The People of the State of New York, represented in Senate and Assembly, do enact as follows:

Section 1. a) The several amounts specified in this chapter for aid to localities, or so much thereof as shall be sufficient to accomplish the purposes designated by the appropriations, are hereby appropriated and authorized to be paid as hereinafter provided, to the respective public officers and for the several purposes specified.

b) Where applicable, appropriations made by this chapter for expenditures from federal grants for aid to localities may be allocated for spending from federal grants for any grant period beginning, during, or

EXPLANATION--Matter in italics (underscored) is new; matter in brackets [-] is old law to be omitted.
prior to, the state fiscal year beginning on April 1, 2022 except as otherwise noted.

c) The several amounts named herein, or so much thereof as shall be sufficient to accomplish the purpose designated, being the undisbursed and/or unexpended balances of the prior year's appropriations, are hereby reappropriated from the same funds and made available for the same purposes as the prior year's appropriations, unless herein amended, for the fiscal year beginning April 1, 2022. Certain reappropriations in this chapter are shown using abbreviated text, with three leader dots (an ellipsis) followed by three spaces (....) used to indicate where existing law that is being continued is not shown. However, unless a change is clearly indicated by the use of brackets [ ] for deletions and underscores for additions, the purposes, amounts, funding source and all other aspects pertinent to each item of appropriation shall be as last appropriated.

For the purpose of complying with the state finance law, the year, chapter and section of the last act reappropriating a former original appropriation or any part thereof is, unless otherwise indicated, chapter 53, section 1, of the laws of 2021.

d) No moneys appropriated by this chapter shall be available for payment until a certificate of approval has been issued by the director of the budget, who shall file such certificate with the department of audit and control, the chairperson of the senate finance committee and the chairperson of the assembly ways and means committee.

e) Notwithstanding any provision of law to the contrary, for purposes of any appropriation made by this chapter which authorizes spending in an amount net of refunds, rebates, reimbursements, credits, repayments, and/or disallowances, "refunds" shall mean funds received to the state resulting from the overpayment of monies, "rebates" shall mean funds received to the state resulting from a return of a full or partial amount previously paid, as for goods or services, serving as a reduction, discount or rebate to the original payment amount, "reimbursements" shall mean funds received to the state as repayment in an equivalent amount for goods or services, including but not limited to personal service costs, incurred by the state in the first instance being provided to a third party for their benefit and partially or in full financed by such third party, "credit" shall mean monies made available to the state that reduce the amount owed to a third party, including but not limited to billing errors, rebates, and prior overpayments, "repayment" shall mean the return of monies as pay back for expenses incurred, and "disallowance" shall mean monies made available to the state that were not allowed or accepted officially by the intended recipient, based on a determination the payment is not acceptable and/or valid. When the office of the state comptroller receives any such refunds, rebates, reimbursements, credits, repayments, and/or disallowances, he or she shall credit the refunded, rebated, reimbursed, credited, repaid, and disallowed amount back to the original appropriation and reduce expenditures in the year which such credit is received regardless of the timing of the initial expenditure.

f) Notwithstanding any other provision of law to the contrary, if the state or any agency thereof incurs any costs associated with administering the rent regulation program in accordance with subdivision (c) of section 8 of chapter 576 of the laws of 1974, as amended, for a city having a population of one million or more, the director of the budget may direct any other state agency or agencies making payments to such city, or any department, agency, or instrumentality thereof, to perma-
nently reduce the amount of any other payment or payments owed to such
city or any department, agency, or instrumentality thereof pursuant to
any appropriation set forth in this chapter. Provided however, that such
reduction shall be in an amount equal to the costs incurred by the state
or agency thereof in accordance with subdivision (c) of section 8 of
chapter 576 of the laws of 1974 and provided further that such direction
shall be made in writing by the director of the budget. If the director
of the budget makes such direction pursuant to the authority set forth
herein, the impacted city shall not make the payments required by subdi-
vision (c) of section 8 of chapter 576 of the laws of 1974, as amended,
and the division of housing and community renewal shall notify such city
in writing of what payment or payments will be reduced and the amount of
such reduction. To the extent a city of one million or more or any
department, agency, or instrumentality thereof is entitled to any cash
disbursement authorized by any appropriation contained in this chapter,
such entitlement shall be reduced commensurate with reductions in
payments made in accordance with this part.

  g) Notwithstanding any provision of law to the contrary, upon enact-
ment of this chapter of the laws of 2022 containing the aid to locali-
ties budget bill for the state fiscal year 2022-2023, all appropriations
and reappropriations contained in chapter 53 of the laws of 2021, which
would otherwise lapse by operation of law on March 31, 2023 are hereby
repealed.

  h) The appropriations contained in this chapter shall be available for
the fiscal year beginning on April 1, 2022 except as otherwise noted.

Notwithstanding any inconsistent provision of law, for general support for public schools for the 2022-23 state fiscal year, including aid payable pursuant to section 3609-d of the education law, as provided herein.

Notwithstanding any provision of law to the contrary, for the 2022-23 school year, foundation aid shall be equal to the sum of the total foundation aid base computed pursuant to paragraph j of subdivision 1 of section 3602 of education law plus the greater of (a) the product of 50 percent (0.5) multiplied by the positive difference, if any, of (1) total foundation aid pursuant to paragraph a of subdivision 4 of section 3602 of education law less (2) the total foundation aid base computed pursuant to paragraph j of subdivision 1 of section 3602 of education law, or (b) the product of 3 percent (0.03) multiplied by the total foundation aid base computed pursuant to paragraph j of subdivision 1 of section 3602 of education law.

Notwithstanding any provision of law to the contrary, for the 2022-23 school year, each school district shall be eligible to receive a universal prekindergarten grant
equal to the amount set forth on the school aid computer listing produced by the commissioner of education in support of the enacted budget for the 2022-2023 school year and equal to the sum of (a) the amount set forth for such school district as "UNIVERSAL PREKINDERGARTEN ALLOCATION" based on an electronic data file used to produce the school aid computer listing produced by the commissioner of education in support of the enacted budget for the 2021-2022 school year and entitled "SA212-2" excluding amounts subject to section 3602-ee of education law plus (b) funds allocated pursuant to a universal prekindergarten expansion prescribed in subdivision 20 of section 3602-e of education law as of the school aid computer listing produced by the commissioner of education in support of the enacted budget for the 2022-2023 school year, provided that the maximum grant shall not exceed the total actual grant expenditures incurred by the school district in the school year in which funds are granted as approved by the commissioner.

For purposes of this appropriation:

(i) "Funds allocated pursuant to a universal prekindergarten expansion prescribed in subdivision 20 of section 3602-e of the education law" shall be equal to the amount set forth on the school aid computer listing produced by the commissioner in support of the enacted budget for the 2022-2023 school year, calculated as the product of expansion slots multiplied by double the selected aid per prekindergarten pupil calculated pursuant to subparagraph (i) of paragraph b of subdivision 10 of section 3602 of the education law, where such expansion slots shall serve additional full-day four-year-old prekindergarten pupils in universal prekindergarten programs.

(ii) "Expansion slots" shall be equal to the amount set forth on the school aid computer listing produced by the commissioner in support of the enacted budget for the 2022-2023 school year, calculated as the positive difference, if any, of the product of 0.5919 multiplied by unserved four-
year-old prekindergarten pupils as defined in subparagraph (iv) of paragraph b of subdivision 10 of section 3602-e of the education law, less the eligible four-year-old students. If such expansion slots are greater than or equal to 10 but less than 20, the expansion slots shall be 20; if such expansion slots are less than 10, the expansion slots shall be 0; and for a city school district in a city having a population of one million or more, the expansion slots shall be 0.

(iii) "Eligible four-year-old students" shall be equal to the amount set forth on the school aid computer listing produced by the commissioner in support of the enacted budget for the 2022-2023 school year, calculated as the sum of (1) eligible full-day four-year-old prekindergarten pupils as defined in subparagraph (ii) of paragraph b of subdivision 10 of section 3602-e of the education law for the base year plus (2) the product of 0.5 and the eligible half-day four-year-old prekindergarten pupils as defined in subparagraph (ii) of paragraph b of subdivision 10 of section 3602-e of the education law for the base year plus (3) the maximum number of eligible students who may be served by uncertified classroom teachers in full-day prekindergarten programs funded by grants pursuant to section 3602-ee of the education law in the base year, plus (4) expansion slots for the base year pursuant to subdivision 19 of section 3602-e of the education law.

Notwithstanding any inconsistent provision of law, for the purposes of this appropriation and of calculating the allocable growth amount for the 2022-23 school year pursuant to paragraph gg of subdivision 1 of section 3602 of the education law, the allowable growth amount shall equal the sum of (a) the product of the positive difference of the personal income growth index minus one, multiplied by the statewide total of the sum of (1) the appropriations due and owing during the base year to school districts and boards of cooperative educational services from the general support for public schools as computed based on an electronic data file
used to produce the school aid computer
listing produced by the commissioner of
education in support of the enacted budget
for the base year plus (2) the competitive
awards amount for the base year plus (b)
$766,410,000. Provided that the personal
income growth index shall equal the aver-
age of the quotients for each year in the
period commencing with the state fiscal
year nine years prior to the state fiscal
year in which the base year began and
finishing with the state fiscal year prior
to the state fiscal year in which the base
year began of the total personal income of
the state for each such year divided by
the total personal income of the state for
the immediately preceding state fiscal
year, but not less than one.
Provided further that notwithstanding any
provision of law to the contrary, the
competitive awards amount for purposes of
calculating the allocable growth amount
shall be $2,000,000 for the 2022-23 school
year.
Notwithstanding any inconsistent provision
of law, for all school districts, the
apportionment of general support for
public schools for the 2022-23 school year
in excess of the amount apportioned to
such school district in the 2021-22 school
year shall be withheld until (i) such
school district has submitted to the
commissioner of education and the director
of the budget a detailed statement of the
total funding allocation for each school
in the district for the 2022-23 school
year, in a statewide uniform form devel-
oped by the director of the budget, in
consultation with the commissioner of
education, and (ii) the commissioner of
education and the director of the budget
issue a determination of compliance in
writing of such school district's state-
ment of total funding allocation as
required by subdivision 1 of section 3614
of the education law, provided that such
school districts shall submit such state-
ment to the commissioner of education and
the director of the budget on or before
September 2, 2022.
Provided further that such school districts
shall adhere to and complete the
prescribed form accurately and fully, and
shall make such statement publicly avail-
able and on the district website.
Provided further that the director of the
budget shall request in such form only
information that is known to, or may be
ascertained or estimated by, the district.
Provided further that each such local educa-
tional agency shall include in such state-
ment the approach used to allocate funds
to each school and that such statement
shall include but not be limited to separ-
ate entries for each individual school, demograph-
ic data for the school, per pupil
funding level, source of funds, and
uniform decision rules regarding allo-
cation of centralized spending to individ-
ual schools from all funding sources.
Provided further that within 45 days of
submission of such statement by a school
district, the commissioner of education
and director of the budget shall review
such statement and determine whether the
statement is complete and is in the format
required. If such statement is determined
to be complete and in the format required,
a written acknowledgement of such shall be
sent to the school district. If no deter-
mination is made by the commissioner of
education and the director of the budget
within 45 days of submission of the state-
ment, such statement shall be deemed
approved.
Should the commissioner of education or the
director of the budget request additional
information from the school district to
determine completeness, the district shall
submit such requested information to the
commissioner of education and the director
of the budget within 30 days of such
request and the commissioner of education
and director of the budget's deadline for
review and determination shall be extended
by 45 days from the date of submission of
the additional requested information. If
the commissioner of education or director
of the budget determine a school
district's spending statement to be
noncompliant, such school district shall
be allowed to submit a revised spending
statement at any time.
Provided further that if a school district fails to submit a statement that is complete and in the format required on or before September 2, 2022 or if the commissioner of education or director of the budget determine the school district's spending statement to be noncompliant, a written explanation shall be provided and the school district will have 30 days to cure.

If the school district does not cure within 30 days, at the joint direction of the director of the budget and the commissioner of education, the comptroller of the city in which such school district is situated, or if the city does not have an elected comptroller the chief financial officer of the city, or for school districts not located in a city, the chief financial officer of the town in which the majority of the school district is situated shall be authorized, at his or her discretion, to obtain appropriate information from the school district, and shall be authorized to complete such form and submit such statement to the director of the budget and the commissioner of education for approval.

Provided further that where the comptroller or chief financial officer exercises the authority to submit such form, such submission shall occur within 60 days following notification of the school district's failure to cure.

Provided further that nothing in the preceding paragraph shall preclude a school district from submitting a spending statement for approval by the director of the budget and the commissioner of education at any time.

Provided further that any apportionment withheld pursuant to this appropriation shall not have any effect on the base year calculation for use in the subsequent school year.

Notwithstanding any inconsistent provision of law, for the 2022-23 school year, any school district with an underfunded high-need school shall prioritize all such underfunded high-need schools among its individual schools, and shall submit to the commissioner on or before September 1,
2022 a report specifying how such district
effectuated appropriate funding for the
underfunded high-need schools. Provided
further, on or before May 1, 2022, the
director of the budget shall produce a

4,069,958,000 ......................... (re. $3,707,869,000)

For support of elementary and secondary education from the elementary and secondary school emergency relief fund, as funded by the American rescue plan act of 2021 (P.L. 117-2) providing support for elementary and/or secondary education in response to the COVID-19 public health emergency.

Notwithstanding any provision of law to the contrary, funds not otherwise allocated to local educational agencies pursuant to section 2001(d)(1) of the American rescue plan act of 2021 shall be allocated as follows, pursuant to a plan developed by the commissioner of education and approved by the director of the budget:

(i) $629,214,659 for learning loss grants to eligible school districts to implement (1) evidence-based activities to address learning loss, such as summer learning or summer enrichment, extended day, comprehensive after-school programs, or extended school year programs; (2) evidence-based summer enrichment programs; and (3) evidence-based comprehensive after-school programs; provided that such activities shall respond to students' academic, social, and emotional needs and address the disproportionate impact of the coronavirus on the student subgroups described in section 1111(b)(2)(B)(xi) of the elementary and secondary education act of 1965, students experiencing homelessness, and children and youth in foster care.

