year pursuant to section 398-a of the social services law and sections 4003 and 4405 of the education law to reflect the continuation of the cost of living adjustments that became effective April 1, 2008 for payments made to foster parents and for salary and fringe benefit costs and other critical nonpersonal services costs for foster care programs as determined by the office. Social services districts must adjust the
amount of payments made for care provided by congregate care and foster boarding home programs and to foster parents to reflect the cost of living adjustments in the manner specified by the office. Each authorized agency operating a congregate care or foster boarding home program in New York state for which the office sets a maximum state aid rate pursuant to section 398-a of the social services law or section 4003 or 4405 of the education law shall submit, at the time and in a manner to be determined by the office, a written certification, attesting that the funds received for the continuation of the cost of living adjustment to the maximum state aid rate that became effective April 1, 2008 for that program will be or were used solely in accordance with the requirements of the cost of living adjustment established by the office. Notwithstanding any inconsistent provision of law except a chapter of the laws of 2021 authorizing a 1 percent cost of living adjustment increase, but including section 1 of part C of chapter 57 of the laws of 2006, as amended by section 1 of part I of chapter 60 of the laws of 2014, for the period commencing on April 1, 2021 and ending March 31, 2022 the director shall not apply any other cost of living adjustment for the purpose of establishing rates of payments, contracts or any other form of reimbursement. Within the amounts appropriated herein, state reimbursement to each social services district for services identified herein that are otherwise reimbursable by the state from April 1, 2021 through March 31, 2022 shall be limited to a district allocation, hereinafter referred to as the district's block grant allocation. Notwithstanding any other provision of law, such block grant allocation shall be based, in part, on each district's claims for such costs, adjusted by the applicable cost allocation methodology and net of any retroactive payments for the 12 month period ending June 30, 2020 that are submitted on or before January 2, 2021 and, in part, on such other factors as determined by the office of children and family services and approved by the director of the budget. Any portion of a social services district's allocation from funds appropriated herein not claimed by such district during the state fiscal year may be used by such district for expenditures on preventive services provided pursuant to section 409-a of the social services law, independent living services and aftercare services provided pursuant to regulations of the department of family assistance, claimed by such district during the next state fiscal year up to the amount remaining from the district's foster care block grant allocation, provided however, that any claims for such services during the next state fiscal year in excess of such amount shall be subject to 62 percent state reimbursement exclusive of any federal funds made available for such purposes, in accordance with directives of the department of family assistance and subject to the approval of the director of the budget. Any claims submitted by a social services district for reimbursement for a particular state fiscal year for which the social services district does not receive state or federal reimbursement during that state fiscal year may not be claimed
against that district's block grant apportionment for the next state fiscal year.

The office of children and family services, with the approval of the director of the budget, may reduce a district's block grant allocation by the state share decrease related to federal retroactive reimbursement for such foster care services identified herein. The office, with the approval of the director of the budget, may reduce a district's block grant allocation by the state share of disallowances or sanctions taken against the district pursuant to the social services law or federal law.

Notwithstanding any other provision of law, the state shall not be responsible for reimbursing a social services district and a district shall not seek state reimbursement for any portion of any state disallowance or sanction taken against the social services district, or any federal disallowance attributable to final federal agency decisions or to settlement made, on or after July 1, 1995, when such disallowance or sanction results from the failure of the social services district to comply with federal or state requirements, including, but not limited to, failure to document eligibility for federal or state funds in the case record; provided, however, if the office determines that any federal disallowance for services provided between January 1, 1999 and May 31, 1999 results solely from the late enactment of the state legislation implementing the federal adoption and safe families act, the state shall be solely responsible for the full amount of the disallowance or sanction; provided, further, however, this provision shall be deemed to apply both prospectively and retroactively regardless of whether such sanctions or disallowances are for services provided or claims made prior to or after April 1, 2021.

Notwithstanding any other provision of law, any federal disallowance resulting from a federal title IV-E eligibility review or audit that uses extrapolated statistic techniques shall be passed along by the state to any and all social services districts that the office of children and family services has determined have not complied with the title IV-E eligibility requirements or have not taken the necessary actions to ensure compliance with such requirements including, but not limited to, failing to: assess and fully document all the criteria and have readily available all the necessary documents to establish and continue title IV-E eligibility for all title IV-E eligible children within the required time frames; claim title IV-E funding only for cases that meet all of the title IV-E eligibility criteria; and fully implement the social services payment system on or before April 1, 2005 for all direct and voluntary agency foster care services.

Notwithstanding any law to the contrary, the office of children and family services shall impose on social services districts any federal disallowance issued against the state as a result of a federal title IV-E secondary eligibility review regardless of the date the children may have entered foster care, the date the eligibility or payment errors occurred, or the filing date of any federal claims for reimbursement; provided, however, that the state shall be
responsible for the disallowed costs and expenditures related to the placement of children in a facility operated by the office of children and family services, which shall be determined in the same manner as the disallowed costs and expenditures for social services districts other than the city of New York. In order to reimburse the federal government for the full amount of any disallowance imposed on the state by the federal administration for children and families within the timeframes necessary to avoid any potential interest payments on such amount, the office of children and family services is authorized to immediately offset funds otherwise due to each district for a pro rata share of the total disallowed costs based on the percentage of applicable federal title IV-E claims made by that district for the relevant time period as compared to the total applicable statewide title IV-E claims. The amount of the offset against each district will be adjusted, if necessary, upon completion of the disallowance allocation process. The final allocation of the amount of any federal disallowance resulting from a title IV-E secondary eligibility review shall be allocated among the districts so that each district shall be responsible for the amount attributable to each of the district's children or cases that are determined by the federal review to be unallowable. Each district shall also be responsible for a portion of the federal extrapolated disallowance amount based on the relative error rate for the district. The city of New York's error rate will be based on the federal sample and federal statistics. For all social services districts other than the city of New York, the error rate will be based on a review conducted by the district of a sample of children and/or cases determined by the office of children and family services and a re-review of a sub-sample by the office of those children and/or cases determined by the office. The office of children and family services will determine what is reasonable in establishing the size of the sample and sub-sample for each district. The office of children and family services shall notify each social services district of the sample of children and/or cases from the federal audit period that the social services district must review. Any child or case from the social services district that was included in the federal sample will automatically be included in the social services district's review sample and the determination made at the federal review regarding that child or case will govern for the purposes of the social services district's review. The social services district must complete and submit the results of its review to the office of children and family services within 60 days of receipt of the sample. The error rate for the district will be based on the findings of the district's review and the office of children and family services' re-review. If a social services district does not complete its review within 60 days of receiving the sample from the office of children and family services, the office of children and family services shall assign an error rate to the social services district based on the relative percentage of the district's applicable title IV-E claims for the relevant period as compared to applicable statewide title IV-E claims for that period and other
circumstances that the office of children and family services may consider in order to allocate 100 percent of the federal disallowance. The office of children and family services shall apply each social services district's error rate to the total amount of the district's applicable title IV-E claims including associated administrative expenses. The resulting dollar amounts for all of the social services districts will be summed to derive the total amount of title IV-E claims deemed to be in error statewide. To establish a disallowance percentage for each social services district, the amount of the district's title IV-E claims deemed to be in error will be divided by the amount of statewide title IV-E claims deemed to be in error. The resulting disallowance percentage for each district will be applied to the entire title IV-E extrapolated disallowance calculated by the federal review to determine the amount of the extrapolated disallowance for which the district is responsible. Each district will be credited for the amount already disallowed for any individual children or cases found to be in error during the federal review. The exclusive appeal rights for the review of the amount of the federal disallowance assigned to each social services district shall be pursuant to article 78 of the civil practice law and rules; provided, however, that in any such action all of the social services districts shall be joined as necessary parties and the venue of any such action shall be in Rensselaer county. Any social services district that fails to complete its sample review in the required time frames shall have no right to appeal and shall not be a necessary party to any action brought by another social services district.

The money hereby appropriated is to be available for payment of state aid heretofore accrued or hereafter to accrue to municipalities. Subject to the approval of the director of the budget, such funds shall be available to the office net of disallowances, refunds, reimbursements, and credits.

Notwithstanding any inconsistent provision of law, the amount herein appropriated may be transferred to any other appropriation within the office of children and family services and/or the office of temporary and disability assistance and/or suballocated to the office of temporary and disability assistance for the purpose of paying local social services districts' costs of the above program and may be increased or decreased by interchange with any other appropriation or with any other item or items within the amounts appropriated within the office of children and family services general fund – local assistance account with the approval of the director of the budget who shall file such approval with the department of audit and control and copies thereof with the chairman of the senate finance committee and the chairman of the assembly ways and means committee.

Notwithstanding any inconsistent provision of law, in lieu of payments authorized by the social services law, or payments of federal funds otherwise due to the local social services districts for programs provided under the federal social security act or the federal food stamp act, funds herein appropriated, in amounts certified by the
state comptroller or the state commissioner of health as due from local social services districts each month as their share of payments made pursuant to section 367-b of the social services law may be set aside by the state comptroller in an interest bearing account with such interest accruing to the credit of the locality in order to ensure the orderly and prompt payment of providers under section 367-b of the social services law pursuant to an estimate provided by the commissioner of health of each local social services district's share of payments made pursuant to section 367-b of the social services law.

Notwithstanding the provisions of any other law to the contrary, the office of children and family services may, on behalf of social services districts, make payments to foster boarding homes paid directly by social services districts by direct deposit or debit card. Local social services districts shall reimburse the office for the costs of administering such direct deposit or debit card payments.

