For state aid to municipal corporations, private airports as author-
ized by section 14-h of the transportation law and for payment of
the state share of federally aided projects at Stewart and Republic
Airports, for the acquisition, construction, reconstruction, and
improvement of airport or aviation capital projects, including the
acquisition of real property, pursuant to the transportation capital
facilities development act of 1967 notwithstanding any inconsistent
provisions of law, in accordance with the schedule set forth below.
The moneys hereby appropriated are to be made available for payment
of state aid to municipal corporations, private airports as author-
ized by section 14-h of the transportation law and for payment of
the state share of federally aided projects at Stewart and Republic
Airports, including payment of liabilities incurred prior to April
1, 1991, as defined in the transportation capital facilities devel-
opment act of 1967. The items shown in the project schedule below
shall be for projects with a common purpose and may be interchanged
without limitation subject to the approval of the director of the
division of the budget.

Prior to requesting approval of a certificate of approval of avail-
ability for the moneys hereby appropriated, the commissioner of
transportation shall certify that each airport or aviation project
progressed under the program categories listed in the schedule below
has received federal approval and the federally authorized level of
financial assistance.
No funds shall be allocated for projects at Stewart Airport that are
directly related to a private facility until the commissioner of
transportation enters into a written agreement, subject to the
approval of the director of the budget, with such private entity
providing that such entity is committed to locate its facilities at
Stewart airport and has arranged financing for the costs of
construction of such facilities.
Funds shall not be allocated for projects at Stewart airport from this
appropriation for infrastructure improvements or other development
purposes not directly related to a private facility until the
commissioner of transportation has provided the director of the
budget with the following projections to support any such allocation
of funds: (a) effect on Stewart airport net operating revenues; (b)
effect on new jobs for the state of New York; and (c) effect on net
revenues of amortization of state capital expenditures. It is
acknowledged that funds provided herein pursuant to the transporta-
tion capital facilities development act of 1967 are made available
by repealing a portion of an appropriation for the payment of the
state's share to the Niagara frontier transportation authority for
construction, reconstruction, and improvement of airport or aviation
capital projects at Buffalo international airport. It is the intent
of the legislature that the repeal of such funds appropriated to the
Niagara frontier transportation authority does not void the state's
commitment to provide alternative state share funding sources to the
authority to complete the airport or aviation capital projects at
Buffalo international airport as originally provided by chapter 54,
section 1, of the laws of 1982, as amended by chapter 54, section 3,
of the laws of 1988. It is further the intent of the legislature
that such alternative state share funding be provided to the author-
ity no later than March 31, 1993 (17439114) (53271) .................

Provided that, except in municipalities where a state-funded anti-poverty task force or initiative already exists and is receiving or has received State funding for such purpose, the mayor of each municipality, or in the case of the Bronx, the borough president, will select a not-for-profit organization that provides services in the municipality, or in the case of the Bronx, the borough, to serve as the local coordinator of each such local task force. Provided further that, except in municipalities where a state-funded antipoverty task force or initiative already exists and is receiving or has received funding, each such taskforce shall make efforts to be comprised of, but not limited to, the following members: representatives from municipal, county, and/or state government; individuals who have lived in or currently live in households in poverty; individuals and advocates representing local not-for-profit and community organizations; representatives from local school districts; and representatives from local social services districts. Of the funds appropriated herein, the amount available for each local anti-poverty task force shall be determined based on the number of people in each municipality, or a borough, who are living in poverty as determined by the U.S. Census Bureau's 2010-14 American Community Survey Five-year Estimate provided that each local anti-poverty task force shall be eligible to receive funding in the following amounts: municipalities with fewer than 5,000 individuals in poverty shall each be eligible to receive $500,000; municipalities with between 5,000 and 10,000 individuals in poverty shall each be eligible to receive $1,000,000; municipalities with between 10,000 and 40,000 individuals in poverty shall each be eligible to receive $1,500,000; and municipalities, or a borough, with more than 40,000 individuals in poverty shall each be eligible to receive $2,750,000. The not-for-profit organization serving as coordinator will assemble the antipoverty task force using the criteria outlined above. Provided further that, with guidance and oversight of the commissioner of the office of temporary and disability assistance, each local anti-poverty task force
shall use data to identify high need issues and neighborhoods within
the municipality, or in the case of the Bronx, the borough; identify
problems that are common in neighborhoods throughout the munici-
pality, or in the case of the Bronx, the borough; receive input from
local residents; use data and resident input to select one or more
focus areas related to either one or more issues or one or more
neighborhoods; and develop a plan for how funding will be targeted
toward the identified issues or neighborhoods. Such focus areas may
include, but are not limited to: childhood poverty and homelessness.
Activities included in such plan may include, but are not limited
to: providing public assistance recipients opportunities to partic-

chronic homelessness or housing insecurity. Such plan must include
measurable objectives and a timeframe for completion and shall be

administration, provided however, that the amount used for planning
and administration may exceed such limitation if such amount is
approved by the commissioner of the office of temporary and disabil-