Provided that, notwithstanding any provision of law to the contrary, for the 2021-22 school year, eligible school districts shall receive learning loss grants in aid equal to the positive difference, if any, of the base ARPA allocation less 90 percent of the funds from the elementary and secondary school emergency relief fund made available to school districts pursuant to the American rescue plan act of 2021, but not less than $700,000, and not more than $10,000,000 or 10 percent of the total expenditures from the district's general fund for the 2020-21 school year, whichever is less. School districts where the base ARPA allocation is less than or equal to 90 percent of the funds from the elementary and secondary school emergency relief fund made available to school districts pursuant to the American rescue plan act of 2021 shall not be eligible for these grants. Such grant funds shall remain available for obligation by such school districts until the deadline therefor prescribed in federal law. Provided further that, for purposes of this appropriation:

(1) The "base ARPA allocation" shall be equal to the product of the adjusted per pupil amount multiplied by public school district enrollment for the base year as computed pursuant to paragraph n of subdivision 1 of section 3602 of education law.

The "adjusted per pupil amount" shall be equal to the product of (a) $4,550.26 multiplied by (b) the regional cost index calculated in
2018, reflecting an analysis of labor market costs based on median
salaries in professional occupations that require similar creden-
tials to those of positions in the education field, but not includ-
ing those occupations in the education field, multiplied by (c) the
modified EN index, and multiplied by (d) the learning loss wealth
factor.

(2) The "learning loss wealth factor" shall be equal to the positive
difference, if any, of 0.75 less the product of 0.5 multiplied by
the combined wealth ratio computed pursuant to subparagraph 1 of
paragraph c of subdivision 3 of section 3602 of education law.

(3) The "modified EN index" shall be equal to the modified EN percent
divided by the statewide average modified EN percent, provided that
for the 2021-22 school year, the statewide average modified EN
percent shall be equal to 0.5565.

(4) The "modified EN percent" shall be equal to the modified EN count
divided by public school district enrollment for the base year
computed pursuant to paragraph n of subdivision 1 of section 3602 of
education law.

(5) The "modified EN count" shall equal the sum of (a) the product of
0.5 multiplied by the English language learner count computed pursuant to paragraph o of subdivision 1 of section 3602 of education law, plus (b) the sparsity count computed pursuant to paragraph r of subdivision 1 of section 3602 of education law, plus (c) the product of 0.65 multiplied by the 3-year average small area income and poverty estimate rate computed pursuant to paragraph mm of subdivision 1 of section 3602 of education law and multiplied further by public school district enrollment for the base year as computed pursuant to paragraph n of subdivision 1 of section 3602 of education law, plus (d) the product of 0.65 multiplied by the 3-year average economically disadvantaged rate defined pursuant to paragraph ll of subdivision 1 of section 3602 of education law and multiplied further by public school district enrollment for the base year as computed pursuant to paragraph n of subdivision 1 of section 3602 of education law.

Provided further that districts receiving learning loss grants shall
use (a) 14.286 percent of such grants for implementation of
evidence-based summer enrichment programs; (b) 14.286 percent for implementation of evidence-based comprehensive after-school programs; and (c) the remaining funds for activities to address learning loss by supporting the implementation of evidence-based interventions, such as summer learning or summer enrichment, extended day, comprehensive afterschool programs, or extended school year programs. School districts shall ensure that such interventions respond to students' academic, social, and emotional needs and address the disproportionate impact of the coronavirus on low-income students, children with disabilities, English learners, migrant students, students experiencing homelessness, and children in foster care.

(ii) $195,000,000 for new full-day 4-year-old universal prekindergarten expansion grants as prescribed in subdivision 19 of section 3602-e of education law. For purposes of this appropriation, districts shall be eligible to receive a grant amount equal to twice
the product of expansion slots multiplied by selected aid per prekindergarten pupil calculated pursuant to subparagraph i of paragraph b of subdivision 10 of section 3602-e of education law for the 2021-22 school year, and provided further that funds paid from this appropriation shall not exceed the total actual grant expenditures incurred by the school district in the current school year as approved by the commissioner. Grantees awarded funds from this appropriation shall comply with all of the same rules and requirements as the universal prekindergarten programs pursuant to section 3602-e of education law. Provided further that, for purposes of this appropriation:

(1) For eligible school districts, the preliminary slot count shall be equal to the positive difference of (1) the product of 0.3504 and unserved 4-year-old prekindergarten pupils calculated pursuant to subparagraph iv of paragraph b of subdivision 10 of section 3602-e of education law less (2) the sum of (a) full day 4-year-old prekindergarten pupils served in the 2019-20 school year served pursuant to section 3602-e of education law plus (b) students served in full-day prekindergarten programs funded by grants pursuant to section 3602-ee of education law in the 2019-20 school year. If such preliminary slot count is less than 10, the expansion slots shall be 0; if such preliminary slot count is greater than or equal to 10 but less than 20, the expansion slots shall be 20; for all other eligible districts, the expansion slots shall equal the preliminary slot count.

(2) For the 2021-22 school year, school districts shall be eligible for a grant amount if (1) the combined wealth ratio computed pursuant to subparagraph 1 of paragraph c of subdivision 3 of section 3602 of education law is less than 2.0 and (2) the quotient arrived at when dividing (i) the sum of (a) full day and half day 4-year-old prekindergarten pupils served in the 2019-20 school year served pursuant to section 3602-e of education law plus (b) students served in full-day prekindergarten programs funded by grants pursuant to section 3602-ee of education law in the 2019-20 school year by (ii) unserved four-year-old prekindergarten pupils calculated pursuant to subparagraph iv of paragraph b of subdivision 10 of section 3602-e of education law is less than 0.5.

(3) Maintenance of Effort. Where a school district serves fewer 4-year-old prekindergarten pupils in full-day programs funded by the Full-day 4-year-old universal prekindergarten expansion pursuant to this appropriation than the number of expansion slots as defined in this appropriation, the school district shall have its current year Full-day 4-year-old universal prekindergarten expansion payment reduced to an amount equal to the product of (i) the Full-day 4-year-old universal prekindergarten expansion multiplied by (ii) the quotient of 4-year-old prekindergarten pupils served in programs funded by the Full-day 4-year-old universal prekindergarten expansion divided by the number of expansion slots. Provided that funds provided pursuant to this appropriation shall only be used to supplement and not supplant current local expenditures of state or local funds on prekindergarten programs.
(4) Notwithstanding any inconsistent provision of law, for the purposes of determining the prekindergarten allocation on the electronic data file prepared by the commissioner pursuant to subdivision 21 of section 305 of education law for the 2021-22 school year, the commissioner is directed to include the grant amounts awarded pursuant to this appropriation in the amount set forth for such school district as "UNIVERSAL PRE-KINDERGARTEN."

(iii) $15,000,000 for universal prekindergarten expansion grants for prekindergarten programs serving four-year-old students in new full-day placements operating in the 2021-22 and 2022-23 school years, based on a request for proposals, in which all school districts would be eligible to apply, developed by the commissioner and approved by the director of the budget, provided further that the commissioner of education shall evaluate applications and make awards on a competitive basis based on merit and factors including, but not limited to, the following: (i) measures of the need of students to be served by the school district, (ii) the school district's proposal to target the highest need schools and students, (iii) the extent to which the district's proposal would prioritize funds to maximize the total number of eligible children in the district served in pre-kindergarten programs, (iv) proposal quality, and (v) the level of existing prekindergarten services in the district. Provided that funds appropriated herein shall only be awarded to school districts which meet the requirements of section 3602-ee of the education law.

Provided that grants awarded pursuant to this request for proposal process shall be equal to $7,000 per pupil for students served by teachers without a certificate valid for service in early childhood grades and $10,000 per pupil for students served by teachers with valid certificates for service in early childhood grades. Programs shall (i) provide instruction for at least five hours per school day for full-day pre-kindergarten programs; (ii) agree to offer instruction consistent with applicable New York state prekindergarten early learning standards; and (iii) otherwise comply with all of the same rules and requirements as the statewide universal prekindergarten programs pursuant to section 3602-ee of the education law except as modified herein.

Provided further that funds appropriated herein shall only be used to supplement and not supplant current local expenditures of federal, state or local funds on pre-kindergarten programs and the number of placements in such programs from such sources and that current local expenditures shall include any local expenditures of federal, state or local funds used to supplement or extend services provided directly or via contract to eligible children enrolled in a universal pre-kindergarten program in accordance with section 3602-e of the education law.

Notwithstanding any provision of law to the contrary, programs that provide services for fewer than 180 days will be subject to the provisions of subdivision 16 of section 3602-e of the education law.

(iv) $35,000,000 for city school districts in a city having a population of one million or more; and
(v) $24,663,589 for administrative costs of the state education department, provided that, notwithstanding any provision of law to the contrary, upon approval of the director of the budget, the funds hereby made available may be transferred to the credit of the state purposes account of the state education department for purposes of administration of this program.

Funds appropriated herein shall be subject to all applicable federal reporting and accountability requirements.

Provided further that such funds shall be deemed grants in aid and the state comptroller shall prescribe that any monies received by school districts from such funds shall be recorded and reported as special aid funds of the district.

Notwithstanding section 40 of the state finance law or any provision of law to the contrary, this appropriation shall remain in full force and effect to the maximum extent allowed by law (23357) .......

General Fund
Local Assistance Account - 10000
Notwithstanding any inconsistent provision of law, the amount appropriated herein, shall be available under a foster care block grant for state reimbursement of eligible social services district expenditures for the provision and administration of foster care services including care, maintenance, supervision, and tuition; for supervision of foster children placed in federally funded job corps programs; for care, maintenance, supervision, and tuition for adjudicated juvenile delinquents placed in residential programs operated by authorized agencies and in out-of-state residential programs; for the provision and administration of the kinship guardian assistance program including kinship guardianship assistance payments and payments for non-recurring guardianship expenses and eligible expenditures associated with local compliance with the federal Family First Prevention Services Act (P.L. 115-123); except that, reimbursement from the amount appropriated herein shall not be available for tuition expenditures for foster children, including persons in need of supervision and adjudicated juvenile delinquents, made by a social services district located within a city having a population of one million or more.

Notwithstanding any other provision of law, a portion of the funds are available to reimburse social services districts for the change in the maximum state aid rates established by the office of children and family services for the 2022-23 rate year pursuant to section 398-a of the social services law and sections 4003 and 4405 of the education law to reflect the continuation of the cost of living adjustments that became effective April 1, 2008 for payments made to foster parents and for salary and fringe benefit costs and other critical nonpersonal services costs for foster care programs as determined by the office. Social services districts must adjust the amount of payments made for care provided by congregate care and foster boarding home programs and to foster parents to reflect the cost of
living adjustments in the manner specified by the office. Each authorized agency operating a congregate care or foster boarding home program in New York state for which the office sets a maximum state aid rate pursuant to section 398-a of the social services law or section 4003 or 4405 of the education law shall submit, at the time and in a manner to be determined by the office, a written certification, attesting that the funds received for the continuation of the cost of living adjustment to the maximum state aid rate that became effective April 1, 2008 for that program will be or were used solely in accordance with the requirements of the cost of living adjustment established by the office.

Notwithstanding any inconsistent provision of law except a chapter of the laws of 2022 authorizing a 5.4 percent cost of living adjustment increase for the period commencing on April 1, 2022 and ending March 31, 2023, the commissioner shall not apply any other cost of living adjustment for the purpose of establishing rates of payments, contracts or any other form of reimbursement.

Within the amounts appropriated herein, state reimbursement to each social services district for services identified herein that are otherwise reimbursable by the state from April 1, 2022 through March 31, 2023 shall be limited to a district allocation, hereinafter referred to as the district's block grant allocation. Notwithstanding any other provision of law, such block grant allocation shall be based, in part, on each district's claims for such costs, adjusted by the applicable cost allocation methodology and net of any retroactive payments for the 12 month period ending June 30, 2021 that are submitted on or before January 3, 2022 and, in part, on such other factors as determined by the office of children and family services and approved by the director of the budget. Any portion of a social services district's allocation from funds appropriated herein not claimed by such district during the state fiscal year may
be used by such district for expenditures on preventive services provided pursuant to section 409-a of the social services law, independent living services and aftercare services provided pursuant to regulations of the department of family assistance, claimed by such district during the next state fiscal year up to the amount remaining from the district's foster care block grant allocation, provided however, that any claims for such services during the next state fiscal year in excess of such amount shall be subject to 62 percent state reimbursement exclusive of any federal funds made available for such purposes, in accordance with directives of the department of family assistance and subject to the approval of the director of the budget. Any claims submitted by a social services district for reimbursement for a particular state fiscal year for which the social services district does not receive state or federal reimbursement during that state fiscal year may not be claimed against that district's block grant apportionment for the next state fiscal year.

The office of children and family services, with the approval of the director of the budget, may reduce a district's block grant allocation by the state share decrease related to federal retroactive reimbursement for such foster care services identified herein. The office, with the approval of the director of the budget, may reduce a district's block grant allocation by the state share of disallowances or sanctions taken against the district pursuant to the social services law or federal law.

Notwithstanding any other provision of law, the state shall not be responsible for reimbursing a social services district and a district shall not seek state reimbursement for any portion of any state disallowance or sanction taken against the social services district, or any federal disallowance attributable to final federal agency decisions or to settlement made, on or after July 1, 1995, when such disallowance or sanction results from the failure
of the social services district to comply with federal or state requirements, including, but not limited to, failure to document eligibility for federal or state funds in the case record; provided, however, if the office determines that any federal disallowance for services provided between January 1, 1999 and May 31, 1999 results solely from the late enactment of the state legislation implementing the federal adoption and safe families act, the state shall be solely responsible for the full amount of the disallowance or sanction; provided, further, however, this provision shall be deemed to apply both prospectively and retroactively regardless of whether such sanctions or disallowances are for services provided or claims made prior to or after April 1, 2022.

Notwithstanding any other provision of law, any federal disallowance resulting from a federal title IV-E eligibility review or audit that uses extrapolated statistic techniques shall be passed along by the state to any and all social services districts that the office of children and family services has determined have not complied with the title IV-E eligibility requirements or have not taken the necessary actions to ensure compliance with such requirements including, but not limited to, failing to: assess and fully document all the criteria and have readily available all the necessary documents to establish and continue title IV-E eligibility for all title IV-E eligible children within the required time frames; claim title IV-E funding only for cases that meet all of the title IV-E eligibility criteria; and fully implement the social services payment system on or before April 1, 2005 for all direct and voluntary agency foster care services.

