For state aid to municipal corporations, private airports as authorized by section 14-h of the transportation law and for payment of the state share of federally aided projects at Stewart and Republic Airports, for the acquisition, construction, reconstruction, and improvement of airport or aviation capital projects, including the acquisition of real property, pursuant to the transportation capital facilities development act of 1967 notwithstanding any inconsistent provisions of law, in accordance with the schedule set forth below. The moneys hereby appropriated are to be made available for payment of state aid to municipal corporations, private airports as authorized by section 14-h of the transportation law and for payment of the state share of federally aided projects at Stewart and Republic Airports, including payment of liabilities incurred prior to April 1, 1991, as defined in the transportation capital facilities development act of 1967. The items shown in the project schedule below shall be for projects with a common purpose and may be interchanged without limitation subject to the approval of the director of the division of the budget.

Prior to requesting approval of a certificate of approval of availability for the moneys hereby appropriated, the commissioner of transportation shall certify that each airport or aviation project progressed under the program categories listed in the schedule below has received federal approval and the federally authorized level of financial assistance.

No funds shall be allocated for projects at Stewart Airport that are directly related to a private facility until the commissioner of transportation enters into a written agreement, subject to the approval of the director of the budget, with such private entity providing that such entity is committed to locate its facilities at Stewart airport and has arranged financing for the costs of construction of such facilities.

purposes not directly related to a private facility until the commissioner of transportation has provided the director of the budget with the following projections to support any such allocation of funds: (a) effect on Stewart airport net operating revenues; (b) effect on new jobs for the state of New York; and (c) effect on net revenues of amortization of state capital expenditures. It is acknowledged that funds provided herein pursuant to the transportation capital facilities development act of 1967 are made available by repealing a portion of an appropriation for the payment of the state's share to the Niagara frontier transportation authority for construction, reconstruction, and improvement of airport or aviation capital projects at Buffalo international airport. It is the intent of the legislature that the repeal of such funds appropriated to the Niagara frontier transportation authority does not void the state's commitment to provide alternative state share funding sources to the authority to complete the airport or aviation capital projects at Buffalo international airport as originally provided by chapter 54, section 1, of the laws of 1982, as amended by chapter 54, section 3, of the laws of 1988. It is further the intent of the legislature that such alternative state share funding be provided to the authority no later than March 31, 1993 (17439114) (53271) 11,800,000 (re. \$824,000)