Notwithstanding any inconsistent provision of the social services law or the state finance law, the office of children and family services shall, on a quarterly basis, request that the office of temporary and disability assistance reimburse the office of children and family services for the non-federal share of the costs of administering such direct deposit or debit card payments to capture the local share of such costs.

Notwithstanding any other provision of law to the contrary, amounts due and owing to a social services district under this appropriation, may be reduced up to such amounts due and owing to the state under section 529 of the executive law (13997) .......................... 383,526,000 ..................................... (re. $214,138,000) Notwithstanding any inconsistent provision of law, the amount appropriated herein shall be made available to reimburse 62 percent of eligible social services district expenditures that are claimed by March 31, 2022 for child welfare services which shall include and be limited to preventive services provided pursuant to section 409-a of the social services law other than community optional preventive services, child protective services, independent living services, after-care services as defined in regulations of the department of family assistance, and adoption administration and services, other than adoption subsidies provided pursuant to title 9 of article 6 of the social services law and regulations of the department of family assistance incurred on or after October 1, 2020 and before October 1, 2021 and that are otherwise reimbursable by the state on or after April 1, 2021, after first deducting therefrom any federal funds properly received or to be received on account thereof upon certification by the social services district that it will not be using these funds to supplant other state and local funds and that the district will not submit claims for reimbursement under this appropriation for the same type and level of services that the county previously provided and claimed under any contract in existence on October 1, 2002 as other than child protective, preventive, inde-
pendent living, after care or adoption services or adoption admin-
istration.
The money hereby appropriated is to be available for payment of state
aid heretofore accruing or hereafter to accrue to municipalities.
Subject to the approval of the director of the budget, such funds
shall be available to the office net of disallowances, refunds,
reimbursements, and credits; provided, however, that notwithstanding
any other provision of law, for a district to receive reimbursement
for such services, the amount of funds that the district expends on
such services from its flexible fund for family services allocation
and any flexible fund for family services funds transferred at the
district's request to the title XX social services block grant must,
to the extent that families are eligible therefore, be equal to or
greater than the district's portion of the $382,322,341 statewide
child welfare threshold amount, which shall be established pursuant
to a formula developed by the office of temporary and disability
assistance and the office of children and family services and
approved by the director of the budget.
Notwithstanding any other provision of law, selected social services
districts may authorize the office of temporary and disability
assistance to intercept a portion of the funds on behalf of the
office of children and family services otherwise due to the
districts under this appropriation and/or under any other general
fund - aid to localities appropriation available to such districts

suballocation from the office of mental health to the department of
health to use for the 38.9 percent of the non-federal share of the
medical assistance payments for home and community based waiver

the social services law as authorized by such selected social
services districts which choose to use preventive services funds to
support such costs.

section 367-b of the social services law pursuant to an estimate

social services law.
Notwithstanding the provisions of any other law to the contrary, the
office of children and family services may, on behalf of local
social services districts, make payments for adoption subsidies by

Notwithstanding any inconsistent provision of the social services law
or the state finance law, the office of children and family services
shall, on a quarterly basis, request that the office of temporary

Notwithstanding any other provision of law, the office of children and
family services shall reissue per diem rates, required pursuant to
section 529 of the executive law, for calendar years 2002 through
2009 to remove any adjustments to the costs included in determining

not exceed the cost that was in effect on October 1, 2008 and that a
social services district can demonstrate had been approved by the
office of children and family services on or before October 1, 2008;
provided, however, that should insufficient funds be available to

local social services districts shall reimburse the commissioner of

By chapter 53, section 1, of the laws of 2020:
Notwithstanding any inconsistent provision of law, the amount appro-
priated herein, shall be available under a foster care block grant
for state reimbursement of eligible social services district expend-
itutes for the provision and administration of foster care services
including care, maintenance, supervision, and tuition; for super-
vision of foster children placed in federally funded job corps
programs; for care, maintenance, supervision, and tuition for adju-
dicated juvenile delinquents placed in residential programs operated
by authorized agencies and in out-of-state residential programs; and
for the provision and administration of the kinship guardian assist-
ance program including kinship guardianship assistance payments and
payments for non-recurring guardianship expenses; except that,
reimbursement from the amount appropriated herein shall not be
available for tuition expenditures for foster children, including
persons in need of supervision and adjudicated juvenile delinquents,
made by a social services district located within a city having a
population of one million or more.

Notwithstanding any other provision of law, a portion of the funds are
available to reimburse social services districts for the change in
the maximum state aid rates established by the office of children
and family services for the 2020-21 rate year pursuant to section
398-a of the social services law and sections 4003 and 4405 of the
education law to reflect the continuation of the cost of living
adjustments that became effective April 1, 2008 for payments made to
foster parents and for salary and fringe benefit costs and other
critical nonpersonal services costs for foster care programs as
determined by the office. Social services districts must adjust the
amount of payments made for care provided by congregate care and
foster boarding home programs and to foster parents to reflect the
cost of living adjustments in the manner specified by the office.
Each authorized agency operating a congregate care or foster board-
ing home program in New York state for which the office sets a maxi-
mum state aid rate pursuant to section 398-a of the social services
law or section 4003 or 4405 of the education law shall submit, at
the time and in a manner to be determined by the office, a written
certification, attesting that the funds received for the continua-
tion of the cost of living adjustment to the maximum state aid rate
that became effective April 1, 2008 for that program will be or were
used solely in accordance with the requirements of the cost of
living adjustment established by the office.

Notwithstanding any inconsistent provision of law, for the period
commencing on April 1, 2020 and ending March 31, 2021 the commis-
sioner shall not apply any cost of living adjustment for the purpose
of establishing rates of payments, contracts or any other form of
reimbursement.
Within the amounts appropriated herein, state reimbursement to each social services district for services identified herein that are otherwise reimbursable by the state from April 1, 2020 through March 31, 2021 shall be limited to a district allocation, hereinafter referred to as the district's block grant allocation. Notwithstanding any other provision of law, such block grant allocation shall be based, in part, on each district's claims for such costs, adjusted by the applicable cost allocation methodology and net of any retroactive payments for the 12 month period ending June 30, 2019 that are submitted on or before January 2, 2020 and, in part, on such other factors as determined by the office of children and family services and approved by the director of the budget. Any portion of a social services district's allocation from funds appropriated herein not claimed by such district during the state fiscal year may be used by such district for expenditures on preventive services provided pursuant to section 409-a of the social services law, independent living services and aftercare services provided pursuant to regulations of the department of family assistance, claimed by such district during the next state fiscal year up to the amount remaining from the district's foster care block grant allocation, provided however, that any claims for such services during the next state fiscal year in excess of such amount shall be subject to 62 percent state reimbursement exclusive of any federal funds made available for such purposes, in accordance with directives of the department of family assistance and subject to the approval of the director of the budget. Any claims submitted by a social services district for reimbursement for a particular state fiscal year for which the social services district does not receive state or federal reimbursement during that state fiscal year may not be claimed against that district's block grant apportionment for the next state fiscal year.

The office of children and family services, with the approval of the director of the budget, may reduce a district's block grant allocation by the state share decrease related to federal retroactive reimbursement for such foster care services identified herein. The office, with the approval of the director of the budget, may reduce a district's block grant allocation by the state share of disallowances or sanctions taken against the district pursuant to the social services law or federal law.

Notwithstanding any other provision of law, the state shall not be responsible for reimbursing a social services district and a district shall not seek state reimbursement for any portion of any state disallowance or sanction taken against the social services district, or any federal disallowance attributable to final federal agency decisions or to settlement made, on or after July 1, 1995, when such disallowance or sanction results from the failure of the social services district to comply with federal or state requirements, including, but not limited to, failure to document eligibility for federal or state funds in the case record; provided, however, if the office determines that any federal disallowance for services provided between January 1, 1999 and May 31, 1999 results
solely from the late enactment of the state legislation implementing
the federal adoption and safe families act, the state shall be sole-
ly responsible for the full amount of the disallowance or sanction;
provided, further, however, this provision shall be deemed to apply
both prospectively and retroactively regardless of whether such
sanctions or disallowances are for services provided or claims made
prior to or after April 1, 2020.

Notwithstanding any other provision of law, any federal disallowance
resulting from a federal title IV-E eligibility review or audit that
uses extrapolated statistic techniques shall be passed along by the
state to any and all social services districts that the office of
children and family services has determined have not complied with
the title IV-E eligibility requirements or have not taken the neces-
sary actions to ensure compliance with such requirements including,
but not limited to, failing to: assess and fully document all the
criteria and have readily available all the necessary documents to
establish and continue title IV-E eligibility for all title IV-E
eligible children within the required time frames; claim title IV-E
funding only for cases that meet all of the title IV-E eligibility
criteria; and fully implement the social services payment system on
or before April 1, 2005 for all direct and voluntary agency foster
care services.