Notwithstanding any law to the contrary, the office of children and family services shall impose on social services districts any federal disallowance issued against the state as a result of a federal title IV-E secondary eligibility review regardless of the date the children may have entered foster care, the date the eligi-
bility or payment errors occurred, or the filing date of any federal claims for reimbursement; provided, however, that the state shall be responsible for the disallowed costs and expenditures related to the placement of children in a facility operated by the office of children and family services, which shall be determined in the same manner as the disallowed costs and expenditures for social services districts other than the city of New York. In order to reimburse the federal government for the full amount of any disallowance imposed on the state by the federal administration for children and families within the timeframes necessary to avoid any potential interest payments on such amount, the office of children and family services is authorized to immediately offset funds otherwise due to each district for a pro rata share of the total disallowed costs based on the percentage of applicable federal title IV-E claims made by that district for the relevant time period as compared to the total applicable statewide title IV-E claims. The amount of the offset against each district will be adjusted, if necessary, upon completion of the disallowance allocation process. The final allocation of the amount of any federal disallowance resulting from a title IV-E secondary eligibility review shall be allocated among the districts so that each district shall be responsible for the amount attributable to each of the district's children or cases that are determined by the federal review to be unallowable. Each district shall also be responsible for a portion of the federal extrapolated disallowance amount based on the relative error rate for the district. The city of New York's error rate will be based on the federal sample and federal statistics. For all social services districts other than the city of New York, the error rate will be based on a review conducted by the district of a sample of children and/or cases determined by the office of children and family services and a re-review of a sub-sample by the office of those children.
and/or cases determined by the office. The office of children and family services will determine what is reasonable in establishing the size of the sample and sub-sample for each district. The office of children and family services shall notify each social services district of the sample of children and/or cases from the federal audit period that the social services district must review. Any child or case from the social services district that was included in the federal sample will automatically be included in the social services district's review sample and the determination made at the federal review regarding that child or case will govern for the purposes of the social services district's review. The social services district must complete and submit the results of its review to the office of children and family services within 60 days of receipt of the sample. The error rate for the district will be based on the findings of the district's review and the office of children and family services' re-review. If a social services district does not complete its review within 60 days of receiving the sample from the office of children and family services, the office of children and family services shall assign an error rate to the social services district based on the relative percentage of the district's applicable title IV-E claims for the relevant period as compared to applicable statewide title IV-E claims for that period and other circumstances that the office of children and family services may consider in order to allocate 100 percent of the federal disallowance. The office of children and family services shall apply each social services district's error rate to the total amount of the district's applicable title IV-E claims including associated administrative expenses. The resulting dollar amounts for all of the social services districts will be summed to derive the total amount of title IV-E claims deemed to be in error statewide. To establish a disallowance percentage for each social services district, the amount
of the district's title IV-E claims deemed
to be in error will be divided by the
amount of statewide title IV-E claims
deemed to be in error. The resulting
disallowance percentage for each district
will be applied to the entire title IV-E
extrapolated disallowance calculated by
the federal review to determine the amount
of the extrapolated disallowance for which
the district is responsible. Each district
will be credited for the amount already
disallowed for any individual children or
cases found to be in error during the
federal review. The exclusive appeal
rights for the review of the amount of the
federal disallowance assigned to each
social services district shall be pursuant
to article 78 of the civil practice law
and rules; provided, however, that in any
such action all of the social services
districts shall be joined as necessary
parties and the venue of any such action
shall be in Rensselaer county. Any social
services district that fails to complete
its sample review in the required time
frames shall have no right to appeal and
shall not be a necessary party to any
action brought by another social services
district.

The money hereby appropriated is to be
available for payment of state aid hereto-
fore accrued or hereafter to accrue to
municipalities. Subject to the approval of
the director of the budget, such funds
shall be available to the office net of
disallowances, refunds, reimbursements,
and credits.

Notwithstanding any inconsistent provision
of law, the amount herein appropriated may
be transferred to any other appropriation
within the office of children and family
services and/or the office of temporary
and disability assistance and/or suballo-
cated to the office of temporary and disa-
bility assistance for the purpose of
paying local social services districts'
costs of the above program and may be
increased or decreased by interchange with
any other appropriation or with any other
item or items within the amounts appropri-
ated within the office of children and

assistance account with the approval of
the director of the budget who shall file
such approval with the department of audit
and control and copies thereof with the
chairman of the senate finance committee
and the chairman of the assembly ways and
means committee.
Notwithstanding any inconsistent provision
of law, in lieu of payments authorized by
the social services law, or payments of
federal funds otherwise due to the local
social services districts for programs
provided under the federal social security
act or the federal food stamp act, funds
herein appropriated, in amounts certified
by the state comptroller or the state
commissioner of health as due from local
social services districts each month as
their share of payments made pursuant to
section 367-b of the social services law
may be set aside by the state comptroller
in an interest bearing account with such
interest accruing to the credit of the
locality in order to ensure the orderly

section 367-b of the social services law
pursuant to an estimate provided by the
commissioner of health of each local
social services district's share of
payments made pursuant to section 367-b of
the social services law.
Notwithstanding the provisions of any other
law to the contrary, the office of chil-
dren and family services may, on behalf of
social services districts, make payments
to foster boarding homes paid directly by
social services districts by direct depos-
it or debit card. Local social services
districts shall reimburse the office for
the costs of administering such direct
deposit or debit card payments.
Notwithstanding any inconsistent provision
of the social services law or the state
finance law, the office of children and
family services shall, on a quarterly
basis, request that the office of tempo-
rary and disability assistance reimburse
the office of children and family services
for the non-federal share of the costs of
administering such direct deposit or debit
 card payments to capture the local share
 of such costs.
 Notwithstanding any other provision of law

FAMILY AND CHILDREN'S SERVICES PROGRAM

General Fund

Local Assistance Account - 10000

The appropriation made by chapter 53, section 1, of the laws of 2021, is hereby amended and reappropriated to read:

Notwithstanding any inconsistent provision of law, the amount appropriated herein, shall be available under a foster care block grant for state reimbursement of eligible social services district expenditures for the provision and administration of foster care services including care, maintenance, supervision, and tuition; for super-
vision of foster children placed in federally funded job corps programs; for care, maintenance, supervision, and tuition for adjudicated juvenile delinquents placed in residential programs operated by authorized agencies and in out-of-state residential programs; for the provision and administration of the kinship guardian assistance program including kinship guardianship assistance payments and payments for non-recurring guardianship expenses and eligible expenditures associated with local compliance with the federal Family First Prevention Services Act (P.L. 115-123); except that, reimbursement from the amount appropriated herein shall not be available for tuition expenditures for foster children, including persons in need of supervision and adjudicated juvenile delinquents, made by a social services district located within a city having a population of one million or more.

Notwithstanding any other provision of law, a portion of the funds are available to reimburse social services districts for the change in the maximum state aid rates established by the office of children and family services for the 2021-22 rate year pursuant to section 398-a of the social services law and sections 4003 and 4405 of the education law to reflect the continuation of the cost of living adjustments that became effective April 1, 2008 for payments made to foster parents and for salary and fringe benefit costs and other critical nonpersonal services costs for foster care programs as determined by the office. Social services districts must adjust the amount of payments made for care provided by congregate care and foster boarding home programs and to foster parents to reflect the cost of living adjustments in the manner specified by the office. Each authorized agency operating a congregate care or foster boarding home program in New York state for which the office sets a maximum state aid rate pursuant to section 398-a of the social services law or section 4003 or 4405 of the education law shall submit, at the time and in a manner to be determined by the office, a written certification, attesting that the funds received for the continuation of the cost of living adjustment to the maximum state aid rate that became effective April 1, 2008 for that program will be or were used solely in accordance with the requirements of the cost of living adjustment established by the office.

Notwithstanding any inconsistent provision of law except a chapter of the laws of 2021 authorizing a 1 percent cost of living adjustment increase, but including section 1 of part C of chapter 57 of the laws of 2006, as amended by section 1 of part I of chapter 60 of the laws of 2014, for the period commencing on April 1, 2021 and ending March 31, 2022 the director shall not apply any other cost of living adjustment for the purpose of establishing rates of payments, contracts or any other form of reimbursement.

Within the amounts appropriated herein, state reimbursement to each social services district for services identified herein that are otherwise reimbursable by the state from April 1, 2021 through March 31, 2022 shall be limited to a district allocation, hereinafter referred to as the district's block grant allocation. Notwithstanding any other provision of law, such block grant allocation shall be
based, in part, on each district's claims for such costs, adjusted
by the applicable cost allocation methodology and net of any retro-
active payments for the 12 month period ending June 30, 2020 that
are submitted on or before January 2, 2021 and, in part, on such
other factors as determined by the office of children and family
services and approved by the director of the budget. Any portion of
a social services district's allocation from funds appropriated
herein not claimed by such district during the state fiscal year may
be used by such district for expenditures on preventive services
provided pursuant to section 409-a of the social services law, inde-
pendent living services and aftercare services provided pursuant to
regulations of the department of family assistance, claimed by such
district during the next state fiscal year up to the amount remain-
ing from the district's foster care block grant allocation, provided
however, that any claims for such services during the next state
fiscal year in excess of such amount shall be subject to 62 percent
state reimbursement exclusive of any federal funds made available
for such purposes, in accordance with directives of the department
of family assistance and subject to the approval of the director of
the budget. Any claims submitted by a social services district for
reimbursement for a particular state fiscal year for which the
social services district does not receive state or federal
reimbursement during that state fiscal year may not be claimed
against that district's block grant apportionment for the next state
fiscal year.

The office of children and family services, with the approval of the
director of the budget, may reduce a district's block grant allo-
cation by the state share decrease related to federal retroactive
reimbursement for such foster care services identified herein. The
office, with the approval of the director of the budget, may reduce
a district's block grant allocation by the state share of disallow-
ances or sanctions taken against the district pursuant to the social
services law or federal law.

Notwithstanding any other provision of law, the state shall not be
responsible for reimbursing a social services district and a
district shall not seek state reimbursement for any portion of any
state disallowance or sanction taken against the social services
district, or any federal disallowance attributable to final federal
agency decisions or to settlement made, on or after July 1, 1995,
when such disallowance or sanction results from the failure of the
social services district to comply with federal or state require-
ments, including, but not limited to, failure to document eligibil-
ity for federal or state funds in the case record; provided, howev-
er, if the office determines that any federal disallowance for
services provided between January 1, 1999 and May 31, 1999 results
solely from the late enactment of the state legislation implementing
the federal adoption and safe families act, the state shall be sole-
ly responsible for the full amount of the disallowance or sanction;
provided, further, however, this provision shall be deemed to apply
both prospectively and retroactively regardless of whether such
sanctions or disallowances are for services provided or claims made prior to or after April 1, 2021.

Notwithstanding any other provision of law, any federal disallowance resulting from a federal title IV-E eligibility review or audit that uses extrapolated statistic techniques shall be passed along by the state to any and all social services districts that the office of children and family services has determined have not complied with the title IV-E eligibility requirements or have not taken the necessary actions to ensure compliance with such requirements including, but not limited to, failing to: assess and fully document all the criteria and have readily available all the necessary documents to establish and continue title IV-E eligibility for all title IV-E eligible children within the required time frames; claim title IV-E funding only for cases that meet all of the title IV-E eligibility criteria; and fully implement the social services payment system on or before April 1, 2005 for all direct and voluntary agency foster care services.

Notwithstanding any law to the contrary, the office of children and family services shall impose on social services districts any federal disallowance issued against the state as a result of a federal title IV-E secondary eligibility review regardless of the date the children may have entered foster care, the date the eligibility or payment errors occurred, or the filing date of any federal claims for reimbursement; provided, however, that the state shall be responsible for the disallowed costs and expenditures related to the placement of children in a facility operated by the office of children and family services, which shall be determined in the same manner as the disallowed costs and expenditures for social services districts other than the city of New York. In order to reimburse the federal government for the full amount of any disallowance imposed on the state by the federal administration for children and families within the timeframes necessary to avoid any potential interest payments on such amount, the office of children and family services is authorized to immediately offset funds otherwise due to each district for a pro rata share of the total disallowed costs based on the percentage of applicable federal title IV-E claims made by that district for the relevant time period as compared to the total applicable statewide title IV-E claims. The amount of the offset against each district will be adjusted, if necessary, upon completion of the disallowance allocation process. The final allocation of the amount of any federal disallowance resulting from a title IV-E secondary eligibility review shall be allocated among the districts so that each district shall be responsible for the amount attributable to each of the district's children or cases that are determined by the federal review to be unallowable. Each district shall also be responsible for a portion of the federal extrapolated disallowance amount based on the relative error rate for the district. The city of New York's error rate will be based on the federal sample and federal statistics. For all social services districts other than the city of New York, the error rate will be based on a review conducted by the district of a sample of children.
and/or cases determined by the office of children and family services and a re-review of a sub-sample by the office of those children and/or cases determined by the office. The office of children and family services will determine what is reasonable in establishing the size of the sample and sub-sample for each district. The office of children and family services shall notify each social services district of the sample of children and/or cases from the federal audit period that the social services district must review. Any child or case from the social services district that was included in the federal sample will automatically be included in the social services district's review sample and the determination made at the federal review regarding that child or case will govern for the purposes of the social services district's review. The social services district must complete and submit the results of its review to the office of children and family services within 60 days of receipt of the sample. The error rate for the district will be based on the findings of the district's review and the office of children and family services' re-review. If a social services district does not complete its review within 60 days of receiving the sample from the office of children and family services, the office of children and family services shall assign an error rate to the social services district based on the relative percentage of the district's applicable title IV-E claims for the relevant period as compared to applicable statewide title IV-E claims for that period and other circumstances that the office of children and family services may consider in order to allocate 100 percent of the federal disallowance. The office of children and family services shall apply each social services district's error rate to the total amount of the district's applicable title IV-E claims including associated administrative expenses. The resulting dollar amounts for all of the social services districts will be summed to derive the total amount of title IV-E claims deemed to be in error statewide. To establish a disallowance percentage for each social services district, the amount of the district's title IV-E claims deemed to be in error will be divided by the amount of statewide title IV-E claims deemed to be in error. The resulting disallowance percentage for each district will be applied to the entire title IV-E extrapolated disallowance calculated by the federal review to determine the amount of the extrapolated disallowance for which the district is responsible. Each district will be credited for the amount already disallowed for any individual children or cases found to be in error during the federal review. The exclusive appeal rights for the review of the amount of the federal disallowance assigned to each social services district shall be pursuant to article 78 of the civil practice law and rules; provided, however, that in any such action all of the social services districts shall be joined as necessary parties and the venue of any such action shall be in Rensselaer county. Any social services district that fails to complete its sample review in the required time frames shall have no right to appeal and shall not be a necessary party to any action brought by another social services district.

(re. $2,450,000)

By chapter 53, section 1, of the laws of 2020:
Notwithstanding any inconsistent provision of law, the amount appropriated herein, shall be available under a foster care block grant for state reimbursement of eligible social services district expenditures for the provision and administration of foster care services including care, maintenance, supervision, and tuition; for supervision of foster children placed in federally funded job corps programs; for care, maintenance, supervision, and tuition for adjudicated juvenile delinquents placed in residential programs operated by authorized agencies and in out-of-state residential programs; and for the provision and administration of the kinship guardian assistance program including kinship guardianship assistance payments and payments for non-recurring guardianship expenses; except that, reimbursement from the amount appropriated herein shall not be available for tuition expenditures for foster children, including persons in need of supervision and adjudicated juvenile delinquents, made by a social services district located within a city having a population of one million or more.

Notwithstanding any other provision of law, a portion of the funds are available to reimburse social services districts for the change in
the maximum state aid rates established by the office of children
and family services for the 2020-21 rate year pursuant to section
398-a of the social services law and sections 4003 and 4405 of the
education law to reflect the continuation of the cost of living
adjustments that became effective April 1, 2008 for payments made to
foster parents and for salary and fringe benefit costs and other
critical nonpersonal services costs for foster care programs as
determined by the office. Social services districts must adjust the
amount of payments made for care provided by congregate care and
foster boarding home programs and to foster parents to reflect the
cost of living adjustments in the manner specified by the office.
Each authorized agency operating a congregate care or foster board-
ing home program in New York state for which the office sets a maxi-
mum state aid rate pursuant to section 398-a of the social services
law or section 4003 or 4405 of the education law shall submit, at
the time and in a manner to be determined by the office, a written
certification, attesting that the funds received for the continua-
tion of the cost of living adjustment to the maximum state aid rate
that became effective April 1, 2008 for that program will be or were
used solely in accordance with the requirements of the cost of living
adjustment established by the office.
Notwithstanding any inconsistent provision of law, for the period
commencing on April 1, 2020 and ending March 31, 2021 the commis-
sioner shall not apply any cost of living adjustment for the purpose
of establishing rates of payments, contracts or any other form of
reimbursement.
Within the amounts appropriated herein, state reimbursement to each
social services district for services identified herein that are
otherwise reimbursable by the state from April 1, 2020 through March
31, 2021 shall be limited to a district allocation, hereinafter
referred to as the district's block grant allocation. Notwithstand-
ing any other provision of law, such block grant allocation shall be
based, in part, on each district's claims for such costs, adjusted
by the applicable cost allocation methodology and net of any retro-
active payments for the 12 month period ending June 30, 2019 that
are submitted on or before January 2, 2020 and, in part, on such
other factors as determined by the office of children and family
services and approved by the director of the budget. Any portion of
a social services district's allocation from funds appropriated
herein not claimed by such district during the state fiscal year may
be used by such district for expenditures on preventive services
provided pursuant to section 409-a of the social services law, inde-
dependent living services and aftercare services provided pursuant to
regulations of the department of family assistance, claimed by such
district during the next state fiscal year up to the amount remain-
ing from the district's foster care block grant allocation, provided
however, that any claims for such services during the next state
fiscal year in excess of such amount shall be subject to 62 percent
state reimbursement exclusive of any federal funds made available
for such purposes, in accordance with directives of the department
of family assistance and subject to the approval of the director of
the budget. Any claims submitted by a social services district for reimbursement for a particular state fiscal year for which the social services district does not receive state or federal reimbursement during that state fiscal year may not be claimed against that district's block grant apportionment for the next state fiscal year.

The office of children and family services, with the approval of the director of the budget, may reduce a district's block grant allocation by the state share decrease related to federal retroactive reimbursement for such foster care services identified herein. The office, with the approval of the director of the budget, may reduce a district's block grant allocation by the state share of disallowances or sanctions taken against the district pursuant to the social services law or federal law.

Notwithstanding any other provision of law, the state shall not be responsible for reimbursing a social services district and a district shall not seek state reimbursement for any portion of any state disallowance or sanction taken against the social services district, or any federal disallowance attributable to final federal agency decisions or to settlement made, on or after July 1, 1995, when such disallowance or sanction results from the failure of the social services district to comply with federal or state requirements, including, but not limited to, failure to document eligibility for federal or state funds in the case record; provided, however, if the office determines that any federal disallowance for services provided between January 1, 1999 and May 31, 1999 results solely from the late enactment of the state legislation implementing the federal adoption and safe families act, the state shall be solely responsible for the full amount of the disallowance or sanction; provided, further, however, this provision shall be deemed to apply both prospectively and retroactively regardless of whether such sanctions or disallowances are for services provided or claims made prior to or after April 1, 2020.

Notwithstanding any other provision of law, any federal disallowance resulting from a federal title IV-E eligibility review or audit that uses extrapolated statistic techniques shall be passed along by the state to any and all social services districts that the office of children and family services has determined have not complied with the title IV-E eligibility requirements or have not taken the necessary actions to ensure compliance with such requirements including, but not limited to, failing to: assess and fully document all the criteria and have readily available all the necessary documents to establish and continue title IV-E eligibility for all title IV-E eligible children within the required time frames; claim title IV-E funding only for cases that meet all of the title IV-E eligibility criteria; and fully implement the social services payment system on or before April 1, 2005 for all direct and voluntary agency foster care services.

Notwithstanding any law to the contrary, the office of children and family services shall impose on social services districts any federal disallowance issued against the state as a result of a federal
title IV-E secondary eligibility review regardless of the date the children may have entered foster care, the date the eligibility or payment errors occurred, or the filing date of any federal claims for reimbursement; provided, however, that the state shall be responsible for the disallowed costs and expenditures related to the placement of children in a facility operated by the office of children and family services, which shall be determined in the same manner as the disallowed costs and expenditures for social services districts other than the city of New York. In order to reimburse the federal government for the full amount of any disallowance imposed on the state by the federal administration for children and families within the timeframes necessary to avoid any potential interest payments on such amount, the office of children and family services is authorized to immediately offset funds otherwise due to each district for a pro rata share of the total disallowed costs based on the percentage of applicable federal title IV-E claims made by that district for the relevant time period as compared to the total applicable statewide title IV-E claims. The amount of the offset against each district will be adjusted, if necessary, upon completion of the disallowance allocation process. The final allocation of the amount of any federal disallowance resulting from a title IV-E secondary eligibility review shall be allocated among the districts so that each district shall be responsible for the amount attributable to each of the district's children or cases that are determined by the federal review to be unallowable. Each district shall also be responsible for a portion of the federal extrapolated disallowance amount based on the relative error rate for the district. The city of New York's error rate will be based on the federal sample and federal statistics. For all social services districts other than the city of New York, the error rate will be based on a review conducted by the district of a sample of children and/or cases determined by the office of children and family services and a re-review of a sub-sample by the office of those children and/or cases determined by the office. The office of children and family services will determine what is reasonable in establishing the size of the sample and sub-sample for each district. The office of children and family services shall notify each social services district of the sample of children and/or cases from the federal audit period that the social services district must review. Any child or case from the social services district that was included in the federal sample will automatically be included in the social services district's review sample and the determination made at the federal review regarding that child or case will govern for the purposes of the social services district's review. The social services district must complete and submit the results of its review to the office of children and family services within 60 days of receipt of the sample. The error rate for the district will be based on the findings of the district's review and the office of children and family services' re-review. If a social services district does not complete its review within 60 days of receiving the sample from the office of children and family services, the office of children
and family services shall assign an error rate to the social services district based on the relative percentage of the district's applicable title IV-E claims for the relevant period as compared to applicable statewide title IV-E claims for that period and other circumstances that the office of children and family services may consider in order to allocate 100 percent of the federal disallowance. The office of children and family services shall apply each social services district's error rate to the total amount of the district's applicable title IV-E claims including associated administrative expenses. The resulting dollar amounts for all of the social services districts will be summed to derive the total amount of title IV-E claims deemed to be in error statewide. To establish a disallowance percentage for each social services district, the amount of the district's title IV-E claims deemed to be in error will be divided by the amount of statewide title IV-E claims deemed to be in error. The resulting disallowance percentage for each district will be applied to the entire title IV-E extrapolated disallowance calculated by the federal review to determine the amount of the extrapolated disallowance for which the district is responsible. Each district will be credited for the amount already disallowed for any individual children or cases found to be in error during the federal review. The exclusive appeal rights for the review of the amount of the federal disallowance assigned to each social services district shall be pursuant to article 78 of the civil practice law and rules; provided, however, that in any such action all of the social services districts shall be joined as necessary parties and the venue of any such action shall be in Rensselaer county. Any social services district that fails to complete its sample review in the required time frames shall have no right to appeal and shall not be a necessary party to any action brought by another social services district.

hereby amended and reappropriated to read:  
Notwithstanding any other provision of law, the amount appropriated  
herein shall be available to reimburse for 98 percent of 65 percent  
of eligible social services district expenditures that are claimed  
by March 31, 2018 for those community preventive services provided  
from October 1, 2016 through September 30, 2017 at a cost that does  
not exceed the cost that was in effect on October 1, 2008 and that a  
social services district can demonstrate had been approved by the  
office of children and family services on or before October 1, 2008;  
provided, however, that should insufficient funds be available to  
provide state reimbursement for 98 percent of 65 percent of such  
costs, reimbursement shall be made proportionally to each district  
based on the percentage of their total eligible claims to the amount  
appropriated; and, provided further, however, that if the amount  
appropriated exceeds the amount of funds necessary to reimburse 98  
percent of 65 percent of the eligible social services district  
expenditures, the office may, to the extent funds are available,  
provide reimbursement for 98 percent of 65 percent of eligible  
social services district expenditures for new community preventive  
services programs approved by the office and only up to the amounts  
approved by the office. A local social services district seeking  
federal and/or state reimbursement for community preventive services

and that information regarding outcome based measures that demon-
strate quality of services provided and program effectiveness be  
submitted to the office of children and family services in a form  
and manner and at such times as required by the office. Of the  
amount appropriated herein, up to $1 million may be used to provide

eligible child care expenditures in accordance with the applicable
provisions of federal law and regulations relating to federal funds
included in the state block grant for child care and in accordance
with applicable state law and regulations of the office of children
and family services. Notwithstanding any other provision of law, any
claims made by a social services district for expenditures made for
child care during a particular federal fiscal year, other than
claims made under title XX of the federal social security act and
under the supplemental nutrition assistance program employment and
training funds, shall be counted against the social services
district's block grant for child care for that federal fiscal year.

46 third-party entities designated by the
47 state to perform such services.
48 Notwithstanding any provision of law to the
49 contrary, subject to the approval of the
50 director of budget, up to $23,000,000 of
the amount appropriated herein shall be available for the purpose of providing payments to local social services districts for medical assistance administration claims that exceed an administrative ceiling established by the commissioner of health. Notwithstanding any inconsistent provision of law and subject to the approval of the director of budget, moneys hereby appropriated may be increased or decreased by transfer or interchange between these appropriated amounts and appropriations of the medical assistance administration program, the medical assistance program, and the office of health insurance programs. Funding authority from this account used for state administration of the medical assistance program may be transferred to state operations appropriations within the aforementioned programs at amounts agreed upon by the commissioner of health, and the New York state division of the budget. Notwithstanding section 40 of the state finance law or any other law to the contrary, all medical assistance appropriations made from this account shall remain in full force and effect in accordance, in the aggregate, with the following schedule: not more than 50 percent for the period April 1, 2022 to March 31, 2023 and the remaining amount for the period April 1, 2023 to March 31, 2024. Notwithstanding section 40 of the state finance law or any provision of law to the contrary, subject to federal approval, department of health state funds medicaid spending, excluding payments for medical services provided at state facilities operated by the office of mental health, the office for people with developmental disabilities and the office of addiction services and supports and further excluding any payments which are not appropriated within the department of health, in the aggregate, for the period April 1, 2021 through March 31, 2023, shall not exceed $25,936,887,000 except as provided below and state share medicaid spending, in the aggregate, for the period April 1, 2023 through March 31, 2024, shall not
exceed $27,678,377,000, but in no event
shall department of health state funds
medicaid spending for the period April 1,
2022 through March 31, 2024 exceed
$53,615,265,000 provided, however, such
aggregate limits may be adjusted by the
director of the budget to account for any
changes in the New York state federal
medical assistance percentage amount
established pursuant to the federal social
security act, increases in provider reven-
ues, reductions in local social services
district payments for medical assistance
administration, minimum wage increases,
and beginning April 1, 2012 the opera-
tional costs of the New York state medical
indemnity fund, pursuant to chapter 59 of
the laws of 2011, and state costs or
savings from the essential plan program.
Such projections may be adjusted by the
director of the budget to account for
increased or expedited department of
health state funds medicaid expenditures
as a result of a natural or other type of
disaster, including a governmental decla-
ration of emergency.

The director of the budget, in consultation
with the commissioner of health, shall
assess on a quarterly basis known and
projected medicaid expenditures by catego-
ry of service and by geographic region, as
determined by the commissioner of health,
incurred both prior to and subsequent to
such assessment for each such period, and
if the director of the budget determines
that such expenditures are expected to
cause medicaid spending for such period to
exceed the aggregate limit specified here-
in for such period, the state medicaid
director, in consultation with the direc-
tor of the budget and the commissioner of
health, shall develop a medicaid savings
allocation adjustment to limit such spend-
ing to the aggregate limit specified here-
in for such period.

Such medicaid savings allocation adjustment
shall be designed, to reduce the expendi-
tures authorized by the appropriations
herein in compliance with the following
guidelines: (1) reductions shall be made
in compliance with applicable federal law,
including the provisions of the Patient
Protection and Affordable Care Act, Public Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No. 111-152 (collectively "Affordable Care Act") and any subsequent amendments thereto or regulations promulgated thereunder; (2) reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver authority, to implement the provisions of the medicaid savings allocation adjustment that meets the other criteria set forth herein; (3) reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the Affordable Care Act; (4) reductions shall be made uniformly among categories of services and geographic regions of the state, to the extent practicable, and shall be made uniformly within a category of service, to the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific categories of services contributed to department of health medicaid state funds spending in excess of the limits specified herein; the need to maintain safety net services in underserved communities; or the potential benefits of pursuing innovative payment models contemplated by the Affordable Care Act, in which case such grounds shall be set forth in the medicaid savings allocation adjustment; and (5) reductions shall be made in a manner that does not unnecessarily create administrative burdens to medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health

insurers, and others with relevant expertise, in developing such medicaid savings allocation adjustment, to the extent that all or part of such adjustment, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation adjustment on the department of health's website and shall provide written copies of such adjustment to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

(b) The commissioner may revise the medicaid savings allocation adjustment subsequent to the provisions of notice and prior to implementation but needs to provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that such revisions materially alter the adjustment.

Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this subdivision if, in the discretion of the commissioner, expedited development and implementation of a medicaid savings allocation adjustment is necessary due to a public health emergency.

For purposes of this section, a public health emergency is defined as: (i) a disaster, natural or otherwise, that significantly increases the immediate need for health care personnel in an area of the state; (ii) an event or condition that creates a widespread risk of exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or (iii) any other event or condition determined by the commissioner to constitute an imminent threat to public health.

Nothing in this paragraph shall be deemed to prevent all or part of such medicaid
savings allocation adjustment from taking
effect retroactively to the extent permit-
ted by the federal centers for medicare
and medicaid services.
In accordance with the medicaid savings
allocation adjustment, the commissioner of
the department of health shall reduce
department of health state funds medicaid
spending by the amount of the projected
overspending through, actions including,
but not limited to modifying or suspending
reimbursement methods, including but not
limited to all fees, premium levels and
rates of payment, notwithstanding any
 provision of law that sets a specific
amount or methodology for any such
payments or rates of payment; modifying
medicaid program benefits; seeking all
necessary federal approvals, including,
but not limited to waivers, waiver amend-
ments; and suspending time frames for
notice, approval or certification of rate
requirements, notwithstanding any
 provision of law, rule or regulation to
the contrary, including but not limited to
sections 2807 and 3614 of the public
health law, section 18 of chapter 2 of the
laws of 1988, and 18 NYCRR 505.14(h).
The department of health shall prepare a
quarterly report that sets forth: (a)
known and projected department of health
medicaid expenditures as described in
subdivision (1) of this section, and
factors that could result in medicaid
disbursements for the relevant state
fiscal year to exceed the projected
department of health state funds disburse-
ments in the enacted budget financial plan
pursuant to subdivision 3 of section 23 of
the state finance law, including spending
increases or decreases due to: enrollment
fluctuations, rate changes, utilization
changes, MRT investments, and shift of
beneficiaries to managed care; and vari-
atations in offline medicaid payments; and
(b) the actions taken to implement any
medicaid savings allocation adjustment
implemented pursuant to subdivision (4) of
this section, including information
concerning the impact of such actions on
each category of service and each
geographic region of the state. Each such
quarterly report shall be provided to the chairs of the senate finance and the assembly ways and means committees and shall be posted on the department of health's website in a timely manner. The money hereby appropriated is available for payment of liabilities heretofore and hereafter accrued and shall be available to the department net of disallowances, refunds, reimbursements, and credits. Notwithstanding any other provision of law, the money hereby appropriated may be increased or decreased by interchange or transfer, with any appropriation of the department of health, and may be increased or decreased by transfer or suballocation between these appropriated amounts and appropriations of the office of mental health, the office for people with developmental disabilities, the office of addiction services and supports, the department of family assistance office of temporary and disability assistance, the department of corrections and community supervision, the office of information technology services, the state university of New York, the state office for the aging, the office of the medicaid inspector general, the state education department, and office of children and family services with the approval of the director of the budget, who shall file such approval with the department of audit and control and copies thereof with the chairman of the senate finance committee and the chairman of the assembly ways and means committee. Notwithstanding any inconsistent provision of law, in lieu of payments authorized by the social services law, or payments of federal funds otherwise due to the local social services districts for programs provided under the federal social security act or the federal food stamp act, funds herein appropriated, in amounts certified by the state commissioner of temporary and disability assistance or the state commissioner of health as due from local social services districts each month as their share of payments made pursuant to section 367-b of the social services law may be set aside by the state comptroller in an

Notwithstanding section 40 of the state

contrary, all medical assistance appropri-
ations made from this account shall remain
in full force and effect in accordance, in
the aggregate, with the following sched-
ule: not more than 48 percent for the
period April 1, 2022 to March 31, 2023;
and the remaining amount for the period
April 1, 2023 to March 31, 2024.
Notwithstanding section 40 of the state
finance law or any provision of law to the
contrary, subject to federal approval,
department of health state funds medicaid
spending, excluding payments for medical
services provided at state facilities
operated by the office of mental health,
the office for people with developmental

Provided, however, such aggregate limits may be adjusted by the director of the budget to account for any changes in the New York state federal medical assistance percentage amount established pursuant to the federal social security act, increases in provider revenues, reductions in local social services district payments for medical assistance administration, minimum wage increases, and beginning April 1, 2012 the operational costs of the New York state medical indemnity fund, pursuant to chapter 59 of the laws of 2011, and state costs or savings from the essential plan program. Such projections may be adjusted by the director of the budget to account for increased or expedited department of health state funds medicaid expenditures as a result of a natural or other type of disaster, including a governmental declaration of emergency.

The director of the budget, in consultation with the commissioner of health, shall assess on a quarterly basis known and projected medicaid expenditures by category of service and by geographic region, as defined by the commissioner, incurred both prior to and subsequent to such assessment for each such period, and if the director of the budget determines that such expenditures are expected to cause medicaid spending for such period to exceed the aggregate limit specified herein for such period, the state medicaid director, in consultation with the director of the budget and the commissioner of health, shall develop a medicaid savings allocation adjustment to limit such spending

Such medicaid savings allocation adjustment shall be designed, to reduce the expenditures authorized by the appropriations herein in compliance with the following guidelines: (1) reductions shall be made in compliance with applicable federal law, including the provisions of the Patient Protection and Affordable Care Act, Public Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No. 111-152 (collectively "Affordable Care Act") and any subsequent amendments thereto or regulations promulgated thereunder; (2) reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver authority, to implement the provisions of the medicaid savings allocation adjustment that meets the other criteria set forth herein; (3) reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the Affordable Care Act; (4) reductions shall be made uniformly among categories of services and geographic regions of the state, to the extent practicable, and shall be made uniformly within a category of service, to the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific categories of services contributed to department of health medicaid state funds spending in excess of the limits specified herein; the need to maintain safety net services in underserved communities; or the potential benefits of pursuing innovative payment models contemplated by the Affordable Care Act, in which case such grounds shall be set forth in the medicaid savings allo-

cation adjustment; and (5) reductions
shall be made in a manner that does not
unnecessarily create administrative
burdens to medicaid applicants and recipi-
ents or providers.
The commissioner shall seek the input of the
legislature, as well as organizations
representing health care providers,
consumers, businesses, workers, health
insurers, and others with relevant exper-
tise, in developing such medicaid savings
allocation adjustment, to the extent that
all or part of such adjustment, in the
discretion of the commissioner, is likely
to have a material impact on the overall
medicaid program, particular categories of
service or particular geographic regions
of the state.

(a) The commissioner shall post the medicaid
savings allocation adjustment on the
department of health's website and shall
provide written copies of such adjustment
to the chairs of the senate finance and
the assembly ways and means committees at
least 30 days before the date on which
implementation is expected to begin.

(b) The commissioner may revise the medicaid
savings allocation adjustment subsequent
to the provisions of notice and prior to
implementation but needs to provide a new
notice pursuant to subparagraph (i) of
this paragraph only if the commissioner
determines, in his or her discretion, that
such revisions materially alter the
adjustment.

Notwithstanding the provisions of paragraphs
(a) and (b) of this subdivision, the
commissioner need not seek the input
described in paragraph (a) of this subdi-
vision or provide notice pursuant to para-
graph (b) of this subdivision if, in the
discretion of the commissioner, expedited
development and implementation of a medi-
caid savings allocation adjustment is
necessary due to a public health emergen-
cy.

For purposes of this section, a public
health emergency is defined as: (i) a
disaster, natural or otherwise, that
significantly increases the immediate need
for health care personnel in an area of
the state; (ii) an event or condition that
creates a widespread risk of exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or (iii) any other event or condition determined by the commissioner to constitute an imminent threat to public health.

Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation adjustment from taking effect retroactively to the extent permitted by the federal centers for medicare and medicaid services.

Notwithstanding section 40 of the state finance law or any provision of law to the contrary, subject to federal approval,
DEPARTMENT OF HEALTH

AID TO LOCALITIES  2022-23

department of health state funds medicaid spending, excluding payments for medical services provided at state facilities operated by the office of mental health, the office for people with developmental disabilities and the office of addiction services and supports and further excluding any payments which are not appropriated within the department of health, in the aggregate, for the period April 1, 2022 through March 31, 2023, shall not exceed $25,936,887,000 except as provided below and state share medicaid spending, in the aggregate, for the period April 1, 2023 through March 31, 2024, shall not exceed $27,678,377,000, but in no event shall department of health state funds medicaid spending for the period April 1, 2022 through March 31, 2024 exceed $53,615,265,000 provided, however, such aggregate limits may be adjusted by the director of the budget to account for any changes in the New York state federal medical assistance percentage amount established pursuant to the federal social security act, increases in provider revenues, reductions in local social services district payments for medical assistance administration, minimum wage increases and beginning April 1, 2012 the operational costs of the New York state medical indemnity fund, pursuant to chapter 59 of the laws of 2011, and state costs or savings from the essential plan program. Such projections may be adjusted by the director of the budget to account for increased or expedited department of health state funds medicaid expenditures as a result of a natural or other type of disaster, including a governmental declaration of emergency.

The director of the budget, in consultation with the commissioner of health, shall assess on a quarterly basis known and projected medicaid expenditures by category of service and by geographic region, as determined by the commissioner of health, incurred both prior to and subsequent to such assessment for each such period, and if the director of the budget determines that such expenditures are expected to cause medicaid spending for such period to
exceed the aggregate limit specified here-in for such period, the state medicaid director, in consultation with the director of the budget and the commissioner of health, shall develop a medicaid savings allocation adjustment to limit such spending to the aggregate limit specified here-in for such period.

Such medicaid savings allocation adjustment shall be designed, to reduce the expenditures authorized by the appropriations herein in compliance with the following guidelines: (1) reductions shall be made in compliance with applicable federal law, including the provisions of the Patient Protection and Affordable Care Act, Public Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No. 111-152 (collectively "Affordable Care Act") and any subsequent amendments thereto or regulations promul-gated thereunder; (2) reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver authority, to implement the provisions of the medicaid savings allocation adjustment that meets the other criteria set forth herein; (3) reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the Affordable Care Act; (4) reductions shall be made uniformly among categories of services and geographic regions of the state, to the extent practicable, and shall be made uniformly within a category of service, to the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific categories of services contributed to department of health medicaid state funds spending in excess of the limits specified herein; the
need to maintain safety net services in
underserved communities; or the potential
benefits of pursuing innovative payment
models contemplated by the Affordable Care
Act, in which case such grounds shall be
set forth in the medicaid savings allo-
cation adjustment; and (5) reductions
shall be made in a manner that does not
unnecessarily create administrative
burdens to medicaid applicants and recipi-
ents or providers.

The commissioner shall seek the input of the
legislature, as well as organizations
representing health care providers,
consumers, businesses, workers, health
insurers, and others with relevant exper-
tise, in developing such medicaid savings
allocation adjustment, to the extent that
all or part of such adjustment, in the
discretion of the commissioner, is likely
to have a material impact on the overall
medicaid program, particular categories of
service or particular geographic regions
of the state.

(a) The commissioner shall post the medicaid
savings allocation adjustment on the
department of health's website and shall
provide written copies of such plan to the
chairs of the senate finance and the
assembly ways and means committees at
least 30 days before the date on which
implementation is expected to begin.

(b) The commissioner may revise the medicaid
savings allocation adjustment subsequent
to the provisions of notice and prior to
implementation but needs to provide a new
notice pursuant to subparagraph (i) of
this paragraph only if the commissioner
determines, in his or her discretion, that
such revisions materially alter the plan.

Notwithstanding the provisions of paragraphs
(a) and (b) of this subdivision, the
commissioner need not seek the input
described in paragraph (a) of this subdi-
vision or provide notice pursuant to para-
graph (b) of this subdivision if, in the
discretion of the commissioner, expedited
development and implementation of a medi-
caid savings allocation adjustment is
necessary due to a public health emergen-
cy.
For purposes of this section, a public health emergency is defined as: (i) a disaster, natural or otherwise, that significantly increases the immediate need for health care personnel in an area of the state; (ii) an event or condition that creates a widespread risk of exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or (iii) any other event or condition determined by the commissioner to constitute an imminent threat to public health.

Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation adjustment from taking effect retroactively to the extent permitted by the federal centers for medicare and medicaid services.

In accordance with the medicaid savings allocation adjustment, the commissioner of the department of health shall reduce department of health state funds medicaid spending by the amount of the projected overspending through, actions including, but not limited to modifying or suspending reimbursement methods, including but not limited to all fees, premium levels and rates of payment, notwithstanding any provision of law that sets a specific amount or methodology for any such payments or rates of payment; modifying medicaid program benefits; seeking all necessary federal approvals, including, but not limited to waivers, waiver amendments; and suspending time frames for notice, approval or certification of rate requirements, notwithstanding any provision of law, rule or regulation to the contrary, including but not limited to sections 2807 and 3614 of the public health law, section 18 of chapter 2 of the laws of 1988, and 18 NYCRR 505.14(h).