Notwithstanding any law to the contrary, the office of children and
family services shall impose on social services districts any feder-
al disallowance issued against the state as a result of a federal
title IV-E secondary eligibility review regardless of the date the
children may have entered foster care, the date the eligibility or
payment errors occurred, or the filing date of any federal claims
for reimbursement; provided, however, that the state shall be
responsible for the disallowed costs and expenditures related to the
placement of children in a facility operated by the office of chil-
dren and family services, which shall be determined in the same
manner as the disallowed costs and expenditures for social services
districts other than the city of New York. In order to reimburse the
federal government for the full amount of any disallowance imposed
on the state by the federal administration for children and families
within the timeframes necessary to avoid any potential interest
payments on such amount, the office of children and family services
is authorized to immediately offset funds otherwise due to each
district for a pro rata share of the total disallowed costs based on
the percentage of applicable federal title IV-E claims made by that
district for the relevant time period as compared to the total
applicable statewide title IV-E claims. The amount of the offset
against each district will be adjusted, if necessary, upon
completion of the disallowance allocation process. The final allo-
cation of the amount of any federal disallowance resulting from a
title IV-E secondary eligibility review shall be allocated among the
districts so that each district shall be responsible for the amount
attributable to each of the district's children or cases that are
determined by the federal review to be unallowable. Each district
shall also be responsible for a portion of the federal extrapolated
disallowance amount based on the relative error rate for the
district. The city of New York's error rate will be based on the
federal sample and federal statistics. For all social services
districts other than the city of New York, the error rate will be
based on a review conducted by the district of a sample of children
and/or cases determined by the office of children and family
services and a re-review of a sub-sample by the office of those
children and/or cases determined by the office. The office of chil-
dren and family services will determine what is reasonable in estab-
lishing the size of the sample and sub-sample for each district.
The office of children and family services shall notify each social
services district of the sample of children and/or cases from the
federal audit period that the social services district must review.
Any child or case from the social services district that was
included in the federal sample will automatically be included in the
social services district's review sample and the determination made
at the federal review regarding that child or case will govern for
the purposes of the social services district's review. The social
services district must complete and submit the results of its review
to the office of children and family services within 60 days of
receipt of the sample. The error rate for the district will be based
on the findings of the district's review and the office of children
and family services' re-review. If a social services district does
not complete its review within 60 days of receiving the sample from
the office of children and family services, the office of children
and family services shall assign an error rate to the social
services district based on the relative percentage of the district's
applicable title IV-E claims for the relevant period as compared to
applicable statewide title IV-E claims for that period and other
circumstances that the office of children and family services may
consider in order to allocate 100 percent of the federal disallow-
ance. The office of children and family services shall apply each
social services district's error rate to the total amount of the
district's applicable title IV-E claims including associated admin-
istrative expenses. The resulting dollar amounts for all of the
social services districts will be summed to derive the total amount
of title IV-E claims deemed to be in error statewide. To establish a
disallowance percentage for each social services district, the
amount of the district's title IV-E claims deemed to be in error
will be divided by the amount of statewide title IV-E claims deemed
to be in error. The resulting disallowance percentage for each
district will be applied to the entire title IV-E extrapolated
disallowance calculated by the federal review to determine the
amount of the extrapolated disallowance for which the district is
responsible. Each district will be credited for the amount already
disallowed for any individual children or cases found to be in error
during the federal review. The exclusive appeal rights for the
review of the amount of the federal disallowance assigned to each
social services district shall be pursuant to article 78 of the
civil practice law and rules; provided, however, that in any such
action all of the social services districts shall be joined as
necessary parties and the venue of any such action shall be in Rensselaer county. Any social services district that fails to complete its sample review in the required time frames shall have no right to appeal and shall not be a necessary party to any action brought by another social services district.

The money hereby appropriated is to be available for payment of state aid heretofore accrued or hereafter to accrue to municipalities. Subject to the approval of the director of the budget, such funds shall be available to the office net of disallowances, refunds, reimbursements, and credits.

Notwithstanding any inconsistent provision of law, the amount herein appropriated may be transferred to any other appropriation within the office of children and family services and/or the office of temporary and disability assistance and/or suballocated to the office of temporary and disability assistance for the purpose of paying local social services districts' costs of the above program and may be increased or decreased by interchange with any other appropriation or with any other item or items within the amounts appropriated within the office of children and family services general fund - local assistance account with the approval of the director of the budget who shall file such approval with the department of audit and control and copies thereof with the chairman of the senate finance committee and the chairman of the assembly ways and means committee.

Notwithstanding any inconsistent provision of law, in lieu of payments authorized by the social services law, or payments of federal funds otherwise due to the local social services districts for programs provided under the federal social security act or the federal food stamp act, funds herein appropriated, in amounts certified by the state comptroller or the state commissioner of health as due from local social services districts each month as their share of payments made pursuant to section 367-b of the social services law may be set aside by the state comptroller in an interest bearing account with such interest accruing to the credit of the locality in order to ensure the orderly and prompt payment of providers under section 367-b of the social services law pursuant to an estimate provided by the commissioner of health of each local social services district's share of payments made pursuant to section 367-b of the social services law.

Notwithstanding the provisions of any other law to the contrary, the office of children and family services may, on behalf of social services districts, make payments to foster boarding homes paid directly by social services districts by direct deposit or debit card. Local social services districts shall reimburse the office for the costs of administering such direct deposit or debit card payments.

Notwithstanding any inconsistent provision of the social services law or the state finance law, the office of children and family services shall, on a quarterly basis, request that the office of temporary and disability assistance reimburse the office of children and family services for the non-federal share of the costs of administering
such direct deposit or debit card payments to capture the local
share of such costs.

Notwithstanding any other provision of law to the contrary, amounts
due and owing to a social services district under this appropriation, may be reduced up to such amounts due and owing to the state
under section 529 of the executive law (13997) .................
383,526,000 ................................................. (re. $752,000)

Notwithstanding any inconsistent provision of law, the amount appro-
priated herein shall be made available to reimburse 62 percent of
eligible social services district expenditures that are claimed by
March 31, 2021 for child welfare services which shall include and be
limited to preventive services provided pursuant to section 409-a of
the social services law other than community optional preventive
services, child protective services, independent living services,
after-care services as defined in regulations of the department of
family assistance, and adoption administration and services, other
than adoption subsidies provided pursuant to title 9 of article 6 of
the social services law and regulations of the department of family
assistance incurred on or after October 1, 2019 and before October
1, 2020 and that are otherwise reimbursable by the state on or after
April 1, 2020, after first deducting therefrom any federal funds
properly received or to be received on account thereof upon certif-
ication by the social services district that it will not be using
these funds to supplant other state and local funds and that the
district will not submit claims for reimbursement under this appro-
priation for the same type and level of services that the county
previously provided and claimed under any contract in existence on
October 1, 2002 as other than child protective, preventive, inde-
pendent living, after care or adoption services or adoption adminis-
tration.

The money hereby appropriated is to be available for payment of state
aid heretofore accrued or hereafter to accrue to municipalities.
Subject to the approval of the director of the budget, such funds
shall be available to the office net of disallowances, refunds,
reimbursements, and credits; provided, however, that notwithstanding
any other provision of law, for a district to receive reimbursement
for such services, the amount of funds that the district expends on
such services from its flexible fund for family services allocation
and any flexible fund for family services funds transferred at the
district's request to the title XX social services block grant must,
to the extent that families are eligible therefore, be equal to or
greater than the district's portion of the $382,322,341 statewide
child welfare threshold amount, which shall be established pursuant
to a formula developed by the office of temporary and disability
assistance and the office of children and family services and
approved by the director of the budget.

Notwithstanding any other provision of law, selected social services
districts may authorize the office of temporary and disability
assistance to intercept a portion of the funds on behalf of the
office of children and family services otherwise due to the
districts under this appropriation and/or under any other general

the social services law as authorized by such selected social
services districts which choose to use preventive services funds to

available for education and training vouchers provided in accordance
with section 477 of title IV-E of the social security act as author-
ized by such social services districts which choose to use funds to
support such costs.

Notwithstanding any inconsistent provision of law, the amount herein
appropriated may be transferred to any other appropriation within
the office of children and family services and/or the office of
temporary and disability assistance and/or suballocated to the
office of temporary and disability assistance for the purpose of
paying local social services districts' costs of the above program
and may be increased or decreased by interchange with any other

state comptroller or the state commissioner of health as due from

account with such interest accruing to the credit of the locality in
order to ensure the orderly and prompt payment of providers under
section 367-b of the social services law pursuant to an estimate
provided by the commissioner of health of each local social services
district's share of payments made pursuant to section 367-b of the
social services law.

of children and family services pursuant to a plan approved by the
director of the budget; provided, however, if a municipality is
unable to use or claim all of its allocation for such program period
within the required time frames, the municipality may apply to the

Funds appropriated herein shall also reimburse for family assistance expenditures for emergency shelter, transportation, or nutrition payments which the district determines are necessary to establish or maintain independent living arrangements among persons living with medically diagnosed HIV infection as defined by the AIDS institute of the State department of health and who are homeless or facing homelessness and for whom no viable and less costly alternative to housing is available; provided, however, that funds appropriated herein may only be used for such purposes if the cost of such allowances are not eligible for reimbursement under medical assistance or other programs.

tive ceiling established by the commis-

Notwithstanding any inconsistent provision
of law and subject to the approval of the
director of budget, moneys hereby appro-
priated may be increased or decreased by
transfer or interchange between these
appropriated amounts and appropriations of
the medical assistance administration
program, the medical assistance program,
and the office of health insurance
programs. Funding authority from this
account used for state administration of
the medical assistance program may be
transferred to state operations appropri-
atations within the aforementioned programs
at amounts agreed upon by the commissioner
of health, and the New York state division
of the budget.

Notwithstanding section 40 of the state
finance law or any other law to the
contrary, all medical assistance appropri-
atations made from this account shall remain
in full force and effect in accordance, in
the aggregate, with the following sched-
ule: not more than 50 percent for the
period April 1, 2022 to March 31, 2023 and
the remaining amount for the period April
1, 2023 to March 31, 2024.