The department of health shall prepare a quarterly report that sets forth: (a) known and projected department of health medicaid expenditures as described in subdivision (1) of this section, and factors that could result in medicaid disbursements for the relevant state fiscal year to exceed the projected department of health state funds disburse-
ments in the enacted budget financial plan
pursuant to subdivision 3 of section 23 of
the state finance law, including spending
increases or decreases due to: enrollment
fluctuations, rate changes, utilization
changes, MRT investments, and shift of
beneficiaries to managed care; and vari-
ations in offline medicaid payments; and
(b) the actions taken to implement any
medicaid savings allocation adjustment
implemented pursuant to subdivision (4) of
this section, including information
concerning the impact of such actions on
each category of service and each
geographic region of the state. Each such
quarterly report shall be provided to the
chairs of the senate finance and the
assembly ways and means committees and
shall be posted on the department of

Medical Assistance Account - 22187

Notwithstanding section 40 of the state finance law or any other law to the contrary, all medical assistance appropriations made from this account shall remain in full force and effect in accordance, in the aggregate, with the following schedule: not more than 49 percent for the period April 1, 2022 to March 31, 2023; and the remaining amount for the period April 1, 2023 to March 31, 2024.
Notwithstanding section 40 of the state finance law or any provision of law to the contrary, subject to federal approval, department of health state funds medicaid spending, excluding payments for medical services provided at state facilities operated by the office of mental health, the office for people with developmental disabilities and the office of addiction services and supports and further excluding any payments which are not appropriated within the department of health, in the aggregate, for the period April 1, 2022 through March 31, 2023, shall not exceed $25,936,887,000 except as provided below and state share medicaid spending, in the aggregate, for the period April 1, 2023 through March 31, 2024, shall not exceed $27,678,377,000, but in no event shall department of health state funds medicaid spending for the period April 1, 2022 through March 31, 2024 exceed $53,615,265,000 provided, however, such aggregate limits may be adjusted by the director of the budget to account for any changes in the New York state federal medical assistance percentage amount established pursuant to the federal social security act, increases in provider revenues, reductions in local social services district payments for medical assistance administration, minimum wage increases and beginning April 1, 2012 the operational costs of the New York state medical indemnity fund, pursuant to chapter 59 of the laws of 2011, and state costs or savings from the essential plan. Such projections may be adjusted by the director of the budget to account for increased or expedited department of health state funds medicaid expenditures as a result of a natural or other type of disaster, including a governmental declaration of emergency. The director of the budget, in consultation with the commissioner of health, shall assess on a quarterly basis known and projected medicaid expenditures by category of service and by geographic region, as determined by the commissioner of health, incurred both prior to and subsequent to such assessment for each such period, and
if the director of the budget determines that such expenditures are expected to cause medicaid spending for such period to exceed the aggregate limit specified herein for such period, the state medicaid director, in consultation with the director of the budget and the commissioner of health, shall develop a medicaid savings allocation adjustment to limit such spending to the aggregate limit specified herein for such period.

Such medicaid savings allocation adjustment shall be designed, to reduce the expenditures authorized by the appropriations herein in compliance with the following guidelines: (1) reductions shall be made in compliance with applicable federal law, including the provisions of the Patient Protection and Affordable Care Act, Public Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No. 111-152 (collectively "Affordable Care Act") and any subsequent amendments thereto or regulations promulgated thereunder; (2) reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver authority, to implement the provisions of the medicaid savings allocation adjustment that meets the other criteria set forth herein; (3) reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the Affordable Care Act; (4) reductions shall be made uniformly among categories of services and geographic regions of the state, to the extent practicable, and shall be made uniformly within a category of service, to the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific catego-
ries of services contributed to department of health medicaid state funds spending in excess of the limits specified herein; the need to maintain safety net services in underserved communities; or the potential benefits of pursuing innovative payment models contemplated by the Affordable Care Act, in which case such grounds shall be set forth in the medicaid savings allocation adjustment; and (5) reductions shall be made in a manner that does not unnecessarily create administrative burdens to medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation adjustment, to the extent that all or part of such adjustment, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation adjustment on the department of health's website and shall provide written copies of such plan to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

(b) The commissioner may revise the medicaid savings allocation adjustment subsequent to the provisions of notice and prior to implementation but needs to provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that such revisions materially alter the plan.

Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this subdivision if, in the discretion of the commissioner, expedited development and implementation of a medicaid savings allocation adjustment is
necessary due to a public health emergency.

For purposes of this section, a public health emergency is defined as: (i) a disaster, natural or otherwise, that significantly increases the immediate need for health care personnel in an area of the state; (ii) an event or condition that creates a widespread risk of exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or (iii) any other event or condition determined by the commissioner to constitute an imminent threat to public health.

Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation adjustment from taking effect retroactively to the extent permitted by the federal centers for medicare and medicaid services.

In accordance with the medicaid savings allocation adjustment, the commissioner of the department of health shall reduce department of health state funds medicaid spending by the amount of the projected overspending through, actions including, but not limited to modifying or suspending reimbursement methods, including but not limited to all fees, premium levels and rates of payment, notwithstanding any provision of law that sets a specific amount or methodology for any such payments or rates of payment; modifying medicaid program benefits; seeking all necessary federal approvals, including, but not limited to waivers, waiver amendments; and suspending time frames for notice, approval or certification of rate requirements, notwithstanding any provision of law, rule or regulation to the contrary, including but not limited to sections 2807 and 3614 of the public health law, section 18 of chapter 2 of the laws of 1988, and 18 NYCRR 505.14(h).

The department of health shall prepare a quarterly report that sets forth: (a) known and projected department of health medicaid expenditures as described in subdivision (1) of this section, and factors that could result in medicaid disbursements for the relevant state
fiscal year to exceed the projected department of health state funds disbursements in the enacted budget financial plan pursuant to subdivision 3 of section 23 of the state finance law, including spending increases or decreases due to: enrollment fluctuations, rate changes, utilization changes, MRT investments, and shift of beneficiaries to managed care; and variations in offline medicaid payments; and (b) the actions taken to implement any medicaid savings allocation adjustment implemented pursuant to subdivision (4) of this section, including information concerning the impact of such actions on each category of service and each geographic region of the state. Each such quarterly report shall be provided to the chairs of the senate finance and the assembly ways and means committees and shall be posted on the department of health's website in a timely manner.

For the purpose of making payments to providers of medical care pursuant to section 367-b of the social services law, and for payment of state aid to municipalities and the federal government where payment systems through fiscal intermediaries are not operational, to reimburse the provision of care to patients eligible for medical assistance.

For services and expenses of the medical assistance program including nursing home, personal care, certified home health agency, long term home health care program and hospital services.

Notwithstanding any provision of law to the contrary, the portion of this appropriation covering fiscal year 2022-23 shall supersede and replace any duplicative (i) reappropriation for this item covering fiscal year 2022-23, and (ii) appropriation for this item covering fiscal year 2022-23 set forth in chapter 53 of the laws of 2021 (29846) ................... 1,711,000,000

Local Assistance Account - 10000
The appropriation made by chapter 53, section 1, of the laws of 2021, is hereby amended and reappropriated to read:

For reimbursement of local administrative expenses for medical assistance programs and for state administration of medical assistance programs, notwithstanding section 153 of the social services law, to include the performance of eligibility and enrollment determinations by the state or third-party entities designated by the state to perform such services.

Notwithstanding any provision of law to the contrary, subject to the approval of the director of budget, up to $23,000,000 of the amount appropriated herein shall be available for the purpose of providing payments to local social services districts for medical assistance administration claims that exceed an administrative ceiling established by the commissioner of health.

Notwithstanding any inconsistent provision of law and subject to the approval of the director of budget, moneys hereby appropriated may be increased or decreased by transfer or interchange between these appropriated amounts and appropriations of the medical assistance administration program, the medical assistance program, and the office of health insurance programs. Funding authority from this account used for state administration of the medical assistance program may be transferred to state operations appropriations within the aforementioned programs at amounts agreed upon by the commissioner of health, and the New York state division of the budget.

Notwithstanding section 40 of the state finance law or any other law to the contrary, all medical assistance appropriations made from this account shall remain in full force and effect in accordance, in the aggregate, with the following schedule: not more than 50 percent for the period April 1, 2021 to March 31, 2022 and the remaining amount for the period April 1, 2022 to [March 31] September 15, 2023.

Notwithstanding section 40 of the state finance law or any other law to the contrary, all medical assistance appropriations made from health state funds medicaid spending, excluding payments for medical services provided at state facilities operated by the office of mental health, the office for people with developmental disabilities and the office of addiction services and supports and further excluding any payments which are not appropriated within the department of health, in the aggregate, for the period April 1, 2021 through March 31, 2022, shall not exceed $23,531,327,000 except as provided below and state share medicaid spending, in the aggregate, for the period April 1, 2022 through [March 31] September 15, 2023, shall not exceed $25,936,887,000 but in no event shall department of health state funds medicaid spending for the period April 1, 2021 through [March 31] September 15, 2023 exceed $49,118,443,000 provided, however, such aggregate limits may be adjusted by the director of the budget to account for any changes in the New York state federal medical assistance percentage amount established pursuant to the federal social security act, increases in provider revenues, reductions in local social services district payments for medical assistance administration, minimum wage increases, and beginning April 1, 2012 the operational
costs of the New York state medical indemnity fund, pursuant to
chapter 59 of the laws of 2011, and state costs or savings from the
essential plan program. Such projections may be adjusted by the
director of the budget to account for increased or expedited depart-
ment of health state funds medicaid expenditures as a result of a
natural or other type of disaster, including a governmental declara-
tion of emergency.

The director of the budget, in consultation with the commissioner of
health, shall assess on a quarterly basis known and projected medi-
caid expenditures by category of service and by geographic region,
as determined by the commissioner of health, incurred both prior to
and subsequent to such assessment for each such period, and if the
director of the budget determines that such expenditures are
expected to cause medicaid spending for such period to exceed the
aggregate limit specified herein for such period, the state medicaid
director, in consultation with the director of the budget and the
commissioner of health, shall develop a medicaid savings allocation
adjustment to limit such spending to the aggregate limit specified
herein for such period.

Such medicaid savings allocation adjustment shall be designed, to
reduce the expenditures authorized by the appropriations herein in
compliance with the following guidelines: (1) reductions shall be
made in compliance with applicable federal law, including the
provisions of the Patient Protection and Affordable Care Act, Public
Law No. 111-148, and the Health Care and Education Reconciliation
Act of 2010, Public Law No. 111-152 (collectively "Affordable Care
Act") and any subsequent amendments thereto or regulations promul-
gated thereunder; (2) reductions shall be made in a manner that
complies with the state medicaid plan approved by the federal
centers for medicare and medicaid services, provided, however, that
the commissioner of health is authorized to submit any state plan
amendment or seek other federal approval, including waiver authori-
ty, to implement the provisions of the medicaid savings allocation
adjustment that meets the other criteria set forth herein; (3)
reductions shall be made in a manner that maximizes federal finan-
cial participation, to the extent practicable, including any federal
financial participation that is available or is reasonably expected
to become available, in the discretion of the commissioner, under
the Affordable Care Act; (4) reductions shall be made uniformly
among categories of services and geographic regions of the state, to
the extent practicable, and shall be made uniformly within a catego-
ry of service, to the extent practicable, except where the commis-
sioner determines that there are sufficient grounds for non-uniform-
ity, including but not limited to: the extent to which specific
categories of services contributed to department of health medicaid
state funds spending in excess of the limits specified herein; the
need to maintain safety net services in underserved communities; or
the potential benefits of pursuing innovative payment models contem-
plated by the Affordable Care Act, in which case such grounds shall
be set forth in the medicaid savings allocation adjustment; and (5)
reductions shall be made in a manner that does not unnecessarily
create administrative burdens to medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation adjustment, to the extent that all or part of such adjustment, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation adjustment on the department of health's website and shall provide written copies of such adjustment to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

(b) The commissioner may revise the medicaid savings allocation adjustment subsequent to the provisions of notice and prior to implementation but needs to provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that such revisions materially alter the adjustment.

Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this subdivision if, in the discretion of the commissioner, expedited development and implementation of a medicaid savings allocation adjustment is necessary due to a public health emergency.

For purposes of this section, a public health emergency is defined as:

(i) a disaster, natural or otherwise, that significantly increases the immediate need for health care personnel in an area of the state; (ii) an event or condition that creates a widespread risk of exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or (iii) any other event or condition determined by the commissioner to constitute an imminent threat to public health.

Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation adjustment from taking effect retroactively to the extent permitted by the federal centers for medicare and medicaid services.

In accordance with the medicaid savings allocation adjustment, the commissioner of the department of health shall reduce department of health state funds medicaid spending by the amount of the projected overspending through, actions including, but not limited to modifying or suspending reimbursement methods, including but not limited to all fees, premium levels and rates of payment, notwithstanding any provision of law that sets a specific amount or methodology for any such payments or rates of payment; modifying medicaid program benefits; seeking all necessary federal approvals, including, but not limited to waivers, waiver amendments; and suspending time frames for notice, approval or certification of rate requirements, notwithstanding any provision of law, rule or regulation to the

contrary, including but not limited to sections 2807 and 3614 of the public health law, section 18 of chapter 2 of the laws of 1988, and 18 NYCRR 505.14(h).

The department of health shall prepare a quarterly report that sets forth: (a) known and projected department of health medicaid expend-
itures as described in subdivision (1) of this section, and factors that could result in medicaid disbursements for the relevant state fiscal year to exceed the projected department of health state funds disbursements in the enacted budget financial plan pursuant to subdivision 3 of section 23 of the state finance law, including spending increases or decreases due to: enrollment fluctuations, rate changes, utilization changes, MRT investments, and shift of beneficiaries to managed care; and variations in offline medicaid payments; and (b) the actions taken to implement any medicaid savings allocation adjustment implemented pursuant to subdivision (4) of this section, including information concerning the impact of such actions on each category of service and each geographic region of the state. Each such quarterly report shall be provided to the chairs of the senate finance and the assembly ways and means commit-
tees and shall be posted on the department of health's website in a timely manner.

The money hereby appropriated is available for payment of liabilities heretofore and hereafter accrued and shall be available to the department net of disallowances, refunds, reimbursements, and cred-
its.

Reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to]
submit any state plan amendment or seek other federal approval to implement the provisions of the Medicaid payment reduction adjustment.

Notwithstanding any inconsistent provision of law, in lieu of payments authorized by the social services law, or payments of federal funds otherwise due to the local social services districts for programs provided under the federal social security act or the federal food stamp act, funds herein appropriated, in amounts certified by the state commissioner of temporary and disability assistance or the state commissioner of health as due from local social services districts each month as their share of payments made pursuant to section 367-b of the social services law may be set aside by the state comptroller in an interest-bearing account in order to ensure the orderly and prompt payment of providers under section 367-b of the social services law pursuant to an estimate provided by the commissioner of health of each local social services district's share of payments made pursuant to section 367-b of the social services law.

MEDICAL ASSISTANCE PROGRAM

General Fund
Local Assistance Account - 10000

The appropriation made by chapter 53, section 1, of the laws of 2021, is
hereby amended and reapportioned to read:

For the medical assistance program, including administrative expenses,
for local social services districts, and for medical care rates for
authorized child care agencies.

Notwithstanding section 40 of the state finance law or any other law
to the contrary, all medical assistance appropriations made from
this account shall remain in full force and effect in accordance, in
the aggregate, with the following schedule: not more than 48 percent
for the period April 1, 2021 to March 31, 2022; and the remaining
amount for the period April 1, 2022 to [March 31] September 15,
2023.