Notwithstanding section 40 of the state
finance law or any provision of law to the
contrary, subject to federal approval,
department of health state funds medicaid
spending, excluding payments for medical
services provided at state facilities
operated by the office of mental health,
the office for people with developmental
disabilities and the office of addiction
services and supports and further exclud-
ing any payments which are not appropri-
ated within the department of health, in
the aggregate, for the period April 1, 2021 through March 31, 2023, shall not
exceed $25,936,887,000 except as provided
below and state share medicaid spending,
in the aggregate, for the period April 1, 2023 through March 31, 2024, shall not
exceed $27,415,894,000, but in no event
shall department of health state funds
medicaid spending for the period April 1,
2022 through March 31, 2024 exceed
$53,352,781,000 provided, however, such
aggregate limits may be adjusted by the
director of the budget to account for any
changes in the New York state federal
medical assistance percentage amount
established pursuant to the federal social
security act, increases in provider reven-
ues, reductions in local social services
district payments for medical assistance
administration, minimum wage increases,
and beginning April 1, 2012 the opera-
tional costs of the New York state medical
indemnity fund, pursuant to chapter 59 of
the laws of 2011, and state costs or
savings from the essential plan program.
Such projections may be adjusted by the
director of the budget to account for
increased or expedited department of
health state funds medicaid expenditures
as a result of a natural or other type of
disaster, including a governmental decla-
ration of emergency.
The director of the budget, in consultation
with the commissioner of health, shall
assess on a quarterly basis known and
projected medicaid expenditures by catego-
ry of service and by geographic region, as
determined by the commissioner of health,
incurred both prior to and subsequent to
such assessment for each such period, and
if the director of the budget determines
that such expenditures are expected to
cause medicaid spending for such period to
exceed the aggregate limit specified here-
in for such period, the state medicaid
director, in consultation with the direc-
tor of the budget and the commissioner of
health, shall develop a medicaid savings
allocation adjustment to limit such spend-
ing to the aggregate limit specified here-
in for such period.
Such medicaid savings allocation adjustment
shall be designed, to reduce the expendi-
tures authorized by the appropriations
herein in compliance with the following
guidelines: (1) reductions shall be made
in compliance with applicable federal law,
including the provisions of the Patient
Protection and Affordable Care Act, Public
Law No. 111-148, and the Health Care and
Education Reconciliation Act of 2010,
Public Law No. 111-152 (collectively
"Affordable Care Act") and any subsequent

AID TO LOCALITIES  2022-23

amendments thereto or regulations promulgated thereunder; (2) reductions shall be
made in a manner that complies with the
state medicaid plan approved by the feder-
al centers for medicare and medicaid
services, provided, however, that the
commissioner of health is authorized to
submit any state plan amendment or seek
other federal approval, including waiver
authority, to implement the provisions of
the medicaid savings allocation adjustment
that meets the other criteria set forth
herein; (3) reductions shall be made in a
manner that maximizes federal financial
participation, to the extent practicable,
including any federal financial partic-
ipation that is available or is reasonably
expected to become available, in the
discretion of the commissioner, under the
Affordable Care Act; (4) reductions shall
be made uniformly among categories of
services and geographic regions of the
state, to the extent practicable, and
shall be made uniformly within a category
of service, to the extent practicable,
except where the commissioner determines
that there are sufficient grounds for
non-uniformity, including but not limited
to: the extent to which specific catego-
ries of services contributed to department
of health medicaid state funds spending in
excess of the limits specified herein; the
need to maintain safety net services in
underserved communities; or the potential
benefits of pursuing innovative payment
models contemplated by the Affordable Care
Act, in which case such grounds shall be
set forth in the medicaid savings allo-
cation adjustment; and (5) reductions
shall be made in a manner that does not
unnecessarily create administrative
burdens to medicaid applicants and recipi-
ents or providers.

The commissioner shall seek the input of the
legislature, as well as organizations
representing health care providers,
consumers, businesses, workers, health
insurers, and others with relevant exper-
tise, in developing such medicaid savings
allocation adjustment, to the extent that
all or part of such adjustment, in the
discretion of the commissioner, is likely
DEPARTMENT OF HEALTH

AID TO LOCALITIES 2022-23

to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation adjustment on the department of health's website and shall provide written copies of such adjustment to the chairs of the senate finance and assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

(b) The commissioner may revise the medicaid savings allocation adjustment subsequent to the provisions of notice and prior to implementation but needs to provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that such revisions materially alter the adjustment.

Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this subdivision if, in the discretion of the commissioner, expedited development and implementation of a medicaid savings allocation adjustment is necessary due to a public health emergency.

For purposes of this section, a public health emergency is defined as: (i) a disaster, natural or otherwise, that significantly increases the immediate need for health care personnel in an area of the state; (ii) an event or condition that creates a widespread risk of exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or (iii) any other event or condition determined by the commissioner to constitute an imminent threat to public health.

Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation adjustment from taking effect retroactively to the extent permitted by the federal centers for medicare and medicaid services.
In accordance with the medicaid savings allocation adjustment, the commissioner of the department of health shall reduce department of health state funds medicaid spending by the amount of the projected overspending through, actions including, but not limited to modifying or suspending reimbursement methods, including but not limited to all fees, premium levels and rates of payment, notwithstanding any provision of law that sets a specific amount or methodology for any such payments or rates of payment; modifying medicaid program benefits; seeking all necessary federal approvals, including, but not limited to waivers, waiver amendments; and suspending time frames for notice, approval or certification of rate requirements, notwithstanding any provision of law, rule or regulation to the contrary, including but not limited to sections 2807 and 3614 of the public health law, section 18 of chapter 2 of the laws of 1988, and 18 NYCRR 505.14(h).

The department of health shall prepare a quarterly report that sets forth: (a) known and projected department of health medicaid expenditures as described in subdivision (1) of this section, and factors that could result in medicaid disbursements for the relevant state fiscal year to exceed the projected department of health state funds disbursements in the enacted budget financial plan pursuant to subdivision 3 of section 23 of the state finance law, including spending increases or decreases due to: enrollment fluctuations, rate changes, utilization changes, MRT investments, and shift of beneficiaries to managed care; and variations in offline medicaid payments; and (b) the actions taken to implement any medicaid savings allocation adjustment implemented pursuant to subdivision (4) of this section, including information concerning the impact of such actions on each category of service and each geographic region of the state. Each such quarterly report shall be provided to the chairs of the senate finance and the assembly ways and means committees and
shall be posted on the department of health's website in a timely manner.

The money hereby appropriated is available for payment of liabilities heretofore and hereafter accrued and shall be available to the department net of disallowances, refunds, reimbursements, and credits.

Notwithstanding any other provision of law, the money hereby appropriated may be increased or decreased by interchange or transfer, with any appropriation of the department of health, and may be increased or decreased by transfer or suballocation between these appropriated amounts and appropriations of the office of mental health, the office for people with developmental disabilities, the office of addiction services and supports, the department of family assistance office of temporary and disability assistance, the department of corrections and community supervision, the office of information technology services, the state university of New York, the state office for the aging, the office of the medicaid inspector general, and office of children and family services with the approval of the director of the budget, who shall file such approval with the department of audit and control and copies thereof with the chairman of the senate finance committee and the chairman of the assembly ways and means committee.

Notwithstanding any inconsistent provision of law, in lieu of payments authorized by the social services law, or payments of federal funds otherwise due to the local social services districts for programs provided under the federal social security act or the federal food stamp act, funds herein appropriated, in amounts certified by the state commissioner of temporary and disability assistance or the state commissioner of health as due from local social services districts each month as their share of payments made pursuant to section 367-b of the social services law may be set aside by the state comptroller in an interest-bearing account in order to ensure the orderly and prompt payment of providers under section 367-b of the social services law pursuant to an esti-

atated within the department of health, in
the aggregate, for the period April 1,

exceed $25,936,887,000 except as provided
below and state share medicaid spending,
in the aggregate, for the period April 1,
2023 through March 31, 2024, shall not
exceed $27,415,894,000, but in no event
shall department of health state funds
medicaid spending for the period April 1,
2022 through March 31, 2024 exceed
$53,352,781,000. Provided, however, such
aggregate limits may be adjusted by the
director of the budget to account for any
changes in the New York state federal
medical assistance percentage amount
established pursuant to the federal social
security act, increases in provider reven-
ues, reductions in local social services
district payments for medical assistance
administration, minimum wage increases,
and beginning April 1, 2012 the opera-
tional costs of the New York state medical
indemnity fund, pursuant to chapter 59 of
the laws of 2011, and state costs or
savings from the essential plan program.
Such projections may be adjusted by the
director of the budget to account for
increased or expedited department of
health state funds medicaid expenditures
as a result of a natural or other type of
disaster, including a governmental decla-
ration of emergency.
The director of the budget, in consultation with the commissioner of health, shall assess on a quarterly basis known and projected medicaid expenditures by category of service and by geographic region, as defined by the commissioner, incurred both prior to and subsequent to such assessment for each such period, and if the director of the budget determines that such expenditures are expected to cause medicaid spending for such period to exceed the aggregate limit specified herein for such period, the state medicaid director, in consultation with the director of the budget and the commissioner of health, shall develop a medicaid savings allocation adjustment to limit such spending to the aggregate limit specified herein for such period.

Such medicaid savings allocation adjustment shall be designed, to reduce the expenditures authorized by the appropriations herein in compliance with the following guidelines: (1) reductions shall be made in compliance with applicable federal law, including the provisions of the Patient Protection and Affordable Care Act, Public Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No. 111-152 (collectively "Affordable Care Act") and any subsequent amendments thereto or regulations promulgated thereunder; (2) reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver authority, to implement the provisions of the medicaid savings allocation adjustment that meets the other criteria set forth herein; (3) reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the Affordable Care Act; (4) reductions shall be made uniformly among categories of
services and geographic regions of the
state, to the extent practicable, and
shall be made uniformly within a category
of service, to the extent practicable,
except where the commissioner determines
that there are sufficient grounds for
non-uniformity, including but not limited
to: the extent to which specific catego-
ries of services contributed to department
of health medicaid state funds spending in
excess of the limits specified herein; the
need to maintain safety net services in
underserved communities; or the potential
benefits of pursuing innovative payment
models contemplated by the Affordable Care
Act, in which case such grounds shall be
set forth in the medicaid savings allo-
cation adjustment; and (5) reductions
shall be made in a manner that does not
unnecessarily create administrative
burdens to medicaid applicants and recipi-
ents or providers.