Notwithstanding section 40 of the state finance law or any provision
of law to the contrary, subject to federal approval, department of
health state funds medicaid spending, excluding payments for medical
services provided at state facilities operated by the office of
mental health, the office for people with developmental disabilities
and the office of addiction services and supports and further
excluding any payments which are not appropriated within the depart-
ment of health, in the aggregate, for the period April 1, 2021
through March 31, 2022, shall not exceed $23,531,327,000 except as
provided below and state share medicaid spending, in the aggregate,
for the period April 1, 2022 through [March 31] September 15, 2023,
shall not exceed [$25,587,116,000] $25,936,887,000, but in no event
shall department of health state funds medicaid spending for the
period April 1, 2021 through [March 31] September 15, 2023 exceed
[$49,118,443,000] $49,468,214,000. Provided, however, such aggre-
gate limits may be adjusted by the director of the budget to account
for any changes in the New York state federal medical assistance
percentage amount established pursuant to the federal social securi-
ty act, increases in provider revenues, reductions in local social
services district payments for medical assistance administration,
minimum wage increases, and beginning April 1, 2012 the operational
costs of the New York state medical indemnity fund, pursuant to
chapter 59 of the laws of 2011, and state costs or savings from the
essential plan program. Such projections may be adjusted by the
director of the budget to account for increased or expedited depart-
ment of health state funds medicaid expenditures as a result of a
natural or other type of disaster, including a governmental declara-
tion of emergency.

The director of the budget, in consultation with the commissioner of
health, shall assess on a quarterly basis known and projected medi-
caid expenditures by category of service and by geographic region,
as defined by the commissioner, incurred both prior to and subse-
quently to such assessment for each such period, and if the director
of the budget determines that such expenditures are expected to
cause medicaid spending for such period to exceed the aggregate
limit specified herein for such period, the state medicaid director,
in consultation with the director of the budget and the commissioner
of health, shall develop a medicaid savings allocation adjustment to
limit such spending to the aggregate limit specified herein for such
period.

Such medicaid savings allocation adjustment shall be designed, to
reduce the expenditures authorized by the appropriations herein in
compliance with the following guidelines: (1) reductions shall be
made in compliance with applicable federal law, including the
provisions of the Patient Protection and Affordable Care Act, Public
Law No. 111-148, and the Health Care and Education Reconciliation
Act of 2010, Public Law No. 111-152 (collectively "Affordable Care
Act") and any subsequent amendments thereto or regulations promul-
gated thereunder; (2) reductions shall be made in a manner that
complies with the state medicaid plan approved by the federal
centers for medicare and medicaid services, provided, however, that
the commissioner of health is authorized to submit any state plan
amendment or seek other federal approval, including waiver authori-

adjustment that meets the other criteria set forth herein; (3)
reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial participation that is available or is reasonably expected to become available, in the discretion of the commissioner, under the Affordable Care Act; (4) reductions shall be made uniformly among categories of services and geographic regions of the state, to the extent practicable, and shall be made uniformly within a category of service, to the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific categories of services contributed to department of health medicaid state funds spending in excess of the limits specified herein; the need to maintain safety net services in underserved communities; or the potential benefits of pursuing innovative payment models contemplated by the Affordable Care Act, in which case such grounds shall be set forth in the medicaid savings allocation adjustment; and (5) reductions shall be made in a manner that does not unnecessarily create administrative burdens to medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation adjustment, to the extent that all or part of such adjustment, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state.

Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this subdivision if, in the discretion of the commissioner, expedited development and implementation of a medicaid savings allocation adjustment is necessary due to a public health emergency.

For purposes of this section, a public health emergency is defined as: (i) a disaster, natural or otherwise, that significantly increases the immediate need for health care personnel in an area of the state; (ii) an event or condition that creates a widespread risk of exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or (iii) any other event or condi-

In accordance with the medicaid savings allocation adjustment, the commissioner of the department of health shall reduce department of health state funds medicaid spending by the amount of the projected overspending through, actions including, but not limited to modifying or suspending reimbursement methods, including but not limited to all fees, premium levels and rates of payment, notwithstanding any provision of law that sets a specific amount or methodology for any such payments or rates of payment; modifying or discontinuing medicaid program benefits; seeking all necessary federal approvals, including, but not limited to waivers, waiver amendments; and suspending time frames for notice, approval or certification of rate requirements, notwithstanding any provision of law, rule or regulation to the contrary, including but not limited to sections 2807 and 3614 of the public health law, section 18 of chapter 2 of the laws of 1988, and 18 NYCRR 505.14(h).

The department of health shall prepare a quarterly report that sets forth: (a) known and projected department of health medicaid expenditures as described in subdivision (1) of this section, and factors that could result in medicaid disbursements for the relevant state fiscal year to exceed the projected department of health state funds disbursements in the enacted budget financial plan pursuant to subdivision 3 of section 23 of the state finance law, including spending increases or decreases due to: enrollment fluctuations, rate changes, utilization changes, MRT investments, and shift of beneficiaries to managed care; and variations in offline medicaid payments; and (b) the actions taken to implement any medicaid savings allocation adjustment implemented pursuant to subdivision (4) of this section, including information concerning the impact of such actions on each category of service and each geographic region of the state. Each such quarterly report shall be provided to the chairs of the senate finance and the assembly ways and means committees and shall be posted on the department of health's website in a timely manner.

The appropriation made by chapter 53, section 1, of the laws of 2021, is
hereby amended and reappropriated to read:
Notwithstanding section 40 of the state finance law or any other law
to the contrary, all medical assistance appropriations made from
this account shall remain in full force and effect in accordance, in
the aggregate, with the following schedule: not more than 50 percent
for the period April 1, 2021 to March 31, 2022; and the remaining
amount for the period April 1, 2022 to [March 31] September 15,
2023.
Notwithstanding section 40 of the state finance law or any provision
of law to the contrary, subject to federal approval, department of
health state funds medicaid spending, excluding payments for medical
services provided at state facilities operated by the office of
mental health, the office for people with developmental disabilities
and the office of addiction services and supports and further
excluding any payments which are not appropriated within the department of health, in the aggregate, for the period April 1, 2021 through March 31, 2022, shall not exceed $23,531,327,000 except as provided below and state share medicaid spending, in the aggregate, for the period April 1, 2022 through [March 31] September 15, 2023, shall not exceed [$25,587,116,000] $25,936,887,000, but in no event shall department of health state funds medicaid spending for the period April 1, 2021 through [March 31] September 15, 2023 exceed [49,118,443,000] $49,468,214,000 provided, however, such aggregate limits may be adjusted by the director of the budget to account for any changes in the New York state federal medical assistance percentage amount established pursuant to the federal social security act, increases in provider revenues, reductions in local social services district payments for medical assistance administration, minimum wage increases and beginning April 1, 2012 the operational costs of the New York state medical indemnity fund, pursuant to chapter 59 of the laws of 2011, and state costs or savings from the essential plan program. Such projections may be adjusted by the director of the budget to account for increased or expedited department of health state funds medicaid expenditures as a result of a natural or other type of disaster, including a governmental declaration of emergency.

The director of the budget, in consultation with the commissioner of health, shall assess on a quarterly basis known and projected medicaid expenditures by category of service and by geographic region, as determined by the commissioner of health, incurred both prior to and subsequent to such assessment for each such period, and if the director of the budget determines that such expenditures are expected to cause medicaid spending for such period to exceed the aggregate limit specified herein for such period, the state medicaid director, in consultation with the director of the budget and the commissioner of health, shall develop a medicaid savings allocation adjustment to limit such spending to the aggregate limit specified herein for such period.

Such medicaid savings allocation adjustment shall be designed, to reduce the expenditures authorized by the appropriations herein in compliance with the following guidelines: (1) reductions shall be made in compliance with applicable federal law, including the provisions of the Patient Protection and Affordable Care Act, Public Law No. 111-148, and the Health Care and Education Reconciliation Act of 2010, Public Law No. 111-152 (collectively "Affordable Care Act") and any subsequent amendments thereto or regulations promulgated thereunder; (2) reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval, including waiver authority, to implement the provisions of the medicaid savings allocation adjustment that meets the other criteria set forth herein; (3) reductions shall be made in a manner that maximizes federal financial participation, to the extent practicable, including any federal financial participation that is available or is reasonably expected.
to become available, in the discretion of the commissioner, under the Affordable Care Act; (4) reductions shall be made uniformly among categories of services and geographic regions of the state, to the extent practicable, and shall be made uniformly within a category of service, to the extent practicable, except where the commissioner determines that there are sufficient grounds for non-uniformity, including but not limited to: the extent to which specific categories of services contributed to department of health medicaid state funds spending in excess of the limits specified herein; the need to maintain safety net services in underserved communities; or the potential benefits of pursuing innovative payment models contemplated by the Affordable Care Act, in which case such grounds shall be set forth in the medicaid savings allocation adjustment; and (5) reductions shall be made in a manner that does not unnecessarily create administrative burdens to medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation adjustment, to the extent that all or part of such adjustment, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation adjustment on the department of health's website and shall provide written copies of such plan to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

(b) The commissioner may revise the medicaid savings allocation adjustment subsequent to the provisions of notice and prior to implementation but needs to provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that such revisions materially alter the plan.

Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this subdivision if, in the discretion of the commissioner, expedited development and implementation of a medicaid savings allocation adjustment is necessary due to a public health emergency.

For purposes of this section, a public health emergency is defined as:
(i) a disaster, natural or otherwise, that significantly increases the immediate need for health care personnel in an area of the state; (ii) an event or condition that creates a widespread risk of exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or (iii) any other event or condition determined by the commissioner to constitute an imminent threat to public health.

Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation adjustment from taking effect

retroactively to the extent permitted by the federal centers for medicare and medicaid services.

In accordance with the medicaid savings allocation adjustment, the commissioner of the department of health shall reduce department of health state funds medicaid spending by the amount of the projected overspending through, actions including, but not limited to modifying or suspending reimbursement methods, including but not limited to all fees, premium levels and rates of payment, notwithstanding any provision of law that sets a specific amount or methodology for any such payments or rates of payment; modifying medicaid program benefits; seeking all necessary federal approvals, including, but not limited to waivers, waiver amendments; and suspending time frames for notice, approval or certification of rate requirements, notwithstanding any provision of law, rule or regulation to the contrary, including but not limited to sections 2807 and 3614 of the public health law, section 18 of chapter 2 of the laws of 1988, and 18 NYCRR 505.14(h).

The department of health shall prepare a quarterly report that sets forth: (a) known and projected department of health medicaid expenditures as described in subdivision (1) of this section, and factors that could result in medicaid disbursements for the relevant state fiscal year to exceed the projected department of health state funds disbursements in the enacted budget financial plan pursuant to subdivision 3 of section 23 of the state finance law, including spending increases or decreases due to: enrollment fluctuations, rate changes, utilization changes, MRT investments, and shift of beneficiaries to managed care; and variations in offline medicaid payments; and (b) the actions taken to implement any medicaid savings allocation adjustment implemented pursuant to subdivision (4) of this section, including information concerning the impact of such actions on each category of service and each geographic region of the state. Each such quarterly report shall be provided to the chairs of the senate finance and the assembly ways and means committees and shall be posted on the department of health's website in a timely manner.

[Notwithstanding any provision of law to the contrary, the director of the budget, in consultation with the commissioner of health, may use a payment reduction plan to make across-the-board reductions to the department of health state funds medicaid spending by $373,000,000 for state fiscal year 2021-2022 and $373,000,000 in state fiscal year 2022-2023 to limit such spending to the aggregate limit specified herein, or reduce the aggregate limit specified herein to provide a reduction to the state's financial plan. Reductions shall be made in a manner that complies with the state medicaid plan approved by the federal centers for medicare and medicaid services, provided, however, that the commissioner of health is authorized to submit any state plan amendment or seek other federal approval to implement the provisions of the medicaid payment reduction adjustment.]

For the purpose of making payments to providers of medical care pursuant to section 367-b of the social services law, and for payment of state aid to municipalities where payment systems through fiscal
intermediaries are not operational, to reimburse such providers for costs attributable to the provision of care to patients eligible for medical assistance. Payments from this appropriation to general hospitals related to indigent care pursuant to article 28 of the public health law respectively, when combined with federal funds for services and expenses for the medical assistance program pursuant to title XIX of the federal social security act or its successor program, shall equal the amount of the funds received related to health care reform act allowances and surcharges pursuant to article 28 of the public health law and deposited to this account less any such amounts withheld pursuant to subdivision 21 of section 2807-c of the public health law. Notwithstanding any inconsistent provision of law, the moneys hereby appropriated may be increased or decreased by interchange or transfer with any appropriation of the department of health with the approval of the director of the budget, who shall file such approval with the department of audit and control and copies thereof with the chairman of the senate finance committee and the chairman of the assembly ways and means committee.

Notwithstanding any provision of law to the contrary, the portion of this appropriation covering fiscal year 2021-22 shall supersede and replace any duplicative (i) reappropriation for this item covering fiscal year 2021-22, and (ii) appropriation for this item covering fiscal year 2021-22 set forth in chapter 53 of the laws of 2020 (29797) ... 1,171,400,000 ....................... period April 1, 2021 through [March 31] September 15, 2023 exceed
[$49,118,443,000] $49,468,214,000 provided, however, such aggregate
limits may be adjusted by the director of the budget to account for
any changes in the New York state federal medical assistance
percentage amount established pursuant to the federal social securi-
ty act, increases in provider revenues, reductions in local social
services district payments for medical assistance administration,
minimum wage increases and beginning April 1, 2012 the operational
costs of the New York state medical indemnity fund, pursuant to
chapter 59 of the laws of 2011, and state costs or savings from the
essential plan. Such projections may be adjusted by the director of
the budget to account for increased or expedited department of
health state funds medicaid expenditures as a result of a natural or
other type of disaster, including a governmental declaration of
emergency.
The director of the budget, in consultation with the commissioner of
health, shall assess on a quarterly basis known and projected medi-
caid expenditures by category of service and by geographic region,
as determined by the commissioner of health, incurred both prior to
and subsequent to such assessment for each such period, and if the
director of the budget determines that such expenditures are
expected to cause medicaid spending for such period to exceed the
aggregate limit specified herein for such period, the state medicaid
director, in consultation with the director of the budget and the
commissioner of health, shall develop a medicaid savings allocation
adjustment to limit such spending to the aggregate limit specified
herein for such period.
Such medicaid savings allocation adjustment shall be designed, to
reduce the expenditures authorized by the appropriations herein in
compliance with the following guidelines: (1) reductions shall be
made in compliance with applicable federal law, including the
provisions of the Patient Protection and Affordable Care Act, Public
Law No. 111-148, and the Health Care and Education Reconciliation
Act of 2010, Public Law No. 111-152 (collectively "Affordable Care
Act") and any subsequent amendments thereto or regulations promul-
gated thereunder; (2) reductions shall be made in a manner that
complies with the state medicaid plan approved by the federal
centers for medicare and medicaid services, provided, however, that
the commissioner of health is authorized to submit any state plan
amendment or seek other federal approval, including waiver authori-
ty, to implement the provisions of the medicaid savings allocation
adjustment that meets the other criteria set forth herein; (3)
reductions shall be made in a manner that maximizes federal finan-
cial participation, to the extent practicable, including any federal
financial participation that is available or is reasonably expected
to become available, in the discretion of the commissioner, under
the Affordable Care Act; (4) reductions shall be made uniformly
among categories of services and geographic regions of the state, to
the extent practicable, and shall be made uniformly within a catego-
ry of service, to the extent practicable, except where the commis-
sioner determines that there are sufficient grounds for non-uniform-
ity, including but not limited to: the extent to which specific
categories of services contributed to department of health medicaid state funds spending in excess of the limits specified herein; the need to maintain safety net services in underserved communities; or the potential benefits of pursuing innovative payment models contemplated by the Affordable Care Act, in which case such grounds shall be set forth in the medicaid savings allocation adjustment; and (5) reductions shall be made in a manner that does not unnecessarily create administrative burdens to medicaid applicants and recipients or providers.