The commissioner shall seek the input of the
legislature, as well as organizations
representing health care providers,
consumers, businesses, workers, health
insurers, and others with relevant exper-
tise, in developing such medicaid savings
allocation adjustment, to the extent that
all or part of such adjustment, in the
discretion of the commissioner, is likely
to have a material impact on the overall
medicaid program, particular categories of
service or particular geographic regions
of the state.

(a) The commissioner shall post the medicaid
savings allocation adjustment on the
department of health's website and shall
provide written copies of such adjustment
to the chairs of the senate finance and
the assembly ways and means committees at
least 30 days before the date on which
implementation is expected to begin.

(b) The commissioner may revise the medicaid
savings allocation adjustment subsequent
to the provisions of notice and prior to
implementation but needs to provide a new
notice pursuant to subparagraph (i) of
this paragraph only if the commissioner
determines, in his or her discretion, that
such revisions materially alter the
adjustment.
Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this subdivision if, in the discretion of the commissioner, expedited development and implementation of a medicaid savings allocation adjustment is necessary due to a public health emergency.

For purposes of this section, a public health emergency is defined as: (i) a disaster, natural or otherwise, that significantly increases the immediate need for health care personnel in an area of the state; (ii) an event or condition that creates a widespread risk of exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or (iii) any other event or condition determined by the commissioner to constitute an imminent threat to public health.

Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation adjustment from taking effect retroactively to the extent permitted by the federal centers for medicare and medicaid services.

In accordance with the medicaid savings allocation adjustment, the commissioner of the department of health shall reduce department of health state funds medicaid spending by the amount of the projected overspending through, actions including, but not limited to modifying or suspending reimbursement methods, including but not limited to all fees, premium levels and rates of payment, notwithstanding any provision of law that sets a specific amount or methodology for any such payments or rates of payment; modifying or discontinuing medicaid program benefits; seeking all necessary federal approvals, including, but not limited to waivers, waiver amendments; and suspending time frames for notice, approval or certification of rate requirements, notwithstanding any provision of law, rule or regulation to the contrary, including but not limited to sections 2807 and 3614 of...

Notwithstanding section 40 of the state finance law or any other law to the contrary, all medical assistance appropriations made from this account shall remain in full force and effect in accordance, in the aggregate, with the following schedule: not more than 50 percent for the period April 1, 2022 to March 31, 2023; and the remaining amount for the period April 1, 2023 to March 31, 2024.

Notwithstanding section 40 of the state finance law or any provision of law to the contrary, subject to federal approval, department of health state funds medicaid spending, excluding payments for medical services provided at state facilities operated by the office of mental health, the office for people with developmental disabilities and the office of addiction services and supports and further excluding any payments which are not appropriated within the department of health, in the aggregate, for the period April 1, 2022 through March 31, 2023, shall not exceed $25,936,887,000 except as provided below and state share medicaid spending, in the aggregate, for the period April 1, 2023 through March 31, 2024, shall not exceed $27,415,894,000, but in no event shall department of health state funds medicaid spending for the period April 1, 2022 through March 31, 2024 exceed $53,352,781,000 provided, however, such aggregate limits may be adjusted by the director of the budget to account for any changes in the New York state federal medical assistance percentage amount established pursuant to the federal social security act, increases in provider revenues, reductions in local social services district payments for medical assistance administration, minimum wage increases and beginning April 1, 2012 the operational costs of the New York state medical indemnity fund, pursuant to chapter 59 of the laws of 2011, and state costs or savings from the essential plan program. tor of the budget to account for increased
or expedited department of health state
funds medicaid expenditures as a result of
a natural or other type of disaster,
including a governmental declaration of
emergency.
The director of the budget, in consultation
with the commissioner of health, shall
assess on a quarterly basis known and
projected medicaid expenditures by catego-
ry of service and by geographic region, as
determined by the commissioner of health,
incurred both prior to and subsequent to
such assessment for each such period, and
if the director of the budget determines
that such expenditures are expected to
cause medicaid spending for such period to
exceed the aggregate limit specified here-
in for such period, the state medicaid
director, in consultation with the direc-
tor of the budget and the commissioner of
health, shall develop a medicaid savings
allocation adjustment to limit such spend-
ing to the aggregate limit specified here-
in for such period.
Such medicaid savings allocation adjustment
shall be designed, to reduce the expendi-
tures authorized by the appropriations
herein in compliance with the following
guidelines: (1) reductions shall be made
in compliance with applicable federal law,
including the provisions of the Patient
Protection and Affordable Care Act, Public
Law No. 111-148, and the Health Care and
Education Reconciliation Act of 2010,
Public Law No. 111-152 (collectively
"Affordable Care Act") and any subsequent
amendments thereto or regulations promul-
gated thereunder; (2) reductions shall be
made in a manner that complies with the
state medicaid plan approved by the feder-
al centers for medicare and medicaid
services, provided, however, that the
commissioner of health is authorized to
submit any state plan amendment or seek
other federal approval, including waiver
authority, to implement the provisions of
the medicaid savings allocation adjustment
that meets the other criteria set forth
herein; (3) reductions shall be made in a
manner that maximizes federal financial
participation, to the extent practicable,
including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the Affordable Care Act; (4) reductions shall be made uniformly among categories of services and geographic regions of the state, to the extent practicable, and shall be made uniformly within a category of service, to the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific categories of services contributed to department of health medicaid state funds spending in excess of the limits specified herein; the need to maintain safety net services in underserved communities; or the potential benefits of pursuing innovative payment models contemplated by the Affordable Care Act, in which case such grounds shall be set forth in the medicaid savings allocation adjustment; and (5) reductions shall be made in a manner that does not unnecessarily create administrative burdens to medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation adjustment, to the extent that all or part of such adjustment, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation adjustment on the department of health's website and shall provide written copies of such plan to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

(b) The commissioner may revise the medicaid savings allocation adjustment subsequent to the provisions of notice and prior to
implementation but needs to provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that such revisions materially alter the plan. Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this subdivision if, in the discretion of the commissioner, expedited development and implementation of a medicaid savings allocation adjustment is necessary due to a public health emergency.

For purposes of this section, a public health emergency is defined as: (i) a disaster, natural or otherwise, that significantly increases the immediate need for health care personnel in an area of the state; (ii) an event or condition that creates a widespread risk of exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or (iii) any other event or condition determined by the commissioner to constitute an imminent threat to public health.

Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation adjustment from taking effect retroactively to the extent permitted by the federal centers for medicare and medicaid services.

In accordance with the medicaid savings allocation adjustment, the commissioner of the department of health shall reduce department of health state funds medicaid spending by the amount of the projected overspending through, actions including, but not limited to modifying or suspending reimbursement methods, including but not limited to all fees, premium levels and rates of payment, notwithstanding any provision of law that sets a specific amount or methodology for any such payments or rates of payment; modifying medicaid program benefits; seeking all necessary federal approvals, including, but not limited to waivers, waiver amendments; and suspending time frames for

The department of health shall prepare a quarterly report that sets forth: (a) known and projected department of health medicaid expenditures as described in subdivision (1) of this section, and factors that could result in medicaid disbursements for the relevant state fiscal year to exceed the projected department of health state funds disbursements in the enacted budget financial plan pursuant to subdivision 3 of section 23 of the state finance law, including spending increases or decreases due to: enrollment fluctuations, rate changes, utilization changes, MRT investments, and shift of beneficiaries to managed care; and variations in offline medicaid payments; and (b) the actions taken to implement any medicaid savings allocation adjustment implemented pursuant to subdivision (4) of this section, including information concerning the impact of such actions on each category of service and each geographic region of the state. Each such quarterly report shall be provided to the chairs of the senate finance and the assembly ways and means committees and shall be posted on the department of health's website in a timely manner.

For the purpose of making payments to providers of medical care pursuant to section 367-b of the social services law, and for payment of state aid to municipalities where payment systems through fiscal intermediaries are not operational, to reimburse such providers for costs attributable to the provision of care to patients eligible for medical assistance.

Notwithstanding any inconsistent provision of law, the moneys hereby appropriated may be increased or decreased by interchange or transfer with any appropriation of the department of health with the approval of the director of the budget, who shall file such approval with the department of audit and control and copies thereof with the chairman of the senate finance committee and the chairman of the assembly ways and means committee.

Notwithstanding any provision of law to the contrary, the portion of this appropriation covering fiscal year 2022-23 shall supersede and replace any duplicative (i) reappropriation for this item covering fiscal year 2022-23, and (ii) appropriation for this item covering fiscal year 2022-23 set forth in chapter 53 of the laws of 2021 (29797) ..................... 1,433,000,000

Notwithstanding section 40 of the state finance law or any provision of law to the contrary, subject to federal approval, department of health state funds medicaid spending, excluding payments for medical

shall department of health state funds
medicaid spending for the period April 1,
2022 through March 31, 2024 exceed
$53,352,781,000 provided, however, such
aggregate limits may be adjusted by the
director of the budget to account for any
changes in the New York state federal
medical assistance percentage amount
established pursuant to the federal social
security act, increases in provider reven-

district payments for medical assistance
administration, minimum wage increases and
beginning April 1, 2012 the operational

from the essential plan. Such projections
may be adjusted by the director of the
budget to account for increased or expen-
dited department of health state funds
medicaid expenditures as a result of a
natural or other type of disaster, includ-
ing a governmental declaration of emergen-
cy.
The director of the budget, in consultation
with the commissioner of health, shall
assess on a quarterly basis known and
projected medicaid expenditures by catego-
ry of service and by geographic region, as
determined by the commissioner of health,
incurred both prior to and subsequent to

that such expenditures are expected to
cause medicaid spending for such period to
exceed the aggregate limit specified here-
in for such period, the state medicaid
director, in consultation with the director of the budget and the commissioner of health, shall develop a medicaid savings allocation adjustment to limit such spending to the aggregate limit specified herein for such period.

Such medicaid savings allocation adjustment shall be designed, to reduce the expenditures authorized by the appropriations herein in compliance with the following guidelines: (1) reductions shall be made in compliance with applicable federal law, including the provisions of the Patient Protection and Affordable Care Act, Public Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No. 111-152 (collectively "Affordable Care Act") and any subsequent amendments thereto or regulations promulgated thereunder; (2) reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver authority, to implement the provisions of the medicaid savings allocation adjustment that meets the other criteria set forth herein; (3) reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the Affordable Care Act; (4) reductions shall be made uniformly among categories of services and geographic regions of the state, to the extent practicable, and shall be made uniformly within a category of service, to the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific categories of services contributed to department of health medicaid state funds spending in excess of the limits specified herein; the need to maintain safety net services in underserved communities; or the potential
benefits of pursuing innovative payment 
models contemplated by the Affordable Care 
Act, in which case such grounds shall be 
set forth in the medicaid savings allo- 
cation adjustment; and (5) reductions 
shall be made in a manner that does not 
unnecessarily create administrative 
burdens to medicaid applicants and recipi- 
ents or providers.

The commissioner shall seek the input of the 
legislature, as well as organizations 
representing health care providers, 
consumers, businesses, workers, health 
insurers, and others with relevant exper- 
tise, in developing such medicaid savings 
allocation adjustment, to the extent that 
all or part of such adjustment, in the 
discretion of the commissioner, is likely 
to have a material impact on the overall 
medicaid program, particular categories of 
service or particular geographic regions 
of the state.

(a) The commissioner shall post the medicaid 
savings allocation adjustment on the 
department of health's website and shall 
provide written copies of such plan to the

such revisions materially alter the plan.

Notwithstanding the provisions of paragraphs 
(a) and (b) of this subdivision, the 
commissioner need not seek the input 
described in paragraph (a) of this subdi-

Nothing in this paragraph shall be deemed to
prevent all or part of such medicaid

health law, section 18 of chapter 2 of the
laws of 1988, and 18 NYCRR 505.14(h).
The department of health shall prepare a
quarterly report that sets forth: (a)

MEDICAL ASSISTANCE ADMINISTRATION PROGRAM

General Fund
Local Assistance Account - 10000
The appropriation made by chapter 53, section 1, of the laws of 2021, is hereby amended and reappropriated to read:

For reimbursement of local administrative expenses for medical assistance programs and for state administration of medical assistance programs, notwithstanding section 153 of the social services law, to include the performance of eligibility and enrollment determinations by the state or third-party entities designated by the state to perform such services.

Notwithstanding any provision of law to the contrary, subject to the approval of the director of budget, up to $23,000,000 of the amount appropriated herein shall be available for the purpose of providing payments to local social services districts for medical assistance administration claims that exceed an administrative ceiling established by the commissioner of health.

Notwithstanding any inconsistent provision of law and subject to the approval of the director of budget, moneys hereby appropriated may be increased or decreased by transfer or interchange between these appropriated amounts and appropriations of the medical assistance administration program, the medical assistance program, and the office of health insurance programs. Funding authority from this account used for state administration of the medical assistance program may be transferred to state operations appropriations within the aforementioned programs at amounts agreed upon by the commissioner of health, and the New York state division of the budget.

Notwithstanding section 40 of the state finance law or any other law to the contrary, all medical assistance appropriations made from this account shall remain in full force and effect in accordance, in the aggregate, with the following schedule: not more than 50 percent for the period April 1, 2021 to March 31, 2022 and the remaining amount for the period April 1, 2022 to September 15, 2023.

Notwithstanding section 40 of the state finance law or any provision of law to the contrary, subject to federal approval, department of health state funds medicaid spending, excluding payments for medical services provided at state facilities operated by the office of mental health, the office for people with developmental disabilities and the office of addiction services and supports and further excluding any payments which are not appropriated within the department of health, in the aggregate, for the period April 1, 2021 through March 31, 2022, shall not exceed $23,531,327,000 except as provided below and state share medicaid spending, in the aggregate, for the period April 1, 2022 through September 15, 2023, shall not exceed [$25,587,116,000] $25,936,887,000, but in no event shall department of health state funds medicaid spending for the period April 1, 2021 through March 31, 2022 exceed [[$49,118,443,000]] $49,468,214,000 provided, however, such aggregate limits may be adjusted by the director of the budget to account for any changes in the New York state federal medical assistance percentage amount established pursuant to the federal social security act, increases in provider revenues, reductions in local social services district payments for medical assistance administration, minimum wage increases, and beginning April 1, 2012 the operational
costs of the New York state medical indemnity fund, pursuant to
chapter 59 of the laws of 2011, and state costs or savings from the
essential plan program. Such projections may be adjusted by the
director of the budget to account for increased or expedited depart-
ment of health state funds medicaid expenditures as a result of a
natural or other type of disaster, including a governmental declara-
tion of emergency.

The director of the budget, in consultation with the commissioner of
health, shall assess on a quarterly basis known and projected medi-
caid expenditures by category of service and by geographic region,
as determined by the commissioner of health, incurred both prior to
and subsequent to such assessment for each such period, and if the
director of the budget determines that such expenditures are
expected to cause medicaid spending for such period to exceed the
aggregate limit specified herein for such period, the state medicaid
director, in consultation with the director of the budget and the
commissioner of health, shall develop a medicaid savings allocation
adjustment to limit such spending to the aggregate limit specified
herein for such period.

Such medicaid savings allocation adjustment shall be designed, to
reduce the expenditures authorized by the appropriations herein in
compliance with the following guidelines: (1) reductions shall be
made in compliance with applicable federal law, including the
provisions of the Patient Protection and Affordable Care Act, Public
Law No. 111-148, and the Health Care and Education Reconciliation
Act of 2010, Public Law No. 111-152 (collectively "Affordable Care
Act") and any subsequent amendments thereto or regulations promul-
gated thereunder; (2) reductions shall be made in a manner that
complies with the state medicaid plan approved by the federal
centers for medicare and medicaid services, provided, however, that
the commissioner of health is authorized to submit any state plan
amendment or seek other federal approval, including waiver authori-
sity, to implement the provisions of the medicaid savings allocation
adjustment that meets the other criteria set forth herein; (3)
reductions shall be made in a manner that maximizes federal finan-
cial participation, to the extent practicable, including any federal
financial participation that is available or is reasonably expected
to become available, in the discretion of the commissioner, under
the Affordable Care Act; (4) reductions shall be made uniformly
among categories of services and geographic regions of the state, to
the extent practicable, and shall be made uniformly within a catego-
ry of service, to the extent practicable, except where the commis-
sioner determines that there are sufficient grounds for non-uniform-
ity, including but not limited to: the extent to which specific
categories of services contributed to department of health medicaid
state funds spending in excess of the limits specified herein; the
need to maintain safety net services in underserved communities; or
the potential benefits of pursuing innovative payment models contem-
plated by the Affordable Care Act, in which case such grounds shall
be set forth in the medicaid savings allocation adjustment; and (5)
reductions shall be made in a manner that does not unnecessarily
create administrative burdens to medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation adjustment, to the extent that all or part of such adjustment, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation adjustment on the department of health's website and shall provide written copies of such adjustment to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

(b) The commissioner may revise the medicaid savings allocation adjustment subsequent to the provisions of notice and prior to implementation but needs to provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that such revisions materially alter the adjustment.

Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this subdivision if, in the discretion of the commissioner, expedited development and implementation of a medicaid savings allocation adjustment is necessary due to a public health emergency.

For purposes of this section, a public health emergency is defined as: (i) a disaster, natural or otherwise, that significantly increases the immediate need for health care personnel in an area of the state; (ii) an event or condition that creates a widespread risk of exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or (iii) any other event or condition determined by the commissioner to constitute an imminent threat to public health.

Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation adjustment from taking effect retroactively to the extent permitted by the federal centers for medicare and medicaid services.

In accordance with the medicaid savings allocation adjustment, the commissioner of the department of health shall reduce department of health state funds medicaid spending by the amount of the projected overspending through, actions including, but not limited to modifying or suspending reimbursement methods, including but not limited to all fees, premium levels and rates of payment, notwithstanding any provision of law that sets a specific amount or methodology for any such payments or rates of payment; modifying medicaid program benefits; seeking all necessary federal approvals, including, but not limited to waivers, waiver amendments; and suspending time frames for notice, approval or certification of rate requirements, notwithstanding any provision of law, rule or regulation to the
concern contrary, including but not limited to sections 2807 and 3614 of the
general public health law, section 18 of chapter 2 of the laws of 1988, and
18 NYCRR 505.14(h).