The commissioner shall seek the input of the legislature, as well as organizations representing health care providers, consumers, businesses, workers, health insurers, and others with relevant expertise, in developing such medicaid savings allocation adjustment, to the extent that all or part of such adjustment, in the discretion of the commissioner, is likely to have a material impact on the overall medicaid program, particular categories of service or particular geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation adjustment on the department of health's website and shall provide written copies of such plan to the chairs of the senate finance and the assembly ways and means committees at least 30 days before the date on which implementation is expected to begin.

(b) The commissioner may revise the medicaid savings allocation adjustment subsequent to the provisions of notice and prior to implementation but needs to provide a new notice pursuant to subparagraph (i) of this paragraph only if the commissioner determines, in his or her discretion, that such revisions materially alter the plan.

Notwithstanding the provisions of paragraphs (a) and (b) of this subdivision, the commissioner need not seek the input described in paragraph (a) of this subdivision or provide notice pursuant to paragraph (b) of this subdivision if, in the discretion of the commissioner, expedited development and implementation of a medicaid savings allocation adjustment is necessary due to a public health emergency.

For purposes of this section, a public health emergency is defined as:

(i) a disaster, natural or otherwise, that significantly increases the immediate need for health care personnel in an area of the state; (ii) an event or condition that creates a widespread risk of exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or (iii) any other event or condition determined by the commissioner to constitute an imminent threat to public health.

Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation adjustment from taking effect retroactively to the extent permitted by the federal centers for medicare and medicaid services.

In accordance with the medicaid savings allocation adjustment, the commissioner of the department of health shall reduce department of health state funds medicaid spending by the amount of the projected overspending through, actions including, but not limited to modifying or suspending reimbursement methods, including but not limited
to all fees, premium levels and rates of payment, notwithstanding any provision of law that sets a specific amount or methodology for any such payments or rates of payment; modifying medicaid program benefits; seeking all necessary federal approvals, including, but not limited to waivers, waiver amendments; and suspending time frames for notice, approval or certification of rate requirements, notwithstanding any provision of law, rule or regulation to the contrary, including but not limited to sections 2807 and 3614 of the public health law, section 18 of chapter 2 of the laws of 1988, and 18 NYCRR 505.14(h).

The department of health shall prepare a quarterly report that sets forth: (a) known and projected department of health medicaid expenditures as described in subdivision (1) of this section, and factors that could result in medicaid disbursements for the relevant state fiscal year to exceed the projected department of health state funds disbursements in the enacted budget financial plan pursuant to subdivision 3 of section 23 of the state finance law, including spending increases or decreases due to: enrollment fluctuations, rate changes, utilization changes, MRT investments, and shift of beneficiaries to managed care; and variations in offline medicaid payments; and

(b) the actions taken to implement any medicaid savings allocation adjustment implemented pursuant to subdivision (4) of this section, including information concerning the impact of such actions on each category of service and each geographic region of the state. Each such quarterly report shall be provided to the chairs of the senate finance and the assembly ways and means committees and shall be posted on the department of health's website in a timely manner.

For the purpose of making payments, the money hereby appropriated is available for payment of aid heretofore accrued or hereafter accrued, to providers of medical care pursuant to section 367-b of the social services law, and for payment of state aid to municipalities and the federal government where payment systems through fiscal intermediaries are not operational, to reimburse such providers for costs attributable to the provision of care to patients eligible for medical assistance. Notwithstanding any inconsistent provision of law, the moneys hereby appropriated may be increased or decreased by interchange or transfer with any appropriation of the department of health with the approval of the director of the budget, who shall file such approval with the department of audit and control and copies thereof with the chairman of the senate finance committee and the chairman of the assembly ways and means committee.

Notwithstanding section 40 of the state finance law or any provision
of law to the contrary, subject to federal approval, department of
health state funds medicaid spending, excluding payments for medical
services provided at state facilities operated by the office of
mental health, the office for people with developmental disabilities
and the office of addiction services and supports and further
excluding any payments which are not appropriated within the depart-
ment of health, in the aggregate, for the period April 1, 2021
through March 31, 2022, shall not exceed $23,531,327,000 except as
provided below and state share medicaid spending, in the aggregate,
for the period April 1, 2022 through September 15, 2023, shall not exceed $25,587,116,000 but in no event
shall department of health state funds medicaid spending for the
period April 1, 2021 through September 15, 2023 exceed
$49,118,443,000 provided, however, such aggregate
limits may be adjusted by the director of the budget to account for
any changes in the New York state federal medical assistance
percentage amount established pursuant to the federal social securi-
ty act, increases in provider revenues, reductions in local social
services district payments for medical assistance administration,
minimum wage increases and beginning April 1, 2012 the operational
costs of the New York state medical indemnity fund, pursuant to
chapter 59 of the laws of 2011, and state costs or savings from the
essential plan. Such projections may be adjusted by the director of
the budget to account for increased or expedited department of
health state funds medicaid expenditures as a result of a natural or
other type of disaster, including a governmental declaration of
emergency.

The director of the budget, in consultation with the commissioner of
health, shall assess on a quarterly basis known and projected medi-
caid expenditures by category of service and by geographic region,
as determined by the commissioner of health, incurred both prior to
and subsequent to such assessment for each such period, and if the
director of the budget determines that such expenditures are
expected to cause medicaid spending for such period to exceed the
aggregate limit specified herein for such period, the state medicaid
director, in consultation with the director of the budget and the
commissioner of health, shall develop a medicaid savings allocation
adjustment to limit such spending to the aggregate limit specified
herein for such period.

Such medicaid savings allocation adjustment shall be designed, to
reduce the expenditures authorized by the appropriations herein in
compliance with the following guidelines: (1) reductions shall be
made in compliance with applicable federal law, including the
provisions of the Patient Protection and Affordable Care Act, Public
Law No. 111-148, and the Health Care and Education Reconciliation
Act of 2010, Public Law No. 111-152 (collectively "Affordable Care
Act") and any subsequent amendments thereto or regulations promul-
gated thereunder; (2) reductions shall be made in a manner that
complies with the state medicaid plan approved by the federal
centers for medicare and medicaid services, provided, however, that
the commissioner of health is authorized to submit any state plan
amendment or seek other federal approval, including waiver authori-
ty, to implement the provisions of the medicaid savings allocation
adjustment that meets the other criteria set forth herein; (3)
reductions shall be made in a manner that maximizes federal finan-
cial participation, to the extent practicable, including any federal
financial participation that is available or is reasonably expected
to become available, in the discretion of the commissioner, under
the Affordable Care Act; (4) reductions shall be made uniformly
among categories of services and geographic regions of the state, to
the extent practicable, and shall be made uniformly within a catego-
ry of service, to the extent practicable, except where the commis-
sioner determines that there are sufficient grounds for non-uniform-
ity, including but not limited to: the extent to which specific
categories of services contributed to department of health medicaid
state funds spending in excess of the limits specified herein; the
need to maintain safety net services in underserved communities; or
the potential benefits of pursuing innovative payment models contem-
plated by the Affordable Care Act, in which case such grounds shall
be set forth in the medicaid savings allocation adjustment; and (5)
reductions shall be made in a manner that does not unnecessarily
create administrative burdens to medicaid applicants and recipients
or providers.
The commissioner shall seek the input of the legislature, as well as
organizations representing health care providers, consumers, busi-
nesses, workers, health insurers, and others with relevant expert-
tise, in developing such medicaid savings allocation adjustment, to
the extent that all or part of such adjustment, in the discretion of
the commissioner, is likely to have a material impact on the overall
medicaid program, particular categories of service or particular
geographic regions of the state.

(a) The commissioner shall post the medicaid savings allocation
adjustment on the department of health's website and shall provide
written copies of such plan to the chairs of the senate finance and
the assembly ways and means committees at least 30 days before the
date on which implementation is expected to begin.

(b) The commissioner may revise the medicaid savings allocation
adjustment subsequent to the provisions of notice and prior to
implementation but needs to provide a new notice pursuant to subpar-
agraph (i) of this paragraph only if the commissioner determines, in
his or her discretion, that such revisions materially alter the
plan.

Notwithstanding the provisions of paragraphs (a) and (b) of this
subdivision, the commissioner need not seek the input described in
paragraph (a) of this subdivision or provide notice pursuant to
paragraph (b) of this subdivision if, in the discretion of the
commissioner, expedited development and implementation of a medicaid

savings allocation adjustment is necessary due to a public health emergency.

For purposes of this section, a public health emergency is defined as:
(i) a disaster, natural or otherwise, that significantly increases the immediate need for health care personnel in an area of the state;
(ii) an event or condition that creates a widespread risk of exposure to a serious communicable disease, or the potential for such widespread risk of exposure; or
(iii) any other event or condition determined by the commissioner to constitute an imminent threat to public health.

Nothing in this paragraph shall be deemed to prevent all or part of such medicaid savings allocation adjustment from taking effect retroactively to the extent permitted by the federal centers for medicare and medicaid services.

In accordance with the medicaid savings allocation adjustment, the commissioner of the department of health shall reduce department of health state funds medicaid spending by the amount of the projected overspending through, actions including, but not limited to modifying or suspending reimbursement methods, including but not limited to all fees, premium levels and rates of payment, notwithstanding any provision of law that sets a specific amount or methodology for any such payments or rates of payment; modifying medicaid program benefits; seeking all necessary federal approvals, including, but not limited to waivers, waiver amendments; and suspending time frames for notice, approval or certification of rate requirements, notwithstanding any provision of law, rule or regulation to the contrary, including but not limited to sections 2807 and 3614 of the public health law, section 18 of chapter 2 of the laws of 1988, and 18 NYCRR 505.14(h).

The department of health shall prepare a quarterly report that sets forth: (a) known and projected department of health medicaid expenditures as described in subdivision (1) of this section, and factors that could result in medicaid disbursements for the relevant state fiscal year to exceed the projected department of health state funds disbursements in the enacted budget financial plan pursuant to subdivision 3 of section 23 of the state finance law, including spending increases or decreases due to: enrollment fluctuations, rate changes, utilization changes, MRT investments, and shift of beneficiaries to managed care; and variations in offline medicaid payments; and (b) the actions taken to implement any medicaid savings allocation adjustment implemented pursuant to subdivision (4) of this section, including information concerning the impact of such actions on each category of service and each geographic region of the state. Each such quarterly report shall be provided to the chairs of the senate finance and the assembly ways and means committees and shall be posted on the department of health's website in a timely manner.

Notwithstanding any provision of law to the contrary, the director of the budget, in consultation with the commissioner of health, may use a payment reduction plan to make across-the-board reductions to the department of health state funds medicaid spending by $373,000,000 for state fiscal year 2021-2022 and $373,000,000 in state fiscal

The moneys hereby appropriated are available to reimburse or advance to localities and voluntary nonprofit agencies for expenditures heretofore accrued or hereafter to accrue during local fiscal periods commencing January 1, 2022 or July 1, 2022 and for advances for the period beginning January 1, 2023.

The commissioner, pursuant to such contract and/or funding authorization letter, may pay from this appropriation all or a portion of the expenses incurred by such voluntary agencies arising out of loans obtained from the proceeds of bonds and notes issued by the dormitory authority of the state of New York or another authorized entity approved by the division of the budget. Such expenses may include, but shall not be limited to, amounts relating
to principal and interest and any other fees and charges arising from such loans.   - For the reduction of gas and electric utility arrears for residential customers.
  - All residential customers of gas and electric corporations regulated by the Public Service Commission, municipalities, and including the residential utility customers of the Long Island Power Authority and
its service provider shall be eligible. The Department shall establish a program for such purpose, in consultation with the EAP working group, to prioritize the allocation of funds to customers eligible for an energy affordability program. The Department may establish any necessary conditions for utilities to reduce overall customer arrears, including incentives to forgive arrears through an arrears management plan or place arrears on a deferred payment agreement pursuant to section 37 of the public service law.

Eligible utility arrears shall mean residential gas and electric utility arrears determined by the Department of Public Service, in coordination with utilities and municipalities, to have accumulated during the period of time of March 7th, 2020, through March 1st, 2022. For the purposes of this appropriation, energy affordability programs shall include, the Commission's Energy Affordability Policy Program, Home Energy Assistance Program, Regular Arrears Supplement Program, and the Emergency Rental Assistance Program.

Amounts appropriated herein shall first be disbursed to the utilities and the municipalities on behalf of residential energy affordability program customers proportionally based on their share of statewide eligible utility arrears, as determined by the Department of Public Service. Any remaining amounts appropriated herein shall be disbursed to the utilities and the municipalities on behalf of remaining residential customers proportionally based on their share of statewide eligible utility arrears, as determined by the Department of Public Service; provided however, that no more than ten percent of such remaining amounts shall be used to incentivize enrollment in arrears management plans and/or deferred payment agreements before or after August 1st, 2022.

The Department shall ensure that utilities and municipalities maintain efforts to utilize other available funding sources, where applicable. The Department shall ensure that funding appropriated herein may supplement, but does not duplicate funding to residential customers who have
already received energy assistance funding
to pay off or credit the utility arrears
accumulated during the period of time of
March 7th, 2020 through March 1st, 2022.
The Department shall work to ensure that