The department of health shall prepare a quarterly report that sets
forth: (a) known and projected department of health medicaid expend-
itures as described in subdivision (1) of this section, and factors
that could result in medicaid disbursements for the relevant state
fiscal year to exceed the projected department of health state funds
disbursements in the enacted budget financial plan pursuant to
subdivision 3 of section 23 of the state finance law, including
spending increases or decreases due to: enrollment fluctuations,
rate changes, utilization changes, MRT investments, and shift of
beneficiaries to managed care; and variations in offline medicaid
payments; and (b) the actions taken to implement any medicaid
savings allocation adjustment implemented pursuant to subdivision
(4) of this section, including information concerning the impact of
such actions on each category of service and each geographic region
of the state. Each such quarterly report shall be provided to the
chairs of the senate finance and the assembly ways and means commit-
tees and shall be posted on the department of health's website in a
timely manner.

MEDICAL ASSISTANCE PROGRAM
General Fund
Local Assistance Account - 10000
The appropriation made by chapter 53, section 1, of the laws of 2021, is
hereby amended and reappropriated to read:
For the medical assistance program, including administrative expenses,
for local social services districts, and for medical care rates for
authorized child care agencies.
Notwithstanding section 40 of the state finance law or any other law
to the contrary, all medical assistance appropriations made from
this account shall remain in full force and effect in accordance, in
the aggregate, with the following schedule: not more than 48 percent
for the period April 1, 2021 to March 31, 2022; and the remaining
amount for the period April 1, 2022 to [March 31] September 15,
2023.
Notwithstanding section 40 of the state finance law or any provision
of law to the contrary, subject to federal approval, department of
health state funds medicaid spending, excluding payments for medical
services provided at state facilities operated by the office of
two facilities, the office for people with developmental disabilities
and the office of addiction services and supports and further
excluding any payments which are not appropriated within the depart-
ment of health, in the aggregate, for the period April 1, 2021
through March 31, 2022, shall not exceed $23,531,327,000 except as
provided below and state share medicaid spending, in the aggregate,
for the period April 1, 2022 through [March 31] September 15, 2023,
shall not exceed $25,587,116,000 but in no event
shall department of health state funds medicaid spending for the
period April 1, 2021 through [March 31] September 15, 2023 exceed
$49,118,443,000. Provided, however, such aggre-
state limits may be adjusted by the director of the budget to account
for any changes in the New York state federal medical assistance
percentage amount established pursuant to the federal social securi-
ty act, increases in provider revenues, reductions in local social
services district payments for medical assistance administration,
minimum wage increases, and beginning April 1, 2012 the operational
costs of the New York state medical indemnity fund, pursuant to
chapter 59 of the laws of 2011, and state costs or savings from the
essential plan program. Such projections may be adjusted by the
director of the budget to account for increased or expedited depart-
ment of health state funds medicaid expenditures as a result of a
natural or other type of disaster, including a governmental declara-
tion of emergency.
The director of the budget, in consultation with the commissioner of
health, shall assess on a quarterly basis known and projected medi-
caid expenditures by category of service and by geographic region,
as defined by the commissioner, incurred both prior to and subse-
quent to such assessment for each such period, and if the director
of the budget determines that such expenditures are expected to
cause medicaid spending for such period to exceed the aggregate
limit specified herein for such period, the state medicaid director,
in consultation with the director of the budget and the commissioner
of health, shall develop a medicaid savings allocation adjustment to
limit such spending to the aggregate limit specified herein for such
period.
Such medicaid savings allocation adjustment shall be designed, to
reduce the expenditures authorized by the appropriations herein in
compliance with the following guidelines: (1) reductions shall be
made in compliance with applicable federal law, including the
provisions of the Patient Protection and Affordable Care Act, Public
Law No. 111-148, and the Health Care and Education Reconciliation
Act of 2010, Public Law No. 111-152 (collectively "Affordable Care
Act") and any subsequent amendments thereto or regulations promul-
gated thereunder; (2) reductions shall be made in a manner that
complies with the state medicaid plan approved by the federal
centers for medicare and medicaid services, provided, however, that
the commissioner of health is authorized to submit any state plan
amendment or seek other federal approval, including waiver authori-
ty, to implement the provisions of the medicaid savings allocation
adjustment that meets the other criteria set forth herein; (3)
reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the Affordable Care Act; (4) reductions shall be made uniformly among categories of services and geographic regions of the state, to the extent practicable, and shall be made uniformly within a category of service, to the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific categories of services contributed to department of health medicaid state funds spending in excess of the limits specified herein; the need to maintain safety net services in underserved communities; or the potential benefits of pursuing innovative payment models contemplated by the Affordable Care Act, in which case such grounds shall be set forth in the medicaid savings allocation adjustment; and (5) reductions shall be made in a manner that does not unnecessarily create administrative burdens to medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation adjustment, to the extent that all or part of such adjustment, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation adjustment on the department of health's website and shall provide written copies of such adjustment to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

(b) The commissioner may revise the medicaid savings allocation adjustment subsequent to the provisions of notice and prior to implementation but needs to provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that such revisions materially alter the adjustment.

Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this subdivision if, in the discretion of the commissioner, expedited development and implementation of a medicaid savings allocation adjustment is necessary due to a public health emergency.

For purposes of this section, a public health emergency is defined as: (i) a disaster, natural or otherwise, that significantly increases the immediate need for health care personnel in an area of the state; (ii) an event or condition that creates a widespread risk of exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or (iii) any other event or condi-
tion determined by the commissioner to constitute an imminent threat to public health.

Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation adjustment from taking effect retroactively to the extent permitted by the federal centers for medicare and medicaid services.

In accordance with the medicaid savings allocation adjustment, the commissioner of the department of health shall reduce department of health state funds medicaid spending by the amount of the projected overspending through, actions including, but not limited to modifying or suspending reimbursement methods, including but not limited to all fees, premium levels and rates of payment, notwithstanding any provision of law that sets a specific amount or methodology for any such payments or rates of payment; modifying or discontinuing medicaid program benefits; seeking all necessary federal approvals, including, but not limited to waivers, waiver amendments; and suspending time frames for notice, approval or certification of rate requirements, notwithstanding any provision of law, rule or regulation to the contrary, including but not limited to sections 2807 and 3614 of the public health law, section 18 of chapter 2 of the laws of 1988, and 18 NYCRR 505.14(h).

The department of health shall prepare a quarterly report that sets forth: (a) known and projected department of health medicaid expenditures as described in subdivision (1) of this section, and factors that could result in medicaid disbursements for the relevant state fiscal year to exceed the projected department of health state funds disbursements in the enacted budget financial plan pursuant to subdivision 3 of section 23 of the state finance law, including spending increases or decreases due to: enrollment fluctuations, rate changes, utilization changes, MRT investments, and shift of beneficiaries to managed care; and variations in offline medicaid payments; and (b) the actions taken to implement any medicaid savings allocation adjustment implemented pursuant to subdivision (4) of this section, including information concerning the impact of such actions on each category of service and each geographic region of the state. Each such quarterly report shall be provided to the chairs of the senate finance and the assembly ways and means committees and shall be posted on the department of health's website in a timely manner.

The money hereby appropriated is to be available for payment of aid heretofore accrued or hereafter accrued to municipalities, and to providers of medical services pursuant to section 367-b of the social services law, and for payment of state aid to municipalities and to providers of family care where payment systems through the fiscal intermediaries are not operational.

Notwithstanding any inconsistent provision of law to the contrary, funds may be used by the department for outside legal assistance on issues involving the federal government, the conduct of preadmission screening and annual resident reviews required by the state's medicaid program, computer matching with insurance carriers to insure that medicaid is the payer of last resort and activities related to
the management of the pharmacy benefit available under the medicaid program.

Notwithstanding any inconsistent provision of law, in lieu of payments authorized by the social services law, or payments of federal funds otherwise due to the local social services districts for programs provided under the federal social security act or the federal food stamp act, funds herein appropriated, in amounts certified by the state commissioner of temporary and disability assistance or the state commissioner of health as due from local social services districts each month as their share of payments made pursuant to section 367-b of the social services law may be set aside by the state comptroller in an interest-bearing account in order to ensure the orderly and prompt payment of providers under section 367-b of the social services law pursuant to an estimate provided by the commissioner of health of each local social services district's share of payments made pursuant to section 367-b of the social services law.

Notwithstanding any inconsistent provision of law, funding made available by these appropriations shall support direct salary costs and related fringe benefits within the medical assistance program associated with any minimum wage increase that takes effect during the timeframe of these appropriations, pursuant to section 652 of the labor law. Each eligible organization in receipt of funding made available by these appropriations may be required to submit written certification, in such form and at such time the commissioner may prescribe, attesting to the total amount of funds used by the eligible organization, how such funding will be or was used for purposes eligible under these appropriations and any other reporting deemed necessary by the commissioner. The amounts appropriated herein may include advances to organizations authorized to receive such funds to accomplish this purpose.

Notwithstanding section 40 of the state finance law or any other law to the contrary, all medical assistance appropriations made from this account shall remain in full force and effect in accordance, in the aggregate, with the following schedule: not more than 50 percent for the period April 1, 2021 to March 31, 2022; and the remaining amount for the period April 1, 2022 to [March 31] September 15, 2023.
Notwithstanding section 40 of the state finance law or any provision of law to the contrary, subject to federal approval, department of health state funds medicaid spending, excluding payments for medical services provided at state facilities operated by the office of mental health, the office for people with developmental disabilities and the office of addiction services and supports and further
exceeding any payments which are not appropriated within the depart-
ment of health, in the aggregate, for the period April 1, 2021
through March 31, 2022, shall not exceed $23,531,327,000 except as
provided below and state share medicaid spending, in the aggregate,
for the period April 1, 2022 through [March–31] [September 15, 2023,
shall not exceed [$25,587,116,000] $25,936,887,000, but in no event
shall department of health state funds medicaid spending for the
period April 1, 2021 through [March–31] [September 15, 2023 exceed
[$49,118,443,000] $49,468,214,000 provided, however, such aggregate
limits may be adjusted by the director of the budget to account for
any changes in the New York state federal medical assistance
percentage amount established pursuant to the federal social securi-
ty act, increases in provider revenues, reductions in local social
services district payments for medical assistance administration,
minimum wage increases and beginning April 1, 2012 the operational
costs of the New York state medical indemnity fund, pursuant to
chapter 59 of the laws of 2011, and state costs or savings from the
essential plan program. Such projections may be adjusted by the
director of the budget to account for increased or expedited depart-
ment of health state funds medicaid expenditures as a result of a
natural or other type of disaster, including a governmental declara-
tion of emergency.
The director of the budget, in consultation with the commissioner of
health, shall assess on a quarterly basis known and projected medi-
caid expenditures by category of service and by geographic region,
as determined by the commissioner of health, incurred both prior to
and subsequent to such assessment for each such period, and if the
director of the budget determines that such expenditures are
expected to cause medicaid spending for such period to exceed the
aggregate limit specified herein for such period, the state medicaid
director, in consultation with the director of the budget and the
commissioner of health, shall develop a medicaid savings allocation
adjustment to limit such spending to the aggregate limit specified
herein for such period.
Such medicaid savings allocation adjustment shall be designed, to
reduce the expenditures authorized by the appropriations herein in
compliance with the following guidelines: (1) reductions shall be
made in compliance with applicable federal law, including the
provisions of the Patient Protection and Affordable Care Act, Public
Law No. 111-148, and the Health Care and Education Reconciliation
Act of 2010, Public Law No. 111-152 (collectively "Affordable Care
Act") and any subsequent amendments thereto or regulations promul-
gated thereunder; (2) reductions shall be made in a manner that
complies with the state medicaid plan approved by the federal
centers for medicare and medicaid services, provided, however, that
the commissioner of health is authorized to submit any state plan
amendment or seek other federal approval, including waiver authori-
ty, to implement the provisions of the medicaid savings allocation
adjustment that meets the other criteria set forth herein; (3)
reductions shall be made in a manner that maximizes federal finan-
cial participation, to the extent practicable, including any federal
financial participation that is available or is reasonably expected
to become available, in the discretion of the commissioner, under
the Affordable Care Act; (4) reductions shall be made uniformly
among categories of services and geographic regions of the state, to
the extent practicable, and shall be made uniformly within a catego-
ry of service, to the extent practicable, except where the commis-
sioner determines that there are sufficient grounds for non-uniform-
ity, including but not limited to: the extent to which specific
categories of services contributed to department of health medicaid
state funds spending in excess of the limits specified herein; the
need to maintain safety net services in underserved communities; or
the potential benefits of pursuing innovative payment models contem-
plated by the Affordable Care Act, in which case such grounds shall
be set forth in the medicaid savings allocation adjustment; and (5)
reductions shall be made in a manner that does not unnecessarily
create administrative burdens to medicaid applicants and recipients
or providers.

The commissioner shall seek the input of the legislature, as well as
organizations representing health care providers, consumers, busi-
nesses, workers, health insurers, and others with relevant exper-
tise, in developing such medicaid savings allocation adjustment, to
the extent that all or part of such adjustment, in the discretion of
the commissioner, is likely to have a material impact on the overall
medicaid program, particular categories of service or particular
geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation
adjustment on the department of health's website and shall provide
written copies of such plan to the chairs of the senate finance and
the assembly ways and means committees at least 30 days before the
date on which implementation is expected to begin.

(b) The commissioner may revise the medicaid savings allocation
adjustment subsequent to the provisions of notice and prior to
implementation but needs to provide a new notice pursuant to subpar-
agraph (i) of this paragraph only if the commissioner determines, in
his or her discretion, that such revisions materially alter the
plan.

Notwithstanding the provisions of paragraphs (a) and (b) of this
subdivision, the commissioner need not seek the input described in
paragraph (a) of this subdivision or provide notice pursuant to
paragraph (b) of this subdivision if, in the discretion of the
commissioner, expedited development and implementation of a medicaid
savings allocation adjustment is necessary due to a public health
emergency.

For purposes of this section, a public health emergency is defined as:
(i) a disaster, natural or otherwise, that significantly increases
the immediate need for health care personnel in an area of the
state; (ii) an event or condition that creates a widespread risk of
exposure to a serious communicable disease, or the potential for
such widespread risk of exposure; or (iii) any other event or condi-
tion determined by the commissioner to constitute an imminent threat

The department of health shall prepare a quarterly report that sets forth: (a) known and projected department of health medicaid expenditures as described in subdivision (1) of this section, and factors that could result in medicaid disbursements for the relevant state fiscal year to exceed the projected department of health state funds disbursements in the enacted budget financial plan pursuant to subdivision 3 of section 23 of the state finance law, including spending increases or decreases due to: enrollment fluctuations, rate changes, utilization changes, MRT investments, and shift of beneficiaries to managed care; and variations in offline medicaid payments; and (b) the actions taken to implement any medicaid savings allocation adjustment implemented pursuant to subdivision (4) of this section, including information concerning the impact of such actions on each category of service and each geographic region of the state. Each such quarterly report shall be provided to the chairs of the senate finance and the assembly ways and means committees and shall be posted on the department of health's website in a timely manner.

[Notwithstanding any provision of law to the contrary, the director of the budget, in consultation with the commissioner of health, may use a payment reduction plan to make across-the-board reductions to the department of health state funds medicaid spending by $373,000,000 for state fiscal year 2021-2022 and $373,000,000 in state fiscal year 2022-2023 to limit such spending to the aggregate limit specified herein, or reduce the aggregate limit specified herein to provide a reduction to the state's financial plan. Notwithstanding any inconsistent provision of law, the moneys hereby appropriated may be increased or decreased by interchange or transfer with any appropriation of the department of health with the approval of the director of the budget, who shall file such approval with the department of audit and control and copies thereof with the chairman of the senate finance committee and the chairman of the assembly ways and means committee.

Notwithstanding the provisions of paragraphs (a) and (b) of this
subdivision, the commissioner need not seek the input described in
paragraph (a) of this subdivision or provide notice pursuant to
paragraph (b) of this subdivision if, in the discretion of the
commissioner, expedited development and implementation of a medicaid
savings allocation adjustment is necessary due to a public health emergency.

For purposes of this section, a public health emergency is defined as:
(i) a disaster, natural or otherwise, that significantly increases the immediate need for health care personnel in an area of the state; (ii) an event or condition that creates a widespread risk of exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or (iii) any other event or condition determined by the commissioner to constitute an imminent threat to public health.

Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation adjustment from taking effect retroactively to the extent permitted by the federal centers for medicare and medicaid services.

In accordance with the medicaid savings allocation adjustment, the commissioner of the department of health shall reduce department of health state funds medicaid spending by the amount of the projected overspending through, actions including, but not limited to modifying or suspending reimbursement methods, including but not limited to all fees, premium levels and rates of payment, notwithstanding any provision of law that sets a specific amount or methodology for any such payments or rates of payment; modifying medicaid program benefits; seeking all necessary federal approvals, including, but not limited to waivers, waiver amendments; and suspending time frames for notice, approval or certification of rate requirements, notwithstanding any provision of law, rule or regulation to the contrary, including but not limited to sections 2807 and 3614 of the public health law, section 18 of chapter 2 of the laws of 1988, and 18 NYCRR 505.14(h).

The department of health shall prepare a quarterly report that sets forth: (a) known and projected department of health medicaid expenditures as described in subdivision (1) of this section, and factors that could result in medicaid disbursements for the relevant state fiscal year to exceed the projected department of health state funds disbursements in the enacted budget financial plan pursuant to subdivision 3 of section 23 of the state finance law, including spending increases or decreases due to: enrollment fluctuations, rate changes, utilization changes, MRT investments, and shift of beneficiaries to managed care; and variations in offline medicaid payments; and (b) the actions taken to implement any medicaid savings allocation adjustment implemented pursuant to subdivision (4) of this section, including information concerning the impact of such actions on each category of service and each geographic region of the state. Each such quarterly report shall be provided to the chairs of the senate finance and the assembly ways and means committees and shall be posted on the department of health's website in a timely manner.

Notwithstanding any provision of law to the contrary, the director of the budget, in consultation with the commissioner of health, may use a payment reduction plan to make across-the-board reductions to the department of health state funds medicaid spending by $373,000,000 for state fiscal year 2021-2022 and $373,000,000 in state fiscal

year 2022-2023 and to limit such spending to the aggregate limit specified herein, or reduce the aggregate limit specified herein to provide a reduction to the state's financial plan. Reductions shall be made in a manner that complies with the state Medicaid plan approved by the federal Centers for Medicare and Medicaid Services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval to implement the provisions of the Medicaid payment reduction adjustment.

For the purpose of making payments to providers of medical care pursuant to section 367-b of the social services law, and for payment of state aid to municipalities and the federal government where payment systems through fiscal intermediaries are not operational, to reimburse the provision of care to patients eligible for medical assistance.

For services and expenses of the medical assistance program including nursing home, personal care, certified home health agency, long term home health care program and hospital services.

Provided, however, that a separate category of tuition rate may be established, as a "high-demand certificate program rate," which shall be set at a level deemed appropriate upon the recommendation of the chancellor of the state university of New York and approved by the board of trustees, which rate shall be lower than the standard rates of tuition for identified certification programs to be recommended by the chancellor of the state university of New York (50958) ....... 416,388,000
